REPORT OF COMMITTEE

The Minority of the Committee on Health, Human Services and Elderly Affairs to which was referred HB 221,

AN ACT making the state vaccine registry an opt-in program. Having considered the same, and being unable to agree with the Majority, report with the recommendation that the bill OUGHT TO PASS.

Rep. Leah Cushman

FOR THE MINORITY OF THE COMMITTEE

MINORITY COMMITTEE REPORT

Committee:	Health, Human Services and Elderly Affairs
Bill Number:	HB 221
Title:	making the state vaccine registry an opt-in program.
Date:	March 1, 2021
Consent Calendar:	REGULAR
Recommendation:	OUGHT TO PASS

STATEMENT OF INTENT

This bill would align current rules with Article 2b of the NH State Constitution, supported by over 80% of NH voters in 2018, which states “An individual's right to live free from governmental intrusion in private or personal information is natural, essential, and inherent.” This bill requires written consent in order for an individual’s private vaccination information, including refusals, to be entered into a government database known as the NHIIS, or vaccine registry. Currently, rules requires all vaccination encounters, including refusals, to be entered into the registry unless an individual opts out. There is nothing in statute requiring individuals to be informed of their right to opt out, and the Department of Health and Human Services has failed to reveal the procedure for opting out, while admitting the information in the registry will be used to target those who decline vaccination. The minority believes that the right of individuals to maintain privacy from government is essential, and that covert data collection is wrong. The vaccine registry has been in statute since 1998 but was never created due to mismanagement. The state has been without a vaccine registry from its birth to this very day, yet it boasts some of the highest vaccination rates in the country. There is no evidence that simply requiring consent for data collection would have any negative effects on the people of NH. Failure to ensure an opt-in process will result in the harm of intentionally capturing citizens’ private health information without their consent or knowledge. The current process is repugnant to the NH Bill of Rights and must be changed. Therefore the minority recommends Ought to Pass on this bill.

HOUSE OF REPRESENTATIVES

REPORT OF COMMITTEE

The Majority of the Committee on Health, Human Services and Elderly Affairs to which was referred HB 221,

AN ACT making the state vaccine registry an opt-in program. Having considered the same, report the same with the following resolution: RESOLVED, that it is INEXPEDIENT TO LEGISLATE.

Rep. Lucy Weber

FOR THE MAJORITY OF THE COMMITTEE

MAJORITY COMMITTEE REPORT

Committee:	Health, Human Services and Elderly Affairs
Bill Number:	HB 221
Title:	making the state vaccine registry an opt-in program.
Date:	March 1, 2021
Consent Calendar:	REGULAR
Recommendation:	INEXPEDIENT TO LEGISLATE

STATEMENT OF INTENT

Currently, the state vaccine registry is operated on an opt-out basis; that is, any person not wanting their data included in the registry may refuse. This bill would make the registry an opt-in program; wherein all data would be excluded from the registry unless the person specifically requests to be included. All members of the committee support the individual in retaining control over their health care data. The majority believe that the current program properly balances the need for accurate health care data to inform decision-making and health care policy with the right of the individual to control their health care data. We heard testimony that when vaccines are administered, patients are informed of their right to opt out of the reporting to the registry via the informed consent form. Because every individual who desires not to be included in the registry already has the right to be excluded, the majority believe that including all others in the registry is permissible and will advance our knowledge of vaccination over time.

Vote 14-7.

TESTIMONY

Representative Lang

NH has a state constitutional amendment protecting a person's personal data protected from state.
The opt-in process needed for informed consent.
A form of some kind on which the opt-in with signature
Ask permission to include data at collection point.
If opt-in is assumed, too much sharable data.

Beth Daly - opposed

Immunization Information System - IIS
Helps families keep updated vacc. records.
Helps in advanced purchasing of vaccinations
Helps to identified underserved populations.
Opt-out process on website

In addition to website it needs to be in written and oral form.

Rep. Cushman - Nurse,

Opt-outs get lost
Informed consent more important
HPPA you have to get specific permission to share.

Holly Stevens - oppose

Identify coverage gaps.
Records can be slow to move to new PCP
Pharmacy administered vaccines often to not get put into medical records.

Laura Condon

Bill clarifies the already legislated informed consent
Parents have no access to this information
Have already spent 2+ million already spent on this since 2014 and is still not operational
Even refusals are put in registry

Paula Minnehan - oppose

Opt-in cumbersome

Can impede health decisions.

Representative Jess Edwards

Opt-out tricks more people into sharing their data

Ignores your data is yours.

Courtney Tanner -

Registry is another tool to use in health care.

Thomas McLeod -

Submitted a right to know request from DHHS- still waiting for reply

This data is used for not just medical research but also for political data ie. Market research

Dr. Wendy Gladstone - oppose

The cost of an additional document

Dr. Maria Ramas - oppose

Will reduce duplicate doses.

Dr. Hayes - oppose

It is one part of a robust public health infrastructure.

Eric Pauer - support

It is a small price to pay for explicit consent

Rep. Melissa Blasek - support

People can be actively responsible for their own vaccination records.

Alexandria Manilla - support

Right of privacy is more important than a large data base.

Kelly Portenza - support

Clarifies and explicitly state the existing law.

Respectfully submitted,

Rep. Beth Folsom, Clerk

Testimony for HB 221, relative to making the state vaccine registry an opt-in program
House Health, Human Services and Elderly Affairs Committee
Monday, February 8, 2021

Good morning Representative Pearson and members of the committee. My name is Beth Daly, Chief of the Bureau of Infectious Disease Control at the New Hampshire Department of Health and Human Services (DHHS). I am here today to provide testimony in opposition to HB 221, relative to making the state vaccine registry an opt-in program.

An Immunization Information System (IIS), also called an immunization registry, is an electronic system used to track administration of vaccines. An IIS contains vaccination records for individuals and other vaccine ordering and management information. It offers numerous benefits to public health agencies, healthcare providers, and individuals and is a key component of immunization best practices recommended by the Centers for Disease Control and Prevention (CDC). Decreased duplicate immunizations, decreased healthcare costs, and increased immunization rates are all documented benefits of an IIS ([Groom et al.](#)). An IIS can prompt providers to use the most up-to-date immunization recommendations and can provide technology to remind patients when immunizations are due. Participating patients and families benefit from having access to a complete electronic immunization record that includes information from multiple healthcare organizations regardless of where a vaccine was received. Public health agencies can use an IIS to assure accountability of publicly-purchased vaccines and to target communities with low vaccination rates to prevent infectious disease outbreaks. Besides New Hampshire, all 49 states and the District of Columbia have an IIS in place.

RSA 141-C:20-f, which became effective on August 14, 1998, directs the Department to establish and maintain a state immunization registry. This statute expressly states that patient participation in the registry is voluntary. The statute directs the Department to adopt rules under RSA 541-A concerning the establishment, maintenance of, and reporting to, the immunization registry. These rules ([He-P 307](#)) outline a process for patients to opt out of participation. HB 221 seeks to change New Hampshire's registry to one that is opt-in, which the Department opposes for a number of reasons. First and foremost, New Hampshire's current opt-out approach already protects and individual's ability to choose not to participate, while not adding costly burden to providers and patients.

Nationwide, 11 states require IIS participation with no right to opt-out. Among the remaining states, all except three have opt-out policies rather than opt-in, in large part because of the lower cost, lower burden, and increased public health benefits of the opt-out model. Texas is one of only three states with an opt-in policy, which has been in place for many years. Texas is now working to implement a change to become opt-out after conducting an evaluation of the cost of their opt-in model and found that it cost \$2.00-\$2.64 per child depending on the location where consent was obtained, compared to an estimated cost of \$0.29 per child with an opt-out model. This additional cost associated with obtaining consent for Texas' opt-in IIS were estimated at \$1,389,804.61 annually ([Boom et al.](#)).

Nationally, the proportion of patients who opt out of IIS participation is just 5 – 10%. In New Hampshire, those individuals who do not want to participate already have a process in place to opt-out. Requiring that providers ask every patient to opt-in to the registry when 90 – 95% of the population do not opt out, creates substantial unnecessary burden and cost. Keeping the registry opt-out will reduce administrative burden, free up more time for healthcare providers to engage in appropriate patient care activities, and allow healthcare providers to efficiently document patient records. Opt-out registries also ensure that patient’s immunization records are available for them as they transition between providers or if they are required to show proof of immunizations when enrolling in school or college or applying for a job. Lastly, IISs provide information to healthcare providers and public health officials on vaccine coverage, which ensures patients have appropriate vaccinations and allows the Department to prevent and respond to infectious disease outbreaks. An opt-in registry will result in incomplete and low quality information that will significantly decrease its utility.

National public health experts recommend opt-out consent policies in order to lower the barrier to comprehensive reporting to IISs ([Martin et al.](#)). Such policies respect an individual’s right to privacy, including the right to exclude information from public health databases, while maximizing the availability of needed data for delivering appropriate medical care and high-quality public health services. Switching from opt-out to opt-in has been estimated to cost more than \$1 million per year based on the Texas study. As such, the Department strongly opposes HB 221.

Thank you for the opportunity to testify. I would be happy to address any questions you have.

Elizabeth R. Daly, DrPH, MPH
Chief, Bureau of Infectious Disease Control

AMMONOOSUC COMMUNITY HEALTH SERVICES, INC.

February 13, 2021

Dear Health, Human Services and Elderly Affairs Chair and Committee,

In consideration of **HB 221 “making the state vaccine registry an opt-in program,”** I grant that the balance between what is in the public's best interest, vis-à-vis public health is a delicate balance with that which is in the individuals' freedoms.

As early as the United States Declaration of Independence in the now famous phrase, ...” Life, Liberty, and the Pursuit of Happiness,” (truths). There is recognition of this in the order of the nouns in a prerequisite order i.e., Life comes before Liberty in that without Life, Liberty is moot. Although these truths were held to be self-evident and are the foundation upon which US law is written they are not in and of itself not legally binding. Hence, I find it imperative that I consider the legal precedents of the United States Supreme Court.

Specifically, I consider, *Jacobson v. Massachusetts*, 197 U.S. 11 (1905), and in *Zucht v. King* (1922).

In *Jacobson v Massachusetts*, the United States Supreme court upheld the states authority to enforce compulsory vaccination and as such the documentation there of would be implicit and a vaccine registration that abides by other state and federal privacy laws, notwithstanding the constitutionality of said laws would logically follow.

In *Zucht v King* the United States Supreme court referenced the *Jacobson v. Massachusetts* decision in again holding that a school system could refuse admission to a student who failed to receive a required vaccination.

In both cases the United States Supreme Court's decision is consistent with the of Life, Liberty, and the Pursuit of Happiness in that without life (in these decisions protected with vaccination), liberty and the pursuit of happiness are moot. Not merely moot for the individual, furthermore for the broader public as in the case of vaccinations, those not being vaccinated pose an imminent risk to the broader public and their individual and collective pursuit of life, liberty, and the pursuit of happiness.

