## HOUSE OF REPRESENTATIVES

### REPORT OF COMMITTEE

The Committee on Executive Departments and Administration to which was referred SB 155-FN, codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic.

**WITHOUT RECOMMENDATION**

## COMMITTEE REPORT

Committee:	<b>Executive Departments and Administration</b>
Bill Number:	<b>SB 155-FN</b>
Title:	<b>codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic.</b>
Date:	<b>May 25, 2021</b>
Consent Calendar:	<b>Regular Calendar</b>
Recommendation:	<b>WITHOUT RECOMMENDATION</b>

**Statement in support of Ought to Pass with Amendment:** 2021-1685h: This omnibus bill originally had seven sections codifying emergency orders. The first, establishing temporary health partners (THP) as assistants to nurses and licensed nursing assistants, was amended to define THP and clarify their scope of practice. The second, licensing some medical providers during the emergency, was modified for clarity. The third, authorizing pharmacists and pharmacy technicians to administer COVID tests and vaccines, was narrowed to the testing section since vaccinations are covered in another bill. The fourth, allowing out of state pharmacies providing experimental drugs to be temporarily licensed as mail-order pharmacies, was also amended for clarity. The fifth section, protecting the non-conforming use of summer camps unable to operate due to COVID, was amended to cover both 2020 and 2021. A sixth section, on continuing construction during the pandemic, was agreed by all parties to be unnecessary and deleted. Section seven, on expanded outdoor dining, was amended for simplicity and to clarify that local ordinances must be followed, and that any expansion of capacity must be approved by the relevant water and sewer authority (the Department of Environmental Services in the case of septic.) The most important section of the bill was added as a non-germane amendment: it would ban public and private entities, with certain limited exceptions, from requiring employees, customers or anyone else from receiving vaccinations as a condition of their employment, use of accommodation, or a condition of housing. It would further extend the right to claim a religious and or medical exemption to vaccine requirements issued by institutions of higher learning. Elementary and high school students would continue to be vaccinated according to the existing vaccine schedule but any new vaccine not currently identified in the law would have to be approved by the legislature. The members in support of this amendment, while respecting the rights of businesses to conduct their business and deal with employees as they see fit within the limits of the law, feel that a line must be drawn when it comes to mandating citizens obtain and provide proof of certain health care as a condition of employment, residency or being able to engage in commerce. The right of the people to control their own health care must always supersede the rights of business or other citizens need to feel safe at the expense of others.

Rep. Terry Roy

**Statement in support of Ought to Pass with Amendment:** 2021-1646h: This omnibus bill came to the ED&A Committee with seven components most of which dealt with codifying licensure or certification provisions which were put in place temporarily to accommodate the health care needs of Granite Staters during the Covid-19 pandemic. The committee held several lengthy subcommittee meetings involving those providers and the Office of Professional Licensure and Certification (OPLC) to ensure that our final product included the proper vetting, credentialing and investigation for the safety of the populations that they serve. These include Temporary Health Partners (THPs) who took care of menial tasks freeing nursing professionals to do the more critical medical processes for patients. This

Cc: Committee Bill File

amendment will allow THPs to become certified to work under supervision of RNs, LPNs or LPAs under federal waivers. It also authorizes the emergency licensing of certain medical providers, e.g. recently retired physicians and senior nursing students who were enabled to work in various undermanned health care facilities. These licenses will expire on or before January 31, 2022. It also permits out-of-state pharmacies to be temporarily licensed as mail-order pharmacies until January 31, 2022. Another section assures the continuation of pre-existing, non-conforming use status of summer camps which were in danger of losing that status because they were not able to operate during 2020 and/or 2021. And the final section allows our hard-pressed hospitality sector restaurants to continue using expanded outdoor dining with local approval so long as they do not exceed either waste disposal limits of the Department of Environmental Services or water and sewer limits permitted by local authorities. A few sections were deleted because the subcommittee found that the need had already lapsed. Each of these sections and deletions in this germane amendment were carefully examined, changed as necessary and adopted unanimously by the bipartisan members of the committee. The non-germane amendment which was proposed to this bill was rejected because it deals solely with medical issues which should have been sent to the committee with expertise in that field.

Rep. Dianne Schuett

Amendment to SB 155-FN

1 Amend the title of the bill by replacing it with the following:

2

3 AN ACT codifying provisions included in select emergency orders issued by the governor in  
4 response to the COVID-19 pandemic, prohibiting discrimination on the basis of  
5 vaccination or immunity status, relative to childhood immunization, and relative to  
6 the immunization registry.  
7

8 Amend the bill by replacing sections 1 and 2 with the following:

9

10 1 Temporary Health Partner Authorized in Skilled Nursing Facilities under Federal and State  
11 Waivers.

12 I. In this section, "temporary health partner" means an individual who has been hired  
13 pursuant to federal and state waivers of certain qualifications for long-term care facility staff.

14 II. To address staffing shortages at long-term care facilities and meet the needs of some of  
15 New Hampshire's most vulnerable populations, the position of temporary health partner (THP) is  
16 hereby authorized to work in a skilled nursing facility, notwithstanding any provision of RSA 326-  
17 B:14, provided that:

18 (a) The THP completes training of no less than 8 hours, provided by a national  
19 association such as the American Health Care Association or by a New Hampshire educational  
20 program.

21 (b) THPs shall work under the supervision of an RN, APRN, or LPN, as is required of  
22 LNAs under RSA 326-B:14.

23 (c) The scope of work authorized to be performed by THPs is limited to the work set  
24 forth in this section and shall be performed in accordance with the resident care plan.

25 (d) The THP has demonstrated competency, as determined by the employing long-term  
26 care facility, prior to performing any of the activities set forth in this section.

27 III. Scope of work for a temporary health partner (THP):

28 (a) The THP is a temporary position limited to assist LNAs and nurses in their daily  
29 tasks. Each of these tasks shall not be performed without proper training and demonstrating  
30 competency in such tasks. The THP shall work under the direction and supervision of licensed  
31 nurses to assist nurses and LNAs to provide services set forth in each resident care plan. Before  
32 performing any tasks described in subparagraph (b), the THP shall have been trained and

**Amendment to SB 155-FN**  
**- Page 2 -**

1 demonstrated competency to perform such tasks, and shall review and adhere to the resident care  
2 plan. The facility shall provide direction and oversight to the THP.

3 (b) After the employing facility ensures skill competency, the THP may perform any of  
4 the following activities:

5 (1) Nutrition and elimination assistance. Assist with elimination, including toileting  
6 and peri-care, and assist with routine ostomy care.

7 (2) Comfort care and end-of-life care. Assist with promoting comfort and sleep,  
8 assist with end-of-life care, and assist with physical care of body after death.

9 (3) Activities of daily living. Assist with bathing, oral care, denture care, grooming,  
10 shaving, nail care, and dressing and undressing.

11 (4) Infection control practices. Assist with hand hygiene, standard and  
12 transmission-based precautions, cleaning and disinfection, utilization of personal protective  
13 equipment (PPE).

14 (5) Positioning, moving, and restorative care. Assist with ambulation or walking  
15 and occupied bedmaking.

16 III. The position of THP shall not be considered a substitute for licensure as an LNA under  
17 RSA 326-B:14 but is intended to assist the work of LNAs. The THP shall not perform services  
18 independently and shall be supervised by licensed nurses at all times.

19 2 New Section; Office of Professional Licensure and Certification; Emergency Licensing Process.  
20 Amend RSA 310-A by inserting after section 1-g the following new section:

21 310-A:1-h Emergency Licensing Process. Notwithstanding any other law to the contrary, the  
22 office of professional licensure and certification may issue emergency licenses to the following  
23 applicants:

24 I. Any medical provider previously licensed in New Hampshire in the last 3 years whose  
25 license is no longer active, subject to the following:

26 (a) The medical provider's license was in good standing prior to being placed in inactive  
27 or lapsed status.

28 (b) Notwithstanding any law or rule to the contrary, a medical provider shall not be  
29 required to complete continuing education as a condition precedent to reactivating their license  
30 pursuant to this section.

31 II. Any medical provider previously licensed to practice in another jurisdiction within the  
32 last 3 years whose license is no longer active, subject to the following:

33 (a) The medical provider's license was in good standing in another United States  
34 jurisdiction prior to being placed in inactive or lapsed status; and

35 (b) The medical provider presents evidence to the office of professional licensure and  
36 certification that the medical provider was licensed and in good standing immediately prior to the  
37 change in licensure status.

**Amendment to SB 155-FN**  
**- Page 3 -**

1 (c) Notwithstanding any law or rule to the contrary, a medical provider shall not be  
2 required to complete continuing education as a condition precedent to receive an emergency license  
3 pursuant to this section.

4 III. Any fellow enrolled in a New Hampshire program accredited by the Accreditation  
5 Council for Graduate Medical Education to practice within the fellow's core specialty, subject to the  
6 following:

7 (a) The fellow is American Board of Medical Specialties (ABMS) or American  
8 Osteopathic Association (AOA) board-eligible or certified in the core specialty.

9 (b) The fellow is appointed to the medical staff at a sponsoring institution and will  
10 engage in practice consistent with the policies and procedures of the sponsoring institution and its  
11 participating sites.

12 (c) The time spent in core specialty service is limited to 20 percent of the fellow's annual  
13 education time in any academic year.

14 (d) A fellow seeking to practice under this paragraph shall provide the office of  
15 professional licensure and certification with appropriate evidence that the required qualifications  
16 have been met.

17 IV. Senior nursing students, who are scheduled to graduate within 5 months from the date  
18 of application, from a board of nursing approved registered nursing or practical nursing program,  
19 subject to the following:

20 (a) The individual is employed by or providing health care services at the direction of, a  
21 licensed health care facility or a licensed health care provider.

22 (b) The individual is directly supervised while providing health care services.

23 (c) The health care services are being provided in response to the COVID-19 pandemic.

24 V. Any provider seeking an emergency license under this section shall submit his or her  
25 request on a form adopted by the office of professional licensure and certification for such purpose.

26 VI. In this section, an applicant in good standing shall include medical providers who are  
27 subject to nondisciplinary conditions, but shall not include medical providers whose licenses have  
28 been revoked, canceled, surrendered, suspended, denied, or subject to disciplinary restrictions.

29 VII. Licenses issued pursuant to this section shall be on a temporary basis and shall expire  
30 on or before January 31, 2022.

31 VIII. All individuals licensed under this section shall be subject to the jurisdiction of the  
32 state licensing body for that profession.

33 IX. The office of professional licensure and certification may issue guidance relative to the  
34 emergency licensing process established in this section, which may include guidance concerning the  
35 appropriate supervision of nursing students. Any guidance shall be posted on the board's website.

36  
37 Amend the bill by replacing all after section 4 with the following:

1  
2       5 New Section; Pharmacists and Pharmacies; Out-of-state Pharmacies as Temporary Limited  
3 Licensed Mail-Order Facilities. Amend RSA 318 by inserting after section 37 the following new  
4 section:

5       318:37-a Out-of-state Pharmacies as Temporary Limited Licensed Mail-Order Facilities.

6       I. To protect public health and increase access to medical care in New Hampshire, and to  
7 promote and secure the safety and protection of the people of New Hampshire, any out-of-state  
8 pharmacy seeking to ship investigational drugs to clinical trial participants who reside in New  
9 Hampshire and who are unable to retrieve the investigational drugs from the out-of-state pharmacy  
10 due to the novel coronavirus shall be allowed to operate as if the out-of-state pharmacy were licensed  
11 as a mail-order pharmacy within the state of New Hampshire if the following conditions are met:

12           (a) The out-of-state pharmacy is licensed and in good standing in another United States  
13 jurisdiction.

14           (b) The medical services provided within New Hampshire are in-person or through  
15 appropriate forms of telehealth.

16           (c) The out-of-state pharmacy presents to the office of professional licensure and  
17 certification evidence that they are licensed in good standing in another jurisdiction. Such out-of-  
18 state pharmacies shall be issued an emergency mail-order pharmacy license at no cost, which shall  
19 remain in effect until January 31, 2022.

20           (d) Such out-of-state pharmacies shall be subject to the jurisdiction of the board of  
21 pharmacy while acting under an emergency mail-order pharmacy license.

22       II. The office of professional licensure and certification, in consultation with the board of  
23 pharmacy, shall provide assistance and guidance, as necessary, to out-of-state pharmacies regarding  
24 the requirements of this section.

25       6 New Subdivision; Local Land Use Planning; Protection of Pre-existing, Non-conforming Use  
26 Status for Summer Camps. Amend RSA 674 by inserting after section 73 the following new  
27 subdivision:

28       Protection of Pre-existing, Non-conforming Use Status for Summer Camps

29       674:74 Protection of Pre-existing, Non-conforming Use Status for Summer Camps.

30       I. Notwithstanding any provision of law or municipal ordinance or regulation to the  
31 contrary, any summer camp that has been operating in the state of New Hampshire as a pre-  
32 existing, nonconforming use under its applicable zoning ordinance that either closed for the summer  
33 of 2020 and/or 2021 due to the COVID-19 pandemic, or was forced to operate for a shorter season or  
34 at a reduced capacity during the summer of 2020 and/or 2021 due to the COVID-19 pandemic, shall  
35 not lose its status as a pre-existing, non-conforming use due to either:

36           (a) Its failure to operate during the summer of 2020 and/or 2021; or

**Amendment to SB 155-FN**  
**- Page 5 -**

1           (b) Its operation for a shorter season or at a reduced capacity during the summer of 2020  
2 and/or 2021.

3           II. The summer camp's status or ability to operate as a pre-existing, non-conforming use  
4 shall not be in any way affected by its failure to operate during the summer of 2020 and/or 2021, or  
5 its operation for a shorter season or at a reduced capacity during the summer of 2020 and/or 2021.

6           7 Liquor Licenses and Fees; Authorization for Other Areas; Expansion of Outdoor Dining.  
7 Amend RSA 178:24 to read as follows:

8           178:24 Authorization for Other Areas. A business holding a license authorizing the  
9 consumption of alcoholic beverages on its licensed premise may petition the commission for  
10 permission to extend service for beverages and liquor to any clearly defined area under the control of  
11 the licensee. ***In addition, a licensee may expand into a shared space, such as a sidewalk or***  
12 ***street, with the approval of local officials.*** Petitions shall include written plans and diagrams  
13 that shall provide detailed information on the proposed extension of alcohol service. Petitions shall  
14 also conform to local zoning requirements and include the written approval of local officials.  
15 ***Businesses served by a waste disposal system, as defined by RSA 485-A:2, XI, shall obtain***  
16 ***approval from the department of environmental services for any expansion under this***  
17 ***section. Businesses that are on municipal sewer may expand seating as permitted by the***  
18 ***municipality.*** The commission may approve plans submitted by licensees and may add such terms  
19 and conditions as it deems appropriate to preserve public health and safety. The commission may  
20 deny, in its discretion, any petition under this section which constitutes a risk to public health,  
21 safety, or welfare of any community.

22           8 Prospective Repeals. The following are repealed:

23           I. RSA 310-A:1-h, relative to emergency licensing procedures.

24           II. RSA 318:37-a, relative to out-of-state pharmacies temporarily licensed as mail-order  
25 facilities.

26           9 New Subdivision; State Commission for Human Rights; Prohibition on Discrimination Based  
27 on Vaccination or Immunity Status. Amend RSA 354-A by inserting after section 17 the following  
28 new subdivision:

29           Discrimination Based on Vaccination or Immunity Status Prohibited

30           354-A:17-a Discrimination Based on Vaccination or Immunity Status. It shall be an unlawful  
31 discriminatory practice for any person or government entity to deny an individual access to goods,  
32 services, employment, housing, education, or places of public accommodation based on an  
33 individual's vaccination status or immunity status. For purposes of this subdivision, it shall be  
34 unlawful:

35           I. For a person or government entity to ask about or make decisions based on vaccine status  
36 or immunity status in matters of housing.

**Amendment to SB 155-FN**  
**- Page 6 -**

1           II. For a person or government entity to ask about or in any way discriminate against an  
2 individual based on vaccine status or immunity status in matters of public accommodation, to  
3 include public and private transportation.

4           III. For the state or any political subdivision to pass any law, rule, ordinance or order that  
5 would require a vaccine or proof of vaccine status or immunity status by any citizen of New  
6 Hampshire.

7           IV. For any public or private university, college or other secondary school to require  
8 students or parents or guardians of minor students to provide proof of vaccination or immunity  
9 documentation where:

10           (a) A physician licensed under RSA 329, or a physician exempted under RSA 329:21, III,  
11 certifies that vaccination against a particular disease may be detrimental to the student's health.

12           (b) A student or the parent or legal guardian of a minor student objects to vaccination  
13 because of religious beliefs, and the student signs a notarized form stating that the student has not  
14 be vaccinated because of religious beliefs.

15           (c) A physician licensed under RSA 329, or a physician exempted under RSA 329:21, III,  
16 certifies that the student has sufficient antibody levels or previously contracted the illness for which  
17 vaccination is required, and is therefore immune.

18           V.(a) For an employer to ask about or make employment decisions based on an individual's  
19 vaccine status or immunity status except as provided in subparagraph (b).

20           (b) If the employer is a health care provider or the employee is an emergency first  
21 responder, the employer may inquire as to vaccination status, and require vaccination of employees,  
22 where a direct threat is determined to exist that cannot be eliminated or reduced by reasonable  
23 accommodation.

24           (1) In this subparagraph, "direct threat" means a significant risk of substantial  
25 harm to the health or safety of the individual or others that cannot be eliminated or reduced by  
26 reasonable accommodation. The determination that an individual poses a "direct threat" shall be  
27 based on an individualized assessment of the individual's present ability to safely perform the  
28 essential functions of the job. This assessment shall be based on a reasonable medical judgment that  
29 relies on the most current medical knowledge and/or on the best available objective evidence. In  
30 determining whether an individual would pose a direct threat, the factors to be considered include:

- 31                   (A) The duration of the risk;  
32                   (B) The nature and severity of the potential harm;  
33                   (C) The likelihood that the potential harm will occur; and  
34                   (D) The imminence of the potential harm.

35           (2) Subparagraph (b) shall not apply where no direct threat exists or where:

**Amendment to SB 155-FN**  
**- Page 7 -**

1 (A) A physician licensed under RSA 329, or a physician exempted under RSA  
2 329:21, III, certifies that vaccination against a particular disease may be detrimental to the  
3 employee's health.

4 (B) An employee objects to vaccination because of religious beliefs, and the  
5 employee signs a notarized form stating that the employee has not be vaccinated because of religious  
6 beliefs.

7 (C) A physician licensed under RSA 329, or a physician exempted under RSA  
8 329:21, III, certifies that the employee has sufficient antibody levels or previously contracted the  
9 illness for which vaccination is required, and is therefore immune.

10 (c) Nothing in this section shall prevent an employer from mandating the use of personal  
11 protective equipment (PPE) approved by the Occupational Safety and Health Administration  
12 (OSHA) for appropriate application in the specific occupation or work environment.

13 10 Communicable Disease; Immunization. Amend RSA 141-C:20-a, I to read as follows:

14 I. All parents or legal guardians shall have their children who are residing in this state  
15 immunized against certain diseases. These diseases shall include~~[- but not be limited to,]~~  
16 diphtheria, mumps, pertussis, poliomyelitis, rubella, rubeola, ~~[and]~~ tetanus, **and varicella**. ~~[The~~  
17 ~~commissioner shall adopt rules under RSA 541-A relative to other diseases which require~~  
18 ~~immunization.]~~ **Any new vaccine, or additional disease for which immunization is required,**  
19 **shall be approved by the legislature and governor through the legislative process and**  
20 **specified in statute.**

21 11 New Paragraph; Communicable Disease; Immunization Registry. Amend RSA 141-C:20-f by  
22 inserting after paragraph II the following new paragraph:

23 II-a. Each patient, or the patient's parent or guardian if the patient is a minor, shall be  
24 given the opportunity to opt-in to the immunization registry. No patient's immunization or  
25 vaccination information shall be entered into the registry without the explicit, written, opt-in  
26 consent of the patient, or the patient's parent or guardian.

27 12 Effective Date.

28 I. Paragraphs I and II of section 8 of this act shall take effect January 31, 2022.

29 II. The remainder of this act shall take effect upon its passage.

2021-1685h

AMENDED ANALYSIS

This bill:

- I. Establishes the position of temporary health partner.
- II. Authorizes emergency licensing of medical providers.
- III. Authorizes COVID-19 testing by pharmacists and pharmacy technicians.
- IV. Permits out-of-state pharmacies providing investigational drugs to clinical trial participants in New Hampshire to be temporarily licensed as mail-order pharmacies.
- V. Protects the pre-existing, non-conforming use status of summer camps that were unable to operate during the summer of 2020 or 2021 due to COVID-19.
- VI. Allows expanded outdoor dining.
- VII. Prohibits discrimination based on an individual's vaccination or immunity status.
- VIII. Adds measles and varicella to the statutory list of diseases for which children are required to be immunized and removes the administrative rulemaking authority of the commissioner of the department of health and human services to expand this list.
- IX. Requires patients to affirmatively opt-in to the state immunization registry.

Amendment to SB 155-FN

1 Amend the bill by replacing sections 1 and 2 with the following:

2

3 1 Temporary Health Partner Authorized in Skilled Nursing Facilities under Federal and State  
4 Waivers.

5 I. In this section, "temporary health partner" means an individual who has been hired  
6 pursuant to federal and state waivers of certain qualifications for long-term care facility staff.

7 II. To address staffing shortages at long-term care facilities and meet the needs of some of  
8 New Hampshire's most vulnerable populations, the position of temporary health partner (THP) is  
9 hereby authorized to work in a skilled nursing facility, notwithstanding any provision of RSA 326-  
10 B:14, provided that:

11 (a) The THP completes training of no less than 8 hours, provided by a national  
12 association such as the American Health Care Association or by a New Hampshire educational  
13 program.

14 (b) THPs shall work under the supervision of an RN, APRN, or LPN, as is required of  
15 LNAs under RSA 326-B:14.

16 (c) The scope of work authorized to be performed by THPs is limited to the work set  
17 forth in this section and shall be performed in accordance with the resident care plan.

18 (d) The THP has demonstrated competency, as determined by the employing long-term  
19 care facility, prior to performing any of the activities set forth in this section.

20 III. Scope of work for a temporary health partner (THP):

21 (a) The THP is a temporary position limited to assist LNAs and nurses in their daily  
22 tasks. Each of these tasks shall not be performed without proper training and demonstrating  
23 competency in such tasks. The THP shall work under the direction and supervision of licensed  
24 nurses to assist nurses and LNAs to provide services set forth in each resident care plan. Before  
25 performing any tasks described in subparagraph (b), the THP shall have been trained and  
26 demonstrated competency to perform such tasks, and shall review and adhere to the resident care  
27 plan. The facility shall provide direction and oversight to the THP.

28 (b) After the employing facility ensures skill competency, the THP may perform any of  
29 the following activities:

30 (1) Nutrition and elimination assistance. Assist with elimination, including toileting  
31 and peri-care, and assist with routine ostomy care.

**Amendment to SB 155-FN**  
**- Page 2 -**

1           (2) Comfort care and end-of-life care. Assist with promoting comfort and sleep,  
2 assist with end-of-life care, and assist with physical care of body after death.

3           (3) Activities of daily living. Assist with bathing, oral care, denture care, grooming,  
4 shaving, nail care, and dressing and undressing.

5           (4) Infection control practices. Assist with hand hygiene, standard and  
6 transmission-based precautions, cleaning and disinfection, utilization of personal protective  
7 equipment (PPE).

8           (5) Positioning, moving, and restorative care. Assist with ambulation or walking  
9 and occupied bedmaking.

10           III. The position of THP shall not be considered a substitute for licensure as an LNA under  
11 RSA 326-B:14 but is intended to assist the work of LNAs. The THP shall not perform services  
12 independently and shall be supervised by licensed nurses at all times.

13           2 New Section; Office of Professional Licensure and Certification; Emergency Licensing Process.  
14 Amend RSA 310-A by inserting after section 1-g the following new section:

15           310-A:1-h Emergency Licensing Process. Notwithstanding any other law to the contrary, the  
16 office of professional licensure and certification may issue emergency licenses to the following  
17 applicants:

18           I. Any medical provider previously licensed in New Hampshire in the last 3 years whose  
19 license is no longer active, subject to the following:

20           (a) The medical provider's license was in good standing prior to being placed in inactive  
21 or lapsed status.

22           (b) Notwithstanding any law or rule to the contrary, a medical provider shall not be  
23 required to complete continuing education as a condition precedent to reactivating their license  
24 pursuant to this section.

25           II. Any medical provider previously licensed to practice in another jurisdiction within the  
26 last 3 years whose license is no longer active, subject to the following:

27           (a) The medical provider's license was in good standing in another United States  
28 jurisdiction prior to being placed in inactive or lapsed status; and

29           (b) The medical provider presents evidence to the office of professional licensure and  
30 certification that the medical provider was licensed and in good standing immediately prior to the  
31 change in licensure status.

32           (c) Notwithstanding any law or rule to the contrary, a medical provider shall not be  
33 required to complete continuing education as a condition precedent to receive an emergency license  
34 pursuant to this section.

35           III. Any fellow enrolled in a New Hampshire program accredited by the Accreditation  
36 Council for Graduate Medical Education to practice within the fellow's core specialty, subject to the  
37 following:

**Amendment to SB 155-FN**  
**- Page 3 -**

1           (a) The fellow is American Board of Medical Specialties (ABMS) or American  
2 Osteopathic Association (AOA) board-eligible or certified in the core specialty.

3           (b) The fellow is appointed to the medical staff at a sponsoring institution and will  
4 engage in practice consistent with the policies and procedures of the sponsoring institution and its  
5 participating sites.

6           (c) The time spent in core specialty service is limited to 20 percent of the fellow's annual  
7 education time in any academic year.

8           (d) A fellow seeking to practice under this paragraph shall provide the office of  
9 professional licensure and certification with appropriate evidence that the required qualifications  
10 have been met.

11           IV. Senior nursing students, who are scheduled to graduate within 5 months from the date  
12 of application, from a board of nursing approved registered nursing or practical nursing program,  
13 subject to the following:

14           (a) The individual is employed by or providing health care services at the direction of, a  
15 licensed health care facility or a licensed health care provider.

16           (b) The individual is directly supervised while providing health care services.

17           (c) The health care services are being provided in response to the COVID-19 pandemic.

18           V. Any provider seeking an emergency license under this section shall submit his or her  
19 request on a form adopted by the office of professional licensure and certification for such purpose.

20           VI. In this section, an applicant in good standing shall include medical providers who are  
21 subject to nondisciplinary conditions, but shall not include medical providers whose licenses have  
22 been revoked, canceled, surrendered, suspended, denied, or subject to disciplinary restrictions.

23           VII. Licenses issued pursuant to this section shall be on a temporary basis and shall expire  
24 on or before January 31, 2022.

25           VIII. All individuals licensed under this section shall be subject to the jurisdiction of the  
26 state licensing body for that profession.

27           IX. The office of professional licensure and certification may issue guidance relative to the  
28 emergency licensing process established in this section, which may include guidance concerning the  
29 appropriate supervision of nursing students. Any guidance shall be posted on the board's website.

30  
31 Amend the bill by replacing all after section 4 with the following:

32  
33           5 New Section; Pharmacists and Pharmacies; Out-of-state Pharmacies as Temporary Limited  
34 Licensed Mail-Order Facilities. Amend RSA 318 by inserting after section 37 the following new  
35 section:

36           318:37-a Out-of-state Pharmacies as Temporary Limited Licensed Mail-Order Facilities.

1           I. To protect public health and increase access to medical care in New Hampshire, and to  
2 promote and secure the safety and protection of the people of New Hampshire, any out-of-state  
3 pharmacy seeking to ship investigational drugs to clinical trial participants who reside in New  
4 Hampshire and who are unable to retrieve the investigational drugs from the out-of-state pharmacy  
5 due to the novel coronavirus shall be allowed to operate as if the out-of-state pharmacy were licensed  
6 as a mail-order pharmacy within the state of New Hampshire if the following conditions are met:

7           (a) The out-of-state pharmacy is licensed and in good standing in another United States  
8 jurisdiction.

9           (b) The medical services provided within New Hampshire are in-person or through  
10 appropriate forms of telehealth.

11           (c) The out-of-state pharmacy presents to the office of professional licensure and  
12 certification evidence that they are licensed in good standing in another jurisdiction. Such out-of-  
13 state pharmacies shall be issued an emergency mail-order pharmacy license at no cost, which shall  
14 remain in effect until January 31, 2022.

15           (d) Such out-of-state pharmacies shall be subject to the jurisdiction of the board of  
16 pharmacy while acting under an emergency mail-order pharmacy license.

17           II. The office of professional licensure and certification, in consultation with the board of  
18 pharmacy, shall provide assistance and guidance, as necessary, to out-of-state pharmacies regarding  
19 the requirements of this section.

20           6 New Subdivision; Local Land Use Planning; Protection of Pre-existing, Non-conforming Use  
21 Status for Summer Camps. Amend RSA 674 by inserting after section 73 the following new  
22 subdivision:

23           Protection of Pre-existing, Non-conforming Use Status for Summer Camps

24           674:74 Protection of Pre-existing, Non-conforming Use Status for Summer Camps.

25           I. Notwithstanding any provision of law or municipal ordinance or regulation to the  
26 contrary, any summer camp that has been operating in the state of New Hampshire as a pre-  
27 existing, nonconforming use under its applicable zoning ordinance that either closed for the summer  
28 of 2020 and/or 2021 due to the COVID-19 pandemic, or was forced to operate for a shorter season or  
29 at a reduced capacity during the summer of 2020 and/or 2021 due to the COVID-19 pandemic, shall  
30 not lose its status as a pre-existing, non-conforming use due to either:

31           (a) Its failure to operate during the summer of 2020 and/or 2021; or

32           (b) Its operation for a shorter season or at a reduced capacity during the summer of 2020  
33 and/or 2021.

34           II. The summer camp's status or ability to operate as a pre-existing, non-conforming use  
35 shall not be in any way affected by its failure to operate during the summer of 2020 and/or 2021, or  
36 its operation for a shorter season or at a reduced capacity during the summer of 2020 and/or 2021.

Amendment to SB 155-FN

- Page 5 -

1           7 Liquor Licenses and Fees; Authorization for Other Areas; Expansion of Outdoor Dining.  
2 Amend RSA 178:24 to read as follows:

3           178:24 Authorization for Other Areas. A business holding a license authorizing the  
4 consumption of alcoholic beverages on its licensed premise may petition the commission for  
5 permission to extend service for beverages and liquor to any clearly defined area under the control of  
6 the licensee. ***In addition, a licensee may expand into a shared space, such as a sidewalk or***  
7 ***street, with the approval of local officials.*** Petitions shall include written plans and diagrams  
8 that shall provide detailed information on the proposed extension of alcohol service. Petitions shall  
9 also conform to local zoning requirements and include the written approval of local officials.  
10 ***Businesses served by a waste disposal system, as defined by RSA 485-A:2, XI, shall obtain***  
11 ***approval from the department of environmental services for any expansion under this***  
12 ***section. Businesses that are on municipal sewer may expand seating as permitted by the***  
13 ***municipality.*** The commission may approve plans submitted by licensees and may add such terms  
14 and conditions as it deems appropriate to preserve public health and safety. The commission may  
15 deny, in its discretion, any petition under this section which constitutes a risk to public health,  
16 safety, or welfare of any community.

17           8 Prospective Repeals. The following are repealed:

18           I. RSA 310-A:1-h, relative to emergency licensing procedures.

19           II. RSA 318:37-a, relative to out-of-state pharmacies temporarily licensed as mail-order  
20 facilities.

21           9 Effective Date.

22           I. Paragraphs I and II of section 8 of this act shall take effect January 31, 2022.

23           II. The remainder of this act shall take effect upon its passage.

2021-1646h

AMENDED ANALYSIS

This bill:

- I. Establishes the position of temporary health partner.
- II. Authorizes emergency licensing of medical providers.
- III. Authorizes COVID-19 testing by pharmacists and pharmacy technicians.
- IV. Permits out-of-state pharmacies providing investigational drugs to clinical trial participants in New Hampshire to be temporarily licensed as mail-order pharmacies.
- V. Protects the pre-existing, non-conforming use status of summer camps that were unable to operate during the summer of 2020 or 2021 due to COVID-19.
- VI. Allows expanded outdoor dining.

TO: All Members of the House ED&A Committee,

The subcommittee on SB 155 will be meeting tomorrow morning. I know that some members who are not on the subcommittee will also attend the work session, so I am sending this to all of you.

A number of bills and laws relating to various sections of SB 155 were mentioned at the public hearing on this bill. They are attached to this email and will be in the committee room tomorrow for members who attend in person.

- Part IX of SB 133 (relates to section 1)
- RSA 318:16-b and RSA 318:16-d (relates to sections 3-5)
- HB 572 as amended by the House; currently in the Senate Health Committee (relates to sections 3-5)
- RSA 178:24 (relates to section 9)
- HB 220 as amended by the House; currently in the Senate Health Committee (relates to section 10)

I hope this is helpful for your deliberations tomorrow.

## Part IX, SB 133 (with committee amendments)

Relative to temporary licensure of certain licensed nursing assistants.

1 Statement of Purpose. The general court acknowledges the critical importance of ensuring the quality, accessibility, and sustainability of Medicaid services provided in nursing homes, and recognizes the critical shortage of licensed nursing assistants throughout the state. The purpose of this act is to strengthen the frontline staffing in nursing homes. The general court finds that during the COVID-19 pandemic federal regulatory and statutory provisions were waived to facilitate the hiring of nurse aides by nursing homes. Under state emergency order, these individuals were allowed to work in nursing homes as temporary health partners following no less than 8 hours of training provided either by a national association or a New Hampshire educational program. As a matter of public policy, the general court finds that these workers were indispensable as facilities struggled with staffing issues, particularly during outbreaks of the COVID-19 virus. Accordingly, this act shall provide the board of nursing with the additional authority to expand the workforce of licensed nursing assistants by recognizing the service of temporary health partners during the COVID-19 pandemic.

2 Special Licensure as a Licensed Nursing Assistant; Applicants Who Served as Temporary Health Partners.

I. Persons who have worked no fewer than 100 hours as temporary health partners in a licensed nursing home **by April 1, 2021** **and** have demonstrated, through their work experience during a national and state public health emergency, the competency to transition to status as a licensed nursing assistant, **shall be deemed to have taken a board-approved nursing assistant course and may apply for a license as a licensed nursing assistant in New Hampshire.**

II. Notwithstanding any provision of law to the contrary, the state-approved training program for licensed nursing assistants shall take into account the training and experience acquired during the COVID-19 pandemic to transition these individuals to placement on the state's licensed nursing assistant registry pursuant to RSA 326-B:26. Such individuals shall be subject to all continuing education requirements under RSA 326-B:31.

III. For purposes of this act:

(a) "COVID-19" means the novel coronavirus first identified in 2019, or SARS-CoV-2.

(b) "Temporary health partner" means anyone authorized to work in a nursing home by Emergency Order 42 issued by the governor on May 11, 2020, and required to complete training of no less than eight hours and work under the supervision of an RN, APRN, or LPN, as is required of LNAs under RSA 326-B:14.

3 Effective Date. Part IX of this act shall take effect **60 days after its** **upon** passage.

## **Current Law – Extension of Food and Beverage Service by Licensed Business**

### **178:24 Authorization for Other Areas. –**

A business holding a license authorizing the consumption of alcoholic beverages on its licensed premise may petition the commission for permission to extend service for beverages and liquor to any clearly defined area under the control of the licensee. Petitions shall include written plans and diagrams that shall provide detailed information on the proposed extension of alcohol service. Petitions shall also conform to local zoning requirements and include the written approval of local officials. The commission may approve plans submitted by licensees and may add such terms and conditions as it deems appropriate to preserve public health and safety. The commission may deny, in its discretion, any petition under this section which constitutes a risk to public health, safety, or welfare of any community.

## **Current Laws relative to Administration of Vaccines**

### **318:16-b Pharmacist Administration of Vaccines. –**

A pharmacist or pharmacy intern under the direct supervision of an immunizing pharmacist may administer influenza vaccines to the general public and a pharmacist or pharmacy intern may administer pneumococcal and varicella zoster vaccines to individuals 18 years of age or older, provided all of the criteria in this section have been met. A pharmacist or pharmacy intern under the direct supervision of an immunizing pharmacist may administer a COVID-19 vaccine, if available, provided that all applicable criteria in this section have been met. The pharmacist or pharmacy intern administering a COVID-19 vaccine shall notify the patient's primary care physician. The pharmacist and pharmacy intern shall:

I. Hold a current license to practice as a pharmacist or be registered as a pharmacy intern under RSA 318:15-b in New Hampshire.

II. Possess at least \$1,000,000 of professional liability insurance coverage.

III. In order to administer influenza, pneumococcal, and varicella zoster vaccines, have completed training specific to the administering of the respective vaccines that includes programs approved by the Accreditation Council for Pharmacy Education (ACPE) or curriculum-based programs from an ACPE-accredited college of pharmacy or state or local health department programs or programs recognized by the board.

IV. Provide to the board evidence of compliance with paragraphs I-III.

V. Provide notice to the primary care provider, when designated by the patient, of the administration of the pneumococcal and varicella zoster vaccines.

VI. Maintain a record of administration of pneumococcal and varicella zoster vaccinations for each individual as required by state and federal law.

**Source.** 2008, 283:1. 2011, 213:1, eff. Aug. 26, 2011. 2017, 51:1, eff. July 11, 2017. 2020, 39:58, eff. July 29, 2020.

### **318:16-d Pharmacist Administration of Additional Vaccines. –**

In addition to the authority under RSA 318:16-b, a pharmacist or pharmacy intern under the direct supervision of an immunizing pharmacist may administer hepatitis A, hepatitis B, Tdap, MMR, and meningococcal vaccines to individuals 18 years of age or older, provided all of the criteria in this section have been met. The pharmacist and pharmacy intern shall:

I. Hold a current license to practice as a pharmacist in New Hampshire or be registered as a pharmacy intern under RSA 318:15-b in New Hampshire.

II. Possess at least \$1,000,000 of professional liability insurance coverage.

III. In order to administer hepatitis A, hepatitis B, Tdap, MMR, and meningococcal vaccines, have completed training specific to the administering of the respective vaccines that includes programs approved by the Accreditation Council for Pharmacy Education (ACPE) or curriculum-based programs from an ACPE-accredited college of pharmacy or state or local health department programs or programs recognized by the board.

IV. Provide to the board evidence of compliance with paragraphs I-III.

V. Provide notice to the primary care provider, when designated by the patient, of the administration of the hepatitis A, hepatitis B, Tdap, MMR, and meningococcal vaccines.

VI. Maintain a record of administration of hepatitis A, hepatitis B, Tdap, MMR, and meningococcal vaccinations for each individual as required by state and federal law.

## Part IX, SB 133 (with committee amendments)

Relative to temporary licensure of certain licensed nursing assistants.

1 Statement of Purpose. The general court acknowledges the critical importance of ensuring the quality, accessibility, and sustainability of Medicaid services provided in nursing homes, and recognizes the critical shortage of licensed nursing assistants throughout the state. The purpose of this act is to strengthen the frontline staffing in nursing homes. The general court finds that during the COVID-19 pandemic federal regulatory and statutory provisions were waived to facilitate the hiring of nurse aides by nursing homes. Under state emergency order, these individuals were allowed to work in nursing homes as temporary health partners following no less than 8 hours of training provided either by a national association or a New Hampshire educational program. As a matter of public policy, the general court finds that these workers were indispensable as facilities struggled with staffing issues, particularly during outbreaks of the COVID-19 virus. Accordingly, this act shall provide the board of nursing with the additional authority to expand the workforce of licensed nursing assistants by recognizing the service of temporary health partners during the COVID-19 pandemic.

