Expenditures	Indeterminable	Indeterminable	Indeterminable	Indeterminable

METHODOLOGY:

This bill amends RSA 417-E:1 to authorize the Commissioner of the Insurance Department to enforce federal law which prohibits group health plans and health insurance issuers that provide mental health or substance use disorder benefits from imposing less favorable benefit limitations on those benefits than on medical/surgical benefits. The bill also requires the Commissioner to periodically evaluate certain parties to determine compliance and make those evaluations public.

The Insurance Department assumes that issuers have already incorporated the requirements of the federal law into their policy designs and it does not anticipate any fiscal impact to costs for premiums or premium tax revenue. The Department states there may be an increase to state expenditures to the extent it will need to contract services in order to perform required examinations and evaluations, but the Department did not provide a cost estimate for these services.

The Department of Administrative Services does not anticipate a fiscal impact to the State Health Benefit Plan for Employees and Retirees because it is a self-insured plan and not subject to managed care law.

The New Hampshire Municipal Association states this bill may impact health insurance rates

paid by municipalities but does not have the information to determine the fiscal impact if any.

**Who opposes the bill:** None

**Who is neutral on the bill:** Jennifer Patterson with NHID

**Summary of testimony presented:**

**Senator Soucy for Senator Morgan:**

- Senator Soucy stated that Senator Morgan worked with the NH Department of Insurance on the language of the bill and that it ensures the enactment of what is known in other states as the Wellstone Act which creates mental health parity.

**Jennifer Patterson, Director of Health Policy for the NH Insurance Department:**

- Patterson stated that although federal mental health parity law has been in effect and the department has had authority to enforce it, this legislation clarifies how the department can enforce mental health parity.
- Patterson pointed out that in line 4 of the bill the word "group" is stricken in order to extend mental healthy parity to the individual market.
- Patterson noted that this does not create a new mandate, but puts New Hampshire law in line with Federal law.
- She said that when the department does a market conduct exam it is intensive and at times a lengthy process.

**Senator Morse** asked what are the practices done currently in New Hampshire and is the state believed to be at parity.

- **Patterson** responded that parity law is complicated and once the department has completed it's examinations they will have a clearer idea if it's more stringent on the mental health services or the medical/surgical side.

**Senator Morgan** provided clarification when he stated that the bill aims to have New Hampshire law in line with federal law, aka the Wellstone Act. This will allow the New Hampshire Insurance Department to evaluate if the Wellstone Act is being followed in NH, and if there is mental health parity.

Re: New Futures Support for SB 272-FN (relative to mental health parity under the insurance laws),

Dear Senator Cavanaugh and Honorable Members of the Committee,

New Futures appreciates the opportunity to testify in support of SB 272-FN, relative to mental health parity under the insurance laws. New Futures is a nonpartisan, nonprofit organization that advocates, educates and collaborates to improve the health and wellness of all New Hampshire residents. In this role, we work extensively with policy makers, service providers and families afflicted by substance misuse and mental illness to prevent, address and reduce behavioral health issues in our state.

New Futures stands strongly in support of SB 272-FN, as it aims to further ensure access to mental health and substance use treatment services for individuals and families across the Granite State. Currently, the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (Parity Law) requires health insurance carriers to achieve coverage parity between benefits for mental health and substance use disorders and medical and surgical benefits.

As proposed, SB 272-FN would strengthen the state's enforcement efforts by requiring the N.H. Insurance Department to periodically complete parity compliance analyses for the fully insured market. Codified in statute, these reports would go far to ensure that New Hampshire insurers remain in compliance with the federal Parity Law, and that our state provides equal access to mental health and substance use treatment for individuals in need. This will help not only to reinforce New Hampshire's current response to the ongoing addiction and mental health crises, but will help ensure that our state maintains a robust treatment network capable of addressing future public health epidemics as they emerge.

For these reasons, New Futures respectfully requests that the Committee recommend this bill Ought to Pass. Please do not hesitate to contact me if you have questions or need additional information.

Respectfully submitted,

Jake Berry  
Vice President of Policy  
New Futures

THE COMMITTEE ON Commerce

to which was referred SB 272-FN

AN ACT

relative to mental health parity under the  
insurance laws.

Having considered the same, the committee recommends that the Bill

OUGHT TO PASS WITH AMENDMENT

BY A VOTE OF: 5-0

AMENDMENT # 2019-0391s

Senator Jon Morgan  
For the Committee

This bill authorizes the insurance commissioner to enforce the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 and requires the commissioner to examine and evaluate health insurers, health service corporations, and health maintenance organizations for compliance. This bill will allow the insurance commissioner to gauge where the state is in terms of reaching mental health parity and will show what areas need the most improvement as well as which areas are prospering. The adopted amendment allows the department of insurance to properly assess provider practices and how those factor into achieving mental health parity.