As such the HB 221 as presented is in conflict with the above supreme court decisions that have been continuously upheld. Categorically they understand that from time to time in the course of human events a degree of personal liberty may need to be attenuated in an effort to protect the greater individual and public health as a whole.

Furthermore, the scientific and medical factual evidence is irrefutable with regard to the savings in terms of morbidity, mortality, and treasure. Vaccines have demonstrated themselves categorically to be most cost-effective preventive healthcare that science and medicine have developed in the last hundred years.

AMMONOOSUC COMMUNITY HEALTH SERVICES, INC.

With regard to morbidity and mortality the data are conclusive, as follows. Furthermore this bill compromises data as incomplete thus placing the public at risk in unknown and potentially dangerous ways.

The most recent summation of vaccine success is found within the curated auspices of the United States Centers for Disease Control include and are not limited to the following.

Achievements in Public Health, 1900-1999 Impact of Vaccines Universally Recommended for Children -- United States, 1990-1998 (<https://www.cdc.gov/mmwr/preview/mmwrhtml/00056803.htm>), Wherein the USA data demonstrate the following for three significant diseases that were a scourge in the last 100 years and due to vaccination have been abated to near zero!

- Smallpox eradicated as of 1985 saving an average of 48, 164 cases and 1,528 deaths per year (1901-1904)
- Polio eradicated as of 1991 saving an average of 16,316 cases and 1,528 deaths per year(1951-1954)
- Measles by 1998 reaching a low of 89 cases documented as coming from outside the USA thus a savings of an average of 503,282 cases and 432 deaths per year (1958-1962)

With regard to treasure the data is equally conclusive as follows.

- The Centers for Disease Control and Prevention (CDC) estimates 21 million hospitalizations, and 732,000 deaths will be avoided among children born over a 20-year period (1994-2013) because of vaccines.
- The US Census Data estimate that the average US Citizen will make approximately \$2.7 million.
- Hence vaccines by saving 732,000 deaths times a lifetime average of \$2.7 million earned means that vaccines contribute over \$356.4 Billion!

In summary vaccinations as a public health intervention and the subsequent minimal essential supporting administrative public health infrastructure is predicated upon sound constitutionally legal grounds, eliminates over 21 million hospitalizations, and 732,000 deaths per year, and generates over\$356 Billion in revenue over the course of those lives saved!

Please let me know if I can be of more assistance in your legislative efforts.

Be mindful, be active, and be well,

Ed

Re: New Futures' testimony in opposition to HB 221

Dear Chair Pearson and Members of the Committee:

New Futures appreciates the opportunity to testify in opposition to HB 221, making the state vaccine registry an opt-in program. New Futures is a nonpartisan, nonprofit organization that advocates, educates, and collaborates to improve the health and wellness of all New Hampshire residents. In this role, we work extensively with policy makers, health care providers and families to improve overall public health and improve health equity across the Granite State. New Hampshire is the only state that still does not have a functional vaccine registry. According to DHHS and the Governor, it will be going live very soon.

According to the American Academy of Pediatrics, “[i]mmunization information systems (IISs), otherwise known as registries, are confidential, population-based, computerized databases that record all immunization doses administered by participating providers to persons residing within a given geopolitical area. They offer an opportunity for confidential, secure, centralized, and immediate access to immunization records for authorized providers. IISs can be useful in identifying under- and over-immunized children, monitoring community immunization rates, identifying coverage gaps, and improving vaccination rates.”

IIS can monitor the immunization status of individuals and population groups, and generate reminder/recall notices and official immunization records. Given the current pandemic and the difficulty the state has had using only the federal system, it is important that New Hampshire develop a robust registry system.

Vaccine registries provide many benefits that would be lost if the system were an “opt-in” rather than an “opt-out.” It is not mandatory for anyone to have their vaccine health information included in the registry. Anyone can choose to opt-out. However, opt-in systems would leave out many simply because of the barrier that an opt-in program creates. A person can opt-out by simply telling their health care provider not to include their immunization information in the registry; it is that simple.

For all the reasons stated above, New Futures strongly urges the Committee to vote Inexpedient to Legislate on HB 221.

Please do not hesitate to contact me if you have any questions.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Holly A. Stevens", with a long horizontal flourish extending to the right.

Holly A. Stevens, Esq.
Health Policy Coordinator

Pfizer Forecasts Roughly \$15 Billion in Revenue for 2021 From COVID-19 Vaccine

BY LORENZ DUCHAMPS | February 2, 2021 Updated: February 2, 2021

[A](#) [A](#) [Print](#)

Pfizer expects total [revenue](#) in sales of CCP virus vaccines it has developed with Germany’s BioNTech to generate roughly \$15 billion in 2021.

The New York City-based drugmaker revealed the revenue projection in a [statement](#) on Tuesday, adding that the expectation primarily includes doses that are expected to be delivered this year under existing contracts, which may be subject to adjustments as additional contracts are added or removed.

Pfizer, one of the world’s largest pharmaceutical companies, was the first to get U.S. emergency use authorization for a vaccine it developed together with BioNTech in response to the [CCP \(Chinese Communist Party\) virus](#) pandemic, commonly referred to as the novel coronavirus, which causes the disease COVID-19.

It is the first time Pfizer revealed an expectation for its vaccine sales as it strives to deliver 2 billion doses of the vaccine in 2021.

The drugmaker has already supplied 65 million doses globally and 29 million doses to the United States as of Jan. 31. It said it expects to supply 200 million doses to the U.S. government by the end of May.

A nurse prepares to administer the Pfizer-BioNTech COVID-19 vaccine at Guy's Hospital in London, Britain, on Dec. 8, 2020. (Frank Augstein/Pool via Reuters)

The company announced forecasts for their CCP virus vaccine sales as it also disclosed a total expected profit for this year, excluding the contributions from the COVID-19 vaccine.

Pfizer forecast 2021 sales of between \$44.4 billion to \$46.4 billion. With vaccine sales included, the sales are expected to amount to a total of between \$59.4 billion and \$61.4 billion, with COVID-19 vaccine sales projected to contribute nearly 25 percent.

In contrast, 2020 sales from its best-selling pneumonia vaccine Prevnar 13 represented nearly 14 percent of Pfizer's sales. Full-year revenue for last year totaled \$41.9 billion, an increase of \$736 million, or 2 percent, compared to 2019, Pfizer revealed in the statement.

Dr. Albert Bourla, Pfizer's Chairman and Chief Executive Officer stated that "2020 has been a transformational year," adding that the companies' "record-breaking success at developing a vaccine against COVID-19, along with our partner BioNTech, is just one example of what we believe this new Pfizer is capable of achieving."

Albert Bourla (R), chief executive officer of Pfizer, waits to ring the closing bell at the New York Stock Exchange in New York City, N.Y., on Jan. 17, 2019. (Drew Angerer/Getty Images)

"As the world looks forward to 2021 with renewed hope for better days ahead, we also look forward with renewed confidence and resolve in our ability to fulfill our purpose, to deliver breakthroughs that change patients' lives," Bourla continued.

The company now expects full-year adjusted earnings of \$3.10 to \$3.20 per share, up from its prior forecast of \$3 to \$3.10 per share.

Excluding items, Pfizer earned 42 cents per share, but missed market expectation of 48 cents per share, according to IBES data from Refinitiv.

FACT SHEET FOR RECIPIENTS AND CAREGIVERS

EMERGENCY USE AUTHORIZATION (EUA) OF THE PFIZER-BIONTECH COVID-19 VACCINE TO PREVENT CORONAVIRUS DISEASE 2019 (COVID-19) IN INDIVIDUALS 16 YEARS OF AGE AND OLDER

You are being offered the Pfizer-BioNTech COVID-19 Vaccine to prevent Coronavirus Disease 2019 (COVID-19) caused by SARS-CoV-2. This Fact Sheet contains information to help you understand the risks and benefits of the Pfizer-BioNTech COVID-19 Vaccine, which you may receive because there is currently a pandemic of COVID-19.

The Pfizer-BioNTech COVID-19 Vaccine is a vaccine and may prevent you from getting COVID-19. There is no U.S. Food and Drug Administration (FDA) approved vaccine to prevent COVID-19.

Read this Fact Sheet for information about the Pfizer-BioNTech COVID-19 Vaccine. Talk to the vaccination provider if you have questions. It is your choice to receive the Pfizer-BioNTech COVID-19 Vaccine.

The Pfizer-BioNTech COVID-19 Vaccine is administered as a 2-dose series, 3 weeks apart, into the muscle.

The Pfizer-BioNTech COVID-19 Vaccine may not protect everyone.

This Fact Sheet may have been updated. For the most recent Fact Sheet, please see www.cvdvaccine.com.

WHAT YOU NEED TO KNOW BEFORE YOU GET THIS VACCINE?

WHAT IS COVID-19?

COVID-19 disease is caused by a coronavirus called SARS-CoV-2. This type of coronavirus has not been seen before. You can get COVID-19 through contact with another person who has the virus. It is predominantly a respiratory illness that can affect other organs. People with COVID-19 have had a wide range of symptoms reported, ranging from mild symptoms to severe illness. Symptoms may appear 2 to 14 days after exposure to the virus. Symptoms may include: fever or chills; cough; shortness of breath; fatigue; muscle or body aches; headache; new loss of taste or smell; sore throat; congestion or runny nose; nausea or vomiting; diarrhea.

WHAT IS THE PFIZER-BIONTECH COVID-19 VACCINE?

The Pfizer-BioNTech COVID-19 Vaccine is an unapproved vaccine that may prevent COVID-19. There is no FDA-approved vaccine to prevent COVID-19.

The FDA has authorized the emergency use of the Pfizer-BioNTech COVID-19 Vaccine to prevent COVID-19 in individuals 16 years of age and older under an Emergency Use Authorization (EUA).

For more information on EUA, see the “**What is an Emergency Use Authorization (EUA)?**” section at the end of this Fact Sheet.

WHAT SHOULD YOU MENTION TO YOUR VACCINATION PROVIDER BEFORE YOU GET THE PFIZER-BIONTECH COVID-19 VACCINE?

Tell the vaccination provider about all of your medical conditions, including if you:

- have any allergies
- have a fever
- have a bleeding disorder or are on a blood thinner
- are immunocompromised or are on a medicine that affects your immune system
- are pregnant or plan to become pregnant
- are breastfeeding
- have received another COVID-19 vaccine

WHO SHOULD GET THE PFIZER-BIONTECH COVID-19 VACCINE?

FDA has authorized the emergency use of the Pfizer-BioNTech COVID-19 Vaccine in individuals 16 years of age and older.

WHO SHOULD NOT GET THE PFIZER-BIONTECH COVID-19 VACCINE?