2 Special Licensure as a Licensed Nursing Assistant; Applicants Who Served as Temporary Health Partners.

I. Persons who have worked no fewer than 100 hours as temporary health partners in a licensed nursing home **by April 1, 2021** **and** have demonstrated, through their work experience during a national and state public health emergency, the competency to transition to status as a licensed nursing assistant, **shall be deemed to have taken a board-approved nursing assistant course and may apply for a license as a licensed nursing assistant in New Hampshire.**

II. Notwithstanding any provision of law to the contrary, the state-approved training program for licensed nursing assistants shall take into account the training and experience acquired during the COVID-19 pandemic to transition these individuals to placement on the state's licensed nursing assistant registry pursuant to RSA 326-B:26. Such individuals shall be subject to all continuing education requirements under RSA 326-B:31.

III. For purposes of this act:

(a) "COVID-19" means the novel coronavirus first identified in 2019, or SARS-CoV-2.

(b) "Temporary health partner" means anyone authorized to work in a nursing home by Emergency Order 42 issued by the governor on May 11, 2020, and required to complete training of no less than eight hours and work under the supervision of an RN, APRN, or LPN, as is required of LNAs under RSA 326-B:14.

3 Effective Date. Part IX of this act shall take effect **60 days after its** **upon** passage.

HB 572 - AS AMENDED BY THE HOUSE

7Apr2021... 0576h

2021 SESSION

21-0708

10/08

HOUSE BILL **572**

AN ACT relative to pharmacist administration of vaccines and allowing a licensed advanced pharmacy technician to administer vaccines.

SPONSORS: Rep. Merchant, Sull. 4; Sen. Prentiss, Dist 5

COMMITTEE: Health, Human Services and Elderly Affairs

---

AMENDED ANALYSIS

This bill allows licensed advanced pharmacy technicians to administer vaccines, combines the pharmacist administration of vaccines authority into one section, provides for recording vaccinations in the state vaccine registry with consent, and requires the report of any adverse reactions..

-----

Explanation: Matter added to current law appears in ***bold italics***.  
Matter removed from current law appears [~~in brackets and struckthrough.~~]  
Matter which is either (a) all new or (b) repealed and reenacted appears in regular type.

STATE OF NEW HAMPSHIRE

*In the Year of Our Lord Two Thousand Twenty One*

AN ACT relative to pharmacist administration of vaccines and allowing a licensed advanced pharmacy technician to administer vaccines.

*Be it Enacted by the Senate and House of Representatives in General Court convened:*

1 1 Pharmacist Administration of Vaccines. RSA 318:16-b is repealed and reenacted to read as  
2 follows:

3 318:16-b Pharmacist Administration of Vaccines. A pharmacist, pharmacy intern, or licensed  
4 advanced pharmacy technician, under the supervision of an on-site immunizing pharmacist may  
5 administer haemophilus influenza, hepatitis A, hepatitis B, hepatitis A and B, human  
6 papillomavirus, influenza, meningococcal, pneumococcal, tetanus and diphtheria, varicella, zoster,  
7 MMR (measles, mumps, and rubella), and Tdap (tetanus, diphtheria and pertussis) vaccines, which  
8 have been approved by the Food and Drug Administration, to individuals 18 years of age or older as  
9 ordered by an immunizing pharmacist. A pharmacist, pharmacy intern, or licensed advanced  
10 pharmacy technician under the supervision of an on-site immunizing pharmacist may administer a  
11 COVID-19 vaccine, if available, provided that all applicable criteria in this section have been  
12 met. The pharmacist, pharmacy intern, or licensed advanced pharmacy technician shall:

13 I. Hold a current license to practice as a pharmacist, be registered as a pharmacy intern  
14 under RSA 318:15-b in New Hampshire, or be licensed as a licensed advanced pharmacy technician  
15 under RSA 318:15-c.

16 II. Possess at least \$1,000,000 of professional liability insurance coverage.

17 III. In order to administer vaccines, have completed training specific to administration of  
18 the respective vaccines that includes programs approved by the Accreditation Council for Pharmacy  
19 Education (ACPE) or curriculum-based programs from an ACPE-accredited college of pharmacy or  
20 state or local health department programs or programs recognized by the board.

21 IV. Provide to the board evidence of compliance with paragraphs I-III.

22 V. Provide notice to the primary care provider, when designated by the patient, of the  
23 administration of any vaccine.

24 VI. Record the vaccination in the state vaccine registry with patient consent or when  
25 required by state and federal law and maintain a record of the vaccination as required by state and  
26 federal law.

27 VII. Submit reports of any adverse reactions following vaccination to the Center for Disease  
28 Control (CDC) Vaccine Adverse Event Reporting System (VAERS) within 3 days of being made  
29 aware of such adverse effects occurring.

**HB 572 - AS AMENDED BY THE HOUSE**

**- Page 2 -**

- 1           2 Repeal. RSA 318:16-d, relative to additional authority for pharmacist administration of
- 2 vaccines, is repealed.
- 3           3 Effective Date. This act shall take effect upon its passage.

ANALYSIS

This bill establishes the policy for medical freedom in immunizations for communicable diseases.

-----

Explanation: Matter added to current law appears in ***bold italics***.  
Matter removed from current law appears [~~in brackets and struckthrough.~~]  
Matter which is either (a) all new or (b) repealed and reenacted appears in regular type.

STATE OF NEW HAMPSHIRE

*In the Year of Our Lord Two Thousand Twenty One*

AN ACT establishing medical freedom in immunizations.

*Be it Enacted by the Senate and House of Representatives in General Court convened:*

1 1 New Section; Communicable Disease; Medical Freedom. Amend RSA 141-C by inserting after  
2 section 1 the following new section:

3 141-C:1-a. Medical Freedom.

4 I. Every person has the natural, essential, and inherent right to bodily integrity, free from  
5 any threat or compulsion that the person accepts any medical intervention, including immunization.  
6 No person may be compelled to receive an unwanted medical intervention, including immunization.

7 II. Paragraph I shall not:

8 (a) Limit the commissioner's authority to order treatment pursuant to RSA 141-C:15 or  
9 RSA 141-C:18, nor to order quarantine pursuant to RSA 141-C:11 or RSA 141-C:18.

10 (b) Supersede the requirement for vaccination as a prerequisite for admission to a school  
11 or child care agency pursuant to RSA 141-C:20-a II.

12 (c) Supersede the involuntary emergency admission process pursuant to RSA 135-C:27-  
13 33; the revocation of conditional discharge process under RSA 135-C:51; or involuntary treatment of  
14 patients compliant with RSA 135-C:57 III.

15 (d) Limit treatment authorized by a guardian over a person; or short term treatment of a  
16 personal safety emergency declared by a licensed physician or nurse practitioner in a psychiatric  
17 care setting, or authorized by a surrogate decision maker or durable power of attorney for health  
18 care delegated by the person while competent to make decisions for them during periods when they  
19 are not competent, pursuant to RSA 137-J.

20 III. Employers may only mandate medical treatment or immunization as a condition of  
21 employment when a direct threat exists as defined in 29 CFR 1630.2(r). The department of  
22 corrections may mandate medical treatment or immunization for inmates when a direct threat exists  
23 as defined in 29 CFR 1630.2(r).

24 2 Effective Date. This act shall take effect 60 days after its passage.

**To:** ~House Executive Departments and Administration  
**Subject:** expanded outdoor dining; SB 155  
**Response requested:** Yes  
**Importance:** Normal

---

TO: All Members of the House ED&A Committee,

As you know the full committee adopted a revision to section 9 of SB 155 that addressed the expansion of outdoor dining. Section 9 added a new section to the Liquor Laws, RSA 178:32. Aidan Moore, Legal Coordinator for the NH Liquor Commission addressed this section during the public hearing on the bill but did not attend the subcommittee work session. He had noted that the existing RSA 178:24 already outlines a process for liquor licensees to extend service in areas under their control. The language proposed for the new RSA 178:32 conflicted in some places with the existing process and also included food service establishments that do not hold liquor licenses.

I have been working with Rep. McGuire to put together some new language that is consistent with the committee's concerns and responds to the problems noted by Mr. Moore.

This is what we have:

**Replace section 9, SB 155 with the following:**

**178:24 Authorization for Other Areas.** – A business holding a license authorizing the consumption of alcoholic beverages on its licensed premise may petition the commission for permission to extend service for beverages and liquor to any clearly defined area under the control of the licensee. ***In addition, a licensee may expand into a shared space, such as a sidewalk or street, with the approval of local officials.*** Petitions shall include written plans and diagrams that shall provide detailed information on the proposed extension of alcohol service. Petitions shall also conform to local zoning requirements and include the written approval of local officials. ***Businesses served by a waste disposal system, as defined by RSA 485-A:2, XI, shall obtain approval from DES for any expansion under this section. Businesses that are on municipal sewer may expand seating as permitted by the municipality.*** The commission may approve plans submitted by licensees and may add such terms and conditions as it deems appropriate to preserve public health and safety. The commission may deny, in its discretion, any petition under this section which constitutes a risk to public health, safety, or welfare of any community.

I realize that this section has a narrower scope than the original, but it also doesn't have conflicting provisions or the jurisdictional problem.

**Please do not respond to the full committee if you have a comment so that we do not find ourselves in violation of the Right-to-know law.**

I think it is fair to say that this issue will be discussed on Tuesday at the executive session.

**Subject:** amendment to section 1; SB 155  
**Importance:** Normal

---

TO: All Members of the House ED&A Committee,

I worked on section 1 of SB 155 with Rep. Roy yesterday afternoon. This is the section on temporary health partners. Here is the proposal that we developed:

Amend Section 1 by adding the following:

1. Revise the language so that it amends session law rather than RSA 326-B
2. Add a definition: For the purpose of this section, "Temporary health partner" means a health partner who has been hired under the processes authorized according to Federal and State waivers.

*Pam*

Pam Smarling, Senior Committee Researcher  
House Committee Research, Room 409, LOB  
33 N. State St., Concord, NH 03301  
(603) 271-3387

I. Restaurants and other food service establishments licensed under RSA 143-A:4 shall be permitted to expand outside wherever an outdoor dining area can be set up safely, such as parking spaces close to entrances, sidewalks, existing patios, lawn areas, or other appropriate areas **provided that, if the restaurant or food establishment is served by a waste disposal system, as defined by RSA 485-A:2, XI, no additional seating shall be allowed without first obtaining approval from the Department of Environmental Services.** For establishments that are on municipal sewer, they can expand seating as the municipality allows. **Outdoor dining expansions are subject to all other applicable local regulations and ordinances.** The food service establishment shall be responsible for cleaning and disinfecting the outdoor dining area, pursuant to state and federal guidelines. The outdoor dining area shall be clearly delineated and distanced from the general public. If expansion is in a shared space, such as a sidewalk or street, the restaurant shall be required to coordinate and seek approval from local authorities

Amendment to SB 155-FN

1 Amend the title of the bill by replacing it with the following:

2

3 AN ACT codifying provisions included in select emergency orders issued by the governor in  
4 response to the COVID-19 pandemic and prohibiting the state from requiring  
5 documentation of COVID-19 vaccination status.  
6

7 Amend RSA 318:37-a, I(c) as inserted by section 6 of the bill by replacing it with the following:

8

9 (c) The out-of-state pharmacy presents to the office of professional licensure and  
10 certification evidence that they are licensed in good standing in another jurisdiction.  
11

11

12 Amend the bill by replacing all after section 8 with the following:

13

14 9 New Section; Liquor Licenses and Fees; Expansion of Outdoor Dining. Amend RSA 178 by  
15 inserting after section 31 the following new section:

16 178:32 Expansion of Outdoor Dining.

17 I. Restaurants and other food service establishments licensed under RSA 143-A:4 shall be  
18 permitted to expand outside wherever an outdoor dining area can be set up safely, such as parking  
19 spaces close to entrances, sidewalks, existing patios, lawn areas, or other appropriate areas. The  
20 food service establishment shall be responsible for cleaning and disinfecting the outdoor dining area,  
21 pursuant to state and federal guidelines. The outdoor dining area shall be clearly delineated and  
22 distanced from the general public. If expansion is in a shared space, such as a sidewalk or street,  
23 the restaurant shall be required to coordinate and seek approval from local authorities.

24 II. Authorization to serve alcohol in the temporary outdoor dining area shall be limited to  
25 food service establishments with on-premises beverage and wine or on-premises beverage and liquor  
26 licenses issued under this chapter.

27 III. The state liquor commission shall adopt such rules under RSA 541-A, as may be needed  
28 to implement this section.

29 IV. In order to minimize persons entering into restaurants or off-sale licensees, the  
30 commission shall amend administrative rule Liq404.04 (d) to permit the curbside delivery of retail  
31 beer and table wine by off-sale licensees to persons meeting the requirements of RSA 179:5.

32 10 New Chapter; COVID-19 Vaccine Requirement Prohibited. Amend RSA by inserting after  
33 chapter 9-F the following new chapter:

CHAPTER 9-G

COVID-19 VACCINE REQUIREMENT PROHIBITED

9-G:1 Statement of Purpose. It is the policy of the state of New Hampshire to safeguard medical privacy and liberty, which includes protecting the public from coercive COVID-19 vaccination. It is the policy of the state of New Hampshire to prohibit all forms of discrimination. This chapter is intended to further these policies. The state of New Hampshire and all of its government entities, and customers of companies contracting with or otherwise doing business with or receiving public funds from the state of New Hampshire or any of its government entities, are prohibited from requiring any person to receive the COVID-19 vaccine or to possess a COVID-19 immunity passport, immunity pass, or any other documentation for certifying vaccination or immunity status. The persons and entities subject to this chapter are prohibited from discriminating against persons based on non-receipt of the COVID-19 vaccine or failure to possess a COVID-19 immunity passport, immunity pass, or any other documentation for certifying vaccination or immunity status.

9-G:2 Definitions. In this chapter:

I. "Company" means any corporation, limited liability corporation, nonprofit corporation, partnership, limited partnership, limited liability partnership, business trust, association, joint venture, domestic or foreign sole proprietorship, other domestic or foreign entity or business association, or similar organization, including without limitation any wholly owned subsidiary, majority-owned subsidiary, parent company, or affiliate of such an entity or business association.

II. "Direct threat" means a significant risk of substantial harm to the health or safety of the individual or others that cannot be eliminated or reduced by reasonable accommodation. The determination that an individual poses a "direct threat" shall be based on an individualized assessment of the individual's present ability to safely perform the essential functions of the job. This assessment shall be based on a reasonable medical judgment that relies on the most current medical knowledge and/or on the best available objective evidence. In determining whether an individual would pose a direct threat, the factors to be considered include:

- (a) The duration of the risk;
- (b) The nature and severity of the potential harm;
- (c) The likelihood that the potential harm will occur; and
- (d) The imminence of the potential harm.

III. "Discrimination" means a company or employer subjecting any person to refusal to hire, failure to promote, reassignment with significantly different responsibilities, a reduction in pay, a significant change in benefits, or employment termination, or refusal to allow any person to enter or patronize an establishment, on the basis of such person's vaccination or immunity status or related documentation, or because such person refuses to be vaccinated against COVID-19 due to a medical contraindication or for reasons of conscience or other personal reasons, including religious or philosophical beliefs.

**Amendment to SB 155-FN**  
**- Page 3 -**

1 IV. "Employer" means any person employing an employee or acting directly or indirectly in  
2 the interest of an employer in relation to an employee.

3 V. "Governmental entity" means any unit of state or local government including, but not  
4 limited to, the governor, state agencies, counties, cities, towns, political subdivisions, boards,  
5 departments, commissions, and special districts, as well as their agents, contractors, and employees.

6 9-G:3 Prohibition on Requiring COVID-19 Vaccination or Documentation.

7 I. The state of New Hampshire and all of its government entities shall not enter into a  
8 contract or give a loan, grant, or any other disbursement of taxpayer money to a company that  
9 requires a person to receive the COVID-19 vaccine or to possess a COVID-19 immunity passport,  
10 immunity pass, or any other documentation for certifying vaccination or immunity status, and  
11 further may not discriminate against any person based on non-receipt of the COVID-19 vaccine or  
12 failure to possess a COVID-19 immunity passport, immunity pass, or any other documentation for  
13 certifying vaccination or immunity status.

14 II. An employer or company that receives state funds through any means, including grants,  
15 contracts, loans, or other disbursements of taxpayer money from the state of New Hampshire or any  
16 government entity may not require that any person receive the COVID-19 vaccine or possess a  
17 COVID-19 immunity passport, immunity pass, or any other documentation for certifying vaccination  
18 or immunity status, and further may not discriminate against any person based on non-receipt of the  
19 COVID-19 vaccine or failure to possess a COVID-19 immunity passport, immunity pass, or any other  
20 documentation for certifying vaccination or immunity status.

21 III. An employer or company that violates this section is in breach of its contract with the  
22 state of New Hampshire or government entity, rendering the contract voidable by the state of New  
23 Hampshire or government entity.

24 9-G:4 Exemption. Medical facilities treating COVID-19 patients shall be exempt from RSA 9-  
25 G:3 where a direct threat exists that cannot be eliminated or reduced by reasonable accommodation.

26 9-G:5 Construction and Severability. The provisions of this chapter shall be construed liberally  
27 to accomplish the policies expressed herein. If any provision of this chapter or the application  
28 thereof to any employer, company, person, or entity is held invalid, the invalidity does not affect  
29 other provisions or applications of the chapter which can be given effect without the invalid  
30 provisions or applications, and to this end the provisions of this chapter are severable.

31 11 Prospective Repeals. RSA 310-A:1-h, relative to emergency licensing procedures.

32 12 Effective Date.

33 I. Section 11 of this act shall take effect January 1, 2022.

34 II. The remainder of this act shall take effect upon its passage.

2021-1149h

AMENDED ANALYSIS

This bill:

- I. Establishes the position of temporary health partner.
- II. Authorizes emergency licensing of medical providers.
- III. Authorizes COVID-19 testing and vaccination by pharmacists and pharmacy technicians.
- IV. Permits out-of-state pharmacies providing investigational drugs to clinical trial participants in New Hampshire to be licensed as mail-order pharmacies.
- V. Protects the pre-existing, non-conforming use status of summer camps that were unable to operate during the summer of 2020 due to COVID-19.
- VI. Establishes procedures to allow construction to continue during the pandemic.
- VII. Authorizes expanded outdoor dining.
- VIII. Prohibits the state, and any entity that receives state funds, from establishing a COVID-19 vaccine requirement.

Amendment to SB 155-FN

1 Amend the title of the bill by replacing it with the following:

2

3 AN ACT codifying provisions included in select emergency orders issued by the governor in  
4 response to the COVID-19 pandemic and prohibiting the state from requiring  
5 documentation of vaccination status.  
6

7 Amend RSA 318:37-a, I(c) as inserted by section 6 of the bill by replacing it with the following:

8

9 (c) The out-of-state pharmacy presents to the office of professional licensure and  
10 certification evidence that they are licensed in good standing in another jurisdiction.  
11

11

12 Amend the bill by replacing all after section 8 with the following:

13

14 9 New Section; Liquor Licenses and Fees; Expansion of Outdoor Dining. Amend RSA 178 by  
15 inserting after section 31 the following new section:

16

178:32 Expansion of Outdoor Dining.

17

18 I. Restaurants and other food service establishments licensed under RSA 143-A:4 shall be  
19 permitted to expand outside wherever an outdoor dining area can be set up safely, such as parking  
20 spaces close to entrances, sidewalks, existing patios, lawn areas, or other appropriate areas. The  
21 food service establishment shall be responsible for cleaning and disinfecting the outdoor dining area,  
22 pursuant to state and federal guidelines. The outdoor dining area shall be clearly delineated and  
23 distanced from the general public. If expansion is in a shared space, such as a sidewalk or street,  
the restaurant shall be required to coordinate and seek approval from local authorities.

24

25 II. Authorization to serve alcohol in the temporary outdoor dining area shall be limited to  
26 food service establishments with on-premises beverage and wine or on-premises beverage and liquor  
licenses issued under this chapter.

27

28 III. The state liquor commission shall adopt such rules under RSA 541-A, as may be needed  
to implement this section.

29

30 IV. In order to minimize persons entering into restaurants or off-sale licensees, the  
31 commission shall amend administrative rule Liq 404.04 (d) to permit the curbside delivery of retail  
beer and table wine by off-sale licensees to persons meeting the requirements of RSA 179:5.

32

33 10 New Chapter; Vaccination Requirement Prohibited. Amend RSA by inserting after chapter  
9-F the following new chapter:

CHAPTER 9-G

VACCINATION REQUIREMENT PROHIBITED

9-G:1 Statement of Purpose. It is the policy of the state of New Hampshire to safeguard medical privacy and liberty, which includes protecting the public from coercive vaccination. The state of New Hampshire and all of its government entities, and customers of companies contracting with or otherwise doing business with or receiving public funds from the state of New Hampshire or any of its government entities, are prohibited from requiring any person to receive a vaccine or to possess an immunity passport, immunity pass, or any other documentation for certifying vaccination or immunity status. The persons and entities subject to this chapter are prohibited from discriminating against persons based on non-receipt of a vaccine or failure to possess an immunity passport, immunity pass, or any other documentation for certifying vaccination or immunity status. Whereas, 29 C.F.R. section 1630.2(r) permits employers to require medical intervention when a direct threat exists for which no reasonable accommodation can be made, an exemption to this provision is allowed for licensed medical facilities.

9-G:2 Definitions. In this chapter:

I. "Company" means any corporation, limited liability corporation, nonprofit corporation, partnership, limited partnership, limited liability partnership, business trust, association, joint venture, domestic or foreign sole proprietorship, other domestic or foreign entity or business association, or similar organization, including without limitation any wholly owned subsidiary, majority-owned subsidiary, parent company, or affiliate of such an entity or business association.

II. "Direct threat" means a significant risk of substantial harm to the health or safety of the individual or others that cannot be eliminated or reduced by reasonable accommodation. The determination that an individual poses a "direct threat" shall be based on an individualized assessment of the individual's present ability to safely perform the essential functions of the job. This assessment shall be based on a reasonable medical judgment that relies on the most current medical knowledge and/or on the best available objective evidence. In determining whether an individual would pose a direct threat, the factors to be considered include:

- (a) The duration of the risk;
- (b) The nature and severity of the potential harm;
- (c) The likelihood that the potential harm will occur; and
- (d) The imminence of the potential harm.

III. "Discrimination" means a company or employer subjecting any person to refusal to hire, failure to promote, reassignment with significantly different responsibilities, a reduction in pay, a significant change in benefits, or employment termination, or refusal to allow any person to enter or patronize an establishment, on the basis of such person's vaccination or immunity status or related documentation, or because such person refuses to be vaccinated due to a medical contraindication or for reasons of conscience or other personal reasons, including religious or philosophical beliefs.

**Amendment to SB 155-FN**

**- Page 3 -**

1 IV. "Employer" means any person employing an employee or acting directly or indirectly in  
2 the interest of an employer in relation to an employee.

3 V. "Governmental entity" means any unit of state or local government including, but not  
4 limited to, the governor, state agencies, counties, cities, towns, political subdivisions, boards,  
5 departments, commissions, and special districts, as well as their agents, contractors, and employees.

6 VI. "Medical facility" means any health care facility licensed under RSA 151:2.

7 9-G:3 Prohibition on Requiring Vaccination or Documentation.

8 I. The state of New Hampshire and all of its government entities shall not enter into a  
9 contract or give a loan, grant, or any other disbursement of taxpayer money to a company that  
10 requires a person to receive a vaccine or to possess an immunity passport, immunity pass, or any  
11 other documentation for certifying vaccination or immunity status, and further may not discriminate  
12 against any person based on non-receipt of a vaccine or failure to possess an immunity passport,  
13 immunity pass, or any other documentation for certifying vaccination or immunity status.

14 II. An employer or company that receives state funds through any means, including grants,  
15 contracts, loans, or other disbursements of taxpayer money from the state of New Hampshire or any  
16 government entity may not require that any person receive a vaccine or possess an immunity  
17 passport, immunity pass, or any other documentation for certifying vaccination or immunity status,  
18 and further may not discriminate against any person based on non-receipt of a vaccine or failure to  
19 possess an immunity passport, immunity pass, or any other documentation for certifying vaccination  
20 or immunity status.

21 III. An employer or company that violates this section is in breach of its contract with the  
22 state of New Hampshire or government entity, rendering the contract void by the state of New  
23 Hampshire or government entity.

24 9-G:4 Exemption.

25 I. Medical facilities shall be exempt from being prohibited from requiring vaccination of  
26 employees under RSA 9-G:3 where a direct threat is determined to exist that cannot be eliminated or  
27 reduced by reasonable accommodation.

28 II. Nothing in this section shall apply where no direct threat exists or where:

29 (a) A physician licensed under RSA 329, or a physician exempted under RSA 329:21, III,  
30 certifies that vaccination against a particular disease may be detrimental to the employee's health.

31 (b) An employee objects to vaccination because of religious beliefs. The employee shall  
32 sign a notarized form stating that the employee has not be vaccinated because of religious beliefs.

33 (c) A physician licensed under RSA 329, or a physician exempted under RSA 329:21, III,  
34 certifies that the employee has sufficient antibody levels or previously contracted the illness for  
35 which vaccination is required, and is therefor immune.

36 III. Nothing in this section limits the ability of a medical facility to require extra protective  
37 measures such as patient reassignment, duty reassignment, start-of-shift health screening

**Amendment to SB 155-FN**  
**- Page 4 -**

1 questionnaires and temperature checks, or enhanced personal protective equipment requirements  
2 for employees working with vulnerable populations such as the immunocompromised or the elderly.

3 9-G:5 Construction and Severability. The provisions of this chapter shall be construed liberally  
4 to accomplish the policies expressed herein. If any provision of this chapter or the application  
5 thereof to any employer, company, person, or entity is held invalid, the invalidity does not affect  
6 other provisions or applications of the chapter which can be given effect without the invalid  
7 provisions or applications, and to this end the provisions of this chapter are severable.

8 11 Prospective Repeals. RSA 310-A:1-h, relative to emergency licensing procedures.

9 12 Effective Date.

10 I. Section 11 of this act shall take effect January 1, 2022.

11 II. The remainder of this act shall take effect upon its passage.

UNAPPROVED

2021-1334h

AMENDED ANALYSIS

This bill:

- I. Establishes the position of temporary health partner.
- II. Authorizes emergency licensing of medical providers.
- III. Authorizes COVID-19 testing and vaccination by pharmacists and pharmacy technicians.
- IV. Permits out-of-state pharmacies providing investigational drugs to clinical trial participants in New Hampshire to be licensed as mail-order pharmacies.
- V. Protects the pre-existing, non-conforming use status of summer camps that were unable to operate during the summer of 2020 due to COVID-19.
- VI. Establishes procedures to allow construction to continue during the pandemic.
- VII. Authorizes expanded outdoor dining.
- VIII. Prohibits the state, and any entity that receives state funds, from requiring individuals to receive a vaccine or possess an immunity passport or other documentation certifying vaccination or immunity status.

Amendment to SB 155-FN

1 Amend the title of the bill by replacing it with the following:

2

3 AN ACT codifying provisions included in select emergency orders issued by the governor  
4 in response to the COVID-19 pandemic and relative to prohibiting discrimination  
5 on the basis of vaccination status.  
6

7 Amend the bill by inserting after section 10 the following and renumbering the original section 11 to  
8 read as 12 :

9

10 11 New Subdivision; State Commission for Human Rights; Prohibition on Discrimination Based  
11 on Vaccination Status. Amend RSA 354-A by inserting after section 17 the following new  
12 subdivision:

13 Discrimination Based on Vaccination Status Prohibited

14 354-A:17-a Discrimination Based on Vaccination Status. It shall be an unlawful discriminatory  
15 practice for any person or government entity to deny an individual access to goods, services,  
16 employment, housing, education, or places of public accommodation based on an individual's  
17 vaccination status. For purposes of this subdivision, it shall be unlawful:

18 I. For a person or government entity to ask about or make decisions based on vaccine status  
19 in matters of housing.

20 II. For a person or government entity to ask about or in any way discriminate against  
21 anyone based on vaccine status in matters of public accommodation, to include public and private  
22 transportation.

23 III. For the state or any political subdivision to pass any law, rule, ordinance or order that  
24 would require a vaccine by any citizen of New Hampshire or maintain any list or registry with  
25 personal identification information regarding vaccine status or events.

26 IV. For any medical provider to share any vaccine information with anyone without the  
27 express written permission of the patient or if applicable, the patient's legal guardian.

28 V. For any public or private school (pre-kindergarten through grade 12) to mandate any  
29 vaccine for any child in order to attend said school if the vaccine has been in use in the United States  
30 for less than 10 years. To be required by the school, the vaccine must have been in use for 10 years  
31 or more, be recommended by the Centers for Disease Control and Prevention for the specific age and  
32 demographics of the child, and be provided at no cost to the parent or legal guardian. Religious and  
33 medical exemptions shall be honored if accompanied by a letter from the child's primary care

**Amendment to SB 155-FN**  
**- Page 2 -**

1 physician or by a leader in child's religious faith documenting why receiving a vaccine is contrary to  
2 the child's deeply held religious beliefs or not in the child's best health interests. The religious  
3 institution providing this documentation must be a member of a religion recognized by the Internal  
4 Revenue Service as a religious organization and qualify for tax exemption as such and any doctor  
5 writing an exemption letter must be licensed to practice in New Hampshire.

6 VI. For any public or private university, college or other secondary school to mandate any  
7 vaccine, inquire about vaccine status, or maintain any registry containing personally identifiable  
8 information related to vaccines.

9 VII.(a) For an employer to ask about or make employment decisions based on an individual's  
10 vaccine status except as provided in subparagraph (b).

11 (b) If the employer is a health care provider, the employer may inquire as to vaccination  
12 status, and require vaccination of employees, where a direct threat is determined to exist that  
13 cannot be eliminated or reduced by reasonable accommodation.

14 (1) In this subparagraph, "direct threat" means a significant risk of substantial  
15 harm to the health or safety of the individual or others that cannot be eliminated or reduced by  
16 reasonable accommodation. The determination that an individual poses a "direct threat" shall be  
17 based on an individualized assessment of the individual's present ability to safely perform the  
18 essential functions of the job. This assessment shall be based on a reasonable medical judgment that  
19 relies on the most current medical knowledge and/or on the best available objective evidence. In  
20 determining whether an individual would pose a direct threat, the factors to be considered include:

- 21 (A) The duration of the risk;
- 22 (B) The nature and severity of the potential harm;
- 23 (C) The likelihood that the potential harm will occur; and
- 24 (D) The imminence of the potential harm.

25 (2) Subparagraph (b) shall not apply where no direct threat exists or where:

26 (A) A physician licensed under RSA 329, or a physician exempted under RSA  
27 329:21, III, certifies that vaccination against a particular disease may be detrimental to the  
28 employee's health.

29 (B) An employee objects to vaccination because of religious beliefs, and the  
30 employee signs a notarized form stating that the employee has not be vaccinated because of religious  
31 beliefs.

32 (C) A physician licensed under RSA 329, or a physician exempted under RSA  
33 329:21, III, certifies that the employee has sufficient antibody levels or previously contracted the  
34 illness for which vaccination is required, and is therefor immune.

2021-1443h

AMENDED ANALYSIS

This bill:

- I. Establishes the position of temporary health partner.
- II. Authorizes emergency licensing of medical providers.
- III. Authorizes COVID-19 testing and vaccination by pharmacists and pharmacy technicians.
- IV. Permits out-of-state pharmacies providing investigational drugs to clinical trial participants in New Hampshire to be temporarily licensed as mail-order pharmacies.
- V. Protects the pre-existing, non-conforming use status of summer camps that were unable to operate during the summer of 2020 due to COVID-19.
- VI. Establishes procedures to allow construction to continue during the pandemic.
- VII. Temporarily allows expanded outdoor dining.
- VIII. Prohibits discrimination based on an individual's vaccination status.

Amendment to SB 155-FN

1 Amend the title of the bill by replacing it with the following:

2

3 AN ACT codifying provisions included in select emergency orders issued by the governor in  
4 response to the COVID-19 pandemic and relative to prohibiting discrimination on the  
5 basis of vaccination or immunity status.  
6

7 Amend the bill by inserting after section 10 the following and renumbering the original section 11 to  
8 read as 14 :

9

10 11 New Subdivision; State Commission for Human Rights; Prohibition on Discrimination Based  
11 on Vaccination or Immunity Status. Amend RSA 354-A by inserting after section 17 the following  
12 new subdivision:

13 Discrimination Based on Vaccination or Immunity Status Prohibited

14 354-A:17-a Discrimination Based on Vaccination or Immunity Status. It shall be an unlawful  
15 discriminatory practice for any person or government entity to deny an individual access to goods,  
16 services, employment, housing, education, or places of public accommodation based on an  
17 individual's vaccination status or immunity status. For purposes of this subdivision, it shall be  
18 unlawful:

19 I. For a person or government entity to ask about or make decisions based on vaccine status  
20 or immunity status in matters of housing.

21 II. For a person or government entity to ask about or in any way discriminate against an  
22 individual based on vaccine status or immunity status in matters of public accommodation, to  
23 include public and private transportation.

24 III. For the state or any political subdivision to pass any law, rule, ordinance or order that  
25 would require a vaccine or proof of vaccine status or immunity status by any citizen of New  
26 Hampshire.

27 IV. For any public or private university, college or other secondary school to require  
28 students or parents or guardians of minor students to provide proof of vaccination or immunity  
29 documentation where:

30 (a) A physician licensed under RSA 329, or a physician exempted under RSA 329:21, III,  
31 certifies that vaccination against a particular disease may be detrimental to the student's health.

**Amendment to SB 155-FN**  
**- Page 2 -**

1 (b) A student or the parent or legal guardian of a minor student objects to vaccination  
2 because of religious beliefs, and the student signs a notarized form stating that the student has not  
3 be vaccinated because of religious beliefs.

4 (c) A physician licensed under RSA 329, or a physician exempted under RSA 329:21, III,  
5 certifies that the student has sufficient antibody levels or previously contracted the illness for which  
6 vaccination is required, and is therefore immune.

7 V.(a) For an employer to ask about or make employment decisions based on an individual's  
8 vaccine status or immunity status except as provided in subparagraph (b).

9 (b) If the employer is a health care provider, the employer may inquire as to vaccination  
10 status, and require vaccination of employees, where a direct threat is determined to exist that  
11 cannot be eliminated or reduced by reasonable accommodation.

12 (1) In this subparagraph, "direct threat" means a significant risk of substantial  
13 harm to the health or safety of the individual or others that cannot be eliminated or reduced by  
14 reasonable accommodation. The determination that an individual poses a "direct threat" shall be  
15 based on an individualized assessment of the individual's present ability to safely perform the  
16 essential functions of the job. This assessment shall be based on a reasonable medical judgment that  
17 relies on the most current medical knowledge and/or on the best available objective evidence. In  
18 determining whether an individual would pose a direct threat, the factors to be considered include:

- 19 (A) The duration of the risk;
- 20 (B) The nature and severity of the potential harm;
- 21 (C) The likelihood that the potential harm will occur; and
- 22 (D) The imminence of the potential harm.

23 (2) Subparagraph (b) shall not apply where no direct threat exists or where:

24 (A) A physician licensed under RSA 329, or a physician exempted under RSA  
25 329:21, III, certifies that vaccination against a particular disease may be detrimental to the  
26 employee's health.

27 (B) An employee objects to vaccination because of religious beliefs, and the  
28 employee signs a notarized form stating that the employee has not be vaccinated because of religious  
29 beliefs.

30 (C) A physician licensed under RSA 329, or a physician exempted under RSA  
31 329:21, III, certifies that the employee has sufficient antibody levels or previously contracted the  
32 illness for which vaccination is required, and is therefore immune.

33 12 Communicable Disease; Immunization. Amend RSA 141-C:20-a, I to read as follows:

34 I. All parents or legal guardians shall have their children who are residing in this state  
35 immunized against certain diseases. These diseases shall include~~[- but not be limited to,]~~  
36 diphtheria, *measles*, mumps, pertussis, poliomyelitis, rubella, rubeola, ~~[and]~~ tetanus, *and*

**Amendment to SB 155-FN**  
**- Page 3 -**

1 *varicella*. ~~[The commissioner shall adopt rules under RSA 541-A relative to other diseases which~~  
2 ~~require immunization.]~~

3 13 New Paragraph; Communicable Disease; Immunization Registry. Amend RSA 141-C:20-f by  
4 inserting after paragraph II the following new paragraph:

5 II-a. Each patient, or the patient's parent or guardian if the patient is a minor, shall be  
6 given the opportunity to opt-in to the immunization registry. No patient's immunization or  
7 vaccination information shall be entered into the registry without the explicit, written, opt-in  
8 consent of the patient, or the patient's parent or guardian.

UNAPPROVED

2021-1468h

AMENDED ANALYSIS

This bill:

- I. Establishes the position of temporary health partner.
- II. Authorizes emergency licensing of medical providers.
- III. Authorizes COVID-19 testing and vaccination by pharmacists and pharmacy technicians.
- IV. Permits out-of-state pharmacies providing investigational drugs to clinical trial participants in New Hampshire to be temporarily licensed as mail-order pharmacies.
- V. Protects the pre-existing, non-conforming use status of summer camps that were unable to operate during the summer of 2020 due to COVID-19.
- VI. Establishes procedures to allow construction to continue during the pandemic.
- VII. Temporarily allows expanded outdoor dining.
- VIII. Prohibits discrimination based on an individual's vaccination or immunity status.
- IX. Adds measles and varicella to the statutory list of diseases for which children are required to be immunized and removes the administrative rulemaking authority of the commissioner of the department of health and human services to expand this list.
- X. Requires patients to affirmatively opt-in to the state immunization registry.

# Hearing Minutes

HOUSE COMMITTEE ON EXECUTIVE DEPARTMENTS AND ADMINISTRATION

PUBLIC HEARING ON SB 155-FN

**BILL TITLE:** codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic.

**DATE:** April 27, 2021

**LOB ROOM:** Remote / Hybrid **Time Public Hearing Called to Order:** 1:00 p.m.

**Time Adjourned:** 2:15 p.m.

**Committee Members:** Reps. McGuire, Roy, Sytek, S. Pearson, Yakubovich, T. Lekas, Alliegro, Bailey, Lanzara, Santonastaso, Goley, Schuett, Jeudy, P. Schmidt, Schultz, Fellows, Grote and O'Brien Rep Grassie attended in place of Rep Fontneau.

**Bill Sponsors:**  
Sen. Bradley

TESTIMONY

\* Use asterisk if written testimony and/or amendments are submitted.

**SB 155 Codifying provisions included in select emergency orders issued by the governor in response to the CAVID-19 pandemic. (1:00 PM/2:15 PM)**

**Sen. Bradley, sponsor, introduced the bill and spoke in support.** Sen. Bradley said this was a request of the Governor and its purpose was to end some pandemic emergency orders by including them into statute. There were nine provisions left after Senate amendment and, at the request of Chairman McGuire, Sen. Bradley discussed them one at a time to allow for Committee questions.

- The first part dealt with the nurse practice act and established the position of health partner.
- The second part would allow OPLC to issue emergency licenses to certain classes of medical providers. He said this would expand the pool of medical care providers of which there was a great need at this time.
- Chairman McGuire noted that section 5 was the subject of a House bill. Sen. Bradley suggested getting together with Sen. Carson to make sure that some bill with this subject matter went forward. Section 3 dealt with pharmacy practice and would allow pharmacy personnel presently licensed to administer vaccines to administer COVID vaccines.
- The fourth section would allow a pharmacist to administer a COVID test.
- The fifth section. Section 5 also dealt with the administration of COVID vaccines.
- Section 6 dealt with temporary licenses for out-of-state pharmacies. Section 6 would allow summer camps to preserve their non-conforming use in the event that that use lapsed after a year.
- Section 8 would allow completion of construction work delayed because of COVID.
- Section 9 would continue to allow outdoor dining through 2023 with the expectation that it would be evaluated at that time.

