SB306 - *relative to the commercial and industrial construction property tax exemption.*

What the bill does: This bill makes the application procedure for the property tax exemption for commercial and industrial construction prospective, and permanently extends the authority for the exemption.

Who supports the bill: Sen. Gallus

Who opposes the bill: No one

Summary of testimony received:

Senator D'Allesandro introduced the bill for Senator Gallus who could not attend and read the following prepared remarks on his behalf:

Several years ago I was a sponsor of HB 1651 which sought to encourage development in Coos County. The idea was great and the City of Berlin adopted it and took full advantage. However, we soon found out that neither Berlin nor the Department of Revenue Administration had any method to deal with it properly in terms of filling out the MS forms and the like. But the biggest problem was that the way it was written allowed a party to apply for the property tax exemption after they had made their improvements. The problem with that was that there is no way for a municipality to know in advance who may be making such improvements that they then may apply for, and be eligible for after the fact. As a result, the City of Berlin was not able to budget or plan for paying out these exemptions which really end up being abatements in the City's budget.

This amendment to the law may not solve all the issues but it at least requires parties planning to apply for the exemption to do so in advance of the improvements, and therefore, in advance of applying for the exemption. This allows the municipality to budget for the exemptions which may be coming down the road. Additionally, the bill has language which gives an

extension to the sunset in order to allow municipalities in Coos County and elsewhere in the state to continue to take advantage of it. I strongly support this bill and believe it will serve to improve on the idea of HB 1651. This will still encourage development but now it will simply require that an applicant apply for the exemption prior to making the improvements.

What the bill does: This bill makes the application procedure for the property tax exemption for commercial and industrial construction prospective, and permanently extends the authority for the exemption.

Who supports the bill: Sen. Gallus, Patrick MacQueen (City of Berlin), Richard Parsons (Senator Gallus)

Who opposes the bill: Richard Vincent (City of Lebanon)

Summary of testimony received:

Richard Parsons introduced the bill for Senator Gallus.

Patrick MacQueen - City Manager Berlin

The current law establishing the exemption sunsets in 2013, this repeals the sunset. The City of Berlin hasn't been able to budget for the exemptions when they come up. This bill will require property owners who wish to take advantage of the exemption to apply for it before they begin the construction. The City fully supports the exemption. It is a mechanism to try to attract new businesses.

Senator Odell asked if the local government center had a position on this bill.

Mike Williams said they did not.

Senator Odell noted that Mr. Vincent representing the City of Lebanon signed in opposition to the bill and wondered why.

Mr. Williams said he would find out and report back to the committee.

Statement of Senator John Gallus
Senate Bill 306
January 10, 2012
Senate Ways and Means Committee

For the record, my name is John Gallus and I am the Senator for District 1 that includes all of Coos County and the northern towns in both Grafton and Carroll Counties.

I am the prime sponsor of Senate Bill 306, relative to the commercial and industrial construction property tax exemption.

Several years ago I was a sponsor of HB 1651 which sought to encourage development in Coos County. The idea was great and the City of Berlin adopted it and took full advantage. However, we soon found out that neither Berlin nor the Department of Revenue Administration had any method to deal with it properly in terms of filling out the MS forms and the like. But the biggest problem was that the way it was written allowed a party to apply for the property tax exemption after they had made their improvements. This amendment to the law may not solve all the issues but it at least requires parties planning to apply for the exemption to do so in advance of the improvements, and therefore, in advance of applying for the exemption. This allows the municipality to budget for the exemptions which may be coming down the road. I strongly support this bill and believe it will serve to improve on the idea of HB 1651. This will still encourage development but now it will simply require that an applicant apply for the exemption prior to making the improvements.

Mike, Was it SB 306 you asked about late yesterday?

I was confused when you asked me about the bill because I didn't remember taking a position on it. And, after reviewing the bill, I don't think I ever did take a position.
