the bill OUGHT TO PASS WITH AMENDMENT.**

Rep. Maureen Mooney

FOR THE COMMITTEE

COMMITTEE REPORT

Committee:	Election Law
Bill Number:	SB 43
Title:	(New Title) authorizing an audit of the Rockingham County district 7 state representative race.
Date:	March 10, 2021
Consent Calendar:	CONSENT
Recommendation:	OUGHT TO PASS WITH AMENDMENT 2021-0780h

STATEMENT OF INTENT

As amended, this bill authorizes and directs a forensic election audit of the ballot counting machines and their memory cards, as well as the hand tabulation of ballots and *certain races* in the general election held in town of Windham on November 3, 2020. The audit process shall be determined by a forensic election audit team with the purpose of generating a report which will include a finding as to whether the machine counting devices and memory cards functioned properly on November 3, 2020, and recommendations for improvement to the machine and hand processing. The audit process shall include running all ballots through the counting machines used by the town of Windham on November 3, 2020, determining the total ballots cast, counted and received from the Secretary of State, and a hand tallying of all ballots cast in the Rockingham County District 7 state representative race and two statewide races. The audit shall be live-streamed, and provisions are included in the amended bill for selecting the location, as well as transporting and securing the ballots. The bill gives the necessary authorization to unseal the ballot boxes, and makes clear the audit results shall not alter the official results of the Rockingham County district 7 state representative race. The audit is to be completed in 45 days from the bill's effective date, and the forensic election audit team report must be filed with the Secretary of State, town of Windham, and Ballot Law Commission 45 days after the completion of the audit. Thereafter, a report of the Secretary of State and Attorney General shall be submitted to the Speaker of the House of Representatives, President of the Senate, and town of Windham. Additionally, the Ballot Law Commission is required to issue a report. The House Election Law Committee carefully listened to the people of Windham and from across the state to draft and adopt this amendment and unanimously approve the amended bill.

Vote 20-0.

Election Law

SB 43, (New Title) authorizing an audit of the Rockingham County district 7 state representative race. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Maureen Mooney for Election Law. As amended, this bill authorizes and directs a forensic election audit of the ballot counting machines and their memory cards, as well as the hand tabulation of ballots and *certain races* in the general election held in town of Windham on November 3, 2020. The audit process shall be determined by a forensic election audit team with the purpose of generating a report which will include a finding as to whether the machine counting devices and memory cards functioned properly on November 3, 2020, and recommendations for improvement to the machine and hand processing. The audit process shall include running all ballots through the counting machines used by the town of Windham on November 3, 2020, determining the total ballots cast, counted and received from the Secretary of State, and a hand tallying of all ballots cast in the Rockingham County District 7 state representative race and two statewide races. The audit shall be live-streamed, and provisions are included in the amended bill for selecting the location, as well as transporting and securing the ballots. The bill gives the necessary authorization to unseal the ballot boxes, and makes clear the audit results shall not alter the official results of the Rockingham County district 7 state representative race. The audit is to be completed in 45 days from the bill's effective date, and the forensic election audit team report must be filed with the Secretary of State, town of Windham, and Ballot Law Commission 45 days after the completion of the audit. Thereafter, a report of the Secretary of State and Attorney General shall be submitted to the Speaker of the House of Representatives, President of the Senate, and town of Windham. Additionally, the Ballot Law Commission is required to issue a report. The House Election Law Committee carefully listened to the people of Windham and from across the state to draft and adopt this amendment and unanimously approve the amended bill. **Vote 20-0.**

Amendment to SB 43

1 Amend the bill by replacing all after the enacting clause with the following:

2

3 1 Purpose. Notwithstanding any provisions of law to the contrary, this act authorizes and
4 directs an audit of the ballot counting machines and their memory cards and the hand tabulations of
5 ballots regarding the general election on November 3, 2020 in Windham, New Hampshire of
6 Rockingham County district 7 house of representatives for the purpose of determining the accuracy
7 of the ballot counting devices, the process of hand tallying, and the process of vote tabulation and
8 certification of races.

9 2 Forensic Election Audit Team. A forensic election audit team shall be formed to complete the
10 audit described in section 3 and it shall be comprised of:

11 I. One person designated by town of Windham.

12 II. One person designated jointly by the offices of secretary of state and attorney general.

13 III. One person selected jointly by the designee of the town and the designee of the secretary
14 of state and attorney general.

15 3 Audit Process.

16 I. The audit process shall be determined by the forensic election audit team formed pursuant
17 to section 2, such that there is a determination as to whether the machine counting devices and
18 memory cards functioned properly on November 3, 2020, whether the number of ballots tallied by
19 hand in Windham and those tallied by hand by the secretary of state during the recount on
20 November 12, 2020 were the same as the number of ballots cast.

21 II. At a minimum the audit process referenced in section 1 shall include the following:

22 (a) All ballots shall be run through all the ballot counting machines used by the town of
23 Windham on November 3, 2020.

24 (b) Determine the total ballots cast, the total ballots counted, and total ballots received
25 from the secretary of state.

26 (c) A hand tallying of all ballots cast in Windham in the Rockingham County district 7
27 state representative race, the race for governor, and the race for United States senator.

Amendment to SB 43

- Page 2 -

1 III. The audit shall occur at a location other than in the town of Windham and other than
2 the customary places the secretary of state conducts recounts. The audit shall be live-streamed and
3 recorded. The facility chosen for the audit shall be sufficient to ensure live-streaming of the audit,
4 access for members of the public, security for the audit process, and overnight storage of the
5 machines and materials. Public access to the audit shall be granted in equal numbers to observe, as
6 is deemed appropriate by the fire marshal for the space under federal, state, and local laws and
7 regulations, including health and safety regulations, to the following 3 groups: Windham designees;
8 designees of the secretary of state and attorney general, and members of the public. The select
9 board of the town of Windham shall select the Windham designees, the secretary of state shall
10 determine a method for selecting the members of the public.

11 IV. Windham shall be responsible for transport of the machine counting devices used in the
12 general election on November 3, 2020 to the audit location and for the return of the devices to
13 Windham upon completion of the audit. The secretary of state and attorney general shall be
14 responsible for the transport of the ballots to the audit location and for the return of the ballots to
15 their storage site. The secretary of state and attorney general shall also be responsible for arranging
16 the security at the location where the audit occurs.

17 V. The secretary of state, attorney general, and the town of Windham shall provide the
18 election audit team whatever information or documentation the auditors require to perform the
19 audit.

20 4 Forensic Election Audit Team; Report Required. Within 45 days of the conclusion of the audit,
21 the forensic election audit team shall produce a report which shall include, but not be limited to, a
22 finding as to whether the ballot counting machines and memory cards accurately counted the ballots
23 subject to the audit, whether hand tabulation procedures followed by the town of Windham at the
24 general election and hand tabulation procedures followed by the secretary of state at the recount
25 may have contributed to variances reported at the recount done for the Rockingham County district
26 7 house of representatives race in Windham, and recommendations as to what improvements to the
27 machine processing and tabulation processes might be considered in the future. The report shall be
28 provided to the secretary of state, the town of Windham, and the ballot law commission. The report
29 shall be made available to the public forthwith.

30 5 Report Required; Secretary of State and Attorney General. Within 45 days of receipt of the
31 forensic election audit team's report required pursuant to section 4, the attorney general and
32 secretary of state shall issue a report to the speaker of the house of representatives, president of the
33 senate, and the select board of the town of Windham as to results of the audit and any resulting
34 recommendations.

35 6 Report Required; Ballot Law Commission. Within 45 days after receipt of the forensic election
36 audit team's report the ballot law commission shall, in accordance with RSA 656:41, issue a report as
37 to the performance of the ballot counting devices.

Amendment to SB 43

- Page 3 -

1 7 Authority to Unseal Ballot Boxes. The secretary of state and attorney general shall have
2 authority to unseal the ballot boxes in order to conduct the audit. The ballots shall be boxed and
3 sealed after the audit in accordance with the procedures of RSA 659:95.

4 8 Affirmation of Ballot Law Commission Ruling. The results of the audit shall not alter the
5 official results of the Rockingham County district 7 house of representatives race as determined by
6 the ruling of the ballot law commission on November 25, 2020, upholding the recount of that race.

7 9 Deadline. The forensic election audit shall be completed within 45 days of the effective date of
8 this act.

9 10 Effective Date. This act shall be effective upon passage.

SB 43, (authorizing an audit of the Rockingham County district 7 state representative race). **OUGHT TO PASS WITH AMENDMENT.**

Rep. Maureen Mooney for Election Law. As amended, this bill authorizes and directs a forensic election audit of the ballot counting machines and their memory cards, as well as hand tabulation of ballots and *certain races* in the Town of Windham November 3, 2020 general election. The audit process shall be determined by a Forensic Election Audit Team with the purpose of generating a report which will include a finding as to whether the machine counting devices and memory cards functioned properly on November 3, 2020, and recommendations for improvement to the machine and hand processing. The audit process shall include running all ballots through the counting machines used by the Town of Windham on November 3, 2020, determining the total ballots cast, counted and received from the Secretary of State, and a hand tallying of all ballots cast in the Rockingham County district 7 state representative race and two statewide races. The audit shall be live-streamed, and provisions are included in the amended bill for selecting the location, as well as transporting and securing the ballots. The bill gives the necessary authorization to unseal the ballot boxes, and makes clear the audit results shall not alter the official results of the Rockingham County district 7 state representative race. The audit is to be completed in 45 days from the bill's effective date, and the Forensic Election Audit Team report shall be due to the Secretary of State, Town of Windham, and Ballot Law Commission 45 days after audit completion. Thereafter, a report of the Secretary of State and Attorney General shall be submitted to the Speaker of the House of Representatives, President of the Senate, and Town of Windham. Additionally, the Ballot Law Commission shall issue a report. The House Election Law Committee carefully listened to the people of Windham and from across the state to draft and adopt this amendment and unanimously approve the amended bill. **Vote 20-0.**

Amendment to SB 43

1 Amend the bill by replacing all after the enacting clause with the following:

2

3 1 Purpose. Notwithstanding any provisions of law to the contrary, this act authorizes and
4 directs an audit of the ballot counting machines and their memory cards and the hand tabulations of
5 ballots regarding the general election on November 3, 2020 in Windham, New Hampshire of
6 Rockingham County district 7 house of representatives for the purpose of determining the accuracy
7 of the ballot counting devices, the process of hand tallying, and the process of vote tabulation and
8 certification of races.

9 2 Forensic Election Audit Team. A forensic election audit team shall be formed to complete the
10 audit described in section 3 and it shall be comprised of:

11 I. One person designated by town of Windham.

12 II. One person designated jointly by the offices of secretary of state and attorney general.

13 III. One person selected jointly by the designee of the town and the designee of the secretary
14 of state and attorney general.

15 3 Audit Process.

16 I. The audit process shall be determined by the forensic election audit team formed pursuant
17 to section 2, such that there is a determination as to whether the machine counting devices and
18 memory cards functioned properly on November 3, 2020, whether the number of ballots tallied by
19 hand in Windham and those tallied by hand by the secretary of state during the recount on
20 November 12, 2020 were the same as the number of ballots cast.

21 II. At a minimum the audit process referenced in section 1 shall include the following:

22 (a) All ballots shall be run through all the ballot counting machines used by the town of
23 Windham on November 3, 2020.

24 (b) Determine the total ballots cast, the total ballots counted, and total ballots received
25 from the secretary of state.

26 (c) A hand tallying of all ballots cast in Windham in the Rockingham County district 7
27 state representative race, the race for governor, and the race for United States senator.

Amendment to SB 43

- Page 2 -

1 III. The audit shall occur at a location other than in the town of Windham and other than
2 the customary places the secretary of state conducts recounts. The audit shall be live-streamed and
3 recorded. The facility chosen for the audit shall be sufficient to ensure live-streaming of the audit,
4 access for members of the public, security for the audit process, and overnight storage of the
5 machines and materials. Public access to the audit shall be granted in equal numbers, as is deemed
6 appropriate by the fire marshal for the space under federal, state, and local laws and regulations,
7 including health and safety regulations, to the following 3 groups: Windham designees; designees of
8 the secretary of state and attorney general, and members of the public. The select board of the town
9 of Windham shall select the Windham designees, the secretary of state shall determine a method for
10 selecting the members of the public. To avoid the appearance of impropriety, none of the designees
11 of any of the aforementioned 3 groups shall be:

12 (a) Connected with LHS Associates or others directly related to the sales or service of
13 the ballot counting devices;

14 (b) Election officials involved in the general election of November 3, 2020 held in
15 Windham, New Hampshire; or

16 (c) Election officials involved in the recount of the Rockingham County district 7 house of
17 representatives race on November 12, 2020.

18 IV. Windham shall be responsible for transport of the machine counting devices used in the
19 general election on November 3, 2020 to the audit location and for the return of the devices to
20 Windham upon completion of the audit. The secretary of state and attorney general shall be
21 responsible for the transport of the ballots to the audit location and for the return of the ballots to
22 their storage site. The secretary of state and attorney general shall also be responsible for arranging
23 the security at the location where the audit occurs.

24 V. The secretary of state, attorney general, and the town of Windham shall provide the
25 election audit team whatever information or documentation the auditors require to perform the
26 audit.

27 4 Forensic Election Audit Team; Report Required. Within 45 days of the conclusion of the audit,
28 the forensic election audit team shall produce a report which shall include, but not be limited to, a
29 finding as to whether the ballot counting machines and memory cards accurately counted the ballots
30 subject to the audit, whether hand tabulation procedures followed by the town of Windham at the
31 general election and hand tabulation procedures followed by the secretary of state at the recount
32 may have contributed to variances reported at the recount done for the Rockingham County district
33 7 house of representatives race in Windham, and recommendations as to what improvements to the
34 machine processing and tabulation processes might be considered in the future. The report shall be
35 provided to the secretary of state, the town of Windham, and the ballot law commission. The report
36 shall be made available to the public forthwith.

Amendment to SB 43

- Page 3 -

1 5 Report Required; Secretary of State and Attorney General. Within 45 days of receipt of the
2 forensic election audit team's report required pursuant to section 4, the attorney general and
3 secretary of state shall issue a report to the speaker of the house of representatives, president of the
4 senate, and the select board of the town of Windham as to results of the audit and any resulting
5 recommendations.

6 6 Report Required; Ballot Law Commission. Within 45 days after receipt of the forensic election
7 audit team's report the ballot law commission shall, in accordance with RSA 656:41, issue a report as
8 to the performance of the ballot counting devices.

9 7 Authority to Unseal Ballot Boxes. The secretary of state and attorney general shall have
10 authority to unseal the ballot boxes in order to conduct the audit. The ballots shall be boxed and
11 sealed after the audit in accordance with the procedures of RSA 659:95.

12 8 Affirmation of Ballot Law Commission Ruling. The results of the audit shall not alter the
13 official results of the Rockingham County district 7 house of representatives race as determined by
14 the ruling of the ballot law commission on November 25, 2020, upholding the recount of that race.

15 9 Deadline. The forensic election audit shall be completed within 45 days of the effective date of
16 this act.

17 10 Effective Date. This act shall be effective upon passage.

16 the security at the location where the audit occurs.

17 V. The secretary of state, attorney general, and the town of Windham shall provide the
18 election audit team whatever information or documentation the auditors require to perform the
19 audit.

20 4 Forensic Election Audit Team; Report Required. Within 45 days of the conclusion of the audit,
21 the forensic election audit team shall produce a report which shall include, but not be limited to, a
22 finding as to whether the ballot counting machines and memory cards accurately counted the ballots
23 subject to the audit, whether hand tabulation procedures followed by the town of Windham at the
24 general election and hand tabulation procedures followed by the secretary of state at the recount
25 may have contributed to variances reported at the recount done for the Rockingham County district
26 7 house of representatives race in Windham, and recommendations as to what improvements to the
27 machine processing and tabulation processes might be considered in the future. The report shall be
28 provided to the secretary of state, the town of Windham, and the ballot law commission. The report
29 shall be made available to the public forthwith.

30 5 Report Required; Secretary of State and Attorney General. Within 45 days of receipt of the
31 forensic election audit team's report required pursuant to section 4, the attorney general and
32 secretary of state shall issue a report to the speaker of the house of representatives, president of the
33 senate, and the select board of the town of Windham as to results of the audit and any resulting
34 recommendations.

35 6 Report Required; Ballot Law Commission. Within 45 days after receipt of the forensic election
36 audit team's report the ballot law commission shall, in accordance with RSA 656:41, issue a report as
37 to the performance of the ballot counting devices.

Amendment to SB 43

- Page 3 -

1 7 Authority to Unseal Ballot Boxes. The secretary of state and attorney general shall have
2 authority to unseal the ballot boxes in order to conduct the audit. The ballots shall be boxed and
3 sealed after the audit in accordance with the procedures of RSA 659:95.

4 8 Affirmation of Ballot Law Commission Ruling. The results of the audit shall not alter the
5 official results of the Rockingham County district 7 house of representatives race as determined by
6 the ruling of the ballot law commission on November 25, 2020, upholding the recount of that race.

7 9 Deadline. The forensic election audit shall be completed within 45 days of the effective date of
8 this act.

9 10 Effective Date. This act shall be effective upon passage.

Amendment to SB 43

1 Amend the bill by replacing all after the enacting clause with the following:

2

3 1 Purpose. Notwithstanding any provisions of law to the contrary, this act authorizes and
4 directs an audit of the ballot counting machines and their memory cards and the hand tabulations of
5 ballots regarding the general election on November 3, 2020 in Windham, NH of Rockingham County
6 District 7 House of Representatives for the purpose of determining the accuracy of the ballot
7 counting devices, the process of hand tallying, and the process of vote tabulation and certification of
8 races.

9 2 Forensic Election Audit Team. A forensic election audit team shall be formed to complete the
10 audit described in Section 3 and it shall be comprised of:

11 I. One person designated by town of Windham.

12 II. One person designated jointly by the offices of secretary of state and attorney general.

13 III. One person selected jointly by the designee of the town and the designee of the secretary
14 of state and attorney general.

15 3 Audit Process.

16 I. The audit process shall be determined by the forensic election audit team formed pursuant
17 to Section 2, such that there is a determination as to whether the machine counting devices and
18 memory cards functioned properly on November 3, 2020, whether the number of ballots tallied by
19 hand in Windham, and those tallied by hand by the Secretary of State during the recount on
20 November 12, 2020 was the same as the number of ballots cast.

21 II. At a minimum the audit process referenced in Section I above shall include the following:

22 (a) All ballots shall be run through all the ballot counting machines used by the Town of
23 Windham on November 3, 2020.

24 (b) Determine the total ballots cast, the total ballots counted, and total ballots received
25 from the secretary of state..

Amendment to SB 43

- Page 2 -

1 (c) A hand tallying of all ballots cast in Windham in the Rockingham County District 7
2 state representative race, the race for governor, and race for United States Senator.

3 III. The audit shall occur at a location other than in the town of Windham and other than
4 the customary places the secretary of state conducts recounts. The audit shall be live-streamed and
5 recorded. The facility chosen for the audit shall be sufficient to ensure live-streaming of the audit,
6 access for members of the public, security for the audit process, and overnight storage of the
7 machines and materials. Public access to the audit shall be granted in equal numbers, as is deemed
8 appropriate by the fire marshal for the space under federal, state, and local laws and regulations,
9 including health and safety regulations, to the following 3 groups: Windham designees; designees of
10 the secretary of state and attorney general, and members of the public. The select board of the Town
11 of Windham shall select the Windham designees; the secretary of state shall determine a method for
12 selecting the members of the public. To avoid the appearance of impropriety, none of the designees
13 of any of the afore-mentioned three groups shall be (i) connected with LHS Associates or others
14 directly related to the sales or service of the ballot counting devices; (ii) election officials involved in
15 the general election of November 3, 2020 held in Windham, New Hampshire; or (iii) election officials
16 involved in the recount of the Rockingham County District 7 House of Representatives race on
17 November 12, 2020.

18 IV. Windham shall be responsible for transport of the machine counting devices used in the
19 general election on November 3, 2020 to the audit location and for the return of the devices to
20 Windham upon completion of the audit. The secretary of state and attorney general shall be
21 responsible for the transport of the ballots to the audit location and for the return of the ballots to
22 their storage site. The secretary of state and attorney general shall also be responsible for arranging
23 the security at the location where the audit occurs.

24 V. The secretary of state, attorney general, and the town of Windham shall provide the
25 election audit team whatever information or documentation the auditors require to perform the
26 audit.

27 4 Forensic Election Audit Team; Report Required. Within 45 days of the conclusion of the audit,
28 the forensic election audit team shall produce a report which shall include, but not be limited to, a
29 finding as to whether the ballot counting machines and memory cards accurately counted the ballots
30 subject to the audit, whether hand tabulation procedures followed by the town of Windham at the
31 general election and hand tabulation procedures followed by the secretary of state at the recount
32 may have contributed to variances reported at the recount done for the Rockingham County District
33 7 House of Representatives race in Windham, and recommendations as to what improvements to the
34 machine processing and tabulation processes might be considered in the future. The report shall be
35 provided to the secretary of state, the town of Windham, and the ballot law commission. The report
36 shall be made available to the public forthwith.

Amendment to SB 43
- Page 3 -

1 5 Report Required; Secretary of State and Attorney General. Within 45 days of receipt of the
2 forensic election audit team's report required in Section 4, the attorney general and secretary of state
3 shall issue a report to the speaker of the house of representatives, president of the senate, and the
4 select board of the town of Windham as to results of the audit and any resulting recommendations.

5 6 Report Required; Ballot Law Commission. Within 45 days after receipt of the forensic election
6 audit team's report the ballot law commission shall, in accordance with RSA 656:41, issue a report as
7 to the performance of the ballot counting devices.

8 7 Authority to Unseal Ballot Boxes. The secretary of state and attorney general shall have
9 authority to unseal the ballot boxes in order to conduct the audit. The ballots shall be boxed and
10 sealed after the audit in accordance with the procedures of RSA 659:95.

11 8 Affirmation of Ballot Law Commission Ruling. The results of the audit shall not alter the
12 official results of the Rockingham County District 7 House of Representatives race as determined by
13 the ruling of the ballot law commission on November 25, 2020, upholding the recount of that race.

14 9 Deadline. The forensic election audit shall be completed within 45 days of the effective date of
15 this act.

16 10 Effective Date. This act shall be effective upon passage.

Sen. Ricciardi
Rep. Baldasaro

Sen. Avard
Sen. Giuda
Rep. Welch

Sen. Bradley
Rep. Piemonte

TESTIMONY

* Use asterisk if written testimony and/or amendments are submitted.

***Senator James Gray** – Senator from District 6. Chairman in Senate on Election Law Committee.

We authorize audit for Rockingham County, District 7. It passed the Senate 24-0. We've taken this issue seriously. After there were a couple of things, members see some modifications. I endorse the bill.

***Ken Eyring:** I speak on behalf of many people.

I thank Senator Giuda who has worked to put finding solutions that our elections mean something. I thank SOS Gardner. I reached out to him alone. I thought it might be a different consensus, my concern might be derailed. I was very surprise with SOS. I spoke to him for 3 hours, very heartwarming. He did not want to create presedensce of recount after recount. I believe we have found a process for all concerns. Pleased Chairman Griffin is on board. Dr. Strang spent time also with the Senator for solutions. Huge discrepancies in Windham, different possibilities and reason. I thank Ross MacLeod, selectman. He's been wonderful.

Last Monday, whole select board is in agreement, as well as vendors. Issue everyone's on board. **What we agreed on:**

- 1) All 4 Windham machines will be analyzed, a forensic full analysis. Group A, SOS, 3 people working. The forensic process will be an independent analysis. SOS and Windham provide information, whatever necessary, full access to Accu-machines from the 2020 ballots.
- Audit location – Police Training facility in Concord. There's lots of cameras, can set up transparency.
- Forensic Team report to the SOS – who will give information to the public. All Windham ballots counted of the 4 Accu-machines, paper ballots compared with each other in Rep race.

- Hand count will be performed on 2 races, state reps race. All paper ballots be made available, full forensic of all ballots and machines.
- Colonel Waldron available audit with 45 days, Joe ??. Paper expert, impeccable qualifications. Senator Giuda, Dr. Strang ability to be present, up close, confident of transparent process and thorough. I was really pleased with conversation with SOS, to find out what happened to our machines on November 3rd.

Question: Rep Lane – Is this a bill? I came in late.

Answer: Representative Griffin – General overview, specifics what will be done. Amendments not worked out. The committee after hearings on Amendments is probably appropriate. Given the issues, some thought SB-43 would be sufficient so committee needs if to amend.

Question: Rep Lane – Did I hear the goal of Windham machines work properly? What if machines are fine, but still have discrepancies?

Answer: Mr Eyring spoke – My thought is to allow forensic, will find details. The General evaluates ballots throughout the country. Joe Ha___ looks at patterns. He has the ability and team work with General Waldron. These people have impeccable knowledge to check scanners, programs on machines, scan ballot 3rd party, technology to figure out the issue.

Question: Rep Cody – Bill before us has several amendments. Could Mr. Eyring help us with Amendments.

Answer: Representative Griffin – My hope given issue, the committee will be able to attend directly and be involved with process. Senator Gray has a further amendment or this committee can propose an Amendment.

Question: Rep Torosian – Question to the Chair. What we heard from Mr. Eyring is separate from the bill?

Answer: Rep Griffin – I think what is being proposed is a remedy to be performed by SB-43 or as amended.

Question: Rep Bergeron: I'd like to ask the previous speaker to submit in writing, does it include memory cards, give us a written summary?

Answer: from Rep Griffin – Leaving it to forensic team, will get details in writing.

Question: Rep K. Prudhomme-O'Brien – I was at the meeting in Windham to discuss this issue. I saw you were a leader, many people were looking to you for guidance. The committee made up of Windham Select Board, yourself. Are you representing this committee, come here today with what the committee has come up with?

Answer: I am here as a Windham resident. I know how important this is. I reached out to the SOS for guidance. I believe all issues are being addressed.

Secretary of State Gardiner:

I am especially pleased to support what Mr. Eyring has put together.

It emanates from the state senate the best interest for the people of Windham and people of NH. Senate created a road map, some people interested in flushing out how this will be done. What Mr. Eyring has presented is what is before us.

Question: Rep Torosian – Windham has elections next week. Do they have other memory cards?

Answer: Yes, everything is protected.

Question: Rep Prudhomme-O'Brien – Are they using different machines?

Answer: Yes, different ones.

Question: Rep Berry – Does your office have any idea what happened or are you in the dark about this and need this?

Answer: Unfortunately, I do not. I was going to talk about recounts. The answer is no, many recounts have been higher than this, if you go back. Generated concern and interest, hope we will have answers. This is an attempt to accomplish this.

Question: Rep Groen – From your testimony, do you reaffirm to fully support and implement this plan if we pursue it?

Answer: Yes.

Question - Rep Qualey – If we follow the plan by Mr. Eyring, if the focus is with the machines to see about 300 ballot discrepancies in rep race. If machines work properly, would more work to be done, will I know what caused it?

Answer: I certainly hope we will. I think this is the best and appropriate way to get there.

Question: Rep Qualey - Plan says no 2nd recount of Rockingham 7. If machines work properly, how do we get there?

Answer: This is not called in bill you have 2nd recount. It's called an audit and process Ken Eyring explained to you, hopefully everyone gets questions answered that are asked.

Question: Rep Prudhomme-O'Brien – The AG's office looking over what happens in this election, will that continue in concert with SOS?

Answer: Yes.

Question: Rep Prudhomme-O'Brien – Does this set any precedence concern you moving forward, the newness of this?

Answer: There have been multiple recounts in the past, a percentage difference of winners and losers, greater than this one, but this is different as only one candidate out of 8 on state ballot lost votes. All of the others gained that in combination of increased votes. Recount makes it unique, lot of concern, people feel strongly. This meeting in Windham gives lots of credit to Ken Eyring for bringing this up.

Question: Rep Berry – Does your office think a large percentage who are skeptical, this audit will alleviate concerns?

Answer: Yes.

Question: Rep Torosian – If the candidate hadn't asked for a recount for the state representative race, is it safe to say, we'd never be aware for potential problem of results?

Answer: I would think nothing would have happened. We make sure every person who served are the person who got most votes. The winners after recounts, those incidences end there. In my years, I have seen 6,000 recounts. 11 tie votes, 32 recount winning by 1 vote. In 2008 had recount in Windham state representative primary that 43- votes on election night. After recount 620 votes, far greater than this particular race. When we have over 6,000 people at a local level, can have human errors, not deliberate, but it happens.

***Senator Bob Giuda** – I'm here to reaffirm election integrity. One race disparity. 85% of state, accu-machines, the process is trusted. Existing law denied unexplained election. Affirmation today, sanctity and public trust. Heroic efforts by Dr. Strang and Ken Eyring.

Question: Rep Groen – Would it be your opinion, also support a plan that's supported by SOS?

Answer: I cannot speak for all, but I would. I think 24-0 show process and I am willing to advocate for this.

Keith Partington: I am the vice chair of Windham board of selectman. This is a very important issue to Windham and the board. I have not seen the proposal by Mr. Eyring. Charlie M____ and candidate Chrissy St. Laurent who asked for recount. We had public input last Monday night. We cannot focus audit solely on machines. What Mr. Eyring proposed without discussing with us. New proposal sounds more comprehensive, but have not seen, surely not solely on machines. Crucial new recount. Those additional count, give clarity. Windham BOS be up and close to see process, not sure we're on the information.

Question: Rep Bergeron – Mr. Partington, if you have sent the 11 points from the BOS, could you send it to Election Law Committee?

Answer: Rep Griffin – I am sure he can. I have it here. See Testimony.

Question: Rep Lane – To be clear, was there a bill you put together or points in a bill?

Answer: Rep Griffin – We received a bill last night, **Amendment 2021 0638H by McMann, Griffin, Soti, _**. I was just listed into the bill.

***Dr. David Strang – I'm from Gilmanton, working with Senator Giuda and Mr.Eyring.** It is imperative to investigate this. WE owe it not just to Windham, but all NH. 85% cities and towns use this machine, and people are shaken. Strongly support the SOS Gardiner's suggestions.

Chrissy St. Laurent: I am the candidate who asked for a recount. Mr. Eyring differs from Windham BOS. #29, line F, all counts hand count. Recounting by hand counting won't give problem the answer. I object. As SOB, Mr. Partington said, not pointing a finger, with machines, find discrepancies from recount, way to correct. Bill SB-43, line 11, SOS/AG conduct audit. That's what we're here to determine, stipulated in this bill, not who won the seat. I'm more interested in discrepancies that which 4 representatives. Soti last finished winner, that's fine.

I want to find out discrepancies of machine ballots counted accurately, confidence in recount. I think SOS,Bill Gardner said could be mistakes. Respectfully ask committee to keep this in mind. Senator Giuda pointed out 85% state use these machines.

Question: Rep Lane – After recount, did you have legal counsel there.

Answer: No, I did not.

Question: Rep Lane – Documents you mentioned, are they able to be sent? . I apologize, have you met with ballot commission?

Answer: My only recourse was with Ballot Commission. I've submitted written testimony. They did establish Soti for seat, but no investigation.

Question: Rep Lane – I thought you said the local Windham groups have a copy of what you are referencing, 0688H?

Answer: That amendment came out from election integrity in Windham BOS, town concerns.

Tom Murray: I'm from Windham, subcommittee and I agree with St. Laurent. We did unanimous 3:3 vote on the 11 bullet points, actually incorporated in Amendment. They are a wish list of members from the public, BOS election committee took into consideration. Some misunderstanding with Mr. Eyring and SOS Gardiner if incorporated in points, forensic hand count. As outlined by Mr. Eyring, if this is incorporated, I would support this.

- I thank Miss St. Laurent, Dave Strang, Senator Giuda and the SOS office.

Deputy Scanlan: I just want to bring us full circle. This is a desire to get to the bottom of what occurred. What's proposed is a focus on machines, full forensic and a few other races to confirm all true. Elections in NH, all involve humans. Some difference can be determined by human error by double counting, ballots mishandled not malicious, it happens. Try to get as much information as can. We may never know. Let's try to work together with a process that will address the issue.

***Nicole Bottai – I work for the town of Windham.** We received over 1,000 emails, put all speculations into the amendment with bullets that are basic preservation of the ballot. In order to promote transparency, we put our heart and souls in this with utmost importance. Please consider the amendment with 11 points.

Question: Rep Prudhome-O'Brien – Were you at the recount and in your capacity, did you see anything amiss at this recount?

Answer: I wish I was there, but one moderator that is sitting with me now was there.

Peter Griffin: Moderator for Windham: I have been Moderator for 28 years. We are disturbed on what has happened. As part of the committed and the BOS , please adopt the Selectman's list to your Amendment.

***Rep Betty Gay – I did send an email.** As important as forensic study of machines, there's more to be done. 11 points of Windham to be studied, the 638 votes. I would like to make sure paper ballots be on check list.

- Title of this bill is incorrect.
- Important effects for all of us in state of NH, to do all parts of the process, don't stop with Forensic.
- Everything on ballot should be scanned and hand counted.

Betty Dunn: 2 sets of numbers at this point, we don't know which is correct. No one has found anything significance in paperwork, how many ballots went thru machines, how many handed out. They did count how many ballots counted, some were blank ballots. The blank ballots put back into box, sealed, not counted. For ballots 1-2-3-4 republican, democrat tallies, ballots not counted, sealed into box.

Question: Rep Prudhomme-O'Brien – Were you at recount? Notice anything significant?

Answer: Yes, I did not think anything a mistake, but distressed not counting all ballots. During this process, many different stacks of ballots on 4 tables. I became concerned so many stacks. I asked to stop, be aware of which piles are which so there be no error, risk of error, no labels.

Question: Rep Berry – How many people at recount in Windham, broad guess 50?

Answer: 40-50.

Question: Rep Prudhomme-O'Brien – How long have you been assistant moderator?

Answer: I have been assistant moderator for 20+ years

Mary Todd – I wanted to ask SOS question. Auditor using forensic, not confident of SOS/AG? See further testimony.

Alvin See- I am in full support of HB-43 and agree with process that Mr. Eyring to do audit process due to 300 vote discrepancy.

***Kelley Potenza – I've always lived in NH except for 4 years** and know it is concerting what Deputy Scanlan said. We may not never know. No room for error. Pass the 11 points. This is beyond. I have hand delivered over 1,500 signatures to you. We have served the AG papers, made phone calls. We have been ignored, but Ken Eyring and Senator Giuda want all this to be done.

I will send my written testimony. We have done hundreds of hours.

Rep Love: We need to restore confidence, prove what happened. I want it amended for the whole ballot.

Question: Rep Joe Sweeney – Do you know which machine fed absentee ballots?

Answer: That question was taken up by the moderator and the assistant moderator. They went to all machines.

Statement Rep Groen – I asked this question before proposing the SOS supports, ballots run thru all 4 machines. I think the whole ballot needs to be addressed.

Lisa Mazur – Rep Brian Soti's wife. I came from Canada, became a US citizen this year. My faith and belief have been shaken with the largest discrepancies in NH. Because of this forensic, I am terrified that my vote may be taken from me in 2022. The machines are owned by Dominion, of Canada. Deputy Scanlan, we need to have the answers. I'm a new citizen. I'm in full support of this bill.

Question: Rep Berry – Congratulations on becoming a US Citizen. You question about faith in our elections, less likely to vote?

Answer: Yes, I'm disgusted, don't even want to vote in 2022.

***Andrew Bridge: I did send in Testimony on Wednesday.** I've always lived in NH, now live in Amherst, NH. Does my vote count here in NH, more work to be done to restore confidence. From SOS and Mr. Eyring, this is completely transparent, see all ballots. Look at forensic audit covers machine and ballots.

Rep Al Baldasaro: Rockingham, District 5, Londonderry. I am a co-sponsor.

I have full respect for SOS and Deputy. I was there for the recount, people were in and out. I will support whatever we need to do. I received Phone calls not just Windham, but when Derry machines broke, Nashua. Londonderry were not done until 4am. I hope we pass this.

Michael O'Brien: Lobbyist for America Votes. We support this.

Alex Dittami – Thank you for the professionalism Madam Chair and Committee. These machines have seen there day. Testimony given. You can follow up with Senate. A Proposal with SOS right on point. Forensic audit will give us answers, insight into machines, goes a long way in voting process in NH. I support this bill.

Question: Rep Torosian – You feel if we pass this legislation, that will satisfy your need to get to the bottom of this?

Answer: Absolutely. They can identify and not identify where problems – machines or programming a machine.

Joan Dargie: Executive city clerk, co-chair city and towns clerks – Basically support. ..address concern, agree with forensic. I did brief google. I don't know about a radio host or the retired colonel makes them experts. Caution we just don't use those names.

- I agree with Betty Dunn, received all kinds of phone calls. If machine count comes up with same count versus hand count. Most likely odd # recounting.
- Last, Rep Love of Milford, we have same absentees cast by independent and democrats put in one machine to process absentees, just like Windham.

***Sarah Ibanez – see written testimony.**

Question: Rep Bergeron – My main point, elections turned can be over human error. My concern, make sure any audit, look at machine, paperwork, memory cards. SOS guidance avoid similar to occur. i.e., Hudson 2 Dems losing by 37, lost in recounts. Mistakes due to human error, urge committee include all measures of counting.

***Albert Todd – see written testimony.** Live in Nashua. A US Navy veteran with pride.

Question: Rep Prudhomme-O'Brien: thank you for sharing your thoughts and serving our country.

Answer: I just bought property in Windham, resident of Nashua.

Healey: I'm Derry's town clerk and in support with the Windham amendment.

Rep Love mentioned absentees spread out thru machines.

Question: Rep Torosian – You said, came up with Windham ballots?

Answer: They did state thru machine. They did answer.

Question: Rep Prudhomme-O'Brien – In Derry, all absentees went thru one machine? Other communities do this?

Answer: Yes, nothing states all absentees have to go thru just one machine.

Question: Rep Lane – Some think this will be available to watch?

Answer: Yes, Windham TV, near the end the question came up.

Tina Guilford – Derry. 4,500-6,500 ballots were thru one machine, common practice only use up 1 machine, keeps lines to a minimum. End of the day all about the math. When SOS counts absentee, but when issue like this could be human error. Audit machine, hand count, run thru independent machines.

Rep Betty Gay – One thing needs, why would 1 of 4 ballot boxes be different? AB were spread out, but mostly were #2.

Deputy Scanlan; Secretary of State’s Office – I understand the strong emotions and they are justified. We want to find out what happened, but there are laws we have to follow. There are things to be done. I made a comment before, we may never know in context of the human portion. We can do an audit. If there is a human component, stack ballots twice by somebody. These are situations where issues may have been, most likely. If fraud, must go thru process for integrity in election process.

- We’re all on same lesson, proposal at beginning of hearing great place to start with SOS and Mr. Eyrling.

Question: Rep Cody – Is it true obligation machines or human problem?

Answer: Absolutely correct.

Question: Rep Torosian – Assume we make SB-43 law, what is your expectations, a date, to come to conclusion?

Answer: Once signed into law, within a couple weeks to get everything going. Contact forensic, and have plan move along as expeditiously as possible.

Hearing adjourned 3:15pm.

Respectfully submitted,
Representative Natalie Wells
Committee Clerk

ELECTION LAW PUBLIC HEARING

3-5-21

HB-43 (NEW Title) Authorizing an audit of the Rockingham County district 7 state representative race.

Open: 11:48am

- **Senator James Gray** – Senator from District 6. Chairman in Senate on Election Law Committee. We authorize audit for Rockingham County, District 7. It passed the Senate 24-0. We've taken this issue seriously. After there were a couple of things, members see some modifications. I endorse the bill.
- **Ken Eyring:** I speak on behalf of many people. I thank Senator Giuda who has worked to put finding solutions that our elections mean something. I thank SOS Gardner. I reached out to him alone. I thought it might be a different consensus, my concern might be derailed. I was very surprised with SOS. I spoke to him for 3 hours, very heartwarming. He did not want to create precedence of recount after recount. I believe we have found a process for all concerns. Pleased Chairman Griffin is on board. Dr. Strang spent time also with the Senator for solutions. Huge discrepancies in Windham, different possibilities and reason. I thank Ross MacLeod, selectman. He's been wonderful. Last Monday, whole select board is in agreement, as well as vendors. Issue everyone's on board.
- **What we agreed on:** 1) All 4 Windham machines will be analyzed, a forensic full analysis. Group A, SOS, 3 people working. The forensic process will be an independent analysis. SOS and Windham provide information, whatever necessary, full access to Accu-machines from the 2020 ballots.
- **Audit location** – Police Training facility in Concord. There's lots of cameras, can set up transparency.
- **Forensic Team report to the SOS** – who will give information to the public. All Windham ballots counted of the 4 Accu-machines, paper ballots compared with each other in Rep race.
- **Hand count will be performed on 2 races, state reps race.** All paper ballots be made available, full forensic of all ballots and machines.
- **Colonel Waldron available audit with 45 days, Joe _____.** Paper expert, impeccable qualifications. Senator Giuda, Dr. Strang ability to be present, up close, confident of transparent process and thorough. I was really pleased with conversation with SOS, to find out what happened to our machines on November 3rd.

Question: Rep Lane – Is this a bill? I came in late.

Answer: Representative Griffin – General overview, specifics what will be done. Amendments not worked out. The committee after hearings on Amendments is probably appropriate. Given the issues, some thought SB-43 would be sufficient so committee needs if to amend.

Question: Rep Lane – Did I hear the goal of Windham machines work properly? What if machines are fine, but still have discrepancies?

Answer: Mr Eyring spoke – My thought is to allow forensic, will find details. The General evaluates ballots throughout the country. Joe Ha___ looks at patterns. He has the ability and team work with

General Waldron. These people have impeccable knowledge to check scanners, programs on machines, scan ballot 3rd party, technology to figure out the issue.

Question: Rep Cody – Bill before us has several amendments. Could Mr. Eyring help us with Amendments.

Answer: Representative Griffin – My hope given issue, the committee will be able to attend directly and be involved with process. Senator Gray has a further amendment or this committee can propose an Amendment.

Question: Rep Tirosian – Question to the Chair. What we heard from Mr. Eyring is separate from the bill?

Answer: Rep Griffin – I think what is being proposed is a remedy to be performed by SB-43 or as amended.

Question: Rep Bergeron: I'd like to ask the previous speaker to submit in writing, does it include memory cards, give us a written summary?

Answer: from Rep Griffin – Leaving it to forensic team, will get details in writing.

Question: Rep K. Prudhomme-O'Brien – I was at the meeting in Windham to discuss this issue. I saw you were a leader, many people were looking to you for guidance. The committee made up of Windham Select Board, yourself. Are you representing this committee, come here today with what the committee has come up with?

Answer: I am here as a Windham resident. I know how important this is. I reached out to the SOS for guidance. I believe all issues are being addressed.

Secretary of State Gardiner: I am especially please to support what Mr. Eyring has put together. It emanates from the state senate the best interest for the people of Windham and people of NH. Senate created a road map, some people interested in flushing out how this will be done. What Mr. Eyring has presented is what is before us.

Question: Rep Tirosian – Windham has elections next week. Do they have other memory cards?

Answer: Yes, everything is protected.

Question: Rep Prudhomme-O'Brien – Are they using different machines?

Answer: Yes, different ones.

Question: Rep Berry – Does your office have any idea what happened or are you in the dark about this and need this?

Answer: Unfortunately, I do not. I was going to talk about recounts. The answer is no, many recounts have been higher than this, if you go back. Generated concern and interest, hope we will have answers. This is an attempt to accomplish this.

Question: Rep Groen – From your testimony, do you reaffirm to fully support and implement this plan if we pursue it?

Answer: Yes.

Question - Rep Qualey – If we follow the plan by Mr. Eyring, if the focus is with the machines to see about 300 ballot discrepancies in rep race. If machines work properly, would more work to be done, will I know what caused it?

Answer: I certainly hope we will. I think this is the best and appropriate way to get there.

Question: Rep Qualey - Plan says no 2nd recount of Rockingham 7. If machines work properly, how do we get there?

Answer: This is not called in bill you have 2nd recount. It's called an audit and process Ken Eyring explained to you, hopefully everyone gets questions answered that are asked.

Question: Rep Prudhomme-O'Brien – The AG's office looking over what happens in this election, will that continue in concert with SOS?

Answer: Yes.

Question: Rep Prudhomme-O'Brien – Does this set any precedence concern you moving forward, the newness of this?

Answer: There have been multiple recounts in the past, a percentage difference of winners and losers, greater than this one, but this is different as only one candidate out of 8 on state ballot lost votes. All of the others gained that in combination of increased votes. Recount makes it unique, lot of concern, people feel strongly. This meeting in Windham gives lots of credit to Ken Eyring for bringing this up.

Question: Rep Berry – Does your office think a large percentage who are skeptical, this audit will alleviate concerns?

Answer: Yes.

Question: Rep Tirosian – If the candidate hadn't asked for a recount for the state representative race, is it safe to say, we'd never be aware for potential problem of results?

