Hearing Report

TO: Members of the Senate

FROM: Michael Rollo, *Legislative Aide*

RE: Hearing report on **HB 1153** -An act relative to membership of the commission to study water infrastructure sustainability funding.

HEARING DATE: April 8, 2010

MEMBERS OF THE COMMITTEE PRESENT: Senators Fuller Clark, Merrill, Cilley, Lasky, Odell, and Bradley.

MEMBERS OF THE COMMITTEE ABSENT: None

Sponsor(s): Rep. Umberger, Carr 1; Rep. Bucu, Carr 1; Sen. Fuller Clark, Dist 24

What the bill does: This bill adds a member to the commission to study water infrastructure sustainability funding.

Who supports the bill: Sen. Fuller Clark, Dist. 24, Rep. Tom Bucu, Carr. 1, Rep. Karen Umberger, Carr. 1, Rep. Carla Skinder, Sull.1, David Bernier, Granite State Rural Water Assoc., Paul Whitemore, Granite State Rural Water Assoc.

Who opposes the bill: None.

Neutral position: None.

Summary of testimony received:

Rep. Umberger, Carr. 1- Prime Sponsor of HB 1153

- Hearing called to order at 8:35am
- Bill adds a representative of the Granite State Rural Water Association to the commission to study water infrastructure sustainability funding.
- GSRWA represents over 200 small water providers across the state.

- A member of GSRWA has been attending the commission meetings as a non-voting member.
- Sen. Merrill asked if the amended version of the HB 1153 corrected the RSA citation. Rep. Umberger replied that it did.

David Bernier, Superintendent, North Conway Water District

- In Support
- Has been attending meetings on behalf of GSRWA and would like to be a full member of the commission.

Paul Whitmore, Granite State Rural Water Association

- In support
- Organization supports small water districts and precincts.
- Appreciates the opportunity for smaller districts to have a voice at the table.

Rep. Tom Buco, Carr. 1

- In support.
- As a member of the commission he believes the inclusion of GSRWA would be a benefit.

Hearing was closed at 8:45am.

Funding: *Not applicable.*

Future Action: Senator Cilley moved Ought to Pass on HB 1153. Seconded by Senator Merrill. Motion adopted 6-0. Senator Fuller Clark for the committee.

Date: April 8, 2010
Time: 8:41 a.m.
Room: LOB Room 102

The Senate Committee on Energy, Environment and Economic Development held a hearing on the following:

House Bill 1153 relative to membership of the commission to study water infrastructure sustainability funding.

Members of Committee present:

- Senator Fuller Clark
- Senator Merrill
- Senator Cilley
- Senator Lasky
- Senator Odell
- Senator Bradley

The Chair, Senator Martha Fuller Clark, opened the hearing on House Bill 1153 and invited the prime sponsor, Representative Karen Umberger, to introduce the legislation.

Representative Karen Umberger: Good morning, Madam Chairman and...

Senator Martha Fuller Clark, D. 24: Good morning. Welcome to our Committee. Glad to have you.

Representative Umberger: Thank you ... And members of the Energy, Environment, and Economic Development Committee. I'm Representative Karen Umberger, and I represent Carroll County District 1. I'm here today to introduce to the Committee HB 1153, which is an act relative to the membership of the commission to study water infrastructure sustainability funding.

Last year, SB 60 - introduced by your Chairman - an act establishing a commission to study water infrastructure and sustainability was passed by both the Senate and the House and included representatives from numerous organizations throughout the state. However, left off the list of

representatives was an organization that represents over 200 small, rural water systems: Granite State Rural Water Association.

When I learned of this oversight, I contacted the Senator Fuller Clark to determine if it was a representative from this organization could be appointed to the committee. Unfortunately, this was not possible, and she recommended that a bill be introduced in the 2010 session to add Granite State Rural Water Association to the commission. She did indicate a representative could attend and participate during the meetings. Granite State Rural Water Association appointed David Bernier, the Superintendent of the North Conway Water Precinct, as their representative. He has been attending and participating in the meetings. HB 1153 simply officially adds Granite State Rural Water Association to the membership of the commission to study water infrastructure sustainability funding.