Sen. Bradley took a wide range of questions on the various sections of the bill.

**Lindsey Courtney, ED of the OPLC, spoke in support of sections 2, 3, and 4 having to do with OPLC.** She explained that the COVID pandemic changed the way in which health care was delivered particularly with reference to border state providers, that is, to a tele-health platform. She gave statistics on the number of emergency licenses issued. She also discussed administration of COVID vaccine and the situation of patients using investigational drugs. She gave details of the functions of LNAs and health care partners.

Ms. Courtney said an amendment would be necessary if Medicaid reimbursement is to be obtained for use of health care partner.

- There were questions about exactly who can administer COVID vaccines and possible booster shots; also, the appropriateness of charging some fee for temporary licenses for out-of-state practitioners as a matter of fairness.

**Rep. Cushman said that the section regarding pharmacists and technicians already passed the House on consent calendar (HB 572).**

**Rob Tardif, DES – subsurface water systems, spoke** and expressed concern about the expansion of outdoor seating. This could violate their state approvals for establishments using septic systems. And also, there were concerns about water supply from additional seats. He discussed “lot loading” – a site specific characteristic.

**Matthew Houde, VP of Government Relations at Dartmouth-Hitchcock Hospital,** pointed out that Vermont does not charge for temporary licenses.

**Lisa English, Special Advisor on COVID response and recovery and spoke on behalf of the Governor’s office, supported the remarks** of Sen. Bradley and Ms. Courtney. She added that federal guidelines in October 2020 authorized pharmacy technicians to administer the COVID vaccine.

**Margaret Byrnes, ED of the NH Municipal Association, was neutral.** She suggested that the provisions regarding summer camps be put into session law. She felt that there could be clearer language concerning local zoning and the expansion of outdoor seating. Also, she noted several terms needed definition. The issue of ADA compliance was mentioned.

**Aidan Moore, legal coordinator for the state liquor commission,** said that 2018 passed law (RSA 178:24) permits service of alcohol outside the “4 walls” and that this bill may be duplicative of that. He felt that this bill and current law needed to be “harmonized.”

**Hearing closed on the bill at 2:15 p.m.**

**Respectfully submitted by,  
Rep John Sytek  
Committee Clerk**

**John Schmitt spoke in support.** He cites his personal beliefs against the germ theory and vaccinations.

**Beth Daly, Chief of the Bureau of Infectious Disease Control for the Dept. of HHS, said the Department was neutral** on the bill and was speaking for informational purposes. She cited statistics concerning effects of immunization, the lives saved, over the last century. She was concerned about workers in health care settings, ambiguity about “direct threat” language, and unintended consequences. She spoke of present immunization requirements for entrance to school, conflicts with federal requirements. She said that HB 220 dealing with the same area was in the House and that this amendment was unnecessary.

- She answered question as to whether the vaccine was causative or correlative.

**Martin Kuldorf, professor at Harvard Medical School, spoke in support.** He believes in vaccines but feels mandating them lessens public trust. He also concerned about a shortage of vaccines and the necessity of vaccinating the elderly first as their risk of death is substantially greater.

**Lori Schreier of Westmoreland spoke in support.** She cited privacy and bodily integrity concerns. She was also concerned that the vaccine was not yet fully tested.

**Paula Minnehan, VP State Government Relations of the NH Hospital Association, spoke in opposition.** Even though there is an exception for medical facilities, she said the language was very unclear. For example, the direct threat language, she said, could be interpreted as requiring every health care worker to have an individualized assessment. This could also cause an unfunded mandate.

**Laura Condon, of Bedford, Volunteer Director of Advocacy with the National Vaccine Information Center, spoke in support.** She said the amendment was timely and necessary to protect the public against mandates and passports. She cited problems with the vaccines.

**Gina Balkus, CEO Home Health and Hospice Association, spoke in opposition to section 10** citing the importance of knowing the vaccination status of personnel for the protection of staff and patients. She mentioned complications such as assigning staff appropriately. She respects the right not to receive the vaccine.

**Lily Williams spoke in support.** She cited her experience in Communist China where there were no choices and a national ID card; and of her concern that privacy rights were being infringed

**Courtney Tanner, Director of Government Relations at Dartmouth Hitchcock, spoke in opposition.** They are concerned about their aim of quality health care in a safe environment. She said it would be nearly impossible to comply and that there were presently religious and medical exemptions for their annual flu vaccination program. She said staffing was short everywhere and that this amendment would make staffing changes difficult.

**Aaron Penkacik of Hollis, spoke in support.** He felt that people should have to give up personal freedoms, be required to carry vaccine documentation, “to lead a normal life.” He also was opposed on constitutional grounds.

**David Juvet, Senior VP of BIA, spoke in opposition.** He said this was the state inserting itself into businesses can and cannot do regarding employees’ health and safety. He said a stronger bill has already passed.

**Margaret Byrnes, NH Municipal Assn spoke in opposition.** NHMA has no position on requiring vaccines. NHMA was opposed to the state imposing mandates that supplant local control. Also, it would prohibit a locality from contracting with a business that required vaccinations. Burdensome and interfering with local decisions. She repeated her concerns regarding outdoor dining; she felt that, rather than making the change permanent, that it be re-evaluated in 2023.

The Chairman closed the hearing at 3:45 p.m.

Respectfully submitted by  
Rep John Sytek, Committee Clerk

**April 27, 2021**

The entire ED&A Committee was present for all hearings except for Rep. Fontneau, who was absent and replaced by Rep. Grassie.

**SB 155 Codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic. (1:00 PM/2:15 PM)**

Sen. Bradley, sponsor, introduced the bill and spoke in support. Sen. Bradley said this was a request of the Governor and its purpose was to end some pandemic emergency orders by including them into statute. There were nine provisions left after Senate amendment and, at the request of Chairman McGuire, Sen. Bradley discussed them one at a time to allow for Committee questions. The first part dealt with the nurse practice act and established the position of health partner. The second part would allow OPLC to issue emergency licenses to certain classes of medical providers. He said this would expand the pool of medical care providers of which there was a great need at this time. Chairman McGuire noted that section 5 was the subject of a House bill. Sen. Bradley suggested getting together with Sen. Carson to make sure that some bill with this subject matter went forward. Section 3 dealt with pharmacy practice and would allow pharmacy personnel presently licensed to administer vaccines to administer COVID vaccines. The fourth section would allow a pharmacist to administer a COVID test. The fifth section. Section 5 also dealt with the administration of COVID vaccines. Section 6 dealt with temporary licenses for out-of-state pharmacies. Section 6 would allow summer camps to preserve their non-conforming use in the event that that use lapsed after a year. Section 8 would allow completion of construction work delayed because of COVID. Section 9 would continue to allow outdoor dining through 2023 with the expectation that it would be evaluated at that time. Sen. Bradley took a wide range of questions on the various sections of the bill.

>Lindsey Courtney, ED of the OPLC, spoke in support of sections 2, 3, and 4 having to do with OPLC. She explained that the COVID pandemic changed the way in which health care was delivered particularly with reference to border state providers, that is, to a tele-health platform. She gave statistics on the number of emergency licenses issued. She also discussed administration of COVID vaccine and the situation of patients using investigational drugs. She gave details of the functions of LNAs and health care partners. Ms. Courtney said an amendment would be necessary if Medicaid reimbursement is to be obtained for use of health care partner. There were questions about exactly who can administer COVID vaccines and possible booster shots; also, the appropriateness of charging some fee for temporary licenses for out-of-state practitioners as a matter of fairness.

>Rep. Cushman said that the section regarding pharmacists and technicians already passed the House on consent calendar (HB 572).

>Rob Tardif, DES – subsurface water systems, spoke and expressed concern about the expansion of outdoor seating. This could violate their state approvals for establishments using septic systems. And also, there were concerns about water supply from additional seats. He discussed “lot loading” – a site specific characteristic.

>Matthew Houde, VP of Government Relations at Dartmouth-Hitchcock Hospital, pointed out that Vermont does not charge for temporary licenses.

>Lisa English, Special Advisor on COVID response and recovery and spoke on behalf of the Governor’s office, supported the remarks of Sen. Bradley and Ms. Courtney. She added that

federal guidelines in October 2020 authorized pharmacy technicians to administer the COVID vaccine.

>Margaret Byrnes, ED of the NH Municipal Association, was neutral. She suggested that the provisions regarding summer camps be put into session law. She felt that there could be clearer language concerning local zoning and the expansion of outdoor seating. Also, she noted several terms needed definition. The issue of ADA compliance was mentioned.

>Aidan Moore, legal coordinator for the state liquor commission, said that 2018 passed law (RSA 178:24) permits service of alcohol outside the “4 walls” and that this bill may be duplicative of that. He felt that this bill and current law needed to be “harmonized.”

**SB 155 (Non-germane amendment 1149h) codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic. (2:15 PM/3:45 PM)**

Rep. Baxter, sponsor, introduced his non-germane amendment and spoke in support. He said that this amendment would prohibit NH from mandating anyone getting the COVID vaccine, requiring vaccine documentation, “passports” or discriminating against anyone who had not received the COVID vaccine. It would prohibit state contracts with any business requiring vaccine documentation; it would prohibit such businesses from requiring its employees from mandating vaccinations. He said that medical decisions should be between individuals and their doctors – not CEOs. He said also that these passports are a violation of the right to privacy. He cites other dangers of vaccine passports especially on the “marginalized.” In reply to a question about the necessity of the bill, he described it as a pre-emptive measure.

>Rep. Cushman spoke in favor. She said that the right of the patient to self-determination was paramount, to be respected by doctors. She was concerned that vaccine passports were “on the horizon.” She stresses individual rights which technology ought not to infringe upon, privacy rights, and discriminatory aspects of vaccine documentation. She answered Committee questions about school vaccinations, exemptions from them, whether new strains would be covered.

>Rep. Harvey-Bolia spoke in support. She did not feel it was appropriate to require any sort of documentation.

>John Schmitt spoke in support. He cites his personal beliefs against the germ theory and vaccinations.

>Beth Daly, Chief of the Bureau of Infectious Disease Control for the Dept. of HHS, said the Department was neutral on the bill and was speaking for informational purposes. She cited statistics concerning effects of immunization, the lives saved, over the last century. She was concerned about workers in health care settings, ambiguity about “direct threat” language, and unintended consequences. She spoke of present immunization requirements for entrance to school, conflicts with federal requirements. She said that HB 220 dealing with the same area was in the House and that this amendment was unnecessary. She answered question as to whether the vaccine was causative or correlative.

>Martin Kuldorf, professor at Harvard Medical School, spoke in support. He believes in vaccines but feels mandating them lessens public trust. He also concerned about a shortage of vaccines and the necessity of vaccinating the elderly first as their risk of death is substantially greater.

>Lori Schreier of Westmoreland spoke in support. She cited privacy and bodily integrity concerns. She was also concerned that the vaccine was not yet fully tested.

>Paula Minnehan, VP State Government Relations of the NH Hospital Association, spoke in opposition. Even though there is an exception for medical facilities, she said the language was

very unclear. For example, the direct threat language, she said, could be interpreted as requiring every health care worker to have an individualized assessment. This could also cause an unfunded mandate.

>Laura Condon, of Bedford, Volunteer Director of Advocacy with the National Vaccine Information Center, spoke in support. She said the amendment was timely and necessary to protect the public against mandates and passports. She cited problems with the vaccines.

>Gina Balkus, CEO Home Health and Hospice Association, spoke in opposition to section 10 citing the importance of knowing the vaccination status of personnel for the protection of staff and patients. She mentioned complications such as assigning staff appropriately. She respects the right not to receive the vaccine.

>Lily Williams spoke in support. She cited her experience in Communist China where there were no choices and a national ID card; and of her concern that privacy rights were being infringed

>Courtney Tanner, Director of Government Relations at Dartmouth Hitchcock, spoke in opposition. They are concerned about their aim of quality health care in a safe environment. She said it would be nearly impossible to comply and that there were presently religious and medical exemptions for their annual flu vaccination program. She said staffing was short everywhere and that this amendment would make staffing changes difficult.

>Aaron Penkacik of Hollis, spoke in support. He felt that people should have to give up personal freedoms, be required to carry vaccine documentation, “to lead a normal life.” He also was opposed on constitutional grounds.

>David Juvet, Senior VP of BIA, spoke in opposition. He said this was the state inserting itself into businesses can and cannot do regarding employees’ health and safety. He said a stronger bill has already passed.

>Margaret Byrnes, NH Municipal Ass’n spoke in opposition. NHMA has no position on requiring vaccines. NHMA was opposed to the state imposing mandates that supplant local control. Also, it would prohibit a locality from contracting with a business that required vaccinations. Burdensome and interfering with local decisions. She repeated her concerns regarding outdoor dining; she felt that, rather than making the change permanent, that it be reevaluated in 2023.

**April 27, 2021**

**To: Chair McGuire and Members of the Executive Department and Administration Committee**  
**From: Dr. Elizabeth Daly, Chief, Bureau of Infectious Disease Control, Division of Public Health Services, Department of Health and Human Services**  
**Re: Amendment # 2021-1149h to SB 15**

Good afternoon Madam Chair and Members of the Committee:

My name is Beth Daly, Chief of the Bureau of Infectious Disease Control at the New Hampshire Department of Health and Human Services.

I am here today to provide information on SB 155 FN as amended. The Department is not taking a position on this bill but wanted to provide some accurate information relative to section 9 prohibiting COVID-19 vaccination requirements. As you all know, immunization is considered one of the most important public health achievements of the last century. Immunizations have prevented millions of illnesses, disabilities, and deaths in the United States.

The COVID-19 vaccine specifically, has already prevented millions of illnesses and thousands of deaths here in the United States. In New Hampshire, COVID-19 deaths have been reduced by 92% since introduction of the vaccine. The COVID-19 vaccines are authorized for use by FDA. These are not investigational drugs. Clinical trial data for all of the currently authorized and recommended COVID-19 vaccines, have been carefully reviewed by the FDA to make sure the vaccines are both safe and effective. No short cuts have been taken.

Because vaccine coverage is not 100% nor are vaccines 100% effective there may be some settings where implementing vaccine requirements are essential.

One example is healthcare settings. Many healthcare facilities require certain employee vaccinations to protect the lives of their most vulnerable patients. One example is influenza vaccination requirements. This is an accepted part of working in healthcare (first do no harm).

We see that there is an exemption for medical facilities but the language suggests that employers are making determination of what a "direct threat" constitutes for themselves, which would likely lead to inconsistent application of this law throughout the state. It also

opens the door for future restrictions on immunization requirements and may have other unintended consequences.

For example, there are laws in place that require certain vaccines for children to enter school. These laws are critical to public health and they must not be jeopardized. This proposal is also problematic because in order to comply with state and federal COVID-19 requirements, employers and healthcare facilities must take employee COVID-19 vaccination status into consideration. For example, after an employee is exposed to COVID-19, they do not need to quarantine if they have been vaccinated. If they have not been vaccinated, they do need to quarantine and cannot go to work or school.

Under existing law, people already have a choice of whether to be vaccinated. Unfortunately, a person's individual decision on whether to be vaccinated puts others who are vulnerable at risk. It makes sense that in some settings, such as healthcare, we also have an obligation to protect those vulnerable persons.

There is another bill circulating through the legislature (HB 220 medical freedom in immunizations), which provides for a similar policy proposal. If nothing else, this non-germane amendment is unnecessary as there is already another bill addressing this topic.

Thank you for the opportunity to testify. I would be happy to address any questions.

Sincerely,

Dr. Beth Daly

Elizabeth R. Daly, DrPH, MPH

**FACT SHEET FOR HEALTHCARE PROVIDERS ADMINISTERING  
VACCINE (VACCINATION PROVIDERS)  
EMERGENCY USE AUTHORIZATION (EUA) OF  
THE MODERNA COVID-19 VACCINE TO PREVENT CORONAVIRUS DISEASE 2019  
(COVID-19)**

The U.S. Food and Drug Administration (FDA) has issued an Emergency Use Authorization (EUA) to permit the emergency use of the unapproved product, **MODERNA COVID-19 VACCINE**, for active immunization to prevent COVID-19 in individuals 18 years of age and older.

**SUMMARY OF INSTRUCTIONS FOR COVID-19 VACCINATION PROVIDERS**

Vaccination providers enrolled in the federal COVID-19 Vaccination Program must report all vaccine administration errors, all serious adverse events, cases of Multisystem Inflammatory Syndrome (MIS) in adults, and cases of COVID-19 that result in hospitalization or death following administration of the Moderna COVID-19 Vaccine. See “MANDATORY REQUIREMENTS FOR MODERNA COVID-19 VACCINE ADMINISTRATION UNDER EMERGENCY USE AUTHORIZATION” for reporting requirements.

The Moderna COVID-19 Vaccine is a suspension for intramuscular injection administered as a series of two doses (0.5 mL each) 1 month apart.

See this Fact Sheet for instructions for preparation and administration. This Fact Sheet may have been updated. For the most recent Fact Sheet, please see [www.modernatx.com/covid19vaccine-eua](http://www.modernatx.com/covid19vaccine-eua).

For information on clinical trials that are testing the use of the Moderna COVID-19 Vaccine for active immunization against COVID-19, please see [www.clinicaltrials.gov](http://www.clinicaltrials.gov).

**DESCRIPTION OF COVID-19**

Coronavirus disease 2019 (COVID-19) is an infectious disease caused by the novel coronavirus, SARS-CoV-2, that appeared in late 2019. It is predominantly a respiratory illness that can affect other organs. People with COVID-19 have reported a wide range of symptoms, ranging from mild symptoms to severe illness. Symptoms may appear 2 to 14 days after exposure to the virus. Symptoms may include: fever or chills; cough; shortness of breath; fatigue; muscle and body aches; headache; new loss of taste or smell; sore throat; congestion or runny nose; nausea or vomiting; diarrhea.

**DOSAGE AND ADMINISTRATION**

**Storage and Handling**

The information in this Fact Sheet supersedes the information on the vial and carton labels.

During storage, minimize exposure to room light.

The Moderna COVID-19 Vaccine multiple-dose vials are stored frozen between -50° to -15°C (-58° to 5°F). Store in the original carton to protect from light.

Do not store on dry ice or below -50°C (-58°F). Use of dry ice may subject vials to temperatures colder than -50°C (-58°F).

Vials may be stored refrigerated between 2° to 8°C (36° to 46°F) for up to 30 days prior to first use.

Vials may be stored between 8° to 25°C (46° to 77°F) for a total of 24 hours.

After the first dose has been withdrawn, the vial should be held between 2° to 25°C (36° to 77°F). Vials should be discarded 12 hours after the first puncture.

Thawed vials can be handled in room light conditions.

Do not refreeze once thawed.

#### Transportation of Thawed Vials at 2° to 8°C (35° to 46°F)

If transport at -50° to -15°C (-58° to 5°F) is not feasible, available data support transportation of one or more thawed vials for up to 12 hours at 2° to 8°C (35° to 46°F) when shipped using shipping containers which have been qualified to maintain 2° to 8°C (35° to 46°F) and under routine road and air transport conditions with shaking and vibration minimized. Once thawed and transported at 2° to 8°C (35° to 46°F), vials should not be refrozen and should be stored at 2° to 8°C (35° to 46°F) until use.

#### **Dosing and Schedule**

The Moderna COVID-19 Vaccine is administered intramuscularly as a series of two doses (0.5 mL each) 1 month apart.

There are no data available on the interchangeability of the Moderna COVID-19 Vaccine with other COVID-19 vaccines to complete the vaccination series. Individuals who have received one dose of the Moderna COVID-19 Vaccine should receive a second dose of the Moderna COVID-19 Vaccine to complete the vaccination series.

#### **Dose Preparation**

- The Moderna COVID-19 Vaccine multiple-dose vials contain a frozen suspension that does not contain a preservative and must be thawed prior to administration.
- Remove the required number of vial(s) from storage and thaw each vial before use following the instructions below.

Vial	Thaw in Refrigerator	Thaw at Room Temperature
<b>Maximum 11-Dose Vial (range: 10-11 doses)</b>	Thaw in refrigerated conditions between 2° to 8°C for 2 hours and 30 minutes. Let each vial stand at room temperature for 15 minutes before administering.	Alternatively, thaw at room temperature between 15° to 25°C for 1 hour.
<b>Maximum 15-Dose Vial (range: 13-15 doses)</b>	Thaw in refrigerated conditions between 2° to 8°C for 3 hours. Let each vial stand at room temperature for 15 minutes before administering.	Alternatively, thaw at room temperature between 15° to 25°C for 1 hour and 30 minutes.

- After thawing, do not refreeze.
- Swirl vial gently after thawing and between each withdrawal. **Do not shake.** Do not dilute the vaccine.
- The Moderna COVID-19 Vaccine is a white to off-white suspension. It may contain white or translucent product-related particulates. Visually inspect the Moderna COVID-19 Vaccine vials for other particulate matter and/or discoloration prior to administration. If either of these conditions exists, the vaccine should not be administered.
- The Moderna COVID-19 Vaccine is supplied in two multiple-dose vial presentations:
  - A multiple-dose vial containing a maximum of 11 doses: range 10-11 doses (0.5 mL each).
  - A multiple-dose vial containing a maximum of 15 doses: range 13-15 doses (0.5 mL each).
- Depending on the syringes and needles used for each dose, there may not be sufficient volume to extract more than 10 doses from the maximum of 11 doses vial or more than 13 doses from the maximum of 15 doses vial. Irrespective of the type of syringe and needle:
  - Each dose must contain 0.5 mL of vaccine.
  - If the amount of vaccine remaining in the vial cannot provide a full dose of 0.5 mL, discard the vial and contents. Do not pool excess vaccine from multiple vials.
  - Pierce the stopper at a different site each time.
- After the first dose has been withdrawn, the vial should be held between 2° to 25°C (36° to 77°F). Record the date and time of first use on the Moderna COVID-19 Vaccine vial label. Discard vial after 12 hours. Do not refreeze.

### Administration

Visually inspect each dose of the Moderna COVID-19 Vaccine in the dosing syringe prior to administration. The white to off-white suspension may contain white or translucent product-related particulates. During the visual inspection,

- verify the final dosing volume of 0.5 mL.
- confirm there are no other particulates and that no discoloration is observed.
- do not administer if vaccine is discolored or contains other particulate matter.

Administer the Moderna COVID-19 Vaccine intramuscularly.

### **CONTRAINDICATION**

Do not administer the Moderna COVID-19 Vaccine to individuals with a known history of a severe allergic reaction (e.g., anaphylaxis) to any component of the Moderna COVID-19 Vaccine (*see Full EUA Prescribing Information*).

### **WARNINGS**

Appropriate medical treatment to manage immediate allergic reactions must be immediately available in the event an acute anaphylactic reaction occurs following administration of the Moderna COVID-19 Vaccine.

Monitor Moderna COVID-19 Vaccine recipients for the occurrence of immediate adverse reactions according to the Centers for Disease Control and Prevention guidelines (<https://www.cdc.gov/vaccines/covid-19/clinical-considerations/managing-anaphylaxis.html>).

Immunocompromised persons, including individuals receiving immunosuppressant therapy, may have a diminished immune response to the Moderna COVID-19 Vaccine.

The Moderna COVID-19 Vaccine may not protect all vaccine recipients.

### **ADVERSE REACTIONS**

Adverse reactions reported in a clinical trial following administration of the Moderna COVID-19 Vaccine include pain at the injection site, fatigue, headache, myalgia, arthralgia, chills, nausea/vomiting, axillary swelling/tenderness, fever, swelling at the injection site, and erythema at the injection site. (*See Full EUA Prescribing Information*)

Severe allergic reactions, including anaphylaxis, have been reported following administration of the Moderna COVID-19 Vaccine during mass vaccination outside of clinical trials.

Additional adverse reactions, some of which may be serious, may become apparent with more widespread use of the Moderna COVID-19 Vaccine.

### **USE WITH OTHER VACCINES**

There is no information on the co-administration of the Moderna COVID-19 Vaccine with other vaccines.

### **INFORMATION TO PROVIDE TO VACCINE RECIPIENTS/CAREGIVERS**

As the vaccination provider, you must communicate to the recipient or their caregiver, information consistent with the “Fact Sheet for Recipients and Caregivers” (and provide a copy or direct the individual to the website [www.modernatx.com/covid19vaccine-eua](http://www.modernatx.com/covid19vaccine-eua) to obtain the Fact Sheet) prior to the individual receiving each dose of the Moderna COVID-19 Vaccine, including:

- FDA has authorized the emergency use of the Moderna COVID-19 Vaccine, which is not an FDA-approved vaccine.
- The recipient or their caregiver has the option to accept or refuse the Moderna COVID-19

Vaccine.

- The significant known and potential risks and benefits of the Moderna COVID-19 Vaccine, and the extent to which such risks and benefits are unknown.
- Information about available alternative vaccines and the risks and benefits of those alternatives

For information on clinical trials that are evaluating the use of the Moderna COVID-19 Vaccine to prevent COVID-19, please see [www.clinicaltrials.gov](http://www.clinicaltrials.gov).

Provide a vaccination card to the recipient or their caregiver with the date when the recipient needs to return for the second dose of Moderna COVID-19 Vaccine.

Provide the **v-safe** information sheet to vaccine recipients/caregivers and encourage vaccine recipients to participate in **v-safe**. **V-safe** is a new voluntary smartphone-based tool that uses text messaging and web surveys to check in with people who have been vaccinated to identify potential side effects after COVID-19 vaccination. **V-safe** asks questions that help CDC monitor the safety of COVID-19 vaccines. **V-safe** also provides second-dose reminders if needed and live telephone follow-up by CDC if participants report a significant health impact following COVID-19 vaccination. For more information, visit: [www.cdc.gov/vsafe](http://www.cdc.gov/vsafe).

#### **MANDATORY REQUIREMENTS FOR MODERNA COVID-19 VACCINE ADMINISTRATION UNDER EMERGENCY USE AUTHORIZATION**

In order to mitigate the risks of using this unapproved product under EUA and to optimize the potential benefit of the Moderna COVID-19 Vaccine, the following items are required. Use of unapproved Moderna COVID-19 Vaccine for active immunization to prevent COVID-19 under this EUA is limited to the following (all requirements **must** be met):

1. The Moderna COVID-19 Vaccine is authorized for use in individuals 18 years of age and older.
2. The vaccination provider must communicate to the individual receiving the Moderna COVID-19 Vaccine or their caregiver information consistent with the “Fact Sheet for Recipients and Caregivers” prior to the individual receiving the Moderna COVID-19 Vaccine.
3. The vaccination provider must include vaccination information in the state/local jurisdiction’s Immunization Information System (IIS) or other designated system.
4. The vaccination provider is responsible for mandatory reporting of the following to the Vaccine Adverse Event Reporting System (VAERS):
  - vaccine administration errors whether or not associated with an adverse event,
  - serious adverse events\* (irrespective of attribution to vaccination),
  - cases of Multisystem Inflammatory Syndrome (MIS) in adults, and
  - cases of COVID-19 that result in hospitalization or death.

Complete and submit reports to VAERS online at <https://vaers.hhs.gov/reportevent.html>.

For further assistance with reporting to VAERS, call 1-800-822-7967. The reports should include the words “Moderna COVID-19 Vaccine EUA” in the description section of the report.

5. The vaccination provider is responsible for responding to FDA requests for information about vaccine administration errors, adverse events, cases of MIS in adults, and cases of COVID-19 that result in hospitalization or death following administration of the Moderna COVID-19 Vaccine to recipients.

\*Serious adverse events are defined as:

- Death;
- A life-threatening adverse event;
- Inpatient hospitalization or prolongation of existing hospitalization;
- A persistent or significant incapacity or substantial disruption of the ability to conduct normal life functions;
- A congenital anomaly/birth defect;
- An important medical event that based on appropriate medical judgement may jeopardize the individual and may require medical or surgical intervention to prevent one of the outcomes listed above.

#### **OTHER ADVERSE EVENT REPORTING TO VAERS AND MODERNATX, INC.**

Vaccination providers may report to VAERS other adverse events that are not required to be reported using the contact information above.

To the extent feasible, report adverse events to ModernaTX, Inc. using the contact information below or by providing a copy of the VAERS form to ModernaTX, Inc.

<b>Email</b>	<b>Fax number</b>	<b>Telephone number</b>
<a href="mailto:ModernaPV@modernatx.com">ModernaPV@modernatx.com</a>	1-866-599-1342	1-866-MODERNA (1-866-663-3762)

#### **ADDITIONAL INFORMATION**

For general questions, visit the website or call the telephone number provided below.

To access the most recent Moderna COVID-19 Vaccine Fact Sheets, please scan the QR code or visit the website provided below.

### AVAILABLE ALTERNATIVES

There is no approved alternative vaccine to prevent COVID-19. There may be clinical trials or availability under EUA of other COVID-19 vaccines.

### FEDERAL COVID-19 VACCINATION PROGRAM

This vaccine is being made available for emergency use exclusively through the CDC COVID-19 Vaccination Program (the Vaccination Program). Healthcare providers must enroll as providers in the Vaccination Program and comply with the provider requirements. Vaccination providers may not charge any fee for the vaccine and may not charge the vaccine recipient any out-of-pocket charge for administration. However, vaccination providers may seek appropriate reimbursement from a program or plan that covers COVID-19 vaccine administration fees for the vaccine recipient (private insurance, Medicare, Medicaid, HRSA COVID-19 Uninsured Program for non-insured recipients). For information regarding provider requirements and enrollment in the CDC COVID-19 Vaccination Program, see <https://www.cdc.gov/vaccines/covid-19/provider-enrollment.html>.

Individuals becoming aware of any potential violations of the CDC COVID-19 Vaccination Program requirements are encouraged to report them to the Office of the Inspector General, U.S. Department of Health and Human Services, at 1-800-HHS-TIPS or TIPS.HHS.GOV.

### AUTHORITY FOR ISSUANCE OF THE EUA

The Secretary of the Department of Health and Human Services (HHS) has declared a public health emergency that justifies the emergency use of drugs and biological products during the COVID-19 Pandemic. In response, the FDA has issued an EUA for the unapproved product, Moderna COVID-19 Vaccine, for active immunization to prevent COVID-19 in individuals 18 years of age and older.

FDA issued this EUA, based on ModernaTX, Inc.’s request and submitted data.

Although limited scientific information is available, based on the totality of the scientific evidence available to date, it is reasonable to believe that the Moderna COVID-19 Vaccine may be effective for the prevention of COVID-19 in individuals as specified in the *Full EUA Prescribing Information*.

This EUA for the Moderna COVID-19 Vaccine will end when the Secretary of HHS determines that the circumstances justifying the EUA no longer exist or when there is a change in the

approval status of the product such that an EUA is no longer needed.

For additional information about Emergency Use Authorization, visit FDA at:

<https://www.fda.gov/emergency-preparedness-and-response/mcm-legal-regulatory-and-policy-framework/emergency-use-authorization>.

### **COUNTERMEASURES INJURY COMPENSATION PROGRAM**

The Countermeasures Injury Compensation Program (CICP) is a federal program that has been created to help pay for related costs of medical care and other specific expenses to compensate people injured after use of certain medical countermeasures. Medical countermeasures are specific vaccines, medications, devices, or other items used to prevent, diagnose, or treat the public during a public health emergency or a security threat. For more information about CICP regarding the vaccines to prevent COVID-19, visit <http://www.hrsa.gov/cicp>, email [cicp@hrsa.gov](mailto:cicp@hrsa.gov), or call: 1-855-266-2427.

## FULL EMERGENCY USE AUTHORIZATION (EUA) PRESCRIBING INFORMATION

### 1 AUTHORIZED USE

Moderna COVID-19 Vaccine is authorized for use under an Emergency Use Authorization (EUA) for active immunization to prevent coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) in individuals 18 years of age and older.

### 2 DOSAGE AND ADMINISTRATION

For intramuscular injection only.

#### 2.1 Preparation for Administration

- The Moderna COVID-19 Vaccine multiple-dose vials contain a frozen suspension that does not contain a preservative and must be thawed prior to administration.
- Remove the required number of vial(s) from storage and thaw each vial before use following the instructions below.

Vial	Thaw in Refrigerator	Thaw at Room Temperature
<b>Maximum 11-Dose Vial (range: 10-11 doses)</b>	Thaw in refrigerated conditions between 2° to 8°C for 2 hours and 30 minutes. Let each vial stand at room temperature for 15 minutes before administering.	Alternatively, thaw at room temperature between 15° to 25°C for 1 hour.
<b>Maximum 15-Dose Vial (range: 13-15 doses)</b>	Thaw in refrigerated conditions between 2° to 8°C for 3 hours. Let each vial stand at room temperature for 15 minutes before administering.	Alternatively, thaw at room temperature between 15° to 25°C for 1 hour and 30 minutes.

- After thawing, do not refreeze.
- Swirl vial gently after thawing and between each withdrawal. **Do not shake.** Do not dilute the vaccine.
- The Moderna COVID-19 Vaccine is a white to off-white suspension. It may contain white or translucent product-related particulates. Visually inspect the Moderna COVID-19 Vaccine vials for other particulate matter and/or discoloration prior to administration. If either of these conditions exists, the vaccine should not be administered.
- The Moderna COVID-19 Vaccine is supplied in two multiple-dose vial presentations:
  - A multiple-dose vial containing a maximum of 11 doses: range 10-11 doses (0.5 mL each).
  - A multiple-dose vial containing a maximum of 15 doses: range 13-15 doses (0.5 mL each).
- Depending on the syringes and needles used for each dose, there may not be sufficient volume to extract more than 10 doses from the maximum of 11 doses vial or more than 13 doses from the maximum of 15 doses vial. Irrespective of the type of syringe and needle:
  - Each dose must contain 0.5 mL of vaccine.
  - If the amount of vaccine remaining in the vial cannot provide a full dose of 0.5 mL, discard the vial and contents. Do not pool excess vaccine from multiple vials.
  - Pierce the stopper at a different site each time.
- After the first dose has been withdrawn, the vial should be held between 2° to 25°C (36° to 77°F). Record the date and time of first use on the Moderna COVID-19 Vaccine vial label. Discard vial after 12 hours. Do not refreeze.

## 2.2 Administration

Visually inspect each dose of the Moderna COVID-19 Vaccine in the dosing syringe prior to administration. The white to off-white suspension may contain white or translucent product-related particulates. During the visual inspection,

- verify the final dosing volume of 0.5 mL.
- confirm there are no other particulates and that no discoloration is observed.
- do not administer if vaccine is discolored or contains other particulate matter.

Administer the Moderna COVID-19 Vaccine intramuscularly.

### **2.3 Dosing and Schedule**

The Moderna COVID-19 Vaccine is administered intramuscularly as a series of two doses (0.5 mL each) 1 month apart.

There are no data available on the interchangeability of the Moderna COVID-19 Vaccine with other COVID-19 vaccines to complete the vaccination series. Individuals who have received one dose of Moderna COVID-19 Vaccine should receive a second dose of Moderna COVID-19 Vaccine to complete the vaccination series.

## **3 DOSAGE FORMS AND STRENGTHS**

Moderna COVID-19 Vaccine is a suspension for intramuscular injection. A single dose is 0.5 mL.

## **4 CONTRAINDICATIONS**

Do not administer the Moderna COVID-19 Vaccine to individuals with a known history of severe allergic reaction (e.g., anaphylaxis) to any component of the Moderna COVID-19 Vaccine [*see Description (13)*].

## **5 WARNINGS AND PRECAUTIONS**

### **5.1 Management of Acute Allergic Reactions**

Appropriate medical treatment to manage immediate allergic reactions must be immediately available in the event an acute anaphylactic reaction occurs following administration of the Moderna COVID-19 Vaccine.

Monitor Moderna COVID-19 Vaccine recipients for the occurrence of immediate adverse reactions according to the Centers for Disease Control and Prevention guidelines (<https://www.cdc.gov/vaccines/covid-19/clinical-considerations/managing-anaphylaxis.html>).

### **5.2 Altered Immunocompetence**

Immunocompromised persons, including individuals receiving immunosuppressive therapy, may have a diminished response to the Moderna COVID-19 Vaccine.

### **5.3 Limitations of Vaccine Effectiveness**

The Moderna COVID-19 Vaccine may not protect all vaccine recipients.

## **6 OVERALL SAFETY SUMMARY**

**It is MANDATORY for vaccination providers to report to the Vaccine Adverse Event Reporting System (VAERS) all vaccine administration errors, all serious adverse events, cases of Multi-inflammatory Syndrome (MIS) in adults, and hospitalized or fatal cases of**

**COVID-19 following vaccination with the Moderna COVID-19 Vaccine. To the extent feasible, provide a copy of the VAERS form to ModernaTX, Inc. Please see the REQUIREMENTS AND INSTRUCTIONS FOR REPORTING ADVERSE EVENTS AND VACCINE ADMINISTRATION ERRORS section for details on reporting to VAERS and ModernaTX, Inc.**

In clinical studies, the adverse reactions in participants 18 years of age and older were pain at the injection site (92.0%), fatigue (70.0%), headache (64.7%), myalgia (61.5%), arthralgia (46.4%), chills (45.4%), nausea/vomiting (23.0%), axillary swelling/tenderness (19.8%), fever (15.5%), swelling at the injection site (14.7%), and erythema at the injection site (10.0%).

Severe allergic reactions, including anaphylaxis, have been reported following administration of the Moderna COVID-19 Vaccine during mass vaccination outside of clinical trials.

### **6.1 Clinical Trials Experience**

Because clinical trials are conducted under widely varying conditions, adverse reaction rates observed in the clinical trials of a vaccine cannot be directly compared with rates in the clinical trials of another vaccine and may not reflect the rates observed in practice.

Overall, 15,419 participants aged 18 years and older received at least one dose of Moderna COVID-19 Vaccine in three clinical trials (NCT04283461, NCT04405076, and NCT04470427).

The safety of Moderna COVID-19 Vaccine was evaluated in an ongoing Phase 3 randomized, placebo-controlled, observer-blind clinical trial conducted in the United States involving 30,351 participants 18 years of age and older who received at least one dose of Moderna COVID-19 Vaccine (n=15,185) or placebo (n=15,166) (NCT04470427). At the time of vaccination, the mean age of the population was 52 years (range 18-95); 22,831 (75.2%) of participants were 18 to 64 years of age and 7,520 (24.8%) of participants were 65 years of age and older. Overall, 52.7% were male, 47.3% were female, 20.5% were Hispanic or Latino, 79.2% were White, 10.2% were African American, 4.6% were Asian, 0.8% were American Indian or Alaska Native, 0.2% were Native Hawaiian or Pacific Islander, 2.1% were other races, and 2.1% were Multiracial. Demographic characteristics were similar among participants who received Moderna COVID-19 Vaccine and those who received placebo.

#### Solicited Adverse Reactions

Data on solicited local and systemic adverse reactions and use of antipyretic medication were collected in an electronic diary for 7 days following each injection (i.e., day of vaccination and the next 6 days) among participants receiving Moderna COVID-19 Vaccine (n=15,179) and participants receiving placebo (n=15,163) with at least 1 documented dose. Solicited adverse reactions were reported more frequently among vaccine participants than placebo participants.

The reported number and percentage of the solicited local and systemic adverse reactions by age group and dose are presented in Table 1 and Table 2, respectively.