Answer: I would think nothing would have happened. We make sure every person who served are the person who got most votes. The winners after recounts, those incidences end there. In my years, I have seen 6,000 recounts. 11 tie votes, 32 recount winning by 1 vote. In 2008 had recount in Windham state representative primary that 43- votes on election night. After recount 620 votes, far greater than this particular race. When we have over 6,000 people at a local level, can have human errors, not deliberate, but it happens.

***Senator Bob Giuda** – I'm here to reaffirm election integrity. One race disparity. 85% of state, accu-machines, the process is trusted. Existing law denied unexplained election. Affirmation today, sanctity and public trust. Heroic efforts by Dr. Strang and Ken Eyring.

Question: Rep Groen – Would it be your opinion, also support a plan that's supported by SOS?

Answer: I cannot speak for all, but I would. I think 24-0 show process and I am willing to advocate for this.

Keith Partington: I am the vice chair of Windham board of selectman. This is a very important issue to Windham and the board. I have not seen the proposal by Mr. Eyring. Charlie M_____ and candidate Chrissy St. Laurent who asked for recount. WE had public input last Monday night. We cannot focus audit solely on machines. What Mr. Eyring proposed without discussing with us. New proposal sounds more comprehensive, but have not seen, surely not solely on machines. Crucial new recount. Those additional count, give clarity. Windham BOS be up and close to see process, not sure we're on the information.

Question: Rep Bergeron – Mr. Partington, if you have sent the 11 points from the BOS, could you send it to Election Law Committee?

Answer: Rep Griffin – I am sure he can. I have it here. See Testimony.

Question: Rep Lane – To be clear, was there a bill you put together or points in a bill?

Answer: Rep Griffin – We received a bill last night, Amendment 2021 06388H by McMann, Griffin, Soti, ___. I was just listed into the bill.

***Dr. David Strang** – I'm from Gilmanton, working with Senator Giuda and Mr. Eyring. It is imperative to investigate this. WE owe it not just to Windham, but all NH. 85% cities and towns use this machine, and people are shaken. Strongly support the SOS Gardiner's suggestions.

Chrissy St. Laurent: I am the candidate who asked for a recount. Mr. Eyring differs from Windham BOS. #29, line F, all counts hand count. Recounting by hand counting won't give problem the answer. I object. As SOB, Mr. Partington said, not pointing a finger, with machines, find discrepancies from recount, way to correct. Bill SB-43, line 11, SOS/AG conduct audit. That's what we're here to determine, stipulated in this bill, not who won the seat. I'm more interested in discrepancies that which 4 representatives. Soti last finished winner, that's fine. I want to find out discrepancies of machine ballots counted accurately, confidence in recount. I think SOS, Bill Gardner said could be mistakes. Respectfully ask committee to keep this in mind. Senator Giuda pointed out 85% state use these machines.

Question: Rep Lane – After recount, did you have legal counsel there.

Answer: No, I did not.

Question: Rep Lane – Documents you mentioned, are they able to be sent? . I apologize, have you met with ballot commission?

Answer: My only recourse was with Ballot Commission. I've submitted written testimony. They did establish Soti for seat, but no investigation.

Question: Rep Lane – I thought you said the local Windham groups have a copy of what you are referencing, 0688H?

Answer: That amendment came out from election integrity in Windham BOS, town concerns.

Tom Murray: I'm from Windham, subcommittee and I agree with St. Laurent. We did unanimous 3:3 vote on the 11 bullet points, actually incorporated in Amendment. They are a wish list of members from the public, BOS election committee took into consideration. Some misunderstanding with Mr. Eyring and SOS Gardiner if incorporated in points, forensic hand count. As outlined by Mr. Eyring, if this is

incorporated, I would support this. I thank Miss St. Laurent, Dave Strang, Senator Giuda and the SOS office.

Deputy Scanlan: I just want to bring us full circle. This is a desire to get to the bottom of what occurred. What's proposed is a focus on machines, full forensic and a few other races to confirm all true. Elections in NH, all involve humans. Some difference can be determined by human error by double counting, ballots mishandled not malicious, it happens. Try to get as much information as can. We may never know. Let's try to work together with a process that will address the issue.

***Nicole Bottai** – I work for the town of Windham. We received over 1,000 emails, put all speculations into the amendment with bullets that are basic preservation of the ballot. In order to promote transparency, we put our heart and souls in this with utmost importance. Please consider the amendment with 11 points.

Question: Rep Pruddhome-O'Brien – Were you at the recount and in your capacity, did you see anything amiss at this recount?

Answer: I wish I was there, but one moderator that is sitting with me now was there.

Peter Griffin: Moderator for Windham: I have been Moderator for 28 years. We are disturbed on what has happened. As part of the committed and the BOS, please adopt the Selectman's list to your Amendment.

Rep Betty Gay – I did send an email. As important as forensic study of machines, there's more to be done. 11 points of Windham to be studied, the 638 votes. I would like to make sure paper ballots be on check list. Title of this bill is incorrect. Important effects for all of us in state of NH, to do all parts of the process, don't stop with Forensic. Everything on ballot should be scanned and hand counted.

Betty Dunn: 2 sets of numbers at this point, we don't know which is correct. No one has found anything significance in paperwork, how many ballots went thru machines, how many handed out. They did count how many ballots counted, some were blank ballots. The blank ballots put back into box, sealed, not counted. For ballots 1-2-3-4 republican, democrat tallies, ballots not counted, sealed into box.

Question: Rep Prudhomme-O'Brien – Were you at recount? Notice anything significant?

Answer: Yes, I did not think anything a mistake, but distressed not counting all ballots. During this process, many different stacks of ballots on 4 tables. I became concerned so many stacks. I asked to stop, be aware of which piles are which so there be no error, risk of error, no labels.

Question: Rep Berry – How many people at recount in Windham, broad guess 50?

Answer: 40-50.

Question: Rep Prudhomme-O'Brien – How long have you been assistant moderator?

Answer: I have been assistant moderator for 20+ years

Mary Todd – I wanted to ask SOS question. Auditor using forensic, not confident of SOS/AG? See further testimony.

Alvin See- I am in full support of HB-43 and agree with process that Mr. Eyring to do audit process due to 300 vote discrepancy.

Kelley Potenza – I've always lived in NH except for 4 years and know it is concerning what Deputy Scanlan said. We may not never know. No room for error. Pass the 11 points. This is beyond. I have hand delivered over 1,500 signatures to you. We have served the AG papers, made phone calls. We have been ignored, but Ken Eyring and Senator Giuda want all this to be done. I will send my written testimony. We have done hundreds of hours.

Rep Love: We need to restore confidence, prove what happened. I want it amended for the whole ballot.

Question: Rep Joe Sweeney – Do you know which machine fed absentee ballots?

Answer: That question was taken up by the moderator and the assistant moderator. They went to all machines.

Statement Rep Groen – I asked this question before proposing the SOS supports, ballots run thru all 4 machines. I think the whole ballot needs to be addressed.

Lisa Mazur – Rep Brian Soti's wife. I came from Canada, became a US citizen this year. My faith and belief have been shaken with the largest discrepancies in NH. Because of this forensic, I am terrified that my vote may be taken from me in 2022. The machines are owned by Dominion, of Canada. Deputy Scanlan, we need to have the answers. I'm a new citizen. I'm in full support of this bill.

Question: Rep Berry – Congratulations on becoming a US Citizen. You question about faith in our elections, less likely to vote?

Answer: Yes, I'm disgusted, don't even want to vote in 2022.

Andrew Bridge: I did send in Testimony on Wednesday. I've always lived in NH, now live in Amherst, NH. Does my vote count here in NH, more work to be done to restore confidence. From SOS and Mr. Eyring, this is completely transparent, see all ballots. Look at forensic audit covers machine and ballots.

Rep Al Baldasaro: Rockingham, District 5, Londonderry. I am a co-sponsor. I have full respect for SOS and Deputy. I was there for the recount, people were in and out. I will support whatever we need to do. I received Phone calls not just Windham, but when Derry machines broke, Nashua. Londonderry were not done until 4am. I hope we pass this.

Michael O'Brien: Lobbyist for America Votes. We support this.

Alex Dittami – Thank you for the professionalism Madam Chair and Committee. These machines have seen there day. Testimony given. You can follow up with Senate. A Proposal with SOS right on point. Forensic audit will give us answers, insight into machines, goes a long way in voting process in NH. I support this bill.

Question: Rep Tiroasian – You feel if we pass this legislation, that will satisfy your need to get to the bottom of this?

Answer: Absolutely. They can identify and not identify where problems – machines or programming a machine.

Joan Dargie: Executive city clerk, co-chair city and towns clerks – Basically support. Address concern, agree with forensic. I did brief google. I don't know about about a radio host or the retired colonel makes them experts. Caution we just don't use those names. I agree with Betty Dunn, received all kinds of phone calls. If machine count comes up with same count versus hand count. Most likely odd # recounting. Last, Rep Love of Milford, we have same absentees cast by independent and democrats put in one machine to process absentees, just like Windham.

Sarah Ibanez – see written testimony.

Question: Rep Bergeron – My main point, elections turned can be over human error. My concern, make sure any audit, look at machine, paperwork, memory cards. SOS guidance avoid similar to occur. i.e., Hudson 2 dems losing by 37, lost in recounts. Mistakes due to human error, urge committee include all measures of counting.

Albert Todd – See written Testimony. Live in Nashua. A US Navy veteran with pride.

Question: Rep Prudhomme-O'Brien: thank you for sharing your thoughts and serving our country.

Answer: I just bought property in Windham, resident of Nashua.

Healey: I'm Derry's town clerk and in support with the Windham amendment. Rep Love mentioned absentees spread out thru machines.

Question: Rep Tirosian – You said, came up with Windham ballots?

Answer: They did state thru machine. They did answer.

Question: Rep Prudhomme-O'Brien – In Derry, all absentees went thru one machine? Other communities do this?

Answer: Yes, nothing states all absentees have to go thru just one machine.

Question: Rep Lane – Some think this will be available to watch?

Answer: Yes, Windham TV, near the end the question came up.

Tina Guilford – Derry. 4,500-6,500 ballots were thru one machine, common practice only use up 1 machine, keeps lines to a minimum. End of the day all about the math. When SOS counts absentee, but when issue like this could be human error. Audit machine, hand count, run thru independent machines.

Rep Betty Gay – One thing needs, why would 1 of 4 ballot boxes be different? AB were spread out, but mostly were #2.

Deputy Scanlan – I understand the strong emotions and they are justified. We want to find out what happened, but there are laws we have to follow. There are things to be done. I made a comment before, we may never know in context of the human portion. We can do an audit. If there is a human component, stack ballots twice by somebody. These are situations where issues may have been, most likely. If fraud, must go thru process for integrity in election process. We're all on same lesson, proposal at beginning of hearing great place to start with SOS and Mr. Eyring.

Question: Rep Cody – Is it true obligation machines or human problem?

Answer: Absolutely correct.

Question: Rep Tiroasian – Assume we make SB-43 law, what is your expectations, a date, to come to conclusion?

Answer: Once signed into law, within a couple weeks to get everything going. Contact forensic, and have plan move along as expeditiously as possible.

Closing 3:15pm.

Respectfully submitted,

Representative Natalie Wells

House Remote Testify

Election Law Committee Testify List for Bill SB43 on 2021-03-05

Support: 459 Oppose: 0 Neutral: 4 Total to Testify: 29

TESTIMONY

SB 43

1 of 4

Scanned Testimony

PART I

12 Emails

Dear Representatives,

I am writing to you today as an NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide critical answers to all of the questions and concerns Windham Town Election Integrity Committee has raised.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state. I believe that my VOTE does not matter or counted in the election of 2020. It's hugely saded me as well! My vote has not mattered! Because I have not voted until "2016" "2020" in my fifty years of life.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Joanne Carrier

DEMAND FOR FULL AUDIT/RECOUNT OF NH ELECTION

Executive Summary

On November 5, 2020, Federal agents raided the home of Elliot Kerwin in Fountain Hills, Maricopa County, Arizona, confiscating computers, hard drives and other computer-related data storage devices in an investigation regarding the theft of voter data from the Maricopa County recorder's office website. The warrant of the seizure was carried out as part of an investigation into computer intrusion or conspiracy to commit computer intrusion from October 21 through November 4, 2020; Maricopa County had confirmed that voter data had been stolen.

<https://arizonadailyindependent.com/2021/01/13/who-hacked-into-maricopa-countys-voter-files-and-what-data-did-they-get/>

"The apparent data breach involving Maricopa County's voter rolls serves as a wake up call to government agencies, businesses and individuals across America and the world," he said. "Organizations entrusted with PII have a duty and obligation to secure our data using an array of policies, technologies, and regular penetration testing to insure the information is secure against a world of evolving threats."

The application presented by the FBI to the judge in support of the warrant has not been made public. On Nov. 16, a special agent filed the receipt for property seized with the court. It shows a number of computers, hard drives, USB, and SD/memory cards were removed.

A spokeswoman for the U.S. Department of Justice in Phoenix declined to comment on the search or a timetable for filing criminal charges, noting it is "part of an ongoing investigation."

With this knowledge in mind, and from observations of publicly available video from the NEST camera systems as well as a public Wi-Fi scan at the Maricopa County tabulation center, I observed what may be lapses in security policy and procedure when compared to National Institute of Standards and Technology (NIST). Maricopa County, as a government entity, would at least have to comply with NIST guidelines.

This is a list of observed possible non-compliance, as well as the relevant NIST guidelines. Please refer to the link for the full NIST document; relevant portions are referenced below:

NIST Special Publication 800-124 Revision 1 / Guidelines for Managing the Security of Mobile Devices in the Enterprise

<https://nvlpubs.nist.gov/nistpubs/specialpublications/nist.sp.800-124r1.pdf>

- A. It does not appear that encryption keys or passwords were required when removable media was inserted and taken out of machines. Full disk encryption should be used on removable media. (NIST 800-124 Revision 1, 3.2.2 Data Communication and Storage)
- B. USB device use is strongly discouraged in both NIST and in CISA recommendations. Unencrypted USB flash drives and cards are used. User does not need a password to move around USB flash drives or CF cards. All of these items were seized November 5, 2020 at the residence of Elliott Kerwin, who was in possession of Maricopa County voter information. (NIST 800-124, 3.2.2 Data Communication and Storage) (<https://youtu.be/YLIS68YfMYU?t=2529>)
- C. Virtual private network (VPN) use is optional. (NIST 800-124 Revision 1, 3.2.2 Data Communication and Storage) (<https://youtu.be/YLIS68YfMYU?t=2548>)

- D. Auditors should not be performing software functions, including installing, updating, auditing, etc. any software. Auditors installed software. (NIST 800-124 Revision 1, 4.4 Operations and Maintenance)
- E. It appears that any person can enter or exit the tabulation room and move outside of camera range without entering a code or using a proximity card due to the doors being left open and hallways connecting the room to location(s) undetermined. (NIST 800-124 Revision 1, 2.2.1 Lack of Physical Security Controls)
- F. Users were observed using mobile devices in the tabulation area. (NIST 800-124 Revision 1, 2.2.2, Use of Untrusted Mobile Devices)
- G. No use of 2 factor authorization at entry points. This includes entry to tabulation center and server room. (NIST 800-124 Revision 1, 4.1.1, Restrictions on Mobile Devices and Access Levels)
- H. No documentation was created as visitors entered server room. The door was opened for them and they just walked in. (NIST 800-124 Revision 1, 2.2,1 Lack of Physical Security Controls)
- I. Two separate videos show inconsistency in server room policy and when more secure policy enforced a person on a stabilized camera was used to create an illusion of secure policy enforcement. (NIST 800-124 Revision 1, 2.2,1 Lack of Physical Security Controls)
- J. Appears to be no visitor card handed out to document visitor movements in secure area. (NIST 800-124 Revision 1, 2.2,1 Lack of Physical Security Controls)
- K. Media representatives and other individuals were allowed entry into the tabulation area between audits. (NIST 800-124 Revision 1, 2.2,1 Lack of Physical Security Controls)
- L. Lack of consistency of security during and between election seasons. (NIST 800-124 Revision 1, 4.1.1 Compliance with mandates and other policies)
- M. Offsite backups are not afforded the same transparency. Where do they go? Who drives them? What is the chain of custody and how is it documented? (NIST 800-124 Revision 1, 2.2.5, Interaction with Other Systems)
- N. Laptops were brought in and removed from the tabulation area. (NIST 800-124 Revision 1, 2.2.2, Use of Untrusted Mobile Devices)
- O. Much of SLI audit observed appeared to be conducted via remote access from a table within the tabulation room. (NIST 800-124 Revision 1, 2.2.3, Use of Untrusted Networks)
- P. What is the camera and video retention policy? Are cameras manned 24/7? Cameras were replaced during SLI audits. Where is the old camera system data? (NIST 800-124 Revision 1, 2.2.5, Interaction with Other Systems)
- Q. There appears to be excessive reliance on camera systems as people are often left unsupervised in what should be a secure area. (NIST 800-124 Revision 1, 2.2.1, Lack of Physical Security Controls)

It is important to note that the observations made in this document are not an exhaustive list of the possibilities and/or vulnerabilities discovered. Without proper authorization no thorough

examination could take place. The only examination is based upon what was public and exposed out in the open with no encryption or network isolation. Devices were identified merely by the banner returned during an initial handshake. While some possible vulnerabilities can be demonstrated by more obvious means, some vulnerabilities require thinking outside of traditional norms when discussing election systems. For example: A switch/router that is at the end of life and no longer gets updates would be traditional network vulnerability, allowing USB devices to be plugged in could allow data to be exfiltrated by nontraditional means. To illustrate, picture a USB flash drive that communicates on the 900Mhz spectrum vs 2.4 or 5GHz like a traditional wireless network. A fitting example of this would be a goTenna: <https://gotenna.com/>.

In a traditional sense a USB flash drive the size of a dime may be able to communicate with the MCPublic Wi-Fi or any other several Wi-Fi networks that exist in proximity of the tabulation center. An employee of Dominion Voting Systems spoke at length about how 4G networks can be used with the system, and such a 4G device can take the form of a USB flash drive. Printers have been proven to be an entry point or a place to "hide" on a network. To illustrate - there is a printer on the public Wi-Fi at the Maricopa County tabulation center, what would happen if a USB flash drive allowed a tabulation machine to access that network for whatever reason? Subsequently a bad actor may have a way in to the network. An internal bad actor could use the printer hooked to the public to hide use of other printers. The risks and possibilities of election irregularities are limitless with such lax practice of security protocols. In this light, during the investigation it was brought to my attention that mobile devices such as phones were being used in the tabulation area and several times USB flash drives were used.

Here is an example, please reference timestamp 5:29
<https://netconcepts.synctool.com/shares/file/sXRYTpFsjl9/>

It does not appear that encryption keys or passwords were required when USB removable media were inserted and removed from machines. It is possible that the USB storage devices never leave the tabulation center so on their own not a risk, but given the distance afforded the auditors any removable device used on a system would not be noticed. The "air gapped" idea with USB devices creates a security issue that would otherwise be discouraged. In a video referenced herein, a Dominion Voting Systems employee explains to Cook County, Illinois officials that a Virtual Private Network (VPN) was optional, which is counter to recommendations by National Institute of Standards and Technology's (NIST) and Cybersecurity and Infrastructure Security Agency (CISA).

There are several videos and photos evidenced that exhibit multiple breaches of policy. In one photo, a system that I would assume was air gapped has a network connection icon. Unfortunately, it is too far away to tell if it is in fact connected to a network and internet, but it does appear to be connected. You can see from these photos several people using wireless phones in the tabulation center. As we identified previously, the use of USB flash drives unencrypted is how data is transferred around or used as systems are worked on. The common theme below is the use of USB media to perform attacks. Another common thread among air gapped networks is failure to adhere to strict policy guidelines. What I personally see wrong with air gapped networks today is lack of detection. When the system is compromised, no one is able to see the compromise in action. The use of a Dominion Voting System machine or similar type of system will create more risks than can be managed as air gapped network compromise techniques get more sophisticated. Security policies for Maricopa County should

align with NIST's policies. The lax policy enforcement at Maricopa County, specifically at the tabulation center in Phoenix, creates a vehicle for irregularity and a possible data corruption.

Elections will always be a high risk/high reward target for nation states. Election systems should not include consumer grade hardware like printers, touchscreens, tablets, etc. This hardware should be specific to elections and are designed to that purpose. The strict adherence and enforcement to security protocols by County personnel and volunteers as outlined by NIST and CISA would complement a reinforced election hardware infrastructure.

Air Gapped Networks and Adherence to Policy

It is accepted knowledge among many security professionals that Stuxnet malware originated in the US intelligence community or possibly Israel in conjunction with the US to attack Iran's nuclear facility that was air gapped. This attack occurred in 2010 and variants of Stuxnet have been used against US companies since. Successful air gapped network attacks are now becoming more common and sophisticated to conceal their activity. I do believe air gapped networks can hold security advantages but require a rigorous adherence to policy and procedure. Staff needs to be well trained and facilities need a proper setup.

Supporting articles are as follows:

'Air-Fi' attack renders air-gapped computers open to data exfiltration through WiFi signals 23 December 2020

<https://portswigger.net/daily-swig/air-fi-attack-renders-air-gapped-computers-open-to-data-exfiltration-through-wifi-signals>

Military-Grade Air-Gapped Networks Under Attack May 20, 2020

Cybercriminals seem to be busy in carrying out espionage activities on high-value targets, that are using military-grade security. After Ramsay, within a week another malware strain has been observed that could penetrate air-gapped networks.

- ***In May 2020, the air-gapped networks of the Taiwanese and the Philippine military were targeted by a China-linked group known as Tropic Trooper (or KeyBoy).***
- ***Attackers used a malware strain known as USBferry. This malware first infects a vulnerable system having lesser security, and then waits for a connecting USB drive to be ferried to other parts of the victim's internal network, thus self-replicating itself until it reaches the targeted system.***
- ***From the target system, it would steal sensitive information and wait until it gets ferried back to another internet-connected system, from where it would send the stolen data back to the hacker's command and control servers.***

Other real-world threats on Air-gapped systems

- ***In May 2020, in new malware dubbed Ramsay was detected, that uses various attack vectors to target an air-gapped system, aiming at very few but high-value victims.***
- ***In January 2020, a new backdoor called PowerTrick was identified, that is capable of bypassing common restriction and security controls, and penetrate into the most secure air-gapped systems. It was developed by the cybercriminals behind the TrickBot malware, designed and tuned to infiltrate high-value targets.***

New Malware Makes Air-Gapped Data Center Networks Less Bulletproof September 05, 2018

"Despite not being connected, data can be transferred in and out of such a network," Alexis Dorais-Joncas, security intelligence team leader at ESET, told DCK. It's usually done via "removable drives going back and forth between the air-gapped system and a lower-privileged, fully connected workstation."

Once this particular malware – called "Ramsay" – gets a foothold in an air-gapped system, it will spread to any other systems it may find, Dorais-Joncase said.

Ramsay doesn't appear to be used to deliver ransomware today. It appears to have been used by a very advanced group of threat actors – of nation-state level. But this can change on a dime.

"When it comes to threats, what nation-states can pull off today, cybercriminals will be able to pull off tomorrow," said Daniel dos Santos, security researcher at Forescout

<https://www.datacenterknowledge.com/security/new-malware-makes-air-gapped-data-center-networks-less-bulletproof>

Attacking Air-Gap-Segregated Computers Jun 08, 2020

In 2010, the Stuxnet malware was discovered to have jumped an air gap and compromised nearly a fifth of Iran's nuclear centrifuges, causing significant setbacks.² The Stuxnet malware was later credited to the United States and Israel working together to cripple the Iranian nuclear program.³ Indeed, hacking air-gapped systems is the realm of the advanced attacker.

The pertinent NIST and CISA guidelines are mentioned here, please check the link provided for the full document.

NIST Special Publication 800-124 Revision 1 / Guidelines for Managing the Security of Mobile Devices in the Enterprise page 8

(<https://nvlpubs.nist.gov/nistpubs/specialpublications/nist.sp.800-124r1.pdf>)

- 1. General policy. The centralized technology can enforce enterprise security policies on the mobile device, including (but not limited to) other policy items listed throughout Section 3.2. General policy restrictions of particular interest for mobile device security include the following:***
 - a. Restrict user and application access to hardware, such as the digital camera, GPS, Bluetooth interface, USB interface, and removable storage.***
 - b. Restrict user and application access to native OS services, such as the built-in web browser, email client, calendaring, contacts, application installation services, etc.***
 - c. Manage wireless network interfaces (Wi-Fi, Bluetooth, etc.)***

- d. **Automatically monitor, detect, and report when policy violations occur, such as changes from the approved security configuration baseline, and automatically take action when possible and appropriate.**
- e. **Limit or prevent access to enterprise services based on the mobile device's operating system version (including whether the device has been rooted/jailbroken), vendor/brand, model, or mobile device management software client version (if applicable). Note that this information may be spoofable.**

2. Data Communication and Storage

- a. **Strongly encrypt data communications between the mobile device and the organization. This is most often in the form of a VPN, although it can be established through other uses of secure protocols and encryption.**
- b. **Strongly encrypt stored data on both built-in storage and removable media storage. Removable media can also be "bound" to particular devices such that encrypted information can only be decrypted when the removable media is attached to the device, thereby mitigating the risk of offline attacks on the media.**

See also: *The Risks of Using Portable Devices* by CISA

<https://us-cert.cisa.gov/sites/default/files/publications/RisksOfPortableDevices.pdf>

Encryption is mentioned multiple times in this article along with strong recommendations on encouraging its use.

NIST Special Publication 800-171 Revision 2

3.1.21 Limit use of portable storage devices on external systems.

DISCUSSION Limits on the use of organization-controlled portable storage devices in external systems include complete prohibition of the use of such devices or restrictions on how the devices may be used and under what conditions the devices may be used. Note that while "external" typically refers to outside of the organization's direct supervision and authority, that is not always the case. Regarding the protection of CUI across an organization, the organization may have systems that process CUI and others that do not. Among the systems that process CUI there are likely access restrictions for CUI that apply between systems. Therefore, from the perspective of a given system, other systems within the organization may be considered "external" to that system.

3.1.4 SECURITY REQUIREMENT Separate the duties of individuals to reduce the risk of malevolent activity without collusion.

DISCUSSION Separation of duties addresses the potential for abuse of authorized Separation of duties includes, for example: dividing mission functions and system support functions among different individuals or roles; conducting system support functions with different individuals (e.g., system management, programming, configuration management, quality assurance and testing, and network security); and ensuring that security personnel administering access control functions do not also

administer audit functions. Because separation of duty violations can span systems and application domains, organizations consider the entirety of organizational systems and system components when developing policy on separation of duties.

E. It appears that any person can enter or exit the tabulation room, and move outside of camera range without entering a code or using a proximity card due to the doors left open and hallways connecting the room to location(s) undetermined.

<https://netconcepts.syncedtool.com/shares/file/vhvmnEdSh2U/>

3.10.2 Protect and monitor the physical facility and support infrastructure for organizational systems.

DISCUSSION Monitoring of physical access includes publicly accessible areas within organizational facilities. This can be accomplished, for example, by the employment of guards; the use of sensor devices; or the use of video surveillance equipment such as cameras. Examples of support infrastructure include system distribution, transmission, and power lines. Security controls applied to the support infrastructure prevent accidental damage, disruption, and physical tampering. Such controls may also be necessary to prevent eavesdropping or modification of unencrypted transmissions. Physical access controls to support infrastructure include locked wiring closets; disconnected or locked spare jacks; protection of cabling by conduit or cable trays; and wiretapping sensors. Derived Security Requirements

3.10.3 Escort visitors and monitor visitor activity.

DISCUSSION Individuals with permanent physical access authorization credentials are not considered visitors. Audit logs can be used to monitor visitor activity. – How do you access when not in front of server?

NIST Special Publication 800-34 Rev. 1

3.4.2 Backup Methods and Offsite Storage

System data should be backed up regularly. Policies should specify the minimum frequency and scope of backups (e.g., daily or weekly, incremental or full) based on data criticality and the frequency that new information is introduced. Data backup policies should designate the location of stored data, file-naming conventions, media rotation frequency, and method for transporting data offsite. Data may be backed up on magnetic disk, tape, or optical disks, such as compact disks (CDs). The specific method chosen for conducting backups should be based on system and data availability and integrity requirements. These methods may include electronic vaulting, network storage, and tape library systems.²⁴ It is good business practice to store backed-up data offsite. Commercial data storage facilities are specially designed to archive media and protect data from threatening elements. If using offsite storage, data is backed up at the organization's facility and then labeled, packed, and transported to the storage facility. If the data is required for recovery or testing purposes, the organization contacts the storage facility requesting specific data to be transported to the organization or to an

alternate facility.25 Commercial storage facilities often offer media transportation and response and recovery services. When selecting an offsite storage facility and vendor, the following criteria should be considered:

- **Geographic area: distance from the organization and the probability of the storage site being affected by the same disaster as the organization's primary site;**
- **Accessibility: length of time necessary to retrieve the data from storage and the storage facility's operating hours;**
- **Security: security capabilities of the shipping method, storage facility, and personnel; all must meet the data's security requirements;**
- **Environment: structural and environmental conditions of the storage facility (i.e., temperature, humidity, fire prevention, and power management controls); and**
- **Cost: cost of shipping, operational fees, and disaster response/recovery services.**

The background of the slide features the Maricopa County Seal, which consists of a central five-pointed star in shades of yellow and orange. Radiating from the star are numerous rays in alternating bands of yellow and maroon. Below the star is a solid blue horizontal band.

**Observations and Recommendations
regarding the Maricopa County
2020 General Elections'
Forensic & Field Audits**

Matthew Van Bibber, BS

Aaron R. Wagner, CISSP

March 3, 2021

Executive Summary

The Maricopa County Board of Supervisors authorized a field audit report and forensic report of the Dominion Voting Systems Democracy Suite (D-Suite) 5.5-B Voting System, respectively, from Pro V&V and SLI Compliance. These audit reports were released February 23, 2021.

While it is likely that no advanced persistent threat (apt) was connected to the server at the time the audits were conducted, no definitive assertion can be made from the information contained in these reports.

Significant security gaps exist despite the work completed via these two audits.

1. The name and release of the cybersecurity software used to scan for malicious software is notably absent from the Pro V&V Report.
2. Software tools to detect nation state attackers does not appear to be used in either audit.
3. Additional security vulnerabilities exist in the possibility of zerologon exploits, erased logs, air gapped system issues and vulnerabilities in the Windows operating system software.
4. Pre- and post-election breaches in Georgia and Arizona occurred with remarkably little public information about the latter.

Pro V&V Report

After review of the Pro V&V report, titled *Pro V&V Field Audit Report, Dominion Voting Systems Suite (D-Suite) 5.5-B Voting System Maricopa Post-Election Field Audit, approved by Jack Cobb, Laboratory Director, February 23, 2021*, hereinafter referred to as "PV&V Report" some questions remain unanswered regarding the security of the systems in place during the audit.

1. The logic and accuracy test employed the use of a highly partisan group League of Women Voters. We would expect an audit team to use the highest standards and to avoid conflicts of interest. **[PV&V Report, page 9]**
2. What anti-malware software was used and what were the scan results? **[PV&V Report, page 7]**
3. How was the SQL database handled when the accuracy and logic test was performed to maintain election night integrity preventing system changes? **[PV&V Report, page 9]**
4. If a data backup was performed before any audits will the backup be provided to legislators?
5. The phrase "workstations/servers" is used but only serial numbers of workstations are listed. Was the server observed? **[PV&V Report, page 9]**
6. Report states commands were run on the server to test connectivity to known hosts and IP's was this done on just the server and not the workstations? **[PV&V Report, page 9]**

7. Was the SQL server tested or any system on the network tested for vulnerabilities or unexpected open ports? What vulnerability software used?
8. During the audit and from the report there is no indication that the database clients, databases, or database logs were checked. Auditors that have audited Dominion machines in the past have investigated how the MS SQL client/server databases were setup such as passwords, logs activity etc.
9. Why not test the non-election network for suspicious activity given the fact that Maricopa county does use fire eye tools and Fire eye announced a breach last December? This is a common launching point for attacks on air gapped networks.
10. Was a network scan performed to find any unexpected hosts?
11. "a USB containing a malware/virus scanning software was run to scan the equipment for malware/viruses" What is the origin of this USB flash drive? **[PV&V Report, page 9]**
12. It seems only a fraction of total systems was tested for anything malicious and conclusions were drawn based on the tested systems. If we had 100 systems and 30 are tested and results indicate that no malware was detected, although this statement may be accurate, it is misleading without disclosing how many were tested in this audit in relation to the total number of systems. To then apply that to all systems would be a false statement. Testing a fraction of systems is insufficient.

SLI Report

Reading the report generated by SLI Compliance, ("SLI") *Forensic Audit Report, Report Number: MCA-21001-AR-01, Dominion Voting Systems, Democracy Suite 5.5B, Report Rev 1.0, February 23, 2021, Prepared for: Maricopa County Elections Department* ("SLI Report")

I surmised that SLI performed its audit under a different scope of work from Pro V&V. It appears they also were given an incomplete scope, not testing all equipment for open hosts and vulnerabilities. They are also asked to draw conclusions based on incomplete tasks.

In the definition of the process, SLI included this phrase which appears odd for an objective auditor; ***"Due to the County's strict policies regarding maintenance of the election infrastructure air gap, where election related devices are not allowed to be connected to non-election devices, SLI Compliance had to demonstrate the ability to prevent write back to any election media or resources."*** [SLI Report, page 6]

Given that these auditors are certified by the Election Assistance Commission (EAC) and the different states' regulations are clearly posted on the EAC site, why would SLI not know what they must do in Arizona? Is this a statement that shows conflict of interest or bias?

SLI used the following materials and methods to determine malicious activity:

1. Cloned machines
2. Scanned for malicious software using endpoint tools (Windows Defender, ESET Endpoint Protection, ClamWin and Malwarebytes) No EDR products
3. Inspection of the system registry. This included items such as Windows 'Run' entries,
4. most recently used programs, recent documents, and Windows Explorer last visit.
5. Inspection of the system file system and installed programs: installed programs, autorun commands, shellbag entries, Windows userassist, download history, and USB history.
6. Inspection of the system audit logs. Includes Windows event logs, browser history, search terms, website logins, Windows timeline events, and host system antivirus logs

To test for network connectivity the following tests were run:

1. Manual examination of the ICP2's storage partitions including the "ICP2-Boot" and "ICP2-Data" for logfiles, connection strings, ethernet callouts.
2. Inspection of the system file system and installed programs, extraction and examination of the squashfs system files.
3. Inspection of the system audit logs including the election logs, system logs and the system's diagnostic logs.
4. Searched for ethernet, modem, and wireless connectivity settings.
5. Examination and research for WLAN, ethernet and modem connectivity, logs, configuration, and usage.
6. Inspection of the system registry. This included items such as Windows 'Run' entries, most recently used programs, recent documents, and Windows Explorer last visit.
7. Inspection of the system file system and installed programs: installed programs, autorun commands, shellbag entries, Windows userassist, and download history.
8. Inspection of the system audit logs; includes Windows event logs, browser history, search terms, website logins, and Windows timeline events.
9. USB history, to determine if there were any unauthorized wireless or USB ethernet devices plugged in and to determine if the systems were connected to an unauthorized network connection via a USB device
10. Examination and research for WLAN connectivity
11. Verification of the server's ARP tables, routing lists, established connections, DNS server configurations, and netstat information.
12. Hash codes compared to ensure no software changes.

This is an extensive search on its face, but these are again a selection of units **tested?** to draw a conclusion that is simply not possible. The analysis relies heavily on local logs files

and only analyzes the server in a few more extra steps. Server connectivity is rarely where an exploit starts when hopefully these systems are not regularly accessed, used for email, web browsing, and well secured.

Other Security Principles to Consider or Insufficiently Addressed in the Audit Reports

What information leading up to the election might define who might attack election systems in Arizona and how?

Several reports pointed to China targeting air gapped systems, using NSA tools to wipe log files and evidence of their activities, and system vulnerabilities. These reports even included reports directly on election systems. Some evidence pointed to Russia as well. Twice prior to the election both Georgia and Arizona had system breaches that lead to leaked voter information. Georgia's breach was a ransomware attack that included the signature database. Could the signature database be trusted? In Maricopa County, the largest county in Arizona, there were claims the website for elections had been breached. Remarkably, the individual responsible for this breach is a local individual in Fountain Hills and flash drives were confiscated. These are the same items used in the tabulators and at the election center.

Election Systems Under Attack via Microsoft Zerologon Exploits

October 13, 2020

<https://threatpost.com/election-systems-attack-microsoft-zerologon/160021/>

Cybercriminals are chaining Microsoft's Zerologon flaw with other exploits in order to infiltrate government systems, putting election systems at risk, a new CISA and FBI advisory warns.

U.S. government officials have warned that advanced persistent threat actors (APTs) are now leveraging Microsoft's severe privilege-escalation flaw, dubbed "Zerologon," to target elections support systems.

Erasing log files and covering tracks: DanderSpritz

DanderSpritz is a modular, stealthy, and fully functional framework for post-exploitation activities on Windows and Linux hosts. The framework contains tools to bypass anti-virus & security tools, disable and delete Windows event logs, establish persistence, perform local and network reconnaissance, move laterally within a network, and exfiltrate data.

*DanderSpritz was leaked by The Shadow Brokers on **April 14th, 2017** as part of the "Lost in Translation" leak. <https://danderspritz.com/>*

Though this report was available February 22, 2021, well after the election, it provides context of information that was available to CISA and the FBI before and during the election.

Chinese Hackers Had Access to a U.S. Hacking Tool Years Before It Was Leaked Online

Attacks on air-gapped systems

'Air-Fi' attack renders air-gapped computers open to data exfiltration through WiFi signals 23 December 2020

<https://portswigger.net/daily-swig/air-fi-attack-renders-air-gapped-computers-open-to-data-exfiltration-through-wifi-signals>

Military-Grade Air-Gapped Networks Under Attack May 20, 2020

Cybercriminals seem to be busy in carrying out espionage activities on high-value targets, that are using military-grade security. After Ramsay, within a week another malware strain has been observed that could penetrate air-gapped networks.

- *In May 2020, the air-gapped networks of the Taiwanese and the Philippine military were targeted by a China-linked group known as Tropic Trooper (or KeyBoy).*
- *Attackers used a malware strain known as USBferry. This malware first infects a vulnerable system having lesser security, and then waits for a connecting USB drive to be ferried to other parts of the victim's internal network, thus self-replicating itself until it reaches the targeted system.*
- *From the target system, it would steal sensitive information and wait until it gets ferried back to another internet-connected system, from where it would send the stolen data back to the hacker's command and control servers.*

Other real-world threats on Air-gapped systems

- *In May 2020, in new malware dubbed Ramsay was detected, that uses various attack vectors to target an air-gapped system, aiming at very few but high-value victims.*
- *In January 2020, a new backdoor called PowerTrick was identified, that is capable of bypassing common restriction and security controls, and penetrate into the most secure air-gapped systems. It was developed by the cybercriminals behind the TrickBot malware, designed and tuned to infiltrate high-value targets.*

<https://cyware.com/news/military-grade-air-gapped-networks-under-attack-96d6525b>

New Malware Makes Air-Gapped Data Center Networks Less Bulletproof September 05, 2018

"Despite not being connected, data can be transferred in and out of such a network," Alexis Dorais-Joncas, security intelligence team leader at ESET, told DCK. It's usually done via "removable drives going back and forth between the air-gapped system and a lower-privileged, fully connected workstation."

Once this particular malware – called "Ramsay" – gets a foothold in an air-gapped system, it will spread to any other systems it may find, Dorais-Joncase said.

Ramsay doesn't appear to be used to deliver ransomware today. It appears to have been used by a very advanced group of threat actors – of nation-state level. But this can change on a dime.

"When it comes to threats, what nation-states can pull off today, cybercriminals will be able to pull off tomorrow," said Daniel dos Santos, security researcher at Forescout

<https://www.datacenterknowledge.com/security/new-malware-makes-air-gapped-data-center-networks-less-bulletproof>

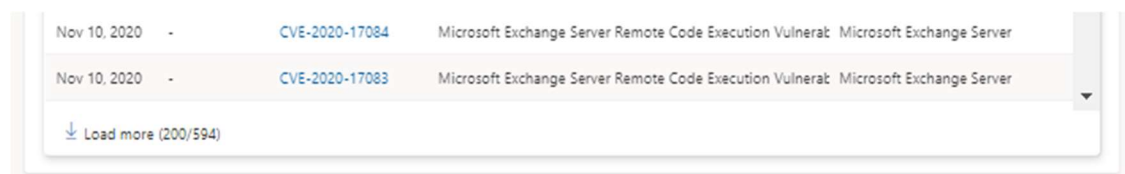

Attacking Air-Gap-Segregated Computers Jun 08, 2020

In 2010, the Stuxnet malware was discovered to have jumped an air gap and compromised nearly a fifth of Iran's nuclear centrifuges, causing significant setbacks.² The Stuxnet malware was later credited to the United States and Israel working together to cripple the Iranian nuclear program.³ Indeed, hacking air-gapped systems is the realm of the advanced attacker.

It is undeniable that the warning signs were out there on who and possibly how election systems in Maricopa County could be or would be targeted. It is clear that if an election system were targeted that it is likely to be a nation state or other advanced attacker. Any county relying on the notion that air gapped networks would provide the ultimate security and that any possibility of attack would be stopped by such a configuration is negligent and being dishonest with voters. It was also clear that nation states were combining toolsets to reach their target.

Vulnerabilities in Microsoft and/or Windows that were identified between July 6, 2020 through November 20, 2020. Were these vulnerabilities patched?

<https://msrc.microsoft.com/update-guide/vulnerability/CVE-2020-1472>

July 6 2020 - Nov 20 2020 CVE Vulnerabilities between these date 480 total
[Vulnerabilities - Security Update Guide - Microsoft](#)

It would have been appropriate to see if vulnerabilities were patched.

Pre-election attacks:

Georgia <https://threatpost.com/georgia-election-data-ransomware/160499/> October 23, 2020

Georgia Election Data Hit in Ransomware Attack: Ransomware gangs have officially entered the 2020 election fray, with reports of one of the first breaches of the voting season, on Hall County, Ga. The county's database of voter signatures was impacted in the attack along with other government systems.

Arizona <https://channel411news.com/2020/12/08/forbes-report-fbi-raided-home-in-maricopa-county-for-suspicion-of-cyber-attack-and-voter-data-theft/>

"Analysis by the Maricopa County Recorder's Office IT Security indicates an unauthorized individual gathered publicly accessible voter information from our website," a spokesperson said. They didn't specify what voter information and declined to comment any further on the nature of the attack. The data trove could be significant; there were more than 2.5 million registered voters in the county for the 2020 election.

Vs.

The warrant, discovered by Forbes this week, reveals investigators have been looking into a computer intrusion at an unnamed "victim office," which occurred from October 21 to November 4. At the Kerwin residence, they were looking for any evidence within the seized computers that showed they'd been used to access the IT network at the office, as well as "protected voters' information" and any indication that it had been disseminated to other people.

This breach brings up serious questions. Did this breach access only a **publicly** available database? Was it physical access to an office?

Why is there a wireless card and video cameras built into the voting machines?

SLI stated in the audit report "USB history, to determine if there were any unauthorized wireless or USB ethernet devices plugged in and to determine if the systems were connected to an unauthorized network connection via a USB device. " Did they look for other types of ports that may have wireless cards such as WIFI and Bluetooth? As Seen In Figure below

<https://blog.barracuda.com/2020/10/20/cisa-and-fbi-issue-joint-election-security-warning/>

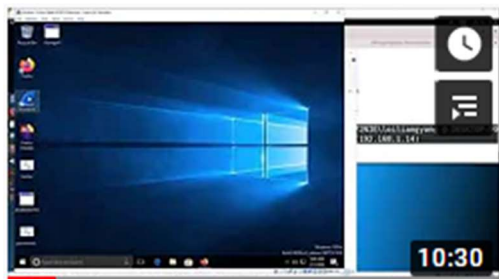

In the final weeks running up to the election it would appear cybersecurity is once again going to be a national issue. SecurityScorecard issued a report this week that gave 75% of the states a rating of "C" or lower for election security. The U.S. Congress has not allocated additional funds for election security and officials responsible for election security in the Trump administration are now

only briefing select members of the Congress about election security in the wake of a whistleblower complaint that alleges previous reports downplayed interference from Russia.

So, what does it look like to look for advanced threat attackers? Example of detecting more advanced attack:

Loi Lang Yang demonstrates 5 simple ways to see if you have been hacked:

<https://youtu.be/RRbkvseO-4k>

Keep in mind these are 5 simple methods but it demonstrates how more advanced detection methods might look like compared to simply using system logs and endpoint scans. However, without captured traffic and logs what is being done is time sensitive as we have demonstrated erasing tracks has been in the advanced attacker's toolbox for years.

DNS and IP ping tests on the server appear to be what was used to identify internet access when an attacker could easily use a host file or direct communication on any workstation, printer, server, or connected device of any kind. It is true some more advanced techniques were done by SLI, but again it was too late. In an ideal situation pcap (<https://www.comparitech.com/net-admin/pcap-guide/>) files would be available to test.

