Expanding New Hampshire's Electrical Resources

Concord, NH – Senator Kevin Avard (R-Nashua) released the following statement on the passage of Senate Bill 54:

“Granite State families have struggled with high electricity costs over the last two years, so it’s important we continue to expand energy options with an all of the above approach,” stated Senator Avard.

“Senate Bill 54-FN requires more diverse and long-term options by electric distribution utilities for providing default energy service to customers in purchased power agreements as directed by the public utilities commission.”
