Concord, NH: Speaker Pro Tempore Kimberly Rice (R-Hudson) applauded the signing of HB 1439 - relative to health care facility visitation policies - a bipartisan effort, as it officially became law today:

“This is a momentous success for New Hampshire families as HB 1439 becomes law and ensures no patient must ever face vulnerable moments alone. I am proud to have been at the forefront of this bipartisan effort, and with help from my legislative colleagues, make this a reality. Without causing disruption to important healthcare measures, families can now bring comfort to their loved ones and experience peace. Nobody will be left alone.”