Summary

What can be asserted by the last forensic test is that it's likely that no advanced persistent threat (apt) is currently connected to the server, but no definitive assertion can be made. Without stored pcap files to analyze or a clean log server where network traffic is captured and stored away from the server and workstations it is not likely that assertions can be made regarding election night last year. There is no evidence of use of any type of network mapping software or vulnerability tool to identify places where apt's can hide. From the report it does not appear that any attempts were made to look for deleted logs. There is one interesting comment by SLI: *"While the systems examined showed no malicious or networking related USB devices being connected, the systems examined didn't provide a physical or a digital method of preventing unauthorized USB devices to the systems. In this*

particular case, County policy drives control of USB connectivity. "If policies are not followed strictly this could be devastating.

This report should make things crystal clear that the risk is high regardless, if not compromised now it can happen at any point.

In SLI's report they include a disclaimer, and it ends with: "*The audit activities referenced in this document were performed in a controlled environment using specific systems and data sets, and **results are related to the specific items evaluated**. Actual results in other environments may vary.*" Yet, Maricopa County applies a very broad brush to create the illusion that all systems are secure or that this audit was exhaustive.

Is it possible the situation could get worse?

In an email to the Board of Supervisors we realized that they use Fireeye for at least email protection. Considering how an attacker was able to evade security controls that Fireeye employs it is likely that an attacker could very well use against Maricopa County. Solarwinds and Fireeye being compromised around the same time frame and having large government contracts makes one wonder how this could not be a targeted attack. On March 1st it was announced a massive attack on Exchange servers by China linking both attacks of Solarwinds and Fire Eye. The Solarwinds attack lead to the heart of Microsoft possibly exfiltrating source code.

[Cybersecurity Firm FireEye Got Hacked; Red-Team Pentest Tools Stolen \(thehackernews.com\)](https://thehackernews.com/2020/03/cybersecurity-firm-fireeye-got-hacked-red-team-pentest-tools-stolen/)

From Maricopa County:

Malicious Software and Hardware Tests

No evidence that malicious software or hardware was found on the tabulators or system.

Network and Internet Connectivity Tests

Auditors found no issues with the closed secure network and there is no evidence of Internet connectivity.

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

Dear Representatives,

I am writing to you today as a US citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many citizens across our country.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Forrest Moulton

Testimony on SB 43

Like most people in NH, I believe the AG should investigate the Windham state representative race to find out why the discrepancy between the computer count reported election night and the hand count recount occurred. Was there a computer problem that affected other contests? We should know that, too.

He should work cooperatively with Windham officials and citizens and he should have begun that process soon after the Windham town counsel asked him to do so in mid-November.

He has the “statutory authority” and legal duty to do so and the discretion to try and ignore the issue.

He also has the legal duty to investigate the overvote issue in Derry (reported to the AG Dec. 2, 2020 and to you Feb. 23) and the possibility absentee voters statewide were significantly disenfranchised in the November election.

Are you going to require that investigation as well? How about the reported three violations of election law involving the mishandling of the Derry moderator situation in 2016, involving individuals in both the AG and SoS office?

Four years later, the legislature has still not corrected that SoS/AG error.

This highlights a problem the legislature can no longer ignore. The AG cannot serve both as the personal attorney for the Secretary of State and the public when those responsibilities conflict.

We don't need this legislation. We need an attorney general and secretary of state dedicated to serving the public's interest and who care deeply about winning the public's trust. We need an attorney general and secretary of state who are problem solvers, willing to work with others, not problem creators.

If they refuse to do their job for us, there is an available remedy under our state constitution, removal from office. And since the state constitution stipulates the governor is the chief law enforcement officer in the state, he also needs to put on notice.

A joint House/Senate resolution should direct the AG to investigate the Windham recount discrepancy, the Derry overvote/absentee ballots statewide question and any other Nov. 2020 election issue reported to his office and so far ignored. You can ask local officials and citizens to sign on as co-sponsors. The AG/SoS/Governor must show they are committed to protecting our election

system, not obstruct legitimate inquiries or you will 1) ask for their resignations or 2) start the impeachment proceedings our constitution require.

I ask that this resolution delegates authority to the Rockingham county attorney to investigate the three violations of law reported to the AG re: the mishandling of the 2016 Derry incident. (reported Oct. 2016 and Oct. 2020). Are there other election law violations/requests for investigations the AG has ignored?

Ask for people to supply that information to a designated member of the House or Senate Election law committees.

NH deserves a government we have reason to trust. This alternative to SB 43 will move us in that direction.

Thank you.

PS The Oct. 4, 2020 email to AG attorneys copied below was shared with the Senate Election Law and Municipal Government Committee on Feb. 6, 2021

From: Deborah Sumner <dsumner@myfairpoint.net>
Subject: Re: David Scanlan and Bud Fitch, continuing misleading, of local election officials this time.
Date: October 4, 2020 at 6:45:08 AM EDT
To: "ChongYen, Nicholas" <Nicholas.ChongYen@doj.nh.gov>, Gordon.MacDonald@doj.nh.gov, "Edwards, Anne M." <Anne.Edwards@doj.nh.gov>, Jane.Young@doj.nh.gov, "Tracy, Richard" <Richard.Tracy@doj.nh.gov>
Cc: Gerhard Bedding <gerhard129@mail.com>, barbara Glassman <barbara.glassman@gmail.com>, David Cote <david.cote@leg.state.nh.us>, Melanie Levesque <Melanie.Levesque@leg.state.nh.us>, barbara.griffin@leg.state.nh.us, Regina Birdsell <regina.birdsell@leg.state.nh.us>, wchristie@Shaheengordon.com, Jeanne Dietsch <Jeanne.Dietsch@leg.state.nh.us>

Let the record show:

1. Mr. Chong Yen has not acknowledged receipt of the previous communications, copied below.
2. My knowledge of the pattern of criminal intent involving individuals in the NH SoS and AG offices begins in 2003, when instead of codifying this provision of HAVA law, they and legislative allies violated legislative rules and code of ethics to exempt ballots from public records.
3. Before the November 2010 election, an individual in the SoS office interfered with the Jaffrey moderator's decision to verify (by hand counting) the computer count of one of the two federal races on the ballot. The moderator has previously sought AG advice and knew he could do this, yet this AG individual did not stop the SoS individual from interfering in the Jaffrey election.

Reports of law violation to the Attorney General after the November 2010 election were ignored. Those violations involved the Secretary of State's office.

4. When November 2010 ballots from Jaffrey were reportedly illegally destroyed before the court could decide whether to give me access, the AG ONLY issued a cease and desist order to prevent the Jaffrey town clerk from repeating that action. He did NOT investigate to determine WHEN those ballots were destroyed or whether someone had advised her to destroy them.

The AG individual heading that investigating also represented the State in my appeal of the first court case to the NH Supreme court.

5. In my second attempt to review Jaffrey ballots after the November 2012 election, the same AG individual represented the state, arguing against access. The lower court gave its opinion based on provably false claims by the SoS and AG and the Supreme Court did not correct the error.

6. I discovered a “material fact” that would probably have changed the outcome of the case after the court’s March 2016 opinion and reported it to the AG in November 2017. He took no action against the SoS individual who KNEW the state’s main argument was false.

7. In October 2016, the AG and SoS took illegal and unconstitutional action against a town moderator, thus “forbidding” local election officials to fulfill their constitutional duty to voters to ensure a legitimate count.

Legislative leaders took no action on a request from citizens to independently investigate the SoS and AG action.

8. The violation of federal law was reported to the NH AG in Sept. 2017. His non-action gave permission for individuals with the right connections and opportunity to continue cheating in NH elections.

9. In January 2018, two individuals in the SoS office collaborated to misinform a legislative committee about NH’s compliance with federal law. House leadership of a particular party also opposed HB 1486.

10. Beginning May 2018 through today, the USDOJ has taken no action on the reported federal law violation, thus giving these same individuals permission to continue cheating.

11. On Oct. 18, 2019, Governor Sununu gave his written permission for those individuals to continue violating the federal law requirement and cheat in NH elections.

12. On November 20, 2019, the NH AG gave his written permission for those individuals to cheat.

13. One particular September 2020 contest shows evidence that cheating MAY have occurred and votes from thousands of NH voters stolen. There may be others I’m not aware of yet. Because of the pattern of criminal intent shown by individuals in the AG and SoS

offices, an outside, investigation would be needed to determine whether this cheating did or did not occur.

14. I will forward this thread to legislative leaders for their review and ask them WHO should investigate the September 2020 contest and to initiate a truth and reconciliation process that would 1) remove criminal penalties from those involved in what appears to be criminal conduct 2) let the public hear the truth of our NH elections so we can help prevent this kind of treasonous conduct from re-occurring in the future.

15. The next communication will be with House and Senate ELC chairs to see how we can return NH elections to the “rule of law” consistent with our constitution and vision of our ancestors.

Respectfully,
Deborah Sumner

PS At least 13 of my NH ancestors fought in the Revolutionary War from NH. My dad, born and raised in NH, and the source of my deep roots here, was a doctor in WW II.

On Sep 30, 2020, at 9:26 AM, Deborah Sumner
<dsumner@myfairpoint.net> wrote:

Dear Mr Chong Yen et al,

I have not yet received confirmation that you have received this communication. Please do so ASAP.

For all who are copied here, I know this is an unusual way to ask for the AG to investigate violations of election law. However, you'll note the first communication in this thread was addressed to current and past chairs of legislative election law committees. On Sept I wrote, “ In reading through the report from the Attorney General showing how that office dealt with reports of election law violations from Sept.1, 2016 to May 24, 2018, I notice two violations other citizens

and I reported aren't mentioned at all, so I include these for your information."

Then I learned of what had been communicated to local election officials about the federal law requirement that was brought to Mr. MacDonald's attention in Sept. 2017 and want to make sure you all know what is asked for in THIS investigation in case the AG chooses to ignore it (as the two noted on Sept. 1). If he does, this will not be included in report to legislators covering this time period.

Since the previous email of Sept. 25, it has become more clear to me that certain individuals show a pattern of criminal intent that MAY have crossed into criminal conduct in the Sept. primary. There is one race in particular that I have significant questions about and I will share this email with two people I have informed about that possibility. There may be others, but I haven't fully researched that yet.

The AG, who considers the SoS a client, cannot independently investigate this matter nor can he appoint someone to do so. WHO should appoint an independent investigation? I ask legislative leaders to have that conversation because I'm not aware of any law that addresses that question and you may need to seek advice from your attorneys.

ANY attempt to steal the right of self-government from the citizens of NH (as exercised by their duty as voters) has to be addressed and properly dealt with. Wouldn't that be considered treason?

Thank you.

<dsumner@myfairpoint.net> wrote:

Dear Mr. Chong Yen and other NH AG officials,

My understanding from Mr. Chong Yen's Sept. 21 email is that the AG will NOT be enforcing this provision of federal law in November and that election officials in computer count towns will have to continue to illegally disenfranchise NH voters (probably mostly Democratic ones) and allow election fraud in their community's elections, in violation of several of our state laws. They will then perjure themselves by signing the poll tape certifying the election was held in accordance with state laws.

YOU have the responsibility to tell them that is what the AG and SoS want them to do and let them choose whether or not they will do it.

The AG still needs to investigate the actions of Bud Fitch and David Scanlan in knowingly giving false information to public officials and the House election law committee in 2018 re: HB 1486. Mr. Scanlan and the House Republican leadership (Dick Hinch representing them) opposed the bill. **What did the Republican leadership know at that time about who is most likely to be disenfranchised by over voted ballots and do they have the connections and opportunity to make use of any or all of the known fraud potential of over votes with the AccuVote system NH uses to now "count" 90% or more of all NH ballots?** IF they knew, when did they know and how did they know it? WHO told them?

Three of the four fraud possibilities I know of would be eliminated if NH complied with the federal requirement.

I'm aware of several statutes that should prompt your investigation, under Chapter 641 Falsification in Official Matters, specifically RSA 641 **641:1 Perjury A II** (although Mr. Scanlan's testimony in 2018 was not under oath...

"Official proceeding" means any proceeding before a legislative, judicial, administrative or other governmental body or official authorized by law to take evidence under oath or affirmation including a notary or other person taking evidence in connection with any such proceeding. **"Material" means capable of affecting the course or outcome of the proceeding.** A statement is not material if it is retracted in the course of the official proceeding in which it was made before it became manifest that the falsification was or would be exposed and before it substantially affected the proceeding. Whether a statement is material is a question of law to be determined by the court.

And definitely, this one:

641:3 Unsworn Falsification. – A person is guilty of a misdemeanor if:

I. He or she makes a written or electronic false statement which he or she does not believe to be true, on or pursuant to a form bearing a notification authorized by law to the effect that false statements made therein are punishable; or

II. With a purpose to deceive a public servant in the performance of his or her official function, he or she:

(a) Makes any written or electronic false statement which he or she does not believe to be true; or

(b) Knowingly creates a false impression in a written application for any pecuniary or other benefit by omitting information necessary to prevent statements therein from being misleading; or

(c) Submits or invites reliance on any writing which he or she knows to be lacking in authenticity; or

(d) Submits or invites reliance on any sample, specimen, map, boundary mark, or other object which he or she knows to be false.

III. No person shall be guilty under this section if he or she retracts the falsification before it becomes manifest that the falsification was or would be exposed

It appears that Bud Fitch has violated his professional conduct standards and if that is found to be true (I've supplied you with the evidence in files sent Sept. 3), I would expect the AG to report that to the professional conduct committee.

I'm copying Sen. Dietsch on this. David Scanlan also knowingly misinformed her about NH's compliance with this HAVA requirement and she can be questioned by your investigator. I'm also including, as a bcc, the Jaffrey election official who can comment on what Mr. Fitch and Mr. Scanlan told election officials and can choose to share with this entire group. I have shared the Sept. 3 evidence with Jaffrey election officials, my state representatives and Sen. Dietsch. They all know of my concerns with how the AG has dealt with this issue.

Mr. Chong, I would appreciate knowing you received this communication. If you respond saying “there will be no response” we will all know the AG has chosen to ignore this conduct and will enable it to continue.

Thank you.

Deborah Sumner

On Sep 4, 2020, at 2:46 PM, Deborah Sumner
<dsumner@myfairpoint.net> wrote:

Watched the ballot testing in Jaffrey today. Just to confirm, the two over voted ballots were not rejected by the scanner showing NH is STILL violating federal law. Also, an official told me that Dave Scanlan and Bud Fitch had recently assured state election officials that NH WAS in compliance with the HAVA requirement. Let me know if you need something from that official.

- 1) I request the AG to issue a cease and desist order to stop Scanlan and Fitch from what appears to be a pattern of intentional misleading of public official on this section of HAVA and take other appropriate action.
- 2) request of David Cote and Barbara Griffin (who chaired the committee in 2018) that you and the Election Law Committee will take appropriate action against Scanlan and Fitch for misinforming policy makers about state compliance. Scanlan’s testimony on HB 1486 linked in the “HAVA Over view” document sent earlier.)I add that the House Republican Leadership OPPOSED that bill, which raises the question: Did the Republican Party know something the Democratic Party did not? And if they knew, **when** did they know and **how** did they know it?

I continue to hope we can resolve this before the November elections. Your nonaction will cause the legitimacy of our elections to be open to question, by voters, candidates and anyone else who is interested in our elections.

Thank you.

Deborah Sumner

<dsumner@myfairpoint.net> wrote:

PS I have now shared the attached with a number of people and you should have it, too. I had prepared them in the hopes someone who had influence with Bill Gardner could meet with him and resolve this informally. It's possible he doesn't know NH is violating federal election law.

I couldn't find anyone who believed he or she could influence him. Perhaps Mr. MacDonald is that person?

MA, VT, and CT all have LHS Associates program their AccuVotes. ALL of them comply with the election day over vote requirement AND also return completely blank ballots to voters for possible correction. Voters might circle the oval, make their selections outside it, or write a candidate and not fill in the oval, for example. ALL of those are valid votes under NH law, where voter intent is the legal standard. The computer has an override function that would allow voters to cast a completely blank or over vote ballot if they choose to do that. Voter privacy and the secret ballot can be maintained.

For example, in Jaffrey for the presidential primary, the computer reported 2 completely blank ballots and 5 over voted ones. There would be no way to know how many of those contained legal votes. Some states review all absentee ballots to determine voter intent and NH should do that, too to comply with current NH law. RSA 659:64.

This would also comply with RSA 656:42, I “The ballot law commission shall make such rules as may be necessary in order that electronic ballot counting devices may be used in this state in such a manner that the election laws may be complied with as far as possible.”

<http://www.gencourt.state.nh.us/rsa/html/lxiii/656/656-42.htm>

I'd also like to see required reporting of over votes from each jurisdiction. That way if something is way off in a few places, someone could check to see why. Both VT and FL require that by law. I expect there are others. NH can develop a best practice approach that we can all be proud of. The link to the 2004 EAC report in the first attachment shows many of those best practices NH can adopt.

If the NH AG, SoS and Legislature jointly recommended those rules to the BLC, I expect they would enact them.

Sept. 1, 2020

Dear Honorable Members of the House and Senate Election Law Committees,

In reading through the report from the Attorney General showing how that office dealt with reports of election law violations from Sept. 1, 2016 to May 24, 2018, I notice two violations other citizens and I reported aren't mentioned at all, so I include these for your information.

In addition, I reported to Mr. MacDonald on Nov. 27, 2017 that information presented by his office in a court case was provably false

and asked him to take corrective action. He didn't. Available on request.

<https://www.doj.nh.gov/election-law/documents/20180524-election-law-complaint-status-report.pdf>

All three issues remain unresolved, with more and more people becoming aware of them. I continue my commitment to a just resolution for all three, using a restorative justice model. I am willing to work with the AG's office and legislators to that end.

The first complaint received no response. Anne Edwards responded to the second one Sept. 12, 2017 saying, "We have received your communication and will review it. However, we will not be providing any further response to you regarding your communication."

I have since learned that Democratic voters are more likely to be disenfranchised by NH's continuing violation of federal law (since Jan. 1, 2006) and that has been known since the 2000 Presidential election. Information available on request.

Respectfully,

Deborah Sumner

Unresolved issue 1:

Subject: Complaint: Reporting Probable Violation of Election Law by Secretary of State re: Derry Moderator

Date: October 27, 2016 at 10:10:53 AM EDT

To: brian.buonamano@doj.nh.gov, "Edwards, Anne M."
<Anne.Edwards@doj.nh.gov>, [electionlaw](mailto:electionlaw@doj.nh.gov)
<electionlaw@doj.nh.gov>, joseph.foster@doj.nh.gov

Dear Mr. Buonamano,

I would appreciate a reply so I know you received this and also that you received the email sent you Oct. 25. I will also send you a copy of this by regular mail.

It appears that the Secretary of State has violated the law in attempting to prevent the Derry moderator from performing her legal duty to ensure accurate vote counts in November. RSA 659:60 (and also in fulfilling the spirit and intent of RSA 659:63, mandating all "vote counting be conducted in public so the public may observe the vote counting process as it occurs." *Deborah Sumner v. Secretary of State, 2016*.)

RSA 666:3 Official Misconduct. – Any public officer upon whom a duty relating to elections is imposed who shall knowingly fail to perform such duty or who shall knowingly perform it in such a way as to hinder the objects thereof shall be guilty of a misdemeanor if no other penalty is provided by law.

Excerpt from chronology of events re: Jaffrey Nov. 2010 (can share the entire file with anyone who requests it)

Prior to Oct. 25 – Secretary of State's Office contacted Jaffrey Town Clerk and told her this was a "recount" and illegal. Moderator checked with the Attorney General's office, verified it was legal and planned to go ahead.

Nov. 1– I forward this info to Jaffrey, Peterborough, and Rindge Town Clerks and Moderators

Here's some information in response to David Scanlan's memo of Oct. 27 (Ex.A).

Wally Fries was a member of the electronic voting advisory group, who conducted parallel hand counts for each election.

I'm willing to speak with any moderator or town clerk that wants to give me a call. There is no good reason for the resistance to parallel hand counts either legally or procedurally (including time and cost because it takes very little time to count a single race even with a couple of thousand plus ballots on the table). Neither Scanlan or Gardner has ever expressed any opposition to the parallel count procedure. I have always stressed the importance of public confidence in the process and suspect most moderators would share that sentiment upon careful reflection. On Monday I will be in a meeting until late in the day but leave me a message at ----- and I will return the call. The SoS and DS words of guidance may, as a result of the cautious tone of there phrasing, be misinterpreted by those moderators offering resistance. The resistance can come about for other reasons as well, viz., afraid of the work associated with something unfamiliar or as a reaction to the strident tone or not knowing how to say no to accepting someone as a counter whose independence they hold in question, etc.

Wally

Nov. 2 - Assistant Attorney General Matthew Mavrogeorge responds by email to my request to confirm “election night hand counts are legal for any polling place, including those that have vote counting machines.”

He wrote, “Moderators are given significant authority to determine what procedures at their polling place are necessary to ensure an accurate count.”

If you have any question about moderators having the authority to perform their legal duty, you should check with former Deputy AG Bud Fitch, who called Wally’s parallel hand count procedure an example of NH common sense.

Your office should immediately issue a cease and desist order to stop the Secretary of State from interfering with this legal duty. And, minimally, a public apology should be made to the Derry moderator.

Thank your for your timely response to this complaint, which you need to address before Nov. 8.

I am including a link to the 2006 Ballot Law Commission decision to approve the flawed technology with the full understanding as voiced by the chairman, "Even in the towns that have the machines, they can still turn around if they want to and hand count these things. Nothing is stopping this Committee today from allowing them to do that.

"They choose to use this electronic machine if they want to. They don't only have to use that. They can also hand count them."

<https://www.youtube.com/watch?v=3ysheRLXuhA> (Note: Link no long works. Have a transcript of the hearing available.)

E-Mail: electionlaw@doj.nh.gov

Dear Mr. Buonamano,

I am writing you on behalf of a large group of Keene citizens (70+ petition signatures) working toward selected hand-count audits of computer vote counts, as advised by the NH Electronic Ballot Counting Device Advisory Committee, November 30, 2009: "*Over the*

long run, public confidence relies on the state and local history of accuracy, security, transparency, and reliability in the ballot counting process. One of the most effective and least expensive ways to achieve these goals is to conduct random hand counted audits of tabulator counts immediately after the election.” Our group includes several lawyers and former or current NH House members. One of the lawyers wrote a legal opinion which I attach to this letter.

Public support for auditing here in Keene, as evidenced by a Sept. 10th, 2015, City Council committee meeting and several editorials in the Keene Sentinel, has been clear and strong. After we were advised by Stephen LaBonte (March 8th, 2016)) that the City of Keene “did not have the statutory authority” to audit, we realized that the authority for such audits lies solely with the moderators under current NH law. So, we are pursuing that avenue and count on persuading one or more moderators in Keene to audit at a future date.

The legality of such audits by moderators is clear: RSA 659:60 and also RSA 659:63. The 2014 NH Election Manual states on p. 40: *In recent elections, some moderators have been asked to conduct a second count (hand count) of certain races on election night. **Moderators may use their discretion as to whether or not they will conduct such a count on election night.***

Audits to verify computer tabulations have been done for many years by moderators of Amherst, Brookline, Danville, Hollis, Londonderry, and Milford with full knowledge of the Secretary of State’s office. On Nov. 2, 2010 Assistant Attorney General Matthew Mavrogeorge wrote: *“Election night hand counts are legal for any polling place, including those that have vote counting machines. Moderators are given significant authority to determine what procedures at their polling place are necessary to ensure an accurate count.”* (Response to an email from Deborah Sumner)

Of course we were interested to hear that Derry’s moderator Mary Till had used her authority and discretion, as described in the 2014 Election Manual, to conduct an audit of one machine in the Derry

primaries. **But now we are deeply concerned about the recent actions taken by the Secretary of State to deny Derry's moderator Mary Till her clearly stated authority to verify a computer's vote count.**

Replying to William Gardner's claim that she conducted an illegal recount, Mary Till said: "What I did was audit one race on each ballot on one machine just to make sure the machines were working properly."

Mary Till used the authority given to her by NH law and we here in Keene are asking you to confirm that she was fully within her right to do so. We expect a timely response from you.

Sincerely,

Gerhard Bedding, 25 Ivy Drive # 43, Keene, NH 03431. Tel. 603-355-2202

<Espiefs Statement.pdf>

Unresolved issue 2

September 9, 2017 (sent by regular mail)

Gordon J. MacDonald, Attorney General
NH Department of Justice
33 Capitol Street
Concord, NH 03301

Dear Mr. MacDonald,

We recently learned that even though NH has chosen not to comply with federal standards for voting equipment, it is still supposed to be following minimum standards specified in Section 301(a) of HAVA, which includes 3) **notify the voter when more selections are made than permitted** (over votes).

See links to Press Release and 2015 standards below.

<https://www.eac.gov/assets/1/28/EAC%20Updates%20Federal%20Voting%20System%20Guidelines-News-Release-FINAL-3-31-15-website.pdf>

<https://eac926.ea-admin.com/assets/1/Documents/VVSG.1.1.VOL.1.FINAL.pdf>

NH is the only state we know of that does NOT program its computers to return over voted ballots to election day voters for possible correction.

Known reasons for over votes:

- 1. If a voter changes his/her mind, crosses out one vote and fills in another oval, voter intent could be determined by visual inspection, but not by the computer)**
- 2. Creases on absentee ballots counted as “votes”**
- 3. Voter intent not recognized by computer**
- 4. Stray marks/dust counted as “votes”**
- 5. Computer or programming error**
- 6. Specks on the paper due to the printing process**
- 7. Two KNOWN possibilities for fraud (let me know if you want to know what they are). Note: now aware of four. Although he didn't ask, the specifics have now been shared with the AG's office.**

Philip Stark, statistics professor and associate dean of mathematical and physical sciences at UC Berkeley, has testified in court that “There are documented instances where scanners have high rates of erroneously inferring that valid votes are over votes.”

See link to Doug Jones
article:<http://homepage.cs.uiowa.edu/~jones/voting/optical/>

Over vote rates for Jaffrey appear to be extremely high, but since the 2010 law requiring reporting over votes to Concord was changed, there is no way to know if this is typical of the rest of the state.

In Nov. 2012, **71 of 2,843** Jaffrey ballots tabulated by the AccuVote were recorded as over votes, **2.5%** of the total. Nov. 2014, **21 of 1,945** ballots, **1.1%**. Nov. 2016, **49 of 2,867** ballots, **1.7%**.

It appears likely that hundreds, even thousands of voters are being disenfranchised every election, in violation of **RSA 659:64 Determining Intention of Voter** and HAVA. That can make a difference in close races such as we had in November (information previously shared with your office).

We respectfully request:

1. In consultation with Anthony Stevens, Assistant Secretary of State, issue a directive to LHS Associates to begin programming all AccuVotes to return over voted ballots to election day voters for possible correction, Make sure local officials know how to preserve voter privacy when that occurs and how to use the over ride function if needed for absentee ballots or voters who don't have time to vote a new ballot. (See RSA 656:42)

2. Require reporting of over votes to Concord and that the Secretary of State prepare proper reporting forms for each election that include a candidate for federal office. (Amend RSA 659:73).

3. If you determine legislative action is needed for either/both of the above, to work with a legislator to draft the legislation and speak for it in committee.

4. If you decide to take no action on this request, please let us know ASAP and no later than **Sept. 18**.

Thank you.

Respectfully,

Deborah Sumner

Re: SB 43 Testimony

Dear Honorable Members of the House Election Law Committee:

SB 43 is a critical piece of legislation, as the confidence of our citizens in our elections depends on determining with absolute certainty what caused the Windham vote count discrepancy. In my six years in the House, and now starting my fifth year in the Senate, this issue has by far surpassed any other in the level of concern expressed in hundreds of emails, phone calls and text messages.

Attached please find suggested edits to SB 43 that would strengthen its language and make clear the intent of the Legislature regarding the necessary thoroughness of the audit to be conducted. This letter seeks to explain the rationale for these edits.

Regarding item:

3. Location: This audit is being performed to reassure the citizens of Windham that their AccuVote machines operated properly on November 3rd. Accordingly, the audit should be performed in their town, in front of their citizens. Moving sensitive electronic machines over frost heaves and potholes in the middle of winter could potentially damage hardware or software. Additionally, and perhaps most importantly, because 85% of our municipalities use AccuVote machines, we need to reinforce voter confidence in the machines. Performing the audit in Windham will alleviate mistrust and assist in increasing voter confidence. The Windham voting machines should stay in the possession of the Town of Windham throughout the audit process.

4. Observers: Much as with Poll Challengers on election day, the credibility of this audit must be underscored by up-close-and-personal observers who can affirm the veracity of the audit process. Although they would not handle ballots or perform any audit functions, they must be able to challenge perceived irregularities and have their concerns addressed by audit staff. Again, this will enhance the public's trust in the audit process.

5. Audit Authorized: The original language of SB 43 states that the AG is "authorized" to conduct an audit. However, given that the AG has refused to do so and thereby required this legislation, use of the word "directed" will ensure that the AG conducts the audit.

The language in SB 43 allows the AG and Secretary of State to design and conduct this audit. However, my conversations with them indicate that they are uncertain of exactly how to proceed. The Windham Board of Selectmen, very concerned about the process, have already developed some specific procedures to achieve their objectives in conducting the audit. Collaborating with the AG and Secretary of State to incorporate their "express interests" into the audit process will enable them to determine and explain to their citizens the discrepancy between the November 3rd machine count and the November 12th hand recount.

- 1) Because the hand recount did not total the number of ballots processed on November 12th, the first order of business is to determine the number of ballots in possession of the Secretary of State that were processed for the November 12th hand recount.
- 2&3) Because there is a discrepancy between the hand recount totals of November 12th and those from the machines on November 3rd, both exercises will be repeated to determine if one or both were in error. To be certain that all four voting machines operated correctly, all 10,006 ballots will be processed individually through each of the four Windham machines.
- 4) To make certain that no additional error can be introduced into the audit process, the machines will be kept in their original operating condition as was in place for the initial machine count on November 3rd.
- 5) In hand recounts, most candidates gain a small number of votes. This is “background noise” and in this recount, Democrat candidates Singureanu, Azibert and Roman gained 18, 21 and 28 votes respectively. I have taken the largest of these gains (28) and rounded it up to 30 votes. Thus, if any of the audit totals (hand or machines counts) are 30 or more votes different from those of the November 3rd machine count totals, then the discrepancy and a machine malfunction would be confirmed. It is only logical, then, to see if this malfunction affected other races on the Windham ballot and accordingly, the audit would be expanded to examine those race totals.
- 6) To determine the cause of this large vote count discrepancy, a forensic audit of the machines must be conducted. Because the machines are owned by the Town of Windham, the forensic analysis should be conducted by a firm of their choosing. The AG and Secretary of State may of course make recommendations, but the final decision should be left up to the Town.

I hope this letter will help explain the reason for the suggested amendments to SB 43. Please feel free to contact me at any time with any questions you may have.

Thank you for your consideration.

Respectfully,

Bob Giuda
State Senator
NH District 2
Phone: (603) 219-9643

AN ACT

SB 43 - AS AMENDED BY THE SENATE

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty One

21-0405 11/08

authorizing an audit of the Rockingham County district 7 state representative race.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 Findings. Rockingham County district 7 state representative election night results and the results of a state recount declared the same candidates elected. On appeal, the recount was upheld by the ballot law commission. Those results were certified to the New Hampshire house of representatives. The house of representatives have seated those winners of the election. The election results are therefore final; however, questions have been raised regarding the variance between the election night results and the recount results. This act authorizes an audit which will respond to those questions.

2 Applicability. This act **authorizes** an audit of the Rockingham County state representative district 7 race from the November 3, 2020 general election.

3. Location. The audit shall be conducted in Windham, in a public forum, open to its citizens, at a facility designated by the Windham Board of Selectmen.

4) Observers. The Board of Selectmen shall designate a minimum of 4 observers to be present at each table and ballot counting device to closely observe the audit process. Any concerns raised by an observer shall be promptly addressed by the Attorney General or Secretary of State or their designee.

§ 5. Audit Authorized.

- I. Notwithstanding any provisions of law to the contrary, the secretary of state and attorney general are **directed** to conduct an audit of the Rockingham county district 7 state representative race using the ballots cast on November 3, 2020, in Windham, New Hampshire. The secretary of state and attorney general shall determine, in their discretion, the manner and process for conducting the audit. **The express interests of the Windham Board of Selectman shall be incorporated into the audit process.** The audit shall include:
- 1) A hand count of all of the Windham ballots from the Nov. 3rd General Election in the possession of the Secretary of State.**
 - 2) A hand count of all of these ballots for the Rockingham county district 7 state representative race.**
 - 3) 100% of these ballots shall be processed through each ballot counting device used in Windham on Nov. 3rd and the results for all races tabulated.**
 - 4) The audit shall use the 4 ballot counting devices used by the town of Windham on November 3rd, 2020 with the original memory cards in place.**
 - 5) If the audit shows that any state representative candidate's hand count or machine count totals are 30 or more votes different from the Nov. 3rd General Election machine counts, then the audit will expand to include a hand count of all races on the ballot. _____**
 - 6) An independent forensic analysis of each of the 4 ballot counting devices shall be conducted in the town of Windham, by a firm chosen by the Board of Selectmen.**
- II. The audit shall be a test of the ballot counting devices, not a recount of the results of the election. The results of this audit shall not alter the official results of the Rockingham County district 7 state representative race as determined by the ballot law commission ruling on November 25, 2020, upholding the recount of that race.

- III. The audit shall be conducted in public and shall be live streamed. The methodology and results of the audit shall be made public.
- IV. The secretary of state and the attorney general shall issue a report to the ballot law commission with a conclusion regarding whether the ballot counting devices accurately counted the sets of ballots audited. After receiving the report and pursuant to its authority under RSA 656:41, the ballot law commission shall make a determination as to whether the ballot counting device in use requires upgrading.
- V. The secretary of state and attorney general are granted authority to unseal the ballot boxes from the town of Windham's November 3, 2020 general election in order to conduct the audit. **This will only be done in the presence of the public on the day of the audit.**

4 Effective Date. This act shall take effect upon its passage.

OUTLINE

REQUEST: TO HAVE THE SELECT BOARD AUTHORIZE ADDITIONAL TESTING OF THE TOWN'S BALLOT MACHINE TO DETERMINE ITS ACCURACY & RELIABILITY

1. Introduction.
 - A. Gov. Sununu "Here in New Hampshire ... we have an incredible track record of being right, reliable, and on time".
 - B. The Brennan Center has sounded the alarm about aging voting machines that affect vote counts due to malfunctions from wear and tear rather than hacking or manipulation. NH Machines are over 20 yrs. old.
 - C. Election integrity has been highlighted as a major concern nationwide as the election security landscape has become more complicated.
 - D. Now we have unexplained irregularities in the Windham election results from November.
 - E. Residents are now questioning the veracity and dependability of our voting system and are demanding assurances that it is reliable!
2. Windham Problem.
 - A. Moderator did all of the minimum prescribed tests before the election. No problems found.
 - B. The Moderators post-election accounting of the disposition of all of the ballots received, cast and discarded, balanced out.
 - C. A recall petition was filed due to the close reported results.
 - D. Despite the Moderator's reconciliation of the ballot and machine counts, the hand count discovered hundreds of extra votes and discrepancies in the machine count candidates tallies as high as 300 votes. These variances affected both Parties.
3. Other abnormalities have been reported in other communities and are seen in Hampton Falls.
 - A. As seen in the 601 Alliance Report

3 COUNTIES WHERE THE JEANNE SHAHEEN VOTE INCREASED THE MOST:

- 1) Rockingham: + 96.20%
- 2) Hillsborough: + 92.14%
- 3) Strafford: + 87.33%

WITHIN ROCKINGHAM COUNTY:

- 1) Derry: + 106% (flipped from Rep. to Dem.)
- 2) Hampton Falls: + 119% (flipped from Rep. to Dem.)
- 3) Londonderry: + 124% (flipped from Rep. to Dem.)

- B. Hampton Falls results shows an abnormality in the Governor's race. The republican candidate having a 44% spread over the Democratic candidate as compared to the 7-13 % found in other state races.
4. Resolution -Verify - Publish & Restore Trust
 - A. General Rule of Thumb. A good technology management strategy will include an *evaluation and audit strategy* to ensure not only that the right technology was implemented according to plan, but that it also continues to operate according to plan throughout its useful life. Evaluation and audit are essentially two sides of the same coin; however, they have different emphases.
 1. Audit functions generally *encompass an element of external* or separate monitoring of an organization or system. Whereas;
 2. *Evaluation*, while used as an auditing tool, can be *used by managers and users to measure the success of their own systems and improve performance.*

- B. Test the Machines at their original location using the ballots, people and processes that were used at the election.
 - 1. Although staffed by Windham have the Test supervised by the SOS and AG
 - 2. Using the November ballots, do a hand count of all races and compare the hand count to the election night machine count and Moderators Worksheet.
 - 3. Run ballots through the machine to test its capabilities and to determine reliability and accuracy.
 - 4. Run the ballots through other machines.
 - 5. Compare all results
- C. **Publish** the Results and if required initiate the proper action to fix the problems identified.
- D. Invite the public to watch so that ***Trust in the System*** can be restored.

REPORTED ISSUES WITH OPTICAL SCAN MACHINES

Venture Beat - <https://venturebeat.com/2020/11/01/optical-scanning-machines-are-susceptible-to-miscounting-u-s-voter-ballots/>

Optical Scanning Machines Are Susceptible to Miscounting U.S. Voter Ballots -By Kyle Wiggers -
@Kyle_L_Wiggers

November 1, 2020 10:25 AM

“During the 2000 presidential election, Orange County, California’s optical scan machines failed to count more than 400 votes “for no apparent reason.” And tens of thousands of ballots in Florida weren’t counted as the result of scanner failures”

“Dust, creases, and hardware failures also commonly throw scanners for a loop. In Florida, Sequoia machines sometimes mistook the folds in paper ballots for a vote. Election officials in Volusia County, Florida reported that memory cards in Diebold-manufactured scanners failed during the 2006 election, contributing to a 4.4% error rate. (By 2007, nearly 25,000 Diebold optical scans machines were in use nationwide.) In the District of Columbia during the 2008 election, a defective cartridge caused vote totals to be duplicated into multiple races, and Douglas County, Colorado said it would discontinue the use of ballot scanning machines from Hart InterCivic because of their tendency to read stray marks as votes.”

“Ballots cast by Black, Hispanic, and young voters are flagged for rejection substantially more often than voters overall, studies show. That’s because they’re statistically more likely to be [voting for the first time](#). According to data analyzed by Dan Smith, a political science professor at the University of Florida, Hispanic voters in Florida during the March 2020 presidential primary were 2.7 times more likely to have their ballots flagged compared with white voters. A California Voter Foundation survey found that during the November 2018 election, the rejection rates for voters in California between the ages of 25 and 34 were nearly double that of all voters.”

“Some scanner issues are likely to fly under the radar because of disparate ballot-counting audit practices. As of mid-2019, only Colorado, New Mexico, the District of Columbia, and Rhode Island require local election officials to perform audits (1) before official results can be certified, (2) that expand to a statewide recount whenever the audit detects serious discrepancies, and (3) that are binding on the official results. An additional 19 states prescribe audits that check a flat percentage (typically between 1% and 3%) of voting machines or precincts, which can detect problems in voting machines but can’t confirm the correct results except in races with large margins.”

Brennan Center for Justice as Reported by the Concord Monitor

“Malfunctions may be the result of wear and tear rather than hacking or manipulation. For example, vote flipping can be caused by the glue between the touch screen and the machine wearing down.

- ***The Brennan Center has sounded the alarm about aging voting machines for years. In 2018, jurisdictions in 41 states used voting systems that were at least a decade old.”***

Brennan Center Report – As reported by Venture Beat 11/01/20

“A Brennan Center report suggests that *prevention is the best remedy to potential issues that might crop up* during the election. “Voting system vendors should be required to report both voting system failures and vulnerabilities they have knowledge of,” the report concluded. “Vendors should also be required to make reports to the database when they receive a complaint from a customer (i.e., election official), whether or not they agree that their machine was the cause of the alleged problem; when they receive a warranty claim and/or take some action to satisfy a warranty; when they are notified by a customer of a usability issue that could lead voters or poll workers to operate the system in a way that would lead to disenfranchisement or the recording of an unintended vote; when they conduct an investigation of a reported problem; and when a customer or other person sues them.”

Scientific American - <https://www.scientificamerican.com/article/an-expert-on-voting-machines-explains-how-they-work/> By [Sophie Bushwick](#) on November 3, 2020

*“Although the technology used in voting continues to evolve, it remains vulnerable to both malicious and unintentional errors. To protect the systems against both, explains [Douglas W. Jones](#), a computer scientist at the University of Iowa and co-author of the book *Broken Ballots*, election officials need to be able to check and double-check the election’s results.*

“There’s a nice dictum that that [computer scientist and electronic-voting-security researcher] [David Dill](#) came up with at Stanford University: if we do it right, the Devil himself could build the voting machines, and we could hold an honest election,” Jones says. *“And doing it right means having genuinely auditable technology”*

“This is an old rule in computer security that I first learned in the 1970s, no less true today. And that is: *the biggest threat to all of our systems is not the malicious outside hacker but rather the fact that there are lots of perfectly honest normal people making errors.* We humans have an amazing ability to be remarkably accidentally inventive with the mistakes we make.”

[NYSBOE report regarding ES&S DS200 optical scan voting ...](#)
www.eac.gov > [sites](#) > [files](#) > [eac_assets](#) > [PS65 Overvotes](#)

“During the 2010 general election, poll site PS 65 in Bronx County, which serves eight election districts, experienced a higher-than-normal rate of overvotes on one of the voting machines located at the poll site. The poll site in question had three optical scan voting machines (ES&S DS200) in use at that election”

“These votes were termed ‘phantom’ votes, the cause of which would be the subject of on-site analysis by the State Board, the Bronx Board of Elections voting system team, and vendor representatives from ES and S.”

.”... It was then decided that this type of processing would not normally occur in a poll site, as voting takes place over a 16-hour day. ... we decided that perhaps the lighting at the poll site had a negative effect on how the scanner performed, as some poll sites have better lighting than others ...”

“The first ballot scanned correctly but on the second, third and fourth ballots we finally saw evidence of phantom overvotes. ... we began scanning additional ballots but this time without the additional light from the “flashlight”

application. The phantom votes still occurred on a regular basis. We used ballots actually cast in the election in question along with blank ballots from the same election. Even when casting the same blank ballots more than once, some would at times scan as a blank ballot, scan as a correctly marked ballot and scan with phantom overvotes."

"After we hit the 2 hour mark the unit began misreading ballots on a regular basis."

*"Conclusion It appears that the unit was out of calibration and when the unit heated up over a period of time, the scanned image was distorted and the system recorded votes that were not marked. As can be seen on the attached ballot there are several areas on the image that appear much darker than others. If the system is distorting the ovals on the ballot so that they appear darker than they should, the additional darkened area can be interpreted by the system as a marked oval. The NYSBOE states in its procedures (as distributed to all boards) and reiterates here, that all counties using the ES&S optical scanner clean and calibrate each scanner as part of their pre-election test procedure. **It is further recommended that all counties, regardless of voting system vendor should also put into place a procedure that would identify when a result tape appears to reflect numbers that seem out of the ordinary (i.e. high number of overvotes), and thus trigger the further review of the tape and/or system. This procedure could include a step that would then force the scanner with the anomaly to become an additional unit in the post-election 3% audit."***

INSTRUCTIONS TO VOTERS

**ABSENTEE BALLOT AND OFFICIAL BALLOT
FOR**

HAMPTON FALLS

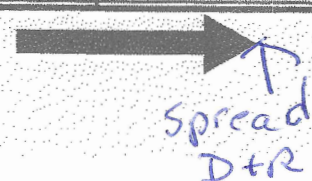

**GENERAL ELECTION
NOVEMBER 3, 2020**

SAMPLE

- 1. **To Vote.** Completely fill in the oval to the right of your choice. For each office vote for not more than the number of candidates stated in the sentence: "Vote for not more than ____." If you vote for more than the stated number of candidates, your vote for that office will not be counted.
- 2. **To Vote by Write-In.** To vote for a person whose name is not printed on the ballot, write in the name of the person in the "write-in" space. Completely fill in the oval to the right of your choice.

SENATE BILL **43**

AN ACT authorizing an audit of the Rockingham County district 7 state representative race.

SPONSORS: Sen. Gannon, Dist 23; Sen. Avar, Dist 12; Sen. Bradley, Dist 3; Sen. Ricciardi, Dist 9; Sen. Giuda, Dist 2; Rep. Piemonte, Rock. 4; Rep. Baldasaro, Rock. 5; Rep. Welch, Rock. 13

COMMITTEE: Election Law and Municipal Affairs

AMENDED ANALYSIS

This bill authorizes an audit of the Rockingham county district 7 state representative race.

Explanation: Matter added to current law appears in ***bold italics***.
Matter removed from current law appears [~~in brackets and struckthrough.~~]
Matter which is either (a) all new or (b) repealed and reenacted appears in regular type.

