**Sherman A. Packard**  
**Speaker of the House**

**New Hampshire's Economy is On the Move**

Concord, NH: House Speaker Sherman Packard (R-Londonderry) responds to the latest Labor Force and Unemployment statistics from New Hampshire Employment Security:

“While other states are wrestling with poor job growth and their struggling economies, New Hampshire is leading the way and is on track to a fully recovered economy pre-covid. Our unemployment rate is at 2.5%, we have added 3,200 more jobs and our labor force has grown by 1,960.”

“We are enjoying record levels of success thanks to smart management and strong leadership from this Republican-led legislature. We will continue working on ways to invigorate our economy and improve our way of life through common-sense policies and sound, fiscal responsibility.”