You should not get the Pfizer-BioNTech COVID-19 Vaccine if you:

- had a severe allergic reaction after a previous dose of this vaccine
- had a severe allergic reaction to any ingredient of this vaccine

WHAT ARE THE INGREDIENTS IN THE PFIZER-BIONTECH COVID-19 VACCINE?

The Pfizer BioNTech COVID-19 Vaccine includes the following ingredients: mRNA, lipids ((4-hydroxybutyl)azanediyl)bis(hexane-6,1-diyl)bis(2-hexyldecanoate), 2 [(polyethylene glycol)-2000]-N,N-ditetradecylacetamide, 1,2-Distearoyl-sn-glycero-3-phosphocholine, and cholesterol), potassium chloride, monobasic potassium phosphate, sodium chloride, dibasic sodium phosphate dihydrate, and sucrose.

HOW IS THE PFIZER-BIONTECH COVID-19 VACCINE GIVEN?

The Pfizer-BioNTech COVID-19 Vaccine will be given to you as an injection into the muscle.

The Pfizer-BioNTech COVID-19 Vaccine vaccination series is 2 doses given 3 weeks apart.

If you receive one dose of the Pfizer-BioNTech COVID-19 Vaccine, you should receive a second dose of this same vaccine 3 weeks later to complete the vaccination series.

HAS THE PFIZER-BIONTECH COVID-19 VACCINE BEEN USED BEFORE?

The Pfizer-BioNTech COVID-19 Vaccine is an unapproved vaccine. In clinical trials, approximately 20,000 individuals 16 years of age and older have received at least 1 dose of the Pfizer-BioNTech COVID-19 Vaccine.

WHAT ARE THE BENEFITS OF THE PFIZER-BIONTECH COVID-19 VACCINE?

In an ongoing clinical trial, the Pfizer-BioNTech COVID-19 Vaccine has been shown to prevent COVID-19 following 2 doses given 3 weeks apart. The duration of protection against COVID-19 is currently unknown.

WHAT ARE THE RISKS OF THE PFIZER-BIONTECH COVID-19 VACCINE?

Side effects that have been reported with the Pfizer-BioNTech COVID-19 Vaccine include:

- injection site pain
- tiredness
- headache
- muscle pain
- chills
- joint pain
- fever
- injection site swelling
- injection site redness
- nausea
- feeling unwell
- swollen lymph nodes (lymphadenopathy)

There is a remote chance that the Pfizer-BioNTech COVID-19 Vaccine could cause a severe allergic reaction. A severe allergic reaction would usually occur within a few minutes to one hour after getting a dose of the Pfizer-BioNTech COVID-19 Vaccine. Signs of a severe allergic reaction can include:

- Difficulty breathing
- Swelling of your face and throat
- A fast heartbeat
- A bad rash all over your body
- Dizziness and weakness

These may not be all the possible side effects of the Pfizer-BioNTech COVID-19 Vaccine. Serious and unexpected side effects may occur. Pfizer-BioNTech COVID-19 Vaccine is still being studied in clinical trials.

WHAT SHOULD I DO ABOUT SIDE EFFECTS?

If you experience a severe allergic reaction, call 9-1-1, or go to the nearest hospital.

Call the vaccination provider or your healthcare provider if you have any side effects that bother you or do not go away.

Report vaccine side effects to **FDA/CDC Vaccine Adverse Event Reporting System (VAERS)**. The VAERS toll-free number is 1-800-822-7967 or report online to <https://vaers.hhs.gov/reportevent.html>. Please include "Pfizer-BioNTech COVID-19 Vaccine EUA" in the first line of box #18 of the report form.

In addition, you can report side effects to Pfizer Inc. at the contact information provided below.

Website	Fax number	Telephone number
www.pfizersafetyreporting.com	1-866-635-8337	1-800-438-1985

WHAT IF I DECIDE NOT TO GET THE PFIZER-BIONTECH COVID-19 VACCINE?

It is your choice to receive or not receive the Pfizer-BioNTech COVID-19 Vaccine. Should you decide not to receive it, it will not change your standard medical care.

ARE OTHER CHOICES AVAILABLE FOR PREVENTING COVID-19 BESIDES PFIZER-BIONTECH COVID-19 VACCINE?

Currently, there is no approved alternative vaccine available for prevention of COVID-19. FDA may allow the emergency use of other vaccines to prevent COVID-19.

CAN I RECEIVE THE PFIZER-BIONTECH COVID-19 VACCINE WITH OTHER VACCINES?

There is no information on the use of the Pfizer-BioNTech COVID-19 Vaccine with other vaccines.

WHAT IF I AM PREGNANT OR BREASTFEEDING?

If you are pregnant or breastfeeding, discuss your options with your healthcare provider.

WILL THE PFIZER-BIONTECH COVID-19 VACCINE GIVE ME COVID-19?

No. The Pfizer-BioNTech COVID-19 Vaccine does not contain SARS-CoV-2 and cannot give you COVID-19.

KEEP YOUR VACCINATION CARD

When you get your first dose, you will get a vaccination card to show you when to return for your second dose of Pfizer-BioNTech COVID-19 Vaccine. Remember to bring your card when you return.

ADDITIONAL INFORMATION

If you have questions, visit the website or call the telephone number provided below.

To access the most recent Fact Sheets, please scan the QR code provided below.

Global website	Telephone number
<p data-bbox="370 432 646 464">www.cvdvaccine.com</p> 	<p data-bbox="954 506 1192 575">1-877-829-2619 (1-877-VAX-CO19)</p>

HOW CAN I LEARN MORE?

- Ask the vaccination provider.
- Visit CDC at <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.
- Visit FDA at <https://www.fda.gov/emergency-preparedness-and-response/mcm-legal-regulatory-and-policy-framework/emergency-use-authorization>.
- Contact your local or state public health department.

WHERE WILL MY VACCINATION INFORMATION BE RECORDED?

The vaccination provider may include your vaccination information in your state/local jurisdiction's Immunization Information System (IIS) or other designated system. This will ensure that you receive the same vaccine when you return for the second dose. For more information about IISs visit: <https://www.cdc.gov/vaccines/programs/iis/about.html>.

WHAT IS THE COUNTERMEASURES INJURY COMPENSATION PROGRAM?

The Countermeasures Injury Compensation Program (CICP) is a federal program that may help pay for costs of medical care and other specific expenses of certain people who have been seriously injured by certain medicines or vaccines, including this vaccine. Generally, a claim must be submitted to the CICP within one (1) year from the date of receiving the vaccine. To learn more about this program, visit www.hrsa.gov/cicp/ or call 1-855-266-2427.

WHAT IS AN EMERGENCY USE AUTHORIZATION (EUA)?

The United States FDA has made the Pfizer-BioNTech COVID-19 Vaccine available under an emergency access mechanism called an EUA. The EUA is supported by a Secretary of Health and Human Services (HHS) declaration that circumstances exist to justify the emergency use of drugs and biological products during the COVID-19 pandemic.

The Pfizer-BioNTech COVID-19 Vaccine has not undergone the same type of review as an FDA-approved or cleared product. FDA may issue an EUA when certain criteria are met, which includes that there are no adequate, approved, available alternatives. In addition, the FDA decision is based on the totality of scientific evidence available showing that the product may be effective to prevent COVID-19 during the COVID-19

pandemic and that the known and potential benefits of the product outweigh the known and potential risks of the product. All of these criteria must be met to allow for the product to be used in the treatment of patients during the COVID-19 pandemic.

The EUA for the Pfizer-BioNTech COVID-19 Vaccine is in effect for the duration of the COVID-19 EUA declaration justifying emergency use of these products, unless terminated or revoked (after which the products may no longer be used).

Subject: HB221 - support
Importance: Normal

Members of the committee,

I am writing to you today in support of HB221, which allows for opt in for the vaccine registry, rather than making it mandatory or opt out.

Reporting on private medical information should always be voluntary, especially when that medical information can then become public.

Further...

- Consent must be actively given, not simply presumed.
- The Registry is just a database, not actual vaccines therefore,
- This is not a debate about whether to get a vaccine or not. The issue is who keeps your records...you and your doctor/pharmacist/school nurse or The State?
- Public listing amounts to public shaming - especially of underprivileged groups or those who have a medical exception to the vaccines as they exist right now. - shaming can lead to greater chance polarization, bullying and violence.

Please vote in support of this bill to protect the privacy and lives of NH citizens.

Thank you
J Grenier

Subject: HB221 Medical Privacy
Importance: Normal

Dear Sirs,

A division exists in our society, one of many. The vaccinated versus the unvaccinated- each group believing they are the healthier group. I think an argument can be made and proven as to which is correct but that is not my point on this day...

Our medical history and medical choices should be our right to keep private just like any other choices we make per our paradigm.

I do not want my health or my children's health and vaccine history made public to anyone I have not personally met. It's not such a jump as to imagine how this could be used against me as a parent or my children and the opportunities made to them in this life.

It's my body and my medical freedom as to what I want to have put in it. For those that assume the health of our nation is provided by the vaccine gods, one can imagine how far "they" would go to make sure we hit the "herd immunity" status and rid disease forever. I believe this vaccine registry can fall into the wrong hands of someone who may have good intentions but too much power. Please let us opt out of such a registry to protect our privacy, livelihood and our very lives. Please keep NH free!

Importance: Normal

Edit: I do not want my information entered into a registry. I do not want it entered and then have to go find a way to have it retracted. I'm sure it will have a slight lag and be visible before it is then deleted. My private information would already be made public.
Thank you.

Dear Elected Officials,

I am emailing you in support of HB221.

I believe that each patient or guardian of a patient, if that patient is a minor, should have the right to opt-in or opt- out of an immunization registry.

It is the right of the patient to exercise their medical freedom and medical privacy to not participate in a vaccination registration.

If information is to be added to a vaccination or immunization registry, it shall only be done so with the explicit, written consent of opt-in from that patient or patient's guardian.

The state of New Hampshire has always valued the privacy of the people. I hope it will continue to do so.

Thank you for your time and attention.
-Nicole

Emailing from Hawaii, the state My fiance and I currently reside in.

After living here for 11 years we have met people from all walks of life, different cultures, different traditions, who were raised in different countries.

A common theme from all the people whom I have met was that America is great for it's financial benefit, it's freedoms, and acceptance of all people.

Personally I was born and raised in Massachusetts. Out of all the places in the world I could live, my fiance and I had a house built in the lakes region of New Hampshire. We are so excited to live in such a beautiful area, with beautiful people.

We chose New Hampshire because we appreciate the benefits of small town living. Where you can still go to your neighbor for a favor or help someone broke down on the side of the road without thinking twice about it.

We mustn't forget how valuable it is to live in such an area.

We must stop hurting our friends, our neighbors, we must continue to help eachother.

Everyday I wake up I see more "help" from the government. To be blunt, we need less government involvement in our lives. Thats what makes New Hampshire such a beautiful place as it stands. Let us keep New Hampshire New Hampshire and move foward with a keen mind.