**Table 1: Number and Percentage of Participants With Solicited Local and Systemic Adverse Reactions Within 7 Days\* After Each Dose in Participants 18-64 Years (Solicited Safety Set, Dose 1 and Dose 2)**

	Moderna COVID-19 Vaccine		Placebo <sup>a</sup>	
	Dose 1 (N=11,406) n (%)	Dose 2 (N=10,985) n (%)	Dose 1 (N=11,407) n (%)	Dose 2 (N=10,918) n (%)
<b>Local Adverse Reactions</b>				
Pain	9,908 (86.9)	9,873 (89.9)	2,177 (19.1)	2,040 (18.7)
Pain, Grade 3 <sup>b</sup>	366 (3.2)	506 (4.6)	23 (0.2)	22 (0.2)
Axillary swelling/tenderness	1,322 (11.6)	1,775 (16.2)	567 (5.0)	470 (4.3)
Axillary swelling/tenderness, Grade 3 <sup>b</sup>	37 (0.3)	46 (0.4)	13 (0.1)	11 (0.1)

- <sup>h</sup> Grade 4 Nausea/vomiting: Defined as requires emergency room visit or hospitalization for hypotensive shock.
- <sup>i</sup> Grade 3 fever: Defined as  $\geq 39.0^{\circ} - \leq 40.0^{\circ}\text{C}$  /  $\geq 102.1^{\circ} - \leq 104.0^{\circ}\text{F}$ .
- <sup>j</sup> Grade 4 fever: Defined as  $>40.0^{\circ}\text{C}$  /  $>104.0^{\circ}\text{F}$ .

Solicited local and systemic adverse reactions reported following administration of Moderna COVID-19 Vaccine had a median duration of 1 to 3 days.

Grade 3 solicited local adverse reactions were more frequently reported after Dose 2 than after Dose 1. Solicited systemic adverse reactions were more frequently reported by vaccine recipients after Dose 2 than after Dose 1.

### Unsolicited Adverse Events

Participants were monitored for unsolicited adverse events for up to 28 days following each dose and follow-up is ongoing. Serious adverse events and medically attended adverse events will be recorded for the entire study duration of 2 years. As of November 25, 2020, among participants who had received at least 1 dose of vaccine or placebo (vaccine=15,185, placebo=15,166), unsolicited adverse events that occurred within 28 days following each vaccination were reported by 23.9% of participants (n=3,632) who received Moderna COVID-19 Vaccine and 21.6% of participants (n=3,277) who received placebo. In these analyses, 87.9% of study participants had at least 28 days of follow-up after Dose 2.

Lymphadenopathy-related events that were not necessarily captured in the 7-day e-diary were reported by 1.1% of vaccine recipients and 0.6% of placebo recipients. These events included lymphadenopathy, lymphadenitis, lymph node pain, vaccination-site lymphadenopathy, injection-site lymphadenopathy, and axillary mass, which were plausibly related to vaccination. This imbalance is consistent with the imbalance observed for solicited axillary swelling/tenderness in the injected arm.

Hypersensitivity adverse events were reported in 1.5% of vaccine recipients and 1.1% of placebo recipients. Hypersensitivity events in the vaccine group included injection site rash and injection site urticaria, which are likely related to vaccination. Delayed injection site reactions that began >7 days after vaccination were reported in 1.2% of vaccine recipients and 0.4% of placebo recipients. Delayed injection site reactions included pain, erythema, and swelling and are likely related to vaccination.

Throughout the same period, there were three reports of Bell's palsy in the Moderna COVID-19 Vaccine group (one of which was a serious adverse event), which occurred 22, 28, and 32 days after vaccination, and one in the placebo group which occurred 17 days after vaccination. Currently available information on Bell's palsy is insufficient to determine a causal relationship with the vaccine.

There were no other notable patterns or numerical imbalances between treatment groups for specific categories of adverse events (including other neurologic, neuro-inflammatory, and thrombotic events) that would suggest a causal relationship to Moderna COVID-19 Vaccine.

### Serious Adverse Events

As of November 25, 2020, serious adverse events were reported by 1.0% (n=147) of participants who received Moderna COVID-19 Vaccine and 1.0% (n=153) of participants who received placebo, one of which was the case of Bell's palsy which occurred 32 days following receipt of vaccine.

In these analyses, 87.9% of study participants had at least 28 days of follow-up after Dose 2, and the median follow-up time for all participants was 9 weeks after Dose 2.

There were two serious adverse events of facial swelling in vaccine recipients with a history of injection of dermatological fillers. The onset of swelling was reported 1 and 2 days, respectively, after vaccination and was likely related to vaccination.

There was one serious adverse event of intractable nausea and vomiting in a participant with prior history of severe headache and nausea requiring hospitalization. This event occurred 1 day after vaccination and was likely related to vaccination.

There were no other notable patterns or imbalances between treatment groups for specific categories of serious adverse events (including neurologic, neuro-inflammatory, and thrombotic events) that would suggest a causal relationship to Moderna COVID-19 Vaccine.

## **8 REQUIREMENTS AND INSTRUCTIONS FOR REPORTING ADVERSE EVENTS AND VACCINE ADMINISTRATION ERRORS**

See Overall Safety Summary (Section 6) for additional information.

The vaccination provider enrolled in the federal COVID-19 Vaccination Program is responsible for the MANDATORY reporting of the listed events following Moderna COVID-19 Vaccine to the Vaccine Adverse Event Reporting System (VAERS)

- Vaccine administration errors whether or not associated with an adverse event
- Serious adverse events\* (irrespective of attribution to vaccination)
- Cases of multisystem inflammatory syndrome (MIS) in adults
- Cases of COVID-19 that results in hospitalization or death

\*Serious Adverse Events are defined as:

- Death;
- A life-threatening adverse event;
- Inpatient hospitalization or prolongation of existing hospitalization;
- A persistent or significant incapacity or substantial disruption of the ability to conduct

- normal life functions;
- A congenital anomaly/birth defect;
- An important medical event that based on appropriate medical judgement may jeopardize the individual and may require medical or surgical intervention to prevent one of the outcomes listed above.

### Instructions for Reporting to VAERS

The vaccination provider enrolled in the federal COVID-19 Vaccination Program should complete and submit a VAERS form to FDA using one of the following methods:

- Complete and submit the report online: <https://vaers.hhs.gov/reportevent.html>, or
- If you are unable to submit this form electronically, you may fax it to VAERS at 1-877-721-0366. If you need additional help submitting a report, you may call the VAERS toll-free information line at 1-800-822-7967 or send an email to [info@vaers.org](mailto:info@vaers.org).

**IMPORTANT: When reporting adverse events or vaccine administration errors to VAERS, please complete the entire form with detailed information. It is important that the information reported to FDA be as detailed and complete as possible. Information to include:**

- Patient demographics (e.g., patient name, date of birth)
- Pertinent medical history
- Pertinent details regarding admission and course of illness
- Concomitant medications
- Timing of adverse event(s) in relationship to administration of Moderna COVID-19 Vaccine
- Pertinent laboratory and virology information
- Outcome of the event and any additional follow-up information if it is available at the time of the VAERS report. Subsequent reporting of follow-up information should be completed if additional details become available.

The following steps are highlighted to provide the necessary information for safety tracking:

1. In Box 17, provide information on Moderna COVID-19 Vaccine and any other vaccines administered on the same day; and in Box 22, provide information on any other vaccines received within one month prior.
2. In Box 18, description of the event:
  - a. Write “Moderna COVID-19 Vaccine EUA” as the first line
  - b. Provide a detailed report of vaccine administration error and/or adverse event. It is important to provide detailed information regarding the patient and adverse event/medication error for ongoing safety evaluation of this unapproved vaccine. Please see information to include listed above.
3. Contact information:
  - a. In Box 13, provide the name and contact information of the prescribing healthcare provider or institutional designee who is responsible for the report.
  - b. In Box 14, provide the name and contact information of the best doctor/healthcare professional to contact about the adverse event.

- c. In Box 15, provide the address of the facility where vaccine was given (NOT the healthcare provider's office address).

### Other Reporting Instructions

Vaccination providers may report to VAERS other adverse events that are not required to be reported using the contact information above.

To the extent feasible, report adverse events to ModernaTX, Inc. using the contact information below or by providing a copy of the VAERS form to ModernaTX, Inc.

Email	Fax number	Telephone number
<a href="mailto:ModernaPV@modernatx.com">ModernaPV@modernatx.com</a>	1-866-599-1342	1-866-MODERNA (1-866-663-3762)

## **10 DRUG INTERACTIONS**

There are no data to assess the concomitant administration of the Moderna COVID-19 Vaccine with other vaccines.

## **11 USE IN SPECIFIC POPULATIONS**

### **11.1 Pregnancy**

#### Pregnancy Exposure Registry

There is a pregnancy exposure registry that monitors pregnancy outcomes in women exposed to Moderna COVID-19 Vaccine during pregnancy. Women who are vaccinated with Moderna COVID-19 Vaccine during pregnancy are encouraged to enroll in the registry by calling 1-866-MODERNA (1-866-663-3762).

#### Risk Summary

All pregnancies have a risk of birth defect, loss, or other adverse outcomes. In the U.S. general population, the estimated background risk of major birth defects and miscarriage in clinically recognized pregnancies is 2% to 4% and 15% to 20%, respectively. Available data on Moderna COVID-19 Vaccine administered to pregnant women are insufficient to inform vaccine-associated risks in pregnancy.

In a developmental toxicity study, 0.2 mL of a vaccine formulation containing the same quantity of nucleoside-modified messenger ribonucleic acid (mRNA) (100 mcg) and other ingredients included in a single human dose of Moderna COVID-19 Vaccine was administered to female rats by the intramuscular route on four occasions: 28 and 14 days prior to mating, and on gestation days 1 and 13. No vaccine-related adverse effects on female fertility, fetal development, or postnatal development were reported in the study.

## 11.2 Lactation

### Risk Summary

Data are not available to assess the effects of Moderna COVID-19 Vaccine on the breastfed infant or on milk production/excretion.

## 11.3 Pediatric Use

Safety and effectiveness have not been assessed in persons less than 18 years of age. Emergency Use Authorization of Moderna COVID-19 Vaccine does not include use in individuals younger than 18 years of age.

## 11.4 Geriatric Use

Clinical studies of Moderna COVID-19 Vaccine included participants 65 years of age and older receiving vaccine or placebo, and their data contribute to the overall assessment of safety and efficacy. In an ongoing Phase 3 clinical study, 24.8% (n=7,520) of participants were 65 years of age and older and 4.6% (n=1,399) of participants were 75 years of age and older. Vaccine efficacy in participants 65 years of age and older was 86.4% (95% CI 61.4, 95.2) compared to 95.6% (95% CI 90.6, 97.9) in participants 18 to <65 years of age [see *Clinical Trial Results and Supporting Data for EUA (18)*]. Overall, there were no notable differences in the safety profiles observed in participants 65 years of age and older and younger participants [see *Overall Safety Summary (6.1)*].

## 13 DESCRIPTION

Moderna COVID-19 Vaccine is provided as a white to off-white suspension for intramuscular injection. Each 0.5 mL dose of Moderna COVID-19 Vaccine contains 100 mcg of nucleoside-modified messenger RNA (mRNA) encoding the pre-fusion stabilized Spike glycoprotein (S) of SARS-CoV-2 virus.

Each dose of the Moderna COVID-19 Vaccine contains the following ingredients: a total lipid content of 1.93 mg (SM-102, polyethylene glycol [PEG] 2000 dimyristoyl glycerol [DMG], cholesterol, and 1,2-distearoyl-sn-glycero-3-phosphocholine [DSPC]), 0.31 mg tromethamine, 1.18 mg tromethamine hydrochloride, 0.043 mg acetic acid, 0.20 mg sodium acetate trihydrate, and 43.5 mg sucrose.

Moderna COVID-19 Vaccine does not contain a preservative.

The vial stoppers are not made with natural rubber latex.

## 14 CLINICAL PHARMACOLOGY

### 14.1 Mechanism of Action

The nucleoside-modified mRNA in the Moderna COVID-19 Vaccine is formulated in lipid particles, which enable delivery of the nucleoside-modified mRNA into host cells to allow expression of the SARS-CoV-2 S antigen. The vaccine elicits an immune response to the S antigen, which protects against COVID-19.

## 18 CLINICAL TRIAL RESULTS AND SUPPORTING DATA FOR EUA

A Phase 3 randomized, placebo-controlled, observer-blind clinical trial to evaluate the efficacy, safety, and immunogenicity of the Moderna COVID-19 Vaccine in participants 18 years of age and older is ongoing in the United States (NCT04470427). Randomization was stratified by age and health risk: 18 to <65 years of age without comorbidities (not at risk for progression to severe COVID-19), 18 to <65 years of age with comorbidities (at risk for progression to severe COVID-19), and 65 years of age and older with or without comorbidities. Participants who were immunocompromised and those with a known history of SARS-CoV-2 infection were excluded from the study. Participants with no known history of SARS-CoV-2 infection but with positive laboratory results indicative of infection at study entry were included. The study allowed for the inclusion of participants with stable pre-existing medical conditions, defined as disease not requiring significant change in therapy or hospitalization for worsening disease during the 3 months before enrollment, as well as participants with stable human immunodeficiency virus (HIV) infection. A total of 30,420 participants were randomized equally to receive 2 doses of the Moderna COVID-19 Vaccine or saline placebo 1 month apart. Participants will be followed for efficacy and safety until 24 months after the second dose.

The primary efficacy analysis population (referred to as the Per-Protocol Set) included 28,207 participants who received two doses (at 0 and 1 month) of either Moderna COVID-19 Vaccine (n=14,134) or placebo (n=14,073), and had a negative baseline SARS-CoV-2 status. In the Per-Protocol Set, 47.4% were female, 19.7% were Hispanic or Latino; 79.5% were White, 9.7% were African American, 4.6% were Asian, and 2.1% other races. The median age of participants was 53 years (range 18-95) and 25.3% of participants were 65 years of age and older. Of the study participants in the Per-Protocol Set, 18.5% were at increased risk of severe COVID-19 due to at least one pre-existing medical condition (chronic lung disease, significant cardiac disease, severe obesity, diabetes, liver disease, or HIV infection) regardless of age. Between participants who received Moderna COVID-19 Vaccine and those who received placebo, there were no notable differences in demographics or pre-existing medical conditions.

### Efficacy Against COVID-19

COVID-19 was defined based on the following criteria: The participant must have experienced at least two of the following systemic symptoms: fever ( $\geq 38^{\circ}\text{C}$ ), chills, myalgia, headache, sore throat, new olfactory and taste disorder(s); or the participant must have experienced at least one of the following respiratory signs/symptoms: cough, shortness of breath or difficulty breathing, or clinical or radiographical evidence of pneumonia; and the participant must have at least one

NP swab, nasal swab, or saliva sample (or respiratory sample, if hospitalized) positive for SARS-CoV-2 by RT-PCR. COVID-19 cases were adjudicated by a Clinical Adjudication Committee.

The median length of follow up for efficacy for participants in the study was 9 weeks post Dose 2. There were 11 COVID-19 cases in the Moderna COVID-19 Vaccine group and 185 cases in the placebo group, with a vaccine efficacy of 94.1% (95% confidence interval of 89.3% to 96.8%).

**Table 3: Primary Efficacy Analysis: COVID-19\* in Participants 18 Years of Age and Older Starting 14 Days After Dose 2 per Adjudication Committee Assessments – Per-Protocol Set**

Moderna COVID-19 Vaccine			Placebo			% Vaccine Efficacy (95% CI)†
Participants (N)	COVID-19 Cases (n)	Incidence Rate of COVID-19 per 1,000 Person-Years	Participants (N)	COVID-19 Cases (n)	Incidence Rate of COVID-19 per 1,000 Person-Years	
14,134	11	3.328	14,073	185	56.510	94.1 (89.3, 96.8)

\* COVID-19: symptomatic COVID-19 requiring positive RT-PCR result and at least two systemic symptoms or one respiratory symptom. Cases starting 14 days after Dose 2.

† VE and 95% CI from the stratified Cox proportional hazard model.

The subgroup analyses of vaccine efficacy are presented in Table 4.

**Table 4: Subgroup Analyses of Vaccine Efficacy: COVID-19\* Cases Starting 14 Days After Dose 2 per Adjudication Committee Assessments – Per- Protocol Set**

Age Subgroup (Years)	Moderna COVID-19 Vaccine			Placebo			% Vaccine Efficacy (95% CI)*
	Participants (N)	COVID-19 Cases (n)	Incidence Rate of COVID-19 per 1,000 Person-Years	Participants (N)	COVID-19 Cases (n)	Incidence Rate of COVID-19 per 1,000 Person-Years	
18 to <65	10,551	7	2.875	10,521	156	64.625	95.6 (90.6, 97.9)
≥65	3,583	4	4.595	3,552	29	33.728	86.4 (61.4, 95.2)

\* COVID-19: symptomatic COVID-19 requiring positive RT-PCR result and at least two systemic symptoms or one respiratory symptom. Cases starting 14 days after Dose 2.

† VE and 95% CI from the stratified Cox proportional hazard model.

Severe COVID-19 was defined based on confirmed COVID-19 as per the primary efficacy endpoint case definition, plus any of the following: Clinical signs indicative of severe systemic illness, respiratory rate  $\geq 30$  per minute, heart rate  $\geq 125$  beats per minute, SpO2  $\leq 93\%$  on room

air at sea level or PaO<sub>2</sub>/FIO<sub>2</sub> <300 mm Hg; or respiratory failure or ARDS (defined as needing high-flow oxygen, non-invasive or mechanical ventilation, or ECMO), evidence of shock (systolic blood pressure <90 mmHg, diastolic BP <60 mmHg or requiring vasopressors); or significant acute renal, hepatic, or neurologic dysfunction; or admission to an intensive care unit or death.

Among all participants in the Per-Protocol Set analysis, which included COVID-19 cases confirmed by an adjudication committee, no cases of severe COVID-19 were reported in the Moderna COVID-19 Vaccine group compared with 30 cases reported in the placebo group (incidence rate 9.138 per 1,000 person-years). One PCR-positive case of severe COVID-19 in a vaccine recipient was awaiting adjudication at the time of the analysis.

## **19 HOW SUPPLIED/STORAGE AND HANDLING**

Moderna COVID-19 Vaccine Suspension for Intramuscular Injection Multiple-Dose Vials are supplied as follows:

NDC 80777-273-99 Carton of 10 multiple-dose vials, each vial containing a maximum of 11 doses: range 10-11 doses (0.5 mL)

NDC 80777-273-98 Carton of 10 multiple-dose vials, each vial containing a maximum of 15 doses: range 13-15 doses (0.5 mL)

During storage, minimize exposure to room light.

Store frozen between -50° to -15°C (-58° to 5°F). Store in the original carton to protect from light.

Do not store on dry ice or below -50°C (-58°F). Use of dry ice may subject vials to temperatures colder than -50°C (-58°F).

Vials may be stored refrigerated between 2° to 8°C (36° to 46°F) for up to 30 days prior to first use. Do not refreeze.

Vials may be stored between 8° to 25°C (46° to 77°F) for a total of 24 hours.

After the first dose has been withdrawn, the vial should be held between 2° to 25°C (36° to 77°F). Vials should be discarded 12 hours after the first puncture.

Thawed vials can be handled in room light conditions.

Do not refreeze once thawed.

### Transportation of Thawed Vials at 2°C to 8°C (35°F to 46°F)

If transport at -50° to -15°C (-58° to 5°F) is not feasible, available data support transportation of one or more thawed vials for up to 12 hours at 2° to 8°C (35° to 46°F) when shipped using

shipping containers which have been qualified to maintain 2° to 8°C (35° to 46°F) and under routine road and air transport conditions with shaking and vibration minimized. Once thawed and transported at 2° to 8°C (35° to 46°F), vials should not be refrozen and should be stored at 2° to 8°C (35° to 46°F) until use.

## 20 PATIENT COUNSELING INFORMATION

Advise the recipient or caregiver to read the Fact Sheet for Recipients and Caregivers.

The vaccination provider must include vaccination information in the state/local jurisdiction's Immunization Information System (IIS) or other designated system. Advise recipient or caregiver that more information about IISs can be found at:

<https://www.cdc.gov/vaccines/programs/iis/about.html>.

Concord, NH 03301

**Re: Testimony regarding SB 155—codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic**

Good afternoon, Madam Chair, members of the committee:

My name is Lindsey Courtney, Executive Director of the New Hampshire Office of Professional Licensure and Certification, the agency that administers fifty-four occupational licensing boards, councils, and commissions within the State of New Hampshire.

OPLC wishes to express its support of portions of this bill directly impacting OPLC, specifically Section 2 on pages 2-3 (authorizing emergency licensing of medical providers); Section 3 on pages 3-4 (authorizing COVID-19 testing and vaccination by pharmacists and pharmacy technicians); and, Section 4 on page 4 (permitting out-of-state pharmacies providing investigational drugs to clinical trial participants in New Hampshire to be temporarily licensed as mail-order pharmacies).

When the COVID-19 pandemic began, healthcare providers across the nation quickly moved to a telehealth platform in order to prevent and limit the spread of the virus. Legally, this posed a challenge for the State: as the practice of healthcare is deemed to occur where the patient is physically located, providers who typically provided care for New Hampshire patients in border states (such as Vermont and Massachusetts) suddenly needed a New Hampshire license to continue to legally provide services to those patients, and to receive reimbursement from insurance providers for such services.

Emergency Order #15 authorizes the Office of Professional Licensure and Certification to issue emergency licenses to medical providers who have a license in good standing in another jurisdiction. Rather than grant the authority to issue licenses to individual boards, the

Hon. Carol McGuire  
April 27, 2021  
Page Two

consolidated approach permitted the agency to issue licenses quickly using one, simplified process. Our present timeframe for complete application to licensure is 24 business hours. To date, OPLC has issued approximately 22,328 emergency licenses, without a fee. 63% of psychologists, 47% of marriage and family therapists, 45% of active licensed clinical mental health workers, and 45% of licensed independent clinical social workers are practicing in New Hampshire with an emergency license issued by the agency.

OPLC has encouraged providers with an emergency license to obtain permanent licensure if they intend to continue to practice in this State. One of the most frequent questions we receive is how long the license will last. At present, the emergency order is tied to the State of Emergency, which must be reevaluated every 21 days. Codifying the Office's ability to issue licenses through January 31, 2022, would provide professionals and facilities with predictability as to the license term. To ensure New Hampshire constituents continued to have access to the care they need throughout this pandemic, OPLC fully supports Section 2 of this bill.

Section 3 permits pharmacists and pharmacy technicians, with certain training, to administer COVID-19 vaccines and tests. It goes without saying that our pharmacists and pharmacy technicians are trusted partners in the State's effort to quickly and effectively combat COVID-19. Accordingly, OPLC urges your support of Section 3 of this bill.

Section 4 permits out-of-state pharmacies to ship investigational drugs to clinical trial participants who reside in New Hampshire and who are unable to retrieve the investigational drugs from the out-of-state pharmacy. Essentially, this emergency order arose because there are several New Hampshire patients who typically travel to Massachusetts hospitals for participation in clinical trials, where they receive investigational drugs. When the transition to the telehealth platform occurred, Massachusetts healthcare facilities were seeking to continue to provide such investigational drugs to their patients located in New Hampshire. In order to ensure continuity of care for this vulnerable and limited population, OPLC believes this emergency order must continue during the COVID-19 pandemic.

Thank you for the opportunity to provide comments.

Very truly yours,

Lindsey B. Courtney, JD  
Executive Director  
Office of Professional Licensure and Certification

## Abstract

**Background:** The safety of COVID-19 vaccines has been demonstrated in selected populations in recent studies, but more data in specific groups is needed to inform vaccine choice and health policy.

**Objectives:** An international, online survey was conducted to compare the safety, tolerability and reactogenicity of available COVID-19 vaccines in different recipient groups.

**Methods:** This survey was launched in February 2021, for 11 days. Recipients of a first COVID-19 vaccine dose  $\geq 7$  days prior to survey completion were eligible. The incidence and severity of vaccination side effects were assessed.

**Results:** Survey was completed by 2,002 respondents, of whom 26.6% had prior COVID-19 infection (68.8% laboratory confirmed). Prior COVID-19 infection was associated with increased risk of any side effect (risk ratio 1.08, 95% confidence intervals [1.05-1.11]), fever (2.24 [1.86-2.70]), breathlessness (2.05 [1.28-3.29]), flu-like illness (1.78 [1.51-2.10]), fatigue (1.34 [1.20-1.49]) and local reactions (1.10 [1.06-1.15]). It was also associated with increased risk of severe side effects, leading to hospital care (1.56 [1.14-2.12]).

While mRNA vaccines were associated with a higher incidence of any side effect (1.06 [1.01-1.11]) compared to viral vector-based vaccines, these were generally milder ( $p < 0.001$ ), mostly local reactions. Importantly, mRNA vaccine-recipients reported considerably lower incidence of systemic reactions ( $RR < 0.6$ ) including anaphylaxis, swelling, flu-like illness, breathlessness and fatigue, and of side effects requiring hospital care (0.42 [0.31-0.58]).

**Conclusion:** For the first time, our study links prior COVID-19 illness with increased incidence of vaccination side effects and demonstrates that mRNA vaccines cause milder, less frequent systemic side effects, but more local reactions.

**Key messages:**

- People with prior COVID-19 illness appear to experience significantly increased incidence and severity of side effects after receiving the COVID-19 vaccine.
- In this first head-to-head comparison of the safety and reactogenicity of different types of vaccines, it was demonstrated that mRNA vaccines cause milder, less frequent systemic side effects, compared to viral vector vaccines, but more local reactions.

**Tweetable Summary:** A survey of >2000 COVID-19 vaccine-recipients links prior COVID-19 illness with increased incidence of vaccination side effects; mRNA vaccines cause milder, less frequent systemic side effects, but more local reactions.

**Keywords:** Coronavirus disease 2019, COVID-19, COVID-19 vaccine, safety, adverse events

## Introduction

Coronavirus Disease 2019 (COVID-19) rapidly became a leading cause of death, short and long-term morbidity among people over the age of 45<sup>1,2</sup>, posing an unprecedented burden to healthcare systems, with worldwide economic consequences and prolonged lockdowns<sup>3</sup>. Vaccines currently being rolled out are anticipated to significantly modify these trends. While their effectiveness and safety have been proven in recent studies<sup>4,5,6</sup>, data in specific groups remains lacking. Generally, people with a previous history of COVID-19, in whom vaccination is currently advised<sup>7</sup>, were excluded from the clinical trials<sup>4,5,6</sup>. Whilst it is accepted that prior infection with COVID-19 induces natural immunity potentially lasting for at least six months<sup>8</sup>, yet it is unknown if previous infection may be associated with more vaccination side effects. Moreover, the safety and reactogenicity of the different types of vaccines (mRNA or viral vector-based) have not been compared head-to-head. This anonymized international online survey was conducted to compare the safety profiles of available COVID-19 vaccines and evaluate their side effects in different groups of vaccine recipients.

## Methods

This online survey, developed in plain English language and piloted by experts and lay people, captured basic epidemiological data, details on COVID-19 exposure, vaccination history, the incidence and severity (table e1) of the respective side effects. More specifically, we have enquired about the following symptoms: Localized reactions (pain, swelling, tenderness, redness, itching or other), fever, skin rash, shortness of breath, tingling in the mouth, face, body / extremities, swelling in the face or mouth, generalized swelling, anaphylaxis (severe allergic reaction with face swelling and breathlessness), tiredness or fatigue, flu-like illness, or any other side effects. It was launched via Google Forms on 3<sup>rd</sup> February 2021, for 11 days, and was shared within the investigators' institutions, through professional contacts and social media. The only inclusion criterion was the receipt of the first dose of any COVID-19 vaccine at least 7 days prior to survey completion.

The main objectives were to evaluate differences in the incidence and severity of vaccination side effects among (i) people with versus without previously reported COVID-19 infection and (ii) those who received different vaccine types. Moreover, we explored differences in self-reported side effects between the first and second vaccine dose, among different ethnicities and among those with different preconceptions towards the vaccine. Finally, we explored the impact of the interval between COVID-19 exposure and vaccination and the incidence of side effects.

For our main analysis, a positive COVID-19 history was considered in cases of (a) a self-reported history of symptoms consistent with COVID-19 disease, provided that COVID-19 was not excluded by a negative PCR test, (b) a positive COVID-19 PCR test, or (c) a positive COVID-19 antigen test. In a sensitivity analysis, COVID-19 infection was only considered valid if it was confirmed by PCR or antigen testing, while patients with uncertain exposure (clinical history not confirmed by laboratory testing) were excluded.

Between-group differences were assessed using chi-squared and Mann-Whitney U tests for dichotomous and continuous variables, respectively, after Shapiro-Wilk test excluded normal distribution of the latter. Between group differences in the incidence of side effects are presented as risk ratios (RR) with the respective 95% confidence intervals (CI). Predictors of the incidence and severity of side effects were evaluated in univariate, followed by multivariate binomial logistic regression and cumulative link models for ordinal data, respectively. Age, gender, ethnicity, vaccine type, prophylactic analgesia or other medication use prior to vaccination, vaccine preconceptions, and prior COVID-19 exposure were evaluated as potential confounding factors. Unless otherwise specified, the analyses were based on side effect profiles from the first dose of the vaccine.

Ethics approval was not necessary for this anonymized survey.

## Results

Within 11 days, this international online survey was completed by 2,002 participants (table e2, figure e1), mostly health professionals of a working age (median: 45, IQR: 35-50 years). 532 (26.6%) had history of previous COVID-19 infection, of whom 366 (68.8%) were confirmed by PCR (n=273) and/or antigen testing (n=162). COVID-19 infection preceded the first vaccination dose by a median of 87 [IQR: 47-223] days. The majority of respondents were Caucasians (88.3%), mostly from the UK (78.6%) and Greece (16.6%). As anticipated, prior history of COVID-19 infection was more prevalent among frontline workers, health professionals and people from the UK, where a very high incidence of COVID-19 was documented<sup>9</sup>. Moreover, recipients of a viral vector-based vaccine (mainly the AstraZeneca vaccine) were relatively older (figure e2,  $p < 0.001$ ) and were mostly based in the UK (89.7%, compared to 76.4% of those that received viral mRNA vaccines,  $p < 0.001$ ). Finally, doctors were more likely to have received mRNA based vaccine compared to the other groups ( $p < 0.001$ ).

Prior COVID-19 infection was associated with a 8% increase in the risk of having any side effects after the first vaccine dose (RR 1.08, 95% CI [1.05-1.11], table 1, figure 1). We also observed significantly increased risk of self-reported fever (2.24 [1.86-2.70]), breathlessness (2.05 [1.28-3.29]), flu-like illness (1.78 [1.51-2.10]), fatigue (1.34 [1.2-1.49]), local reactions (1.10 [1.06-1.15]) and “other” side effects (1.46 [1.16-1.82]). Among those experiencing side effects, prior COVID-19 infection was associated with increased severity of any side effect, local side effects, or fatigue ( $p < 0.001$ ). More importantly, prior COVID-19 infection was associated with the risk of experiencing a severe side effect, **requiring hospital care (1.56 [1.14-2.12])**. These observations remained significant in multivariate analyses and our sensitivity analysis (table e3). A similar increase in the risk of any side effects following the second dose in those with prior COVID-19 infection was also noted (1.08 [1.05-1.11]), although the lack of significant associations with specific side effects may result from the limited sample included in this analysis.

Furthermore, significant differences were observed between the side effect profiles of mRNA versus viral vector vaccines (predominantly Pfizer versus AstraZeneca, table 2, figure 2). Overall, recipients

of mRNA vaccines reported a higher incidence of any self-reported side effects (1.06 [1.01-1.11]), which however were of significantly milder severity, compared to those who received viral vector vaccines. While mRNA vaccines were associated with an increased incidence of reported local reactions (1.29 [1.19-1.40]), they were associated with considerably lower incidence of self-reported systemic side effects including anaphylaxis (0.19 [0.04-0.62]), fever (0.28 [0.24-0.34]), swelling in the face or mouth (0.29 [0.10-0.80]) or generalized swelling (0.29 [0.15-0.56]), flu-like illness (0.34 [0.29-0.40]), breathlessness (0.43 [0.26-0.70]), fatigue (0.56 [0.51-0.62]) or other side effects (0.67 [0.52-0.86]). These observations were corroborated by multivariate analyses. Most importantly, mRNA vaccines were associated with a significantly lower incidence of severe side effects (requiring hospital care, RR 0.42 [0.31-0.58]).

In general, the second dose of the vaccine was associated with higher incidence of side effects (table 3). More specifically, respondents reported experiencing more frequently any side effects (1.04 [1.01-1.07]), skin rash (2.25 [1.4-3.62]), fever (1.72 [1.46-2.02]), flu-like illness (1.67 [1.45-1.91]), and fatigue (1.40 [1.28-1.53]). In addition, multivariate regression demonstrated that participants who had side effects after the first vaccine dose, were at significantly higher risk of having the same side effects after the second dose. Among those experiencing side effects, the severity did not significantly differ between the two doses. However, the likelihood of having a severe side effect, requiring hospital care was significantly decreased (0.58 [0.38-0.88]).

Stratification by ethnicity revealed that white participants reported lower incidence of fever (0.62 [0.48-0.79]) and flu-like illness (0.78 [0.62-0.97]), compared to the remaining participants (table e4). Finally, those reporting pre-vaccination concern about the safety of the vaccine, reported more often tingling (2.23 [1.45-3.42]), breathlessness (1.73 [1.00-2.98]), and fatigue (1.17 [1.03-1.34], table e5).

Multivariate analyses also revealed a strong, negative association between age and the self-reporting of any side effect, local reactions, fever, flu-like illness, rash, tingling, generalized swelling and fatigue ( $p < 0.01$ ). Finally, a history of allergy was associated with an increased incidence of self-reported

breathlessness and rash ( $p < 0.01$ ). However, as described in the previous paragraphs and tables, most of the associations observed in univariate analyses remained significant in multivariate analyses accounting for these and other potential confounding factors.

## Discussion

People with prior COVID-19 exposure were largely excluded from the vaccine trials<sup>4,5,6</sup> and, as a result, the safety and reactogenicity of the vaccines in this population have not been previously fully evaluated. For the first time, this study demonstrates a significant association between prior COVID-19 infection and a significantly higher incidence and severity of self-reported side effects after vaccination for COVID-19. Consistently, compared to the first dose of the vaccine, we found an increased incidence and severity of self-reported side effects after the second dose, when recipients had been previously exposed to viral antigen. In view of the rapidly accumulating data demonstrating that COVID-19 survivors generally have adequate natural immunity for at least 6 months, it may be appropriate to re-evaluate the recommendation for immediate vaccination of this group.

Moreover, this is the first head-to-head real-world comparison of the self-reported safety of viral vector versus mRNA vaccines, with the latter associated with a 58% decreased incidence of self-reported severe side effects, requiring hospital care. While more recipients of mRNA vaccines reported at least one (any) side effect, the difference was predominantly driven by the frequent local reactions, while the incidence of each of the systemic side effects evaluated, which are more burdensome to the recipients, was significantly reduced. Recipients of the viral vector-based vaccines were relatively older. However, differences in the incidence of adverse events were confirmed in multivariate analyses accounting for the age of the respondents as a covariate. Moreover, given that older people reported side effects less frequently, potential bias due to age difference would be expected to favour viral vector-based vaccines. These findings may have an impact on vaccine choice, and health policies.

The main strengths of our study include a large study population that better reflects real-life compared to the populations studied in the clinical trials, the availability of adequate details about the participants and the vaccines' safety profiles, and very limited missing data. Potential respondents bias is the main limitation of any survey and since this survey was shared through social media, we were not able to estimate the non-response rate. However, respondents bias is more likely to affect the absolute incidence of side effects, that we did not evaluate here, rather than the relative incidence and severity across different groups of people. Potential recall bias should also be mentioned, although all participants had been vaccinated within 10 weeks prior to completing the survey. As noted, most respondents were from the UK and Greece due to the ability of the investigators to establish contacts quickly to publicise this survey. The UK has also been successful in rolling out COVID-19 vaccines quickly leading to more of those invited being eligible to participate. It is not surprising that Pfizer vaccine was the most delivered vaccine as it was the first vaccine to be licensed within the UK, with more individuals receiving it in total when the survey was circulated.

In conclusion, this extensive survey of over 2,000 recipients of the COVID-19 vaccines links previous COVID-19 illness with increased incidence of vaccination side effects. It also demonstrates that mRNA vaccines cause milder, less frequent systemic side effects, but more local reactions. These findings will need to be validated in clinical studies, preferably randomized controlled trials, including patients from multiple groups.

## Figures and Tables Legends

**Figure 1:** Incidence and severity of self-reported side effects after the first dose of the COVID-19 vaccine among participants who had or did not have known prior COVID-19 infection. Risk ratios less than 1 favours those that did not have prior COVID-19 infection.

**Figure 2:** Incidence and severity of side effects after the first dose of an (1) mRNA or (2) viral vector vaccine. Risk ratios less than 1 favours the mRNA vaccines.

**Table e1:** Definitions of side effects severity.

<b>Severity</b>	<b>Definition</b>
<b>Minimal</b>	Negligible impact
<b>Mild</b>	No treatment needed
<b>Moderate</b>	Needed treatment or advice from healthcare professional outside the hospital
<b>Severe</b>	<b>Needed hospital care</b>

**Table e2:** Baseline characteristics of study participants. Continuous variables as presented as medians [IQR] and categorical as n (%). Between group differences were anticipated and explained by the incidence of COVID-19 in different subgroups. Characteristically, higher incidence of prior COVID-19 infection was observed among frontline workers, health professionals and among British people (a very high incidence of COVID-19 was documented in the UK).

<b>Characteristics</b>	<b>Participants with prior COVID-19 infection (n=532)</b>	<b>Participants with no known prior COVID-19 infection (n=1,470)</b>	<b>Missing data</b>	<b>Between group differences (P-value)</b>

## MEMORANDUM

TO: Executive Departments & Administration Committee  
FROM: Brendan Williams, President & CEO  
RE: Temporary health partner legislation

Although the temporary health partner position embodied in Emergency Order #42 was borne out of a March 30, 2020 federal waiver issued by the U.S. Centers for Medicare & Medicaid Services (CMS),<sup>1</sup> there is no reason this position cannot exist absent that waiver.

This is because we never used it as a substitute for licensed staff. The CMS waiver allowed the use of such positions as a substitute for what we call licensed nursing assistants, but in other states are called nurse aides or certified nursing assistants.<sup>2</sup> We did not. We worked closely with the New Hampshire Nurses Association, Senator Tom Sherman, Representative Polly Campion, and others to navigate the sensitivities around authorizing this new position.

As Emergency Order #42 states: “Temporary health partners shall work under the supervision of an RN, APRN, or LPN, as is required of LNAs under RSA 326-B:14” and “[t]he position of temporary health partner shall not be considered a substitute for the licensure under RSA 326-B:14 but is intended to assist the work of licensed nursing assistants. The temporary health partner *shall not perform services independently*, and must be supervised by licensed nurses at all times.”<sup>3</sup> (Emphasis added).

The position earned support from the National Governors Association (NGA) in a February brief entitled “Supporting A Trained Direct Care Workforce In Facility Settings During And After The Covid-19 Pandemic.”<sup>4</sup> As the NGA noted, “[w]hile responding to urgent direct care staffing needs is a top priority for states in the short-term, it will be critical for states and employers to consider strategies for retaining this workforce when the waiver expires.”

We believe that the approach that we would like to see taken in Part IX of SB 133 is consistent with the NGA guidance, and bipartisan policymaking in other states.<sup>5</sup> Similarly, to statutorily codify Emergency Order 42 in Part I of SB 155 is not inconsistent with any federal guidance or best practices.

Please feel free to contact me with any questions at [bwilliams@nhhca.org](mailto:bwilliams@nhhca.org).

## **Key Points**

**Question:** Does previous COVID-19 infection or 'Long-COVID' increase the frequency of Adverse Events (AEs) following first dose of BNT162b2/Pfizer vaccination?

**Findings:** In a survey-based observational study, healthcare workers in the United Kingdom reported AEs experienced after their first dose of BNT162b2/Pfizer vaccine. Prior COVID-19 infection, but not Long-COVID, were associated with increased risk of self-reported AEs including lymphadenopathy post-vaccination. Duration since COVID-19 infection did not affect severity of AEs.