Please see Attachment #1 - Representative Umberger's typewritten testimony.

Representative Umberger: I will provide you a copy of a letter from Commissioner Burack that was sent to the House, supporting the appointment of the representative from Granite State Rural Water Association as a member of the committee.

Please see Attachment #2 - letter from New Hampshire Department of Environmental Services.

Representative Umberger: I ask for your support and thank you.

Senator Martha Fuller Clark, D. 24: Thank you so very much, and I'm very sorry that we had to go through this process to rectify an oversight. And we certainly have been delighted to have David Bernier at the meetings. So, thank you. Are there questions from anyone? Yes, Senator Merrill.

Senator Amanda Merrill, D. 21: Thank you, Madam Chair. Welcome, Representative. This bill was amended in the House, and my understanding was it was to correct a citation.

Representative Umberger: Yes.

Senator Amanda Merrill, D. 21: But I don't know. I must be missing a synapse this morning or something, but I can't see what ... It looks the same to me. Do you know if this...?

Representative Umberger: The portion...

Senator Amanda Merrill, D. 21: ...bill as it is now has the right citation...

Representative Umberger: Yes.

Senator Amanda Merrill, D. 21: ...in terms of the RSA?

Representative Umberger: Yes, it does.

Senator Amanda Merrill, D. 21: Or, it's not the RSA. It's a chapter.

Representative Umberger: Chaptered Law.

Senator Amanda Merrill, D. 21: Okay.

Representative Umberger: But yes.

Senator Martha Fuller Clark, D. 24: Yes, Senator Cilley?

Senator Jacalyn L. Cilley, D. 6: Thank you. Did you say this is Chaptered Law?

Representative Umberger: I believe it is.

Senator Jacalyn L. Cilley, D. 6: Okay. That may need to be changed.

Senator Amanda Merrill, D. 21: Oh, wait. Oh, oh. I see. Now I see the difference. Yeah. As introduced, it said RSA. Okay. And the amendment's the Chaptered Law.

Senator Martha Fuller Clark, D. 24: And the amendment corrected it to Chapter.

Senator Amanda Merrill, D. 21: Okay. Thank you.

Senator Martha Fuller Clark, D. 24: Okay.

Senator Jacalyn L. Cilley, D. 6: Then, we're going to need to change it.

Senator Martha Fuller Clark, D. 24: Why?

Senator Jacalyn L. Cilley, D. 6: Because chaptered studies go out of existence, according to House rules and the Senate Bill we passed this year,

on the odd years or the even years. Has to be a statutory commission, but we can talk about that in Exec Session.

Representative Umberger: Oh.

Senator Martha Fuller Clark, D. 24: Well, this is going to go out of existence by the end of this year.

Senator Jacalyn L. Cilley, D. 6: Oh, well then, we're fine.

Senator Martha Fuller Clark, D. 24: I don't believe that that's a problem.

Senator Jacalyn L. Cilley, D. 6: Oh, okay. Well, fine.

Senator Martha Fuller Clark, D. 24: No, what we're doing here is simply adding an additional member officially so that that member can vote. Okay?

Representative Umberger: Thank you.

Senator Martha Fuller Clark, D. 24: Thank you. I have some other individuals here. I'd like to call upon David Bernier. Welcome.

David Bernier, Granite State Rural Water Association: Good morning, Senator.

Senator Martha Fuller Clark, D. 24: Good morning.

Mr. Bernier: And I'll be very brief.

Senator Martha Fuller Clark, D. 24: Good.

Mr. Bernier: As you know...

Senator Martha Fuller Clark, D. 24: There is no opposition.

Mr. Bernier: I've been attending most of the meetings. I think I've only...