Thank you

Brett Tourigny

Dear HHSEA committee members:

I am a member of the public who is very concerned that HB221, relative to creating an opt-in Vaccine Registry, flies in the face of every public health consideration for Covid-19.

As a retired physician, I am always sensitive to matters of medical privacy, but in this case, concerns about privacy are far overblown. Measures are in place to protect individual privacy.

Furthermore, the health and safety of every NH citizen is jeopardized if our vaccine registry is opt-in rather than opt-out. It has been well demonstrated that opt-out registries are far more robust, providing crucial data for public health measures during a public health crisis, allowing at the same time privacy for those few individuals who believe it is necessary for whatever reason.

Forty-six of the 50 states in our country understand this. This is not the issue for NH to decide to be different on!

I strongly oppose this bill.

Subject: HB221 Making NH Vaccine Registry "opt-in"
Importance: Normal

TESTIMONY BEFORE THE N.H. HOUSE COMMITTEE ON HEALTH, HUMAN SERVICES
AND ELDERLY AFFAIRS FEBRUARY 8, 2021
IN OPPOSITION TO HB221 MAKING NH VACCINE REGISTRY AN OPT-IN
RANDY HAYES, MD (RETIRED), CANTERBURY, NH rcompostr@gmail.com

New Hampshire recently began a long overdue Immunization Registry, otherwise known as an Immunization Information System. Every other state already has such a program in place. The Registry, a joint Federal and State Program, proposes to provide an additional resource by which patients may check on their immunization history, and healthcare providers may reference which vaccines a new patient has received. The Registry can also help public health officials know the immunization status of entire communities and formulate public health policy and interventions accordingly. Lastly, a state registry can provide data to assist large health plans to evaluate whether they are meeting evidence based, quality indicators in the use of vaccinations.

Vaccine Registries take extraordinary care to keep all data confidential. Only the patient, parent of a minor, legal guardian or health care provider is allowed to access the personal data which includes name, date of birth, birth state and county, mother's name, and types and dates of vaccines given. These programs carry such public health benefit and confidentiality safeguards that states assume an implied consent to enroll members of the public. So, Registries are designed to enroll all appropriate persons and be an opt-out program; those who object may withdraw from the Registry with the help of their healthcare provider.

In this time of a Corona Virus pandemic, our country is all too aware of the importance of our having a robust, informed and transparent public health infrastructure to help us deal with any public health emergency. I, along with the New Hampshire Medical Society, believe that making our Vaccine Registry an opt-in program as proposed in HB 221 would cause significant harm to our states public health. Please vote to reject HB221.

Legislators

As a citizen and taxpayer of NH, I ask that you please SUPPORT HB 221 As signatories to the Nuremberg Code, we have promoted the paramount importance of informed consent. This registry is voluntary. This is an end around of the legislative process. Please protect citizens right to privacy.

Please protect NH citizens and SUPPORT. Thank you.

Respectfully,

Kenny Scipione

Subject: SUPPORT Bill 221 Make NH vaccine registry an opt-in program
Importance: Normal

Dear Honorable Representatives:

I support HB221 Making the state vaccine registry an opt-in program. **Each patient, or the patient's parent or guardian if the patient is a minor, shall be given the opportunity to opt-in to the immunization registry. No patient's immunization or vaccination information shall be entered into the registry without the explicit, written, opt-in consent of the patient, or the patient's parent or guardian.**

- RSA 141-C:20-f provides for a voluntary vaccination registry, this bill doesn't change the law, it simply clarifies it.
- This bill will ensure the intent of the law is properly carried out.
- New Hampshire values personal privacy.
-

Thank you for your service and consideration on the bill

Good morning, Committee Members!

In an age of internet hacking, personal privacy is more and more important. Every one should be given the opportunity to opt-IN to the immunization registry versus having to opt-OUT. Freedom to decide who gets our medical information is very important to New Hampshire resident and just one of the many reasons why we love our state motto... Live Free or Die!

Thank you,

Dear Committee Members,

I write in SUPPORT of House Bill 221 and I thank you (again) for Representing the People of this great State of New Hampshire.

Trusting that you are a group of people with common sense, I don't think I need to explain why any sort of government registry should need to be OPT IN, rather than "opt out." Having a registry in the first place is not something a thinking person would want to participate in. You must allow people to have the choice to participate or not.

Thank you again for representing the PEOPLE of this great State.

Warmly,

Melissa White

To the Honorable Members of the HHSEA Committee,

Thank you, first of all, for the work that you're doing.

I am in support of HB 221. Opt-in should be the requirement in decisions such as these.

Someone who does not want the vaccine should not have to jump through governmental hoops in order to exercise their constitutional right to control what goes into their bodies.

To require someone to go through the process of opting-out, seems like a subversive way to get an unsuspecting public to do something they might not want to do. People may not be aware of the necessity to opt-out and so neglect to do it thereby, opting-in by default.

If someone wants the vaccine, then they have to go through the process of getting it, anyway. People who opt-out should not have to be subjected to any process.

Opt-out should, ethically and sensibly be the default for this issue.

Thank you for your time and consideration on this matter.

Sincerely,
Patrice Myers

Subject: Bi-State PCA Testimony in opposition of HB 221
Importance: Normal

Mr. Chairman, and Members of the Committee:

For the record my name is Kristine Stoddard and I am the Director of NH Public Policy for Bi-State Primary Care Association. Thank you for the opportunity to submit testimony on HB 221. Bi-State respectfully requests you recommend HB 221 inexpedient to legislate.

Bi-State Primary Care Association is a non-profit organization that works to expand access to primary and preventive care for all New Hampshire residents. Bi-State's members include New Hampshire's 14 community health centers (including federally qualified health centers, family planning providers, and rural health clinics), a health care consortium, and a community health access network. Community health centers are small non-profit organizations located in medically underserved areas throughout New Hampshire. They provide integrated primary care, oral health, substance use disorder treatment, and behavioral health services to nearly 120,000 patients at 56 locations. The majority of health center patients live at or below 200% of the federal poverty level or \$25,520 for an individual. Community health centers serve all patients, regardless of their ability to pay or insurance status, and offer a sliding fee discount based on income to uninsured and underinsured patients. Each health center offers a different array of services designed to meet the needs of their communities and each health center accepts Medicare, Medicaid, and commercial insurance. In 2019, approximately 30% of health center patients were insured by Medicaid, 20% were insured by Medicare, 35% were insured by commercial insurance, and 15% were uninsured.

Health centers are designed to care for people and areas of the country who are affected by a lack of access to health care services. Their patients often experience barriers to accessing health care services, including housing, transportation, and language barriers. Three of NH's health centers are known as homeless health centers, meaning a large percentage of their patients experience homelessness. It is crucial that health centers be able to access accurate and timely vaccination information in order to treat their patients properly and address the spread of communicable disease. Our health centers express this need often, particularly as we rollout the COVID-19 vaccines.

We respectfully request that any issues with the registry be addressed in the rulemaking process rather than statute, as it sounds like many of the concerns raised can be addressed through administrative rules. We ask that you recommend this bill inexpedient to legislate.

Please feel free to contact me if you have any questions.

Thank you,

Kristine E. Stoddard, Esq.

Representatives,

Simply put, I do not want my name added to a registry of any kind without my explicit consent. In this case, that means the *'immunization registry.'* It feels like a violation of my privacy. I understand that I can opt-out but it's a huge inconvenience to chase down all of my medical providers to do so. I haven't seen some of them for several years, and now I have to call them just for this? It's making more work for all of us, and for no good reason. We, as patients, should be given the choice to opt-in, and not the other way around. I can't think of another time where I've had to do something like this, can you? I hope you will correct what has been done and recommend HB 221 as **"ought to pass."**

Warm Regards,

Sarah Courchaine

Greetings to the committee considering HB 221,

I would like to go on record as being in support of this bill, which would protect a right that should not even need to be mentioned - the control over what one does, or allows to be done, to his/her own body and the bodies of his/her children. I am appalled that this even needs to be specified, but I plead with you to take this important step to ensure, and let it be known that New Hampshire protects, the liberty of the people of our state to decide for themselves what medical procedures they will choose to accept or refuse.

Breathe Free or Die,
Deanne Sanville

Honorable members of the House Health, Human Services and Elderly Affairs committee,

I am writing to you on behalf of the New Hampshire Public Health Association, a statewide membership organization representing over 200 health care and public health professionals. For over 25 years, we have advocated for policies that improve the health of New Hampshire residents. Thank you for the opportunity to tell you why we oppose passage of House Bill 221 to make the state vaccine registry an opt-in program.

Vaccines are a critical pillar of public health. Unlike many medical interventions, vaccines function through both individual and community-level protection. The latter cannot be assessed without the comprehensive information about geographical vaccine coverage provided by a registry. Without data about how many people are vaccinated and their approximate locations, public health professionals will not be able to identify areas of need. We predict that vaccination rates will decrease in the absence of a registry as we lose the ability to allocate public health resources according to need. This will increase the risks associated with infectious disease outbreaks for the New Hampshire population as a whole. The state's ability to appropriately target public health resources will be hindered by an opt-in— and, thus, incomplete— vaccine registry. A complete vaccine registry is an essential public health tool and is a necessary precursor to optimally-functioning health systems in our statewide community.

In conclusion, the New Hampshire Public Health Association asks that you vote Inexpedient to Legislate on House Bill 221. Thank you for your time and attention. If you have questions about any of the above, please reach out to us by email at policy@NHPHA.org.

Attorney Maynard,

Thank you for your response. If I ask for the same governmental records and information, but directed more specifically to the **Division of Public Health Services** (as below), are there any additional responsive materials?

1. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** which demonstrate or evidence that the Sars-CoV-2 virus has been isolated.
2. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** which demonstrate or evidence that the Sars-CoV-2 virus may not have been isolated.
3. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** relied upon to conclude or evidence that the Sars-CoV-2 virus has been identified.
4. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** regarding any and all testing and diagnostic methodologies relied upon for determining incidence, morbidity, and mortality with regards to Sars-CoV-2 and COVID-19.
5. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of wearing a mask, face covering, and/ or face shield, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
6. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of social distancing, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
7. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of lockdowns, stay-at-home orders, and safer-at-home orders, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
8. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of deeming some businesses and workers as essential and some as non-essential, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
9. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the efficacy and short and long term safety, and risks of COVID-19 testing, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
10. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of closing schools, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
11. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of closing or restricting places of worship, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
12. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of regular and repeated biometric data collection such as temperature taking, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
13. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of travel restrictions and interventions in the freedom of movement, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
14. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of restrictions on medical services, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
15. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of restrictions on sports, exercise, and extracurricular activities, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
16. All Information and Governmental Records, with date of receipt where applicable, in the possession or control of **Division of Public Health Services** showing the short and long term safety, efficacy, and risks of social isolation, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
17. All Information and Governmental Records, with date of receipt where applicable, in the possession or control of **Division of Public Health Services** which were relied upon to justify allowing or not allowing for or recommending or not recommending Religious Exemptions OR Religious Accommodations in the 2020 Emergency and Executive Orders regarding COVID-19.