**Meaning:** Our study can inform education and understanding of AEs associated with COVID-19 vaccination and help to combat vaccine hesitancy.

## **Abstract**

**Importance:** Understanding Adverse Events (AEs) associated with SARS-CoV-2 vaccination has public health implications, especially with regards to vaccine hesitancy.

**Objective:** To establish whether individuals with prior history of COVID-19 were more likely to experience AEs after BNT162b2/Pfizer vaccination, than those without previous COVID-19, and whether COVID-19-vaccination interval influenced AE severity.

**Design:** An observational study explored AEs after vaccination. Participants were invited to complete an electronic survey, capturing self-reported COVID-19 symptoms, PCR/antibody results, and AEs following first dose of BNT162b2/Pfizer vaccine. In a subset where PCR/antibody results could be verified, a sensitivity analysis was conducted.

**Setting:** Three North-East England hospital Trusts in the United Kingdom.

**Participants:** Healthcare workers formed an opportunistic sample – 265 of 974 reported prior positive SARS-CoV-2 PCR and/or antibody.

**Exposure:** All participants had received their first dose of BNT162b2/Pfizer vaccine.

**Main Outcomes and Measures:** Nature, severity, duration, and onset of self-reported AEs (reported via a modified version of the FDA Toxicity Grading Scale for vaccine-associated AEs), was compared between those with and without a prior history of COVID-19, using 2-way ANCOVA and logistic regression. Effects of age, gender, illness-vaccine interval, and ongoing symptoms ('Long-COVID') on AEs, were also explored.

**Results:** Of 974 respondents (81% female, mean age 48), 265 (27%) reported previous COVID-19 infection. Within this group (symptoms median 8.9 months pre-vaccination), 30 (11%) complained of Long-COVID. The proportion reporting one moderate/severe symptom was higher in the previous COVID-19 group (56% v 47%, OR=1.5 [95%CI, 1.1–2.0], p=.009), with fever, fatigue, myalgia-arthralgia and lymphadenopathy significantly more common. There was no significant relationship between illness-vaccine interval and symptom composite score ( $r_s=0.09$ , p=.44). Long-COVID was not associated with worse AEs in

comparison to the group without previous COVID-19. In the smaller sensitivity analysis cohort (412 people) similar findings were obtained although only myalgia and arthralgia remained significant.

**Conclusions and Relevance:** Prior COVID-19 infection but not ongoing Long-COVID symptoms were associated with an increase in the risk of self-reported adverse events following BNT162b2/Pfizer vaccination. COVID-19 illness-vaccination interval did not significantly influence AEs. This data can support education around vaccine-associated AEs and, through improved understanding, help to combat vaccine hesitancy.

## **Introduction**

The BNT162b2/Pfizer and mRNA-1273/Moderna COVID-19 vaccines<sup>1,2</sup> were recently approved for use in the UK, with the former widely used amongst priority groups. While safety profiles were deemed acceptable (following phase 3 trials), participants with previous COVID-19 infection were excluded. Recent evidence suggests mRNA vaccines may cause more Adverse Events (AEs) in those with a history of COVID-19.<sup>3-5</sup> A small study found that AEs reported after the first dose of mRNA vaccine in seropositive individuals, were greater than in those with no prior COVID-19.<sup>3</sup> The 'ZOE COVID-19 Symptom Study' also observed similar outcomes via a self-reporting app.<sup>4</sup> Most recently in a larger study, 532 out of 2002 participants with prior COVID-19 reported increased (mostly systemic) AEs after either an mRNA or vector-based (AZD1222/AstraZeneca) vaccine.<sup>5</sup>

These preliminary studies suggest a need for further investigation into the effect of prior COVID-19 history on vaccine-related AEs. Consideration of whether time between previous infection and vaccination administration or the presence of 'Long-COVID'<sup>6-8</sup> can predict AEs, is also warranted. This information is important, as it could assist in identifying individuals who are more likely to experience side effects to COVID-19 vaccines. Furthermore, there are public health implications with regards to vaccine hesitancy, which is somewhat driven by fear of AEs.<sup>9-11</sup> As part of a longitudinal observational study of COVID-19 in healthcare workers in North-East England, we evaluated AEs following first doses of BNT162b2/Pfizer vaccine, with particular reference to previous COVID-19 and Long-COVID.

## **Method**

National Health Service (NHS) workers (employed by 3 North-East Trusts in the UK) completed an electronic survey on AEs following COVID-19 vaccination. The survey captured self-reported COVID-19 symptoms, PCR/antibody results, and AEs following the first dose. The FDA Toxicity Grading Scale<sup>12</sup> (with simplified language) was modified allowing participants to self-report AEs for severity (mild/moderate/severe/very severe),

duration ( $\leq 24$  hours/ $> 24$  hours) and onset ( $\leq 24$  hours/ $> 24$  hours); lymphadenopathy was included as an additional symptom.

A composite score for symptom nature and severity was calculated, to provide an overall estimate of AE-related morbidity, for the former by adding number of moderate/severe symptoms, and the latter by multiplying this by symptom duration. Individual and composite AE scores were compared between those with and without a prior history of COVID-19, as indicated by self-reported prior positive antibody and/or PCR result. Long-COVID was defined as symptoms persisting  $> 2$  months to vaccination. Effects of age, gender and time between past infection to vaccination were also considered.

Respondents who had permitted laboratory results to be accessed (SARS-CoV-2 PCR and antibody), formed a subgroup for sensitivity analysis. Statistical analysis was carried out using JASP v0.14.1.0. Composite scores were compared using 2-way ANCOVA.

Multivariable logistic regressions were performed to identify the relationship between COVID-19 status and the presence of moderate/severe symptoms in each category, and the Bonferroni correction applied to the resulting significance and confidence intervals. The study was approved by Cambridge East Research Ethics Committee.

## **Results**

Of 974 healthcare workers (aged 19-72-years) responding to the survey and providing complete data for analysis, 265 (27%) participants (84% female, mean age 48.9) reported a prior positive PCR and/or antibody result, and 709 (80% female, mean age 47.0) had no COVID-19 history. Within the previous COVID-19 group (symptoms median 8.9 months

before vaccination), 30 (83% female, mean age 48.8) complained of Long-COVID (median duration 9.3 months, range 2.8–10.4).

Figure 1A shows frequencies of each symptom by COVID-19 status. The proportion of participants reporting at least one moderate-to-severe symptom was higher in the previous COVID-19 group (56% v 47%, OR=1.5 [95%CI, 1.1–2.0],  $p=.009$ ). Symptom onset was mostly within 24 hours (75%) with no onset >48 hours. Number and total duration of reported symptoms was greater in women (1.24 (1.67) v 0.84 (1.46) symptoms,  $d=0.25$  [0.09–0.42],  $p=.002$ ; 2.10 (2.99) v 1.39 (2.54) symptom-days,  $d=0.22$  [0.09–0.42],  $p=.001$ ) and significantly decreased with age (symptoms:  $r_s=-0.25$ ,  $p<.001$ ; symptom-days:  $r_s=-0.24$ ,  $p<.001$ ). After controlling for age and sex, higher symptom number (1.61 (2.26) v 0.89 (2.02) symptoms,  $d=0.34$  [0.20-0.49],  $p<.001$ ) and severity (2.7 (6.65) v 1.5 (2.21) symptom-days,  $d=0.41$  [0.27-0.55],  $p<.001$ ) were significantly associated with reporting previous COVID-19.

**Figure 1. Moderate and Severe Symptoms by COVID-19 Status:** Percentage of cases reporting moderate or severe symptoms (95% CI) in those with and without a history of COVID-19. N & V: nausea and vomiting. Upper panel (A): entire cohort; lower panel (B): sensitivity analysis subset

Logistic regressions (Table 1) controlling for age and sex showed five systemic symptoms were significantly associated with previous COVID-19 status: fever, fatigue, myalgia, arthralgia and lymphadenopathy. Arthralgia was regularly co-reported with myalgia (87 cases) but rarely alone and was not independently associated (OR 1.4 [95%CI 0.86–2.37],  $p=0.49$ ) with COVID-19 exposure once myalgia was controlled for. Neither local nor gastrointestinal symptoms were significantly associated with previous COVID-19 history.

	Whole cohort		Sensitivity Analysis Subset	
	Odds Ratio (95% C.I.)	p	Odds Ratio (95% C.I.)	p
Fever	2.87 (1.10 – 7.51)	.044	5.68 (0.69 – 46.65)	.32
Fatigue	1.78 (1.12 – 2.84)	.011	2.17 (0.85– 5.54)	.31
Myalgia	2.34 (1.44 – 3.88)	<.001	3.18 (1.16 – 8.69)	.02
Arthralgia	2.25 (1.23 – 4.12)	.004	7.06 (2.05 – 36.91)	.01
Lymphadenopathy	5.18 (1.19 – 22.63)	.033	****	****
Local Pain	1.55 (0.99 – 2.40)	.09	2.28 (0.96 – 5.43)	.11
Local Redness	2.93 (0.84 – 10.20)	.24	3.92 (0.43 – 35.79)	>.99
Local Swelling	2.0 (0.64 – 6.27)	.14	2.1 (0.29 – 15.33)	>.99
N & V	1.47 (0.48 – 4.42)	>.99	0.72 (0.05 – 8.81)	>.99
Diarrhoea	2.35 (0.30 – 18.25)	>.99	****	****
Headache	1.31 (0.80 – 2.15)	>.99	1.78 (0.65 – 4.83)	>.99

\*\*\*\* No model could be calculated due to absence of cases in this cohort. In all cases age and gender were included in the null model as nuisance variables. Adjusted P values and adjusted confidence intervals corrected (Bonferroni) for 11 outcomes in each case.

**Table 1. Results of Logistic Regression Analyses:** Logistic regressions showing those symptoms significantly predicted by previous history of COVID-19 after controlling for differences in age and gender and with p values and confidence intervals corrected (Bonferroni) for multiple comparisons.

Symptom number and duration was not significantly higher in those with Long-COVID after accounting for gender and age effects and no individual symptom was significantly associated with this condition. Importantly, among those with prior COVID-19, there was no significant relationship between illness-vaccine time interval and either composite score ( $r_s=0.09$   $p=.44$  for symptoms;  $r_s=0.10$ ,  $p=.42$  for symptom–days) nor any difference in mean time interval based on presence of any of the symptoms (all  $p>0.05$ ).

For the sensitivity analysis, 412 participants had verified PCR/antibody results. Of this subgroup, 228 (55%) were PCR/antibody negative (80% female, mean (SD) age 47.0 [11.1]) and 184 (45%) PCR or antibody positive (91% female, mean (SD) age 47.3 [11.5]). Nine (5%) complained of Long-COVID (range 2.8–10.4 months). The pattern of results was broadly replicated in this subgroup analysis (Figure 1B), with more previous-COVID-19 individuals reporting at least one moderate symptom (63% v 43%, OR=2.2 [1.2–4.0],  $p=.006$ ) and previous-COVID-19 being associated with higher symptom number (1.81 (3.09) v 0.85 (4.12) symptoms,  $d=0.25$  [0.05–0.44]  $p=.012$ ) and severity (3.0 (8.3) v 1.5 (5.6) symptom days  $d=0.2$  [95% CI 0.02–0.41],  $p=.0350$ ). Only myalgia and arthralgia remain as significant outcomes once multiple comparisons were controlled for though pattern of outcomes remains similar.

## **Discussion**

This study of healthcare workers demonstrated that prior COVID-19 infection, but not Long-COVID, is associated with increased risk of AEs including lymphadenopathy following BNT162b2/Pfizer vaccination, although there was no relationship with duration since COVID-19 illness. Women and younger individuals were also more likely to experience vaccine-related AEs. Our findings add to other reports supporting wider understanding of AEs following COVID-19 vaccination.<sup>3-5</sup> Importantly, given the hesitancy surrounding COVID-19

vaccination,<sup>9-11</sup> our findings may help inform those with previous COVID-19, including Long-COVID, of increased susceptibility to certain AEs. Our study also adds weight to the question of whether a second dose of mRNA vaccine is necessary in those with previous COVID-19, assuming effective immunity is established after the first dose.<sup>3,14</sup> This is relevant, given that another study has suggested worse AEs following the second dose.<sup>5</sup>

Our study has several limitations. Firstly, some non-responder bias<sup>13</sup> is likely, with 27% of participants reporting previous COVID-19. This is slightly higher than in UK healthcare workers.<sup>15</sup> Nevertheless, the sample was broadly representative of UK healthcare employees and likely generalizable. Secondly, information on AEs was gathered via self-reported questionnaires, and hence subjective. Thirdly, PCR and antibody results were self-reported. We addressed this via a sensitivity analysis on a subset of participants with laboratory data available, which mostly confirmed the findings in the entire sample. Finally, the numbers with Long-COVID were relative small for comparison.

In conclusion, this large study shows an association of previous COVID-19 with increased AEs and will help those with previous COVID-19 infection understand better what to expect following vaccination.

### **Author Contributions**

DRC/CK/RKR conceived the study and DRC is chief investigator of CHOIS. RKR acted as site principal investigator. DRC/RKR/CW contributed to the study protocol, design, and data collection. JR/RKR/DRC did the statistical analysis. RKR/JR/DRC prepared the manuscript. All authors critically reviewed and approved the final version.

### **Declarations of Interest**

No conflicts of interest.

### **Acknowledgements**

We would like to thank the CHOIS research team, John Rouse and the North East and North Cumbria NIHR for assistance with the survey. Funding for the CHOIS study is from the North East and North Cumbria Academic Health Sciences Network (AHSN) and Siemens Healthcare Ltd, who provided assays – but had no input into the study design.

SB 155

Dear Committee Members,

I am very concerned about the non-germane amendment to SB 155 proposed AFTER the public hearing which adds the new section ***Covid Vaccine Requirement Prohibited.***

Creating a law for a non-existent problem (NO ONE has been forced to have a vaccination!), and especially doing it after the public's opportunity to weigh in is an appalling and dangerous precedent to set.

As our state, country and world have learned over the past 16 months, we humans cannot predict when dangerous, contagious and lethal diseases might occur! So to create a law at this time forbidding actions which might save lives in a future catastrophic event is not only shortsighted but could prove disastrous at that time, should it arrive!

I am asking that you not make unnecessary laws to prohibit actions now or in our unpredictable future! Oppose this amendment to SB 155!

Thank you for your time and consideration,

Gail Laker-Phelps  
Chichester, NH

### **SB 155 – Codifying Provisions Included in Select Emergency Orders Issued by the Governor in Response to the COVID-19 Pandemic**

#### **Testimony**

Good afternoon, Madam Chair, and members of the committee. My name is Paula Minnehan, Senior VP, State Government Relations with the New Hampshire Hospital Association (NHHA), representing all 26 of the state’s community hospitals as well as all specialty hospitals.

The NHHA will be testifying on only amendment #2021-1149h to SB 155.

NHHA does not have any concerns with the underlying bill, SB 155. We do, however, have concerns with Section 9 of the amendment. While there is an exemption for medical facilities on Page 3, lines 24 and 25 of the amendment, the language in the exemption is unclear to us. The language state “medical facilities.....shall be exempt.....where a direct threat exists.....” A “direct threat” is defined (page 2 lines 20-30) to require “an individualized assessment of the individual’s present ability to safely perform the essential functions of the job”. This would effectively mean all hospital employees would need to be individually assessed to determine if this standard would be met. Hospitals in New Hampshire employ approximately 41,000 individuals. The requirement to individually assess each individual employee is not feasible and equates to an unfunded mandate. Hospitals care for sick patients, including those that have contracted COVID-19. They must ensure that their staff, patients, and others that enter the hospital are always safe. This amendment does not address public safety and public health, which must be contemplated, when considering safeguards focused on privacy related to the COVID-19 pandemic. For these reasons, we do not support Section 9 of the amendment #2021-1149h.

NHHA appreciates the opportunity to comment on Section 9 of Amendment #2021-1149h of SB 155. I am happy to answer any questions.

### **SB 155 – Codifying Provisions Included in Select Emergency Orders Issued by the Governor in Response to the COVID-19 Pandemic and Relative to Prohibiting Discrimination on the Basis of Vaccination Status**

#### **Testimony**

Good afternoon, Madam Chair, and members of the committee. My name is Paula Minnehan, Senior VP, State Government Relations with the New Hampshire Hospital Association (NHHA), representing all 26 of the state's community hospitals as well as all specialty hospitals.

The NHHA will be testifying on amendment #2021-1443h to SB 155.

NHHA does not have any concerns with the underlying bill, SB 155. We do, however, have significant concerns with amendment #2021-1443h.

- Item III (lines 23-25) - The language of this provision appears to prohibit a vaccine registry, which is current law. We support the vaccine registry for public health and medical treatment purposes, so we are opposed to this provision.
- Item IV (lines 26 and 27) – our read of this provision is that this would effectively create an opt-in for the vaccine registry, which we are opposed to. The current law allows for an opt-out if the patient (or parent) so chooses. Requiring an opt-in for the vaccine registry is not workable and would be extremely burdensome and problematic. It also seems to contradict the provisions in III (see comments above). Or is this intended to require vaccine information to be separated from the person's medical record. It is unclear to us.
- VII. (b) (lines 11-34) – we previously testified in opposition on a similar provision to a previous amendment (2021-1149h) that was heard in this committee on April 27, 2021. This language is problematic and unworkable. As previously stated, A “direct threat” is defined (page 2 lines 14-on) to require “an individualized assessment of the individual's present ability to safely perform the essential functions of the job”. This would effectively mean all hospital employees would need to be individually assessed to determine if this standard would be met. Hospitals in New Hampshire employ approximately 41,000 individuals. The requirement to individually assess each individual employee is not feasible and equates to an unfunded mandate. Hospitals care

for sick patients, including those that have contracted COVID-19. They must ensure that their staff, patients, and others that enter the hospital are always safe.

This amendment does not address public safety and public health, which must be contemplated, when considering safeguards focused on privacy. For these reasons, we do not support amendment # 2021-1443h. and we ask you to find it inexpedient to legislate. I am happy to answer any questions.

Granite State College

Keene  
STATE COLLEGE

Plymouth State  
UNIVERSITY

University of  
New Hampshire

University System  
of New Hampshire

May 18, 2021

Chairwoman McGuire and members of the House Executive Departments and Administration Committee,

We write to convey the University System's opposition to the non-germane amendment to SB155 (2021-1443). We are concerned that the overly broad nature of the amendment, and its consideration at this stage of the state's recovery from the pandemic, will unnecessarily restrict our ability to protect the health and safety of our campus communities, establish policies that students and families are demanding, and create the conditions necessary for a return to near normal campus operations in the fall.

First, we would like to address a misunderstanding concerning commencement exercises at the University of New Hampshire. To be clear, there is **not** a vaccination requirement to attend graduation at UNH.

UNH is proud to be one of the only universities in the region to be hosting in-person graduation ceremonies where graduates will also be permitted to bring a limited number of guests. This has been a top priority for our students, and we have taken appropriate steps to create a safe environment for them to celebrate their achievement. The plan for commencement at UNH, as it has been all academic year on each of our campuses, is to require that anyone who will be on campus for an extended period is COVID negative. Until recently, this has been accomplished through regular testing for everyone – students, faculty, staff and guests. In keeping with that practice, commencement guests will be required to obtain a negative test within 72 hours of arriving on campus. However, now that the vaccine is generally available, and based on our understanding of the disease protection afforded a fully vaccinated person, fully vaccinated guests will not need to test. If someone is uncomfortable receiving the vaccine, or is unwilling to share proof of their vaccination, they need only obtain a test. Again, there is no requirement to get vaccinated to attend UNH's commencement.

As we look towards the 2021-22 academic year, we expect that our focus on limiting the prevalence and spread of the virus on our campuses and in our host communities will remain paramount. Like other congregate living settings, we realize that without careful attention COVID-19, through its many variants, can spread quickly through our student populations. We are working in close consultation with state public health officials to ensure a thorough understanding of the evolving science related to the virus and various mitigation strategies and are committed to following state and federal guidelines as we establish policies to ensure a reasonably safe on-campus experience for students, faculty and staff during the upcoming academic year. If passed, the amendment to SB155 would prematurely limit our ability to consider a full range of policy options to meet this objective. For example, guidance from the Centers for Disease Control and Prevention makes different masking, testing and quarantine recommendations for vaccinated and unvaccinated individuals. As drafted, this amendment would make it difficult if not impossible to follow that guidance. In that case, it is likely we will need to maintain the successful but restrictive and very costly policies used over the last year to protect public health, including regular testing, mandatory mask wearing, distancing and limits on gatherings. These restrictions come at the expense of the traditional college experience for our students and at significant cost, financial and otherwise, to the university system.

Further, we are very concerned that the amendment would prohibit every college and university in the state from mandating any vaccinations, including for measles, mumps, rubella, meningitis, tetanus, diphtheria, and others. USNH, along with nearly every other college and university in the country, has mandated these basic vaccines for years and believes that this prohibition would be particularly dangerous for the thousands of students living in close quarters on our campuses each year.

We respectfully request that the committee amend the non-germane amendment to SB155 to allow the University System to make careful, science-based decisions – developed in consultation with the state Department of Health and Human Services – about how best to protect our students, faculty, staff, visitors, and host communities.

Sincerely,

The Honorable Carol McGuire, Chair  
Executive Departments and Administration  
Legislative Office Building  
Concord, NH 03301

Re: New Futures' testimony in opposition to Amendment 2021-1443h to SB 155

Dear Chair McGuire and Members of the Committee:

New Futures appreciates the opportunity to testify in opposition to amendment 2021-1443h to SB 155, regarding discrimination based on vaccines. New Futures is a nonpartisan, nonprofit organization that advocates, educates, and collaborates to improve the health and wellness of all New Hampshire residents. In this role, we work extensively with policy makers, health care providers and families to improve overall public health and improve health equity across the Granite State.

Immunizations have been paramount in our fight to prevent the spread of viruses and diseases. Vaccines have greatly reduced and, in some cases, eliminated infectious disease threats that once caused major suffering and illness. Not vaccinating children not only leaves them vulnerable to dangerous diseases, but it threatens the health of fellow children who are either too young to be vaccinated or have not been fully immunized. This is one of the main reasons that children must be vaccinated to attend public school in New Hampshire. Amendment 2021-1443h would eliminate this requirement for all vaccines that have been in use for less than ten years.

The COVID-19 pandemic has taught us that vaccines are important for everyone, regardless of age. If amendment 2021-1433h were to pass, it would tie the hands of any business owner who desires employees be vaccinated against viruses such as the flu or COVID-19. State government should not prevent a business owner from making choices based on public health and safety concerns. This is especially true for congregate living situations such as colleges and universities, for public transportation modalities such as busses, trains, and airplanes, and for hospitals and other health care providers. This amendment would place an undue hardship on medical facilities because it requires an individual assessment on each and every employee to determine if a "direct threat" exists indicating that an exception to the proposed law exists. This requirement may open medical facilities up to burdensome litigation if they were to require vaccinations of employees who care for vulnerably sick patients.

This amendment also prohibits vaccine registries. According to the American Academy of Pediatrics, "[i]mmunization information systems (IISs), otherwise known as registries, are confidential, population-based, computerized databases that record all immunization doses administered by participating providers to persons residing within a given geopolitical area. They offer an opportunity for confidential, secure, centralized, and immediate access to immunization records for authorized providers. IISs can be useful in identifying under- and over-immunized children, monitoring community immunization rates, identifying coverage gaps, and improving vaccination rates."

For all the reasons stated above, New Futures strongly urges the Committee to vote against amendment 2021-1443h.

Please do not hesitate to contact me if you have any questions.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Holly A. Stevens", with a long horizontal flourish extending to the right.

Holly A. Stevens, Esq.  
Health Policy Coordinator

May 16, 2021

The Honorable Members of the  
House Committee on Executive Departments and Administration  
LOB Room 306  
107 North Main Street  
Concord, New Hampshire 03301

Re: Amendment #2021-1443h to SB-155: relative to prohibiting discrimination on the basis of vaccination status.

Dear members of the House Committee on Executive Departments and Administration: My name is John Garrison, and I am a registered voter domiciled at 194 Elm Street in Lancaster, New Hampshire.

I am writing to ask for your support for Amendment #2021-1443h coupled with SB-155. No one should be subjected to any form of discrimination and this includes being discriminated based on their vaccination status. We are protected by the Constitutions of the United States and the State of New Hampshire and other Federal and State laws from the most common acts of discrimination toward individuals, including discrimination based on: the individual's sex, gender, race, skin color, age, ethnicity, religion, sexual orientation, and even political affiliation.

Many people across the Granite state may be likely to decline vaccines like the COVID-19 vaccine for conscientious, religious, and/or medical reasons, not to mention those who have not yet been able to obtain the vaccine. Without the exemption provisions this amendment (#2021\_1443h) coupled with SB-155 provides, the notion of a vaccine passport could easily lead to a class system in New Hampshire; segregation and discrimination will proliferate.

This is a matter of freedom. We the people have the right to choose to do what we feel is best for our own body and we must be protected from any consequences or hardships for choosing one way or the other. The afore-mentioned constitutions grant U.S. citizens the rights of life, liberty, and the pursuit of happiness. The life of an individual should be in the hands of the individual. And the choices they make relative to their health care must remain private!

Our legislators have a responsibility to protect Granite State citizens from government overreach and the responsibility to prohibit practices in the private sector that subject Granite Staters to discrimination when going about their daily lives.

Sincerely,

*John A. Garrison*

**SUBJECT:** Final Report on HB 524, Chapter 173, Laws of 2019

---

Pursuant to HB 524, Chapter 173, Laws of 2019, enclosed please find the Final Report of the Committee to Study Issues and Impediments to Starting, Running, and Growing Home and Commercial Day Care Facilities in New Hampshire.

If you have any questions or comments regarding this report, please do not hesitate to contact me.

Enclosure

cc: Committee Members  
Acting Commissioner, Department of Health and Human Services  
State Fire Marshall's Office

## **FINAL REPORT**

### **Committee to Study Issues and Impediments to Starting, Running, and Growing Home and Commercial Day Care Facilities in New Hampshire**

**HB524, Chapter 173, Laws of 2019**

**Issued November 1, 2019, Revised December 6, 2019.**

#### **MEMBERS:**

Rep. Rebecca McWilliams, Chair  
Rep. Dennis Acton, Clerk  
Rep. Samantha Fox  
Sen. Sharon Carson

#### **CHARGE OF THE STUDY:**

The committee was charged to:

- (a) Examine the adequacy of day care programs and facilities across the state;
- (b) Identify issues and impediments to starting, running, and growing both home and commercial day care facilities; and
- (c) Identify ways to reverse the current trend of childcare facility closures.

#### **PROCESS AND PROCEDURES:**

The committee met five times in October, 2019. Public hearings allowed time for stakeholders to testify, while many others submitted written statements. The committee is pleased with the level of interest from all involved who provided testimony and information. Our final meeting on October 30, 2019 allowed the members to compile this information into this report.

#### **HISTORY:**

NH maintains and licenses a private industry of both home-based and commercial facility-based childcare centers, which may be structured as either nonprofit or for-profit. These centers provide services for infants and toddlers as well as school-age children in need of services before and after school.

The childcare industry in New Hampshire is currently experiencing serious problems with facility closures across the state and an exodus of employees to other jobs and other industries with better paid positions. The end result is less choice and availability for working parents, which is in turn, hurting the state economy.

## **FINDINGS:**

This study committee was created to address reports of difficulties encountered by licensed childcare facilities throughout the state. Numerous facility owners have publicly questioned their ability to remain open and support employees without immediate change through DHHS rules and legislation. This is especially critical in the North Country, where the committee heard testimony that losing just two childcare centers would cause a local economic and employment disaster. Nonetheless, addressing these challenges is a major need throughout the state.

These concerns were brought before the study committee in public hearings as well as numerous written testimony entries. Input was received by DHHS representatives, childcare facility owners, and operators through in-person testimony and submitted information. We also heard testimony from a representative of the State Fire Marshall's office.

As a study committee, our findings indicate that there is cause for concern that the current regulatory environment is creating conditions that hurt small business childcare. Facility owners face a matrix of complicated regulations in order to locate a childcare facility and open their doors. There is a tense and adversarial relationship between the state licensing division and many owner/operators who testified. The business structure of a typical childcare facility is employee-centered. A typical childcare uses 85% of its budget for teachers and 15% for operations including fingerprinting, CPR, and roof leaks. There is also a shortage of workers and high level of competition between facilities for qualified employees.

We address these issues within our report by offering immediate legislation as well as longer term recommendations. Our goal is to ensure that we continue to take good care of the next generation.

## **RECOMMENDATIONS:**

### **Immediate:**

The Department of Health and Human Services is implementing a new DHHS childcare employee background check rule, which takes effect on January 1, 2020. The new rule requires new childcare employee hires to complete a background check prior to starting work. The current timeframe for a DHHS background check can take several months, which will render potential new workers to the industry unemployable under the procedures applied with the new rule. Workers are currently allowed to provisionally begin work after submission of the background check paperwork, which in some cases is received by the employer from DHHS up to six month later.

The committee's concern is the potential fiscal impact on the business of childcare in the state of New Hampshire following the promulgation of the new rule, if DHHS is unable to increase turnaround times to a reasonable standard. The committee recommends that DHHS prioritize childcare employees' background check paperwork over other applications, and ensure that the turnaround time is less than one week from submission. Otherwise, childcare employees will be unable to provisionally work during this wait period, which will force these potential employees to seek a job outside the field.

### Proposed Legislation:

1. Clarification and updates to statutory guidelines regarding the forced closure of a facility.
2. Home-based Childcare Enabling Bill:
  - **SPRINKLERS:**  
State Building Code 2015 IBC Section 308.6.4, 310.5.1 and 903.2.6 require a sprinkler system in home childcares. The proposed legislation provides an exemption for Home and Home Group-licensed childcare providers from the sprinkler system requirements and creates a standard across all controlling entities for ease of compliance.
  - **COMMERCIAL KITCHEN REQUIREMENTS:**  
Adopts a commercial kitchen exemption for Home and Home Group-licensed childcare providers to allow food prep including serving of federally provided lunch benefits without commercial kitchen requirements such as hood/fires suppression, triple sink, grease trap, etc. Towns cannot require that a Home or Home group-licensed childcare be required to obtain a food service license.
  - **ZONING:**  
Allows Home and Home Group-licensed childcare providers to operate in all residential zones. Makes adjustments to parking space requirements and allowed size of home-based facilities to bring standards across the state into alignment and thus reduce the regulatory burden of starting and operating a facility. Allow a second employee for more than 6 children who does not need to be a family member of the operator.
3. **Online Posting of Infractions** - Change posting deadline from the current 5 to 21 days when DHHS posts findings online. At least 10 business days before posting the results online, the department must contact the facility to allow the facility to respond. Each online post shall allow a public, unedited response from the facility owner or licensee. In addition, set a takedown cycle of from one year to no more than three years because internet posting can impact the reputation of a business long after issues are corrected. Licensing can retain copies of findings in their office, which are still available upon public request.
4. **Continuing Education is excessive, leading to over-professionalization of the field and lack of workers.** Licensure currently requires 18 annual continuing education hours for childcare workers which is widely seen as excessive and a major cause of the labor shortage in this industry. Other professionals in high paying jobs with master's degrees require fewer hours. Police need 8 hours and lawyers need 12. Childcare is a lower educated workforce, some credits or associates degrees are typical for the industry. Proposed legislation reduces the requirement to 6.
5. **Lack of Affordable Housing is a serious issue for childcare employees.** Particularly in the North Country, but also in the cities, and in more affluent areas such as Dartmouth and Portsmouth, the cost of housing for a single individual significantly exceeds the amount a childcare employee can make working 40 hours a week in the position. The committee recommends working during the 2020 session with relevant housing groups to

come up with reasonable housing solutions for childcare staff, as part of the overall bipartisan push for more affordable housing in NH.

6. **The lack of an Independent Panel to review Appeals of DHHS decisions regarding childcare businesses is concerning.** The committee heard testimony from business owners that the same DHHS staff who visit and cite a facility for infractions are also the judge and jury when the facility wants to appeal their decision. For minor issues, this is frustrating and patently one-sided. But minor infractions add up, and over time, the lack of a neutral appeals process could contribute to the forced closure of a facility without an opportunity for a rebuttal or recourse. The committee recommends putting together another study committee to evaluate the appeals process for citations.

### **Recommendations regarding DHHS Rules and NH Education:**

1. **Inspection, Infraction and Appeals Process:** We heard widespread concern from numerous childcare facility owners and operators about how infractions and complaints are handled by inspectors, and the lack of due process in the current appeals process. Here are some recommendations that we strongly suggest be addressed in a meaningful way to avoid the need for future legislation.
  - We call for the Childcare Licensing Division to streamline and standardize their inspection criteria through a written form, preferably on a portable electronic device with the ability to take photos, and train their inspectors accordingly. These expectations should then be communicated to the licensed facilities to help build trust and cooperation between licensee and the state. There are too many gray areas in interpreting regulations, state licensers have varying interpretations of the same issue.
  - We also see the need to create an appeals board for DHHS violations, that is similar to those used in the Allied Health Licensing Division or the NH Board of Realtors. Right now, appeals for childcare facility violations are not heard by a neutral authority. The proposed board should include a balance of members in addition to DHHS staff; including facility owners, operators, and employee representatives, appointed by the Governor's office.
2. **Change or eliminate the rule requiring a Director to be on-site for  $\frac{2}{3}$  of the open hours of the facility.** This creates an undue burden, sometimes over 50 hours per week on Directors with facilities with more open hours. Recommend  $\frac{1}{2}$  the open hours as a reasonable reduction.
3. **Reduce the burden of 9 hour health and safety training with 3 credits in Early Childhood Growth and Development from a nationally accredited college/university.** This requirement applies to everyone, including high school and part-time helpers. Requiring the 3 credit course creates higher employment costs because programs cannot hire staff without credits to even cover nap periods, and cannot hire entry level workforce who have plenty of life experience, or students who are passionate about children and interested in the field. There is a very real concern that this

requirement prevents otherwise qualified new Americans from working in childcare, and the teaching staff should reflect the diversity of the students. Propose allowing credentialed staff to manage a class for up to 120 minutes in a classroom without the 3 credit course. Also propose creating a NH childcare approved condensed community college/online course that contains just the necessary Early Growth and Development milestones that would allow more applicants to meet the requirements. Propose allowing life experience to account for a portion or the entirety of the 9 hour training. Propose a compromise where 50% of teachers must have the required credits, advanced knowledge of educational philosophy, and are mentors, and 50% are in a supporting role and may be left alone with children. The current lack of qualified teachers and staff has led to a critical staffing crisis in the industry.

4. **Reduce or eliminate the \$50 fee for the child care employment eligibility card.** This is an unreasonable burden for employees and childcare centers. We recommend a proposal to make the card valid for five years with a replacement card fee of \$15. Also, exempt substitutes from the eligibility card requirement.
5. **Allow reciprocity for background checks and fingerprinting through the NH Department of Education.** It is unacceptable that in 2019 DHHS and DOE cannot use a combined database, or check one another's completed database searches, to substitute for either department. The lack of reciprocity for an already performed state background check and fingerprinting process is expensive, time consuming, inefficient, and prevents teachers from being able to work at a child care facility after school or during the summer without undergoing a second, unnecessary check.
6. **Reinstate annual NH Criminal Background Checks for \$10 fee.** Applicants are given five years under RSA 170:E-7, but employers and licensing have no way to know if the employee has committed a crime during that time period. This is a safety issue.
7. **Track and report data annually.** There is no reporting of municipal applications to open a childcare facility. The data is not clear as to which facilities close only to re-open under new management or with a new name. This is misleading and leads to relying on anecdotes to whether more facilities are opening than closing each year. DHHS must perform an exit interview after closure, whether voluntary or otherwise. Need a statewide database on how many childcare slots are available in each county/city in any given week.
8. **Encourage proactive training for inspections.** Provide a few best practices training recommendations from DHHS at each site visit such as "here is what DHHS recommends a childcare facility say to kids at mealtime" rather than writing up teachers for telling kids to eat everything else before a cookie.
9. **Notifications for local emergencies vary greatly from town to town.** Recommend an emergency alert system, similar to public school notifications and police scanners, to alert home and commercial childcare facilities to ensure children are safe in an emergency situation.

- 10. Department of Education Perkins funds for high school early childhood education programs.** Technical high schools should be encouraged to reinstate early childhood education classes using the still-available Federal Perkins funds. Many of these programs were shut down during a period of non-funding, and have not restarted. The pipeline of young people who want to work in childcare careers needs to be fostered, rather than reduced. Encourage high school students to get their background checks during school, as well as take the two required courses, so they are employable by childcare employers during the summer and immediately following graduation.

### **End of Recommendations**

Report submitted on November 1st.

---

Dear Executive Committee,

As a citizen of New Hampshire and the United States of American, I'm asking you to support bill SB-155 FN and prohibit Vaccine Passports in NH. I believe they are Un-Constitutional and infringe on the rights and privacy of all citizens and is out right discrimination. The vaccine is approved for emergency use only and the exact ingredients and adverse effects are not fully disclosed. They also have many adverse effects that the media and CDC are not disclosing to the general public.

I am urging you to please protect our medical privacy and liberty.

Thank you!

Sincerely,

Marie Wolfe

Lee, NH

Bill as  
Introduced

SB 155-FN - AS AMENDED BY THE SENATE

03/18/2021 0774s

2021 SESSION

21-1080

05/10

SENATE BILL **155-FN**

AN ACT codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic.

SPONSORS: Sen. Bradley, Dist 3

COMMITTEE: Executive Departments and Administration

---

AMENDED ANALYSIS

This bill:

- I. Establishes the position of temporary health partner.
- II. Authorizes emergency licensing of medical providers.
- III. Authorizes COVID-19 testing and vaccination by pharmacists and pharmacy technicians.
- IV. Permits out-of-state pharmacies providing investigational drugs to clinical trial participants in New Hampshire to be temporarily licensed as mail-order pharmacies.
- V. Protects the pre-existing, non-conforming use status of summer camps that were unable to operate during the summer of 2020 due to COVID-19.
- VI. Establishes procedures to allow construction to continue during the pandemic.
- VII. Temporarily allows expanded outdoor dining.

STATE OF NEW HAMPSHIRE

*In the Year of Our Lord Two Thousand Twenty One*

AN ACT codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic.

*Be it Enacted by the Senate and House of Representatives in General Court convened:*

1 1 New Section; Nurse Practice Act; Temporary Health Partner. Amend RSA 326-B by inserting  
2 after section 14 the following new section:

3 326-B:14-a Temporary Health Partner.

4 I. To address staffing shortages at long-term care facilities and meet the needs of some of  
5 New Hampshire's most vulnerable populations, the position of temporary health partner (THP) is  
6 hereby authorized to work in a skilled nursing facility, notwithstanding any provision of RSA 326-  
7 B:14, provided that:

8 (a) The THP completes training of no less than 8 hours, provided by a national  
9 association such as the American Health Care Association or by a New Hampshire educational  
10 program.

11 (b) THPs shall work under the supervision of an RN, APRN, or LPN, as is required of  
12 LNAs under RSA 326-B:14.

13 (c) The scope of work authorized to be performed by THPs is limited to the work set  
14 forth in this section and shall be performed in accordance with the resident care plan.

15 (d) The THP has demonstrated competency, as determined by the employing long-term  
16 care facility, prior to performing any of the activities set forth in this section.

17 II. Scope of work for a temporary health partner (THP):

18 (a) The THP is a temporary position limited to assist LNAs and nurses in their daily  
19 tasks. Each of these tasks shall not be performed without proper training and demonstrating  
20 competency in such tasks. The THP shall work under the direction and supervision of licensed  
21 nurses to assist nurses and LNAs to provide services set forth in each resident care plan. Before  
22 performing any tasks described in subparagraph (b), the THP shall have been trained and  
23 demonstrated competency to perform such tasks, and shall review and adhere to the resident care  
24 plan. The facility shall provide direction and oversight to the THP.