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty One

AN ACT authorizing an audit of the Rockingham County district 7 state representative race.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 1 Findings. Rockingham County district 7 state representative election night results and the
2 results of a state recount declared the same candidates elected. On appeal, the recount was upheld
3 by the ballot law commission. Those results were certified to the New Hampshire house of
4 representatives. The house of representatives have seated those winners of the election. The
5 election results are therefore final; however, questions have been raised regarding the variance
6 between the election night results and the recount results. This act authorizes an audit which will
7 respond to those questions.

8 2 Applicability. This act is limited to authorizing an audit of the Rockingham County state
9 representative district 7 race from the November 3, 2020 general election.

10 3 Audit Authorized.

11 I. Notwithstanding any provisions of law to the contrary, the secretary of state and attorney
12 general are authorized to conduct an audit of the Rockingham county district 7 state representative
13 race using the ballots cast on November 3, 2020, in Windham, New Hampshire. The audit shall
14 include hand counting 4 separate sets of ballots from the Rockingham county district 7 state
15 representative race. To allow for a direct comparison of the results from the 2 systems for counting,
16 the audit hand count shall include all counts done by the ballot counting device, including votes cast
17 for candidates on the ballot, write-in votes, and blanks or undervotes. The same sets of ballots shall
18 be counted using a different ballot counting device for each set. The audit shall use the 4 ballot
19 counting devices used by the town of Windham on November 3, 2020. The audit shall compare the
20 results from each device to the results from hand counting the same set of ballots. The secretary of
21 state and attorney general shall determine, in their discretion, the manner and process for
22 conducting the audit.

23 II. The audit shall be a test of the ballot counting devices, not a recount of the results of the
24 election. The results of this audit shall not alter the official results of the Rockingham County
25 district 7 state representative race as determined by the ballot law commission ruling on November
26 25, 2020, upholding the recount of that race.

27 III. The audit shall be conducted in public and shall be live streamed. The methodology and
28 results of the audit shall be made public.

29 IV. The secretary of state and the attorney general shall issue a report to the ballot law
30 commission with a conclusion regarding whether the ballot counting devices accurately counted the

SB 43 - AS AMENDED BY THE SENATE

- Page 2 -

1 sets of ballots audited. After receiving the report and pursuant to its authority under RSA 656:41,
2 the ballot law commission shall make a determination as to whether the ballot counting device in
3 use requires upgrading.

4 V. The secretary of state and attorney general are granted authority to unseal the ballot
5 boxes from the town of Windham's November 3, 2020 general election in order to conduct the audit.

6 4 Effective Date. This act shall take effect upon its passage.

House Election Law Committee Members:

Attached to this email you find the signatures of 337 citizens of New Hampshire that have signed a NH Voter Integrity petition (nhvoterintegrity.org) for people that want faith in their elections! We are collectively demanding action be legislated immediately on Senate Bill SB43 with a 100% supportive vote by each member of this election law committee. The citizens of New Hampshire MUST have faith and trust in the electoral process. This is NOT a partisan issue, it about protecting our constitutional rights in making sure all citizen's votes are counted accurately, fairly, and honestly.

The Secretary of State and Attorney Generals' office has ignored our voices since November 16, 2020, in its refusal to investigate the machines and the ballots that produced the largest unexplained recount error in NH history. On a February 5th Zoom call with five State Senators, the Senate legal counsel, and the Assistant Secretary of State; assistant AG Edwards and Election Law Chief Chong Yen stated categorically that they are not going to investigate the machines or the total ballot count – the only two actions that can provide the answer to what exactly happened in Windham, NH. Because of this, Senate Bill SB43 passed unanimously in the NH Senate by a 24-0 vote to legislatively force actions to be taken by an audit. The amendments made to SB43 by the Windam Selectman for the process of how the audit is conducted are essential and imperative to ensure the full transparency and accuracy of said audit.

The citizens of New Hampshire have been ignored until now; we have been waiting for months for answers. It is time to do the right thing for the citizens of New Hampshire that ELECTED YOU and get this passed so a forensic audit can be performed without any further delay.

PLEASE SUPPORT THE VOICES OF YOUR CONSTITUENTS!

Sincerely,

The 337 Signers of NH Voter Integrity

Dear Members of the Election Law Committee,

I've attached written testimony for SB 43 and ask that it be included in the legislative history for this bill.

I won't be testifying in person on this bill. My sincere hope is that we can begin to address long-time systemic issues in the AG's office. I emphasize that my problems with the AG's lack of election law enforcement began in 2010 and has continued through today. Legislative leaders have ignored my requests for help.

I have labeled the SoS/AG relationship as showing a "culture of impunity" that isn't healthy for any of us, including those in the SoS and AG's offices. NH deserves better of our public servants.

Respectfully,

Deborah Sumner

Subject: Request to Amend SB 43 to include Investigation of Derry ballots
Importance: Normal
Attachments:
[Gen Elec Overvotes - Derry.xlsx](#) 

Dear Honorable Members of the House Election Law Committee,

My understanding is that you may be acting on SB 43 as amended by the Senate this week (requiring an “audit” of Windham ballots).

I ask that you amend the bill to include an investigation into an alarmingly high overvoted ballot rate in Derry (4.2%), particularly with computer counting ONLY absentee ballots (14.2%). See the Dec. 2, 2020 request below.

These are the questions the AG has failed to investigate or answer:

- 1) We ask you to use your authority under RSA 656:42 IV to investigate an alarmingly high overvoted ballot rate in Derry for the November 2020 election. Derry reported a total of 6,428 absentee ballots of 18,100 ballots cast. Some would be overseas ballots and others tallied by hand.
- 2) Are absentee ballots statewide showing a significantly higher voter disenfranchisement rate than election-day ballots?
- 3) If so, why? What are your recommendations for decreasing these numbers?

“We ask that any review of Derry ballots be a transparent, public process and that your findings include recommendations to policy makers, election officials and or the Ballot Law Commission, which makes rules for the use of computers in NH. RSA 659:64 requires that NH enfranchises as many voters as possible. *Appeal of McDonough*, 149 N.H.105, 112 (2003).

I would add that NH has a remedy for an AG that refuses to do his/her job, and that is removal from office. Passing a law to do what he already has authority and duty to do is setting a dangerous precedent. You are giving the message that he/she has to do his/her job ONLY if the legislature passes a tailor-made bill that requires AG to investigate ONE specific issue (and has your permission to ignore all the others, including Derry).

IF you recommend passing SB 43, you will have to include the Derry investigation and ANY OTHER the AG has failed to do that involves the November 2020 election.

I would prefer that the bill stipulate asking the county attorney to investigate Derry, not the SoS and/or AG. I can explain the conflict of interest if asked.

The county should be reimbursed for costs from the AG’s budget.

I'm including Reps. Abramson, Harvey-Bolia and Yakubovich on this request because their bill, HB 372, shows we sometimes need an alternative when the NH Attorney General refuses to do his/her job or when there is a conflict of interest in enforcing election laws.

Please let me know if you have any questions.

Thank you.

Deborah Sumner

Re: Request for Investigation, high overvoted ballot rate in Derry/absentee ballots statewide

Dear Mr. MacDonald,

1) We ask you to use your authority under RSA 656:42 IV to investigate an alarmingly high overvoted ballot rate in Derry for the November 2020 election. Derry reported a total of 6,428 absentee ballots of 18,100 ballots cast. Some would be overseas ballots and others tallied by hand.

Enclosed is information from the eight computers used. Computer one tabulated ONLY absentee ballots (572 over voted ballots, 14.2%); other absentee ballots were counted by other computers, with a 4.7% overvoted ballot rate when totals are combined (848 ballots). Computer 5 also showed a high overvoted ballot rate, 5.8%.

You should be able to confirm the numbers with the town clerk.

In November 2018, Derry mostly tallied its absentee ballots on one computer, with an estimated 5% overvoted ballot rate for that computer.

2) Are absentee ballots statewide showing a significantly higher voter disenfranchisement rate than election-day ballots?

3) If so, why? What are your recommendations for decreasing these numbers?

As we told you in September 2017, folds in absentee ballots may be misread as overvotes, there are many instances of computers misreading valid votes as overvotes and there are fraud possibilities. One can be targeted to absentee ballots where the voter's party affiliation is known.

Since then, we have been doing some checks of overvoted ballots in various towns, but prior to this discovery, the highest was 2.5% in Jaffrey in the Nov. 2012 election.

NH doesn't require reporting of overvotes and neither law nor the SoS requires local officials to print that information for the general election. (Only 2 of Nashua's 9 wards had the requested overvote information available, 143 overvoted ballots of 10,702, 1.3%). It is impossible to know why or how many NH voters are being disenfranchised compared with other states or if certain races are impacted more.

Both Vermont and Massachusetts program their computers to notify election-day voters of a computer-read overvote or completely blank ballot so they can choose to request a replacement ballot and have their votes counted. NH doesn't.

VT reports overvotes for each contest and each locality, as you can see here.

<https://sos.vermont.gov/media/heqnbco5/generalofficialresults.pdf>

Overvote rate for President on election night was 278 of 370,968 ballots cast, .075%.

MA has recently completed its 3% post-election audit and found a total of 7 overvotes for all races counted on election night (100,349 ballots/over vote rate of .007%). Additional overvotes found in the audit (68 total for ALL races) were mostly attributed to 73 ballots not counted on election night.

<https://www.sec.state.ma.us/ele/elepostelection/postelectionidx.htm>

<https://www.sec.state.ma.us/ele/elepostelection/2020-Audit-Report-Narrative.pdf>

In NH, we are finding overvoted ballot rates almost always exceed 1%. Ballots may contain more than one error, thus disenfranchising voters for more than a single contest.

All three states had more absentee ballots this past election, but we see significant overvote voter disenfranchisement only in NH.

We ask that any review of Derry ballots be a transparent, public process and that your findings include recommendations to policy makers, election officials and or the Ballot Law Commission, which makes rules for the use of computers in NH. RSA 659:64 requires that NH enfranchises as many voters as possible. *Appeal of McDonough*, 149 N.H.105, 112 (2003).

Thank you. Please let us know if you have any questions.

Subject: Please support SB43 as amended with the Gardner Amendment
Response requested: Yes
Importance: Normal

This country is awash with disappointment and dismay over election district dishonesty. If there is nothing done wrong in Windham then there is nothing to be concerned with. Put all the talk to bed by supporting SB43 along with this Gardner Amendment:

THE AGREEMENT

Below is a summary of what we agreed to regarding the SB43 audit of the Windham, NH November 3, 2020 General Election. The audit will be completed within 45 days after SB43 is signed into law.

1. All four of the Windham, NH AccuVote voting machines and ballots will be forensically analyzed by a team of forensic analysts. One forensic analyst will be chosen from each of the two groups below to perform a full forensic analysis.

- a. Harry Hursti, Ron Rivest or Andrew Appel (Picked by the Secretary)
- b. Col. Phil Waldron, Dr. Shiva Ayyadurai (The SOS will allow me to choose)

Jovan Hutton Pulitzer will be asked to be a member of the forensic team.

The forensic analysts will determine, in their own discretion, the process that will be followed for the forensic analysis. The NH Secretary of State and the town of Windham will provide the forensic analysts with whatever resources the analysts deem necessary to perform a complete and thorough forensic analysis, including but not limited to, full access to the Windham AccuVote machines and all of the ballots from the Windham, NH November 3, 2020 election. The custody of Windham's AccuVote machines will remain with Windham Town Officials.

The audit will take place in a location other than Windham, NH or the customary recount locations for the Secretary of State. The Police Standards and Training Facility in Concord is currently being considered due to the size and security of the location as well as the ability to live stream with multiple cameras.

The forensic team will produce a report of their findings and present it to the Secretary of State, who will make it available to the public forthwith.

2. All of the the Windham, NH ballots from the November 3, 2020 election will be tallied through each of Windham's four AccuVote machines. The paper tapes from all four machines will show the results for all races, be compared with each other, and be included in the forensic report.

3. A hand count will be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race.

My sincere gratitude goes out to Secretary Gardner, Senator Giuda, Dr David Strang, House Election Law Committee Chairwoman Barbara Griffin, Tom Murray and the Windham Board of Selectmen!

Thank you!

Kathy

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Lorelei Davis

Merrimack Special Election Day

Heard Around New Hampshire

"Most people I know who are hunters don't use AR-15s when they're hunting deer."

— **Sen. Jeanne Shaheen.**

"Speaker Hinch was a close friend and mentor to many involved with New Hampshire politics, so the positive campaign Bill has run to carry on Speaker Hinch's legacy has deeply connected with Merrimack voters,"

--**NHGOP Exec. Director Joe Sweeney** (R-Salem) on Merrimack Special Election

"With so much at stake in Concord -- reproductive health care, voting rights, and a safe COVID recovery -- it's crucial to make sure we elect Wendy Thomas tomorrow for the Merrimack special election. She's running for the right reasons and her career in public service speaks for itself."

-- **NHDems Chair Ray Buckley** on Merrimack Special Election

“We think we can allow for closer seating outside once we get a much higher vaccination rate,”

—**Rep. Tim Lang (R-Sanbornton)** on *Economic Task Force recommendations loosening of COVID restrictions*

“Out of the hundreds of thousands of ballots cast this last year, we saw only very minor, isolated issues — which is proof our system works. This bill will help us audit an isolated incident in Windham and keep the integrity of our system intact.”

-- **Governor Chris Sununu** on signing *Senate Bill 43 to audit the Windham election discrepancy.*

"As a competency-based system, New Hampshire students are supposed to advance their studies based on the demonstration of mastery over a content area, not based on 'seat-time' in school."

-- **Commissioner of Education Frank Edelblut**

Join Grover Norquist Tuesday for a virtual conversation about the new tax climate and how we can keep N.H. competitive.

Hot Dog Day Dis Shows Sununu Doesn't Relish Working With House GOP

For many GOP House Republicans, it was Facebook snark that didn't cut the mustard.

Greg Moore of Americans for Prosperity popped a note in Rep. John Burt's FB timeline asking when Hot Dog Day will be held this year. Burt, a Goffstown Republican, hosts the annual event as an end-of-session gathering and fundraiser for volunteer dog rescue organizations. With an open invitation to the entire State House and staff — around 800 people — it's a major undertaking.

"Not sure if it will happen this year. It takes months to prepare and sadly the days are ticking away and we are still scared to go back to the State House," Burt replied. "Can you help?"

Various FB folks commented on the conversation, and then a post appeared from **Gov. Chris Sununu**:

Chris Sununu

On cooking hot dogs at the state house **John A Burt** says, "It takes months to prepare..."
If that doesn't sum up the NH Legislature, I don't know what does. 😏😏😏
...and you all wonder why I'm hesitant to give the Legislature control of Emergency Orders during a crisis?!?! 😂😂😂

Like · Reply · 1d · Edited

That quip sparked a wave of responses, mostly unkind and several unprintable. Sununu says it was just a joke and has since stepped up and offered to cover the costs of this year's Hot Dog Day. Rep. Burt has accepted the governor's offer and is looking forward to the event — though the details are still unclear.

But for many New Hampshire Republicans, it was a “truest words are oft spoken in jest” moment. Sununu’s decision to jump into a Facebook timeline and flame a state rep — over a charity event — reflects Sununu’s attitude toward the House GOP since the session began. It’s also a glimpse of the impulsive Sununu NHGOP insiders have known for years.

“He’s a lot more like Trump than he realizes,” one longtime NHGOP’er told NHJournal. “Not on policy, but taking politics personally.”

Dartmouth Med Students Say They Were Coerced

Students caught up in the alleged cheating scandal at Dartmouth College's Geisel School of Medicine say they were bullied and coerced into confessing to something they didn't do, and some have reported contemplating suicide in the fallout.

"I'm really concerned about the health and wellbeing of my fellow students," said a student accused of cheating who agreed to speak with NHJournal.

Dartmouth has said several students admitted to wrongdoing during the investigation. But the student and other sources said more than 20 students have been caught up in the scandal, and many who confessed felt pressured to admit wrongdoing in a rushed process. Documents obtained by NHJournal show the school's proof of alleged cheating is considered flawed, however, and

school officials are now trying to clamp down on students coming forward with their stories.

“I was told by the school that confessing would somehow lead to a better outcome for myself,” the student said.

The student said there is a culture of fear at Geisel since the cheating scandal broke earlier this month. Students are afraid they will be expelled for speaking out about what they feel is unjust treatment by the medical school. The student, as well as other sources close to other students at Geisel, said they were blindsided by the cheating accusations, not given relevant information on their cases before a meeting with Dartmouth’s disciplinary panel, the Committee on Student Performance and Conduct (CSPC). They also said the students have not been told that students who refused to confess and challenged the evidence had their cases dismissed.

The investigation reportedly started last academic year when Geisel administrators noticed anomalies in some testing data. The school uses an application called Canvas to store video lectures and other class notes for medical school students. Students frequently access this program on their digital devices for studying. When Geisel students have been taking remote exams, the exam program takes over the device and students are unable to use any other tab or app while the exam is being given.

5 Days 'til Marrimack Special Election

Heard Around New Hampshire

"The ideas of Critical Race Theory and all of this stuff, I personally don't think there's any place for that in schools."

-- **Gov. Chris Sununu**

"The Democratic National Committee should dock delegates from states that insist on continuing to hold caucuses. It should do the same for Iowa and New Hampshire if they refuse to give up their first-in-the-nation status to other worthy candidates."

— **Washington Post Editorial**

"A great victory for democracy. It sends a clear message the Legislature is not above the constitution and ADA. I look forward to working out a system in which everyone can participate."

-- **Rep. Renny Cushing** (D-Hampton) on First Circuit remanding Democrat lawsuit back to District Court to hear the case on remote attendance by legislators.

"Voters sent Republican majorities to Concord because we have a proven track record of managing the state in a fiscally responsible manner. This budget reflects what Republicans campaigned on throughout 2020 and what our constituents told us they wanted."

-- *House Republican Leader Jason Osborne (R-Auburn)*

"There is no circumstance in which I will vote to eliminate or weaken the filibuster. The time has come to end these political games, and to usher a new era of bipartisanship where we find common ground on the major policy debates facing our nation."

-- *Sen. Joe Manchin (D-W.V.)*

New Hampshire: Support HB 544

Sponsored by 1776 Action

Sununu: I Don't Like Critical Race Theory, But I Won't Ban It, Either

Gov. Chris Sununu says he “doesn’t like Critical Race Theory as much as anyone,” but he still intends to veto GOP-backed legislation to ban government employees and contractors from advancing its ideas.

Critical Race Theory (CRT), which teaches that all white people are racist and American society is infused with “systemic racism” is popular among New Hampshire progressives. One of its best-known national advocates, **Ibram X. Kendi**, describes “whiteness” as inherently problematic to society and advocates discrimination as part of an “anti-racism” solution.

“The only remedy to racist discrimination is antiracist discrimination. The only remedy to past discrimination is present discrimination. The only remedy to present discrimination is future discrimination,” Kendi said.

New Hampshire Democrats have attacked GOP efforts to keep the controversial ideology out of publicly-funded spaces. calling Republican rejection of the race-based ideology “racist.”

The issue has moved beyond theory in the Granite State, where school districts like Manchester and Hanover have embraced it.

On Wednesday, NHGOP House members put language banning “divisive concepts” like CRT in the state budget, bringing a rebuke from Sununu for putting non-germane issues in a budget he says he would never sign.

At Thursday’s weekly presser, Sununu was asked if he believed there was middle ground on the issue.

NH Freedom Caucus Calls House Budget a Big Win, But Changes Are Coming

The New Hampshire Freedom Caucus is celebrating after passing what it says is “ the most liberty-oriented state budget since 2011.” However, while it may have won the first major battle, it is likely to lose the war.

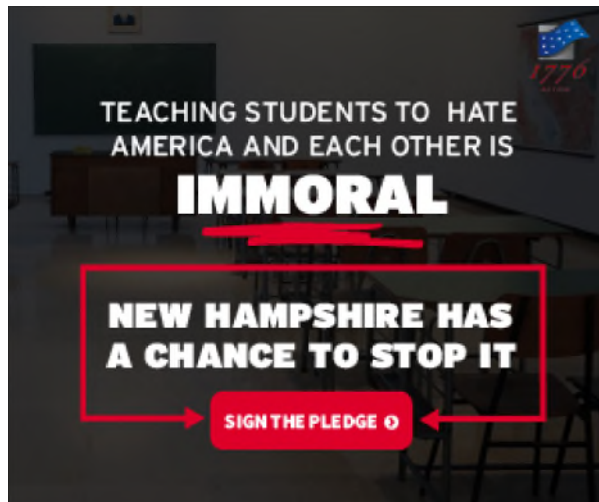

“It’s great to see excessive taxes being reduced to give small business owners and young families more flexibility to recover and thrive coming out of these difficult times,” said state **Rep. Glen Aldrich** (R-Gilford).

“Having escaped Connecticut, where I watched an overreaching government loot the productivity of the state, it’s refreshing to be a part of a legislature that prioritized the rights of its people to pursue their dreams without government interference,” state **Rep. Judy Aron** (R- South Acworth) said.

“As someone who has always been a champion of using taxpayer dollars wisely and prudently, it’s noteworthy that I can proudly announce: this is the first state budget I’ve ever voted in favor of,” said state Rep. **Kevin Verville** (R-Deerfield).

From tax cuts to reforming the state’s emergency powers laws to language banning race-based “divisive concepts” from government teaching and training, the Freedom Caucus says it achieved most of its goals. But the battle is far from over, as Democrats adamantly oppose it and Republican **Gov. Chris Sununu** has promised to veto it in its current form.

It's Not Just You: Cell Service in NH Really Is Lousy

Cell phone service in the Granite State is hit or miss, at best. And it's not clear when it will get better with a state commission recently trying to slow down the expansion of faster service.

As the rest of the county is seeing the rollout of improved service in the form of faster 5G signals, New Hampshire seems to be trying to slow down the technology. The state's 5G Commission issued a report calling for a slowed-down expansion, citing health concerns. This despite federal agencies deeming the technology safe.

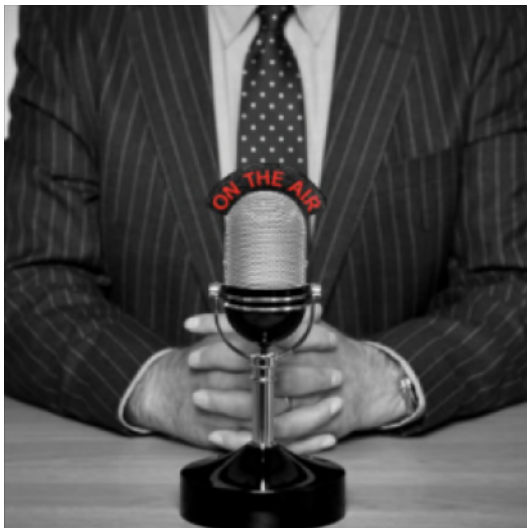

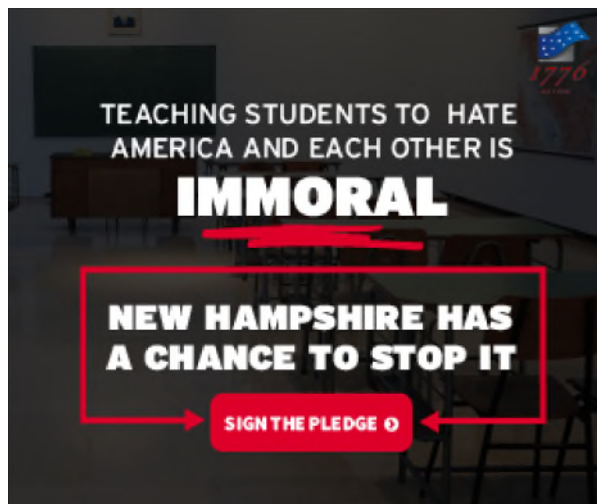

David Juvet, with the New Hampshire Business and Industry Association, said the main problem with New Hampshire's cell service is the fact that it is a rural state.

"A large part of the state is rural, and there's often resistance to putting up cell phone towers in parts of the state that are rural, or connected to a state or national park," Juvet said.

Rural or not, the lack of dependable cell service is holding back parts of the state. **Jeffrey Hastings**, with the Lakes Region Planning Commission, has complained to the New Hampshire Public Utilities Commission (PUC) about the poor service in the Lake Region, saying it is a safety hazard and an economy-killer.

“Poor quality or non-existent telecommunications services are jeopardizing the health and safety of our residents and are constraining economic development in New Hampshire’s Lakes Region,” Hastings said in a letter to the PUC.

Importance: Normal

Honorable State Representatives:

Please do not vote in favor of HB 229. Our family along with thousands of other families enjoy countless hours of watersports behind our boat. To define it so it can be banned or regulated differently from a Bass boat or a runabout is infringing on what we hold dear as New Hampshire residents. HB 229 is no different than banning snow skiing. New Hampshire has a strong and robust tourism business and has always been a place folks can come up from the city to enjoy outdoor activities behind boats such as tube, wakeboard, barefoot, waterski and surf. To take that away from our families will have such a negative impact. Today there are so few things we can do as a family and with drugs and alcohol destroying our communities we need everything we can to keep New Hampshire families active and strong together.

Please support the House Resources Committee bipartisan recommendation of ITL on HB 229.

Thank you for your consideration,

The Vincent Family

Windham

Re: 480/vote buying etc. Wouldn't it be easier to pay absentee voters for their vote when you could see it before it was sealed in the envelope? Or to have them take a photo of the ballot with their ID? How would a ballot reviewer know who to pay if someone reviewing ballots found 100 ballots with Josiah Bartlett when 150 people were told to do it? Why spend all that time when it would be easier to do it another way.

Scanlan's reasoning makes no sense and I wish someone would challenge him on the "parade of horrors" he imagines.

He told the court this is why ballots were removed from public records law in 2003. NO evidence in legislative history that was true. Mr. Scanlan says lots of things that aren't true. That does not inspire trust in him or our elections. Our right to know is our right to truth.

Re: 491 NH has no written exemption from the HAVA requirement. There should be one if the EAC granted NH one. The law said "no exemption was allowed" for that particular section. Scanlan couldn't tell me one other state that has interpreted the law as he and Fitch have.

Bill Gardner told me that since the USDOJ (under Trump) hasn't taken action against NH, NH must be in compliance. For those of you who are lawyers and even for those who aren't, non-enforcement of laws does not = compliance. Your committee knew about three possibilities for election fraud in 2018 and you know about four possibilities now.

But all that rampant "voter fraud"? NH will NOT allow THAT!

Do you think we are so stupid we can't see what this government is doing? You have to believe we are or you wouldn't keep doing what you're doing.

One more reason for informed not to trust the SoS, our elections or our government?

Disenfranchising more than 800 Derry voters, maybe fraud occurred? Now, if that had been Windham and Sen. Giuda cared about THAT issue, maybe you would, too.

Respectfully,
Deborah Sumner

Subject: "PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT"

Importance: Normal

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Kim Thompson

Hopefully something comes from this. But there are millions of people questioning the election and rightfully so as in Windham...every Republican was shorted 300 votes. I really hope NH legislature pulls through with the forensic audit. But who knows if anyone will be held accountable but I pray they are. God bless and I hope this is all brought to light. Because Biden (China Joe) is ruining our country !

Senators;

I'm a resident of Milford, NH speaking on my own behalf.

Asking that you act decisively to restore voters' confidence in the value of their vote.

Further requesting that a full public accounting be published to the widest possible audience.

If folks continue to lose confidence in the value and honesty of our elections; I fear anarchy looms nearer. Windham is just a single example of the loss of confidence seen across our State of New Hampshire and our country.

We might have disagreed as individuals in the past but knew our votes were counted honestly. We were all Americans, citizens proved their identity, were allowed to vote, and all ballots were counted honestly.

Now, there is significant doubt before local, state, and national voting bodies. How can there be such large differences between the total number of ballots cast and the final tally?

Please act to help restore the confidence of voters in the election process.

Respectfully,

Michael E. Thornton

The Windham Incident: Means, Motive, and Opportunity

Murder on the Washington Express?

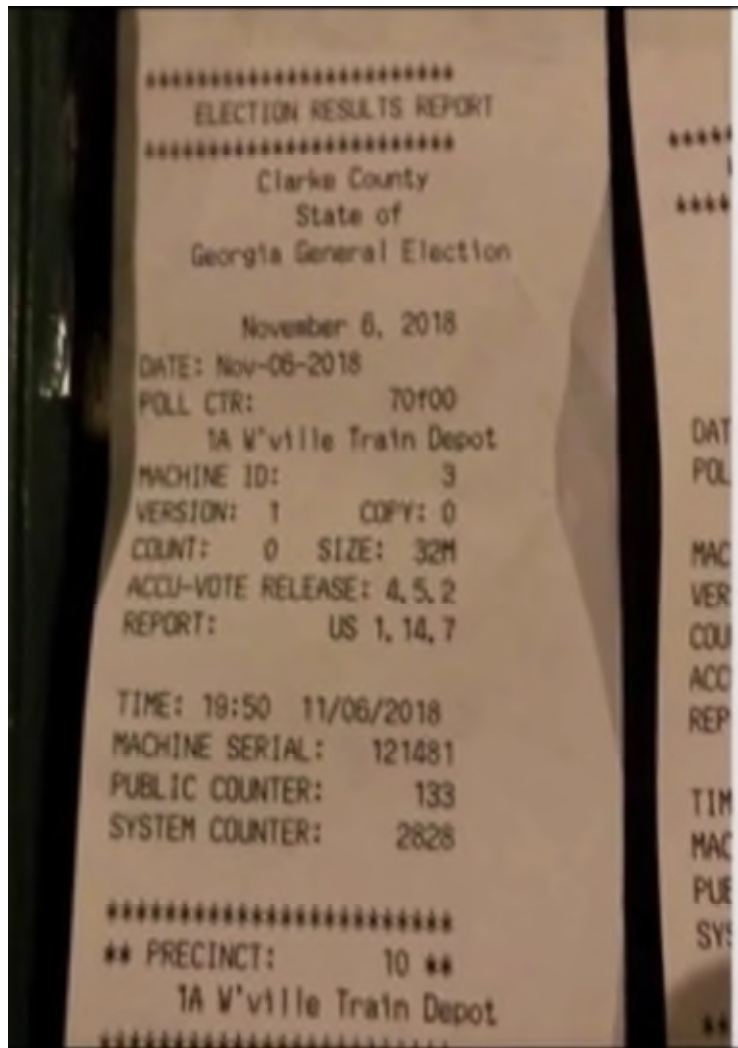

Vote Free or Die

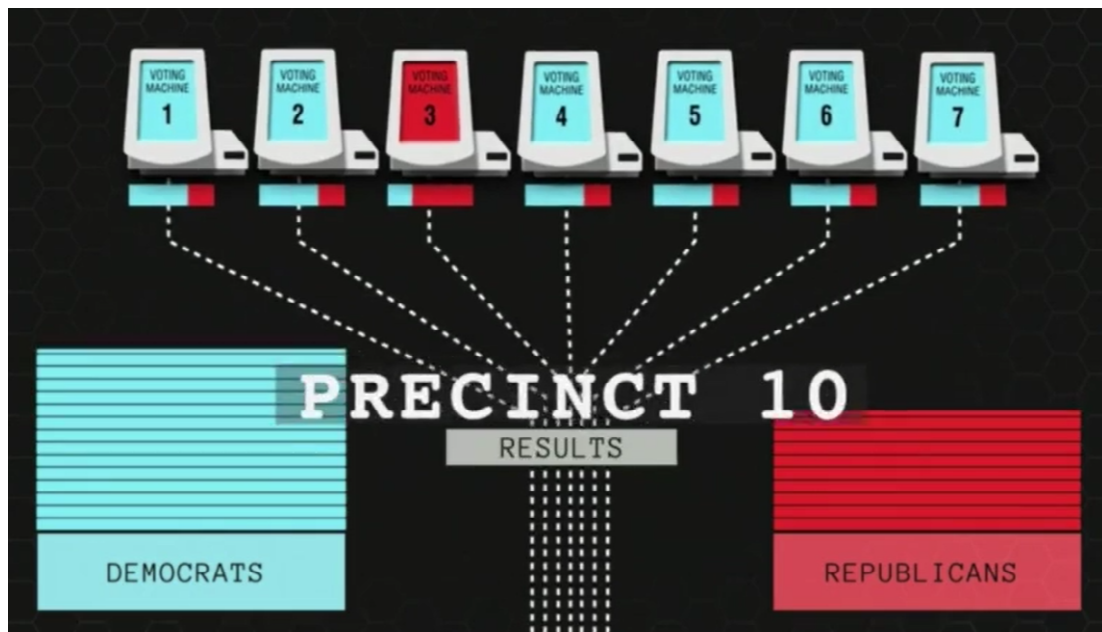

Mar 11   

In a [previous article](#), I discussed the 2020 election anomalies in Windham, New Hampshire. This article will discuss the means, motive, and opportunity for election fraud to have taken place. First, however, I would like to describe a little known but nearly identical incident that happened on the same type of AccuVote OS voting machines in the 2018 Georgia mid-term election. This small town in Georgia never got a recount or official investigation and the incident remains unexplained by state officials!

The Winterville Train Depot, Georgia Incident of 2018

According to a report by the Atlanta Journal-Constitution, the voting precinct in Winterville Train Depot, Georgia, which is located in the heavily Democratic home precinct of Georgia Governor Brian Kemp, housed seven voting machines. Democrats won every race on six of those machines, but Machine #3 delivered a Republican win in every race. This is the same anomaly that occurred in Windham except that Georgia votes were most likely flipped from Democrat to Republican candidates. To see more about this incident, go to this [2020 HBO documentary video “Kill Chain: The Cyber War on America’s Elections”](#) and scroll to 1:07:10 (one hour and seven minutes in).

Winterville Train Depot, Georgia, Machine #3 Anomaly

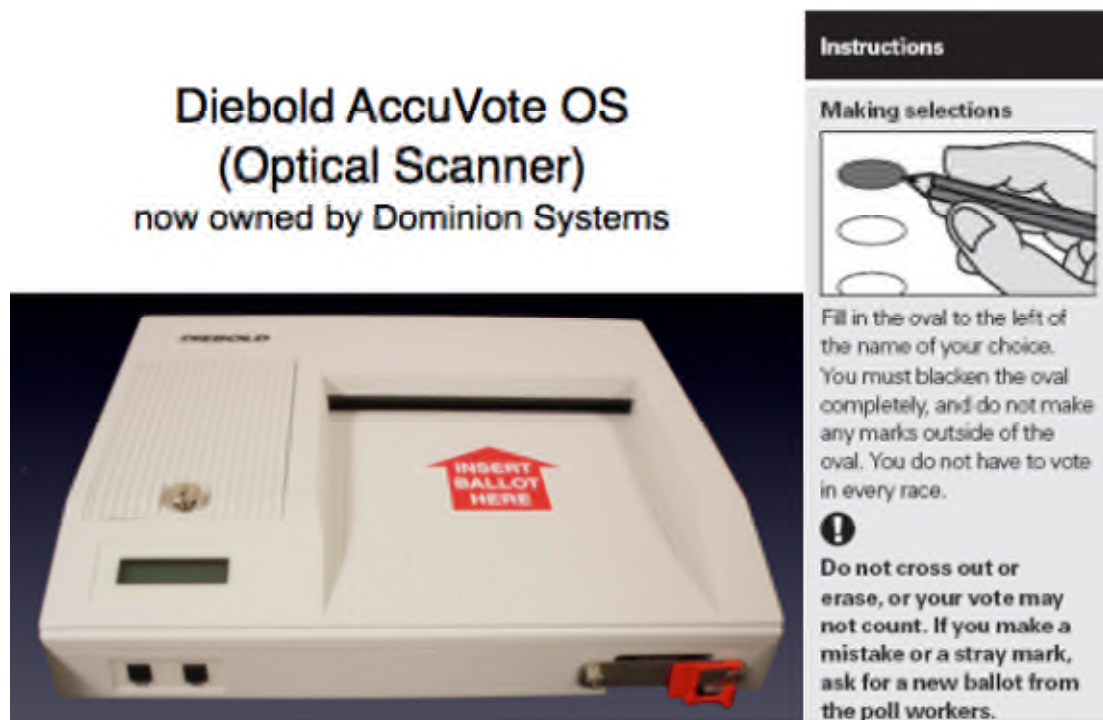

But election irregularities were not confined to this precinct. Votes for the lieutenant governor's race, which was listed second on the voting ballot, received at least 80,000 fewer total votes than every other election in the state, including minor contests for positions such as insurance and labor commissioners. Where did the votes go? They must have been left blank, but not necessarily by the voters, as it is hard to believe that so many voters failed to select a candidate for this race. This decrease in votes took place in roughly two-thirds of the state's electronic voting machines, but the paper absentee ballots showed no such discrepancy. It sounds to me like Democrat votes may have been flipped to blank votes for the lieutenant governor's race, similar to the anomaly in the Windham State Representative race.

At the time of the election, Brian Kemp was Secretary of State and responsible for overseeing his own election. The voting irregularities were included among 15,500 pages of documents obtained under the Georgia Open Records Act by The Atlanta Journal-Constitution and were turned over to the U.S. House Oversight and Reform Committee. However, nothing was done. After the election, the new Georgia Secretary of State, Brad Raffensperger, refused to open an investigation. The new Governor Brian Kemp soon hired an election company lobbyist, former state Rep. Chuck Harper, to be his deputy chief of staff. Harper was a lobbyist from Election Systems & Software, the company responsible for providing technical support and repairs of the state's 27,000 Diebold voting machines and for selling the new Dominion machines to Georgia.

If there was election fraud in 2018 that benefitted Georgia Republican candidates, it is no wonder that the Republican administration would not want to investigate 2020 anomalies even if they favored Democrat candidates. They would have had too much to lose. Election fraud begets more election fraud and will result in a never-ending cycle if not broken.

Investigatory inaction or government official conflicts of interest cannot be allowed to prevail in Windham, NH. Now, let's get to the means, motive, and opportunity to alter votes in Windham.

The Means (of altering votes)

Diebold AccuVote OS (Optical Scanner) machines were first made in 1990 and have many known security vulnerabilities. The AccuVote operating system runs on Windows XP, a variant that Microsoft hasn't supported for years and has extensive security issues. As required by state law, the machines work by optically reading paper ballots. However, votes can be easily compromised by modifying software on the election management system, the voting machines, or the memory card that gets inserted into the machine. A hand count of the paper ballots would be needed to verify any errors in the count. Go to this [video excerpt from the 2006 HBO documentary "Hacking Democracy"](#) or this longer electing hacking [video and scroll](#)

to 7:00 (seven minutes in) to see a hacking test in action, where a memory card is modified and the results of paper ballot scans are changed on the official paper tape printout. This the same machine used in Windham, NH in 2020 and in Winterville Train Depot, GA in 2018.

According to a [2007 Documentation Assessment of the Diebold Voting Systems](#), the precinct count AV-OS memory card must be configured prior to the election with electronic ballot definitions that are created on the GEMS (election management system) computer. Then, after testing it for accuracy and functionality, the memory card is packaged and delivered to the polling place for insertion on Election Day. The memory card ballot definition stores the names of races and candidates plus the directions used for tallying and printing election results reports. At the close of the polling place, the unit can be returned to election headquarters with the memory card sealed inside or poll workers can remove the memory card and send it to be uploaded into the GEMS server. GEMS can then tabulate the results and issue the election reports. Or, the internal modem that is embedded in the AV-OS may be used to transmit vote data over the phone lines. If the modem option is used, the AV-OS apparently sends the vote data in the clear with no authentication or encryption.

In other words, the memory card is a critical part of the voting system and must be programmed for each election using the election management system. As we saw in the video above, it can cause voting machine results to be altered.

40-pin memory card placed in Cropscan read-write unit

According to Ben Bynum, town clerk in Canterbury, when showing the town's single AccuVote machine, "They cut the pins off, so you can't put the modems back in, even if you wanted to." So, at least the unsecure modems can't be used.

A 2007 Source Code Review of the Diebold Voting System, conducted by the University of California, Berkeley under contract to the California Secretary of State, had numerous disturbing conclusions relevant to the AccuVote OS and the GEMS server that aggregates votes.

Vulnerability to malicious software: The Diebold software contains vulnerabilities that could allow an attacker to install malicious software on voting machines or on the election management system. Malicious software could cause votes to be recorded incorrectly or to be miscounted, possibly altering election results. It could also prevent voting machines from accepting votes, potentially causing long lines or disenfranchising voters.

Susceptibility to viruses: The Diebold system is susceptible to computer viruses that propagate from voting machine to voting machine and between voting machines and the election management system. A virus could allow an attacker who only had access to a few machines or memory cards, or possibly to only one, to spread malicious software to most, if not all, of a county's voting machines. Thus, large-scale election fraud in the Diebold system does not necessarily require physical access to a large number of voting machines.

Vulnerability to malicious insiders: The Diebold system lacks adequate controls to ensure that county workers with access to the GEMS central election management system do not exceed their authority. Anyone with access to a county's GEMS server could tamper with ballot definitions or election results and could also introduce malicious software into the GEMS server itself or into the county's voting machines.

A 2005 report by Black Box Voting describes the AccuVote OS as "a house with an unlockable revolving door." The memory cards can be read and written with any Epson RBC compatible device and contain executable (not human readable) code called AccuBasic that will be executed on the machine. The code is capable of hiding pre-loaded votes, programming conditional behavior based on hidden triggers, hiding a pre-arranged integer overflow that can reset a candidate's votes to zero, altering audit reports, and changing the reporting of votes on printouts.

Fraction Magic: According to BlackBoxVoting.org, a study of the GEMS election management system demonstrates that a fractional vote feature is embedded in each GEMS application which can be used to invisibly alter election outcomes by pre-setting desired vote percentages to redistribute votes. GEMS fractionalizes votes in three places:

- The “Summary” vote tally, which provides overall election totals for each race
- The “Statement of Votes Cast”, which provides detailed results by precinct and voting method
- The “undervote” count

According to programmer notes, a weighted race feature was designed which not only gives some votes more weight than others, but does so based on the voter’s identity if that identity is provided in a bar code on the ballot. Ballots are sometimes connected to voters, and weights are assigned to each voter per race, stored in an external table not visible in GEMS. So, it sounds possible to target the votes of voters based on their party affiliation, but this may not be possible in New Hampshire if the ballots do not have any voter identification on them.

Votes containing decimals are reported as whole numbers unless specifically instructed to reveal decimals (which is not the default setting). So, use of the decimalized vote feature is unlikely to be detected by auditing or canvass procedures, and can be applied across large jurisdictions in less than 60 seconds. Fractionalizing the undervote category allows reallocation of valid votes into “blank” undervotes (when a voter fails to make a choice).

However, as far as we know, there were no differences in the Windham results between the paper tape and the GEMS system results. All known discrepancies occurred between the AccuVote Optical Scan voting machines and the paper ballots. This does not mean that other jurisdictions didn’t see changes in the GEMS results, but there are currently no such allegations.

It is clear that the AccuVote OS machines used in Windham are extremely vulnerable to hacking to anyone with sufficient computer skills, motive and opportunity to access them. The paper ballots used for mail-in voting are also susceptible to anyone who is able to alter, destroy, or replace them. If a voter “undervotes” by failing to select all the candidates they are eligible to, anyone with access to the ballot can add votes with nothing more than a pen before it is submitted into the optical scanner.

Ballots could also be easily destroyed and, if extra blank ballots were available, replaced with new hand-market ballots for their preferred candidate. These activities only require time with the ballots and no oversight.

Motive (for altering votes)

The question of motive depends on who is presumed to be altering votes. There are several possible categories of malicious actors:

Candidates: Candidates running for office may want an “insurance policy” to win an election by altering votes in their own election. This is the most common form of fraud, but it is usually fairly limited in the number of votes involved, as far as we know, although consider the widespread 2018 Georgia election anomalies noted above.

Partisan Election Workers: Party activists may want to tip the balance of an election in favor of as many of their party candidates as possible or plausible, or against particular candidate who they dislike the most. Considering the widespread hatred for President Trump among Democrats and even some Republicans, it is likely that many had a strong desire to help ensure he lost the election. Partisan groups, especially if supported by a national political party or wealthy donors, would have significantly more resources.

Hackers: Leftists, anarchists, or apolitical hackers might have attempted to interfere with election integrity for political gain or for the challenge or for hire on behalf of another interested party.

Foreign Actors: Foreign nations also have an interest in seeing candidates who they dislike lose or candidates who they prefer to win. Nation states have the most significant resources and states like China, Russia, or Iran, which suffered severe economic damage from Trump administration tariffs and sanctions, almost certainly would have wanted him removed.

Election Machine Vendors: Partisan activists or foreign actors could also have influenced, through persuasion, bribery, blackmail, or other methods, the vendors who maintain the election software and systems. These vendors have the most knowledge about, and access to, their supported systems.

It is possible that a “perfect storm” of all of the above actors may have come together to create a broad attack on 2020 election results in order to oust President Trump.