Senator Martha Fuller Clark, D. 24: Could you introduce yourself?

Mr. Bernier: ...missed one. My name is David Bernier. I'm the Superintendent for the North Conway Water Precinct, and I've been working and representing small systems for twenty-six-plus years. I was the Superintendent in Gorham, New Hampshire, for sixteen years, and then I was the Public Works Director in Dartmouth, Mass., in the south shore for

five years. And the last five and a half years, I've been the Superintendent for North Conway Water Precinct. And I'm also a Director for the Granite State Rural Water Association.

And I just ask that you support the bill. I'd like to be a voting member. I've been somewhat tight-lipped in the meetings only because I'm not a voting member, and I'd like to open up the opportunity to represent the small systems. And I'd like your support.

Senator Martha Fuller Clark, D. 24: Thank you very much.

Mr. Bernier: Thank you.

Senator Martha Fuller Clark, D. 24: Questions? I'd like to call upon Paul Whittemore.

Paul Whittemore, Granite State Rural Water Association: Good morning, Senator, Committee. I'm Paul Whittemore, and I represent Granite State Rural Water as a board member.

Senator Martha Fuller Clark, D. 24: And you will be brief?

Mr. Whittemore: I will be brief. My background: I worked for the Town of Derry, New Hampshire, for eleven years and went to Pembroke, New Hampshire, as a Superintendent for four years. I currently have my own backflow testing and repair business and get around to the small systems in New Hampshire to help them with some of their issues that they have.

We support this bill. It's important. The mission of Granite State Rural Water Association is to provide water and wastewater systems with professional technical assistance, training, and legislative representation. Rural water has supported public drinking water and wastewater systems and represented their interests for approximately twenty years. The Association has 265 members, ranging from municipal systems, mobile home parks, condominium associations, campgrounds, et cetera. And we bring a unique perspective, which is currently not represented on the commission.

Senator Martha Fuller Clark, D. 24: Officially.

Mr. Whittemore: Officially. Correct. It is that small systems do need our help, and our employees for Granite State Rural Water do get out their and listen to the issues and the concerns. And we get that feedback to Dave Bernier currently. It's very helpful, and it's a tremendous amount of work. And we appreciate Dave Bernier being on this commission. Thank you.

Please see Attachment #3 – Mr. Whittemore’s typewritten testimony.

Senator Martha Fuller Clark, D. 24: Thank you. Are there questions for Mr. Whittemore? Your testimony was very informative. Thank you.

Mr. Whittemore: Thank you.

Senator Martha Fuller Clark, D. 24: I’d now like to call upon Tom Buco, Representative.

Representative Tom Buco: Thank you, Madam Chair, and good morning, members of the Committee. My name is Tom Buco, and I represent Carroll County District 1, the towns of northern Carroll County. And as a co-sponsor and as a member of the infrastructure sustainability commission, I support the House Bill 1153. And since seventy percent of our municipal public water systems serve less than 10,000 customers, the commission would benefit by having a member of Granite State Rural Water Association on the commission. And that’s it.

Senator Martha Fuller Clark, D. 24: Are there questions for Representative Buco? Thank you very much. Is there anyone else who did not sign up and would like to speak? With that, I’ll close the hearing.

Hearing concluded at 8:51 a.m.

Respectfully submitted,

Marty Cote
Senate Secretary
8/23/10

Good Morning Madam Chairman and members of the Energy, Environment and Economic Development Committee.

I am Representative Karen Umberger and I represent Carroll County District 1. I am here today to introduce HB 1153, an act relative to membership of the commission to study water infrastructure sustainability funding.