25 (b) After the employing facility ensures skill competency, the THP may perform any of  
26 the following activities:

27 (1) Nutrition and elimination assistance. Assist with elimination, including toileting  
28 and peri-care, and assist with routine ostomy care.

29 (2) Comfort care and end-of-life care. Assist with promoting comfort and sleep,  
30 assist with end-of-life care, and assist with physical care of body after death.

1 (3) Activities of daily living. Assist with bathing, oral care, denture care, grooming,  
2 shaving, nail care, and dressing and undressing.

3 (4) Infection control practices. Assist with hand hygiene, standard and  
4 transmission-based precautions, cleaning and disinfection, utilization of personal protective  
5 equipment (PPE).

6 (5) Positioning, moving, and restorative care. Assist with ambulation or walking  
7 and occupied bedmaking.

8 III. The position of THP shall not be considered a substitute for licensure as an LNA under  
9 RSA 326-B:14 but is intended to assist the work of LNAs. The THP shall not perform services  
10 independently and shall be supervised by licensed nurses at all times.

11 2 New Section; Office of Professional Licensure and Certification; Emergency Licensing Process.  
12 Amend RSA 310-A by inserting after section 1-g the following new section:

13 310-A:1-h Emergency Licensing Process. Notwithstanding any other law to the contrary, the  
14 office of professional licensure and certification may issue emergency licenses to the following  
15 applicants:

16 I. Any medical provider previously licensed in New Hampshire in the last 3 years whose  
17 license is no longer active, subject to the following:

18 (a) The medical provider's license was in good standing prior to being placed in inactive  
19 or lapsed status.

20 (b) Notwithstanding any law or rule to the contrary, a medical provider shall not be  
21 required to complete continuing education as a condition precedent to reactivating their license  
22 pursuant to this section.

23 II. Any medical provider previously licensed to practice in another jurisdiction within the  
24 last 3 years whose license is no longer active, subject to the following:

25 (a) The medical provider's license was in good standing in another United States  
26 jurisdiction prior to being placed in inactive or lapsed status; and

27 (b) The medical provider presents evidence to the office of professional licensure and  
28 certification that the medical provider was licensed and in good standing immediately prior to the  
29 change in licensure status.

30 (c) Notwithstanding any law or rule to the contrary, a medical provider shall not be  
31 required to complete continuing education as a condition precedent to receive an emergency license  
32 pursuant to this section.

33 III. Any fellow enrolled in a New Hampshire program accredited by the Accreditation  
34 Council for Graduate Medical Education to practice within the fellow's core specialty, subject to the  
35 following:

36 (a) The fellow is American Board of Medical Specialties (ABMS) or American  
37 Osteopathic Association (AOA) board-eligible or certified in the core specialty.

1 (b) The fellow is appointed to the medical staff at a sponsoring institution and will  
2 engage in practice consistent with the policies and procedures of the sponsoring institution and its  
3 participating sites.

4 (c) The time spent in core specialty service is limited to 20 percent of the fellow's annual  
5 education time in any academic year.

6 (d) A fellow seeking to practice under this paragraph shall provide the office of  
7 professional licensure and certification with appropriate evidence that the required qualifications  
8 have been met.

9 IV. Senior nursing students, who are scheduled to graduate within 5 months from the date  
10 of application, from a board of nursing approved registered nursing or practical nursing program,  
11 subject to the following:

12 (a) The individual is employed by or providing health care services at the direction of, a  
13 licensed health care facility or a licensed health care provider.

14 (b) The individual is directly supervised while providing health care services.

15 (c) The health care services are being provided in response to the COVID-19 pandemic.

16 IV. Current and former military service members who have been assigned a military  
17 occupational specialty code of 68W (Army) or 4N0X1 (Air Force), with or without additional skill  
18 identifiers, and who, as part of their service in the military, have utilized their military occupational  
19 specialty within the last 3 years, may apply for a license as a nursing assistant in New Hampshire.

20 V. An individual licensed as an EMT-Basic, Advanced EMT, or Paramedic in any United  
21 States jurisdiction who presently holds a certification from the National Registry of Emergency  
22 Medical Technicians (NREMT), may apply for an emergency license as a licensed nursing assistant.

23 VI. Any provider seeking an emergency license under this section shall submit his or her  
24 request on a form adopted by the office of professional licensure and certification for such purpose.

25 VII. In this section, an applicant in good standing shall include medical providers who are  
26 subject to nondisciplinary conditions, but shall not include medical providers whose licenses have  
27 been revoked, canceled, surrendered, suspended, denied, or subject to disciplinary restrictions.

28 VIII. Licenses issued pursuant to this section shall be on a temporary basis and shall expire  
29 on or before January 31, 2022.

30 IX. All individuals licensed under this section shall be subject to the jurisdiction of the state  
31 licensing body for that profession.

32 X. The office of professional licensure and certification may issue guidance relative to the  
33 emergency licensing process established in this section, which may include guidance concerning the  
34 appropriate supervision of nursing students. Any guidance shall be posted on the board's website.

35 3 Pharmacists and Pharmacies; Definition of the Practice of Pharmacy. Amend RSA 318:1, XIV  
36 to read as follows:

1           XIV. "Practice of pharmacy" means the professional acts performed by a pharmacist and  
2 shall include the interpretation and evaluation of prescription orders; the administration,  
3 compounding, dispensing, labeling and distribution of drugs and devices; the participation in drug  
4 selection and drug-related device selection; drug evaluation; utilization or regimen review; the  
5 monitoring of drug therapy and use; medication therapy management in accordance with  
6 collaborative pharmacy practice agreements; the proper and safe storage and distribution of drugs  
7 and devices, and the proper maintenance of proper records; the responsibility of advising, when  
8 necessary or when regulated, of therapeutic values, hazards, and use of drugs and devices; *the*  
9 *initiating, ordering, administering, and analyzing of FDA approved Emergency Use*  
10 *Authorization SARS-CoV-2 (COVID-19) point-of-care diagnostic kits (COVID-19 tests or test*  
11 *kits) to detect SARS-CoV-2 or its antibodies, so long as the pharmacist has received the*  
12 *adequate education and training to do so;* and the offering or performing of these acts, services,  
13 operations, or transactions necessary in the conduct, operation, management, and control of  
14 pharmacy.

15           4 New Section; Pharmacists and Pharmacies; COVID-19 Testing. Amend RSA 318 by inserting  
16 after section 14-a the following new section:

17           318:14-b COVID-19 Testing. Pharmacists may administer COVID-19 testing if the following  
18 conditions are met:

19           I. The pharmacist received adequate education and training to initiate, order, administer,  
20 and analyze COVID-19 test kits.

21           II. The COVID-19 tests are administered at a pharmacy that holds the appropriate clinical  
22 laboratory improvement amendments (CLIA) certificate and a New Hampshire laboratory license  
23 issued by the department of health and human services (DHHS) or DHHS waiver.

24           III. The pharmacy creates and implements policies and procedures to address the collection,  
25 storage, transport, and analysis of samples collected as a result of administering and analyzing  
26 COVID-19 test kits. Such policies and procedures shall be in accordance with the manufacturer's  
27 instructions and supplemented as needed.

28           5 New Section; Pharmacists and Pharmacies; Pharmacy Technician Administration of COVID-  
29 19 Vaccines. Amend RSA 318 by inserting after section 16-e the following new section:

30           318:16-f Pharmacy Technician Administration of COVID-19 Vaccines. New Hampshire  
31 registered and certified pharmacy technicians may administer COVID-19 vaccines to persons 18  
32 years of age or older while under the supervision of a New Hampshire licensed pharmacist, if the  
33 following conditions are met:

34           I. The vaccination is ordered by the supervising pharmacist.

35           II. The supervising pharmacist is readily and immediately available to the immunizing  
36 registered or certified pharmacy technician.

37           III. The COVID-19 vaccine is FDA-authorized or FDA-licensed.

1 IV. The COVID-19 vaccine is ordered and administered according to the Advisory  
2 Committee on Immunization Practices (ACIP) COVID-19 vaccine recommendations.

3 V. The registered or certified pharmacy technician has completed a practical training  
4 program approved by the Accreditation Council for Pharmacy Education (ACPE). This training  
5 program shall include hands-on injection technique and the recognition and treatment of emergency  
6 reactions to vaccines.

7 VI. The registered or certified pharmacy technician has a current certificate in basic  
8 cardiopulmonary resuscitation.

9 VII. The registered or certified pharmacy technician shall complete a minimum of 2 hours of  
10 ACPE-approved, immunization-related continuing pharmacy education during the relevant state  
11 licensing period.

12 VIII. The supervising pharmacist shall comply with all recordkeeping and reporting  
13 requirements.

14 IX. The supervising pharmacist shall be responsible for complying with requirements  
15 related to reporting adverse events.

16 X. The supervising pharmacist shall review the vaccine registry or other vaccination records  
17 before ordering the registered or certified pharmacy technician to administer the vaccination.

18 XI. The supervising pharmacist shall comply with any applicable requirements or conditions  
19 of use as set forth in the CDC's COVID-19 vaccination provider agreement and any other federal  
20 requirements that apply to the administration of COVID-19 vaccine.

21 6 New Section; Pharmacists and Pharmacies; Out-of-state Pharmacies as Temporary Limited  
22 Licensed Mail-Order Facilities. Amend RSA 318 by inserting after section 37 the following new  
23 section:

24 318:37-a Out-of-state Pharmacies as Temporary Limited Licensed Mail-Order Facilities.

25 I. To protect public health and increase access to medical care in New Hampshire, and to  
26 promote and secure the safety and protection of the people of New Hampshire, any out-of-state  
27 pharmacy seeking to ship investigational drugs to clinical trial participants who reside in New  
28 Hampshire and who are unable to retrieve the investigational drugs from the out-of-state pharmacy  
29 due to the novel coronavirus shall be allowed to operate as if the out-of-state pharmacy were licensed  
30 as a mail-order pharmacy within the state of New Hampshire if the following conditions are met:

31 (a) The out-of-state pharmacy is licensed and in good standing in another United States  
32 jurisdiction.

33 (b) The medical services provided within New Hampshire are in-person or through  
34 appropriate forms of telehealth.

35 (c) The out-of-state pharmacy presents to the office of professional licensure and  
36 certification evidence that they are licensed in good standing in another jurisdiction. Such out-of-

1 state pharmacies shall be issued an emergency mail-order pharmacy license at no cost, which shall  
2 remain in effect until January 31, 2022.

3 (d) Such out-of-state pharmacies shall be subject to the jurisdiction of the board of  
4 pharmacy while acting under an emergency mail-order pharmacy license.

5 II. The office of professional licensure and certification, in consultation with the board of  
6 pharmacy, shall provide assistance and guidance, as necessary, to out-of-state pharmacies regarding  
7 the requirements of this section.

8 7 New Subdivision; Local Land Use Planning; Protection of Pre-existing, Non-conforming Use  
9 Status for Summer Camps. Amend RSA 674 by inserting after section 73 the following new  
10 subdivision:

11 Protection of Pre-existing, Non-conforming Use Status for Summer Camps

12 674:74 Protection of Pre-existing, Non-conforming Use Status for Summer Camps.

13 I. Notwithstanding any provision of law or municipal ordinance or regulation to the  
14 contrary, any summer camp that has been operating in the state of New Hampshire as a pre-  
15 existing, nonconforming use under its applicable zoning ordinance that either closed for the summer  
16 of 2020 due to the COVID-19 pandemic, or was forced to operate for a shorter season or at a reduced  
17 capacity during the summer of 2020 due to the COVID-19 pandemic, shall not lose its status as a  
18 pre-existing, non-conforming use due to either:

19 (a) Its failure to operate during the summer of 2020; or

20 (b) Its operation for a shorter season or at a reduced capacity during the summer of  
21 2020.

22 II. The summer camp's status or ability to operate as a pre-existing, non-conforming use  
23 shall not be in any way affected by its failure to operate during the summer of 2020, or its operation  
24 for a shorter season or at a reduced capacity during the summer of 2020.

25 8 New Section; Continuing Construction During COVID-19. Amend RSA 674 by inserting after  
26 section 51-a the following new section:

27 674:51-b Continuing Construction During COVID-19. In municipalities that have adopted an  
28 enforcement mechanism pursuant to RSA 674:51 and are not presently offering any building permits  
29 and construction inspection functions as a result of COVID-19, contractors may follow these  
30 guidelines to keep construction progressing:

31 I. Complete typical paperwork related to the requested construction permit or building  
32 inspection. Permit applications with submittal documents shall be submitted to the building official  
33 by first class mail, drop box, if provided, or by electronic submission, such as email, where available.

34 II. Make and keep record of all reasonable attempts to communicate with municipal officials  
35 to determine the availability of services and follow instructions from municipal officials if typical or  
36 modified arrangements are offered.

1 III. If, as a result of exigent circumstances relating to COVID-19, a building official is  
2 unable to or refuses to issue any building construction or building systems permit pursuant to and  
3 within the time frame provided by RSA 676:13, III, the permit applicant or contractor may, 10 days  
4 after written notification to the building official, commence construction pursuant to the prepared  
5 project plans and documentations as if a proper building permit has been issued.

6 IV. The contractor may only proceed without a permit or approval with the prior written  
7 approval of the client. Written approval by the client shall be separate from the contractor's  
8 standard contract and shall state in at least 10 point bold font that the client understands that if  
9 they choose to proceed with the project, the contractor's plans will not be reviewed or pre-approved  
10 by a town building official. Written approval also shall specify whether the client can be charged for  
11 any remedial work necessary upon ultimate inspection.

12 V. If a construction inspection is refused or cannot be reasonably or timely offered within 5  
13 working days, the applicant or contractor may continue with construction work in accordance with  
14 issued permits after documenting completed work and materials using photographic and/or video  
15 methods to preserve evidence for subsequent review. Work should be left unconcealed and visible for  
16 later inspection to the greatest extent practicable. If photographic or video documentation does not  
17 show all necessary aspects of the inspection process needed to demonstrate code compliance, the  
18 building official may take all necessary actions to verify compliance with applicable codes.

19 VI. Once a municipality resumes operations, the applicant or contractor shall communicate  
20 with municipal officials to provide updates regarding the status of commenced or progressed  
21 construction and obtain after-the-fact inspections and/or documentation of the same.

22 VII. Proceeding with construction under paragraph III in the absence of proper and  
23 customary building permits and inspections shall be considered a practice of last resort to commence  
24 and keep New Hampshire construction projects, vital to the economy, active and progressing during  
25 these extraordinary times.

26 VIII. The contractor shall bear responsibility for arranging review of photographic and/or  
27 video evidence, and obtaining proper documentation of completion at such time as normal municipal  
28 inspection services resume. The contractor remains responsible and liable for meeting minimum  
29 code requirements of the building and fire codes, as adopted in New Hampshire. The contractor  
30 further bears the risk that construction work must be altered or repaired after-the-fact to achieve  
31 code compliance. Nothing in this section prohibits the building official from taking all necessary  
32 actions to verify compliance with applicable codes.

33 IX. Municipal officials shall operate in good faith to administer these interim practices,  
34 however, no municipal official or municipality shall be liable to the contractor or any third party for  
35 any failure on the part of a contractor to comply with these provisions or the failure to construct  
36 pursuant to applicable codes.

**SB 155-FN - AS AMENDED BY THE SENATE**

**- Page 8 -**

1           9 New Section; Liquor Licenses and Fees; Temporary Expansion of Outdoor Dining through  
2 2023. Amend RSA 178 by inserting after section 31 the following new section:

3           178:32 Temporary Expansion of Outdoor Dining through 2023.

4           I. Restaurants and other food service establishments licensed under RSA 143-A:4 shall be  
5 permitted to expand outside wherever an outdoor dining area can be set up safely, such as parking  
6 spaces close to entrances, sidewalks, existing patios, lawn areas, or other appropriate areas. The  
7 food service establishment shall be responsible for cleaning and disinfecting the outdoor dining area,  
8 pursuant to state and federal guidelines. The outdoor dining area shall be clearly delineated and  
9 distanced from the general public. If expansion is in a shared space, such as a sidewalk or street,  
10 the restaurant shall be required to coordinate and seek approval from local authorities.

11           II. Authorization to serve alcohol in the temporary outdoor dining area shall be limited to  
12 food service establishments with on-premises beverage and wine or on-premises beverage and liquor  
13 licenses issued under this chapter.

14           III. The state liquor commission shall promulgate such rules under RSA 541-A, as may be  
15 needed to implement this section.

16           IV. In order to minimize persons entering into restaurants or off-sale licensees, the  
17 commission shall amend administrative rule Liq404.04 (d) to permit the curbside delivery of retail  
18 beer and table wine by off-sale licensees to persons meeting the requirements of RSA 179:5 with  
19 acknowledgment that after 2023 this provision reverts back to its existing form.

20           10 Prospective Repeals. The following are repealed:

21           I. RSA 310-A:1-h, relative to emergency licensing procedures.

22           II. RSA 318:37-a, relative to out-of-state pharmacies temporarily licensed as mail-order  
23 facilities.

24           III. RSA 178:32, relative to temporary expansion of outdoor dining.

25           11 Effective Date.

26           I. Paragraphs I and II of section 10 of this act shall take effect January 31, 2022.

27           II. Paragraph III of section 10 of this act shall take effect December 31, 2023.

28           III. The remainder of this act shall take effect upon its passage.

# **Fiscal Note**

**SB 155-FN FISCAL NOTE  
 AS AMENDED BY THE SENATE (AMENDMENT #2021-0774s)**

AN ACT                    codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic.

**FISCAL IMPACT:**     State                     County                     Local                     None

STATE:	Estimated Increase / (Decrease)			
	FY 2021	FY 2022	FY 2023	FY 2024
<b>Appropriation</b>	\$0	\$0	\$0	\$0
<b>Revenue</b>	Indeterminable	Indeterminable	Indeterminable	Indeterminable
<b>Expenditures</b>	Indeterminable	Indeterminable	Indeterminable	Indeterminable
<b>Funding Source:</b>	<input checked="" type="checkbox"/> General <input type="checkbox"/> Education <input type="checkbox"/> Highway <input checked="" type="checkbox"/> Other - Office of Professional Licensure and Certification Fund (RSA 310-A:1-e,I(b)), Liquor Fund			

**METHODOLOGY:**

This bill codifies various provisions related to emergency orders issued by the Governor in response to the COVID-19 pandemic.

The Office of Professional Licensure and Certification identified the following fiscal impacts for each of these proposed statutory provisions within the agency's scope of operation:

- Continuation of temporary health partners may affect LNA licensure and the number of applicants for LNA licensure but any related cost is indeterminable.
- Authorization of emergency licensing for medical providers will have an unknown fiscal impact but OPLC will expend funds to process license applications at no additional cost.
- Authorization of COVID-19 testing vaccination by pharmacists and pharmacy technicians had no reported related cost.
- Permitting out-of-state pharmacists to provide investigational drugs to clinical trial participants in New Hampshire and to be temporarily licensed as mail-order pharmacies had no reported related cost, but exempting licensure for mail order pharmacies until

January 31, 2022 will have an indeterminable fiscal impact with no revenue received through license applications.

The New Hampshire Liquor Commission states the provisions relative to the temporary expansion of outdoor dining through 2023 will result in an indeterminable number of eligible licensees implementing such expansion and the Commission is therefore unable to determine the amount of time and resources that will be needed to accommodate these changes.

**AGENCIES CONTACTED:**

Office of Professional Licensure and Certification, Departments of Education and State, and Liquor Commission

**SB 155-FN- FISCAL NOTE**  
**AS INTRODUCED**

AN ACT codifying provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic.

**FISCAL IMPACT:**     State             County             Local             None

STATE:	Estimated Increase / (Decrease)			
	FY 2021	FY 2022	FY 2023	FY 2024
<b>Appropriation</b>	\$0	\$0	\$0	\$0
<b>Revenue</b>	Indeterminable	Indeterminable	Indeterminable	Indeterminable
<b>Expenditures</b>	Indeterminable	Indeterminable	Indeterminable	Indeterminable
<b>Funding Source:</b>	<input checked="" type="checkbox"/> General <input type="checkbox"/> Education <input type="checkbox"/> Highway <input checked="" type="checkbox"/> Other - Office of Professional Licensure and Certification Fund (RSA 310-A:1-e,I(b))			

The Departments of Education and State were contacted on February 4, 2021 for a fiscal note worksheet, which have not been supplied as of March 5, 2021.

**METHODOLOGY:**

This bill codifies various provisions related to emergency orders issued by the Governor in response to the COVID-19 pandemic.

The Office of Professional Licensure and Certification identified the following fiscal impacts for each of these proposed statutory provisions within the agency's scope of operation:

- Continuation of temporary health partners may affect LNA licensure and the number of applicants for LNA licensure but any related cost is indeterminable.
- Authorization of emergency licensing for medical providers will have an unknown fiscal impact but OPLC will expend funds to process license applications at no additional cost.
- Authorization of COVID-19 testing vaccination by pharmacists and pharmacy technicians had no reported related cost.
- Permitting out-of-state pharmacists to provide investigational drugs to clinical trial participants in New Hampshire and to be temporarily licensed as mail-order pharmacies

had no reported related cost, but exempting licensure for mail order pharmacies until January 31, 2022 will have an indeterminable fiscal impact with no revenue received through license applications.

- Approximately \$26K will be saved by permitting board meetings to be conducted remotely through January 31, 2022.

The Department of Health and Human Services indicates the suspension of the collection of premiums for the MEAD program until the termination of the federal public health emergency initially declared pursuant to the Public Health Service Act on January 31, 2020 will result in an indeterminable fiscal impact dependent on how long the public health emergency continues. The Department estimates a loss of approximately \$7,000 in premiums revenue per month.

Hello Executive Department and Administration Committee,

As the Town Manager for the Town of Haverhill I fully support this amendment, as I believe the amendment related to outdoor dining is good for our local economy.

I also feel that it should never be up to a municipality to tell any individual that they must take a vaccine or show proof of having had one; this is the Live Free or Die state.

Thank you for your work!

**Subject:** Oppose non-germane amendment to SB 155

**Response requested:** No

**Importance:** Normal

---

Chairperson McGuire and members of Executive Departments and Administration Committee:

I write on behalf of the City of Dover to respectfully request that you oppose the non-germane amendment that is being proposed for Senate Bill 155. In providing a statewide blanket authorizations allowing for the establishment and location of outdoor dining, the proposed amendment will unnecessarily override properly vetted and established local land use code requirements. As allowed by State law, these requirements are necessarily specific to the unique needs and character of each community. In addition to other considerations, these local code requirements ensure that traffic flow and sufficient parking is maintained on site for approved uses. They also ensure conflicting uses between abutting property owners relating to noise abatement, lights, hours of operation, etc. are properly addressed through a formal application and permitting process that affords public input, site visits and subsequent approvals.

Here in Dover, our land use codes and permitting processes already allow for outdoor dining to be established by restaurants on both public and private property. Through our outdoor dining permit process, we have ensured that the interests of the restaurant owner, abutting property owners and citizens are properly accounted for and balanced when siting outdoor dining, whether on public or private property. Ultimately, the health and safety of our citizenry is of the utmost importance but there are other considerations beyond just whether "an outdoor dining area can be set up safely". The amendment, as proposed, will prevent those other considerations from also being properly addressed here in Dover and in other communities throughout the State.

Finally, I also request you oppose the non-germane amendment to SB155 given that it unnecessarily intrudes on the rights and obligations that private businesses owners have in deciding how to operate their businesses. Should a business owner choose to take steps and impose requirements that are related to widely recommended public health practices intended to protect their workforce and/or customers, they should remain free to do so without being prevented from contracting with our State government and political subdivisions.

Thank you for your consideration.

Respectfully,

**J. Michael Joyal, Jr.**

Good morning,

I am emailing to ask that you please support SB 155 Amendment to ban vaccine passports in NH. In New Hampshire, us Citizens are taking this very very seriously.

"It is the policy of the State of New Hampshire to safeguard medical privacy and liberty, which includes protecting the public from coercive COVID-19 vaccination. It is the policy of the State of New Hampshire to prohibit all forms of discrimination. This section is intended to further these policies..."

Kindly,

Meagan Cunningham

Hello All,

My name is Gabrielle Desmarais and I am a proud resident of NH!

I wanted to reach out to you today in support of the non-germane amendment to SB155 regarding vaccine passports.

This issue is extremely important to me and I hope you will also support it.

Allowing vaccine passports in New Hampshire is a direct attack on our freedom and bodily autonomy. The root question that this issue comes to is, "do you own your body or not?"

By allowing vaccine passports to be instituted by businesses in our state, we will effectively be creating a caste system with two classes of people. Vaccinated and unvaccinated. Over time, the unvaccinated will not have access to the basic amenities we all enjoy. They won't be able to go to the grocery store, the movies, go to a theme park, and so on and so forth.

While I would like to think businesses won't implement this when given the option, it is not worth the risk. There is substantial pressure on a federal level for vaccine passports to be implemented, and they are already being experimented with for airlines. It's only a matter of time before it expands to every business in the state.

I ask you to support this amendment and prevent a dystopian future for our state. Those who would like to be vaccinated are free to do so. Those who choose not to get vaccinated should not be punished for choosing to do so. Protect our citizens' right to choose. Preserve our freedom.

My husband is also in fervent support of this amendment, so know that my email is from 2 citizens rather than just myself.

Thank you for your time and consideration,

Gabrielle Desmarais

Dear Committee members,

Tomorrow you will be hearing amendment 2021-1149h to Senate Bill 155. No individual should be compelled to accept the administration of any drug in order to pursue gainful employment or to move about freely. This is especially true of treatments that have only been granted emergency use authorization by the FDA. Mandatory vaccination utilizing experimental drugs is a violation of the Nuremberg Code.

Please support this amendment.

Thank you,  
Honorable Steve Beaudoin  
Rochester

Honorable Committee Members,

I'm writing to ask and urge you to fully support SB155 during this Tuesday's hearing. The provisions in the amendment to prohibit existence of a 'vaccine passport' in New Hampshire is vital.

My status or choice to be vaccinated in a private matter for myself. Forces are at work to threatening to erode this private status for entry into commerce or public events. If allowed, a vaccine passport system would result in a two-class society based on vaccine status. I don't believe existing law goes far enough to ensure prohibition of a vaccine passport in our state.

Please show your support of liberty by leading with support of SB155.

Thank you,  
Chris DeVries

Good afternoon,

I am writing to you today to ask you to support the Non-germane amendment to prohibit vaccine passports in N.H.

Our freedoms are being ripped from "We The People" and it's time to stand up against the corrupt Politicians and take back our Country.

The truth will come out about the Plandemic but unfortunately, lives will be lost due to the vaccine ingredients. NO ONE should be forced to take an Experimental

Operating System that will never be approved by the FDA because there is a cure which is

Hydroxychloroquine. NO ONE should be forced to have a medical procedure

that goes against their beliefs, especially when these shots have not proven to protect you against the virus, you are still at risk of getting the virus and spreading it. There

is an abundance of vaccine expert doctors that have proof of the dangers of these vaccines, such as Judy Mikovitch, Sherry Tenpenny, Geert Bosshe and many more can be found on bitchute.com. I pray that you listen to the people of N.H. and do the right thing.

Thank you,

Tina Saulnier

Honorable committee members

Please support the citizens of NH and vote to support SB155. This bill has already passed the state Senate, citizens can be encouraged to get vaccinated but the threat of a nazi style passport system is unamerican, unethical, immoral and reprehensible. A passport system will only create more distrust in public officials.

Keep NH a free state and take a strong opposition to every unconstitutional, tyranny driven immunization passport system program. Nobody should be forced to show papers just to participate in polite society.

Please support SB155

Thank you Jim Roy

Hello,

As a New Hampshire resident I am writing to you to demand a vote to ban Vaccine Passports. These passports are illegal. The Emergency Use only "vaccines" have not been approved by the FDA making it unconstitutional to require citizens to get vaccinated. A passport directly discriminates against individuals who cannot or do not wish to get the vaccine. It is unlawful.

Please vote to ban Vaccine passports in New Hampshire.

Thank you

Good afternoon. First, thank you for your work representing Granite Staters.

As you are certainly very busy, I will be frank. New Hampshire residents deserve medical freedom, privacy, and the ability to go about society and conduct their lives free of discrimination. Please support the proposed amendment tomorrow for SB-155 concerning COVID passports. It should be intuitively obvious to anyone who values our Constitution that prohibition of these passports is vital to restoring a healthy and inclusive economy - as well as normal society - in New Hampshire.

Thank you and have a blessed week.

Andrew Noyes

Hello,

Please support SB 155 with the non-germane amendment.

No one should be forced to inject themselves with experimental genetic material simply to be allowed to travel or do commerce. Outlaw this insidious "vaccine passport" concept before it has a chance to take root.

"My body, my choice" -- right? This time it actually IS our bodies and our choice.

Don't be Marxist, be American.

- Georgia King

As a New Hampshire resident I am writing to you to vote to ban Vaccine Passports. These passports are illegal. The Emergency Use only "vaccines" have not been approved by the FDA making it unconstitutional to require citizens to get vaccinated. A passport discriminates against individuals who cannot or do not wish to get the vaccine. For example - we have seen the dangerous side effects that the vaccines have caused pertaining to blood clots- many people have a history of blood clots will not feel comfortable taking the vaccine because of this. This is just one example. It is unlawful/discriminatory to reward certain people who make one health decision and punish others who make another.

Please vote to ban Vaccine passports in New Hampshire.

Thank you  
Leigh Tuccolo

My wife and I moved to NH from MA 27 years ago. We started our life together and raised two boys. It is unfortunate that our children cannot live or experience what we feel are freedoms we had years ago.

My youngest is graduating high school this spring and his senior year should have been one of excitement and fun instead of lockdowns and fear.

He has been accepted to UNH in the fall and I fear his college years won't be any better if vaccine passports become the norm.

I ask that you support SB155. Make NH what it once was. The state motto live free or die means something. Please stand up for us citizens and support this bill.

Respectively,

The LeBlancs  
Hampton NH

As a New Hampshire citizen, I am asking you to support the State of Emergency reforms passed by the House. In particular, please ban any New Hampshire business from requiring masks or a vaccine passport to gain entry into or do business as this violates our constitutional rights. There is enough medical evidence available now that shows masks are ineffective and can actually create a greater health risk than Covid19. In addition, more research and evidence is coming out every day showing that vaccines are, in fact, not safe and effective and pose a risk in the short term to at least 30% of the population who experience either severe reactions or death. There are also possible severe risks of permanent disability or death in the long term according to leading medical doctors and researchers around the globe. New Hampshire citizens should not be forced to take a vaccine that could lead to death in order to buy groceries, shop for necessities, etc. Our legislators must remember the state motto "Live Free or Die" when casting their votes. We should be free to make our own decisions about the risks we want to take. If someone wants to wear a mask or risk death from the vaccine because it makes them feel safer, that is their choice. For the rest of us, we should be free to take the actions that make us feel safer, i.e. no mask and no vaccine.

Respectfully,

Lisa D. Chamberlin

Greetings,

In the name of the Liberty = Freedom + Morality , in the name of humanity and it's future, we ask that you are in support of this Amendment .

" **Give me liberty, or give me death!**" Patrick Henry from a speech he made to the Second Virginia Convention on March 23, 1775, at St. John's Church in Richmond, Virginia."

What do you choose morally , according to Patrick Henry's ?

Therefore, we wish to thank you in advance for supporting SB155 !

Most cordially,

D C

Please support SB155 and the non-germane amendment. The first of the 10 Nuremberg Precepts is that subjects in a medical experiment should be there by free choice. Vaccine passports are coercive. It is bad enough that both His excellency Governor Sununu seems to be marketing vaccines, and that the mainstream media is bullying us. Vaccine passports only make this untoward pressure worse.

These are the reasons I will not be taking the COVID shots:

Some local stats: the COVID experimental vaccine began distribution in mid to late December 2020. On Dec 31st, Cheshire County (population 76,000) had had 7 deaths-with-Covid for the 10 months of 2020. In 2021 there have been 25 more deaths with COVID, as of March 31, just three months, with the experimental vaccine program in gear.

The Keene Sentinel [reported](#) on three congregant care facilities - each had a vaccine clinic on December 30th. At Court St 12 died in the month following the vaccine clinic. Court Street had about 85 residents. The Winchester facility reportedly had only 1 case during the 10 months of 2020, but an outbreak shortly following its vaccine clinic, The Main Street facility was more complicated, people coming and going, but also had an outbreak shortly following its vaccine clinic.

Please note that the VAERS system lists vaccine injury (and death) but reports at more than a week after the injury, and is voluntary. Very few vaccine injuries are actually reported and logged into VAERS. I couldn't find any of the 12 deaths above in screening for New Hampshire and a 12/30/20 injection date, [see](#). Also note that there is little available liability or recourse for vaccine injury.

The Nuremberg Code (see Wikipedia) has 10 precepts for medical experimentation on human subjects. The first two are:

ONE: The voluntary consent of the human subject is absolutely essential.

TWO: The experiment should be such as to yield fruitful results for the good of society, *unprocurable by other methods or means of study*, and not random and unnecessary in nature.

We are being bullied by mainstream media to take the shots. I hear it every day on local radio, also from Governor Sununu. This contradicts the first precept which is generally taken to mean informed consent without coercion.

Maybe you didn't know that by taking the experimental vaccine you were agreeing to be a lab rat in an experiment. Surely you understand that a vaccine developed in eight months could not have tested its effects even just a few years out. Maybe you didn't know that the FDA has not approved them. The FDA has merely given EUA, emergency use authorization, figuring it would do more good than harm. The FDA did break rule 2 above in that it eliminated alternative therapies that have been successful elsewhere, *making them unprocurable* in most states. See also the Pfizer [document](#), especially pages 123 to 125 regarding the absence in testing for pregnant and lactating women and contraceptive guidance; also the catchall exclusions on pages 37 to 39. Also, please note the word "healthy" in the title. (the link to the Pfizer document has died; the best substitute I can find currently is [here](#).)

Lori Shibinette of NH DHHS signed an emergency [order](#) on April 3, 2020. This order separated patients, doctors, and pharmacists from life giving medications. This is a crime. The NH legislature should immediately cancel this order\*, cancel the State of Emergency, and relieve Shibinette of her duties. Shibinette's and the FDA's actions have violated principle 2 above.

In July 2020 Dr. Harvey Risch wrote [this](#) in Newsweek, explaining both the political situation and the life-saving remedy *available* to COVID patients before they become hospitalized. Other states began stocking the remedies. Then the FDA inhibited their use.

In Texas, it is still legal to effectively treat COVID patients before they are hospitalized. In testimony before a Texas Senate committee, Dr. Peter McCullough explains [here](#). Dr. McCullough believes Texans have acquired 80% herd immunity. He believes, as I do, that natural immunity is superior to what injections can produce. He also believes that 85% of COVID fatalities could have been saved with early effective treatment, treatment he gives day-to-day in his clinics.

The Keene Sentinel has published my prior letters regarding Toney Baloney (Fauci), Donald Trump, and Joe Biden. I believe these three to be exceptionally venal conmen. There is risk for anyone in taking their recommendations; they all agree we should be taking the injections. Have you noticed there is no talk about costs, or more importantly future costs? Bill Gates has already said a third injection may be called for. Pharma has told Wall Street that prices will be increasing. There is too much profit in contrived death, war, cigarettes.

When COVID began I sat next to Rabbi Loewenthal at the synagogue. She saw the opportunity that we all would join together to fight COVID. I said, no, it is Amalek. Amalek was the tribe that attacked the Children of Israel as they were escaping Egyptian slavery. Like COVID, Amalek attacked from the rear, the stragglers, the old, the disabled, the infirm, those who had difficulty keeping up (economically, today). Rabbi Loewenthal saw the good side, but I could only see the evil and injustice. That's why she was Rabbi and I could never be. I hope she is right.

Today, Passover, we celebrate freedom from Egypt. There was a dedication in the square Monday recognizing the initiation of Holocaust remembrance month. As I write, it is interesting that we can use the Nuremberg Code to guide us medically.

I could write much more on the various counter-productive frauds and deceptions (stay-at-home, lockdown, pcr test, Johns Hopkins inflated numbers in 2020, COVID with vs COVID because of, masking the healthy, masking children,...) that have occurred over the prior year. Gerhard Bedding, John-Michael Dumais, Johanna Laurie, and Becky Montrone have already done most of this in letters

to the editor. Much more information can be found at [RiseupNH.org](https://www.riseupnh.org). The headline of Gerhard's July letter said it well... "Why are we simply accepting this take?"

Lastly, I would like to leave you with two more videos; Dr. Lee Merritt discusses the fix we are in, war 5.0 [here](#), please pay particular attention to her views on masking children. For a very deep dive into the virome and a hopeful future paradigm to replace our current medical system, see Dr. Zach Bush's 3-hour video What Happened Last Year [here](#). Dr. Bush's analysis is different from what we have been force fed, his risk factors for COVID are attached.

I believe I became part of the herd immunity in the spring of 2020. The number of medical people (like Dr. McCullough) who believes we have already reached a high herd percentage is growing.

I hope this explains why I will not be taking the injections, which, like almost all medical procedures, bear risk. I hope this piece supports those with nagging doubts who feel bullied, by giving them the informed choice to which they are entitled.

For those who have already taken the injections. I apologize that I couldn't get this out sooner - Dr McCullough's testimony made the difference. I believe that you and those around you will be more at risk than me, because the injection is experimental in nature. My January [letter](#) outlines the disciplines I have been following to stay healthy.

I HAVE NO MEDICAL TRAINING.

\*I learned on April 22, 2021 that ShibiNet's April 3, 2020 Emergency Order had been rescinded on September 1, 2020.

**Response requested:** No

**Importance:** Normal

---

Good afternoon,

I urge you to pass the amendment to SB155 that would prohibit the implementation of vaccine passports. Vaccine passports have no place in our society. They would create a two-tiered system that discriminates based on one's personal health status and are reprehensible by their very nature. The idea that government or private businesses would have the ability to discriminate based on a person's personal health decisions violates our basic rights of medical autonomy and privacy. Government should not ever dictate an individual's personal health care decisions and a vaccine passport would do exactly that.

This doesn't even consider the fact that none of the vaccines have been approved by the FDA. The FDA issued Emergency Use Authorization (EUA) for the vaccines for individuals 16 and older and they are considered investigational vaccines not licensed for any indication. As such, federal law prohibits employers and others, including hospitals from requiring or mandating Covid-19 vaccination (as a prerequisite for employment or participation). See: [Employers can't require Covid-19 vaccination under an EUA - STAT](#)

**Employers can't require Covid-19 vaccination under an EUA - STAT**

Organizations are free to encourage Covid-19 vaccination by employees and others, but federal law prohibits them...

For many people, there is no need to take these vaccines - either they have already had Covid-19 or they are under 60 and in relatively good health, so their risk is so low that the purported benefits of the experimental vaccines do not outweigh their risks, which are not well-understood because these vaccines trials are ongoing and there is no long-term safety data for them, nor were they tested on all relevant populations. Most concerning is the aggressive suppression of reporting on adverse events due to the vaccines. Trust in government and public health officials has been badly damaged by the censorship, suppression, and fear-based public policy campaign surround Covid; adding yet another penalty or threat to try to force the public to accept a new, irrational mandate that directly affects their health and well-being will further erode public confidence in government and the public health establishment.

The response to Covid has been wildly disproportionate to the risk it presents to the general public. After much initial exaggeration, faulty modeling and ridiculous estimates of Covid-19's lethality, we now know it's on par with a bad flu. There are multiple, effective early treatments, transmission is not driven via surfaces or asymptomatic people (both are very rare as was known prior to March 2020 and has been proven since then) and there is no need for people to be fearful of the virus.

