Concord, NH: Speaker Sherman Packard (R-Londonderry) regarding efforts to keep the former president off the New Hampshire ballot:

“Here in New Hampshire, we pride ourselves with the way we handle elections - nobody does it better. We know how to run transparent, fair and open elections. That’s why we are First in the Nation.

We are a nation of laws, not speculation. Under our laws, you are innocent until proven guilty. The former president has yet to be convicted of anything. I trust there will be no issue regarding ballot access and will leave that review to the Secretary of State and the Attorney General’s Office.”