18. All Information and Governmental Records, with date of receipt where available, in the possession or control of **Division of Public Health Services** indicating the existence, or potential existence, of Sars-CoV-2 within New Hampshire in 2019, that is to say the year Two Thousand and Nineteen.

Thank you.

Respectfully,

Dear Mr. Sivalingam,

On behalf of NH DHHS, I am responding to your Right to Know request below.

DHHS does not have any responsive documents related to your bulleted requests, with the exception of #15. For that request, related to sports, I have attached a Summary Report with data on hockey outbreaks. We have redacted any information on the Report that is identifying or could lead to the constructive identification of individual health information.

You may find further information of interest on our DHHS COVID web site: <https://www.nh.gov/covid19/>

Subject: 01.11.2021 RSA 91-A Request

To whom it may concern,

This is an itemized request for the following Governmental Records and Information in the possession or control of the New Hampshire Department of Health and Human Services herein referred to as "DHHS", pursuant to RSA 91-A.

In the case that the responsive materials are voluminous, exceeding \$250 in cost to process, I request the opportunity to create a payment plan to pay for the requested materials. Alternatively, I request that you invoice me a reasonable approximation of the cost of responding with the requested materials so that I may financially plan accordingly before you complete the processing of this request.

No materials which are identical need to be needlessly duplicated.

I request that said materials please be mailed to me on thumb drives to the following address:

Mr. Tejasinha Sivalingam

PO Box 1047

Ashland, NH 03217

OR, alternatively, I am happy to receive all responsive materials digitally at my electronic mail address: LionOfPower@ProtonMail.Com

This itemized request relies upon the definitions within 91-A:1-a, which is include below for clarification:

Section 91-A:1-a

91-A:1-a Definitions. –

In this chapter:

I. "Advisory committee" means any committee, council, commission, or other like body whose primary purpose is to consider an issue or issues designated by the appointing authority so as to provide such authority with advice or recommendations concerning the formulation of any public policy or legislation that may be promoted, modified, or opposed by such authority.

II. "Governmental proceedings" means the transaction of any functions affecting any or all citizens of the state by a public body.

III. "Governmental records" means any information created, accepted, or obtained by, or on behalf of, any public body, or a quorum or majority thereof, or any public agency in furtherance of its official function. Without limiting the foregoing, the term "governmental records" includes any written communication or other information, whether in paper, electronic, or other physical form, received by a quorum or majority of a public body in furtherance of its official function, whether at a meeting or outside a meeting of the body. The term "governmental records" shall also include the term "public records."

IV. "Information" means knowledge, opinions, facts, or data of any kind and in whatever physical form kept or maintained, including, but not limited to, written, aural, visual, electronic, or other physical form.

V. "Public agency" means any agency, authority, department, or office of the state or of any county, town, municipal corporation, school district, school administrative unit, chartered public school, or other political subdivision.

VI. "Public body" means any of the following:

(a) The general court including executive sessions of committees; and including any advisory committee established by the general court.

(b) The executive council and the governor with the executive council; including any advisory committee established by the governor by executive order or by the executive council.

(c) Any board or commission of any state agency or authority, including the board of trustees of the university system of New Hampshire and any committee, advisory or otherwise, established by such entities.

(d) Any legislative body, governing body, board, commission, committee, agency, or authority of any county, town, municipal corporation, school district, school administrative unit, chartered public school, or other political subdivision, or any committee, subcommittee, or subordinate body thereof, or advisory committee thereto.

(e) Any corporation that has as its sole member the state of New Hampshire, any county, town, municipal corporation, school district, school administrative unit, village district, or other political subdivision, and that is determined by the Internal Revenue Service to be a tax exempt organization pursuant to section 501(c)(3) of the Internal Revenue Code.

1. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS which demonstrate or evidence that the Sars-CoV-2 virus has been isolated.
2. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS which demonstrate or evidence that the Sars-CoV-2 virus may not have been isolated.
3. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS relied upon to conclude or evidence that the Sars-CoV-2 virus has been identified.
4. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS regarding any and all testing and diagnostic methodologies relied upon for determining incidence, morbidity, and mortality with regards to Sars-CoV-2 and COVID-19.
5. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of wearing a mask, face covering, and/ or face shield, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
6. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of social distancing, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
7. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of lockdowns, stay-at-home orders, and safer-at-home orders, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
8. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of deeming some businesses and workers as essential and some as non-essential, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
9. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the efficacy and short and long term safety, and risks of COVID-19 testing, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.

10. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of closing schools, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
11. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of closing or restricting places of worship, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
12. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of regular and repeated biometric data collection such as temperature taking, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
13. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of travel restrictions and interventions in the freedom of movement, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
14. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of restrictions on medical services, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
15. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of restrictions on sports, exercise, and extracurricular activities, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
16. All Information and Governmental Records, with date of receipt where applicable, in the possession or control of DHHS showing the short and long term safety, efficacy, and risks of social isolation, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
17. All Information and Governmental Records, with date of receipt where applicable, in the possession or control of DHHS which were relied upon to justify allowing or not allowing for or recommending or not recommending Religious Exemptions OR Religious Accommodations in the 2020 Emergency and Executive Orders regarding COVID-19.
18. All Information and Governmental Records, with date of receipt where available, in the possession or control of DHHS indicating the existence, or potential existence, of Sars-CoV-2 within New Hampshire in 2019, that is to say the year Two Thousand and Nineteen.

I thank you for your time and attention to this matter. If I may offer any clarification, please feel free to contact me at: (208) 650-0416. To expedite the processing of this request I ask that you please correspond with me as needed via email at LionOfPower@ProtonMail.Com.

Respectfully and kindly,

Mr. Tejasinha Sivalingam

P.O. Box 1047
Ashland, NH 03217

Dear Mr. Sivalingam:

I am writing this letter to provide an initial response to your request, pursuant to RSA 91-A, for the below listed "Governmental Records and Information in the possession or control of Governor Sununu and/or his Public Health Advisors or Public Health Advisory Committees."

Requests

1. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees indicating the existence, or potential existence, of Sars-CoV-2 within New Hampshire in 2019.
2. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees indicating the existence, or potential existence, of Sars-CoV-2 within banked blood, banked plasma, or other biological material collected or preserved during 2019 or earlier.
3. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees indicating the existence of a disease, other than COVID-19, with symptoms and clinical presentation similar to that of COVID-19, and with an incidence, morbidity and mortality rate equaling or exceeding that of COVID-19, during 2019 within New Hampshire.
4. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees pertaining to the "Event 201 A Global Pandemic Exercise" a pandemic tabletop exercise, hosted by The Johns Hopkins Center for Health Security in partnership with the World Economic Forum and the Bill and Melinda Gates Foundation held on or about October 18, 2019.
5. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees pertaining to "The Great Reset" initiative.
6. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees pertaining to the World Economic Forum.

7. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees pertaining to the Fourth Industrial Revolution.
8. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees pertaining to neuro-technological brain enhancements, and/ or any other technology that would in effect fuse or intermingle human genetic material and/ or human physiology and/or human anatomy with digital technology, and biological technology for one or more of the following purposes: 1) COVID-19 tracking, tracing, diagnosis, prevention, treatment, or surveillance, 2) Vaccination administration, compliance, tracking, tracing, or surveillance, 3) 5G establishment, implementation, or development.
9. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees which demonstrate that the Sars-CoV-2 virus has been isolated.
10. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees which demonstrate that the Sars-CoV-2 virus may not have been isolated.
11. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees relied upon to conclude that the Sars-CoV-2 virus has been identified.
12. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees regarding any and all testing and diagnostic methodologies relied upon for determining incidence, morbidity, and mortality with regards to Sars-CoV-2 and COVID-19.
13. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees showing the short and long term safety, efficacy, and risks of wearing a mask, face covering, and/ or face shield, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
14. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees showing the short and long term safety, efficacy, and risks of social distancing, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
15. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees showing the short and long term safety, efficacy, and risks of lockdowns, stay-at-home orders, and safer-at-home orders, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
16. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees showing the short and long term safety, efficacy, and risks of deeming some businesses and workers as essential and some as non-essential, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
17. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees showing the efficacy and short and long term safety, and risks of COVID-19 testing, imposed or brought about by the 2020 Emergency and Executive Orders regarding COVID-19.
18. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health

28. All Information and Governmental Records, with date of receipt where available, in the possession or control of Governor Sununu and/ or his Public Health Advisors or Public Health Advisory Committees pertaining to the CDC's "Interim Operational Considerations for Implementing the Shielding Approach to Prevent COVID-19 Infections in Humanitarian Settings."

Initial response to requests

As an initial matter, please be advised that it is the long-standing position of the New Hampshire Department of Justice that RSA 91-A does not apply to the Governor's Office. Our office responds to such requests as inquiries pursuant to Part I, Article 8 of the New Hampshire Constitution to the extent applicable and subject to all privileges and defenses under New Hampshire law. While this office is therefore not subject to the 5-day timeline provided for in RSA 91-A, we endeavor to respond to all inquiries as soon as possible.

A. Request #1

Regarding request #1, many records related to New Hampshire's response to the Covid-19 pandemic can be found at the following links:

<https://www.nh.gov/covid19//>
<https://www.nheconomy.com/reopeningtaskforce>

Any communications or other governmental records that would be responsive to this request and in the possession of this Office are not subject to disclosure because they constitute drafts, notes, and/or other confidential documents or communications that are covered by Executive Privilege or the Deliberative Process Privilege.

This request in particular is extraordinarily broad in scope. Almost any document that mentions Covid-19 could be interpreted as indicating the existence of Covid-19 in New Hampshire. I note that RSA 91-A:4, IV(a) requires that a request for governmental records must "reasonably describe" those records. I am therefore unable to provide a further response to this request without more clarification on exactly what types of documents are being sought here.

B. Requests 2-8, 26-28

Upon review, I have determined that this Office is not in possession of any governmental records that are responsive to requests 2-8 and 26-28.

C. Requests 9-24

As for requests 9-24, many records related to New Hampshire's response to the Covid-19 pandemic can be found at the following links:

<https://www.nh.gov/covid19//>
<https://www.nheconomy.com/reopeningtaskforce>

I also note that the Governor works closely with the Division of Public Health Services on all Covid-19 related issues and has considered a great deal of the types of information that is derived from the records that you are asking for in requests 9-24. However, this Office does not typically maintain the types of

records or information sought in requests 9-24. For governmental records responsive to these requests, I would suggest that you make a request directly to the Division of Public Health Services.