Others may have merely joined in to help elect themselves or their preferred candidates. Perhaps Democrats, “Never-Trump” or corrupt Republicans, anarchist/leftist activists, and foreign state actors were all involved. The situation reminds me of the Agatha Christie whodunit Murder on the Orient Express, where many different suspects all had motives for committing murder and banded together to commit the crime and protect each other. Perhaps deals were made where everyone got something from the bargain (e.g., votes for a candidate, money, election equipment contracts).

Election fraud begets election fraud, until the cycle is broken.

Opportunity (to alter votes)

As shown above, the AccuVote OS machine results can be altered if a malicious actor has access to the election management system, the voting machines, or even just memory cards. They can also modify paper mail-in ballots if they have unrestricted, unsupervised access to fill in blank votes, destroy ballots, or even possibly add their own ballots. If they have a source of unused ballots, or a printer who can produce blank ballots, they can be filled in manually and added to the pile of genuine ballots.

So, the question is, who had access to election computers, voting machines, memory cards, or ballots? As postulated above, there could be multiple actors all attempting to modify votes for different or similar reasons. Foreign actors may have conducted cyber attacks on the election management systems and modified code that could be transmitted via memory cards to the voting machines themselves. Domestic actors may have done the same, possibly with the assistance of election machine vendors. Poll workers may have even contributed on their own with low-tech modification of paper ballots.

LHS Associates is the company that provides election services for the New Hampshire AccuVote machines. According to their website, it is “the largest provider of election services in the Northeastern US, serving more than 750 towns, cities, counties and unions throughout New England and New York. For more than 20 years, LHS marketed the highly regarded AccuVote tabulating systems. We have more than 4000 AccuVote systems installed and will continue to support the AccuVote well into the future.”

According to Windham Town Clerk Nicole Bottai, “When we tested the machines, the November election, everything was flawless,” Bottai said. “We completed our audit logs, sealed the memory cards within the machine and secured them in our vault.”

According to Canterbury Town Clerk Ben Bynum, the only way to change these machines is to insert a memory card programmed by LHS Associates in Salem, and you can’t do that unless you first cut off a metal tamper-proof seal. And if you don’t record the proper identification numbers in the proper place in the proper book with the signature of a witness, that will raise suspicions. “The secretary of state’s office comes and checks these, makes sure we’re doing them properly,” said Bynum regarding the Election Ballot Counting Device Activity Log. Speaking of those cards, how do Bynum and other clerks know they’ve been properly programmed? Clerks are required to mark up at least 50 test ballots, including some incorrect votes (e.g., two names marked when only one seat is open), and then run them through each voting machine.

In a 2008 interview about Diebold machines, the reliability of their memory cards was discussed. They apparently have a high failure rate and are often replaced, even on Election Day, contrary to protocol.

“The vendor, LHS Associates, arrives on the scene and they're going to fix this problem. Most of the time when I find those kinds of problems and I check with officials, the officials don't know what's happened.... And they're surprised. And they also tend to say, 'That wasn't how it was supposed to be done.' ... So we really have to start looking into the failure rate of the memory cards, the security of the machines and, of course, when you have any problem on Election Day, that means you have a much greater vulnerability to fraud. And so I've seen a lot of articles about New Hampshire, and the initial articles basically pooh-pooed the idea that the machines could be a problem or have been hacked. Because of the paper ballot and because they are the optical scanners. This is a mistake. These machines are just as vulnerable to fraud, tampering and also just really technical failure as any other Diebold machine.”

The CEO of LHS Associates, Jeff Silvestro, attended the Board of Selectmen election incident meetings in Windham, NH. His presentation was allegedly full of misrepresentations. If it is true that LHS Associates programs the memory cards and starts the chain of custody for these election artifacts, the company must be considered as a possible prime suspect, an accomplice, or at least a possible victim of third party hacking of their network without their knowledge.

Other possible suspects could include poll workers at each precinct, but involving too many people would be an obvious problem for anyone who does not want to get caught. When committing illegal acts, it is better to keep the number of people involved or “in the know” as small as possible and limit their exposure to suspicion.

Where to Start an Investigation

If I were to pursue an investigation of voting machine tampering, it would begin with LHS Associates and the AccuVote memory cards. If I were to pursue an investigation of paper ballot tampering, it would begin with workers who were part of the chain of custody of those ballots, especially if they had access to ballots from multiple jurisdictions or the opportunity to access ballots without oversight prior to Election Day after envelopes had been opened. Let's hope that the planned forensic audit of the Windham results is thorough. All paper ballots need to be checked, including those with “blank” undervotes and overvotes. Particular attention should be paid to the type of ink used to manually mark votes to ensure that it is consistent for each vote on the ballot. The type of paper and printer ink should also be examined to ensure it is a genuine ballot.

Biden flipped the counties of Hillsborough, Rockingham, Carroll, and Sullivan into the Democratic column for Joe Biden. Hillsborough and Rockingham are the two most populous counties. In the 2012 presidential election, Time had listed Hillsborough as one of five critical counties affecting the outcome in the swing state of New Hampshire. Manchester is the state's largest city, followed by Nashua, and are both in Hillsborough County, while Windham is in Rockingham County. Eighty percent of New Hampshire's votes are counted by computers, while the other 20 percent are counted manually (mostly in smaller or more rural areas).

I should also note that there was concern in the 2008 Democrat primary that candidate Hillary Clinton received a higher percentage of the vote, especially in Manchester and Nashua, from voting machines, while Barak Obama received a higher percentage in hand-counted areas. When a hand recount was conducted, there was a significant discrepancy in the totals for all of the top Democrat candidates. These errors were attributed to human error from two different clerks in two different districts who made similar errors recording the totals from the machine counts.

If I were to expand the investigation outside of Windham to pursue a state-wide investigation of the 2020 election results, I would start in Manchester and Nashua.

If fraud is detected in New Hampshire elections, I would not stop once the most obvious suspect has been identified. It is highly likely that there were multiple participants in the attack on our election systems in 2020 and earlier. When it became obvious years ago that our election systems were not secure, it was only a matter of time before more and more actors decided to exploit these weaknesses. It will only get worse if we do not stop it now.

Subject: "PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT"

Importance: Normal

Dear Representatives,

I am writing to you today as a US citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised not only by many NH citizens, but also across our nation.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by your legislature in order to define the best process to uncover the answers sought and to address concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Donald C Helvey

Subject: PLEASE BE A HERO- PASS SB43 as amended with the Gardner Amendment
Importance: Normal

Good Morning Sir/Madam:

I was so relieved to learn that New Hampshire Secretary of State Bill Gardner agreed "The Gardner Amendment." We absolutely need a forensic audit on Windham's Diebold AccuVote voting machines and the November 3, 2020 general election ballots.

Your constituents need answers to the questions surrounding the enormous discrepancy between the November 3, 2020 election day totals and the recount totals 9 days later.

Please be a hero and vote to pass SB43 with the "Gardner Amendment". PLEASE....Election integrity should never be a partisan issue. All parties need to have faith and confidence in their voting systems.

PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT.

Respectfully,
Doria Nappi

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Dear Representatives,

We are writing to you today as concerned American citizens with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

The importance of this matter goes well beyond the state of New Hampshire. The November 2020 election had so many irregularities that need to be investigated. Instead, Americans saw no interest by election and government officials to investigate. Instead we are being told this was the "safest" election in history and we have no right to question the results. Our voices are even being silenced in the media. We can't imagine anything that could be more un-American. You in New

Hampshire have the opportunity to do the right thing and do a proper investigation so we can be trust our elections. Please do the right thing. God Bless You and God Bless America.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

John Miller

Subject: Pass the sb43 with the Gardner amendment
Importance: Normal

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Christine Schwartz

Importance: Normal

Dear Representatives,

I am writing today to urge you to vote SB43 with the Gardner amendment Ought to Pass. This bill will give us answers to the vital questions and concerns raised by the Windham Town Election Integrity Committee.

Just as important, it will address concerns and questions raised by many concerned NH citizens all over the state.

As you consider this bill, please recognize that Secretary of State Gardner's plan reflects his extensive knowledge and experience. The Legislature should trust the Secretary to define the best process to uncover the answers we seek and to address our concerns.

That process was presented to the public last Friday, and I support it fully.

Thank you,
Eric Tanafon
New Ipswich

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Not being from Windham but from Harrisville, I would hope that that upon completion of a process in Windham, the viability of extending the method across the state be reviewed and, hopefully, executed. All of the citizens of NH, the real ones, deserve to know that our elections are actually valid. Additionally, the First in the Nation Primary would seem to depend on a statewide validation.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address all of our concerns, as well as those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Other must do items in my mind include:

- Verify the accuracy of voter registration lists
- Verify the citizenship of all voters
- Require voter ID
- Limit the use of absentee ballots
- Prevent ballot harvesting
- Provide all election observers unfettered access to the election process
- Prohibit early vote counting

As a state, we should reject these three policies

- Same day registration
- Automatic voter registration
- Private funding of election officials and government agencies

Respectfully,

Peter Crowell

To Members of the New Hampshire House Election Law Committee,

I am a resident of New Jersey but more importantly a citizen of the USA. I have serious concerns about all of the election irregularities in the election last November in many states, especially because none of the evidence election irregularities has been examined in all the many lawsuits or in state legislatures. I applaud the New Hampshire House Election Committee for looking into the irregularities that were discovered in Windham NH. I strongly believe that the results of a forensic audit would help bring out the truth not only for New Hampshire, but would also have a significant impact on investigations into election irregularities in other states across the US. Please support passage of SB43 as amended with the "Gartner Amendment".

Your sincerely
Tom Duffy

Subject: "PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT"

Importance: Normal

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,
Fumio Taku
Hudson, NH

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

Good Afternoon,

I strongly support SB43 as Amended with the Gardener amendment. It is crucial for the citizens of NH and We The People of the United States of America to have faith and confidence in our elections. I am a proud NH native and want to continue our strong history of allowing people's voices to be heard. The past 2020 National election and what is now perceived to be local elections was anything but something to be proud about.

The voting results in Windham raises many questions. It also opens questions if other voting machines and their software were compromised and protocols not followed?

Again, I urge you to support SB43 as amended with the Gardener amendment. We need to ensure that our elections are secure and people have confidence that their vote actually counts. Without that you no longer have a Democratic Republic.

Kind Regards,

Mark Perron

Members of the Election Law Committee,

It is very important that the NH House Election Law Committee pass SB43 as amended with the Gardner Amendment. We need the forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020 general election ballots. Those audits would provide answers to the questions Americans deserve regarding the enormous discrepancy between the [November 3, 2020 election day totals](#) and a [recount 9 days later](#).

Thank you!

Dear Representatives,

I am a citizen of Delaware who has a strong interest in the Windham, NH election fraud situation. Though not a citizen of your State, I feel that election integrity is so important, that ALL citizens everywhere should be concerned. I urgently request you to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many New Hampshire and United States citizens.

As you consider input from other sources, including other proposed amendments, please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by your legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham, NH.

The citizens of the United States are looking forward with hope for your help to preserve the integrity of our nations elections! This is your time to stand for New Hampshire and the United States.

Respectfully,

James B Holladay
Resident of Delaware

Importance: Normal

Dear House Election Law Committee:

When unexplained irregularities arise, the only way to insure integrity in our elections, as well as the perception of integrity in our elections, is a full forensic audit. We have already seen in other counties across the country, that there have been discrepancies -- serious, outcome determinative discrepancies -- between the physical ballots, the ballot images, and the ballots counts. The poll books in various counties have similarly demonstrated discrepancies between the number of votes and the number of voters.

For the sake not only of Windham County but of the state of New Hampshire and even of the country, please support SB43 with the Gardener Amendment.

Thank you.

Yours sincerely,

John Pilsner

SUBJECT:
SB43 With Gardner Amendment

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it should address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover all of the answers we seek and to address all of our concerns, including those of the Windham town officials.

That process was presented to the public this past Friday March 5th and I fully support it.

Dear Committee Members-

I'm trying to share to hero up to date with the "Windham Incident". I understand that there is a vote today regarding the auditing the election results. In case the vote has not occurred yet, I wanted you to know that I thoroughly support this bill. I think election integrity is of vital importance and doing a thorough a job as possible would be ideal. I also think it's a great idea to invite Jovan Hutton Pulitzer to participate. Thanks for all you do for our state! All the best-

Hi,

As a taxpayer citizen of New Hampshire, I feel very strongly about passing the SB43 bill. There should be a complete forensic audit of both the machines, procedures and the adherence to election laws by officials with regards to the election on Nov 3, 2020 in Windham. What occurred in Windham makes me think that it could have occurred in other towns so without a complete and thorough investigation as a taxpayer I won't ever feel comfortable that my vote counts.

As a New Hampshire resident who is extremely alarmed at the recent undermining of the public's faith in the integrity of our election system, I urge you to approve SB 43 and the related Gardner amendment. It is crucial that we bring full transparency and accountability to our elections. The public deserves a full explanation of the irregularities in the Windham vote tallies.

Thank you.

We the people need to have confidence in our state's election process. I can tell you that at this time, many do not. The right to vote in a free and fair election is the most basic civil right, one on which many of the other rights of the American people depend. Our votes must be safeguarded. **There is a legal and a moral obligation to investigate this matter.**

Thank you very much for your consideration.

To NH Representatives,

As a citizen of NH I am making an urgent request to PASS and support SB43 with the Gardner Amendment to provide to us important answers to all the questions and concerns raised by the Town of Windham, NH Election Integrity Committee, as well as those same questions and concerns from NH citizens from across our state.

It is important to place special emphasis on the fact that Secretary of State Gardner has the benefit of his extensive knowledge and experience to set forth this Amendment in order to define the best process to uncover the answers we seek for all our citizens and especially the Town of Windham as presented to the public on last Friday which I fully support.

Respectfully submitted,

Candace Liebman

Subject: Please Support SB43 as Amended With The Gardner Amendment
Importance: Normal

Dear NH Election Law Committee,

In these challenging and unprecedented times I ask you to please vote your conscience and find the courage to do what is best for the people of Windham, New Hampshire, and America irrespective of political affiliation. My prayers are with you as you face the circumstances that you find yourselves in. Thank you in advance for your conviction in hearing and heeding the voices of concerned citizens.

Respectfully,
Dori Laker

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Janice Grant

My name is Richard Comtois and I am a long time resident of Windham, NH and I am asking that you please support SB 43 as ammended by SOS Gardner. This bill as amended has overwhelming support of the towns people and we all are very thankful to Ken Eyring for his work and passion.

We have a crisis on our hands with very low voter confidence. Please support this bill and the other 3 bills to help address this crisis in our democracy. HB 480, HB 491 and especially HB524.

Sincerely,
Richard M. Comtois
48 Londonderry Rd

Subject: The "Gardner Amendment" to SB43
Importance: Normal

As a citizen who spent a career in implementing systems and ensuring system integrity, it has been very disappointing to learn some of the ins and outs of our voting systems. I am very dismayed to learn of many of the 'weaknesses' in what purports to be a secure voting system.

I'm strongly encourage you to support the "Gardner Amendment" to SB43, and complete a forensic audit of Windham's voting machines and the November 3, 2020 general election ballots.

At a minimum, voting systems should be as secure as financial systems. That means auditable, at random, from any point in the process and should include fully recording all activities on the system, including who, what, when, how and why.

Further, as a retired computer professional, I will volunteer to assist with such an audit and the committee in its endeavor to ensure voting system integrity.

Thanks,

Michael

Members of the House Committee on Election Law;

I am writing you as a former member of the House of Representatives, and Chairman of Constitutional Review and Statutory Recodification. Voting, Franchise, is the most valuable of our positive rights (rights created by government). It is so important that it is reserved only to inhabitants of the State (those who have their permanent dwelling here), and to be exercised only in that town in which they have that dwelling, The Constitution of the State of New Hampshire, Part 1, Article 11. It is vitally that every qualified voter have the opportunity to vote, and that only qualified voters vote. An error to either side is a severe blow to the fabric of our society. It is to that end that proudly co-sponsored our current voter ID law.

Now we face a new threat, systemic corruption of the vote counting process. It is clear that there was a systematic error in the vote counting process in Windham on November 3. The four republicans were undercounted by nearly the same amount, three democrats were over counted by nearly the same amount, and one was over counted by an amount nearly 10 times greater. We are fortunate that this error did not change the outcome, and yet even that is a bit peculiar. It is vital to determine if this was a hardware fault, a software fault, whether this error is limited to one machine, or a characteristic of one machine, or whether that machine will even repeat the error. We need to know if this miscount was accidental or intentional. We are truly blessed to have a Secretary of State who has fought so hard to maintain the existence of paper ballots manually filled out.

Confidence in our elections is critical the people's confidence in their government. If they cannot know that the people they voted for are the people making and enforcing our laws, then the next election will be meaningless.

Please support SB43, and a full forensic analysis the miscounts on Windham on November 3, 2021.

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT”

Importance: Normal

Dear Representatives,

I am writing to you today as a US citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Jordan Bate

As a citizen that wants America to be a free nation please vote to pass senate bill 43.

"AN ACT authorizing an audit of the Rockingham County district 7 state representative race"

"BIG NEWS! The “Windham Incident” AGREEMENT! – Thank You NH SOS Bill Gardner!"

A forensic audit, professionally done by Jovan Pulitzer and people of the highest integrity in case someone involved isn't so inclined. You could actually save America. Some one needs to do this or we are going to live in one giant miserable world. You very well could be our last chance! You could turn this massive nation wide fraud on its ear!

Our lives depend on you!

Help us!

God bless and thank you,

Bill Gray

Dear Representatives. I am emailing to ask you as a concerned citizen to Pass/Support SB43 with the Gardner Amendment. I am asking because I feel it will provide vital answers to all of the questions and concerns raised by the Windham Town Election Integrity Committee. I know many of my neighbors and fellow New Hampshire citizens across the state are deeply concerned with what happened in Windham. Moreover, unless we get real answers to what happened I know many people who will have no more faith in the integrity of our elections. The only process I see fit to get answers is plan put forward by our Secretary of State . Secretary Gardner has used his extensive knowledge and experience to formulate this plan. The plan was presented last Friday by Secretary Gardner and it is my hope the legislature must stand behind him as I and many others do. The future integrity of our elections going forward depend on supporting SB43 amended with the Gardner Amendment. Respectfully. Anthony Wood Seabrook NH

Subject: SB43 with Gardner amendment passed
Importance: Normal

It interesting to me that trying to audit the 2020 election results, and particularly trying to audit the various voting machines involved in the election has become almost impossible. If there was no fraud, and the election was fair why not take a look at the voting machines? Close to half the country doesn't believe all is on up and up with this past election.

There has now been only one place where a fair and independent audit of the voting machines was conducted. 68 percent of the ballots were found to be adjudicated manually, election results deleted from the machines, and over 6,000 votes went to the wrong candidate.

Windham, New Hampshire now has experienced a problem with the 2020 vote at the state level. And just like Arizona, Georgia and Wisconsin the voting machines are probably the tightest guarded asset in all these states. Why?

I'm for auditing the voting machines, and I'm hoping that this will happen.

Thanks for your help

Subject: SUPPORT SB43 AS AMENDED + GARDNER AMENDMENT

Importance: Normal

Dear Representatives,

I am writing to you today as a United States citizen who has been monitoring events associated with the November, 2020 election in Windham, New Hampshire closely and with no little concern.

I would therefore request you to please consider passing / supporting SB43 with the GARDNER AMENDMENT because it will provide important answers to questions that have been raised by the Windham Town Election Integrity Committee, and which are naturally shared by *all* citizens who are concerned with preserving free and fair elections for our Republic.

Historic, never-before-seen events surrounding the 2020 election have left many of us with the impression that such idea of free, fair, and above all *transparent* elections reflecting the will of the American people are on the verge of being lost in our country.

At a minimum, these events have shaken faith in our civic institutions and formulated a great deal of doubt and mistrust among the American people as a whole; and confidence in this most sacred building block upon which our country rests has subsequently been reduced across the country.

You therefore have an historic opportunity to do something at this time for the sake of *both* New Hampshire-- the state who's very motto boldly proclaims its intention to "live free" in perpetuity--- as much as you have an even larger opportunity to provide a great service to our country.

If there is no fraud--- simply show us that, and you will provide this service to the residents of your state and fulfill the duty of your office.

If there *is* fraud, however--- and on the widespread electronic scale that circumstantial evidence would have many of your fellow countrymen believe-- your service to your state, and your country, and even perhaps to history, will become so much the greater.

Respectfully, and with Grave Concern,

MA Thue

Grand Rapids, Michigan

Subject: SB43 with the GARDNER AMENDMENT
Importance: Normal

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Addison Hartmann

Dear House Election Law Committee,

Please support SB43 as amended with the Gardner amendment. The American people need answers about what happened in the 2020. There are obviously inconsistencies with the voting machines and ballots that must be examined for us to move on a country. Please do the right thing!

Sincerely,

Tanya Windham Powell

Hi,

We are constituents from Litchfield NH and very glad to hear that our state is taking action to shed light upon and investigate election fraud.

What happened in Windham feels like a despicable instance of what was allowed to happen across the US in November 2020.

Please give Secretary of State Gardner the tools he needs to expose and combat this threat to our free society.

Thank you,
Jim Greene & Judy LeClair

Thank you for reading my email - I'm sure you've received many on this matter.

Please amend SB43 with the Gardner Amendment the discrepancy between the 11/3 election day totals and the recount totals just 9 days later must be resolved. Please do this for the sake of our country - please follow the constitution so every vote in our great country counts via forensic audits on Windham's Diebold AccuVote voting machines. Thank you.

Dear House Election Law Members,

I am a Judge and Chief Judge for the Board of Elections in a city in North Carolina, and deeply concerned with the ways that the 2020 election appear to have been manipulated and falsified. Because of the failure of so many of our own institutions to conduct a clean and transparent election, and the failure of so many of our law enforcement and judicial bodies to investigate and hear the concerns of citizens, there is now a DEEP suspicion of the legitimacy of the announced outcomes. That suspicion pertains to all aspects of the 2020 election, from the most minor local campaign to the top of the national campaign.

Because of the events in Windham, you in New Hampshire now have the singular honor and opportunity fully to reveal the reality of the election in your state. So far, no other state has had the courage to address this issue. This suspicion and uncertainty is a toxic poison to our nation, and causes hostility between neighbors and families. I URGE you and PRAY that you will take this opportunity to resolve the uncertainty of the election results in New Hampshire.

With deeply sincere thanks, Laura Gutman, M.D. (Durham, NC)

Subject: New Hampshire election audit
Importance: Normal

Dear Representatives,

I am a citizen of Delaware who has a strong interest in the Windham, NH election fraud situation. Though not a citizen of your State, I feel that election integrity is so important, that ALL citizens everywhere should be concerned. I urgently request you to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many New Hampshire and United States citizens.

As you consider input from other sources, including other proposed amendments, please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by your legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham, NH.

The citizens of the United States are looking to you to preserve the integrity of our elections! This is your time to stand for New Hampshire and the United States.

Respectfully,

Roderick J. Gillespie

I sincerely request you investigate the possible voter fraud identified in the Windham recounts. Forensic audits of tabulating machines are not enough, as the electronic program can, and probably has been deleted after the fact. The voters of New Hampshire need to have their confidence in the voting system restored by hand recounts in several if not all Wards and Precincts. The damage done is on par with MtBE, Opioids, Tobacco, and PFAS. A multi-billion dollar lawsuit against those found responsible would more than pay for the costs of recounts and restore our First in the Nation Primary State status as having fair and honest elections.

Machines can be programmed to operate normally until a time and date, or more likely after the initial paper tape receipt is printed at the opening of the polls. Please consider that the technology exists to perform as follows:

- Candidate R votes are then counted as 0.75 for Candidate R, and 0.25 for Candidate D, while Candidate D votes are counted as 1.0 for Candidate D. Anyone that has worked with Excel formulas is familiar with this.
- So, 100 votes for each would tally as 75 for R, and 125 for D, total equals 200 which matches the number of ballots cast, but not the vote.
- The check and balance at the end of the voting is counting the number of ballots issued, minus voided ballots, and accounting for the non-issued ballots. Whereas the 0.75 and 0.25 votes equal 1.0 the total tally is within the margin of error of the total votes cast.
- The printing of the tally at the close of voting could then initiate a deletion of the fraudulent program and be lost forever.

A hand recount to confirm the tabulated count is the only way to return voter confidence. The vote, illegal or not has been ratified. Nothing will change, only we will have confidence in future elections. The ballots are in sealed boxes and wait for your action.

Full disclosure, I received 5% less votes than my competitors in Cheshire District 12, or did I?

Sly Karasinski
Your Republican Candidate for Cheshire 12 serving Richmond & Swanzey

I am adding my voice to the LARGE and growing group of citizens that request our representatives investigate what appears to us as blatant election fraud. We forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020 general election ballots.

With all due respect, I ask that you vote YES on SB43 amended with the Gardner Amendment. All we ask for is a proper investigation.

Thanks,

Mitch

Senators,

You are making headlines all the way down in Atlanta, Georgia! We are rooting for you, and ask that you support and pass SB43 as amended with the Gardner Amendment. Our country is at stake!

We need a complete, transparent forensic audit of Windham's voting machines and the November 3, 2020 general election ballots. Audited by a 3rd party that in no way is affiliated with Diebold/AccuVote and has no history with them or Dominion.

God speed and protection!

Thank you so much,

Richard Besselink

Dear New Hampshire House Election Law Committee,

New Hampshire should amend the Gardner Amendment as is to Senate Bill SB43. Forensic audits are needed on Windham's Diebold AcuVote voting machines and the Nov 3, 2020 general election ballots. This audit is necessary in order to get to the bottom of the giant discrepancy found between election day numbers and those found in the recount 9 days later. We must do the right thing and keep New Hampshire a shining beacon for the rest of the country, and the world, to look to for guidance. Be a leader, not a follower. Do the right thing. Thank you

Sincerely,

Reed Fulton

New Hampshire House Election Law Committee,

Good morning. I have been following the news on the integrity of the elections throughout our nation over the past multiple months. As is every American, the actions or inactions of every state affect us all. I am very thankful for what looks to be genuine concern and integrity in NH over the inconsistencies that have been found in Windham, NH. This is a critical time in our nation. The federal government and courts have failed all of us. The responsibility and accountability has fallen to the just authority of each and every sovereign state to stand for the rule of law, justice, its own state constitution, and the constitution of the United States. I respectfully ask that you vote in support of the forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020, general election ballots in SB43 and Amendment(s). Please take action in passing SB43 as amended with the "Gardner Amendment" immediately.

Thank you,
Mike Bigg

To Whom It May Concern,

I respectfully demand that you vote YES for a forensic audit of the Windham New Hampshire voting machines. As a free and fair society we MUST have fair and honest elections regardless of which side is asking for an investigation. I ask you to represent your constituents and stand by our states motto of "LIVE FREE or DIE". You do work for the people and we are demanding an honest audit so that if fraud is found something can be done about it for future elections. Thank you for your time.

Sincerely,
Anthony J Glentz III

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Mrs. Maria Hey

Hudson, NH

Subject: **PLEASE SUPPORT SB43 As Amended with the Gardiner Amendment**

Importance: Normal

Dear NH House Election Law Committee members,

Please PASS-SUPPORT SB43 with the GARDNER AMENDMENT.

There are many important questions and concerns that have been raised by the Windham Town Election Integrity Committee, and these need to be addressed and answered for those in Windham, as well as those of us in other NH towns.

As you consider input from other sources, including other proposed amendments, please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan.

Please support Secretary of State Bill Gardner and his plan to get to the root of our concerns about the vote count discrepancies in Windham.

Respectfully,

Donna Price

Subject: The Windham Incident
Importance: Normal

Dear committee members,

As a resident of a small town in NH, and someone who has had his confidence in our election systems badly shaken by the glaring anomalies seen in NH's November elections, I am writing to you today to express my sincere belief that NO ISSUE that comes before the NH state legislature IS MORE PRESSING OR IMPORTANT than ensuring that this confidence is restored. I am not alone in this sentiment. I can also tell you that, in my experience, this crisis of confidence is widespread throughout the community, and especially so among residents that I find that are the most politically engaged. I implore you to demonstrate clearly to the people of NH that you will push for ACTION in order to restore confidence in our elections, not just in Windham, but in all NH voting precincts. There are many actions you may take, but anything short of a full, public and transparent forensic examination of all ballots and machines used in the November elections will be seen as inadequate, and a betrayal of the people of NH who elected you to serve.

Sincerely,
Matt O'Mara

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully

Respectfully,

Lidia Rangel

Dear Representatives,

I am writing to you today with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee. I am not a NH citizen, so I know my voice holds no real weight, but the entire country is watching what is happening with regards to audits of voting machines and ballots. We have a real concern about the integrity of the November 3 and prior elections.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

To the Honorable Representatives of NH:

As a citizen of New Hampshire and a resident of Windham, I write to urgently request that you PASS-SUPPORT SB43 with the Gardner Amendment. There are several questions that need to be answered regarding election integrity in our town and your body is our final resource for settling this once and for all.

Of course, you can imagine, that the Windham situation must also raises questions throughout the state. The possibility that a voting machine/software/hardware could malfunction needs to be considered, addressed and resolved. I humbly ask your assistance in resolving this concern.

Secretary of State Gardner will need the support of the NH legislature to determine the best process to uncover the answers we all must seek. I have great confidence in your Legislative body to assist in this process to help maintain voting integrity for Windham and our great Granite State.

I am in full support of the Gardner Amendment to SB43.

Thanking you in advance for the time and effort you all contribute to our Live Free or Die state.

With much Respect,

Mimi Kolodziej

TIME FOR ACTION! New Hampshire House Election Law Committee to VOTE WEDNESDAY on SB43 and Forensic Audits of Windham's Voting Machines — EMAIL LINK BELOW!

By Jim Hoft

Published March 9, 2021 at 9:38pm

Guest post by Ken Eyring in New Hampshire—

If you want election integrity in Windham, NH... then TAKE ACTION! NOW!!! It's not tough to get out of that comfort zone... just do it! The past several months have been filled with others doing the heavy lifting seeking answers to the "Windham Incident."

Last week ended with the excellent news that NH Secretary of State Bill Gardner had agreed to a plan that he wants amended "as is" to Senate Bill SB43. It's being called "The Gardner Amendment." If passed, it would trigger forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020 general election ballots.

Those audits would provide answers to troubling questions surrounding the enormous discrepancy between the November 3, 2020 election day totals and a recount 9 days later.

But there are a few people in influential positions who are against the forensic audits. Who will get their way? You, or them? YOU DECIDE! Email TODAY!!

This should be a non partisan issue to get to the bottom of what happened in Windham. Our citizens have a right to feel confident when an incident like this happens, that the integrity of our voting is trustworthy. As the First in the Nation Primary state, it is common sense to do this. Please support Senator Giuda's bill with the Gardner amendment.

Thank you.

Forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020 general election ballots are an inevitable and necessary step to confirm a correct and reliable result of the recent election. It will also contribute to a better national understanding of the issues in the recent elections and hopefully lead the way to steps that will assure trustworthy elections in the future throughout the United States.

The forensic audits in Windham are not only important for New Hampshire citizens, but also for the entire nation.

Thank you for your consideration.

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Dear Representatives,

As a NH resident, I am concerned about our nation and our state's integrity in regards to voting. I stand with our Secretary of State Gardner and his plan to find the answers to what happened in Windham, NH.

Please pass the SB43 with the Gardner Amendment.

Sincerely,
Lauri Wallace
Winchester, NH

Importance: Normal

Dear Representatives,

I am writing to you today as a citizen of Georgia with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee. As you know, Georgia experienced some very troubling election anomalies, and thus far our state has chosen to not address those anomalies.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state, and perhaps open the door for election anomalies to be investigated in other states.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it. I pray that you will be the heroes that step forward to insure our elections are never again tainted in the way they were in 2020, both in the Federal and State elections.

Respectfully,

Barbara Powell

Forensic audits on Windham's Diebold AccuVote voting machines and the November 3, 2020 general election ballots are needed to determine the legitimacy of the election results. There is an enormous discrepancy between the [November 3, 2020 election day totals](#) and a [recount 9 days later](#). This must be addressed. It is the only way to resolve lingering doubts that the majority of Americans have about election integrity. Thank you for your attention and courage in this matter.

Respectfully,
Patrick Meadows

Subject: Fwd: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT
Importance: Normal

House Election Law Committee:

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it should address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover all of the answers we seek and to address all of our concerns, including those of the Windham town officials.

That process was presented to the public this past Friday March 5th and I fully support it.

Sincerely,
Jennifer Stone

To Whom It May Concern:

I respectfully request that there be a full audit of election machines in the State of New Hampshire. I have multiple family members living in New Hampshire, and am very concerned about the Windham voting machines. Although it was exposed in Windham, it is extremely likely that is occurred in other towns and cities as well. Please have the courage to examine your system, as what happens in New Hampshire and every other state greatly affects the whole country.

Thank you.

I grew up in beautiful NH but no longer reside there. With regards to the vote on the Windham audit I would strongly encourage you to do so. Your audit will affect all of us, all over the country. If all looks above board it will ease the mind of the voters everywhere. If things are shown to be problematic perhaps it will influence how elections are conducted in the future, software and equipment used. Although there is no constitutional remedy for removing a sitting president who was fraudulently elected, we can at least move forward to ensure this never happens again.

Thank you,
Elise Clark

Subject: please support SB43 as amended with the Gardner Amendment (election transparency)

Importance: Normal

I beg you to support election transparency by supporting Senate Bill SB43 with "The Gardner Amendment" to start forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020 general election ballots.

We must be able to trust that the votes of New Hampshire residents are fairly counted. And, just like the IRS, we must do random audits.

Thank you

Sent: Wednesday, March 10, 2021 7:36:49 AM
To: ~House Election Law Committee
Subject: Please Pass SB43 with the Gardner Amendment
Importance: Normal

To All Members of the House Election Law Committee:

I respectfully ask you to please pass SB43 with the “Gardner Amendment” included. Something caused the votes in the State Rep race in Windham to reflect a difference of over 9% from the machine count reported on Nov. 3rd and the hand recount done by the SOS a week later.

Can you tell me what caused this?

SB43 must include Secretary Gardner’s request for a thorough, fair and transparent forensic audit of the Windham vote.

The SOS wants it. The Town of Windham wants it. The Chairs of the Windham Democrat and Republican parties want it. The candidate who asked for the recount wants it.

Most importantly the people of New Hampshire want it.

Please vote to Pass SB43 with the “Gardner Amendment”.

Thank you for your consideration.

Importance: Normal

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Ed Anderson Greenfield, NH

NH House Election Law Committee,

Please support the SB43 and it's Amendments fo ensure voter election integrity not only in Windham but throughout the United States. The blatant fraud that has been committed in the 2020 election has been overwhelming. The Windham Incident is just one piece of the fraud. By you supporting SB43 you will be a part of history to not only uncover the blatant fraud in your districts but start a snowball of uncovering evidence throughout the country. Have more courage then our own SCOTUS that is cowering to the pervasive threats from the left of packing the Supreme Court with Liberal Democrats. The SCOTUS has abdicated their responsibility. You have the opportunity to uphold the rule of law, integrity in the elections and overall fairness that is expected by the one person one vote policy of the constitution.

Best Regards,

Ted Nelson

Good Morning!

Given the irregularities in Windham pertaining to the discrepancies in the vote counts in the 2020 election, it is imperative that a complete forensic analysis be performed so that a determination can be made as to what had happened.

The foundation and perpetuation of the democracy is completely dependent on there being free, fair and honest elections. If citizens lose their confidence in the elections the Country will soon collapse thereafter. I urge all involved to do their Civic duty to avoid this from happening! The future of all living Americans and future generations are at stake.

Sincerely
Bob Morris

Dear House Election Law Committee:

It is time to clean up our election process and make sure the voice of Granite State residents are heard loud and clear. Too many questions have arose and too many odd occurrences during this past election have cast doubt including my husband and I receiving ballots we did not request, people showing up on election day to register as new residents in our tiny town, and now after a hand recount in Windham the systems our legislators have used our tax money to purchase reveal these systems can't count.

Why is everyone afraid of the truth; we all just want the truth – our institutions audit people all the time to make sure they are in compliance – it is time for us to do the same and give the people peace of mind.

Please get this done Americans are tired of the political wrangling.

Thanks and best regards,

Debbie Canty

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

Dear Representatives,

We are writing to you today as concerned American citizens with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

The importance of this matter goes well beyond the state of New Hampshire. The November 2020 election had so many irregularities that need to be investigated. Instead, Americans saw no interest by election and government officials to investigate. Instead we are being told this was the "safest" election in history and we have no right to question the results. Our voices are even being silenced in the media. We can't imagine anything that could be more un-American. You in New Hampshire have the opportunity to do the right thing and do a proper investigation so we can trust our elections. Please do the right thing. God Bless You and God Bless America.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

John Miller
Claire Miller

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

David and Julia Sharpton

To House E L Committee,

As New Hampshire residents we deserve and demand free and fair elections. I believe that not only should we be auditing the machines in Windham but all similar machines in the state. We also need to take a hard look at those who would appose such an audit and delve into their "reasoning". Please vote to secure our elections and get to the bottom of this plaguing issue with a true thorough audit done by qualified professionals.

Regards,

Nick Makris

Dear House Election Law Committee Members,

I implore you all to support SB 43 as amended with the Gardener Amendment! As a citizen living in Nashua, I am extremely concerned about the machine miscount on election night in the Town of Windham. There is absolutely no software, nor calibrated machine, that would be so far off the count like it was recently (and quite interestingly only for the four Republican candidates!) found to have been in the town of Windham, New Hampshire. The accuracy of these machines should be well in excess of 99%. When they are not, it should be automatic that there is a forensic investigation that is done to find the root cause. This root cause could indeed be something quite innocent or it could indeed be something nefarious? I am in technology and know that by now, with all the elections America has done, these machines and their counts should be extremely consistent and accurate! It is astounding to me that there is even the thought that this would not be thoroughly investigated as the public has an absolute right to have full confidence in the voting systems and know their integrity is unquestioned. I had heard that our New Hampshire Department of Justice initially decided not to investigate this S/W machine miscount. What would ever be the rationale for a decision not to do a complete forensic investigation? Especially with the crazy events we had on and since Election Day!

I've always thought that our little State of New Hampshire would always be well above all this craziness but I must question how we would ever come to accept such a severe miscount and not want to understand it's root cause? I look forward to your response and am hopeful of your action to push for a complete, transparent, thorough, forensic root cause investigation where all parties can be involved in the steps and observe. Thanks-Mike Fahey

Dear New Hampshire House Election Law Committee and those who work for it,

I, a citizen of the Granite State of New Hampshire, humbly request that you PASS New Hampshire Senate Bill 43 as amended with the “Gardner Amendment” which would trigger forensic audits on Windham’s Diebold AccuVote voting machines AND the Tuesday, November 3rd, 2020 General Election ballots.

I also would like to make a request that we have a forensic audit not just in Windham, not just all of Rockingham County, but all of New Hampshire as a whole, because I know for sure that the AccuVote machines are used in many towns and cities outside of Windham.

Please do what is right for We The People and stand up for our right to vote without fear of our votes being muddled by potential fraud.

Sincerely,
Shane Skinner

Dear Representatives,

Please vote in support SB43 with the Gardner Amendment.

The 2020 election raised concerns on election integrity throughout the country. The recount results in Windham have exasturbated these concerns here in New Hampshire. Many questions have been raised and have not yet been answered. Confidence in our election process is vital to our republic.

SB43 with the Gardner Amendment provides a common-sense solution to answering why we had such deviation in the original election results verses the recount results. Secretary of State Gardner has provided his expertise and knowledge to develop the plan. The plan is thorough and will address the concerns that have been bought forward by the Windham Town Election Committee as well as those raised by NH citizens across the state.

New Hampshire citizens need to have confidence in the New Hampshire process. Please vote for SB43 with the Gardner amendment so this can be accomplished.

SB43 with the Gardner Amendment process was presented to the public this past Friday, and I fully support it.

Respectfully,

Elizabeth A. Hydock

I am writing to you today as a US citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many US citizens across our country

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Rosemary Buttermore

Dear House Election Law Committe,

I am a New Hampshire citizen and am very concerned about our voting process. Please support and pass SB43 so we all can have peace in knowing that our system is fair and just. Our town Windham (and our whole state) needs this to prove to its citizens that transparency and integrity are a must for this voting process to work

The Secretary of State Gardner must be supported by our legislature. As you consider input from other sources, including other proposed amendments, we must define the best process to uncover all the answers we seek and to address all of the concerns, including those of the Windham town officials.

This was brought to the public March 5th and I am backing this and I hope you will as well.

Please do the right thing so we can all move forward with pride in America again!

Sincerely,

Michele Crook

Subject: SB43, as amended
Importance: Normal

Dear Legislators,

I urge you to support SB43, as amended, especially with the "Gardner Amendment". It is essential to fully do a forensic audit of each machine in Windham, including separately, and examine each individual ballot.

There is no reason to not do so. This was the most egregious discrepancy between machine and ballot hand recount EVER in our state's history. Respectfully, to not vote in support of this effort to really find out what happened is tantamount to supporting and covering up election "irregularities", at a minimum.

If we want to maintain our "First in the Nation" primary, we must maintain first in the nation election integrity.

Further, don't just vote to support this bill. Lead with your support. If pushback continues from other officials (AG, Governor) make it your business to expose their pusillanimity and their faithlessness with the citizens of our great state!

Thank you for your time and consideration.

To House E L Committee,

As New Hampshire residents we deserve and demand free and fair elections. I believe that not only should we be auditing the machines in Windham but all similar machines in the state. We also need to take a hard look at those who would appose such an audit and delve into their "reasoning". Please vote to secure our elections and get to the bottom of this plaguing issue with a true thorough audit done by qualified professionals.

Regards,

Nick Makris

Dear House Election Law Committee Members,

I implore you all to support SB 43 as amended with the Gardener Amendment! As a citizen living in Nashua, I am extremely concerned about the machine miscount on election night in the Town of Windham. There is absolutely no software, nor calibrated machine, that would be so far off the count like it was recently (and quite interestingly only for the four Republican candidates!) found to have been in the town of Windham, New Hampshire. The accuracy of these machines should be well in excess of 99%. When they are not, it should be automatic that there is a forensic investigation that is done to find the root cause. This root cause could indeed be something quite innocent or it could indeed be something nefarious? I am in technology and know that by now, with all the elections America has done, these machines and their counts should be extremely consistent and accurate! It is astounding to me that there is even the thought that this would not be thoroughly investigated as the public has an absolute right to have full confidence in the voting systems and know their integrity is unquestioned. I had heard that our New Hampshire Department of Justice initially decided not to investigate this S/W machine miscount. What would ever be the rationale for a decision not to do a complete forensic investigation? Especially with the crazy events we had on and since Election Day!

I've always thought that our little State of New Hampshire would always be well above all this craziness but I must question how we would ever come to accept such a severe miscount and not want to understand it's root cause? I look forward to your response and am hopeful of your action to push for a complete, transparent, thorough, forensic root cause investigation where all parties can be involved in the steps and observe. Thanks-Mike Fahey

Dear New Hampshire House Election Law Committee and those who work for it,

I, a citizen of the Granite State of New Hampshire, humbly request that you PASS New Hampshire Senate Bill 43 as amended with the “Gardner Amendment” which would trigger forensic audits on Windham’s Diebold AccuVote voting machines AND the Tuesday, November 3rd, 2020 General Election ballots.

I also would like to make a request that we have a forensic audit not just in Windham, not just all of Rockingham County, but all of New Hampshire as a whole, because I know for sure that the AccuVote machines are used in many towns and cities outside of Windham.

Please do what is right for We The People and stand up for our right to vote without fear of our votes being muddled by potential fraud.

Sincerely,
Shane Skinner

Hello,

I am a concerned citizen and am worried with the recent election counting results in Windham. Please perform a full forensic audit of the ballots and voting machines. I support SB43, specifically the Gardner amendment.

Best,

A concerned citizen

Dear Representatives,

Please vote in support SB43 with the Gardner Amendment.

The 2020 election raised concerns on election integrity throughout the country. The recount results in Windham have exasturbated these concerns here in New Hampshire. Many questions have been raised and have not yet been answered. Confidence in our election process is vital to our republic.

SB43 with the Gardner Amendment provides a common-sense solution to answering why we had such deviation in the original election results verses the recount results. Secretary of State Gardner has provided his expertise and knowledge to develop the plan. The plan is thorough and will address the concerns that have been bought forward by the Windham Town Election Committee as well as those raised by NH citizens across the state.

New Hampshire citizens need to have confidence in the New Hampshire process. Please vote for SB43 with the Gardner amendment so this can be accomplished.

SB43 with the Gardner Amendment process was presented to the public this past Friday, and I fully support it.

Respectfully,

Elizabeth A. Hydock

Dear House Election Law Committe,

I am a New Hampshire citizen and am very concerned about our voting process. Please support and pass SB43 so we all can have peace in knowing that our system is fair and just. Our town Windham (and our whole state) needs this to prove to its citizens that transparency and integrity are a must for this voting process to work

The Secretary of State Gardner must be supported by our legislature. As you consider input from other sources, including other proposed amendments, we must define the best process to uncover all the answers we seek and to address all of the concerns, including those of the Windham town officials.