Last year SB 60 introduced by Senator Martha Fuller Clark, an act establishing a commission to study water infrastructure sustainability funding was passed by the Senate and House and included representatives from numerous organizations throughout the state. However, left off the list of representatives was an organization that represents over 200 small rural water systems, Granite State Rural Water Association. When I learned of this oversight, I contacted Senator Martha Fuller Clark to determine if a representative from this organization could be appointed to the committee. Unfortunately, this was not possible and she recommended that a bill be introduced in the 2010 session to add Granite State Rural Water Association to the commission. She did indicate a representative could attend and participate during the meetings. Granite State Rural Water Association appointed David Bernier the Superintendent of the North Conway Water Precinct as their representative. He has been attending and participating in the meetings. HB 1153 simply officially adds Granite State Rural Water Association to the membership of the Commission to study water infrastructure sustainability funding.

I will provide you a copy of a letter from Commissioner Burack supporting the appointment of a representative from the Granite State Rural Water Association as a member of the Committee.

I ask for your support of HB 1153. thank you.

The State of New Hampshire
DEPARTMENT OF ENVIRONMENTAL SERVICES

Attachment #2

Thomas S. Burack, Commissioner

February 9, 2010

The Honorable Judith T. Spang
House Resources, Recreation and Development Commission
Legislative Office Building, Room 305
Concord, New Hampshire 03301

Re: HB 1153, an act relative to membership of the commission to study water infrastructure sustainability funding

Dear Chairman Spang:

Thank you for the opportunity to comment on HB 1153 which would add a representative of Granite State Rural Water Association (GSRWA) to the existing Commission to Study Water Infrastructure Sustainability Funding (Infrastructure Sustainability Commission) that was established in 2009. The Department of Environmental Services (DES) supports this bill.

In 2009, in recognition of the importance of water to New Hampshire's economic well being and quality of life, the Infrastructure Sustainability Commission was established by enactment of SB 60 into law to study the long term needs and methods to support New Hampshire's programs and environmental infrastructure that serve to protect, manage, and maintain significant surface and ground water resources. This commission includes a variety of diverse stakeholders with interests in water related infrastructure and programs and is scheduled to conclude its work report findings to the Legislature in November 2010.

The GSRWA is a professional organization with members who are operators of small rural water and wastewater systems from across New Hampshire. GSRWA would offer the unique and important perspective of these small rural systems as the Infrastructure Sustainability Commission evaluates needs and possible funding solutions. GSRWA representatives have attended many of the Commission meetings as observers and have already contributed to the Commission's discussions on infrastructure needs. Membership on the Infrastructure Sustainability Commission would formalize and elevate the GSRWA role as the Commission moves forward to complete its work this year.

Thank you for this opportunity to comment on this bill. Please feel free to call me at 271-2958, or Sarah Pillsbury at 271-1168, if you have any questions or need additional information.

Very truly yours,

Thomas S. Burack
Commissioner

Enclosure

cc: Senator Martha Fuller Clark
Representatives Umberger and Buco

TESTIMONY

Good morning Chairwoman Fuller Clark and members of the committee on Energy, Environment, and Development.

Thank you for this opportunity to provide testimony on HB 1153. My name is Paul Whittemore. I am the water system operator for Auburn Children's House, owner of New England Backflow, Inc. and a member of the board of directors for Granite State Rural Water Association.

Granite State Rural Water Association supports HB 1153 which adds a representative of the Association to the Commission to Study Water Infrastructure Sustainability Funding.

The mission of Granite State Rural Water Association is to provide water and wastewater systems with professional technical assistance, training, and legislative representation. Rural Water has supported public drinking water and wastewater systems and represented their interests for approximately twenty years. The Association has 265 members ranging from municipal systems, mobile home parks, condominium associations, campgrounds etc. We bring a unique perspective which is currently not represented on the commission.

The Association praises the creation of a commission to study water infrastructure sustainability funding and respectfully requests that a representative of our Association be permitted to serve on this commission. We would like to appoint David Bernier to serve on this commission. Mr. Bernier is Superintendent of the North Conway Water Precinct and a director on the GSRWA board. With his 25 years of experience, he would be an asset and bring a valuable viewpoint. David has followed the work of the commission and is interested in participating.

Thank you for your time and consideration.