Further, it should be noted that governmental records that are used in the development of orders issued by the Governor would be subject to Executive Privilege and the Deliberative Process Privilege and therefore not subject to disclosure. In addition, to the extent this Office is in possession of the information and records sought in requests 9-24, those records would not be subject to disclosure because they constitute drafts, notes, and/or other confidential documents or communications that are covered by Executive Privilege or the Deliberative Process Privilege. Therefore, my initial determination is that there are no governmental records in possession of this Office that are responsive to requests 9-24 and subject to disclosure. However, due to the broad scope of these requests, I estimate that we will need 90 days to complete our review and confirm this determination. If this timeline changes, I will let you know.

D. Request #25

Finally, with regard to request 25, this Office may be in possession of governmental records that are responsive to this request and subject to disclosure. I estimate that we will need 90 days to complete our review and provide a further response due to the broad scope of this request. If this timeline changes, I will let you know.

If you have further questions on this request, please do not hesitate to contact me at john.formella@nh.gov or 603-271-2121.

Sincerely,

John Formella
Legal Counsel

Memo

To: Representatives on the House Health, Human Services, and Elderly Affairs Committee

From: Leah Cushman, RN

Topic: Requiring Informed Consent for the New Hampshire Immunization Registry

Date: February 2, 2020

The purpose of this memo is to ask for your support for HB 221, legislation that would change the New Hampshire Immunization Registry from an opt-out program to an opt-in program. I am a Registered Nurse, a mother, and a voter in your district. Currently, the law allows for patient information to be entered into the vaccine registry without consent of the patient or minor patient's parent or guardian. According to Revised statute annotated (RSA) 141-C:20-f, "No patient, or the patient's parent or guardian if the patient is a minor, shall be required to participate in the immunization registry," and that the Department of Health and Human Service (DHHS) shall develop procedures "for the patient, or the patient's parent or guardian if the patient is a minor, to decline to participate in the registry" (New Hampshire General Court, 2020b). However, no such procedures have been published by DHHS. To protect the privacy rights of New Hampshire residents, the law must require that patients and parents be fully informed by healthcare providers and sign a consent form before their information may be entered into the registry. This memorandum will include key information regarding the importance of informed consent in healthcare, the importance of privacy rights in New Hampshire, as well as a cost-benefit analysis of the proposed change.

This policy change is important because self-determination is a recognized right of all patients in making healthcare decisions, under the ethical principle of autonomy (Burkhardt & Nathaniel, 2020). Informed consent is an accepted component of self-determination that requires healthcare providers to give patients full disclosure so they may make well-informed decisions. As it stands, the immunization registry law does not safeguard the rights of patients to be informed so they may make a rounded decision on whether to enter their private health information into the registry or not. I have contacted the New Hampshire Immunization Program and spoken with the secretary, who told me that there are no procedures yet available for opting out, even though the registry is estimated to be launched in January. According to the Concord Monitor (2019), DHHS received \$1.3 million in 2014 to set up the registry but failed to do so and allowed the vendor contract to expire. DHHS was then approved to receive another \$1.5 million for the creation of the registry in 2019. This agency has demonstrated incompetence and the responsibility of ensuring patients can opt out should not be left up to them. This should be entrusted to healthcare providers, but there is nothing in the RSA that requires them to disclose to patients or parents that their or their children's immunization records will be entered into the registry, nor that they have the right to decline, view, edit, or remove records therein.

This presents an ethical problem in which the privacy rights of parents and patients are subject to violation. If parents of minor children and patients are not aware that their information will be entered in the registry, and there are no procedures in place for doing so, they cannot protect

their private health information from government surveillance. In Massachusetts, an immunization registry law is in place that includes a requirement for healthcare providers to inform patients that their information will be entered into the Massachusetts Immunization Information System and provide an opportunity for them to opt out (Commonwealth of Massachusetts, n.d.). Unfortunately, in practice this is rarely done and there are no penalties for failure to inform. An opt-in system requiring informed consent would better protect patient self-determination and confidentiality in New Hampshire. Confidentiality is a widely accepted right of patients in healthcare (Burkhardt & Nathaniel, 2020). Typically, signatory consent is required for private health information to be shared. Additionally, Article 2-b of the State Constitution states, “An individual’s right to live free from government intrusion in private or personal information is natural, essential, and inherent” (Government of New Hampshire, 2020).

The stakeholders in this issue are patients, healthcare providers, society, and New Hampshire taxpayers. My proposed change will not prevent patients and parents or legal guardians of minor patients who wish to participate in the registry from doing so but will ensure that informed consent is required. Healthcare providers have a responsibility to advocate for improved health outcomes for patients but also to respect when patient decisions conflict with their professional opinion (Burkhardt & Nathaniel, 2020). This proposed change will ensure that healthcare providers maintain the ability to participate in the immunization registry while protecting patient confidentiality. Please refer to the stakeholder analysis table below.

There is no demonstrated urgent need for widespread surveillance of immunization records in New Hampshire. New Hampshire has the fifth-highest immunization rate in the country (WMUR, 2015), with more than 97% of school-aged children being up-to-date on immunizations, even with religious exemption available for public school enrollment. Under New Hampshire RSA 141-C:14-a, even in the event of a disease outbreak, New Hampshire residents maintain the right to decline immunization (New Hampshire General Court, 2020a). Therefore, this proposed change does not present any added risk to society at large. This proposed change will have no direct tax impact, as the vendor contract is already paid for (Concord Monitor, 2019). Changing the system to opt-in will safeguard the rights of privacy, confidentiality, and informed consent of individuals.

In summation, confidentiality and informed consent are inherent rights that medical professionals and government must protect for individuals (Burkhardt & Nathaniel, 2020; Government of New Hampshire, 2020). The immunization registry law as currently written does not ensure this protection. New Hampshire has one of the highest rates of immunization in the United States, particularly among children (WMUR, 2015). The proposed change does not threaten society at large and does not increase tax burden on New Hampshire taxpayers. It ensures ethical practice by medical professionals and does not inhibit the use of the immunization registry when patient consent is given. Please support Representative Timothy Lang’s bill HB 221. With your support we can ensure that patients and parents and guardians of minor patients are informed about the immunization registry prior to private health information being entered in the registry, upholding ethical principles and constitutional rights of individuals.

Stakeholder Analysis

Stakeholders	Interests
Adult Patients and Parents/Guardians of Minor Children	<ul style="list-style-type: none"> • Ensured Informed Consent • Ensured Privacy • Maintained ability to participate in the registry • Protected from DHHS incompetence
Healthcare Providers	<ul style="list-style-type: none"> • Ensures ethical practice of informed consent • Ensures ethical practice of maintaining patient confidentiality • Maintained ability to participate in the registry with patient consent • Promotes trusting relationship with patients
Society	<ul style="list-style-type: none"> • Safeguards Constitutional rights
New Hampshire Taxpayers	<ul style="list-style-type: none"> • Does not increased tax burden

Representative Mark Pearson - Chair
Chair, Health, Human Services, & Elderly Affairs Committee
New Hampshire House of Representatives

Re: HB 221 – making the state vaccine registry an opt-in program

Mr. Chairman and Members of the Committee,

As Chair of Pediatrics and Physician-in-Chief of the Children's Hospital at Dartmouth-Hitchcock, New Hampshire's only children's hospital, I am concerned with the well-being of all of New Hampshire's children. I therefore write in opposition of HB 221.

The COVID-19 pandemic has served as a terrible reminder of the value of immunization. Vaccines can protect our most vulnerable citizens, including children, from a range of diseases. But they only work if they are administered widely. Vaccine registries are an important tool to increase and sustain sufficient vaccine rates. While a local record of immunizations might allow health care providers to manage their own patients' vaccines, a systematic universal vaccine registry allows citizens to safely seek and obtain immunization where it is most convenient, while keeping their providers informed. Moreover, availability of such information via the vaccine registry could allow public health officials to feel comfortable that high enough immunization rates have been achieved to relax COVID-19 restrictions.

An opt-in vaccine registry would not only create an administrative hurdle for patients and providers, it would also jeopardize the efficacy and efficiency of the system. The opt-out registry provides individuals adequate opportunity to not share their data.

In closing, Dartmouth-Hitchcock strongly opposes HB 221. This bill would hinder New Hampshire's development of the strong vaccine registry essential to the health and safety of its citizens.

Thank you for consideration.

Sincerely,

Keith J. Loud

February 10, 2021

Honorable Representative Mark Pearson, Chair
House Health, Human Services and Elderly Affairs Committee
Legislative Office Building, Room 205
107 North State Street
Concord, NH 03301

HB 221, relative to making the state vaccine registry an opt-in program.

Dear Chairman Pearson and Members of the Committee,

As introduced, the New Hampshire Department of Health and Human Services and New Hampshire Hospital strongly oppose HB 221 because of the unintended consequence of prohibiting involuntary treatment of psychiatric patients at New Hampshire Hospital, and other psychiatric facilities that serve patients with severe and persistent mental illness.

Patients with schizophrenia, bipolar disorder, and other severe mental illnesses may have little insight into their own symptoms, so involuntary treatment is a critical tool to promote their recovery. New Hampshire Hospital provides emergency treatment of psychiatric and medical disorders to patients whom a Probate Court has found to be a danger to themselves or others. Emergency treatment can be ordered under administrative rule, HeM-306. This rule includes robust procedural protections for the patient. First, it requires a Probate Judge to order an involuntary commitment. Then a psychiatrist must present a treatment plan to a hearings officer. The patient has legal counsel and the opportunity to question the psychiatrist and challenge the treatment plan. The hearings officer must find that there is an ongoing psychiatric or medical emergency which requires involuntary treatment. If the hearings officer orders the plan, it is in effect for only 45 days.

A second mechanism of involuntary treatment is guardian-ordered involuntary medication treatment. RSA 135-C:45-a provides for appointment of limited guardians for patients with mental illness if a judge determines beyond a reasonable doubt that the patient is incapacitated. Guardians serve to make medical decisions for patients who lack the capacity to do so for themselves. Guardianships are only appointed by the court if it is the least restrictive form of intervention consistent with preservation of the civil rights and liberties of the respondent per RSA 135-C:45-a IV (d). Guardian-ordered treatment can also be used in psychiatric hospitals besides NH Hospital.

State hospitals are required to offer treatment that would prevent indefinite institutionalization by the landmark case *Wyatt vs. Stickney*. Involuntary antipsychotic treatment is necessary for many patients to achieve remission, safety, and readiness for discharge to the community. There is already strong due process for involuntary treatment.

As currently written, HB 221 would remove the mechanisms for involuntary treatment by guardian order and by HeM-306. This would prevent critical treatment for severely mentally ill patients, with severe impacts on patient and staff safety, as well as discharges from psychiatric hospitals in New Hampshire.