This was brought to the public March 5th and I am backing this and I hope you will as well.

Please do the right thing so we can all move forward with pride in America again!

Sincerely,

Michele Crook

Subject: SB43, as amended
Importance: Normal

Dear Legislators,

I urge you to support SB43, as amended, especially with the "Gardner Amendment". It is essential to fully do a forensic audit of each machine in Windham, including separately, and examine each individual ballot.

There is no reason to not do so. This was the most egregious discrepancy between machine and ballot hand recount EVER in our state's history. Respectfully, to not vote in support of this effort to really find out what happened is tantamount to supporting and covering up election "irregularities", at a minimum.

If we want to maintain our "First in the Nation" primary, we must maintain first in the nation election integrity.

Further, don't just vote to support this bill. Lead with your support. If pushback continues from other officials (AG, Governor) make it your business to expose their pusillanimity and their faithlessness with the citizens of our great state!

Thank you for your time and consideration.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Mike Nugent (Antrim NH)

Dear New Hampshire Election Committee,

Please conduct full and complete and independent election audits of Windham County's voting machines. It is essential that Americans are confident in their process. The cover-ups and attempts to block discussion are the greatest piece of evidence that something is not right. Only exhaustive examination and free discussion will result in confidence of integrity or the resolution of issues. Please conduct this full audit. Thank you!

Respectfully,

Glenn Ritchie

Importance: Normal

To The Election Law Committee,

It is of the utmost importance that you support SB43 as amended with the Gardner Amendment. It is my personal belief that we have had an unprecedented amount of election fraud in the 2020 election cycle. Though it is my belief I am perfectly fine being proven wrong. Ultimately the truth is more important than being right whatever the truth may be. To that end when we see such suspicious consistent errors as we did in Windham county we should all endeavor to discover the truth. That is why I am asking that you lead by example and perform a full forensic audit. In fact we should be doing these more often. If there is truly nothing to hide then it will merely demonstrate the trustworthiness of the process. If not it will show that we need to move away from electronic voting machines which are easily manipulated. Thank you for considering my request I trust you will take it with the greatest seriousness.

Sincerely,

Josh Stiles

Dear Representatives,

I am a resident of Moultonboro NH and have owned property in NH for over 30 years. The questions raised by the last election. are, at a minimum, "troubling" and are actually much more than that.....serious, horrible, terrifying, nightmarish, and worse. You can help to mitigate this issue if you PASS-SUPPORT SB43 with the GARDNER AMENDMENT . I believe that it is our best chance to provide important answers to many of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many of us across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I support it.

Subject: PASS-SUPPORT SB43 with the GARDNER AMENDMENT
Importance: Normal

Dear Representatives,

I am writing to you today as an American citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectful regards,

Robert Blackburn

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

It is vital that for election integrity that SB43 with the Gardner Amendment be passed.

Forensic audits on Windham's Diebold Accuvote voting machines AND the November 3, 2020 general election ballots are desperately needed

Those audits would provide answers to troubling questions surrounding the enormous discrepancy between the **November 3, 2020 election day totals** and a **recount 9 days later**.

I urge you to support SB43 as amended with The Gardner Amendment. We the people deserve free and fair elections and we are entitled to KNOW that we have had a free and fair election after the election is over. Otherwise we will lose trust not just in our election process, but we will also lose trust in those elected. We cannot as a people allow that to happen for it will divide our nation even more than it already is. Whether you are a Democrat or a Republican you should want to vote for this legislation in order to clear up the controversies surrounding the discrepancies found in Windham NH. This must be done in order to bring closure to this matter.

Please move quickly to allow a full forensic audit of the voting machines and all ballots from the Nov 2020 election in Windham, NH, to address the gross discrepancies between the Election Day results and the recount shortly after. We need to know the truth. We need to ensure election integrity. We are all watching you in New Hampshire, praying that you do what is right, and investigate these irregularities. Thank you.

Importance: Normal

To whom it may concern,

I implore you to pass this legislation and adopt the Gardner Amendment. There needs to be a forensic audit of New Hampshire's 2020 election results.

I am a 20-year-old Human Resources student from Long Island, New York. On the side, I study elections and politics very closely. I called all 50 states for Trump in 2016, 235 seats for House Democrats in 2018, and have called every race in New Hampshire for President, Governor, Senate, and US House 100% correctly since 2016.

I can tell you from my studies and my knowledge that there are dozens and dozens of statistical, historical, and psephological anomalies that occurred in the 2020 general election, which likely trickled in Senate, Gubernatorial, House, and state-level elections. One or two anomalies are record breakers, but dozens of anomalies are cause for concern. The fact that all republicans in Windham, and possibly more within Rockingham County and the state of New Hampshire, were all cut an equal amount of votes is probable cause for an investigation. Numbers do not repeat themselves like that organically.

Look no further than the results of Antrim County, Michigan, one of the most solidly-republican in the nation. Antrim County has been voting in elections in 1860, in which they voted for Abraham Lincoln, a republican. They would vote republican from 1860 all the way until 2020, with two exceptions: 1912 for Theodore Roosevelt, who ran as a Bull Moose Progressive, and Lyndon Johnson in his 1964 landslide, in which he swept every county in Michigan. You could imagine the surprise when initial totals had Joe Biden leading Trump in Antrim County by 3000 votes, when in 2016 Trump had routed Clinton with 62% of the vote in the county. They blamed software drivers in the Dominion machines as the problem.

While New Hampshire does not use Dominion voting machines, at least to my knowledge, they do use AccuVote machines, the intellectual property of which is owned by Dominion. There are many problems surrounding these machines and we should take the lead from other countries in the world who have supervised paper ballot elections.

As a concerned American who no longer feels the need to vote if decisions can be manufactured by those who want them, please hear this case and perform a forensic analysis of the machines in Windham. If results are ingenuine, I would strongly urge a statewide audit. If there is a major shift in margins, or possibly winners of races, it will be one of the most historically significant events in our country's history.

Thank you,
~Matt Meduri

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Pamela stanford

Dear Representatives,

I am writing to you as a patriotic American who wants fairness, legitimacy and integrity in our elections. If Americans do not have confidence in their elections, they will lose trust in our government institutions and political leaders. Trust in the system is one of the most important aspects of the American Experiment. It has helped make us the greatest country in the world.

It is for the reasons stated above that it is critically important for you to pass Senate Bill 43 as amended with the Gardner Amendment. This will allow questions regarding the 2020 election to be resolved, one way or the other, and will help to ultimately ensure that people trust the electoral system.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

Thank you for your time and consideration.

All eyes are now focused on New Hampshire, and an audit of Windham's Nov 2020 election ballots and machines is critically important not just to fellow citizens, but to all Americans and the world. The people have a right and a need to know the truth, and so I implore you to support SB43 with the Gardner Amendment.

It has been frustrating to witness so much corruption in our federal government and powerful partisan groups, and it is apparent that we must look to the states to protect our rights. Valiant state leaders are our only hope in restoring and securing our cherished freedoms and the peoples' voice via fair elections—so please act while you still have the power to do so.

May you be instrumental in delivering truth, and thank you for your efforts to this end.

K. Bailey

And...PLEASE do not overlook the need for tightened security over ballots and election records and machines to prevent crimes of destruction as have been witnessed in other states!

Dear NH House Election Law Committee,

People all over the country are concerned that we are in the midst of a radical take over of the country which is being facilitated by the electronic voting machines much of the country is using as well as by other means.

We need to know for certain what caused the irregularities in Windham as this type of error may be occurring in other parts of the country.

If it is an honest mistake determining the exact cause will bring peace of mind to those who are concerned. If there is fraud it must be exposed.

Please resist the efforts of those who would reject and prevent an honest exploration of both the ballots and the machines. There have been many efforts to destroy, tamper with and hide evidence in Georgia, Arizona and Michigan.

Please perform a thorough investigation!

Thank you,
Kevin Brown

Dear NH Lawmakers,

I am writing in support of SB43 not only for the great state of New Hampshire, but for the entire country as well. As you know trust in our elections is a must for all involved. It is a part of what makes us a free country.

We should all know the truth and facts of what happened during the 2020 election where ever doubt has been raised. To hide such things not only makes those in power look bad, but also creates distrust for those in power.

To give a detailed look into what happened with the elections in Windham will be a wonderful event to see and hear about. Let us know what went well and what needs fixing.

Sincerely,
An American Citizen

Hello,

My name is Cameron Connor, I'm a lifetime New Hampshire resident. I'm currently living in Allenstown.

I don't normally weight in on particular bills, but I think it's extremely important that SB43 passes.

We need to know what happened in Windham, regarding what's being dubbed "The Windham Incident", and we need to know if this happened across NH as well, as many, many other towns use the same voting machines.

NH residents won't be able to have the faith they need in the integrity of our elections if this incident is intentionally locked away in a dark room forever. People need answers.

Thank you.

Warm Regards,
- Cameron Connor

Dear Committee Members:

NH Secretary of State Bill Gardner has agreed to THE GARDNER AMENDMENT to Senate Bill SB 43. This amendment would trigger forensic audits on Windham's Diebold AccuVote voting machines and the November 3, 2020 general election ballots. Those audits would provide answers to troubling questions surrounding the enormous discrepancy between the [November 3, 2020 election day totals](#) and a [recount 9 days later](#). Please do not be swayed by lobbyist or special interest groups or people in influential positions who are against the forensic audits. Your VOTE TOMORROW on [SB43](#) and Amendment(s) must assure the people of New Hampshire that their precious votes count and that they will not be canceled out by fraudulent ballots. You must pass [SB43](#) as amended with THE GARDNER AMENDMENT and vote with the wishes of your constituents.

Sincerely,

Anne Reiser

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state. I do not see why there would even be consideration not to do the audit. Not doing so would only allow doubt regarding our voting integrity to continue. We should have the most trusted voting system in the world, and currently the entire world is questioning our system. This is an opportunity to show the world our system can indeed be trusted. If the audit uncovers discrepancies, then we show the world the importance of not being complacent with the voting system.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Jeff Bock

The WORLD IS WATCHING NEW HAMPSHIRE!!! Please support SB 43 as amended with the Gardner Amendment. We absolutely need to see a forensic audit on the Windham's Diebold voting machines AND the ballots from the General 2020 election on November 3, 2020. IF the elections were all free and fair in NH...then there should be no fear of an audit. Thank you for your support for this endeavor. We need to have confidence in our elections going forward and the only way to do it...is an audit of the past election. Sincerely, Sue Eastman...a potentially disenfranchised voter

Dear Representatives,

I am writing to you today with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state, and citizens across our nation. Election integrity is of importance to all of us.

Confidence in the integrity of our elections is at an all-time low, whether justifiably or not. A comprehensive forensic audit of the ballots, the machines and the software is necessary to either expose the problems or lay the fears to rest. Please do not sweep this “under the rug”.

Respectfully,

Paul Farkas

I have come to understand that the "Gardener Amendment" SB43 is the correct vehicle in order to discover the truth as to what happened during the 2020 election in Windham NH. I believe that uncovering the truth of what happened during the election is the most important work that could possibly be done for the future of our state, and our nation. Please do not lose courage, our citizens must be shown the evidence, and understand what happened.

Thank You;
David Ekola

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT”

Importance: Normal

Dear Representatives,

Please support our well-known and revered Secretary of State Gardners amendment to SB 43 which will mean a meaningful audit of the outrageous vote discrepancy that occurred in Windham this past election.

All we want is for every vote to count. This is something that is neither Democrat nor Republican- it is American. Without free and fair elections we will no longer be a free Democratic Republic.

Please support accurate vote counts by supporting Bill Gardners amendment. In doing so you will restore my confidence in the system whereas right now, I have no confidence currently. I would be very grateful for your consideration Sincerely,

Ted Maravelias

Windham

Importance: Normal

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Jennifer Noyes

I must say that it saddens me to even have to request support for this bill. In light of the discrepancies that occurred with Windham's election results and subsequent re-count, there is simply no other option to a thorough, transparent audit. Trust and confidence in the integrity of our elections is paramount.

Subject: Vote YES on SB 43 with Gardner Amendment
Importance: Normal

Good evening - I am a Hampton Falls resident and I voted today in our Town election, as I have in every election since we moved here. I put my ballots into an Accu-Vite machine and wondered if my vote would be tallied accurately, or if my effort was pointless because of computer intervention.

It's well known that manipulation of computer activity is possible (and wildly creative) and happens every day in every aspect of our lives. I imagine every one of the Committee members has received one or more notifications from a wide variety of vendors and sources that said: We are sorry, but your personal information has been taken by unknown actors and may be used adversely. It's no longer even hard to do. This may have happened in different jurisdictions in the US in the November 2020 election, including in our State in Windham, if not known in other jurisdictions. The Town itself is asking for this action to be completed. No one is imposing it on them against their will.

You have the opportunity to resolve the question in Windham and advance the issue of election integrity in NH by voting to advance this bill before you SB43. There is nothing to be lost by executing a professional audit of that Town's election materials and software. Nothing. There is a LOT to be gained.

Please vote to advance this amended bill as recommended by Secretary of State Gardner.

Thank you for your time and consideration.

Please support SB-43 with the Gardner Amendment. This bill with the Gardner Amendment provides a path to determine the accuracy of the AccuVote machines.

It is crucial to the citizens of New Hampshire that confidence in the AccuVote machines be restored. Most of our towns and cities use these machines but many people are concerned that there could be hidden problems within these machines. All four of the AccoVote machines in Windham must be audited to prove their worthiness. Anything less can make the voters of New Hampshire think there is something to hide!

Thank you,
Alvin See

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it should address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover all of the answers we seek and to address all of our concerns, including those of the Windham town officials.

That process was presented to the public this past Friday March 5th and I fully support it.

I am writing with urgency to all committee members asking for your support on this critical legislation! FREE and FAIR, ELECTIONS distinguish us from all other forms of government. Voting is the singular most important right to a free republic! This bill is necessary to resolve, once and for all, the Windham election incident and restore confidence in NH election integrity! Whatever the outcome, a knowledgeable path forward can be realized and our First In The Nation reputation deservedly restored! Please support this bill!!!

Thank you!

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover all of the answers we seek and to address all of our concerns, including those of the Windham town officials.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Concerned Moultonboro Resident,

Greg Johns

Dear Representatives,

This email has origins as a form letter, but appropriately conveys our thoughts on the matter.

We are writing as NH citizens (Moultonborough, not Windham) with a request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover all of the answers we seek and to address all of our concerns, including those of the Windham town officials.

That process was presented to the public this past Friday, and we fully support it.

Whether you're politically biased right, left or center, maintaining election integrity is paramount. These discrepancies need to be investigated, and we hope you'll support SB43.

Respectfully,

Steve & Kristin Miller

Importance: Normal

Dear Representatives:

I respectfully request that you support SB43 as amended with the recommendations of Secretary of State Bill Gardner.

This legislation as amended, addresses the needs of the Town and Citizens of Windham. It also addresses the concern that many of us Granitester's have. Namely, we need to know that our elections are held with the highest integrity and with public transparency.

Bill Gardener has served New Hampshire as Secretary of State for many years. His election by the Members of the General Court is bipartisan. Secretary Gardener has put his reputation on the line and I believe we as citizens need to support his recommendation and that you as legislators should do the same. After all, it is you the Representatives, who gave Bill Gardener this responsibility.

Please support SB43 with the Gardner Amendment.

Sincerely,

Howard Coffman

Dear Representatives,

My name is John Cawthron.
I live in Nashua, NH.

I want to thank you for taking the time to look into the Windham, NH voting machine issue. I support and urge you to pass SB 43 along with the Gardner amendment. IN my opinion, SB 43 and the Gardner amendment will provide the answers and address the concerns of the people of the Town of Windham and of citizens like myself, across our state. While I am sure that you will be tasked with considering input from other sources, including other proposed amendments, please bear in mind that Secretary of State Gardner used his extensive experience and knowledge to formulate a plan for the audit. I would ask that you support the Secretary in order to define the best process to uncover all of the answers to this issue as well as to address the concerns of all involved.

That process was presented to the public on Friday, March 5th and I fully support it.

Respectfully,

John Cawthron

We continue to demand the following:

- An independent audit, with selection of participating forensic experts by Windham residents and approved by the Town of Windham Board of Selectman
- Full discretion of the forensic experts to determine the process to be followed for forensic analysis
- All resources necessary to complete the investigation to be provided to the forensic experts by the State of New Hampshire, including full access to the voting machines and ballots.
- Custody of the voting machines is to remain with the Town of Windham
- All ballots from the 11/3/2020 election are to be re-run through the machines and tapes compared
- A hand count to be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race
- Live-streaming of the counting process and machine testing

Good morning Committee members,

This past election left far more doubt in who's votes were counted. What happened in Windham is likely not an isolated situation. Please make sure SB 43 gets amended with the provisions necessary to add transparency and trust to the auditing process. Clearly each state must make every effort that every legitimate vote is counted and fraudulent votes are not.

Thank you for your service.

Sincerely

Colette Worsman

Importance: Normal

Dear Election Law Committee Members,

We are writing this morning asking you to please pass the Gardner Amendment for SB43. This will assure all New Hampshire citizens that the questions raised by the Windham general election results will be fully and transparently answered. In order to validate the integrity of our elections, the Secretary of State must determine the process for the forensic audit as outlined in the amendment.

Sincerely,

Lisa and Scott Barr

Subject: Windham, NH - Voter Fraud
Importance: Normal

Dear House Election Committee members,

Please support SB43 (which calls for an audit of the Windham, NH, election results) as amended. The amendment must call for full transparency and include the following:

- An independent audit, with selection of participating forensic experts by Windham residents and approved by the Town of Windham Board of Selectman
- Full discretion of the forensic experts to determine the process to be followed for forensic analysis
- All resources necessary to complete the investigation to be provided to the forensic experts by the State of New Hampshire, including full access to the voting machines and ballots.
- Custody of the voting machines is to remain with the Town of Windham
- All ballots from the 11/3/2020 election are to be re-run through the machines and tapes compared
- A hand count to be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race
- Live-streaming of the counting process and machine testing to provide full transparency to the public

Thank you,

John Allard
107 Swain Road
Barrington, NH 03825

Subject: Please amend SB43 to achieve FULL TRANSPARENCY
Importance: Normal

To the members of the House Election Law Committee and Secretary of State, Bill Gardner,

I am a resident of the Town of Derry and work in the Town of Windham. Following the presidential election, I emailed SOS Bill Gardener asking if all votes had been counted correctly. He assured me they had. Since finding out about the Windham voting irregularities, I am even more concerned about votes across the state. I would really like to see a recount of the ballots in each town in this state to reassure all voters of the integrity of the electoral process. With regard to the Town of Windham, this is what I and many are requesting:

- An independent audit, with selection of participating forensic experts by Windham residents and approved by the Town of Windham Board of Selectman
- Full discretion of the forensic experts to determine the process to be followed for forensic analysis
- All resources necessary to complete the investigation to be provided to the forensic experts by the State of New Hampshire, including full access to the voting machines and ballots.
- Custody of the voting machines is to remain with the Town of Windham
- All ballots from the 11/3/2020 election are to be re-run through the machines and tapes compared
- A hand count to be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race
- Live-streaming of the counting process and machine testing to provide full transparency to the public

It would be nice if this could be done in all towns in NH in which votes were cast. I realize this is requesting so much but the cost of losing faith in the electoral system is far worse. Feeling like your vote doesn't count is an awful feeling and in the end, stealing is not winning. No matter who wins, if it is a fair election, I believe most people would be wholeheartedly behind the results. My hope is that you will consider the contents of this email and act on it for the people of NH and integrity of the election system.

Thank you for your time reading this.

Sincerely,

Cindy Bortz

Dear Committee Members,

Today I urge you to make sure that Windham has full transparency as outlined in the conversation between Ken Eyring and Secretary of State Bill Gardner. Details below:

- An independent audit, with selection of participating forensic experts by Windham residents and approved by the Town of Windham Board of Selectman
- Full discretion of the forensic experts to determine the process to be followed for forensic analysis
- All resources necessary to complete the investigation to be provided to the forensic experts by the State of New Hampshire, including full access to the voting machines and ballots.
- Custody of the voting machines is to remain with the Town of Windham
- All ballots from the 11/3/2020 election are to be re-run through the machines and tapes compared
- A hand count to be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race
- Live-streaming of the counting process and machine testing to provide full transparency to the public

Please let our great state lead the way in election integrity.

Thank you for all that you do for us!

Subject: Senate Bill 43

Importance: Normal

To all House Election Law Committee members:

I am writing to ask you all to continue moving SB43 forward with all the requirements agreed upon by Secretary of State Bill Gardner. This would include full transparency and a full and complete forensic audit. The people of Windham, and the the people of the State of New Hampshire deserve to know everything about what happened during the November 3, 2020 election. Should the audit produce problematic results and proof of serious trouble with the machines, we then need to move forward with audits of every single community that uses these machines. A key cornerstone of this great democratic republic we call the United States of America is fair and free elections, and politicians who stand guard at the gate to protect and defend the magnificent document called the United States Constitution.

Let's show the rest of the country that New Hampshire stands for freedom, liberty, and honesty!

Thank you.

Thank you all for your service and thank you for the time - I will keep it brief.

I believe we as citizens of our great state of New Hampshire can set a precedent now for our future by demanding transparency and accountability in our elections. You have been chosen to go to Concord and represent your constituents. so please hear their voice and recognize the importance of this issue. I will not lecture you on the pros and cons - I find them to be self-evident as I expect you too as well. This "Windham incident" as it is being called is smearing the reputation and character of ALL us New Hampshire citizens, please do the work that must be done to correct this and prevent this from happening again.

We have a duty, an honor, a sense of belonging to our communities when we participate and vote, please make sure that isn't "cheapened" by allowing fraud to take place.

Thank you all, and God Bless!

Subject: Please amend SB43 to achieve FULL TRANSPARENCY
Importance: Normal

It is important to amend SB43 so as to guarantee full transparency for the town of Windham and for every voter in New Hampshire. Although not exclusive to other possibilities, SB43 as requested by concerned citizens of Windham should consider:

- An independent audit, with selection of participating forensic experts by Windham residents and approved by the Town of Windham Board of Selectman
- Full discretion of the forensic experts to determine the process to be followed for forensic analysis
- All resources necessary to complete the investigation to be provided to the forensic experts by the State of New Hampshire, including full access to the voting machines and ballots.
- Custody of the voting machines is to remain with the Town of Windham
- All ballots from the 11/3/2020 election are to be re-run through the machines and the tapes compared
- A hand count to be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race
- Live-streaming of the counting process and machine testing to provide full transparency to the public

In order to keep our important position as the first presidential primary in the nation, the Legislature of New Hampshire needs to assure that all vote counts for future elections cannot be manipulated in any way which could alter the vote results of an election.

The voters of New Hampshire need guarantees that election results for every election cannot be manipulated by any voting device supplied by any company. If this cannot be guaranteed then the only option is to hand count all election results.

Respectfully,
Joseph & Anne Cartwright
Alstead, NH

Good morning. After what we witnessed in November during our election, it is critical that we have fair and honest elections in this country or democracy is dead.

Whether or not you personally believe there was election interference is a moot point, as there was substantial evidence and reports of such from many people and sources. Please amend this bill for full transparency. We cannot allow this nefarious activity go unchecked in our proud little state, or nationally !!

Respectfully Submitted,

Subject: Please Amend SB43 for FULL Transparency
Importance: Normal

To my Honorable Representatives,

I apologize for the length of this note, but this subject is very close to my heart. In consideration of your time, I shall address my most immediate concern first.

As a citizen of New Hampshire and America, I am very concerned about the integrity of our elections, and strongly encourage you to support all amendments to Senate Bill 43 that will improve public transparency. Shy of enabling anyone to figure out who voted for whom, please put your full support behind all measures that will increase transparency for the sake of us all. Support for anything less than full transparency is duplicitous at least and nefarious at worst.

I've become aware of some measures being attempted to address potential issues with our last election. Relative to this issue, I strongly support taking the following actions:

1. An independent audit, with selection of participating forensic experts by Windham residents and approved by the Town of Windham Board of Selectman
2. Full discretion of the forensic experts to determine the process to be followed for forensic analysis
3. All resources necessary to complete the investigation to be provided to the forensic experts by the State of New Hampshire, including full access to the voting machines and ballots.
4. Custody of the voting machines is to remain with the Town of Windham
5. All ballots from the 11/3/2020 election are to be re-run through the machines and tapes compared
6. A hand count to be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race
7. Live-streaming of the counting process and machine testing to provide full transparency to the public

To provide you with a sense of how strongly I feel about this issue, I consider this well worth my expense as a taxpayer.

Okay, that's the most pressing stuff. If you care to continue, please do.

We all make mistakes, and if some were made in our most recent elections, so be it. I care less about placing blame at this point than I want us to learn from our mistakes. We need to address all weaknesses that remain, thereby discouraging future errors or criminal activity that will undermine our free and fair elections. (The horse is gone, but we need to make sure the barn door is locked so the next one doesn't escape!)

New Hampshire played key roles in the founding of our nation, and due to our first in the nation primary, it still does. Trust in our elections has been badly shaken for over half of our nation. We have the responsibility to set the standard in this process. Applying technology for technology's sake, or the sake of convenience is foolishness when it jeopardizes accuracy or its use threatens the result. In this regard, I'm so thankful we still use paper ballots! They do the job, are hard to

manipulate, and can provide a record that is as permanent as necessary. A sound chain of custody is all that they need to be reliable. There is no need for special equipment, and tampering is usually both labor intensive and evident. We also do a good job with our handling of handling the absentee ballot issue. Some things shouldn't change.

Policing the rest of the process isn't so simple. Basic technology has existed for decades to raise the stakes on the kind of "mistakes" that undermine our electoral process. IMHO, active security cameras (with sound) in EVERY polling and counting place should be mandatory (even if only set up or operated temporarily). Their recordings should be kept as diligently as the ballots. Although live streaming could pose security problems, adding 5 minute delay could usually address that. Those locations that do not have the required connectivity could publicly post their recording via a sate server the following day.

I thank you for your time.

George LeMay, Concord, NH

Dear HELC Members,

Thank you for serving the citizens of the state of NH. I know public service can be both rewarding and thankless simultaneously. Both my husband and I have been elected officials in our town, no matter where we have lived over our 50 years of marriage.

Citizens in towns outside of Windham are affected by your decisions because the AccuVu voting machines are used through out our state along side other machines.

As public servants, by choice, it has always been incumbent upon us to protect the very processes by which we have been elected and to protect the wishes of our constituents above our own.

It is with these values in mind that I ask each of you to give your full and honest attention to the voting discrepancies in the town of Windham in November 2020.

You owe it to the voters to find and bring to light, full transparency. Please amend SB43.

Sincerely,
Janet Hart
34 Lantern Lane
Kingston, NH 03848

I am writing to ask you to please amend SP 43 so that the Windham voting machines can be accurately tallied.

As agreed by many of my fellow Windham residents, and the state of New Hampshire, please consider the following:

- An independent audit, with selection of participating forensic experts by Windham residents and approved by the Town of Windham Board of Selectman
- Full discretion of the forensic experts to determine the process to be followed for forensic analysis
- All resources necessary to complete the investigation to be provided to the forensic experts by the State of New Hampshire, including full access to the voting machines and ballots.
- Custody of the voting machines is to remain with the Town of Windham
- All ballots from the 11/3/2020 election are to be re-run through the machines and tapes compared
- A hand count to be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race
- Live-streaming of the counting process and machine testing to provide full transparency to the public

Respectfully,

Trish Slaski

Please support passage of SB43, the Windham Recount bill. How often does a bill come from the senate 24-0? There is a need to understand what happened there. We do not know what will be found but if there is a problem there we must find it so it can be corrected there and elsewhere as may be necessary.

Important points:

- An independent audit, with selection of participating forensic experts by Windham residents and approved by the Town of Windham Board of Selectman
- Full discretion of the forensic experts to determine the process to be followed for forensic analysis
- All resources necessary to complete the investigation to be provided to the forensic experts by the State of New Hampshire, including full access to the voting machines and ballots.
- Custody of the voting machines is to remain with the Town of Windham
- All ballots from the 11/3/2020 election are to be re-run through the machines and tapes compared
- A hand count to be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race
- Live-streaming of the counting process and machine testing to provide full transparency to the public

Very Respectfully, Marc Abear..... Meredith

Hello. I am a concerned citizen in bridgewater NH. Windham NH had a recount after a Democrat asked for one. All Republicans were shorted 300 votes. This is very unusual and honestly very frustrating as other states have issues as well...but this stands out clearly. Please amend SB43 so we can have full transparency and also....i think I speak on behalf of all of NH when I say that the entire state needs to be audited. Thank you for your time.

Subject: Election Law Bills
Importance: Normal

Dear Committee Members:

There are a variety of election law bills due for hearings on Monday, March 8, 2021.

This email summarizes Granite State Taxpayers main areas of interest.
Separate emails will comment on each bill.

Granite State Taxpayers (GST) supports election laws that make our system of elections easy to understand, resistant to fraud, and available exclusively to residents of New Hampshire.

In summary, we work to be sure voting in New Hampshire should be done by Granite-Staters, and not by residents of other states.

That the primary, and expected, method of voting should remain as voting in person, allowing for voter identification and insuring integrity in ballot processing.

In this session, we need to work to:

- Fix the "temporary absence" absentee voting for residents of other states.
- Amend SB3 as required based upon final review by NH Supreme Court.
- Proof of residency/domicile required by election day (not after) to vote
- End or greatly curtail the applicability of identity and residency/domicile affidavits
- For newly registered residents from other states, document and maintain information on prior state of residence, if not currently done.
- New registration information to be provided to prior state (town clerk), NH DMV and NH DRA, and available as public record.
- Absentee ballot request information to be available to candidates

With the controversies of the 2020 election, a recount discrepancy in Windham to be evaluated, and challenges to the First in the Nation Primary, maintaining the quality, accuracy and reputation of our election system is more critical than ever.

Thank you for your attention and your work on behalf of the citizens of New Hampshire.

To: ~House Election Law Committee
Subject: SUPPORT SB43!
Importance: Normal

This email came back to me as undeliverable... so I am sending it again. Please confirm receipt of this message!

March 5, 2021

House Election Law Committee:

I am changing my testimony in regards to the malarky that came from Mr. Scanlon earlier. So many of the things he said just don't make any sense. The best was "We might never know what happened?" Are you kidding me? FOLLOW THE 11 POINTS in the amendment and we will find out. This isn't rocket science here... count ALL the ballots and run them all through each machine. This meeting has been truly painful to watch. I hope you realize that ALL of us are watching YOU VERY CLOSELY. Do the right thing... we have been waiting for months. 100's of problems with the November election were reported to the AG (Gordon MacDonald's office) and NOTHING was ever done, he didn't even have the decency to respond to the inquiries, letters, emails, affidavits, or even follow up with state reps after meetings. Also, Gordon MacDonald was served by a sheriff in early December with sworn testimony from 75 individuals of election law violations, issues, and problems they witnessed.

I also delivered 3 petitions to the committee today, they were all emailed to you in advance as well. Did you receive them?

I want to highlight the main points for passage of this bill and emphasize some of the amendment points here:

- 1) This is the largest discrepancy between machine and hand count totals in the history of NH elections.
- 2) It doesn't matter that the election results did not change, this still must be investigated.
- 3) As the SOS did not record how many ballots they received for the recount, this must be determined.
- 4) As we have two discrepant counts, the Nov. 3rd machine and the Nov. 12th hand, both should be repeated so we know which count is correct.
- 5) ALL ballots must be examined for these counts. Counting was NOT fractional on either Nov. 3rd or the 12th. A fractional audit would be meaningless and a waste of everyone's time.
- 6) As the hand recount totals were certified by the SOS, at this point, the Nov. 3rd machine count is therefore considered incorrect. **ALL** 10,006 ballots need to be run thru each of the 4 machines and the results compared to see if they all were tabulating incorrectly, or if it were only some.
- 7) This audit is being done to (primarily) reassure the people of Windham. It should therefore be done **IN WINDHAM!**
- 8) Subjecting sensitive electronic machines to prolonged travel over frost heaves and potholes to Concord may affect their function. Leaving them unattended, out of the

possession of the Town that owns these machines will call the outcome of the audit into question. **DO THE AUDIT IN WINDHAM!** This way, the machines will be kept in the possession of the Town and stay in their original operating condition.

9) As the purpose of the audit is to reassure Windham's citizens, the express interests of the Windham Bd. of Selectman need to be incorporated into the audit.

10) If the hand and machine counts that are repeated at the audit show that the Nov. 3rd machine counts were not correct, then **ALL RACES ON THE BALLOT NEED TO BE EXAMINED!**

11) Because of this discrepancy, a forensic analysis of the machines (including the cards and ballots) needs to be conducted. Because the machines and ballots are town property, the Town of Windham via its Board of Selectmen should determine which firm (s) does this forensic analysis.

12) Observers picked by the Board of Selectmen, need to be allowed to be "up close and personal" next to the tables and machines where the audit is being conducted. If they are kept at a distance, then the veracity of the audit will be questioned and the results disbelieved.

13) NH law **ALREADY AUTHORIZES** the AG to conduct this audit, but he has thus far **REFUSED**. Issuing yet another law that "authorizes" the AG to investigate will likely be similarly ignored. Therefore, language such as "this act directs the AG" or "this act shall compel the AG to investigate" needs to be used."

In regards to recent slanted news stories in WMUR and The Union Leader, these bullets below are important to note:

- we are simply asking for answers... what happened?
- no one has ever said there has been intentional malfeasance or misconduct or wrongdoing
- media outlets have suggested that this effort centers around unfounded accusations of wrongdoing
- WMUR used the term "conspiracy theorists" the anomalies and discrepancies are REAL there is no conspiracy here... the citizens of NH have the right to know what happened!
- saying what happened in Windham is a conspiracy is a gross misrepresentation of the positions I have heard from 100's of people who are interested in this topic
- it is sad that our largest NH news sources (WMUR and The Union Leader) recently slanted this Windham story by not providing accurate information to the public

In closing, there should be NO QUESTION on the unanimous and immediate passage of Senate Bill SB43 with all of the proposed amendments. SB43 passed unanimously in the NH Senate by a 24-0 vote to legislatively force actions to be taken by an audit. The amendments made to SB43 by the Windham Selectmen Election Committee for the process of how the audit is conducted are essential and imperative to ensure the full transparency and accuracy of said audit. **LEAVE NO STONE UNTURNED - THE CITIZENS OF NH HAVE A RIGHT TO A COMPLETE FORENSIC AUDIT!**

Concerned NH Citizen & Election Integrity Advocate,

Kelley L. Potenza

Subject: Please amend SB43 to achieve FULL TRANSPARENCY
Importance: Normal

Dear House Election Law Committee members;

The amendment for SB43 MUST call for full transparency, including the provisions outlined in Ken's conversation with Secretary of State Bill Gardner.

Necessary provisions include:

- An independent audit, with selection of participating forensic experts by Windham residents and approved by the Town of Windham Board of Selectman
- Full discretion of the forensic experts to determine the process to be followed for forensic analysis
- All resources necessary to complete the investigation to be provided to the forensic experts by the State of New Hampshire, including full access to the voting machines and ballots.
- Custody of the voting machines is to remain with the Town of Windham
- All ballots from the 11/3/2020 election are to be re-run through the machines and tapes compared
- A hand count to be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race
- Live-streaming of the counting process and machine testing to provide full transparency to the public

Having witnessed numerous examples of voter fraud as poll worker in another town we need to restore the public's faith in elections. Thank you for your time and consideration.

Best,

Robin Maloney

Subject: SB43 Gardner Agreement
Importance: Normal

Dear NH House Election Law Committee Members,

Below is the agreement that I read at the beginning of the March 5th hearing for SB43 regarding the forensic audit of the Windham, NH November 3, 2020 General Election. It was immediately affirmed by Secretary Gardner.

I would appreciate your support for this agreement.

The audit is necessary to investigate why the Windham November 3, 2020 election day machine tabulated results for the Rockingham County District 7 State Rep race were off by 1,363 votes when compared to the recount 9 days later.

Many questions must be answered. A complete and thorough forensic analysis of the machines and ballots are necessary to validate or refute the accuracy of the Diebold AccuVote ES2000 Model A voting machines. Those machines are used to tabulate 85% of the votes in the state of NH.

I have been in contact with Col. Phil Waldron (specialty: scanning machines, software, hardware, memory cards, etc.) and Jovan Hutton Pulitzer (specialty: ballots, scanning technology). Those are the two forensic analysts that I would choose to perform the audit. Per the agreement, Secretary Gardner would choose a forensic analyst from list "a."

The complete agreement is below:

- - - -

The audit will be completed within 45 days after SB43 is signed into law.

1. All four of the Windham, NH AccuVote voting machines and ballots will be forensically analyzed by a team of forensic analysts. One forensic analyst will be chosen from each of the two groups below to perform a full forensic analysis.

- a. Harry Hursti, Ron Rivest or Andrew Appel (picked by the Secretary)
- b. Col. Phil Waldron, Dr. Shiva Ayyadurai (The Secretary will allow me to choose)

Jovan Hutton Pulitzer will also be a member of the forensic team.

The forensic analysts will determine, in their own discretion, the process that will be followed for the forensic analysis. The NH Secretary of State and the town of Windham

will provide the forensic analysts with whatever resources the analysts deem necessary to perform a complete and thorough forensic analysis, including but not limited to, full access to the Windham AccuVote machines and all of the ballots from the Windham, NH November 3, 2020 election. The custody of the AccuVote machines will remain with Windham Town Officials.

The audit will take place in a location other than Windham, NH or the customary recount locations for the Secretary of State. The Police Standards and training facility in Concord is currently being considered due to the size and security of the location as well as the ability to live stream with multiple cameras.

The forensic team will produce a report of their findings and present it to the Secretary of State, who will make it available to the public forthwith.

2. All of the the Windham, NH ballots from the November 3, 2020 election will be tallied through each of Windham's four AccuVote machines. The paper tapes from all four machines will show the results for all races, be compared with each other, and be included in the forensic report.

3. A hand count will be performed by the NH Secretary of State on two races other than the Rockingham County District 7 State Rep race.

Thank you for your consideration,

Ken Eyring, Windham, NH

Sent: Sunday, March 7, 2021 1:35:16 PM

To: [~House Election Law Committee](#)

Subject: Please SUPPORT HB480 (Copy of my testimony for the record)

Importance: Normal

Dear Honorable Committee Members:

My name is Carla Gericke, former Republican state Senate candidate in District 20. I live in Manchester, NH, am an author and attorney, and serve on several nonprofit boards, including Right-to-Know NH, a nonpartisan citizens' coalition that works to improve government transparency, a crucial component to maintaining public trust in our institutions.

RTKNH supports this bill, and I believe another representative will be testifying on the organization's behalf, so I am testifying today in my personal capacity as a voter, political candidate, and reformer. I will also submit this testimony in written form to the Committee via email afterwards, and ask that it form part of the permanent hearing record for the bill.

I ask you to SUPPORT HB480 in order to ensure the utmost transparency in the election process by allowing ballots to become part of the public record, subject to RSA 91-A, open to inspection by interested parties, and available to anyone who wishes to set their minds at ease.

Election integrity is a crucial part of any functioning government. More transparency leads to more accountability which in turn instills trust. Without transparency and accountability, Granite Staters will lose the last vestiges of trust in the system.

The NH Constitution says our government shall be "open, accessible, transparent, and responsive" to the people. In 1977, the legislature added a preamble:

"Openness in the conduct of public business is essential to a democratic society. The purpose of this chapter is to ensure both the greatest possible public access to the actions, discussions and records of all public bodies, and their accountability to the people."

HB480 increases accountability by increasing checks and balances.

In 2018, I was the Republican candidate for state Senate in District 20. During the primary, the Libertarian Party launched a write-in campaign, meaning, if I got 30 write-ins, I would appear as a fusion candidate as both the Republican and Libertarian candidate on the general election ballot.

District 20 has 6 wards, and I picked up twenty-something write-ins in five of the wards, but only 1 write-in in Ward 11 (my home ward, where I know many voters, and where I could easily have expected at least 30 write-ins). It was clear when the Ward 11 results were read that something was amiss. I filed for a recount, and yes, something was amiss. The moderators failed to record the write-ins correctly, and I did in fact, receive enough votes to qualify as a fusion candidate.

Why were the write-in votes recorded incorrectly? I'm sure it was, as everyone claims, a mistake, an oversight, something "went wrong," and that the checks and balances put in place "worked" to "fix it." But the question also begs to be asked: Why did the system fail in the first place? Why was the original tally wrongly recorded? How often does this happen? Where?

Everyone here is aware of the current investigation of the Windham Incident, where 300+ votes were found for EACH 3 Republican candidates during a recount. Much like my case, this raises more questions than it answers.

HB480 will help address these sorts of troubling scenarios by allowing follow-up audits BY ORDINARY CONCERNED CITIZENS who are registered New Hampshire voters to ensure we have the most unimpeachable and solid election process.

This would also help identify, say, if there is an isolated polling station where there are identifiable problems and repeat "offenders." Part of the goal of the bill is to ensure the accuracy of the vote count and *evaluate the performance of election officials.* In other words, it is the check and balance *on* the check and balance, and given the strange occurrences we are now seeing with increasing regularity, the time to pass this bill is NOW.

Increasing transparency serves to increase accountability and trust. Let's empower Granite Staters to be able to exercise their own audits to ensure the trust remains. Please support HB480 to increase election transparency, accountability, and trust.

Thank you for your time!

Sincerely,

Carla Gericke

To: ~House Election Law Committee

Subject: [BULK] I am submitting written testimony in opposition to HB 362, HB 429, HB 531, and HB 554.

Importance: Normal

Dear NH House Election Law Committee,

I am contacting you to submit my written testimony in opposition to several proposed pieces of legislation that would undermine voting rights for New Hampshire students: HB 362, HB 429, HB 531, and HB 554.

HB 362 would prevent students from using their educational institution as their place of domicile for voting purposes. If students are not allowed to register at their college address, young people who moved to New Hampshire for college would not be able to vote in the state.

HB429 would prohibit college IDs from serving as forms of voter ID and would incentivize colleges and universities to discourage their students from voting.

HB 531 would eliminate the Qualified Voter Affidavit, which allows a voter to cast a ballot without needing to provide proof of residency at the polls.

HB 554 would limit students' ability to register to vote. If they're merely eligible to register in another state while at school in NH, they would have a more difficult time registering to vote in NH.

These bills would put unnecessary burdens on voters in an effort to prevent young Granite Staters from going to the polls. By impeding the constitutional right to vote, these bills will create confusion at polling places and may cause eligible voters to stay at home.

Together, all four bills represent a blatant attempt to suppress the vote of young people in New Hampshire. The right to vote is a fundamental part of our democracy, but HB 362, HB 429, HB 531, and HB 554 intentionally aim to disenfranchise student voters and exclude their voices from the political process.

I implore the entire committee to reject these bills and instead work to improve ballot access for students in the Granite State.

Sincerely,
Amanda Pirani

Hello,

I'm a resident of Nashua and writing in regards to SB43 "Authorizing an audit of the Rockingham County district 7 state representative race". I believe that a thorough, complete and transparent audit of both the physical paper ballots and the machines needs to be conducted on all ballot races in order for the public to have confidence in NH's elections. I want to urge you to choose Jovan Pulitzer for the conducting the paper ballot forensic audit. His ballot scanning technology can distinguish counterfeit ballots, wrong format ballots, illegally scanned ballots, no-fold mail in ballots, and foreign bad actor ballots. We need to know why the November General Election Day vote totals in Windham were off by so much after a recount.

Regards,

Matt Ferreira

Honorable members of the House Election Law Committee:

It was my intention to testify during today's committee meeting on SB43 but it ran longer than my time allowed.

Therefore I am writing now to voice my support for SB43 and ask that you strongly consider the amendment proposal that was recommended by Ken Eyring and Secretary of State Bill Gardner as it is the most comprehensive option.

Thank you for your consideration,

Respectfully,

Representative
Julius F. Soti

http://www.cavdef.org/w/index.php?title=Ken_Hajjar

The 2008 election at the top of the ticket was 9.6% in New Hampshire!

We have known in New Hampshire there have been several years of election issues.

I personally raised several issues in the 2008 election in New London the AG'S Office specifically Deputy AG Matthew Mavrogeorge dismisses and poo poed the investigation.

I was able to force the New London Moderator to resign. A very much needed outcome there!

I fear this issue is state wide though complaints have been buried. Since 2008, 2012 in Bow, 2014 in ANDOVER NH, 2016 in ANDOVER In 2018 and 2020 in Derry.
All 1st hand experience no conjecture no rumor, all Fact!

This is 1st person experience. People have said No Dominion Machines in NH Not so fast, That would be incorrect for years Diebold machines were used they were bought out by Dominion.

I call your attention to the fraud in Londonderry in 2008. Mr. Ken Hajjar and John Silvestro were also involved and are LHS!

We need to fully vet these folks Mr Hajjar is a convicted felon and was involved in our elections via LHS, Londonderry voter fraud.

This should have been addressed in 2008 it's 2020

Thank you Ms St Laurent for shining the bright light!

Best regards,
Hon. Anne Copp

PS I fully support SB43 with Windham Amendment 11 key points and Mr Ken Eying's collaboration with the SOS Bill Gardner.