As with other flu seasons, taking the normal precautions applicable to any other respiratory virus would be sufficient. There is no need for the over-extended state of emergency and the knee-jerk, irrational responses

being proposed to deal with Covid. It's now endemic in the population, the healthcare system is not overwhelmed, and using the media-induced fear of Covid to support calls for a vaccine passport is nothing more than a thinly veiled assault on our constitutional rights; it's the first step in a series that chip away at our rights and try to control every aspect of our lives.

I urge you do what's right and help us return to the old normal. I barely recognize our state since the implementation of these overreaching and onerous Covid restrictions. They have caused terrible collateral damage, incurred tremendous economic costs, and terrorized much of the population.

Sincerely,  
Barbara Gladders

For many reasons I am in support of the SB155 amendment. The main one is

1. The emergency powers reforms in no way impede the governor's ability to issue emergency orders during a State of Emergency, but they do create legislative oversight to the extension of State of Emergency declarations to prevent abuses of power.

The idea of a vaccine passport to be able to take my children certain places fees like an egregious abuse of power. After immense research my family has made the best decision for us regarding the vaccine. It is not in anyone else's realm of power to bully me in one decision or another. I'm a normal mom of three young children. I do my own research, make educated decisions and would expect proper amendments in place to ensure that can continue to happen. Thank you for all you are doing !

**Subject:** Please support the non-germaine amendment to SB 155

**Response requested:** No

**Importance:** Normal

---

To Members of the House Executive Departments and Administration  
Committee:

I ask that you provide your full support to the non-germaine amendment that prohibits the State and companies doing business with the State from requiring a vaccine or vaccine passport.

Immunizations authorized under an Emergency Use Authorization are not without harm or adverse events (including death), and proof of immunization ought not to be required in any form. "Vaccine passports" would lead to a dual-tier society based on an individual's medical data in violation of the American with Disabilities Act, HIPPA's medical privacy provisions and the First and Fourth Amendments of the Constitution.

This amendment will protect New Hampshire residents against erosion of their freedoms and will reestablish their rights and liberties.

Now is the time to preserve our medical freedom and right to privacy. I call on you to do all you are able to preserve medical freedom and prevent the imposition of "vaccine passports."

Thank you.

---

Dear Hon. House Exec Committee,

I am writing imploring you to support the amendment to SB 155 to support banning vaccine passports in NH.

Discrimination against any citizen for any reason has been stamped out in our culture and rightly it should be. To ensure a new class of medical discrimination never occurs in the great state of NH, I implore you to support the amendment to SB 155.

Medical Privacy is a right solidified in our HIPPA laws. No citizens should be forced to disclose any medical data to anyone expect those they specifically choose to relay that information. To be forced to show a medical status to buy groceries or close to enter a public building is egregious on its face.

Please ensure NH stays the free and fluid state that it is and stop discrimination before it has an opportunity to take hold.

Thank you,  
Noelle Taku  
Merrimack, NH

To members of the Executive Departments and Administration Committee

I am a resident of Westmoreland NH. I urge your support for the amendment to SB 155 prohibiting state supported discrimination of persons who do not receive the COVID vaccine or provide proof of vaccination status. I urge you to take this action to protect individual privacy, liberty and freedom in bodily integrity and medical decisions for New Hampshire citizens

Myself, my husband and many other NH citizens I know are not ready or willing to be part of an experimental medical trial for the injections currently only authorized for emergency use for COVID 19, with clinical safety and efficacy trials not scheduled for completion until 2023.. With so many reports, and possibly unreported adverse reactions, no guarantee of efficacy, and no long term safety studies, any type of coercion to take the COVID 19 injections would be unjust and irresponsible at this time. Everyday there are news reports to the Vaccine Adverse Event Reporting System of serious adverse events, injuries and deaths occurring in close proximity to these experimental shots, .

[https://childrenshealthdefense.org/defender/cdc-investigating-johnson-johnson-vaers-data-reports-deaths-covid-vaccines/?utm\\_source=salsa&eType=EmailBlastContent&eld=56b3ffa2-bcb2-4e52-837a-85c0043a45f9](https://childrenshealthdefense.org/defender/cdc-investigating-johnson-johnson-vaers-data-reports-deaths-covid-vaccines/?utm_source=salsa&eType=EmailBlastContent&eld=56b3ffa2-bcb2-4e52-837a-85c0043a45f9)

And new information keeps coming out, for example from Israel, which started vaccinating earlier than most countries, indicating heart problems when younger people are vaccinated.

<https://www.timesofisrael.com/israel-said-probing-link-between-pfizer-shot-and-heart-problem-in-men-under-30/>

Furthermore, there is no documented proof that the shots stop the spread.

<https://healthinsuranceblogpro.com/2020/12/11/could-people-still-be-infectious-after-theyre-vaccinated-for-covid-19/>

In fact, as evidenced by more and more "breakthrough" case of COVID coming to light, it does not serve us to instill the notion that workplaces and public spaces should exclude unvaccinated people to make them safer.

To Members of the House Executive Departments and Administration Committee,  
I am a retired physician residing in Concord, NH and I am writing to ask you to remove the proposed amendment to SB 155 which would make it illegal for the State of New Hampshire to ever require documentation of COVID vaccination status. This language weakens a bill which is otherwise unobjectionable. I strongly recommend that the Legislature embrace the goal of protecting the health of the people of New Hampshire during this extraordinary pandemic. That would include encouraging vaccination for COVID 19 by all eligible adults over 16. This amendment has the opposite effect. The mutating genomic structure of the COVID-SARS-2 virus is changing the characteristics of this illness in an ongoing manner. Public Health experts such as our State Epidemiologist Dr. Ben Chan predict that a more contagious variant – the “UK strain” – will imminently become the dominant strain in New Hampshire. The longer the virus circulates among humans, the more time there is for viruses to mutate into even more dangerous variants. Most concerning, future mutations could definitely create new strains with the ability to escape the effects of currently available vaccines. This means that our window of time for getting maximum value from current vaccines is limited. The more quickly we reach herd immunity through aggressive vaccination, the less likely is the nightmare scenario of vaccine resistance. Under these circumstances, it is irresponsible to rule out the possibility that documentation of vaccination might ever be necessary. I urge you to remove this language from SB 155.  
Thank you!

Sincerely,  
Lyn Lindpaintner, MD

Dear ED&A committee members,

I write you today to thank you for supporting SB 155.

There is an April 27 hearing on the House non-germaine Amendment #2021-1149h. I support this amendment and am keenly interested in Chapter 9-G relative to protecting NH citizens from discriminatory practices related to the COVID-19 vaccine should the state consider mandating this experimental injectable solution. Never should anyone be coerced into receiving an experimental injection especially when documented adverse reactions exist. Each individual, not the state, has the right to determine whether their benefit outweighs the risk. And, medical privacy and autonomy are of utmost importance.

Please support this Amendment.

Thank you for your service.

Respectfully,

Hon. Linda Rea Camarota 2018-2020

Dear Executive Dept. and Administration,

As a resident of Dover, New Hampshire I am writing to you to ask you to support the SB 155 amendment. I have been following the statistics of Covid vaccinations as well as the number of people who have had Covid 19. Covid 19 has impacted us all on some level but to require people to

take the vaccine or verify their vaccine with a passport would create a oppressive place for all who live here. I believe our ability to stay open and move forward has helped us to sustain our economy as well as support families and individuals to move forward with hope. To put forth such a restraint is not warranted and would clearly bring New Hampshire into a depressive state. The amount of people that have been vaccinated in the is state is roughly 30%.As of April 26th 32.1% people of New Hampshire have been fully vaccinated with 64% falling in the age of 80+ and 23.40% falling between that ages of 70 and 79. out of 93,935 of people who have been infected by Covid 19

89,932 have recovered. That's a recovery rate of 96%.

We cannot impose on 70% of New Hampshire's residents a vaccine and a passport and think that they will stand by and allow such an encroachment. Will we be the state that is known for suicides and lowest employment rates with tourism at an all time low. Will New Hampshire be known as a place that has lost its trust in her people? A place where people are prevented from working and visiting their loved ones? No I believe New Hampshire is a great state with great people and together we will forge ahead and overcome and live with one another is with great hopes for our future.

I implore this committee to seriously consider the repercussions of placing such a restraint on the people of New Hampshire.

Sincerely, Jill Johnson

Dear members of the COmmittee,

I am writing to OPPOSE Amendment #2021-119h to SB155. I am a small business owner and it is crucial that we be able to require our employees to get the vaccine. Many of our clients are particularly vulnerable to Covid19 and we cannot risk our employees infecting them. My business would not be covered by this amendment but I am certain that many of the companies that are targeted by this amendment have similar concerns for the safety of their employees and customers. Please vote down this terrible amendment.

Dear Committee members:

I urge you to oppose the non-germane amendment [#2021-119h](#) to SB155. SB155 codifies provisions included in select emergency orders issued by the governor in response to the COVID-19 pandemic. The non-germane amendment would prohibit the state from requiring documentation of COVID-19 vaccination status. This means that the state and any companies contracting with the state or receiving public funds from the state of NH or its government entities would be **prohibited** from requiring any person to receive the vaccine or to possess a so-called immunity passport or any other documentation for certification of vaccination or immunity status. The state and the aforementioned companies would be prohibited from discriminating against those persons who chose not to be vaccinated.

*It is not good to attach non-germane amendments to bills. Indeed it is just wrong to do so.*

Thank you for your consideration.

Claudia Damon  
Concord NH

Dear Chairman McGuire and members of the House Executive Departments and Administration Committee,

Please accept this written testimony opposing amendment #2021-119h, which would prohibit the state, and entities receiving funds from the state, from requiring COVID vaccination.

The pandemic is still raging in parts of the world, and new mutations that develop elsewhere have appeared in the U.S. We hope that the current vaccinations happening within the US will keep us safe – but we cannot know what the future will hold. Will the virus be contained, or will it find ways to be resurgent? We should not dictate today against what may become prudent medical policy tomorrow.

Thank you for your consideration,

---

To whom it may concern,

I am writing in support of the amendment to SB155 that prohibits Covid Vaccine Passports for organizations that do business with the state. No one should be coerced into taking a drug or vaccine as it violates bodily integrity. No vaccine can be perfectly safe therefore it must be voluntary with no penalty if refused. If a person were to be coerced into taking a vaccine they didn't want and then suffer injury or even death as a result then the state would be responsible for executing an innocent person for no good reason.

Sincerely,

Elizabeth Sylvia

**Subject:** Amendment to SB 155-FN  
**Response requested:** No  
**Importance:** Normal

---

To whom it may concern:

I am very pleased with the amendment to SB 155-FN, specifically Chapter 9-G Covid-19 Vaccine Requirement Prohibited.

There are many reasons to keep people's medical records private and this is of the utmost importance. People on both sides of the vaccine issue feel very strongly about the vaccine and may even bully someone with opposing views.

I must also note, however, that since the pharmacies have been giving vaccines I have found it emotionally and physically exhausting to get my and my parents medications. They are short staffed and many of the staff have quit. My pharmacist is "embarrassed to be a pharmacist" and says the pharmacy is really only a vaccine dispensary. They are not careful (really, don't have the time and staff) to be on top of medication dispensing. I went to the pharmacy four times for one prescription (not available when they said it would be, not ready, not in stock, etc). Normally they are on top of this. There are long wait times just to get waited on. I waited in my car a half-hour and inside more than fifteen minutes while they checked in someone wanting the vaccine, only to be told the prescription wasn't ready yet. There is a dedicated line for vaccines and one for prescriptions but they can't staff both so it makes no difference. So, while trying to help take care of my aging parents and take care of myself while I have a chronic illness I cannot express the dread I feel every time I have to go to the pharmacy. Please consider remedying this.

Thank you for your time and consideration.

I implore you to support SB155, immediately! I have a family I care about, I am an essential worker and it is time to return to business as usual!

Ban vaccine passports!

No more emergency orders!

Free to gather !

1. The House budget contains comprehensive State of Emergency reforms that the governor promised us last fall, but has since said he won't sign. Let's hold the governor to his word and restore the Constitutional balance of powers to the Legislature by including these reforms in the final budget.
2. The emergency powers reforms in no way impede the governor's ability to issue emergency orders during a State of Emergency, but they do create legislative oversight to the extension of State of Emergency declarations to prevent abuses of power.
3. The State of Emergency is intricately tied into the budget because the budget defines spending policy for the state and the executive branch is spending our tax dollars to implement its emergency powers, so it is perfectly appropriate for State of Emergency reforms to be in the budget.
4. It is imperative the Senate pass the budget so that the Legislature can have a say in the budget process. The Legislature, not the governor, should be creating state laws and setting state spending policy.
5. The State of Emergency is over and citizens need to have some normalcy restored so the economy and culture can recover. It's going to take time, but we cannot let this biennium go by without a return to the Constitutional balance of powers. Passing these reforms in the budget is our best chance we have to restore our government to its intended form.

To the House Executive Departments and Administration Committee,

Please support SB155 with the amendment that bans mandated covid vaccinations and passports.

If we don't get this correct now and if we don't stop the mass hysteria now, we will create a living hell on earth. We're certainly getting close.

We don't want to be treated like science experiments for governments and pharmaceutical companies. Although a large portion of the population might be willing to accept such treatment, those of us who have God will not accept it. We refuse and we insist that our natural rights are protected by our elected officials.

Support SB155 with this amendment and ensure that health freedom is codified into our laws.

Sincerely,

Alexandra Mennella  
Hooksett

Ladies and Gentlemen:

As a resident of Danville, County of Rockingham, New Hampshire, I am respectfully requesting that you support the amendment to SB 155. The LIVE FREE OR DIE state cannot accept or tolerate the notion of a vaccine passport. There are many circumstances where a vaccine is not necessary or is actually dangerous to a person's health due to pre-existing conditions. Removing freedoms to work, shop, or conduct any business because of an EXPERIMENTAL vaccine status is beyond unacceptable.

1. Please - the House budget contains comprehensive *State of Emergency reforms* that the governor promised us last fall, but has since said he won't sign. We must hold the governor to his word and restore the Constitutional balance of powers to the Legislature by including these reforms in the final budget.
2. The emergency powers reforms in no way impede the governor's ability to issue emergency orders during a true State of Emergency, but they do create legislative oversight to the extension of State of Emergency declarations to prevent abuses of power.
3. The State of Emergency is intricately tied into the budget because the budget defines spending policy for the state and the executive branch is spending our tax dollars to implement its emergency powers, so it is perfectly appropriate for State of Emergency reforms to be in the budget.
4. It is imperative the Senate pass the budget so that the Legislature can have a say in the budget process. The Legislature, not the governor, should be creating state laws and setting state spending policy.
5. The State of Emergency is over and citizens need to have FULL normalcy restored so the economy and culture can recover. It's going to take time, but we cannot let this biennium go by without a return to the Constitutional balance of powers. Passing these reforms in the budget is our best chance we have to restore our government to its intended form.

Please vote in accordance with the citizens' wishes. There can be no other outcome. The majority of people are awake, aware, and willing to get involved and do the work to make the changes needed.

Thank you for your attention.

Dear house committee,

It is of absolute importance that this bill is passed and I fully support it. No citizen should be forced to get the vaccine or have a vaccine passport. That goes against our freedoms and liberties of which we have. No company, law enforcement, fire and rescue, and any other company should be forcing vaccines or a vaccine passport. Discrimination of any kind should not be tolerated it is a freedom of choice.

To whom it may concern,

I ask you to support State of Emergency reforms passed by the House in the budget.

We need to restore the Constitutional balance of powers to the Legislature by including these reforms in the final budget.

We need legislative oversight to the extension of State of Emergency declarations to prevent abuses of power.

The state and the executive branch is spending our tax dollars to implement its emergency powers, so it is appropriate for State of Emergency reforms to be in the budget.

The State of Emergency is over and citizens need to have some normalcy restored so the economy and culture can recover. We need a return to the Constitutional balance of powers. Passing these reforms in the budget is our best chance we have to restore our government to its intended form.

Hello all,

I am writing to express my deep concern over the subject of vaccine passports. The concept of vaccine passports is reminiscent of nazi Germany, requiring citizens to receive a vaccine or any medical treatment against their will is vile, just as vile is the idea of requiring citizens to show proof of medical services. We are a free people & should never be required to "show our papers". I am asking that SB155 be supported by those representing the people of New Hampshire. Keep New Hampshire free !

Dear Executive Committee,

As a citizen of New Hampshire and the United States of American, I'm asking you to support bill SB-155 FN and prohibit Vaccine Passports in NH. I believe they are Un-Constitutional and infringe on the rights and privacy of all citizens and is out right discrimination. The vaccine is approved for emergency use only and the exact ingredients and adverse effects are not fully disclosed. They also have many adverse effects that the media and CDC are not disclosing to the general public.

I am urging you to please protect our medical privacy and liberty.

Thank you!

Sincerely,

Marie Wolfe

Good morning,

I am writing to you today to express my emphatic support for the Covid Passport amendment to SB 155, which would limit businesses from taking part in vaccine passports. It is absolutely imperative that New Hampshire citizens are allowed the freedom to choose which medical treatments they take, and we must not be forced or coerced into medical treatments as a way to maintain our freedoms. Allowing businesses to adopt vaccine passports would allow blatant discrimination of people based on their personal medical choices, and this would have devastating consequences. Please do what is right, and protect New Hampshire citizens from medical discrimination. If you don't stand up for the freedoms of New Hampshire citizens now, who will?

Thank you for your time and best wishes,

Adrian Wallace

To Whom it May Concern,

I am in SUPPORT of the amendment to SB 155! In particular, the banning of Vaccine Passports in NH.

We are the Live Free or Die State, we expect our State to continue to trust our residents to do the right thing without putting Government Controls on us!

The Vaccine Passport is a slippery slope of the Government mandating us, interfering with our choice of how to protect ourselves... either by putting poisons into us (vaccines) or using common sense of eating right, getting exercise, and taking vitamins and minerals to boost our native immune systems.

SARS CoV2 has NEVER been isolated and these vaccines are experimental, NO ONE should be taking them because the survival rate worldwide is 99.9x%. There is more and more information being reported related to deaths and serious negative side effects from the vaccine every day, these vaccines are SCARY! If you haven't seen anything in the media, here's a sampling:  
[https://drive.google.com/file/d/1uS4krGJX-7sa8fuRIH7mhod-Xa5ZBsXU/view?fbclid=IwAR1fE2THMe3gDdl7VdUgX\\_Oul0n1fmqliGMrlYyFnmTWwJMggw78xQr12CE](https://drive.google.com/file/d/1uS4krGJX-7sa8fuRIH7mhod-Xa5ZBsXU/view?fbclid=IwAR1fE2THMe3gDdl7VdUgX_Oul0n1fmqliGMrlYyFnmTWwJMggw78xQr12CE)

Please remove the Emergency Powers and return NH to normalcy!

Ladies and Gentlemen:

As a resident of Danville, County of Rockingham, New Hampshire, I am respectfully requesting that you support the amendment to SB 155. The LIVE FREE OR DIE state cannot accept or tolerate the notion of a vaccine passport. There are many circumstances where a vaccine is not necessary or is actually dangerous to a person's health due to pre-existing conditions. Removing freedoms to work, shop, travel, or conduct any business because of an EXPERIMENTAL vaccine status is beyond unacceptable.

1. The House budget contains comprehensive *State of Emergency reforms* that the governor promised us last fall, but has since said he won't sign. We must hold the governor to his word and restore the Constitutional balance of powers to the Legislature by including these reforms in the final budget.
2. The emergency powers reforms in no way impede the governor's ability to issue emergency orders during a true State of Emergency, but they do create legislative oversight to the extension of State of Emergency declarations to prevent abuses of power.
3. The State of Emergency is intricately tied into the budget because the budget defines spending policy for the state and the executive branch is spending our tax dollars to implement its emergency powers, so it is perfectly appropriate for State of Emergency reforms to be in the budget.
4. It is imperative the Senate pass the budget so that the Legislature can have a say in the budget process. The Legislature, **not the governor**, should be creating state laws and setting state spending policy.
5. **The State of Emergency is over** and citizens need to have FULL normalcy restored so the economy and culture can recover. It's going to take time, but we cannot let this biennium go by without a return to the Constitutional balance of powers. Passing these reforms in the budget is our best chance we have to restore our government to its intended form.
6. Also, IMO, Children should have NEVER been made to wear masks for a virus that did not affect them. The physical and psychological damage they have endured due to emergency declarations is unconscionable. I would like to see the schools mandated by the state to remove any and all mask rules involving children.

Please vote in accordance with the citizens' wishes. There can be no other outcome. The majority of people are awake, aware, and willing to get involved and do the work to make the changes needed.

Thanks for your attention.

Give the power to choose back to the people. I made a mistake by voting for Sununu. He is power hungry and ill-informed on medical issues. He alone has caused abuse of children in schools by encouraging masks that do nothing but block air to kids' bodies.

---

Hon. Chair Carol McGuire & Hon. Members, House Executive Depts. & Admin. Comm.:

On behalf of the New Hampshire Health Care Association, which represents over 70 long-term care facilities statewide, I am writing to express our **strong** opposition to the amendment that would add a Section 9-G (COVID-19 VACCINE REQUIREMENT PROHIBITED) to Senate Bill 155.

This language takes aim at a ship that sailed 116 years ago. In 1905, weighing in on a Cambridge, Massachusetts ordinance, the U.S. Supreme Court upheld the ability of governments to require vaccination. Were the ordinance to be defied, **“the spectacle would be presented of the welfare and safety of an entire population being subordinated to the notions of a single individual who chooses to remain a part of that population.”** (Emphasis added).

Smallpox vaccination was required of everyone until 1972 when the disease was largely eradicated. There is not a single state that does not require children be vaccinated against polio before receiving child care or attending elementary school. The same is true of the Measles, Mumps and Rubella (MMR) vaccine. To attend school, older children in any state need to receive their Tdap vaccine (Tetanus, Diphtheria, Pertussis), generally beginning as early as the 6<sup>th</sup> grade – or age 11 in New Hampshire.

Occasional outbreaks of pertussis (“whooping cough”) still occur, incubating among the unvaccinated. For similar reasons, in 2019 there were over one thousand measles cases in the U.S., the highest number since 1992.

Against this backdrop of mandatory vaccination, why would we forbid requiring vaccination against a virus that, according to one source as I write this, has killed 572,237 Americans and continues to mutate in the general public? **Why would we effectively aid, and abet, this uncommonly lethal virus?** Southern New Hampshire University has already declared they will require COVID-19 vaccination for students to return to campus. Of course. The universities I attended all required vaccination against less prevalent diseases.

Why has COVID-19 vaccination become politicized? Two of the vaccines in use in the U.S., Moderna’s and Johnson & Johnson’s, were developed with federal investment from the Trump Administration through Operation Warp Speed. President Trump himself was vaccinated, calling it “a true miracle.”

Representing long-term care facilities in New Hampshire, I am proud the staff working in them had the nation’s highest *voluntary* rate of vaccination. To date, vaccination has not been required. Yet, as we watch variants develop, and India now being torn apart by this virus, we are not prescient enough to know what may prove necessary in getting our society to a place where it can co-exist with COVID-19 under a semblance of normalcy.

My members contract with the state for Medicaid care, and would thus be swept up by Section 9-G’s broad prohibition on requiring vaccination or apparently even *knowing* whether an employee has been vaccinated – knowledge critical to requiring that non-vaccinated employees at least, as has been long true with those choosing not to receive the influenza vaccine, **wear masks** as a minimal precaution against transmitting a lethal virus. The exemption for “[m]edical facilities treating COVID-19 patients . . . where a

direct threat exists that cannot be eliminated or reduced by reasonable accommodation” is too vague to be meaningful as it would, no doubt, be a trial attorney’s dream.

“Freedom” does not give one the freedom to infect others. And what of free enterprise being impeded by government second-guessing decisions by businesspeople trying to keep their doors open? **We strongly oppose Section 9-G of this amendment, and would, respectfully, encourage you to do the same.**

**Importance:** Normal

---

Members of the committee,

I have been working on the non-germane amendment to SB155 being introduced today.

After consulting with people in the medical field and better legal minds than my own, I believe the exemption section needs to be amended. The bill bans mandates of the Covid vaccine, Covid passport, or immunity documentation. I see the need for an employer at a medical facility treating Covid patients to know if a doctor or nurse is immune or not to be able to give them the reasonable accommodation of proper PPE, but I don't see why they should be mandated to get the vaccine. Many medical facilities are not planning to mandate the vaccine for their workers and in the past, in facilities that have required the flu vaccine, they would make the reasonable accommodation of increased PPE use for workers who declined the vaccine. I believe the section should read as follows:

3. Exemption. Medical facilities treating COVID-19 patients may be exempt from this section, concerning immunity documentation only, where a direct threat exists that cannot be eliminated or reduced by reasonable accommodation, per federal statute 29 CFR 1630.2 (r)

Hi there;

My name is Patrick Wetmore, I live in Plymouth NH! I support SB 155 and the banning of any type of "vaccine passports!" I pray you all do as well, resist this type of overreach!

Patrick Wetmore

"But as for the cowardly, the faithless, the detestable, as for murderers, the sexually immoral, sorcerers, idolaters, and all liars, their portion will be in the lake that burns with fire and sulfur, which is the second death."

**Importance:** Normal

---

To the Committee,

I write in support of the Amendment to SB 155 prohibiting vaccine passports. I only wish the language of the Amendment was stronger to include ALL entities in NH regardless of their status in receiving state funds. Medical freedom and privacy is an essential part of being an American and a citizen of the Live Free or Die State. Medical freedom is an inalienable right and requires INFORMED CONSENT. No one can force or coerce a person to take a vaccine when they do not consent. Business and colleges are currently taking on a very fascist role of doing the bidding of the wishes of totalitarian governments without laws being passed and going against established medical ethics. There is no longer a pandemic of coronavirus, but rather a pandemic of fear. This is the ultimate collusion of evil intent combined with a psychosis.

Coercing people to take part in experimental vaccines to gain access to services of everyday life (employment, education, entertainment, freedom of movement) is against the **Nuremberg Code of 1947**. By requiring vaccines and vaccine passports, the Nuremberg Code is being violated. On the 50th Anniversary of the Nuremberg Code of 1947, an article in the New England Journal of Medicine called it “ the most important document in the history of the ethics of medical research. ” <https://www.nejm.org/doi/full/10.1056/NEJM199711133372006>.

The C19 vaccinations were rushed and not fully tested. They are proving not to be safe for young people and even triggered infection in some elderly frail and precipitated their deaths as documented in the several outbreaks in Cheshire County nursing homes. Problems are still being reported as younger people are being tricked into vaccinating for a disease which poses almost zero risk to them. Miscarriages, myocarditis in young men, blood clots, strokes. In women, heavy and long menstrual periods that last up to 2 weeks, that appear right after vaccination in the middle of their cycle and miscarriages continue to be recorded. Women on the first years of menopause have had me trial periods after a few years of having none. That anyone would require or even promote this vaccine to anyone who is not at extreme risk is unconscionable.

And we do not need an untested vaccine. Ivermectin, vitamin D, Zn, hydroxychloroquine, and melatonin and steroid inhalers are curative. The state should be promoting prophylactic use of the very safe, 40-year-old Ivermectin that has been dosed BILLIONS of times. When medical workers and staff in other countries take Ivermectin as prophylaxis , they do not acquire C19 when peers who do not prophylactic DO get C19 at rates up to 50%. Also, vit D levels of over 50ng/ml are showing to be immunity from C19. My levels are 70ng/ml. I do not eat inflammatory foods. I do not consume seed oils (vegetable oils) that cause inflammation. I eat grassfed beef and beef organs with high levels of vitamin A and Zinc. I am functionally immune to this disease. I do not and will never take an experimental vaccine and will never subject my children to such experimentation.

After World War 2, the extent of medical treatments on the Jews, developmental and physically disabled, and even Catholics was discovered and the horrors were so great that rules for medical experimentation were established in the Nuremberg Code.

Ways that the Nuremberg Code is being violated:

- vaccine was developed IN CONJUNCTION with animal experiments.
- A good alternative is available the 40-year-old, Nobel Prize winning drug, Ivermectin that has been given BILLIONS of times works to stop COVID 19.
- All these vaccines are still in Phase 3 of a 5 Phase process and they combined phases 1 and 2 to speed it along.

## **The Nuremberg Code (1947)**

### **Permissible Medical Experiments**

The great weight of the evidence before us to effect that certain types of medical experiments on human beings, when kept within reasonably well-defined bounds, conform to the ethics of the medical profession generally. The protagonists of the practice of human experimentation justify their views on the basis that such experiments yield results for the good of society that are unprocurable by other methods or means of study. All agree, however, that certain basic principles must be observed in order to satisfy moral, ethical and legal concepts:

1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.
3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results justify the performance of the experiment.

After you pass this Bill, as a good start, please add ALL business in NH and take a more prominent role in educating people about the importance of metabolic health for natural immunity and then for those who do get sick, the immediate availability of Ivermectin, high dose vit D/calcifediol, hydroxychloroquine and Zinc, and steroid inhalers in addition to the prophylactic use of ivermectin and vit D for anyone working in a “frontline” position.

Respectfully Submitted,  
Victoria Gulla

Re: Please support amendment to SB155, to prohibit vaccine passports

Honorable Senators,

COVID vaccines and vaccine passports are not the way to protect public health. Let me briefly elucidate why:

1. Unlike traditional vaccines, the COVID vaccines are not designed for nor have they been scientifically proven to a) prevent infection or b) stop viral transmission. (1, 2). They are only designed to "reduce symptoms." Many doctors and scientists have been shouting about this not being a vaccine at all (it isn't, by any standard definition) (3). I would urge you to learn more and consider using your power to help initiate a lawsuit on behalf of the citizens of NH when you do.

2. The COVID vaccines are not FDA-approved as they are still in trials. They are only "authorized" under Emergency Use Authorization, which has a low bar for safety and efficacy. Under US and international law, no one can be forced to take this "vaccine." And it is against the Nuremberg Code. People should be free to take it or not take it, without public pressure or -- given the dangers -- any encouragement.

3. Traditional vaccines take between 7 and 10 years to develop for a very good reason. There is no way in God's Green Earth that any of the pharmaceutical companies can predict the possible side effects from this novel treatment that has taken less than a year to bring on line. Already the US Vaccine Adverse Events Reporting System (VAERS) has tallied, in relation to the COVID vaccines, over 3,100 deaths and over 86,000 injuries, including some that are irreversible (4). Significantly, VAERS is a passive and voluntary system and is notorious for underreporting events. Both the government and the mainstream press are not publicizing these deaths and injuries, and are dismissing any possible correlation with the vaccine without due process (like an independent investigative body). This is absolutely Orwellian, and those of us who are looking at all the data are frankly aghast at what is being pushed on an unsuspecting public.

4. Vaccines are notorious for stimulating viral shedding, which is the off-loading of viral particles in large quantities for a period of time after having been vaccinated. There have already been numerous emerging reports of people who are unvaccinated being affected by unusual symptoms when living or working near those who have received a COVID vaccine (5). I personally would not want to be anywhere near a person who was just vaccinated.

5. COVID-19 is not the killer that it was originally advertised to be. Over 99.75% of people survive, and that's in an atmosphere where highly effective medicines like hydroxychloroquine and ivermectin (6) (both of which can be taken prophylactically) have been suppressed and clinicians using them are still being censored. Estimates are that as many as 80% or more of patients could have been saved with early treatment -- yet this was precisely the opposite from guidance offered by the NIH and CDC. (7) Plus, given that most age groups are less susceptible to SARS-CoV-2 than to the flu, most do not need the vaccine, which as noted above carries greater risk than the virus itself.

6. The vaccine issue (with such things as vaccine passports under consideration) will quickly become a way to separate people -- from resources, jobs, opportunities, travel, you name it. We do not want a two-tiered society under any circumstances. Already around a third of US adults have said they would not take the vaccination, including a large number of healthcare workers -- they've been reading the studies and reports as well.

7. If vaccines actually work to prevent infection, then people who take them are by definition protected, and should not require anyone else to undergo a medical procedure.

Vaccines are not the answer. Good nutrition, Vitamins C and D (8), zinc, melatonin, glutathione and other nutrients have been shown to be highly effective for both prevention and treatment. And there are literally dozens of other treatments that are also extremely effective. Those at high risk from COVID may want to consider the vaccine and should have the freedom to do so, but that is not most people.

Thank you for listening and for your consideration of my request.

Regards,

John-Michael Dumais  
Keene

---

Dear NH House Executive Departments and Administration,

**I strongly urge you to please Support SB155**

Choosing to immunize is a personal decision individuals should make for themselves based on their health status, risk level, and other factors.

The government and the private sector should not be allowed to limit participation in society based on vaccination status. This is medical discrimination and a violation of our human rights.

Please help keep New Hampshire a free state! Thank you!

Sincerely,

Julia Beame

Dear All Members of House Executive Departments & And Administration:

I was encouraged to hear that the Senate has amended SB 155 to make it better, and the House amendment to prohibit vaccine passports in NH makes it an even more powerful step toward the liberties we have lost over the past year. It contains State of Emergency reforms that were promised last fall by Governor Sununu, these are in critical need. These reforms in no way impede his ability to a declare State of Emergency, but implements advice of legislative oversight. Because these Emergency reforms are tied to the budget, I believe that it is imperative the Senate pass the budget. The governor needs to understand that his actions have been in violation the Constitutional balance of powers during this past year. I urge you all to support and vote for the State budget "as is" without further amendment.

Sincerely & Respectfully

Russ Payne

Hello, Miriam,

This report is from a study committee on barriers to the childcare business environment. Can you please forward to all the ED&A cmt?

It was lead by Rep McWilliams, and had a total of 2 Dems & 2 Republicans. The recommendations included changes to the education components to certain childcare workers.

Many of us will recognize that some of these items have already passed our committee in previous legislation.

Thought this would help.

Best wishes,

Rep Kris Schultz

**Subject:** nongermane amendment to SB155  
**Importance:** Normal

---

I would like to voice my opposition to the nongermane amendment to SB155.

If local control and oversight is removed, who will enforce rules concerning occupancy numbers? Look at what just happened in Israel.

Parking requirements, bathroom and sanitary requirements, ADA requirements are all based on occupancy numbers, which will be increased if outdoor seating becomes permanent.

Will the State become responsible for oversight and enforcing an increase in these requirements if outdoor seating becomes permanent and local control is removed?

How will already burdened State agencies handle the additional workload?

As for the second part of this bill, there are already requirements to be vaccinated in place in this country. You can not send your child to a public school unless they have been vaccinated against certain diseases. How does it not make sense to require professional health care workers, police, fire, restaurant, cafeteria workers, or other workers who work with the public to be vaccinated to protect the health and lives of all that they come in contact with?

This bill would remove the ability of managers to require their employees to be vaccinated in order to protect vulnerable members of our society.

Thank You,

Nick Codner  
Chief Building Inspector  
Health Officer  
Town of Londonderry, NH

**Importance:** Normal

---

Dear Committee,

On behalf of the Greater Nashua Chamber of Commerce member businesses and the 58,000 workers they employ, I write to oppose the non-germane amendment to SB 155 that basically says "no entity that gets taxpayer money via a contract with the state or political sub-division can mandate Covid vaccine, nor can they require, or ask for "vaccine passports."

This is really bad for business in NH, especially our hospitals (who are major employers in this state). Let's kick this one to the curb, ladies and gentlemen.

**Subject:** A note in opposition to the nongermane amendment to SB155 on behalf of Londonderry

**Importance:** Normal

---

Good morning, Committee Members:

On behalf of the Town Londonderry, I write in opposition to the nongermane amendment to SB155 regarding outdoor dining for the following reasons:

The proposed new section 178:32 would permit expansion of outdoor dining “wherever an outdoor dining area can set up safely, such as parking spaces close to entrances, sidewalks, existing patios, lawn areas, or other appropriate areas.” This language fails to establish any framework for what constitutes “safe” or “appropriate” areas and who would make that determination.

Typically, non-residential uses are regulated by municipalities through their Site Plan Regulations, which is the process through which the safety and appropriateness can be reviewed and addressed. Failure to specifically state that the expansion of a non-residential use may require local review and approval in accordance with Site Plan Regulations lawfully adopted pursuant to RSA 674:43 would result in confusion and misunderstanding of the local authority over the expansion of outdoor dining.

It should be noted that many communities, like Londonderry, have adopted administrative or minor review processes in their Site Plan Regulations which allow for a modified or expedited review for minor site plan amendments such as expansion of outdoor dining, rather than a full site-plan review.

Thank you for your time and consideration.

Regards,

*Lisa M. Drabik*

We support amending SB 155 that adds prohibitions to requiring vaccine passports or any other documentation about vaccines in order to do business in NH. A requirement such as this clearly violates our US & NH constitutional rights for privacy. It is very scary to think that the government is using our medical information without our consent to track our actions and medical decisions. We understand that the NH Department of Health and Human Services is already asking vaccine providers to submit information to them about who has been vaccinated and who has refused vaccinations without obtaining consent from the people...this needs to be stopped immediately!!

Thank you,

I'm writing once again to ask that you support adding an amendment to SB155 that bans vaccine passports. First and foremost, research shows there are thousands of doctors throughout the world who agree to the potential harm this jab can cause. Even the CDC's own definition of a "vaccine" (to prevent one from getting a disease) does not fit this Covid inoculation (they declare, at best, it may "lessen the severity" of the virus). Any testing of it was rushed through a "vetting" process at a speed never before seen, thus it is "experimental", not proven safe nor effective. And, in order to "get" the jab, you need to sign away your rights to any harm caused by this experimental drug. What's to be done when citizens refuse to sign - forced inoculation? What country do we live in??? This is madness.

I'm a few months shy of 70 years old. I learned at a very young age how important personal responsibility is in every aspect of life - and that includes one's health decisions. I have never had a major health issue, have never been hospitalized in my life (not even for the birth of my two children); I take no drugs (and, yes, that includes pharmaceuticals); and I research every aspect of any health concerns that arise as I age. From my extensive research, I make my own health decisions WHICH IS MY RIGHT.

Please leave my health choices to me. I've done a splendid job so far.

PLEASE LIVE UP TO YOUR OATH OF OFFICE and protect your citizens' Constitutional and personal rights and freedoms. Thank you.

Gail Reno

Dear Neighbors,

Benjamin Franklin is quoted as having said, “Those who would give up essential liberty, to purchase a little temporary safety, deserve neither liberty nor safety.”

Do we really want to live in a country, or a state, where people are asked to “show me your papers”?

Do we really want to give up our liberty, so we can “protect” ourselves from a flu virus that is over ninety-nine percent survivable?

This “Vaccine passport” would open the door to a very “slippery slope”. What might be next?

Showing your clean “STD passport” before entering a bar, or logging onto an online dating site.

Showing your employer your clean “Substance abuse and mental health passport” prior to your job interview.

Wouldn’t these new protocols, and many others like it, keep us all safer, and save lives?

What ever happened to common sense, personal responsibility and good judgement?

We don’t need the government, private business or anybody else to “take care of us”. We can take care of ourselves.

Our representatives can best serve us, by protecting and defending our Constitution.

The authors of this timeless document had faith in God, and the American people.

They knew that tyranny came from government, not from the governed, which is why they put so many checks and balances on the government.

They were wise to limit the power of government, and we would be wise to continue to do so.

Say NO to “Vaccine passports”.

Please add an amendment to SB 155 that bans vaccine passports in NH!

It’s an infringement on our liberty, and an attack on our freedom!

Sincerely,

Michael Petruzziello  
Wolfeboro, NH

Those of us who choose not to accept the experimental vaccine should not be relegated to "second-class citizen" status. A vaccine passport would limit our access to the same restaurants and to the same jobs as those who have been vaccinated.

This is America! Not communist China!