Respectfully submitted,

Jeffrey C. Fetter, MD
Chief Medical Officer

Withdraw and Remove Information from the New Hampshire Immunization/Vaccination Registry

- I withdraw my participation and seek removal of all my information from the NH immunization/vaccination registry.
- I withdraw participation of my child and seek removal of all my child's information from the NH immunization/vaccination registry.

I understand that this withdrawal from participation in the registry will not prevent me or my child from receiving immunizations/vaccinations.

I understand that I may reverse my decision by completing a "Reverse Previous Decision not to Participate in the New Hampshire Immunization/Vaccination Registry" form with my current health care provider.

I understand that it is my responsibility to inform my other health care providers of my decision to withdraw from the registry so that no future immunization/vaccination information is reported to the registry.

Vaccine(s) to be given today: _____ / _____ / _____
 - (NH only) If you don't want Hannaford Bros. Co to notify your primary care physician about the vaccine(s) you are receiving today, please opt out by checking "NO" NO

The following questions will help us determine your eligibility to be vaccinated today. If any questions are unclear, please ask for assistance.	YES	NO
1. Do you feel sick today or currently have a fever or infection?		
2. Are you allergic to any medications, foods, or vaccines? (i.e. eggs, yeast, preservatives, phenol, thimerosal, streptomycin, neomycin, gelatin, latex, bovine protein)		
3. Have you ever had a severe reaction to any vaccine which required medical care?		
4. Do you have a long-term health problem with heart, lung, kidney, diabetes, asthma, blood disorder, no spleen, complement component deficiency, a cochlear implant, or a spinal fluid leak? Are you on long term aspirin therapy?		
5. Have you had a seizure, brain or any other neurological disorder, or have you had Guillain-Barré Syndrome, a condition which causes paralysis?		
6. Have you received Immune (gamma) Globulin or a transfusion of blood or plasma in the past year?		
7. Have you taken any antivirals (i.e. Tamiflu, valacyclovir) within the past 48 hours?		
8. Are you, anyone in your home, or anyone you take care of being treated with prednisone, other steroids, weekly injections, anticancer drugs or radiation?		
9. Do you, anyone in your home, or anyone you take care of have cancer, HIV/AIDS or any other immune deficiency disorder?		
10. If <17 years of age: Are you currently taking aspirin or any aspirin-containing products?		
11. For women: Are you pregnant, nursing, or planning a pregnancy in the next 3 months?		
12. Have you received any vaccinations in the past 4 weeks?		

Check any chronic condition or age category below that applies to you:

Diabetes Asthma Smoker Heart Condition Lung Condition 50 or older

Have you received the following vaccinations?

Influenza Pneumonia Meningitis Shingles (over 50) Tetanus Whooping Cough Hepatitis

I certify that I am: (i) the Patient and at least 18 years of age; (ii) the patient's personal representative. I consent to, or give consent for, the administration of the vaccine(s) marked below by a Hannaford pharmacist. Where applicable and accepted by state regulations, I consent to my vaccine being administered by a Hannaford pharmacy intern. I acknowledge I have the right to ask for a copy of the Hannaford Notice of Privacy Practices. I have read, or have had read to me, the Vaccine Information Statement (VIS) indicated below. I have had the opportunity to ask questions that were answered to my satisfaction. I understand the benefits and risks of the vaccine(s). I authorize the information to be forwarded to my primary care physician, authorizing physician or local Dept. of Health/registry, if applicable. I agree to stay in the general area for 20 minutes after receiving my vaccination in case any immediate reactions occur. I consent to the emergency administration of epinephrine and/or diphenhydramine, if necessary, to treat an adverse event following vaccine administration I understand that if I experience any side effects, it will be my responsibility to follow up with my physician at my expense. I hereby release Hannaford Pharmacy and its parent, subsidiary and affiliates, and its officers, employees and agents, respectively, from any & all liability that might arise from this vaccination on behalf of me, my heirs and personal representatives.

PART He-P 307 IMMUNIZATION/VACCINATION REGISTRY

He-P 307.01 Purpose. These rules implement the procedures of the department pursuant to RSA 141-C:20-f relative to the establishment and maintenance of a New Hampshire immunization/vaccination registry (registry) for children and adults to aid, coordinate, and promote effective and cost-efficient disease prevention and control efforts. The information contained in the registry shall be used for the following purposes:

- (a) To remind registrants to receive all required immunizations/vaccinations in a timely manner by providing access to the registrant's immunization/vaccination record and to provide registrants with information about recommended immunizations/vaccinations;
- (b) To ensure appropriate management and use of vaccines distributed by the department; and
- (c) To control communicable diseases by assisting in the identification of individuals who require immediate immunization/vaccination in the event of a disease outbreak.

He-P 307.02 Definitions.

- (a) "Administering health care provider" means a health care provider whose medical focus is limited to completing a screening checklist for contraindications and administering a vaccination.
- (b) "Authorized user" means a person or entity which is authorized to enter information into or access certain information contained in the registry, including:
 - (1) Administering, current, and former health care providers;
 - (2) Health care providers;
 - (3) Schools;
 - (4) Licensed child care agencies;
 - (5) The department's division of public health services; and
 - (6) Designated individuals of (1)-(5) above.
- (c) "Commissioner" means the commissioner of the New Hampshire department of health and human services, or his or her designee.
- (d) "Current health care provider" means a health care provider who the patient has chosen for ongoing health care and who maintains a complete medical history of the patient.
- (e) "Department" means the New Hampshire department of health and human services.
- (f) "Former health care provider" means a health care provider that is no longer a patient's current health care provider.
- (g) "Health care provider" means the following persons who or entities which provide health care services: hospitals, medical clinics and offices, physicians, naturopaths, pharmacists, dentists, registered or other nurses and nurse practitioners, medical assistants, paramedics, and emergency medical technicians.
- (h) "Immunization" means "immunization" as defined in RSA 141-C:2, XI-a, namely, "inoculation with a specific antigen to promote antibody formation in the body."
- (i) "Managed care organization" means an entity which offers a managed care plan, as defined in RSA 420-J:3, XXV, namely, "a health benefit plan that either requires a covered person to use, or creates incentives, including financial incentives, for a covered person to use health care providers managed, owned, under contract with, or employed by the health carrier."

(j) “New Hampshire immunization/vaccination registry (registry)” means a single repository of accurate, complete, and current immunization records to aid, coordinate, and promote effective and cost-efficient disease prevention and control efforts for New Hampshire residents.

(k) “Opt out” means the process an individual follows to elect not to participate in the registry and, after which, one’s immunization/vaccination record will not be provided to the registry.

(l) “Patient” means an individual who receives an immunization/vaccination or other health care services.

(m) “Public health purpose” means a population-based activity or individual effort primarily aimed at the prevention of injury, disease, or premature mortality, or the promotion of health in the community.

(n) “Read-only rights” means the ability of the data to be accessed but not entered or modified.

(o) “Read/write rights” means the ability of the data to be accessed, entered, or modified.

(p) “Refusal” means the act of not receiving a vaccination on a particular day or at a particular medical appointment, for such reasons as, wanting to delay the vaccination to another time, not wanting a particular vaccination at that time, behavioral or medical issues at the time of vaccination, or a religious exemption from a particular vaccination. This term does not include refusal to participate in the registry.

(q) “Registrant” means the patient whose immunization record is contained in the registry.

(r) “Vaccination event” means an immunization/immunoglobulin administration, exemption, refusal as defined in (p) above, adverse reaction.

He-P 307.04 Authorized User Access to the Registry.

(a) The following authorized users, and their designated individuals, shall have read/write rights to the registry:

- (1) Administering, current, and former health care providers; and
- (2) The department’s division of public health services.

(b) The following authorized users, and their designated individuals, shall have read-only rights to the registry:

- (1) Health care providers who are not listed in (a)(1) above;
- (2) Schools, only for named individuals in their care;
- (3) Licensed child care agencies, only for named individuals in their care; and
- (4) Local public health entities, which are administered by the cities of Manchester and Nashua, New Hampshire.

(c) Access to the registry for all entities in (a) and (b) above, except (a)(2) and (b)(4), shall be limited to patients in their care.

He-P 307.05 Content and Submission of Vaccination Event Reports.

(a) For each patient who, after being given the opportunity to opt out of participating in the registry in accordance with He-C 307.06, does not exercise the option to opt out, an administering or current health care provider who is participating in the registry shall report vaccination events to the registry within 7 business days of the event through an electronic web-based interface at www.vaxnh.org.

(b) For each vaccination event, administering or current health care providers who are participating in the registry shall report to the registry such data listed in the Centers for Disease Control (CDC) Core Data Elements for Immunization Information Systems, listed as Appendix B in HL7 Version 2.5.1: Implementation Guide for Immunization Messaging Release 1.5 (October 1, 2014) found at <http://www.cdc.gov/vaccines/programs/iis/technical-guidance/downloads/hl7guide-1-5-2014-11.pdf>, available as noted in Appendix A.

(c) For each vaccination event, administering or current health care providers who are participating in the registry shall also report to the registry the following types of registrant information:

- (1) The registrant's insurer information as held by the administering or current health care provider; and
- (2) Date of death, if applicable and if known.

He-P 307.06 Procedures for Patients to Opt Out of the Registry.

(a) No patient, or the patient's parent or guardian if the patient is a minor, shall be required to participate in the immunization/vaccination registry.

(b) No patient's immunization/vaccination information shall be entered into the registry without that patient, or the patient's parent or guardian if the patient is a minor, being given the opportunity to opt out of the registry.

(c) No health care provider shall provide to the department or to the registry the name of, or any immunization/vaccination information relating to, any patient who opts out of participating in the registry, except as required by RSA 141-C:9.

(d) A health care provider shall not provide information relating to immunizations/vaccinations contained in a former patient's medical record without that patient, or the patient's parent or guardian if the patient is a minor, first requesting that such information be reported to the registry.

(e) A patient, or the patient's parent or guardian if the patient is a minor, shall be provided an opportunity to opt out of the registry as follows:

- (1) At the time of immunization/vaccination by an administering health care provider who is participating in the registry; and
- (2) Prior to or at a face-to-face encounter with a current health care provider by the current health care provider who is participating in the registry.

(f) In all cases described in (e) above, the opportunity to opt out of the registry shall be provided in writing in a clear, succinct, and conspicuous manner, in simple language, and in a form, style, and size easily readable by the average adult, and by providing the patient, or the patient's parent or guardian if the patient is a minor, the "Choose not to Participate in the New Hampshire Immunization/Vaccination Registry" form (3/16 edition).

(g) If the opportunity to opt out of the registry is provided by a current health care provider prior to a face-to-face encounter with the current health care provider, as described in (e)(2) above, that provider shall send a written communication to the patient, or the patient's parent or guardian if the patient is a minor, which meets the requirements in (f) above in form and substance, which is individually directed, and in which opting out is the sole subject of the communication.