Thank you

To: Jess.Edwards@leg.state.nh.us
Cc: Jim.Qualey@leg.state.nh.us, maureen.mooney@leg.state.nh.us
Subject: Ballot access to voters

“ The most important and fundamental piece of election data, in terms of independent verification of election results, is the voted ballot. Sadly, there are many existing barriers to accessing this election data. To begin with, not all states consider voted ballots to be public records. This has got to change.”

As the individual who brought a law suit against the town of Fairlee, VT., & subsequently the State of VT., seeking to review cast ballots, I want to pass along to you the ruling of the State Supreme court, verifying their opinion that cast ballots are subject to public review.

2011 S. Court ruling:

“ The question presented is whether, under the Vermont Access to Public Records Act, ballots and tally sheets from the November 2006 election in the Town of Fairlee are open to public inspection. For the reasons set forth below, we conclude that they are. The trial court judgment to the contrary, therefore, is reversed.”

<https://www.casemine.com/judgement/us/591460c7add7b04934233f52>

This sets precedent regarding the right of citizens to verify that their vote was accurately recorded and reported. The people own their vote, the state owns the ballots which they use to ascertain the voter's intent. As voting officials are accountable to the public, their reporting process and materials are all accessible to the public as necessary to verify their work as being accurate.

The entire purpose of the election is to get an accurate count of the citizen's choice.

This overrides all other considerations.

We must be confident that this one task is accomplished.

Public review is required.

Thank you for your attention to this.

Sincerely,
Timothy K. Price
Fairlee, VT.

March 3, 2021
Senate Bill SB43 Support
Hearing March 5, 2021 10:30 AM
NH House Election Law Committee

Hello,

Please support these amendments to SB43 at Friday's hearing:

- 1.) Hold the audit in Windham.
- 2.) Ensure 100% of the ballots are run through ALL of the voting machines.
- 3.) Ensure the Windham Selectmen have input into defining the audit process.
- 4.) Count the votes for all races on the ballot.

We need to know why the November General Election Day vote totals in Windham were off by so much after a recount. Windham should not be prevented from performing a thorough, complete and transparent audit on their voting machines. Election integrity is essential to retain the First in the Nation status for the Presidential Primaries. Please count all of the races on the ballot. Windham wants to perform a forensic audit on the voting machines and ballots.

Please provide your support for the 4 potential amendments mentioned above.

Thanks for all your work!

God bless!

Subject: SB43 - (Windham Recount) from the Candidate who requested the recount

Importance: Normal

To the Election Law Committee -

You are in receipt of my written testimony provided before the hearing started. Once the day's hearings had been started by Vice Chair MacDonald, I received a call from Chairwoman Griffin and Ken Eyring. They asked if I wanted to provide live testimony as I was the one who requested the initial recount and had appealed to the Ballot Law Commission. I told them I had already submitted written testimony in support of SB43 with an amendment, as long as it covered the express interests of the Windham BOS (and the Windham Election Integrity Committee which I was a part of). Ken assured me that the interests were included and he thought what he had come up with would satisfy everyone. I told them I would be glad to give a short testimony of approval of such an amendment, carrying the weight of my status as the candidate who requested the original recount.

I was quite shocked when the proposal from Mr. Eyring, SOS Gardner and Deputy SOS Scanlon explicitly stated a hand count would be any two races EXCEPT the State Representative race. This is the only race we have numbers from after the Windham recount. If the machines check out, without a hand audit of the State Rep race, we have nothing to compare to. Or, maybe the forensic analysis will show both contributed. Secretary Gardner said, "Sometimes you just can't get a definitive answer.". Deputy Secretary Scanlon said sometimes you just can't figure out the answer. In this case we can, and we should. Counting anything other than the race in question will not provide clarity or comparison for the Recount of November 12th.

SB43 as passed by the Senate authorizes the SOS and the AG to "conduct an audit of the Rockingham county district 7 state representative race" (line 11-13). SB43 also outlines that the ballot law commission upheld the recount results, certified to the NH house of representatives. The House has seated those winners. **The election results are therefore final**". (line 2-5). Further, "questions have been raised regarding the variance between the election night results and the recount results. This act authorizes an audit which will respond to those questions." (line 5-7) The recount results referenced above were for the state representative race so the audit should definitely include the state representative race - as unanimously voted by the Senate.

I worked with Mr. Eyring and Mr. Murray on the Windham Election Integrity Committee in good faith that we were proposing a set of priorities that would provide a complete and thorough investigation. After approval of the Committee and confirmation by the BOS, an amendment was submitted by our four state representatives **SB43 Amendment #0638h**, Mr. Eyring went of his own accord to craft a different solution with the SOS's office that will focus on the machines and will report the results of the top of the ticket races. That is beyond the scope of what SB43 proposed. The machines can easily report results for the whole ticket (a handcount of the whole ballot would be onerous) so I see no harm in collecting that data. **We should, however at least address the scope of SB43 which was to address the discrepancy between the recount of the state representative race and election day results in Windham.**

As I stated at the hearing, I concur that Windham and New Hampshire voters need and deserve confidence in their elections. As Senator Guida stated, 85% of our NH towns utilize the same

Accuvote machines. However, **100% of our towns have the recount process to rely on for close elections and we need confidence in that system as well.**

I humbly ask you to support an amendment that includes re-tallying all of the ballots for the state representative race in Windham, including a count of all ballots examined, over-votes, under-votes and those blank for that race. This will give us the data needed to compare with the previous results as well as the machine audits to determine where the discrepancy originated.

Sincerely,
Kristi St. Laurent

Dear election committee,

I am a New Hampshire resident for all my life, born and raised. The recent ballot count issues that we have learned about in Windham are very concerning. I never realized how big of a fan of America and her freedoms I was until I started realizing that there is a possibility that those freedoms could be disappearing. So I asked myself how do I make my voice heard in light of such a big concern. The way I do that is by voting. Everything about our constitution it's amendments our freedoms our rights our liberties, everything boils down to the ability to vote freely and fairly with total honesty in the election process. That's why it is absolutely imperative that we get to the bottom of what happened in Windham so it never happens again anywhere in our great state with the Live free or die motto.

Do you realize that the hand recount may have possibly uncovered the fact that up to as many as 1200 votes in that town of 10,000 voters were disenfranchised. That is totally unacceptable. It's unacceptable if even one legal voter is disenfranchised.

My concerns are not based on a conspiracy theory, they are not based on trying to overturn elections, they are not based on frivolous recounts and audits just for the sake of doing it. They are based on the idea that legal voters in the town of Windham might have been disenfranchised, and every person should be concerned about that, unless they don't feel that voting is an integral piece in the democratic process. But I repeat, it's all we have, it's everything.

Respectfully,

Lisa Mathews

Today the House Election Law Committee will conduct a hearing on SB43, or the Windham, NH audit bill. While I imagine there will be amendments to this bill, I will be supporting the final bill provided it is not dramatically changed from its current form.

I have been one of the loudest critics in the House Election Law Committee of our election laws and a promoter of voter integrity measurers (<https://youtu.be/i8z-tjS-JyU> / <https://youtu.be/GScfU7odkhI>). I believe there is a real and valid skepticism in our elections, and I have worked these last few months to address that issue.

My fear is that regardless of how SB43 comes out of committee, that we may never fully know what happened in Windham. I hope that is not the case, but only time will tell.

My goal moving forward will be to promote laws that allow easy access to the ballot box while also insuring people can have faith in our elections.

Sincerely,

To the Members of the NH House Election law Committee:

NH residents need to know why the November General Election Day vote totals in Windham were off by so much following the recount. Windham has since expressed its interest to complete an audit on their voting machines. Nothing less than a thorough and transparent audit of Windham's machines and ballots *under the supervision of the Windham Board of Selectmen* is acceptable, and I do not see why Windham should not be able to do this audit.

The Windham Board of Selectmen MUST be allowed to define and drive the process!
Attempting to block their direction of this process will only further erode trust in our elections and you as our elected officials.

Please do your part today to restore NH citizens' faith in our elections, and to reinforce the value you have for election integrity. Please support Senate Bill 43 and allow Windham to perform a thorough and transparent audit on their voting machines.

Sincerely,
Marilee LaFond

Hello Election Law Committee,

While I truly appreciate that Rep Muirhead responded to my testimony and was very gracious in his response, I became concerned when digging further into his stance of the election discrepancies we've seen nationwide. This doesn't give me confidence that the right decision will be made concerning Windham today. We the people are watching and won't let up on this if we see truth not being pursued. Thank you for your consideration today! I truly want my first vote in 2022 to count, and what I'm seeing in our country and state right now is very concerning.

Hi Rep Muirhead,

I just went to your website and saw this..... "I always took this for granted. But with a president who teaches his supporters that elections are "rigged!" and with a Governor who said on the Howie Carr radio show that the Democrats bused Massachusetts residents into NH in 2016 to fraudulently vote, we can't take election integrity for granted any more."

This leads me to believe that you think these nationwide election discrepancies (and there were thousands of them) are all conspiracy theories and doesn't give me any confidence as to how you will vote today. Let me clarify, I am an Independent and not tied to any party at the moment as I'm still trying to decide on that. I will call out Republican shenanigans as well, as I'm doing with our Governor right now. If I see something that is off, I will call it out, and this past 2020 election was very off. I think it's easy to say that elections weren't rigged if your guy comes out on top. It has to be about getting to the root of the truth, and setting party lines aside. I trust that all Democrats will do that today as well. I'll be watching.

Subject: Re: Testimony for SB43 - March 5 - 10:30am - Lisa Mazur

Hi Rep. Muirhead,

Thank you for your response. I have emailed many members of our government these past few weeks and months and rarely receive a response, so I really do appreciate it. It feels like we're just not being heard at all. I agree with you 100% that America is the greatest country in the world. At this moment I am really worried about her though as I see our country floundering. I don't understand why, when people see discrepancies like we saw in Windham, they wouldn't want to get to the root of it. My only agenda in all of this is love of truth, country and our Constitution. As I studied for my citizenship civics test I became very familiar with that beautiful document and had to memorize large portions of it and its amendments. I also studied the Bill of Rights and Federalist Papers. We are diverting so far from all of them at the moment and it's really disturbing to watch.

I have never done anything like this before so don't know what to expect. I am planning on Zooming into tomorrow's hearing. Should I plan on testifying with what I sent you?

Representative Griffin, I truly hope you hear from the hearts of NH citizens tomorrow. Sometimes the search for truth is tedious and not always the easy path, but it must be a path we continue to choose to take. I beg of you to take this into consideration tomorrow. We don't know which direction an audit will go, but that should never prevent us from doing the right thing, and this is the right thing. There are a lot of us who just won't let it go if we don't pursue this in Windham.

Thank you both for your public service.
Lisa Mazur

Dear Lisa,

I am so glad you became a citizen. Congratulations, my friend. The United States of America is better for the fact that you have become a citizen of this great country—which I believe is in fact, if you will allow me, the greatest country in the world. (I do appreciate Canada of course). I believe that you will find that your own representative to the NH House of Representatives, the honorable Representative Barbara Griffin, who chairs the Election Law Committee, agrees with you about this. She is a most impressive public servant and I would encourage you to be in touch with her directly.

Best wishes. Thank you for your thoughtful letter and your attention to HB43,
Russ

Rep. Russell Muirhead, Hanover-Lyme

Subject: Testimony for SB43 - March 5 - 10:30am - Lisa Mazur

Hello,

I will be Zooming into the SB43 hearing on March 5, 2021 at 10:30am. I would like to testify with the following statement:

Thank you Election committee for hearing my testimony. My name is Lisa Mazur and I live in Goffstown, NH. I have lived in the USA for 26 years (here on a green card from Canada) and just became a US citizen this past January. The reason I became a citizen after all these years is because I love America with all my heart and am ready to start using my voice with my vote. I believe in our country and our Constitution. I'm not going to lie... At this moment, my faith and belief in both of those things are pretty shaken after what I've seen happening in our country since November. Millions of us have seen the nationwide election discrepancies and our Constitution being ripped apart right before our eyes. Then it became personal when a discrepancy was unveiled right here in NH. This was the largest discrepancy between machine and hand count totals in the history of NH elections. Because of this discrepancy, a forensic analysis of the machines (including the cards and ballots) needs to be conducted. The machines and ballots are town property so the Town of Windham via its Board of Selectmen should determine which firm(s) does this forensic analysis. I have never voted in my life and I am now terrified that my first vote in 2022 might be taken from me. So we have to get this right. I do not understand why you wouldn't want to get this right as well. WMUR and the Union Leader call this all a conspiracy theory but for me it is just a search for truth. Please do the right thing. This new citizen needs to know her voice is being heard and that her first vote ever will be counted. Thank you.

Lisa Mazur
Proud New American

Importance: Normal

Dear Election Law Committee,

My name is BaoChau Kelley from Hooksett, NH. I am supporting Senate Bill SB43 to restore election integrity in NH and I would like to ask for your support on this bill because:

- 1) We need to know why the November General Election Day vote totals in Windham were off by so much after a recount.
- 2) Windham should not be prevented from performing a thorough, complete and transparent audit on their voting machines.
- 3) Election integrity is essential to retain the First in the Nation status for the Presidential Primaries.
- 4) Count all of the races on the ballot.
- 5) Windham wants to perform a forensic audit on the voting machines and ballots.
- 6) Support for potential amendments to:
 - a) Hold the audit in Windham
 - b) Ensure 100% of the ballots are run through ALL of the voting machines.
 - c) Ensure the Windham Selectmen have input into defining the audit process.
 - d) Count the votes for all races on the ballot
- 7) Restore voter's confidence in our election process to preserve our freedom and democracy as intended in our US Constitutions and the Declaration of Independence

Thank you for your time and your support!

Subject: Election Law Committee Hearing for SB43
Importance: Normal

To the Election Law Committee and House Members Considering SB43 -

I am the candidate from the November 3rd election in Windham who requested a recount, after finishing 24 votes behind the fourth place finisher in a four-seat race.

The recount was conducted without apparent issue, until the results were announced. The unprecedented nature of the discrepancy in a one-town race between the Town results and the Recount was alarming. There is not a process in place in the event of such a discrepancy. The only option is to appeal to the Ballot Law Commission, typically done if the Secretary of State's interpretation of one or more ballots is disputed. As the only form of recourse, I made the appeal.

The root cause of the discrepancy is not able to be determined with the data available. The nature of the recount process does not provide enough information to draw a conclusion. Most notably, the total number of ballots examined is not recorded at the recount to see if the Town results and the recount results are drawn from the same number of ballots. There is also not a tally of ballots blank for the examined race, overvotes and undervotes.

The source of the discrepancy can come from any of three sources - the Town Election Day procedures, the machines or the recount. All of these need to be considered equally to find the answers Windham voters deserve so we can have full faith in our future elections.

I participated in the Windham Election Integrity Committee as established by the Windham Selectboard. I support the recommendations established by the Committee. We need a full hand count of the Windham State Representative race and machine counts of every ballot using the Windham machines. We cannot know which machines scanned which ballots on November 3rd, 2020. Running every ballot through each machine and comparing the numbers will reveal if any one machine had issue with reading a particular type of ballot cast (ie: undervote ballots, etc.).

I am in full agreement that this audit is not a Recount for the purpose of awarding an elected seat. That decision has been made. This audit requested is for the distinct purpose of determining the source of the discrepancy between the Recount and the Town results from the ballots cast for the November 3rd election.

Thank you for your consideration of and attention to this very important issue to re-establish confidence in our elections.

Sincerely,
Kristi St. Laurent
Windham Candidate for State Representative

- All,

We need to know why the November General Election Day vote totals in Windham were off by so much after a recount.

Windham should not be prevented from performing a thorough, complete and transparent audit on their voting machines.

Election integrity is essential to retain the First in the Nation status for the Presidential Primaries.

Thank you,

Don Bolduc

The Windham Incident: Canary in a Coal Mine

The 2020 Windham, New Hampshire Election Scandal

Vote Free or Die

Mar 2   

The 2020 election in the small town of Windham, New Hampshire is a story of a local election anomaly that may be merely the tip of an iceberg--suggestive of more widespread anomalies. This is a data analysis of the Windham election results and the implications for the State of New Hampshire and the nation as a whole. The recount result for the local State Representative race in this small town is like a “canary in a coal mine,” warning of a clear and present danger to our democratic elections.

The voting machine used in Windham, and 85% of New Hampshire voting locations, is the Diebold AccuVote OC, which was first made in 1990 and has many serious known security vulnerabilities. The intellectual property for the machine is now owned by Dominion Voting Systems, the company that has recently been in the spotlight of election fraud allegations.

The recount of the State Representative race resulted in no change in the winners. But upon further analysis, it looks like there are at least a couple of candidates who could have been robbed of a victory at the state level. If an investigation of the Windham election uncovers evidence of voting machine manipulation, and similar evidence is uncovered across the state, then the most significant victim may turn out to be President Donald J. Trump. In that sense, President Trump is also a canary, whose defeat in New Hampshire signals danger to us all.

Ironically, the anomalies only came to light after Democrat Kristi St. Laurent requested a recount of the Windham race for State Representative. In this contest, between four Republicans and four Democrats for four seats that the Republicans had won easily in previous years, she was only 24 votes behind the fourth-place Republican. What makes this so ironic is that Ms. St. Laurent was the only candidate to lose votes in the recount while all four Republican candidates gained back a large number of votes that had not been counted by the voting machines. This is the largest unexplained election discrepancy in New Hampshire history and still has not been investigated by the Republican Attorney General, Secretary of State, or Governor! For more background on the events in Windham, start on this [GraniteGrok.com election scandal page](#).

Let's start with the facts. As shown in the table below, each of the four Republican candidates regained about 300 votes (about 6%) during the hand recount, which was held in public view and in front of video cameras for maximum transparency. Three of the Democrats regained a much smaller number of votes, while Kristi St. Laurent lost 99 votes. The Republicans still won all four seats, but unnerving questions remained. Why did the voting machines deliver such a discrepancy and where did the votes go? Possibly even more important is the question: why did the results from voting Machine #2 differ so much from Machines 1, 3, and 4?

The original voting machine election results and hand recount results of the State Representative election are shown in the table below. There was no recount for any of the other races even though the results for Machine #2 may very well be suspect for every other race.

Actual Results Based on Recount of the State Representative Votes (4 candidates selected)						
	Election Day Results	Recount Results	Difference in Recount Results	Effect of Incorrect Machine Count	Official Results	Real Results
State Representatives:						
Blank (no candidate chosen)	6,661	5,496	(1,165)	21.2%	16.7%	13.8%
Democrat: Kristi St. Laurent	4,456	4,357	(99)	2.3%	11.2%	10.9%
Democrat: Henri Azibert	2,787	2,808	21	-0.7%	7.0%	7.0%
Democrat: Valerie Roman	3,415	3,443	28	-0.8%	8.6%	8.6%
Democrat: Ioana Sigureanu	2,764	2,782	18	-0.6%	6.9%	7.0%
Republican: Julius F. Soti	4,480	4,777	297	-6.2%	11.2%	12.0%
Republican: Mary E. Griffin	5,292	5,591	299	-5.3%	13.3%	14.0%
Republican: Bob Lynn	4,786	5,089	303	-6.0%	12.0%	12.7%
Republican: Charles E. McMahon	5,256	5,554	298	-5.4%	13.2%	13.9%
Summary:						
Change in Democrat votes during recount			(32)			
Change in Republican votes during recount			1,197			
Net change in votes*			1,165			

* Blank selections were not included in the recount, but the reduction in votes must result in an increase in blank results

For reference, the table below compares previous results of the State Representative elections in Windham, and shows how abnormal it is to even have a Democrat come close to winning a seat. The 2020 election shows a very large jump in the number of Democrat votes that may indicate that the election anomaly goes far beyond just the vote difference discovered during the hand recount.

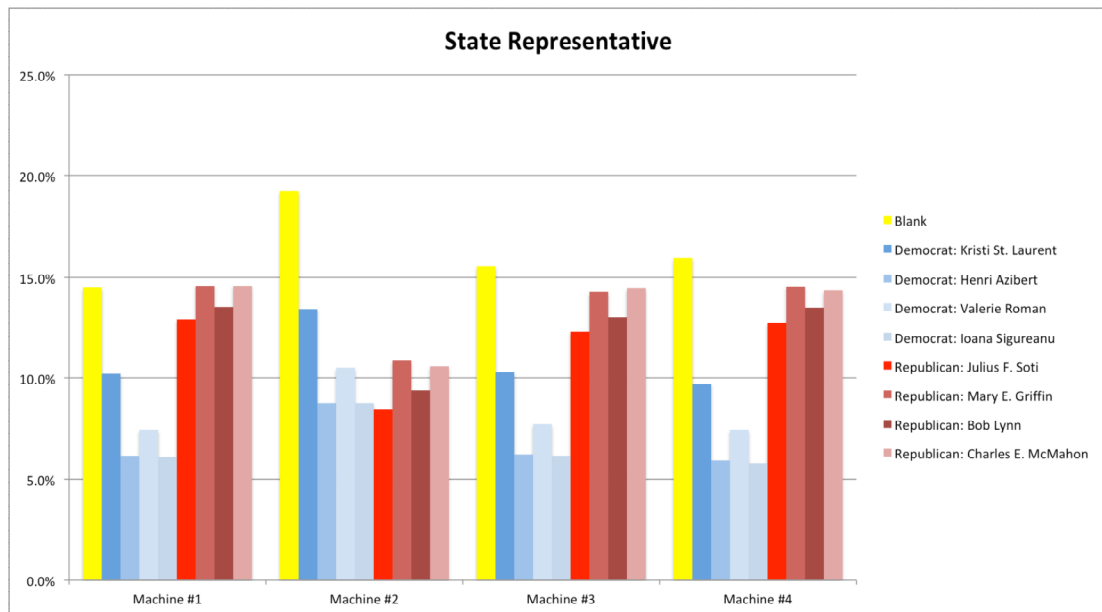

Previous Windham State Representative Election Results (for reference)				
	2012	2014	2016	2020
State Representatives:	8 candidates	8 candidates	6 candidates	8 candidates
Democrat: Kristi St. Laurent	2972			4357
Democrat 1		1357		
Democrat 2	1778	1476	2627	2808
Democrat 3	1971	1153	2849	3443
Democrat 4	3073	1632		2782
Republican: McMahon	4459	3590	5142	5554
Republican: Kolodziej / other	3815	3210	4515	4777
Republican: Griffin	4963	3815	5698	5591
Republican 4	4232	3093	4563	5089
Total Votes	27,263	19,326	25,394	34,401

Since Windham is a small town, they only had four voting machines and we are fortunate to have the voting machine paper tapes showing the allocation of votes by each machine. The anomaly just about jumps out and smacks you in the face. Machines 1, 3, and 4 all had similar results, but Machine #2 has a significantly higher rate of votes for Democrats and lower rate of votes for Republicans. Machine #2 tabulated 33% of the ballots, so it should have yielded something close to 33% of both Democrat and Republican votes assuming that voters were randomly distributed among the four machines. That is not what happened. Machine #2 yielded about 40% of all Democrat votes and only 26% of Republican votes. Machines 1, 3, and 4 tabulated 67% of the ballots, but only delivered 60% of Democrat votes and 74% of

Republican votes. Had Machine #2 delivered the expected proportion of votes, the numbers would have been similar across all four machines. The results for Machine #2 show an extremely large deviation from what would be statistically normal.

Original Election Results (Before Recount)												
	Ballot Machine #								Military AVS Ballots	%	TOTAL	%
	1	%	2	%	3	%	4	%				
States Representatives												
Blank	795	14.5%	2,525	19.3%	1,738	15.5%	1,585	16.0%	18	7.7%	6,661	16.7%
Democrat: Kristi St. Laurent	561	10.2%	1,756	13.4%	1,149	10.3%	963	9.7%	27	11.5%	4,456	11.2%
Democrat: Henri Azibert	337	6.1%	1,147	8.8%	694	6.2%	585	5.9%	24	10.3%	2,787	7.0%
Democrat: Valerie Roman	409	7.4%	1,378	10.5%	863	7.7%	739	7.4%	26	11.1%	3,415	8.6%
Democrat: Ioana Sigoreanu	334	6.1%	1,146	8.7%	688	6.2%	574	5.8%	22	9.4%	2,764	6.9%
Republican: Julius F. Soti	707	12.9%	1,107	8.4%	1,377	12.3%	1,262	12.7%	27	11.5%	4,480	11.2%
Republican: Mary E. Griffin	801	14.6%	1,424	10.9%	1,593	14.2%	1,444	14.5%	30	12.8%	5,292	13.3%
Republican: Bob Lynn	742	13.5%	1,227	9.4%	1,451	13.0%	1,337	13.5%	29	12.4%	4,786	12.0%
Republican: Charles E. McMahon	801	14.6%	1,387	10.6%	1,615	14.4%	1,422	14.3%	31	13.2%	5,256	13.2%
Write-in	5	0.1%	7	0.1%	12	0.1%	17	0.2%	0	0.0%	41	0.1%
Total	5,492	13.8%	13,104	32.8%	11,180	28.0%	9,928	24.9%	234	0.6%	39,938	100%
% of Democrat Votes	12.2%		40.4%		25.3%		21.3%		0.7%		100.0%	
% of Republican Votes	15.4%		26.0%		30.5%		27.6%		0.6%		100.0%	

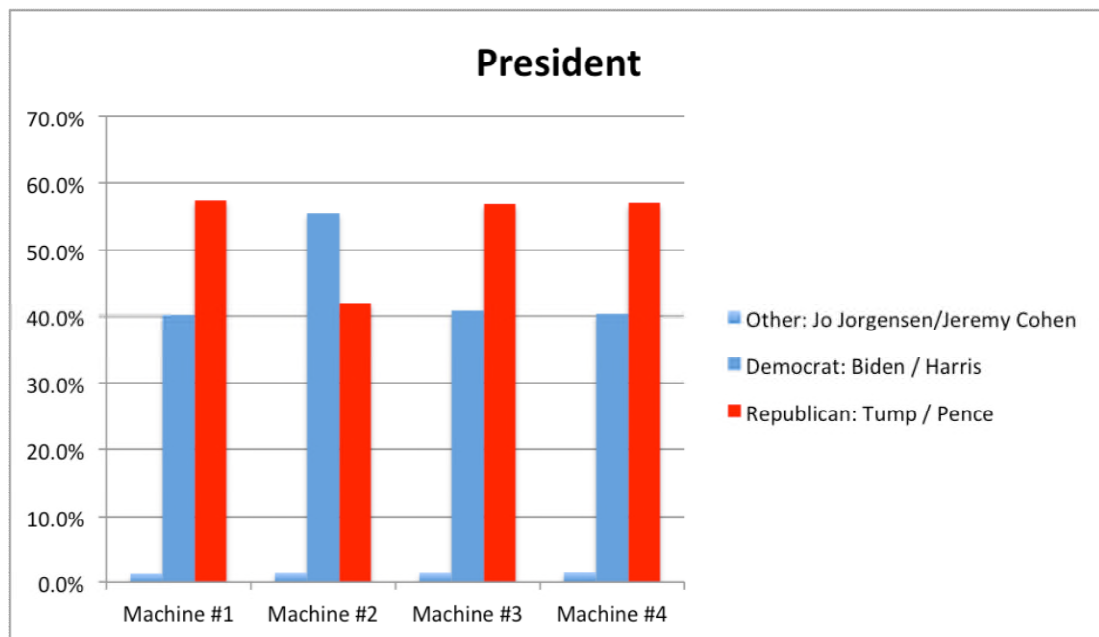

The distribution of votes per candidate is very similar for each machine except for an overall change in the relative level of Democrat vs. Republican votes on Machine #2, as shown in the chart below.

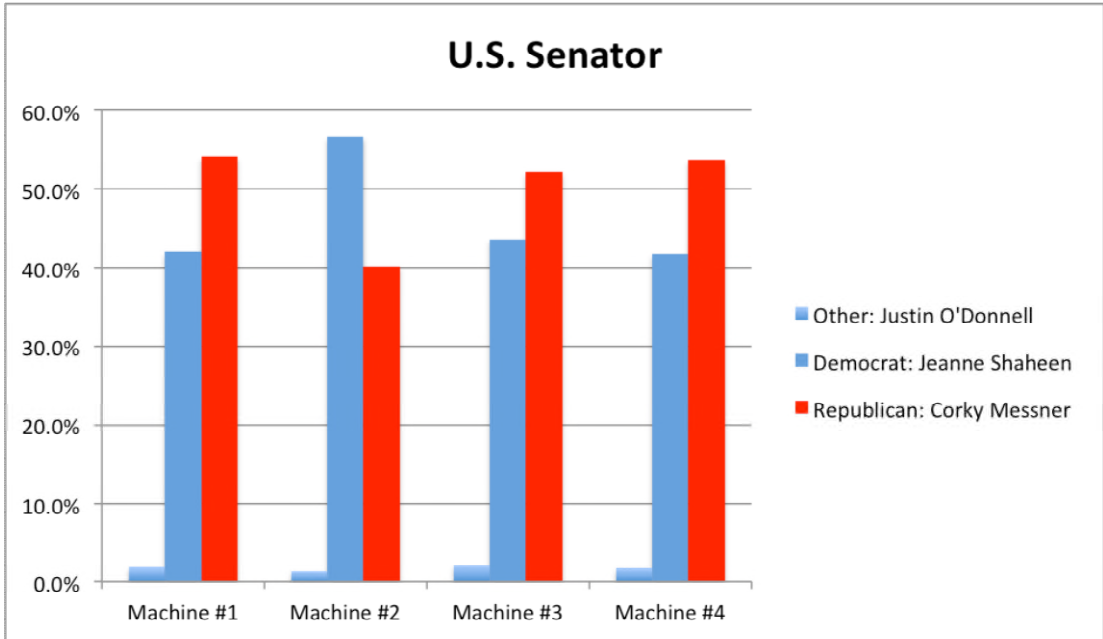

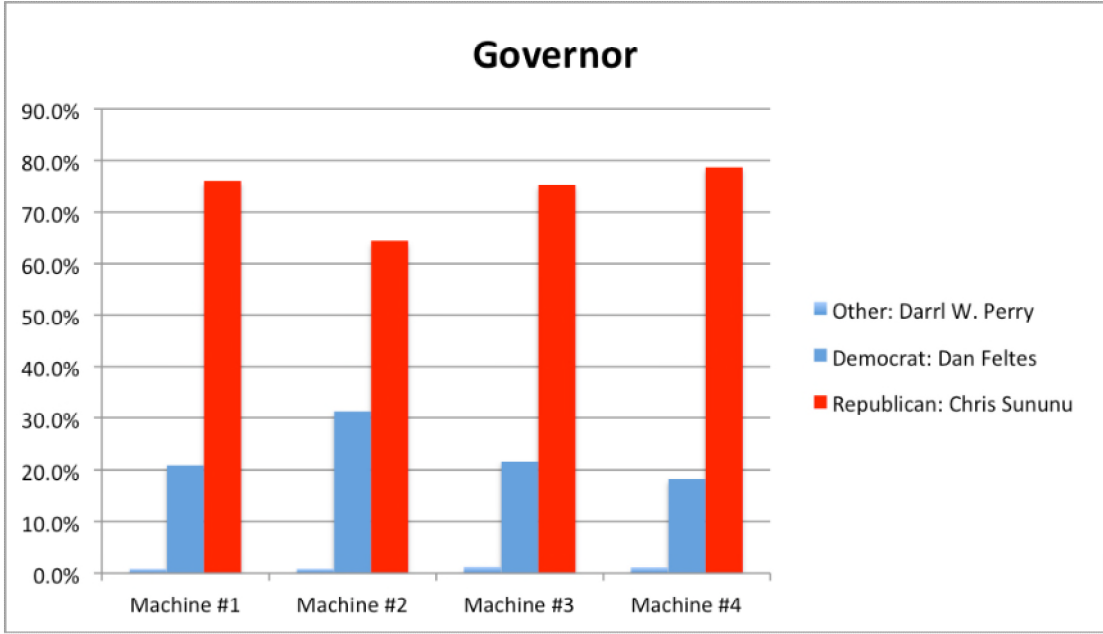

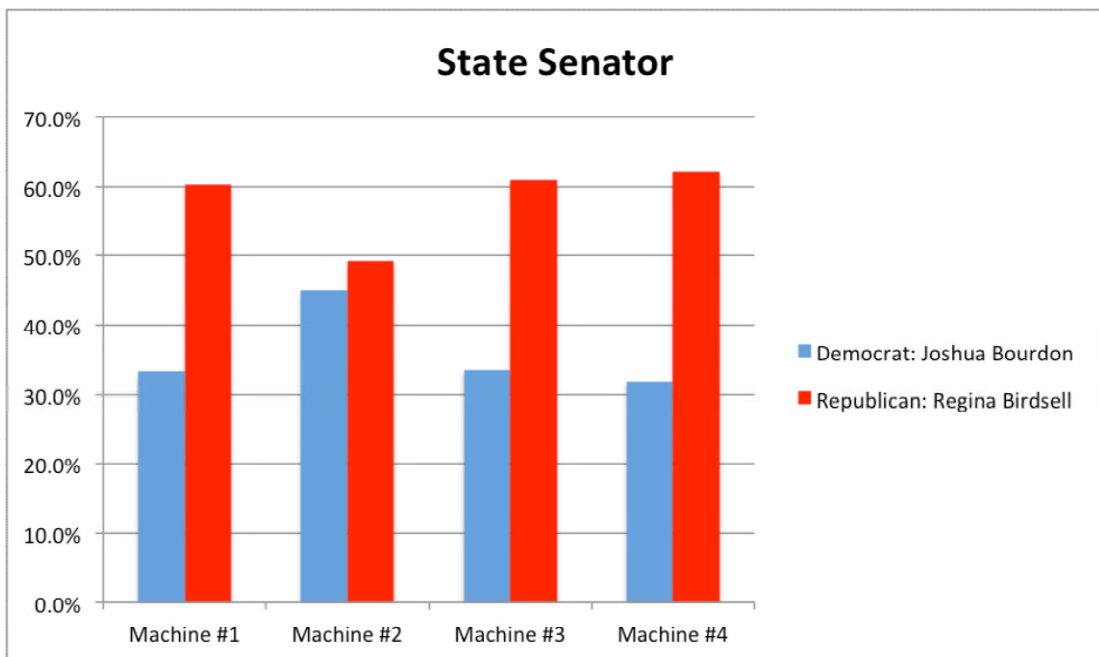

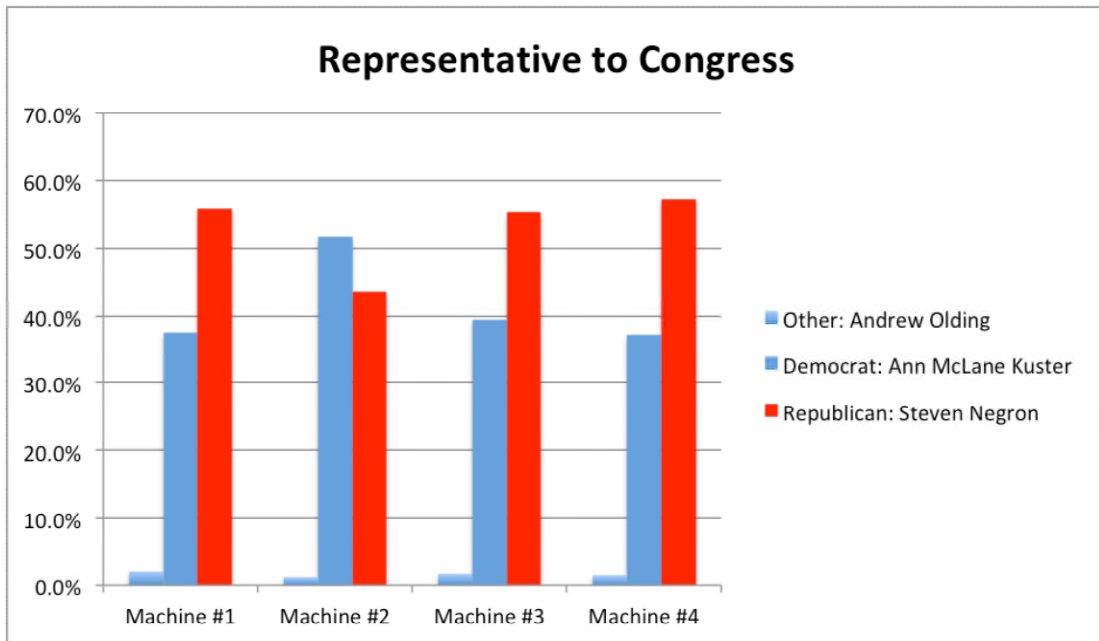

If we average the results from Machines 1, 3, and 4, you can clearly see the difference when compared to Machine #2 in the table below.

Results by Voting Machine			
	Average of Machines #1,3,4 67% of Ballots	Results from Machine #2 33% of Ballots	Deviation for Machine #2 33% of Ballots
State Representatives:			
Democrat: Kristi St. Laurent	10.0%	13.4%	3.4%
Democrat: Henri Azibert	6.1%	8.8%	2.7%
Democrat: Valerie Roman	7.6%	10.5%	3.0%
Democrat: Ioana Sigureanu	6.0%	8.7%	2.7%
Republican: Julius F. Soti	12.6%	8.4%	-4.1%
Republican: Mary E. Griffin	14.4%	10.9%	-3.6%
Republican: Bob Lynn	13.3%	9.4%	-3.9%
Republican: Charles E. McMahon	14.4%	10.6%	-3.8%

Before trying to explain the anomalies, we should expand our view of what happened with the other candidate races. Although there was no recount of the other races, every other one saw a similar issue with Machine #2 delivering a lower proportion of Republican votes and a higher proportion of Democrat votes. The other races had only two main candidates for each office, so it looks more like simple vote flipping, as shown in the charts below.

To explain these anomalies, here is a summary of what I think could have happened during the Windham vote. In the absence of hard evidence, they are just hypotheses that appear to explain the anomalous data. I'll get into more detail below.

1. 10-15% of the votes for most races (President, Governor, Senator, etc.) were flipped from Republican to Democrat on Machine #2.
2. About 16% of the votes cast by Trump voters for a State Representative candidate were flipped to "Blank" undervotes on Machine #2.

3. About 4% of the votes cast by Trump voters for a State Representative candidate were flipped to Kristi St. Laurent on Machine #2.

4. Some percentage of the “Blank” undervotes for State Representative were flipped to Democrat candidates by someone manually filling in blank ovals on the paper mail-in ballots.

My first hypothesis regarding the State Representative race was that all the recount vote discrepancies were the result of something going wrong on Machine #2, which was somehow losing about 300 votes per Republican candidate, losing a small number of votes from three Democrat candidates, while at the same time giving votes to Kristi St. Laurent. So, I recalculated the vote percentages after applying all the hand recount corrections to Machine #2. The result, as shown below, was an increase in the Republican vote percentage (from 26% to 30%) that brought them closer to those on Machines 1, 3, and 4. But the percentage of Democrat votes on Machine #2 didn't change much. So, something still seemed wrong with Machine #2.

Hypothetical Scenario if All Votes from Recount Came from Machine #2								
	Recount Results	Votes on Machine #2	Anomalous Vote for Machine #2	Diff in Recount Results	# of Ballots With Recount Correction	Corrected Vote for Machine #2	Votes on Machines #1,3,4	Votes on Machines #1,3,4
State Representatives:								
Blank (no candidate chosen)	5,496	2,525	19.3%	(1,165)	1,360	10.4%	4,118	15.5%
Democrat: Kristi St. Laurent	4,357	1,756	13.4%	(99)	1,657	12.7%	2,673	10.0%
Democrat: Henri Azibert	2,808	1,147	8.8%	21	1,168	8.9%	1,616	6.1%
Democrat: Valerie Roman	3,443	1,378	10.5%	28	1,406	10.7%	2,011	7.6%
Democrat: Ioana Sigureanu	2,782	1,146	8.8%	18	1,164	8.9%	1,596	6.0%
Republican: Julius F. Soti	4,777	1,107	8.5%	297	1,404	10.7%	3,346	12.6%
Republican: Mary E. Griffin	5,591	1,424	10.9%	299	1,723	13.2%	3,838	14.4%
Republican: Bob Lynn	5,089	1,227	9.4%	303	1,530	11.7%	3,530	13.3%
Republican: Charles E. McMahon	5,554	1,387	10.6%	298	1,685	12.9%	3,838	14.4%
Total Votes		13,097			13,097		26,566	
Democrat Total Votes		5,427	41.4%		5,395	41.2%	7,896	29.7%
Republican Total Votes		5,145	39.3%		6,342	48.4%	14,552	54.8%
* Hypothesis is that all changes in votes identified during recount were from ballots cast on Machine #2								
* Corrected results show what the vote should have been on Machine #2 in the absence of anomalous errors								

	Ballot Machine #								Military AVS Ballots	%	TOTAL	%
	1	%	2	%	3	%	4	%				
States Representatives												
Blank	795	14.5%	1,360	10.4%	1,738	15.5%	1,585	16.0%	18	7.7%	5,496	13.8%

Republican: Mary E. Griffin	801	14.6%	1,723	13.1%	1,593	14.2%	1,444	14.5%	30	12.8%	5,591	14.0%
Republican: Bob Lynn	742	13.5%	1,530	11.7%	1,451	13.0%	1,337	13.5%	29	12.4%	5,089	12.7%
Republican: Charles E. McMahon	801	14.6%	1,685	12.9%	1,615	14.4%	1,422	14.3%	31	13.2%	5,554	13.9%
Write-in	5	0.1%	7	0.1%	12	0.1%	17	0.2%	0	0.0%	41	0.1%
Total	5,492	13.8%	13,104	32.8%	11,180	28.0%	9,928	24.9%	234	0.6%	39,938	100%
% of Democrat Votes		12.3%		40.3%		25.3%		21.4%		0.7%		100.0%
% of Republican Votes		14.5%		30.2%		28.7%		26.0%		0.6%		100.0%

The State Representative election anomalies, with 8 candidates running for 4 positions, had to be more complicated than a simple vote flip between two candidates because the Democrats did not gain all the votes that the Republicans lost. Overall, we now know that the machines lost 1,197 Republican votes and added 32 Democrat votes, leaving a net loss of 1,165 votes. But the Democrat results are complicated because the machines added 99 votes for Kristi St. Laurent while taking 67 from the other Democrats. My hypothesis about the role of the voting machines is as follows. To be clear, it is just a hypothesis that remains to be proven by a forensic analysis of the software.

Machine #2 may have evaluated ballots based on whether or not there was a vote for President Trump and then taken approximately 16% of each State Representative vote and moved it to the "Blank" category. "Blank" votes refer to undervotes--when a voter does not cast a vote--and is common with down ballot races if voters are not familiar with the candidates. My assumption is that 57% of Windham voters actually voted for Trump, which is based on the results from Machines #1, 3, and 4. Since most Trump voters are likely to have voted Republican down ballot, this machine vote removal would mostly affect the Republican candidates for State Representative. However, it is likely that a small percentage of Trump voters voted Democrat down ballot, which could explain the anomaly that some Democrat candidates also lost a small number of votes.

But why would Kristi St. Laurent be the only candidate to gain votes? Perhaps there was a second process running against Trump voters that took about 4% of the votes for each other candidate (Republican and Democrat) and applied them to her tally. This could explain her 99-vote gain. The numbers used here are not going to be precise because we don't know the exact algorithm or number of Trump voters using Machine #2 or the way that each voter voted down ballot, but the numbers provide a possible explanation. I find it doubtful that Ms. St. Laurent would have had any knowledge of this scheme or she would have been unlikely to ask for a recount that could expose everything and put her squarely under suspicion. Perhaps someone wanted just one Democrat to win so as not to arouse too much suspicion.

Unfortunately, reallocating the recount results to Machine #2 did not correct the unusually high percentage of Democrat votes on that device (40% of Democrat votes for a machine with 33% of ballots cast). There are two possible explanations for this anomaly. First, twice as many Democrats might have used Machine #2 compared to the other three machines. But that seems unlikely unless somebody was specifically

directing Democrats to Machine #2, which would in itself raise suspicions. The second explanation is that some other process was responsible for the addition of extra Democrat votes cast on that machine.

Although the recount did not keep a record of blank votes, my hypothesis is that the net increase of 1,165 hand-counted votes should have resulted in a corresponding reduction in the number of Blank votes on Machine #2. But the reduction in the number of Blank votes made that number too much lower than that of the other machines to seem plausible. There should have been more Blank votes when compared with the other machines.

To explain the anomaly of too many Democrat votes and too few Blank ballots, my next hypothesis was that someone had manually filled in about half of the Blank votes on mail-in ballots cast on Machine #2 in order to create additional Democrat votes. Is it likely that paper ballots could have been manually modified? Sworn affidavits have been presented to the Attorney General regarding complaints from Republican poll watchers who were prohibited from meaningfully observing any part of the election process. This included the processing of absentee mail-in ballots as well as the handling and processing of ballots deposited into a drop box outside of the polling place on Election Day.