To whom this all does concern,

As a resident of the State of New Hampshire I urge all to Ban these experimental shots that are being called "vaccines" and the passports that follow. I am an individual who protects thier own body from harm especially from shots that I am not fully aware/or disagree of what is going into my body and now as a mother I have many more concerns. We should always have the right to choose what goes in our bodies and for our children. The fact that Government/Health officials believe they have the right to choose for us is complete overreach of our rights and liberties and HAS to be stopped. My families life has already been turned upside down with all the restrictions put on this State by our Governor who does not work for the people. I want my children to enjoy their elementary years socializing and learning with friends. Masking children is abuse and mentally has destroyed so many of them. Majority of the World knows the truth behind this man-manipulated virus and the plan behind it. Globalist will do anything to control us and we can not stand by any longer. We have thieves playing power games in this Nation and it is only hurting us more. We need individuals within our State of New Hampshire to fight for our Constitution and destroy it. Stop the lies and allow our State to thrive like it once did. We need better people running our State

Stop these passports and stop pushing the experimental shot. People are tired of being manipulated with all the lies " life will go back to normal when you get the shot" it is utter bullshit. Needs to stop. Let our people be free of this.. no more deaths from these shots. Support this ammendment of SB155..

We must never let history repeat itself.

This vaccine passport is reminiscent of Nazi Germany and threatens to dehumanize those who don't have their 'papers'. We must never allow the federal, state or local government the right to dictate what medical treatment one decides for him/herself. There is risk with vaccines and therefore one must be able to weigh that risk for themselves. Please refer to the inserts of this new "gene therapy".

See attachment below. Look at pages 5, 6, and 11 for starters.

<https://www.fda.gov/media/144637/download>

This is only in trial phase still. You must remember that.

Dear all Honorable House Members of the N.H. Executive Departments:

I am happy to support SB 155 as the Senate has amended it. Thank you. It indeed has widespread support from citizens, a true representation of the people. Here I offers support FYI that reveals the hazards of Forced vaccination. I urge you to oppose it.

Federalist Senior Editor Chris Bedford warned of **corporate enterprises forcing** the American public into compliance with vaccine passports on Fox News Wednesday night as the federal government leaves the effort up to the private sector.

Vaccine passports, Bedford said on "Tucker Carlson Tonight" as New York has **already pursued their own**, aim to push those hesitant to accept the experimental vaccine as "second-class citizens who don't have access to the same restaurants, who don't have access to the same job."

I ask you to further support amending SB 155 that bans vaccine passports. Such laws as are in affect in the State of New York remind me of Nazi Germany where limitation of travel by the totalitarian state was enforced by , "Your papers please."

Sincerely & Respectfully

Russ Payne      Merrimack , NH 03054 Tel # 603-365-4966

To Whom It May Concern:

I am writing to ask that you support the SB155 bill with the amendment that states no person or businesses shall be able to force the American people to get vaccinated, show vaccine passports or other forms of identification regarding their personal health. I strongly believe if our country continues down this path of forcing and mandating vaccinations and/or passports or other forms of identification it is violating our human rights, the HIPPA laws and our great nations Constitution where our forefathers fled this type of tyranny to have their freedoms.

I have been a resident of New Hampshire for the past 43 years and love that New Hampshire has always had conservative, commonsense values. I do not wish to see our conservative, commonsense values continued to erode.

Thank you for your time.

Sincerely,  
Pamela L. Borisko

Miriam,  
I'm not sure what you're asking. Are you looking for the minutes to reflect why the non-germane amendment was not introduced at the scheduled time? If so, your suggested sentence is fine. I'm not sure I'm understanding your request, though. I've never explained why other bills were delayed beyond their scheduled time.  
Let me know, of course, if I'm not getting this.  
John Sytek

I believe the Public Hearing first remarks were on the Senate Bill (SB 155) at 1:00 p.m.;

Then at 1:05 p.m. the Chairman opened the PH on the non-Germane amendment. Your minutes cover the non-germane amendment.

**\*\*Could you or Chairman McGuire, provide a brief sentence that would cover the 1:00 p.m. public hearing/ introduction of SB 155 for the Bill file records please.**

Email is fine, I will add it to the beginning of the draft minutes.

Thank-you,

Miriam

**Subject:** Please support the amendment to SB 155 & Ban Vaccine Passports

**Importance:** Normal

---

Good afternoon,

Please support the amendment to ensure vaccine passports will never be considered in NH. Vaccine passports have no place in democratic society and will serve only to segregate society, create further divisiveness, and lead to a surveillance state where medical privacy and bodily autonomy no longer exist. The very idea of a vaccine passport is abhorrent.

In the current situation, it is even more troubling as this concept is being introduced in response to a virus that has a risk similar to that of the flu and does not present an emergency. There are multiple, effective, outpatient treatments for Covid-19; cases and deaths have plummeted and the virus is now endemic throughout the world. The idea that there is even a need for everyone to get vaccinated is simply false. Much of the population has had and recovered from Covid, giving them durable and excellent immunity that cannot be improved by vaccines. Another very large proportion of the population is at very low risk of Covid complications, and together, neither of these groups has any great need of a vaccine.

These vaccines are still in phase 3 of their trials, they have not undergone the formal animal testing phase, their effectiveness at preventing transmission or infection is not fully known, they are causing large numbers of deaths and severe adverse effects which should be investigated, and there is no long term safety data. All of these considerations should, at a minimum, indicate caution in their use and they should never be forced upon anyone.

Bodily autonomy is one of the most important rights we have as individuals. The government should never force, coerce, or manipulate us into undergoing medical procedures. Unfortunately that is already happening as businesses and schools are ignoring federal law that explicitly forbids employers and others from requiring vaccination with an emergency authorized vaccine as a prerequisite for employment, services, or entry (it should be noted that "others" includes all other entities, not only employers). I personally know of several people who were pressured or threatened with job loss or poor performance reviews if they did not take the vaccine. Because of this pressure, most of them went on to get the vaccine - even though they didn't want it, were at very little risk, and some were quite ill afterward. This is not how America is supposed to operate. You'd expect stories like this - of a government forcing its citizens to take experimental drugs or follow draconian rules with no scientific basis in someplace like Russia or China, but not here. As a country, and as a state, we are heading down a very dangerous path of authoritarianism and censorship, where the rule of law and bodily autonomy no longer apply.

In the face of these grave issues, our public health system and government have failed us terribly. We need to remove one-man rule in our state and ensure that the branches of government are all fully open and operating as they should. The governor should not be allowed to continue as a de facto dictator and we need legislation to ensure that the government represents and serves the people, and most importantly, we need legislation to ensure that medical decisions and personal health information are controlled by the individual, without pressure, coercion, or manipulation.

Sincerely,  
Barbara Gladders

We need a solid amendment that protects INDIVIDUAL LIBERTY !

This vaccine passport is reminiscent of Nazi Germany and threatens to dehumanize those who don't have their 'papers'. We must never allow the federal, state or local government the right to dictate what medical treatment one decides for him/herself. There is risk with vaccines and therefore one must be able to weigh that risk for themselves. Please refer to the inserts of this new "gene therapy".

See attachment below. Look at pages 5, 6, and 11 for starters.

<https://www.fda.gov/media/144637/download>

This is only in trial phase still. You must remember that.

Thank you ,

Dear Representatives:

**I am writing to you today to urge you to support the amendment to SB155!**

As a long-time citizen of NH, I do not support my hard-earned tax money going to businesses who violate my medical privacy. I also do not support these businesses being allowed to discriminate against their hard-working employees OR their patrons who chose not to get a vaccine.

As a society, it has always been agreed that there are private businesses that do NOT have the right to discriminate, and that INCLUDES against those who refuse particular medical interventions.

Some have tried to argue the “no shirt, no shoes no service’ policy. However, this is not even close to the same! Wearing shoes or a shirt does not pose a medical risk to anyone. Vaccines do in fact pose a medical risks to many and the courts have long upheld that medical risk cannot be forced on anyone else. The choice to take medical risks is always a personal choice that should not be taken lightly!

Our government must also not be allowed to mandate a vaccine or a vaccine passport. We all have human rights that apply to all parts of society and we all have the RIGHT to bodily autonomy as a HUMAN right. No one should be allowed to force me to put something in my body that I do not want. Vaccine passports are

an extremely dangerous invasion of one's personal and medical privacy. Again, this is a personal choice one must make regarding their OWN body. This amendment essentially strengthens the HIPAA laws and allows one's PRIVATE medical information to remain just that, PRIVATE, as it should be.

Thank you for your attention to this matter!

Tammy Cates

NH Resident

**Subject:** SB155

**Importance:** Normal

---

SB155 seems perfectly logical towards a NH state Covid and/or other pandemic response in the future. However the added amendment from Rep. Baxter seems illogical. As it stands now, Covid vaccines and passports are not mandatory. No one is demanding NH residents get vaccines. There is no coercive process. No one is being forced to get a vaccine. There is no requirement that a NH resident receive a vaccine or possess a passport. This is a moot point. The amendment should be scrapped from the bill.

Sincerely,  
Marie Straiton  
Pembroke resident

**Subject:** Support SB155  
**Importance:** Normal

---

Dear Representatives:

I am writing to request you to support the amendment to SB155. I have been a NH resident for my entire life and a consistent voter since the age of 18. I strongly object to my hard-earned tax money going to businesses who desire to violate my medical privacy. I do not support business being allowed to discriminate against their hard working employees or their patrons by requiring them to get a vaccine. As a society, business/companies are not allowed to discriminate against cultural minorities, handicaps, women, sexual orientation or gender identity, why then may I ask is it acceptable to discriminate individuals who make independent decisions regarding their own personal health and well-being?

Vaccines do pose a medical risk to many and the courts have long upheld that medical risk cannot be forced on anyone. The choice to take medical risks is always a personal choice that should not be taken lightly or forced. Our government MUST NOT be allowed to mandate a vaccine or a vaccine passport. It is every American's human right to bodily autonomy. The government has no right to control what I chose to do with my body or health. Therefore, vaccine passports pose an extremely dangerous threat to our personal freedom and liberty as Americans. LIVE FREE OR DIE!!!!

I personally resent the idea of my private medical information being available to the public. I have personally experienced that most people are becoming increasingly comfortable with asking question regarding other's private medical information. I find this extremely disturbing! This amendment essentially strengthens the HIPPA privacy laws and allows one's private medical information to remain as it should be - PRIVATE. Not the government nor a man on the street has the right to force me to put something into my body that I do not desire. I support every individuals choice to chose whether or not to get the Covid vaccine. Your personal decision regarding this matter should not result in discrimination either way. Please support American's freedoms!!!

I so appreciate your attention to supporting this amendment.

Charity Stearn  
NH Resident

**Subject:** Proposed Amendment to SB 155 summer camps  
**Importance:** Normal

---

For our consideration based on our discussion during yesterdays meeting.

SB 155 starting at P6 Line 8: **Include the summer of 2021 incase any are effected this year.**

7 New Subdivision; Local Land Use Planning; Protection of Pre-existing, Non-conforming Use Status for Summer Camps. Amend RSA 674 by inserting after section 73 the following new subdivision:

Protection of Pre-existing, Non-conforming Use Status for Summer Camps

674:74 Protection of Pre-existing, Non-conforming Use Status for Summer Camps.

I. Notwithstanding any provision of law or municipal ordinance or regulation to the contrary, any summer camp that has been operating in the state of New Hampshire as a preexisting,

nonconforming use under its applicable zoning ordinance that either closed for the summer(s) of 2020 **and/or 2021** due to the COVID-19 pandemic, or was forced to operate for a shorter season or at a reduced

capacity during the summer(s) of 2020 **and/or 2021** due to the COVID-19 pandemic, shall not lose its status as a

pre-existing, non-conforming use due to either:

(a) Its failure to operate during the summer(s) of 2020 **and/or 2021**; or

(b) Its operation for a shorter season or at a reduced capacity during the summer(s) of 2020 **and/or 2021**.

II. The summer camp's status or ability to operate as a pre-existing, non-conforming use shall not be in any way affected by its failure to operate during the summer(s) of 2020 **and/or 2021**, or its operation

for a shorter season or at a reduced capacity during the summer(s) of 2020 **and/or 2021**.

SB 155 starting at P8 Line 20: **Repeal the summer camp section at the end of 2021**

I have one question concerning repealing this. If this section is repealed will the camps lose their grandfathering after December 31, 2021 even if they were closed or operated at reduced capacity during the summers of 2020 and/or 2021 due to COVID? I don't know how this sort of thing is interpreted by the courts but OLS should know. Only include the repeal if we are sure that they will keep the grandfathering into the future.

10 Prospective Repeals. The following are repealed:

I. RSA 310-A:1-h, relative to emergency licensing procedures.

II. RSA 318:37-a, relative to out-of-state pharmacies temporarily licensed as mail-order facilities.

III. RSA 178:32, relative to temporary expansion of outdoor dining.

**IV. RSA 674:74, relative to the protection of Pre-existing, Non-conforming Use Status for Summer Camps**

11 Effective Date.

I. Paragraphs I and II of section 10 of this act shall take effect January 31, 2022.

II. Paragraph III of section 10 of this act shall take effect December 31, 2023.

**III. Paragraph Iv of section 10 of this act shall take effect December 31, 2021.**

**IV.** The remainder of this act shall take effect upon its passage.

[2021\\_05\\_16 Support Amendment #2021-1443h to SB-155.pdf](#) 

---

Dear members of the House Committee on Executive Departments and Administration:

My name is John Garrison, and I am a registered voter domiciled at 194 Elm Street in Lancaster, New Hampshire.

I am writing to ask for your support for Amendment #2021-1443h coupled with SB-155. No one should be subjected to any form of discrimination and this includes being discriminated against based on their vaccination status. We are protected by the Constitutions of the United States and the State of New Hampshire and other Federal and State laws from the most common acts of discrimination toward individuals, including discrimination based on: the individual's sex, gender, race, skin color, age, ethnicity, religion, sexual orientation, and even political affiliation.

Many people across the Granite state may be likely to decline vaccines like the COVID-19 vaccine for conscientious, religious, and/or medical reasons, not to mention those who have not yet been able to obtain the vaccine. Without the exemption provisions this amendment (#2021\_1443h) coupled with SB-155 provides, the notion of a vaccine passport could easily lead to a class system in New Hampshire; segregation and discrimination will proliferate.

This is a matter of freedom. We the people have the right to choose to do what we feel is best for our own body and we must be protected from any consequences or hardships for choosing one way or the other. The afore-mentioned constitutions grant U.S. citizens the rights of life, liberty, and the pursuit of happiness. The life of an individual should be in the hands of the individual. And the choices they make relative to their health care must remain private!

Our legislators have a responsibility to protect Granite State citizens from government overreach and the responsibility to prohibit practices in the private sector that subject Granite Staters to discrimination when going about their daily lives.

Sincerely,

*John A. Garrison*

**Subject:** Please support the Amendment to SB155!  
**Importance:** Normal

---

Dear Representatives,

Thank you for all your hard work protecting our Constitution and our freedoms this session in particular. It is essential to the health of our State and our Democratic Republic that we continue to support freedom here in New Hampshire.

It is shameful that there are representatives amongst us who believe it is okay to remove freedoms to protect "everyone" from a virus with a 99.7% survival rate. It's absurd, really. This "pandemic" has proven to be more dangerous to the health and vitality of our State and Country than to any individual trying to not get sick. If we were really trying to keep people healthy via legislation, it makes more sense to legislate a ban on Dunkin' Donuts, McDonald's and Coca-Cola rather than a ban on freedom to avoid an experimental injection.

I am sure other citizens of this state have shared this list, but I will share it again. The amendment to SB155 is essential and needs to be passed. Be on the right side of history!

- 1) Taxpayer money should NOT go to businesses who violate medical privacy or discriminate against employees or patrons who choose not to inject themselves with ANYTHING, let alone an experimental injection that might have severe consequences in the future.
- 2) Human rights apply to all parts of society and bodily autonomy is a HUMAN RIGHT!
- 3) As a society, we have long determined that even private businesses do not have a right to discriminate against anyone, and that includes people who choose not to inject themselves with something that is known in every aspect of science to cause illness and disability in a percentage of people who receive it, or those who refuse any other medical intervention.
- 4) You know this is not the same as "no shirt, no shoes, no service." Wearing shoes does not pose a medical risk. Injections DO pose a medical risk and courts have long upheld that we cannot force medical risk on anyone.
- 6) Vaccine passports are a dangerous invasion of personal and medical privacy. You know they would open the door to not just medical tyranny, but other forms of social discrimination as well. This amendment to SB155 is essentially a strengthening of HIPAA laws already on our books.

Remember the Trials that took place in the second half of the 1940s - I know a lot of people have been referencing that time period recently, some casually and with disrespect, but history repeats itself if we don't learn from it. Forcing injections on people has been tried in the past and it didn't go well in the end for the people who said they were "just doing their jobs."

Again, thank you for protecting the Citizens of our State, and our Country.

Respectfully,

Melissa White

Dear Members of the Committee,

Just hearing the words "vaccine passport" makes me shutter. I thought issues regarding health were personal and private? The entire concept of a Vaccine Registry and Vaccine Passport flies in the face of the most basic of freedoms. As a former State Representative from Manchester, NH Ward 10, I beg you remain steadfast and committed to protecting our citizens against such an outrageous concept. Thank you for your due diligence and hard work in these times.

Sincerely,

Hon. Barbara J. Hagan

Dear ladies and gentlemen, I would like to include my voice to the many who are against a vaccine passport. The whole idea of requiring a passport to shop, attend a concert or just do anything is the scariest thing I've ever heard. It reminds me of Germany or Russia and the need to have papers on you at all times, making people live in fear. It would give too much power to people who may want to abuse it. This country and this state are teetering on the edge of becoming socialist or worse. Please vote to keep our freedoms and don't give into fear. Requiring a vaccine passport is the slipperiness of all slopes and should not become law.

thank you all

Thank you committee members, for making common sense and American freedoms part of SB 155. I am an independent career scientist & leader, and have researched these issues deeply with my medical friends and peers due to some exceptional family situations.

I fully support a BAN on vaccine passports - and mandates - especially at universities (where they are completely unnecessary if you actually follow the published peer-reviewed science).

Minimize the authority of DHHS to add vaccines to any schedule of requirements. Experimental vaccines should NEVER be mandated under any circumstances!

And yes, any state registry should be optional...though I don't believe one is needed at all.

I served 32.5yrs on active duty, and have been horrified at how fear has been used to mislead people. There's a long history of nonpartisan published, peer-reviewed science - including in epidemiology & infectious disease - supported by many recent studies from true experts, that show the folly and detrimental impacts of many erroneous policies pushed out if fear during the last year.

Thank you for the amendments to improve this bill!

Dear Hon. Members of the House Exec. Dept and Admin,

I am writing you to pass SB 155 with its amendment to ban vaccine passports.

Each generation of American leadership has faced it's opportunity to end discrimination or propagate it. We've seen TOO many times where we have failed. Please do not go the way of those have failed us in the past. Discrimination in any form is absolutely abhorrent. Please ensure discrimination can't begin in this state by supporting the ban of vaccine passports. The NH State Constitution guarantees the Right to Privacy. This amendment will uphold that right.

Protect human rights to be equal. There are NO exceptions to this principle. I implore you to do the right thing and pass SB 155 with the amendment.

Thank you,  
Noelle Taku

I am writing in support of a vaccine passport **BAN**. What happens to those Americans who have had covid? Natural immunity via exposure through infection produce more robust immunity to covid than any vaccine. Further, there have been doctors who are advocating for “screen before vaccine” for anyone who has had covid due to the negative effects of the vaccine on those who have had covid.

Moreover, how would a passport work? Would Americans be required to show their very personal medical documents proving either prior infection or vaccination every time they enter a business? On a personal note, I have taken a T-detect test which shows that I have t-cell immunity to covid. Do I need to bring this paper showing that I have natural immunity to covid, negating the need for vaccination, and present it to anyone asking for proof? This has the stink of totalitarianism. Show me your papers or else....doesn't this sound familiar? Nazi Germany comes to mind with this sort of thing.

If the vaccines work, then everyone who wants the vaccine is able to get it. They are protected. There is no need to force a vaccine on anyone who doesn't want one, which includes those of us who have already naturally acquired immunity through exposure “in the wild”.

Anything short of a total **BAN BY EVERY BUSINESS AND GOVERNMENT ENTITY** will result in a fascist state in NH. Period. Full stop. If a business can prevent someone from shopping simply because they don't “show their papers” then in effect, they are acting as a proxy for the government. This must be prohibited by law.

Please do the right thing for NH. A **VACCINE PASSPORT BAN** must be passed. Thank you.

Best,

Dear Representatives,

Please support Representative Roy's Amendment to SB 155-FN.

This amendment will help to ensure that no citizen will ever have to “show me your papers” in NH!

No government, corporation, business owner or individual has the right to determine how others live their lives, period.

If we are to remain a free state, and Nation, we the people must have freedom.

True freedom is necessarily self determined, anything less is not freedom.

Our brilliant founders declared that we, "are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness."

Requiring "Vaccine Passports", for any reason, is antithetical to our beloved Declaration of Independence.

It would be the first step in destroying our freedom, and bowing to tyranny.

Please pass this amendment.

Thank you.

Sincerely,

Michael Petruzziello

Wolfeboro

**Importance:** Normal

---

Please ban vaccine passports. Having to have a vaccine passport to go places is the upmost form of discrimination. It further divides people as well as takes away the rights to go or not go someplace. I actually feel it borders on what the Germans did in the second world war. No matter which side of the fence your beliefs are, everyone has the right to live their life freely and as they choose. That is what America is all about.

Thank you.

I have been isolated by the State of Emergency for over a year now. I experienced a serious sinus infection and the typical bronchitis that befalls me after a one hour masking while I underwent eye surgery. I was sick for 2 weeks. I have successfully managed my allergies and asthma ,which I first experienced at the age of 4, by being mindful of germs and what I put in my body. My doctor of 35 years is very aware of how fast the onset of a bronchial episode can affect me. He has told me not to get a vaccine that has not even gone through FDA testing.

Do I become a recluse because I can't mask or vaccine? So far yes. Do I have to move to Florida or Texas in order to go to the store again ? Do I claim Disability status because my body isn't politically correct? I wish my body on you..

Good afternoon,

I am writing to ask that an amendment be added to SB 155, banning vaccine passports statewide.

These COVID shots are experimental gene therapy, not vaccines. They do not provide immunity. Given that the survival rate from the virus in most individuals is around 99.6%, one wonders why it is necessary to conduct mass inoculations, especially with such fervor. The PR campaign behind the virus has me asking more questions – what is this shot all about, really, and why is everyone supposed to take it?

Why can't people take responsibility for their health and build their own immune systems? Isn't New Hampshire the Live Free or Die state?

Given the fact that vaccine companies have ZERO liability for their products causing harm or even death (Vaccine Injury Act of 1986, signed into law to protect vaccine companies from lawsuits by vaccine-injured patients), coupled with the 2012 Supreme Court ruling that vaccines are "unavoidably unsafe," it is unconscionable to force people to get injected with substances against their will. Especially when those products could do irreparable harm to individuals.

Who would assume responsibility for injured individuals? The state of New Hampshire? Courts have long upheld that we cannot force medical risk on anyone, even criminals.

The right to bodily autonomy is a recognized human right. Please do the right thing and ban vaccine passports statewide.

Thank you!

Sincerely,

Kim Nagy, a new resident of New Hampshire.

**Importance:** Normal

---

Hello,

I would like to support the Amendment to HB 155 that bans vaccine passports in NH. Some facts to consider:

\* None of these things are authorized vaccines, but emergency granted medical treatments. The FDA has not studied them and they fall under the Nuremberg Laws for experimental procedures, i.e. you cannot pressure consent to them.

\*Even asking if you have been vaccinated violates the HIPPA laws about questioning a person for medical status. Both HIPPA and Nuremberg are legal liabilities for the state, when people are denied something because they have no vaccine passport.

\* Two of these are merely genetic treatments, not vaccines at all. They use Messenger RNA to change the DNA in some of your cells to replicate proteins they never were designed to. This is such a radical technique it is irresponsible to urge it, unstudied for long term effects, into general use.

\*Vaccine Passports create a medical "caste system", where the new "Untouchables" cannot travel, buy and sell, get insurance, go to events or restaurants, etc. Are the unvaccinated supposed to live only in certain areas, have no jobs, and exist by charity alone?

This is not right, it is not just, it is not American.

Especially considering a virus that has a 99.99% chance of not killing anyone that gets it.

Korac MacArthur  
Rochester, NH

As a taxpayer and citizen of NH, please support the language to ban vaccine passports. There is an inherent sovereign right of our bodies. Healthcare is protected information. Please keep it this way. As signatories to the Nuremberg Code, this country acknowledges the paramount importance of informed consent. We have a human right to say no to medical treatments and should not be subjected to a two tier medical human status.

Thank you for your attention.

Dear Committee Members,

Please vote in favor of the bill to ban vaccine passports in all NH businesses. It has been a long time since this country has tolerated segregation or discrimination and it would be unthinkable to regress back to that point now. Everyone should be free to make the medical decisions that are best for themselves and their family. Those decisions should never be public knowledge and no one should be persecuted and turned into a second class citizen because of them.

Thank you so much for your time and service.

Karen Koenig  
Rochester, NH

---

I, John Mooney of Northfield,NH, have signed up to speak on this bill. I have decided to submit written testimony as I do not have the ability to be there in person nor the means to video conference. The following is the written testimony I wish to submit:

Vaccine passports? - Papers Please! ... to travel, to shop, to eat, to attend community activities, to obtain medical care. This is not acceptable!  
It is an abrogation of every citizen's God given rights and an affront to the Constitution. The Law of The Land!  
The Constitution cannot be abolished for temporary safety.

What of our rights to privacy with our medical information?  
Is HIPPA now to become an old fashioned relic?

What of our rights against discrimination?  
I will never accept these experimental mRNA containing, gene altering, non tested drugs. They ARE NOT a vaccine.  
If vaccine certificates, databases, tracking apps, ie:vaccine passports become the rule, I will be relegated to a 2nd class of citizen and segregated from normal society.  
I will be unable to pursue life, liberty and happiness. Heck. I'm worried that I will not even be able to shop for food!

What of our rights to free association and unrestricted travel The Constitution reinforces and guarantees?  
Will we have Nazi Germany like check points on our streets? Will vaccine passport enforcers be allowed to demand I show "My papers" as I walk down the street?  
Will I not be allowed to attend family gatherings or attend church on Sunday?

History shows us that whenever government takes away our rights they are never given back as they were.  
This is an affront to every NH citizen. It's not a political issue. It's a humanitarian issue no matter on which side of this issue you stand.  
I urge this amendments passing. Not to do so will set tyranny in motion. It WILL come back to haunt us all if you deny NH citizens their rights.

Thank you for your time.  
J.M. Northfield, NH resident.

**Importance:** Normal

---

Please add the amendment to BAN vaccine passports.

It's unacceptable to restrict the rights of individuals based on their personal health decisions or vaccine status. It's even more egregious to discriminate against those who refuse to receive an experimental vaccine that's not even FDA approved, has documented safety concerns, and for which there is basically no recourse in the event of injury or death.

The CDC, which issues official guidance that's quickly adopted at all levels of government and by the private sector, is now making recommendations to loosen lockdown measures and grant certain privileges to those who have received the COVID-19 jab. Those who don't get it, including individuals who are known to be at risk of harm from the vaccine, are being denied such privileges. **This is medical segregation/apartheid at the behest of an agency that's heavily influenced by pharmaceutical industry interests. Such a practice does not belong in a free society and is reflective of Nazi-era government efforts to segregate "inferior" or "diseased" members of society who were eventually confined or exterminated.**

Please stand with your constituents and ban vaccine passports.

Thank you

I address you as a very concerned citizen.

Historically NH has been a beacon for individual liberties. This current legislation would ensure that we stay on this straight path for ourselves and future generations.

Covid 19 and its endless governmental overreach to negatively impact small businesses along with individual freedoms does not need another nonsensical regulation.

DO NOT allow NH to fall into a rabbit hole.

Pass SB 155 which would make illegal any attempt at regulating people's individual freedoms guaranteed by our beloved Constitution.

Robert Acciani

**Importance:** Normal

---

Dear NH House Executive Departments and Administration Committee,

**I strongly urge you to please support [Amendment 1468h](#) to SB 155.**

**It is completely unacceptable to allow the government or the private sector to limit participation in society in any way based on vaccination or immunity status. This would be discrimination and an appalling violation of our basic human rights.**

**Vaccination or immunity status is private health information and should continue to be protected by law. No patient's immunization or vaccination information should be entered into an immunization registry without the explicit, written, opt-in consent of the patient, or the patient's parent or guardian.**

The choice to immunize is a personal decision individuals should make for themselves based on their health status, risk level, and other factors.

**Please remember that for every testimony you receive from a citizen you represent, there are many others that feel the same way.**

Please help keep New Hampshire a free state! Thank you!

Sincerely,

Julia Beame

Oral Testimony to House Executive Departments And Administrations Committee:

Chair and Members of Committee:

My name is Russ Payne from Merrimack. Thank you for serving our state and thank you for this opportunity to share.

I come before you today to ask your support of SB 155 plus the late Amendment 1468H concerning the ban on Vaccine Passports. Why would NH with a state motto, "live free or die" want to follow the example of Governor Cuomo of NY? Washington warned us against this type of control because of the nature of government: "Government is not reason, It is not eloquence; like fire, it is a dangerous servant and a fearful master." Human nature has not changed but the moral climate has become more detrimental to liberty. Vaccine passport discrimination is an initial step to limiting the mobility of the people, it has often been a tool of the would be totalitarian state. Best we take the advise of Patrick Henry's words: "Let us not rest our liberties on the assumption that our leaders will be virtuous."

This Amendment 1468H touches me deeply for it essentially makes it against the law to discriminate against individuals based on Vaccination status. At 84, a Vaccine Passport law such as New York has, would force me to be vaccinated. I am one who has many fears of vaccine. For instance there are no clinical tests available for the Pfizer vaccine for Wuhan until April, 2023. It is a fact that those who take the vaccine, are the clinical trial.

Further, my fear of vaccine comes from my allergy to seven different medicines, 4 of which put me in the hospital. Add to this the chronic fatigue I have suffered in numerous 2 to 3 week durations over the past several years from tick borne illnesses: babesia, borellia, Rocky mountain spotted fever and tick borne relapsing fever, all of which are similar to lyme's disease.

Medical freedom is essential to liberty. For the medical history of every citizen is unique. A one size all solution is not only dangerous to our liberty, it is a danger too many individuals who have unique medical issues who desire to travel. I urge your support of SB 155 with Amendment 1468H.

Thank You.

Russ Payne

Vaccine passports promote classism and discrimination throughout the state. Not only does it violate confidentiality laws under HIPAA, but showing paperwork before entering a store to purchase goods is the inverse of "Live Free or Die". Being required to show proof of vaccination for a vaccine that has not completed its full testing is not only ridiculous, but dangerous. Improving my education at a private or public college should never be hindered by ever-changing requirements. Lastly, giving people the choice to assess their own risks and respond as they see appropriate is a fundamental concept that our constitution is built upon.

Dear Members,

I am in strong favor of SB 155 and its Amendment 1468h.

New Hampshire is the Live Free or Die state. We thrive on individual freedom and have contempt for government over reach and encroachment on our personal and private lives.

A vaccine passport is unconstitutional and gross abuse of power. A citizen of this state should never be asked to provide ANY private, personal health care information to ANYONE. I thought HIPPA laws were already in place to protect against this! What is going on? If a government can force someone to reveal their covid 19 vaccination status( aka experimental biological gene therapy) then what next? This is yet another first step veiled with good intentions that becomes a snowball of privacy demolition.( remember the NSA?) A doctor or religious exemption shouldn't even be required to forego a vaccine. I'm constantly being told "my body, my choice" right? If someone wants to get the injection and wear a mask, I cannot force them not to. If I choose to reject the injection and not wear a mask, don't force me to.

Thank you very much for supporting this bill.

Please also

- end the State of Emergency in NH now. Governor Sununo has dictated by fiat for far too long.
- end any and all mask mandates outdoors and indoors- everywhere- both in government and private businesses. It is a violation of the First Amendment and Free expression. Again, first force the mask wearing, then what?

Autonomy in America is sacrosanct. We are not a communist, collective society. At least not yet.

Regards

Nancy Palmer

To Whom It May Concern:

It is my understanding that Amendment to SB 155-FN will be heard tomorrow. Unfortunately, I am unable to testify in person because of the time of the Zoom and conflicts with my job. I have read the Amendment and feel strongly that this needs to be approved!

I am still in utter disbelief at what has and is still happening in our country and in our state. It is inconceivable that our government and CDC have made a new rule that allows people who are vaccinated to be mask free but people who are not vaccinated to continue with the mask mandate and that businesses have the right to force these regulations!

The thought of vaccine passports is extremely scary to me and makes me think of past history mistakes that were made like segregation in this country and the Jewish people in Nazi Germany when they were made to wear arm bands with the Star of David to be identified. Your health information is between you and your physician ALONE and IS NOBODY'S BUSINESS!

Please I implore you all to pass this well written amendment to protect our freedoms. Thank you for your time and consideration.

Sincerely,  
Pamela L. Borisko

---

Dear Esteemed Representatives,

Please vote in favor of the amendment to ban vaccine passports that would be added to SB 155. We are the Live Free or Die state and many of us are afraid that we are slowly becoming a state that will no longer be free. We are protected by HIPPA laws for our medical information. My 18 year old daughter had to sign a "permission" slip so I could access her medical records. A vaccine passport enables ANYONE to see a portion of our medical information. I can see a huge class action lawsuit in the making if NH requires vaccine passports. It is crucial that we lead the way in freedom!

Sincerely,  
Donna Beatrice

I am in support of SB155. Each citizen's health records should be personal and private. No one has the right to invade that privacy. The vaccines being offered are not FDA approved drugs. There is risk in taking drugs that have not been fully verified and validated for safety. Each drug I see that is approved comes with a long list of potential complications, but drugs under the emergency use authorization does not have that list yet. Further, there is great debate about the current effectiveness of covid treatments. If the virus is treatable, the emergency use authorization is not even needed. From the FDA:

Under section 564 of the Federal Food, Drug, and Cosmetic Act (FD&C Act), when the Secretary of HHS declares that an emergency use authorization is appropriate, FDA may authorize unapproved medical products or unapproved uses of approved medical products to be used in an emergency to diagnose, treat, or prevent serious or life-threatening diseases or conditions caused by CBRN threat agents when certain criteria are met, including there are no adequate, approved, and available alternatives.

Currently available treatments are available, especially for most people under 50.

Do not make me give up my right to privacy of my healthcare. Implement SB155.

---

Dear Executive Department and Administration Committee,

I am in support of legislation prohibiting vaccine mandates in NH. For every person medical decisions are a private matter already weighted with factors such as age, previous health history, and mental well being. To have these decisions influenced by fears of job loss, social ostracization, and fear of reprisal is reprehensible.

I ask NH to stand by the principles of liberty, and to trust your citizens.

Best regards,

Janine Johnson

Ban Vaccine Passport:

I wish to register my support for the amendment 1468h which would ban the use of a vaccine passport in NH.

Allowing the health bureaucracy to assume police power, plus guilty until proven innocent... a bridge too far.

Dear ED& A committee members,

Please find attached and copied and pasted testimony relative to SB 155 amendment 2021-1468h. I appreciate your due diligence as it relates to supporting further considerations on this bill. It may be just one of the most important bills of the session.

Thank you for your service.

 **AMENDMENT 2021-1468h to SB 155**

Linda Rea Camarota, RN

Bedford, NH

May 17, 2021

To: House ED&A committee members

From: Linda Rea Camarota, RN

Re: **Amendment 2021-1468h related to SB 155**

Dear honorable committee members:

I will be calling in to testify personally on this important amendment.

### **Testimony in Favor of Amendment**

I come before you in full support of Amendment 2021-1468h. The past 14 months have turned our worlds upside down and we now have the opportunity to reflect on the actions taken in attempt to mitigate the impact of the pandemic. Many actions resulted in positive outcomes and some will have unintended consequences. The learning curve has been significant and now we are here to rebalance our families, communities, and state.

I want to address 3 areas of utmost concern:

1. **Human rights/Discrimination:** No emergency authorized medical product (CV-2 injection) can be mandated (**21 US Code § 360bbb3**). As an astute observer/researcher of this matter, it is understood that the FDA has not officially approved the CV-2 injection. It has only authorized it under "emergency authorization use". Any form of a "vaccine passport" that would technically discriminate on the basis of public accommodations seems ill-advised. The amendment addresses discrimination beginning on page 1, line 13. A passport infringes upon the **Americans Disability Act, and the First and Fourth Amendments.**
2. **Medical privacy rights** are valued by most. I, as a registered nurse and instructor, have instilled in my students the legal obligations and consequences for violating the HIPAA law (Health Insurance Portability Accountability Act). Such privacy rights must be honored.

Society should not be divided into the 'those vaccinated' and 'those not.' It is not right. It is divisive. The amendment does highlight healthcare workers and their employer. "Direct threat" is defined beginning page 2, section b, line 10.

3. **Communicable Disease; Immunization Registry** page 3, lines 5-10. **Opt-in v. Opt-out. Informed consent** is a wise approach in the medical field. Patients expect physicians and pharmaceutical manufacturers, for example, to itemize potential risks and benefits when proposing surgery or medications. Have you listened to a TV ad marketing a new biologic drug. Sometimes the side effects sound scarier than the diagnosis. A vaccine registry with an opt-out mechanism has a high probability of the health care provider not spending the time with the patient explaining the registry and the sharing of immunization records. Opt-out is not an acceptable policy. With an opt-in policy, the patient is assured that the provider explains the purpose and then the patient chooses to authorize or not. The government is not supposed to collect medical records of the citizens without informed consent. When schools and colleges require immunization records, the current process of retrieving the required records from the health care provider by the individual or parent and producing for the schools works well.

I appreciate your time and consideration of my concerns. Please go one step further and support this amendment. I do believe NH citizens will appreciate your thoughtfulness and respect for their cherished rights.

I'd be happy to take any questions.

Respectfully submitted,

Linda Rea Camarota, RN Bedford, NH

---

Dear Members of the Committee,

I'm submitting the following two studies. They are the first studies of their kind that show a significantly greater risk of having severe outcomes from the Covid-19 shot if the patient was previously immune. Across the board mandates, whether the mandates come from government or an employer, is a public health hazard. We have numerous laws governing public health hazards, and while I don't believe it is the government's job to protect people's safety, it is their job to protect their human rights, one of which is informed consent to medical procedures that carry risk. If an employer requires the Covid-19 shot for all employees, they ignore they are doing a disservice to public health by only forcing risk, with no benefit, on a large portion of the population who is already immune.

I urge you to pass this amendment.

Sincerely,

Rep Melissa Blasek

---

Dear committee members,

We are writing to respectfully ask that you vote to support SB155 as passed by the Senate with the amendment. Included in this bill is a response to the Covid-19 pandemic and would make a vaccine requirement prohibited along with immunity passports. We urge passage of this bill.

Thank you.

**Subject:** Ban Vaccine Passports! Please Support Amendment 1468h to SB 155  
**Importance:** Normal

---

Dear NH House Executive Departments and Administration Committee,

**I strongly urge you to support [Amendment 1468h](#) to SB 155.**

**It is completely unacceptable to allow the government or the private sector to limit participation in society in any way based on vaccination or immunity status. This would be discrimination and a violation of our basic human rights.**

**Vaccination or immunity status is private health information and should continue to be protected by law. No patient's immunization or vaccination information should be entered into an immunization registry without the explicit, written, opt-in consent of the patient, or the patient's parent or guardian.**

The choice to immunize or not is a personal decision individuals should make for themselves based on their health status, risk level, and other factors.  
A vaccine passport would create a medical caste system. We can't have that.

Please help keep New Hampshire a free state! Thank you!

Sincerely,

David Cope  
Hancock, NH