(h) The option to opt out of the registry shall be exercised by the patient, or the patient's parent or guardian if the patient is a minor, by dating and signing the "Choose not to Participate in the New Hampshire Immunization/Vaccination Registry" form (3/16 edition) and providing that form to each of the patient's administering and current health care providers who are participating in the registry.

(i) The "Choose not to Participate in the New Hampshire Immunization/Vaccination Registry" form in (h) above shall be maintained and documented by the administering or current health care provider within the patient's medical records.

(j) An administering or current health care provider who is participating in the registry, including the physicians and nurses in the administering or current health care provider's professional practice or medical group, shall not be required to provide notice of the opportunity to opt out of the registry to the same patient, or the patient's parent or guardian if the patient is a minor, more than once.

(k) Nothing in this rule shall relieve the patient, or the patient's parent or guardian if the patient is a minor, who chooses to opt out of participation in the registry, from the obligation to comply with current immunization/vaccination requirements set forth in RSA 141-C:20-a or He-P 301.14.

He-P 307.07 Procedures for Patients to Withdraw from Participation in the Registry.

(a) A patient, or the patient's parent or guardian if the patient is a minor, may withdraw from participation in the registry at any time, including the removal of information contained in the registry, as follows:

- (1) The patient, or the patient's parent or guardian if the patient is a minor, shall complete the patient information section of "Withdraw and Remove Information from the New Hampshire Immunization/Vaccination Registry" (3/16 edition);
- (2) The current health care provider who is participating in the registry shall complete the provider information section of "Withdraw and Remove Information from the New Hampshire Immunization/Vaccination Registry" (3/16 edition);
- (3) The current health care provider in (2) above shall fax the completed "Withdraw and Remove Information from the New Hampshire Immunization/Vaccination Registry" (3/16 edition) to the department; and
- (4) The department shall remove all patient information from the registry.

(b) If the patient does not have a current health care provider, a former health care provider who is participating in the registry may complete and submit "Withdraw and Remove Information from the New Hampshire Immunization/Vaccination Registry" (3/16 edition) in accordance with (a) above.

(c) If a patient, or the patient's parent or guardian if the patient is a minor, requests withdrawal from participation in accordance with (a) or (b) above, then no information relating to the patient shall remain in the registry, and no record of the transaction, including the request itself, shall be kept by either the department or the health care provider.

(d) It shall be the responsibility of the patient, or the patient's parent or guardian if the patient is a minor, to inform his or her other health care providers of his or her decision to withdraw from participation in the registry. In order to ensure that no future immunization/vaccination information is reported to the registry, such patient, or the patient's parent or guardian if the patient is a minor, shall complete a "Choose not to Participate in the New Hampshire Immunization/Vaccination Registry" form (3/16 edition) with each of the patient's current and administering health care providers who are participating in the registry.

(e) Nothing in this rule shall relieve the patient, or the patient's parent or guardian if the patient is a minor, who chooses to remove his or her information from the registry, from the obligation to comply with current immunization/vaccination requirements set forth in RSA 141-C:20-a or He-P 301.14.

He-P 307.08 Procedures for Patients to Review and Correct Information Contained in the Registry.

(a) A patient, or the patient's parent or guardian if the patient is a minor, may review and correct information contained in the registry by making a request through their health care provider who is participating in the registry or through the department in accordance with this section.

(b) A request under (a) above for a registry record review to the department shall be via the completion and submission of a "Request for Immunization/Vaccination Record" (3/16 edition), including a notarized signature of the patient or the patient's parent or guardian if the patient is a minor.

(c) Upon receipt of a complete request in (b) above, the department shall provide the patient, or the patient's parent or guardian if the patient is a minor, a copy of the requested record by mail.

(d) A request under (a) above for a registry record review to a health care provider who is participating in the registry shall be by a method to be determined by the health care provider, but shall not require a notarized signature of the patient or the patient's parent or guardian if the patient is a minor.

(e) No record of the transaction described in (b) and (d) above, including the request itself, shall be maintained by the department or the health care provider in any way.

(f) A request to correct information contained in the registry shall be as follows:

- (1) A patient, or a patient's parent or guardian if the patient is a minor, shall:
 - a. Complete the "Correction to Immunization/Vaccination Record" form (3/16 edition), available on the department's web site and at the office of the current health care provider who is participating in the registry;

b. Return the completed form to the current health care provider who is participating in the registry; and

c. Provide the current health care provider who is participating in the registry with authenticated evidence of a laboratory test result or immunization.

(2) Upon receipt of the materials in (1) above, and upon verification from the patient's health care provider of the correct information, the current health care provider who is participating in the registry shall make any such corrections or updates to the patient's record within 7 business days;

(3) Only the corrected information shall remain in the registry; and

(4) No record of the transaction in described in (1) and (2) above, including the request itself, shall be maintained in any way by the current health care provider who is participating in the registry.

He-P 307.09 Procedures for Patients to Reverse Decision to Opt Out of the Registry.

(a) A patient, or the patient's parent or guardian if the patient is a minor, may reverse the decision to opt out of participation in the registry at any time by completing and submitting the "Reverse Previous Decision not to Participate in the New Hampshire Immunization/Vaccination Registry" form (3/16 edition) to the patient's current or administering health care provider who is participating in the registry.

(b) It shall be the responsibility of the patient, or the patient's parent or guardian if the patient is a minor, to inform his or her other health care providers who are participating in the registry of his or her decision to reverse his or her decision to opt out of participation in the registry. In order to ensure that past, current, and future immunization/vaccination information is reported to the registry, such patient, or the patient's parent or guardian if the patient is a minor, shall complete "Reverse Previous Decision not to Participate in the New Hampshire Immunization/Vaccination Registry" forms (3/16 edition) and submit them with each of the patient's current and administering health care providers.

(c) The "Reverse Previous Decision not to Participate in the New Hampshire Immunization/Vaccination Registry" form in (a) above shall be maintained and documented by the current and administering health care provider who is participating in the registry within the patient's medical records.

He-P 307.10 Requests for Registry Data for Research or Other Purposes.

(a) Only de-identified data from the registry shall be released by the department for research purposes.

(b) Release of aggregated statistical data shall not include data that would allow constructive identification of individuals.

(c) A "New Hampshire Immunization Program Request for Data" form (July 2015) shall be completed by the researcher, submitted to the division's immunization section, and approved before any data shall be released.

(d) The completed "New Hampshire Immunization Program Request for Data" form shall be mailed to:

Department of Health and Human Services
Division of Public Health Services
Immunization Section – Data Request
29 Hazen Drive
Concord, NH 03301-6504

(e) If the request is not complete, the department shall notify the applicant in writing within 10 business days specifying any information or supporting documentation required to be submitted before the request can be processed.

(f) If after written notice in (e) above the applicant fails to provide the missing information or supporting documentation, within 30 days of such notice, the application shall be considered incomplete and shall not be processed.

(g) Persons fraudulently requesting data shall be subject to penalty for unsworn falsifications in accordance with RSA 641:3.

(h) The department shall approve applications for the use of registry data if:

(1) The application is complete; and

(2) It is determined that the study, if carried out according to the request submitted, will serve a public health purpose as defined in He-P 307.02(m).

(i) The department shall deny an application when it has been determined that one or more of the requirements of (h) above have not been met.

PART He-P 308 FINANCIAL ASSISTANCE TO PARTIALLY FUND TOWNS OR CITIES FOR MOSQUITO CONTROL ACTIVITIES

Statutory Authority: RSA 141-C:6, XXII, RSA 141-C:24

He-P 308.01 Purpose. The purpose of this part is to set forth the procedures for administration and distribution of funds directed toward mosquito control activities as established in RSA 141-C:25 and establishment of mosquito control districts.

[Source.](#) #8683, EMERGENCY RULE, eff 7-17-06, EXPIRED: 1-13-07

[New.](#) #8799, eff 1-19-07; ss by #9173, eff 6-7-08, EXPIRED: 6-7-16

He-P 308.02 Definitions.

(a) “Commissioner” means the commissioner of the New Hampshire department of health and human services, or his or her designee.

(b) “Department” means the New Hampshire department of health and human services.

(c) “Eligible costs” means costs incurred by a town, city, or mosquito control district:

(1) During the same calendar year, prior to or following the declaration of a public health threat; and

(2) For mosquito control activities aimed at reducing the public health threat.

(d) “Mosquito control” means activities targeting the abatement of mosquitoes through the application of pesticides aimed at mosquito larvae (larvicide) and adult mosquitoes (adulticide).

(e) “Mosquito control district (MCD)” means contiguous municipalities that work together for the purpose of applying for a special permit and/or partial funding pursuant to RSA 141-C:24.

(f) “Mosquito control fund” means a fund, established pursuant to RSA 141-C:25, to assist cities, towns, and MCDs by providing funding for the purpose of offsetting the costs of mosquito control activities including, but not limited to, the purchase and application of chemical pesticides.

(g) “Mosquito control plan” means a written document prepared by a town, city, or MCD that describes preventive and response actions for reducing human mosquito-borne disease.

(h) “Special permit” means a special permit obtained in accordance with Pes 505, Pes 506, and/or Pes 604.

(i) “Public health threat” means a condition declared by the commissioner, in consultation with the Centers for Disease Control and Prevention and with concurrence of the governor, that warrants expedited mosquito control activities within a city, town, or MCD, and which is based on local factors per RSA 141-C:25, III(a).

Introduced

HB 221 - AS INTRODUCED

2021 SESSION

21-0205

05/08

HOUSE BILL **221**

AN ACT making the state vaccine registry an opt-in program.

SPONSORS: Rep. Lang, Belk. 4; Rep. Nunez, Hills. 37; Rep. Rice, Hills. 37; Rep. Binford, Graf. 15; Rep. Harvey-Bolia, Belk. 4; Rep. Notter, Hills. 21; Rep. T. Lekas, Hills. 37; Rep. Bordes, Belk. 3; Rep. Pauer, Hills. 26; Sen. Avard, Dist 12; Rep. Trottier, Belk. 6

COMMITTEE: Health, Human Services and Elderly Affairs

ANALYSIS

This bill makes the state immunization registry an opt-in program rather than an opt-out program.

Explanation: Matter added to current law appears in ***bold italics***.
Matter removed from current law appears ~~[in brackets and struckthrough.]~~
Matter which is either (a) all new or (b) repealed and reenacted appears in regular type.

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty One

AN ACT making the state vaccine registry an opt-in program.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 1 New Paragraph; Communicable Disease; Immunization Registry; Opportunity to Opt-In to the
2 Registry. Amend RSA 141-C:20-f by inserting after paragraph II the following new paragraph:

3 II-a. Each patient, or the patient's parent or guardian if the patient is a minor, shall be
4 given the opportunity to opt-in to the immunization registry. No patient's immunization or
5 vaccination information shall be entered into the registry without the explicit, written, opt-in
6 consent of the patient, or the patient's parent or guardian.

7 2 Effective Date. This act shall take effect 60 days after its passage.