My assumption is that these extra votes were apportioned equally to each Democrat, but they could have been random. To see what would happen, I reduced each Democrat vote total on Machine #2 by 25% (337 votes) and made a corresponding increase in the number of blank votes, as shown on the next chart. This brings the percentage of Democrat and Republican votes much closer to the 33% of ballots cast on Machine #2. All of this is, of course, hypothetical in the absence of evidence. Even if true, it could be very difficult to tell if any of the marks on a ballot were added by someone other than the voter.

Ballots with Recount Correction Applied to Machine #2; and 25% of Democrat Vote Reallocated to Blank to reduce % on Machine #2												
	Ballot Machine #								Military AVS Ballots	%	TOTAL	%
	1	%	2	%	3	%	4	%				
States Representatives												
Blank	795	14.5%	2,709	20.7%	1,738	15.5%	1,585	16.0%	18	7.7%	6,845	17.1%
Democrat: Kristi St. Laurent	561	10.2%	1,320	10.1%	1,149	10.3%	963	9.7%	27	11.5%	4,020	10.1%
Democrat: Henri Azibert	337	6.1%	831	6.3%	694	6.2%	585	5.9%	24	10.3%	2,471	6.2%
Democrat: Valerie Roman	409	7.4%	1,069	8.2%	863	7.7%	739	7.4%	26	11.1%	3,106	7.8%
Democrat: Ioana Sigureanu	334	6.1%	827	6.3%	688	6.2%	574	5.8%	22	9.4%	2,445	6.1%
Republican: Julius F. Soti	707	12.9%	1,404	10.7%	1,377	12.3%	1,262	12.7%	27	11.5%	4,777	12.0%
Republican: Mary E. Griffin	801	14.6%	1,723	13.1%	1,593	14.2%	1,444	14.5%	30	12.8%	5,591	14.0%
Republican: Bob Lynn	742	13.5%	1,530	11.7%	1,451	13.0%	1,337	13.5%	29	12.4%	5,089	12.7%
Republican: Charles E. McMahon	801	14.6%	1,685	12.9%	1,615	14.4%	1,422	14.3%	31	13.2%	5,554	13.9%
Write-in	5	0.1%	7	0.1%	12	0.1%	17	0.2%	0	0.0%	41	0.1%
Total	5,492	13.8%	13,104	32.8%	11,180	28.0%	9,928	24.9%	234	0.6%	39,938	100%
% of Democrat Votes	13.6%		33.6%		28.2%		23.8%		0.8%		100.0%	
% of Republican Votes	14.5%		30.2%		28.7%		26.0%		0.6%		100.0%	

The reallocation of those votes back to the blank category would reduce the overall vote total for Democrats, as shown in the table above, but their 2020 votes are still well in excess of previous years, as shown in the table below.

Previous Windham State Representative Election Results (for reference)				
	2012	2014	2016	2020
State Representatives:	8 candidates	8 candidates	6 candidates	8 candidates
Democrat: Kristi St. Laurent	2972			4357
Democrat 1		1357		
Democrat 2	1778	1476	2627	2808
Democrat 3	1971	1153	2849	3443
Democrat 4	3073	1632		2782
Republican: McMahon	4459	3590	5142	5554
Republican: Kolodziej / other	3815	3210	4515	4777
Republican: Griffin	4963	3815	5698	5591
Republican 4	4232	3093	4563	5089
Total Votes	27,263	19,326	25,394	34,401

As for the other candidate races, if vote flipping occurred on Machine #2, it may have resulted in major vote redistributions as shown in the hypothetical scenario below. My assumption is that Machine #2 should have had a vote count very close to that of the other voting machines.

Hypothetical Election Results if Voting Machine #2 Deviation is Due to Error or Manipulation

	Average of Machines #1,3,4 67% of Ballots	Results from Machine #2 33% of Ballots	Deviation for Machine #2 33% of Ballots	Possible Effect on Final Results	Official Results	Possible Real Results	Machine Change to Margin of Victory
President:							
Democrat: Biden / Harris	40.5%	55.6%	15.1%	5.0%	45.6%	40.7%

Republican: Scott Priestly	62.0%	50.0%	-12.0%	-3.9%	58.0%	61.9%	-7.7%
Register of Deeds:							
Democrat: Michael McCord	29.1%	39.7%	10.5%	3.5%	32.6%	29.1%	
Republican: Cathy Stacey	60.7%	49.9%	-10.8%	-3.6%	57.2%	60.7%	-7.0%
Register of Probate:							
Democrat: Bob Davidson	32.9%	44.0%	11.1%	3.7%	36.6%	33.0%	
Republican: Ray Tweedie	56.1%	44.2%	-11.8%	-3.9%	52.1%	56.0%	-7.6%
County Commissioner:							
Democrat: Stephen L. D'Angelo	32.0%	42.1%	10.1%	3.3%	35.4%	32.1%	
Republican: Brian K. Chirichielo	57.3%	47.0%	-10.3%	-3.4%	53.8%	57.2%	-6.7%

* Not included in these results: 3rd Party candidates and Write-in Candidates

As is evident, the only change in the Windham results would be the margin of victory. If that is the case, what would be the purpose of such a scheme? Why would Windham experience vote redistribution that had no effect in local elections? Perhaps someone wanted at least one Democrat to win the State Representative race and thought it might not look too suspicious. If true, however, it may prove to be a mistake that revealed the entire scheme. Perhaps the shift in the margin of victory was merely cover for the real target at the state level. What happened in Windham was just collateral damage.

If vote flipping changed the margin of victory on AccuVote OS machines throughout the state, similar to what appears to have happened on Windham Machine #2, the table below shows some possible results on a statewide level. President Trump and Republican District 1 candidate for Congress Matt Mowers both might have actually won their races.

Hypothetical Changes to Margin of Victory in NH						
	Democrat	Republican	3rd Party	Margin	Error?	Alt Result?
President - Biden / Harris (Dem)	424,937	365,660	13,236	Victory:	Subtract by:	Loss:
* Democrat victory flips to Trump	52.9%	45.5%	1.6%	7.4%	9.9%	-2.5%
Governor - Sununu (Rep)	264,639	516,609	11,329	Victory:	Add by:	Victory:
* Republican victory holds	33.4%	65.2%	1.4%	31.8%	7.7%	39.5%
U.S. Senate - Shaheen (Dem)	450,778	326,229	18,421	Victory:	Subtract by:	Victory:
* Democrat victory holds	56.7%	41.0%	2.3%	15.7%	9.0%	6.7%
U.S. Congress Dist2 - Kuster (Dem)	208,289	168,886	9,119	Victory:	Subtract by:	Victory:
* Democrat victory holds	53.9%	43.7%	2.4%	10.2%	8.7%	1.5%
U.S. Congress Dist1 - Pappas (Dem)	205,606	185,159	9,747	Victory:	Subtract by:	Loss:
* Democrat victory flips to Rep	51.3%	46.2%	2.4%	5.1%	8.7%	-3.6%

Of course, all these hypotheses could be completely wrong. We will not know until we take a good hard look, which seems to be what the Governor, Secretary of State, and Attorney General want to avoid. Although Governor Sununu may have also lost votes, his margin of victory was so large there was never any real doubt he would win. Only a forensic analysis of the voting machines and the ballots will put speculation to rest.

In my next article, I will look at the means, motive, and opportunity to effect such a change in the New Hampshire election results.

Good morning,

Please support holding the audit in Windham. Ensure 100% of the ballots are run through all of the voting machines. We as voters, need and deserve to have faith in our election process. Please ensure the Windham Selectmen have input into defining the audit process.

1. We need to know why the November General Election Day vote totals in Windham were off by so much after a recount.”
2. “Windham should not be prevented from performing a thorough, complete and transparent audit on their voting machines.”
3. “Election integrity is essential to retain the First in the Nation status for the Presidential Primaries.”
4. “Count all of the races on the ballot.”
5. “Windham wants to perform a forensic audit on the voting machines and ballots.”

Thank you,
Cindy Berling

To the Members of the NH House Election law Committee:

NH residents need to know why the November General Election Day vote totals in Windham were off by so much following the recount. Windham has since expressed its interest to complete an audit on their voting machines. Nothing less than a thorough and transparent audit of Windham's machines and ballots *under the supervision of the Windham Board of Selectmen* is acceptable, and I do not see why Windham should not be able to do this audit.

The Windham Board of Selectmen MUST be allowed to define and drive the process!
Attempting to block their direction of this process will only further erode trust in our elections and you as our elected officials.

Please do your part today to restore NH citizens' faith in our elections, and to reinforce the value you have for election integrity. Please support Senate Bill 43 and allow Windham to perform a thorough and transparent audit on their voting machines.

Sincerely,
Marilee LaFond

We need to know why the November General Election Day vote totals in Windham were off by so much after a recount. Election integrity is essential to retain the First in the Nation status for the Presidential Primaries.

New Hampshire is better than this. It must lead the way for America. Have the courage to restore confidence and integrity in our elections. Wherever Dominion machines are present we, New Hampshire, must investigate their involvement and report their usage. It must be transparent. And, if they are found to have compromised our elections they must be barred from future use.

Dear Sirs and Madams:

I'm respectfully writing to ask for your support for SB43. It seems to me that when there is a situation swirling in discrepancy such as what is happening in Windham, the only recourse is to take action to prove or disprove what has gone on. We The People are asking for you to represent us in this endeavor to find the truth. It's not only the NH way, it's the American and Constitutional way.

Sincerely,

Barbara Howard

I firmly believe that if we do not have voting integrity and public trust in our voting system, we will lose our American way of life as a republic.

There is enough red flags to cast doubt. As a citizen of New Hampshire, I see no other option than to conduct a full fledged audit of the voting irregularities in Windham.

Respectfully,

Donna Pineau

To The House Election Law Committee,

From Kathryn Smith, Chichester, NH

Re: The Windham Incident

The largest discrepancy in the history of NH voting remains unexplained. Therefore, I strongly urge you to support a thorough and transparent audit of Windham's voting machines and ballots.

- “We need to know why the November General Election Day vote totals in Windham were off by so much after a recount.”
- “Windham should not be prevented from performing a thorough, complete and transparent audit on their voting machines.”
- “Election integrity is essential to retain the First in the Nation status for the Presidential Primaries.”
- “Count all of the races on the ballot.”
- “Windham wants to perform a forensic audit on the voting machines and ballots.”
- Provide your support for the potential amendments mentioned under Option #1

Thank you for your support of voter integrity.

Sincerely,
Kathryn Smith

To My Elected Officials:

I am sending this email in support of SB43.

I want to make sure that my vote as well as my fellow voters' votes are all counted no matter who we are voting for. Voting is our constitutional right. Our vote is what allows the citizens of this country to have a say on how we are to govern ourselves. When a vote is not counted, that voice is not heard, that voice is denied their constitutional right.

The issues in Windham are serious. We need to make sure our elections are of the highest integrity. Therefore, we need to root out the cause of the substantial difference between the original count and the recount and, why, one voting machine has inversely proportional differential anomaly compared to the other three voting machines.

The recount demonstrates that 4% of the original vote count was not included in the original results. That means about 1,260 (voters) voices were not heard and were denied their constitutional right. Potential denial of voter constitutional rights may have occurred with the voting machines. The one machine that demonstrates the anomaly compared to the other three machines, seems to only have affected the federal races. If the anomaly is reversed then potentially Jeanne Shaheen and Ann Kuster won their races with less votes than their opponents. The machine anomaly seems to extend to the overseas ballot results.

Because of these anomalies the town of Windham should be able to perform an audit of their voting machines without being removed from their possession and the audit should be thorough and fully transparent.

Please place your support behind this bill and vote yes for SB43

Thank you,

Ernie Bencivenga

Committee Members

As a member of a family with 279 years of history in the Province and State of New Hampshire, I have a strong sense of belonging, pride, and fairness for our state and people. I regret that business appointments prevent me from testifying at today's hearing. If possible and appropriate, I invite my Senator, Denise Ricciardi to read this letter into the record on my behalf should time allow. In any event, kindly include this correspondence in the record of the hearing.

Day to day discussions of policy on how we should govern ourselves often engages me. However, the potential for intentional interference in our elections generates more righteous anger than I ever thought I might contain. And I am certain that I am not unique in feeling this way. Despite this anger, I am a believer in rational process and procedures to find and correct problems.

I respectfully request your support and ultimate passage of Senate Bill 43 as proposed. Transparency of, and confidence in, the elections of our representatives is a fundamental cornerstone of our existence as one of the founding United States of America. Our forefathers and descendants deserve our commitment to integrity in voting as much as we deserve it for ourselves.

If the review of the Windham voting finds evidence of malpractice and abnormalities which can only be explained as a result of bad intentions, you can expect my support of, and calling for, a larger effort to determine if these problems had occurred throughout the state. And if proven to be true, we will require a careful, eyes wide open reset of our most critical government function, the process of how we establish the honest representation of us in policy debate and decisions.

Thank you for your service.

Dear Members of the House Election Law Committee,

How is it possible that ballot counts in Windham were off by HUNDREDS of votes after a recount? Please don't say it doesn't matter because the results didn't change!! It shows that we cannot trust our elections! It is a travesty and it needs to be investigated!

A forensic audit on ALL the voting machines and ALL ballots must be done. It should take place in Windham with the Windham selectmen having input in the process since it concerns Windham's election and its machines! ALL the races on the ballot should be counted with ALL the ballots being run through ALL the machines. Anything less will not show the complete picture. If I were a resident of Windham I would be even more livid than I am as a resident of Rochester. If we fail to get to the bottom of this matter in a way that truly does the job and is not a sham or attempt to twist the truth then our state deserves to lose its "First in Nation Status" and election integrity in our state will be a joke.

Please DO THE RIGHT THING!

Importance: Normal

Dear Election Law Committee,

Thank you for your hard work and dedication to get this issue resolved. I do appreciate that you are making efforts to make sure this a transparent process. We the people demanded action and you have acted.

That being said, I feel that this bill, as written, is not specific enough on actions that need to be taken and will inevitably lead to a result that will not satisfy the public. The entire purpose of this audit is to ensure trust by the public. That happens through transparency but also through a detailed and exhaustive audit.

Based on the consistent refusals by the Secretary of State's office and the Attorney General, we are not confident that they have the *interest* in properly conducting a forensic audit of the particulars of this situation. It is similar to me asking my 11 year old to do the dishes after which she refuses 3 times. After I threaten to take away a favorite toy and she begrudgingly does the dishes, I should expect a shoddy job because clearly she did not want to do them in the first place.

The town should be calling the shots on the specifics of the investigation and the details such as the location should be up to them. The AG should only assist as requested by the town or if there is illegal activity discovered in the audit.

As currently written, SB43 is not clear enough on the details, rules, or the extent of the audit; the lack of these measures could lead to a conflict between parties, or even worse it could lead to an audit that was not nearly detailed or exhaustive enough to really get the answers that are needed. For example:

-If somehow during the proposed hand recount there are 300 extra ballots that are discovered, but were not scanned on Nov. 3, what happens next? SB43 does not say. We want to know some answers. Were those ballots grouped together or dispersed among other ballots? Were they missed due to human error? Were they mail-in ballots? Did they have proper chain of custody? Were they **legitimate** ballots?

The answer to all of this is a true forensic audit where 100% of the ballots are imaged through a machine that uses the same technology to detect counterfeit money and passports. This technology is the same one being sought by Arizona in their forensic audit. Jovan Pulitzer has the machines and the technology and is already in discussions with people in Windham. It would not cost the state a dime - we the people will pay for it out of our own pockets.

Additionally, the ballot counting machines need to have their hard drives imaged (copied) and examined forensically by independent experts that can ascertain whether the machines had any signs of irregularities such as high adjudication rates, internet connectivity, changed or missing audit logs, or ranked voting enabled.

Finally, this all needs to be made public. Live-streaming cameras are great, but they will not allow someone at home an idea of what is happening during certain investigation stages. There is nothing secretive about the ballots; they are anonymous pieces of paper with selections on them. The digital scanned results should be made public for everyone to see on the SoS website. This would be the ULTIMATE transparency and there will not be any question as to what is going on.

I strongly urge you to consider amending SB43 to allow Windham to perform their own forensic audit to the extent that they need. They are very interested in getting to the bottom of this, and I do not think they can rely on the state agencies for a full audit at this point for the reasons outlined above.

Thank you again for all of your hard work and attention to these matters. We the people want answers and I think you recognize that. Lets make sure this bill puts the power where our founding fathers wanted it - closest to the people it affects most.

Respectfully Yours,

Dale Ames

Subject: [CAUTION: SUSPECT SENDER] SB 43 (Regarding audit of Rockingham County District 7 State Rep races)

Importance: Normal

Dear Representatives,

Thank you for looking into this important election disparity in Windham. I attended the hearing on 3/1/21 to better understand this issue. I am very pleased to see the Senate approved this unanimously.

I believe the Senate is modifying this bill to ensure 100% of all the votes are run through every machine individually, including the ballots that contain blanks and over-votes. The totals for each machine then need to be compared. I think this is critically important.

I also understand that the Town of Windham wants to conduct this audit of their own machines with their own ballots in their existing secure location without moving the machines. I think this is also very important. I understand they need 100% of their ballots returned to them to perform this audit.

It also was mentioned that it needs to be handled by people who were not involved in the initial count to provide both transparency and protection for everyone involved.

This audit, done by the town of Windham, is vital to restore voter confidence throughout our state.

Thank you!
Sandra Rigazio

Hello,

My name is Michael Doucette. I am a NH resident living in the town of Hudson. As a proud citizen of NH I believe we need to look into what happened on election day. We need to know why the recount in Windham was off by so much. That town should not be prevented from performing an audit. The excuse of "It did not change the outcome of the election." is unacceptable. This audit needs to happen, it needs to be public and transparent, and we should not continue to ignore outstanding irregularities, not just in Windham but across the State on both the federal and state election.

-Michael Doucette

“We need to know why the November General Election Day vote totals in Windham were off by so much after a recount.”

“Windham should not be prevented from performing a thorough, complete and transparent audit on their voting machines.”

“Election integrity is essential to retain the First in the Nation status for the Presidential Primaries.”

“Count all of the races on the ballot.”

“Windham wants to perform a forensic audit on the voting machines and ballots.”

This election integrity matter deserves a proper resolution which will not come unless the Legislature demands it. The executive branch has dropped the ball. It should not take a writ of mandamus to get the AG's attention nor should it take an act of the legislature. We are counting on your follow through. This is an immediate need.

Thank you for what you do.

Very respectfully, Marc Abear Meredith

Importance: Normal

Hello,

I will be Zooming into the SB43 hearing on March 5, 2021 at 10:30am. I would like to testify with the following statement:

Thank you Election committee for hearing my testimony. My name is Lisa Mazur and I live in Goffstown, NH. I have lived in the USA for 26 years (here on a green card from Canada) and just became a US citizen this past January. The reason I became a citizen after all these years is because I love America with all my heart and am ready to start using my voice with my vote. I believe in our country and our Constitution. I'm not going to lie... At this moment, my faith and belief in both of those things are pretty shaken after what I've seen happening in our country since November. Millions of us have seen the nationwide election discrepancies and our Constitution being ripped apart right before our eyes. Then it became personal when a discrepancy was unveiled right here in NH. This was the largest discrepancy between machine and hand count totals in the history of NH elections. Because of this discrepancy, a forensic analysis of the machines (including the cards and ballots) needs to be conducted. The machines and ballots are town property so the Town of Windham via its Board of Selectmen should determine which firm(s) does this forensic analysis. I have never voted in my life and I am now terrified that my first vote in 2022 might be taken from me. So we have to get this right. I do not understand why you wouldn't want to get this right as well. WMUR and the Union Leader call this all a conspiracy theory but for me it is just a search for truth. Please do the right thing. This new citizen needs to know her voice is being heard and that her first vote ever will be counted. Thank you.

Lisa Mazur
Proud New American

absee@4Liberty.net

- I am in full support of SB-43. I think that the audit should be held in Windham under the supervision of the Windham Board of Selectmen and done in the manner of their choosing.
- The audit should account for all ballots that were printed for the election, including unused, spoiled or not returned by absentee ballot voters.
- Also, all “blank” votes need to be reconciled with the total ballots cast. This was not done for the official recount for the State Rep race.
- All ballots should be run through all four of their voting machines. One of the machines, #2, gave noticeably different vote percentages than the other machines. The ballots should be arranged so that each machine gets approximately equal number of ballots inserted in each of the four possible orientations fed into the machines to look for a “dead spot” on either the upper or lower sensor bar. It may be useful to not run poorly marked ballots through the machines for this audit.
- All the races on the ballots should be audited.
- This audit is crucial to voter confidence in the AccuVote machines throughout the state of New Hampshire. Many of our cities and towns use these machines and the voters in each of these cities and towns want to know if these machines can be relied upon for accurate vote counting.

Thank you,
Alvin See

To the House Election Law Committee:

We would like to express our support for SB43.

New Hampshire's citizens need to know why the November general election day vote totals in Windham were off by so much after a recount. Windham wants to perform a forensic audit on the voting machines and ballots, and they should not be prevented from doing so.

Election integrity is essential if New Hampshire is to retain its First in the Nation status for presidential primaries.

We would also like to express our support for any potential amendments to SB43 regarding any of the following, if they are proposed:

Holding the audit in Windham.

Ensuring that 100% of the ballots are run through *all* of the voting machines.

Ensuring that the Windham selectmen have input into defining the audit process.

Counting the votes for all races on the ballot.

Thank you so much.

Concerned New Hampshire citizens,
Steve & Sara Tatham
Plymouth, NH

Dear State of New Hampshire House Committee Members,

As a NH resident, I respectfully insist that action be taken to investigate in a meaningful and public way, the voting inconsistencies that occurred in the Town of Windham from the November election.

I attended the 603 Alliance webinar on 2/18/2021 where this was discussed in detail. For a replay, please see this link <https://youtu.be/xn2YXZ0Umr8> and the slides from this event are located at the following link and provide machine by machine details of voting anomalies: <http://603alliance.org/wp-content/uploads/2021/02/Windham-Webinar-FINAL-2020-02-18e.pdf>

The information presented was incredibly disturbing. A detailed public investigation is needed or public confidence in our system of voting in NH will suffer great damage. An accurate vote is a CIVIL RIGHTS ISSUE.

Key Facts:

- There is an unexplained discrepancy between the machine count and the hand recount
- The recount resulted in an increase of 6% for Republicans and a loss of over 2% for the Democrat
- NH has NEVER seen a discrepancy of this magnitude before

I respectfully request that investigators:

- re-run ALL Windham election day ballots through EACH Windham voting machine and compare against the recent hand recount.
- perform an independent investigation/analysis of Windham's machines.
- work with the Town of Windham.
- and that this investigation be in public with meaningful public oversight livestreamed and recorded and open to public view.

The data presented in the presentation 2/18/2021 was compelling and makes no sense. Something is very wrong. We all need to know what happened, and this must never happen again. If there was tampering, we need those responsible brought to justice. Without analysis and rectification, machine voting should NEVER be used in New Hampshire elections again.

This is far too serious to sweep under the rug or to ignore. This is a civil rights issue and your action is respectfully requested immediately.

Thank you in advance for publically and thoroughly investigating this situation and reporting on findings.

Sincerely,

John Prestidge
Easton, NH

Subject: Windham audit
Importance: Normal

The 2020 election was rife with fraud and corruption. It was a 3rd world-style farce and an embarrassment to the nation. Across the country, election commissions and other state officials, who know they are culpable for having allowed this travesty to happen, have for the most part fought assiduously to prevent any thorough, objective investigation of credible reports of irregularities in voting, and in the processing and tabulation of votes. These concerns must be resolved in a fair, open and unbiased manner, if Americans are to be able to trust future elections. The serious, and inexplicable, discrepancies in Windham are a crucial test of our state government's commitment to free and fair elections.

These unprecedented errors **MUST** be thoroughly, objectively and completely investigated. All ballots must be counted, all races included, all machines forensically examined. Those carrying out the investigation must have impeccable credentials and be verifiably free of any and all conflicts of interest.

New Hampshire voters are relying on our elected representatives to stand up for real, verifiable election integrity. Platitudes and glad-handing will not suffice. I'll not support, in the future, any politician who does not defend ALL my civil rights, in the present.

Dear Committee Members,

Thank you for taking the time to read this.

Please help us ensure election integrity in the great state of New Hampshire through auditing the Windham November general election votes, including the voting machines.

There was a large disparity in the vote totals at the recount. Given this, we as a state, want to be an example to other states as we are the First in the Nation for Presidential Primaries. We can be that gold standard of election integrity for the rest of the nation. But to do that, we must hold ourselves to the highest standard of integrity, and I believe, that audit of the Windham votes is essential. This will benefit all, not any one party.

Would you also consider support of potential amendments under Option One?

Thank you again for your hard work and time,

Respectfully,

Janice Hirsch

Dear Legislators,

I am a US citizen, registered voter in NH and want to ask you to support SB43. It is essential that citizens know the truth regarding the following.

1. We need to know why the November General Election Day vote totals in Windham were off by so much after a recount.
2. Windham should not be prevented from performing a thorough, complete and transparent audit on their voting machines.
3. Election integrity is essential to retain the First in the Nation status for the Presidential Primaries.
4. Count all of the races on the ballot.
5. Windham wants to perform a forensic audit on the voting machines and ballots.

I support potential amendments which may be added under SB43.

Hello:

This email is written to express my alarm over the "irregularities" uncovered during the Windham Recount after the 11/3/2020 Election.

After reaching out to the NH Attorney General and the Secretary of State, I am equally alarmed by their lack of action to perform an investigation regarding the vote total discrepancies. Their behavior regarding performing an investigation is discouraging. It is disappointing that SB43 has to be sponsored, and hopefully passed, to remind them of their duties.

After learning about the letter, the NH Attorney General's office sent last Thursday, indicating that the NH Attorney General would be "coming to collect the machines", I became concerned. The NH Attorney General's response to the "Windham Incident" is to ignore it and the pleas of the Town of Windham to look into this. I believe that the "chain of custody" of these machines is important to preserve.

1. The investigation needs to happen, and happen in Windham. This investigation should maintain transparency for all interested parties to see. (and this means to really observe, unlike what occurred to Election Poll Challengers, where they were kept so far from the voting process on 11/3, it cancelled out the reason for being there).
2. The investigation should include a forensic audit on the voting machines and ballots.
3. Count all the races on the ballot
4. ALL ballots are run through ALL the voting machines

Respectfully,
Catherine Girata

Subject: NH House Remote Testify: 10:30 am - SB43 in House Election Law

Importance: Normal

Dear State of New Hampshire House Election Law Committee,

I want to know why the November 2020 General Election Day (3 Nov 2020) vote totals in Windham were off by so much, and approximately the same amount after a recount. Windham needs to perform a detailed audit in a complete, transparent, and open fashion, especially votes tallied in voting machines.

It is an embarrassment that the state holding the First in the Nation Presidential Primaries has been tarnished by these mysterious anomalies during the Nov 2020 General Election. I request you audit ALL races on the Windham ballots, not just those few specified—count from the presidential to the lowest city/town position. Perform the audit on both paper ballots and the voting machines, ensuring the count was accurate, fair, and they align with each other. Ensure all 100% of ballots are run through the voting machines, as well as being hand-tallied. Please allow the Windham Selectmen to have input into defining the audit process and that both major political parties and independent witnesses have access to the process. Please audit all races on the ballots. Thank you.

While I heard from the NH Governor and the NH Secretary of State say there were no election irregularities in NH, especially during the 2020 Nov 3 election, I have personally witnessed it myself in Nashua polls. In addition, I have experienced a very VERY difficult time in getting the Nashua Clerk in charge of the polling places to answer the phone even a month ahead and for weeks leading up to the 3 Nov date to talk to me, even when passed along by others in the Registrar's office. I had requested to be a Polls volunteer during that election, and I was also willing to be a voting observer. Additionally, I have witnessed during past elections the importation of large groups (20-30) of new, unregistered voters arriving simultaneously at the polling place together with paper instructions on how to vote; they did not speak English which, if they were US citizens would, at least, allow them rudimentary proficiency in English. Not only was this suspicious behavior, but, at the time (and, probably, is still the case) photographic proof of identity was not required for new voters on the day of voting; these multiple dozens of voters were not vetted as citizens of NH, nor of the county or town or address where the poll covered.

In addition, I heard Sen Hassan question the former director of the CISA US cybersecurity, Chris Krebs, during a Senate Judicial Committee hearing; Mr. Krebs declared this was the most secure election possible. While Mr. Krebs had already been fired by the previous administration, our Senator Hassan pandered to his (false) testimony. We know from multiple live sworn testimony in 3-4 states, broadcast by CSPAN, that this was not the case, and as noted in my previous paragraph, I am very concerned that the State of New Hampshire's can suffer the same fate as other states and commonwealths in the union. I want our own voting counts totally transparent, accurate, and open.

I do not support voting without proof of identity and, moreso, proof of both residency and citizenship. I am, also, in favor of absentee ballots for active duty or deployed US Military, and for individuals who request absentee ballots for reason of inability to travel to the poll ON

VOTING DAY due to out-of-town business, lack of transportation, or inability to stand in line due to illness or disability.

Respectfully,

To the Members of the NH House Election law Committee:

We need to know why the November General Election Day vote totals in Windham were off by so much after a recount. Windham wants to complete an audit on their voting machines. Why shouldn't they be allowed to? Nothing less than a thorough and transparent audit of Windham's machines and ballots *under the supervision of the Windham Board of Selectmen* is acceptable.

The Windham Board of Selectmen MUST be allowed to define and drive the process!

Attempting to block this process will only further erode trust in our elections and in our elected officials.

Please do your part to restore NH citizens' faith in our elections. Please support Senate Bill 43 and allow Windham to perform a thorough and transparent audit on their voting machines.

Sincerely,
Vivian Bates

Hello,

I've been a lifelong Democrat. In 2016, when I felt there was election fraud / interference, I very much appreciated Republicans and the country going through what it went through to hear out my concerns.

I am deeply concerned about healing this country and would like to see concerned citizens have answers to their questions. A forensic recount answering questions like why were the numbers in Windham so off after election matter to build confidence in our country and make all voices heard.

You have my support and strong encouragement for an audit. We can be a model for other states. -Kim

Dear Legislators,

I urge you to support SB43, as amended.

Election integrity is one of the most important things you can accomplish for our state.

The Windham election “irregularity” needs to be thoroughly investigated. To do so, all ballots should be run through all machines. This should isolate out which, if any machines caused the irregularity. And then find out how it happened.

The audit should be held in Windham. The AG office has been adamant about not investigating until last week, when the legislature writing was on the wall. The AG office is compromised by this.

All races on the ballot should be counted to determine if it was only the Representative race affected , or were their other races??

This matter should not be brushed over by a cursory look or tainted by biased participants.

Thank you very much for your consideration.

Subject: NH House Remote Testify: 10:30 am - SB43 in House Election Law

Importance: Normal

Ladies and gentlemen, the citizens of New Hampshire have a need know why the November General Election Day vote totals in Windham were off by so much after a recount. These kinds of results are indicative of fundamental problems in either the voting process or the mechanisms employed; and when they show up, demand an in-depth investigation, i.e. an thorough audit.

Windham must be allowed to perform this forensic audit on the voting machines and ballots. Doing so will either reveal that the voting process is safe, fair, and secure; or it will reveal one or more weaknesses in the process. Those weaknesses, if they exist, must be discovered, and they must be corrected.

Furthermore, the results of a forensic audit of the Windham November election may have applicability to other voting districts in New Hampshire. We must know, with incontrovertible proof, that our election is secure. We must be able to prove to the Nation that our election process is secure; else we face the grave possibility of losing our First in the Nation status for Presidential Primaries.

Therefore, Windham must be permitted to hold a forensic audit. 100 percent of the ballots need to be run through the voting machines. 100 percent of the ballots must be hand tallied for ALL races and compared to the machine totals. And the Windham Select Board must have input into defining the audit process.

Thank you.

A true and honest vote is all that keeps the beast called tyranny from the door. It is imperative that support be mustered to establish and maintain residency and eligibility requirements, hold the vote on ONE DAY ONLY in early November of an election year and the vote must be cast in person or by absentee ballot with significant proof of eligibility.

All else leads to the death of liberty - and you all know it.

Wm. Smith

My name is Robin Rousseau. I'm a CPA that has worked as an auditor for large accounting firms such as Ernst and Young, Grant Thornton and PWC. I have also been the Director of Internal Audit for two mid cap public companies. I have been involved in many investigations of fraud related to financial reporting in my career. I have even testified against corrupt management teams at the SEC in DC.

Dear Election Law Committee Members,

I have watched all the legislative hearings in the swing states around voting fraud. I have looked at the electronic evidence from those machines and have seen the infiltration of those systems from IP addresses around the world. It would not surprise me if those international hackers were able to manipulate the results in our great state as well. The preliminary results from Windham show the potential for hacking into our voting systems does exist.

I am requesting and professionally recommending an independent 3rd party forensic team come in and audit the results of the New Hampshire election. The audit report for that investigation should be directed to the Election Law Committees in the House and Senate--not the Governor or AG office. What I have found in my over 25 years in audit is that manipulation of results usually comes from the top down--not bottom up. By ensuring that the 3rd party auditor's report goes directly to the Legislature, there is less risk that those results will be altered.

Thank you. I look forward to hearing that you have approved this forensic third party audit for the good people of New Hampshire to have comfort that their vote counted. If not, we fix the problem and toss these voting machines...although I recommend that you toss these voting machines regardless of the results of the investigation. They have a high risk of error as we have seen around the country.

Sincerely,

Robin Rousseau, CPA

I am a registered voter in Dublin, NH. I am writing because of my deep concerns over election integrity in NH and desire that a thorough examination, forensic and otherwise, be done on the votes cast. For example, we, the voters of NH, need to know why the November General Election Day vote totals in Windham were off by so much after a recount.

I would encourage the legislature to permit Windham to performing a thorough, complete and transparent audit on their voting machines.

If election integrity is important in NH as it is essential to retain the First in the Nation status for the Presidential Primaries.

We need a full accounting of the full count all of the races on the ballot.

You MUST support Windham as they perform a forensic audit on the voting machines and ballots.

And, finally, you must support any potential amendments offered to rectify this issue, so it never happens again.

Sincerely submitted,

Kerry Moody

Dear Congresspersons:

I believe that we need to know why the November General Election Day vote totals in Windham were off by so much after a recount. Windham must be permitted to perform a thorough, complete and transparent audit on their voting machines. Anything less would undermine the possibility of future fair elections in New Hampshire.

Election integrity is essential to retain the First in the Nation status for the Presidential Primaries. To ensure this, the audit must a) count all of the races on the ballot, and b) perform a forensic audit on the voting machines and ballots.

I am fully in support of the potential amendments mentioned under Option #1.

Sincerely,

Roy Dallas Russell, M.D.

We need to be sure that our elections are held to the highest standards.
I think all elections should be spot recounted by hand for quality assurance.

I am working and unable to attend but these videos could be shown at the hearing.
Please share with all who will be voting on this issue.

VOTING, voter fraud: Really should watch the video to get an understanding of what is possible or might be done.
It's not that long. I thought our voting in NH was great. How could anyone hack our computers when they stay at our town hall. Oh wait, we insert a program in it from outside to list the candidates. So there is a central source for a virus/contamination/changes etc.

Computer programmer can rig election – if he wrote the program you can't tell if election is over:
<https://www.youtube.com/watch?v=G0qivPudp6U>

Watch the machines count wrong – it counts right until you say 'run the election: [Hacking Democracy - The Hack:](#)

NH <https://www.youtube.com/watch?v=Ek2rXxFEzWI> NH [New Hampshire Ballot Box Fraud Caught On Video](#)

New Hampshire Ballot Box Fraud Caught On Video

What I'd like to see:

Computer source code is checked BEFORE the voting, could have a LOCAL republican and democrat. Or have all the candidate names entered at the local level. Then the towns could send a fax or attach a doc to the state prior to the election for a recheck it is correct. then there is no "contamination" of the machine. (Except one at a time. Much harder to do as much damage.)

NO to Federal agency/ies being involved. Only state and local control! The bigger/higher up the more chance of widespread corruption.

NO voting without a paper trail! No on line machines.

But there needs to be a recheck even with the paper trail. It doesn't matter if there are papers if it's not checked. So a couple small towns and a couple city wards in each state count votes by hand as a quality assurance measure. Locations where counting will be are chosen FOLLOWING the election so no one knows where it will be beforehand.

No mailing absentee ballots without a specific request for one

Yes, signatures need to be checked. with people from both parties viewing.

Elections have to be redone if they don't make sure that both parties closely WATCH the count. So election officials will make sure that poll watchers are present, an integral part of the counting.

No connection to the Internet. Each town or city ward posts their results so anyone can add them up. We shouldn't need special tabulators. List results from each machine. We can add up these up.

I heard that some areas mailed absentee ballots to all on voting list and then "harvested" the ones thrown out at apartment complexes and filled them in and mailed them back.

Same day registration is crazy.

If you are changing state residency, you must do it at least 30 days (or whatever would be reasonable) in advance of the voting so there is time for the last place to be notified and the name removed from their rolls, they do it for drivers.

Not only proof of residency we need proof of citizenship! We could start now so all are ready for next election. A license proves it's okay to drive, it does NOT prove citizenship or right to vote. I would be happy to bring my birth certificate. College students who don't have a NH license with their address bring their college bill to prove where they live. If they pay out of state tuition, then they live out of state.

And no weeks of voting. It gives people too much time to vote in multiple places.

How can we take dead people off the voting rolls? Come up with some plan to remove those names when people die. You can't get a driver's license without turning in your last one. DMV notify last place of residence for out of staters. When death certificates are made, they notify the town voter registration.

Subject: [BULK] I am submitting written testimony in opposition to HB 362, HB 429, HB 531, and HB 554.

Importance: Normal

Dear NH House Election Law Committee,

I am contacting you to submit my written testimony in opposition to several proposed pieces of legislation that would undermine voting rights for New Hampshire students: HB 362, HB 429, HB 531, and HB 554.

HB 362 would prevent students from using their educational institution as their place of domicile for voting purposes. If students are not allowed to register at their college address, young people who moved to New Hampshire for college would not be able to vote in the state.

HB429 would prohibit college IDs from serving as forms of voter ID and would incentivize colleges and universities to discourage their students from voting.

HB 531 would eliminate the Qualified Voter Affidavit, which allows a voter to cast a ballot without needing to provide proof of residency at the polls.

HB 554 would limit students' ability to register to vote. If they're merely eligible to register in another state while at school in NH, they would have a more difficult time registering to vote in NH.

These bills would put unnecessary burdens on voters in an effort to prevent young Granite Staters from going to the polls. By impeding the constitutional right to vote, these bills will create confusion at polling places and may cause eligible voters to stay at home.

Together, all four bills represent a blatant attempt to suppress the vote of young people in New Hampshire. The right to vote is a fundamental part of our democracy, but HB 362, HB 429, HB 531, and HB 554 intentionally aim to disenfranchise student voters and exclude their voices from the political process.

I implore the entire committee to reject these bills and instead work to improve ballot access for students in the Granite State.

Sincerely,
Catherine Robertson Souter

Subject: SB 43 - (Regarding audit of Rockingham County District 7 State Rep races.)

Importance: Normal

Dear Committee Members,

Greetings and thank you so much for your service to our state and the citizens of NH, it is greatly appreciated.

Today I am writing because I am in favor of 'auditing' the State Representative races in Windham. There are a couple of measures that I would like to see in the bill however. The audit should be done by the Town of Windham and in a manner that they are comfortable with. I am all for transparency and the involvement of all officials who have a vested interest in open, honest and fair elections. I am deferring to Windham here and not the State. Windham should be given all that they need to determine what happened in their town election. I would also like to submit that I feel that all the ballots should be run through each of the four machines that were used on election day. It would be interesting to see how closely these machines record the results. There could be problems with the machines and/or particular machines. If this turns out to be the case, I would like to see forensic analysis done on the machines to find out what the problem is or what the problems are. On another note, should the problem be with the machines, that would then bring into question similar machines being used in other towns and the integrity of the vote in those towns. I realize that it could be revealed that the recount was the problem. Whatever the problem was or the problems were, please give Windham all that they feel they need to get to the bottom of this matter. We want all voters to have their vote count and we want those votes to have the same weight as every other voter, nothing more and nothing less. We all want NH to remain free; and I can't imagine anything more important to remaining free than having integrity and transparency in all of our elections.

I apologize that I didn't know the name of this bill. Thank you again for your service to our beloved NH.

Sincerely,

Lisa Berger
Bedford, NH

Subject: Windham Incident - SB43
Importance: Normal

Dear Election Law Committee,

I am a Windham, NH resident and very concerned about the discrepancies in our November 3, 2020 General Election Day vote.

Specifically, a count of ALL the races on the ballot are warranted with ALL ballots that are now in Concord. Windham voters need a thorough, complete and transparent audit of the ballots and voting machines. We must know how these discrepancies occurred, and how all races on the ballot were effected.

The audit should be held in Windham, and 100% of the ballots now in Concord, NH possession should be run through ALL the voting machines, with input from our Windham Selectmen on the audit process.

Finally a forensic examination of the machines and the ballots is necessary, please help to do your part in helping us make this happen, and don't hinder this thorough and speedy investigation of our towns votes.

In sincere appreciation,

Subject: RESTORE ELECTION INTEGRITY in NH!
Importance: Normal

Ever feel as if everyone in the room knows something except YOU!

Not being included or simply left out by a particular person or group can easily be resolved by action, unless that particular person or group does not want a certain someone to know what's going on.

This is how New Hampshire voters feel especially after reading about the 400-vote discrepancy between the optically-scanned and hand counted ballots in Windham, NH. Did this happen in their town, many have questioned? All everyone really wants is clarity and truth.

The people of New Hampshire need to know why the November General Election Day vote totals in Windham were off by so much after a recount.

Wouldn't it be nice to show the rest of the 49 states that New Hampshire is truly the "Live Free or Die" state and not cowards afraid to jump into action when duty calls.

It's simple math... Count all of the races on the ballot and perform a forensic audit on the voting machines and ballots.

The answer will truly cancel out doubt... unless you are that particular person or group which does not want a certain somebody to know what's going on.

Honesty is always the right way to handle doubt!

Thank you for your time.

Sincerely,

JoAnn Lagasse

Dear HELC:

Since the election in November, I am one of 75,000,000 people who KNOW we need election reform, returning to an ELECTION DAY with honesty and integrity! I and numerous of my conservative friends have witnessed election irregularities nationwide that must be addressed immediately ensuring an honest election.

BEGIN WITH WINDHAM!!

We see evidence of technical issues that could possibly indicate fraud, therefore altering the outcome of our election! This must be rectified!!

The news media has censored the reporting of this travesty and only when ordinary citizens become involved in oversight will this change.

Therefore:

- “We need to know why the November General Election Day vote totals in Windham were off by so much after a recount.”
- “Windham should not be prevented from performing an audit on their voting machines.”
- “Election integrity is important to retain the First in the Nation status for the Presidential Primaries.”
- “Count all of the races on the ballot.”
- “Perform a forensic audit on the voting machines and ballots.”
- Provide your support for the potential amendments mentioned under Option #1

This requires your attention...and I appreciate your support on this issue.

Regards,

Susan Fineman
Nashua, NH 03062

Subject: My support of Senate Bill SB43

Importance: Normal

House Election Law Committee Members:

This morning I submitted my support of Senate Bill SB43 online using the NH House Remote Sign In Sheet.

Election integrity is of the utmost importance to our New Hampshire voters and the citizens of every state in our entire country; without it we the people cannot have confidence in our election process, our vote, those who get elected and their subsequent government actions.

All of New Hampshire needs to know why the November 03, 2020 General Election Day vote totals in Windham were off by so much after a recount. Naturally, we are concerned as to whether the underlying cause might also be affecting other towns in New Hampshire.

It is very important for Windham to perform a forensic audit on the voting machines and ballots, and to count all of the races on all the ballots.

We thank you for your service to New Hampshire and we ask you to join us in supporting Senate Bill SB43.

Sincerely,

Clarence Skidmore

Brookline NH

Subject: Resolve the Windham Incident
Importance: Normal

Hello,

We are Earl S. Bartlett II and my Wife Mary L Bartlett.

Residents of Windham, NH for about 35 years. We went to a meeting this past week for a Select Board meeting regarding the election results from this past November and rather than an understanding of the issues, We now have more questions.

We believe that the ballots now in custody of the State of NH are still the property of the Town of Windham, NH

Until our vote is correct and all questions regarding all races are resolved

We believe that :

Windham should not be prevented from performing a thorough, complete and transparent audit on their voting machines and ballots.

In the Town of Windham under the control of the Select Board, our elected Town Representatives and in an open format to be viewed by any concerned resident.

If the State of NH does not believe that the discrepancies will affect the results and believe the results to be final and do not want to pursue why there was such a high error rate for only the recounted race, which was an error rate above 10% for that race, but the Residents of the Town of Windham want to have all the issues explained if possible.

Why won't the State of NH help us to clarify what happened during our election process this past November elections.

If the State of NH and its election officials do not want to help in this process then why don't they just return possession of the Windham Ballots to Windham and allow Windham to perform the Audit themselves in the process that Windham chooses.

Thank you for your Cooperation.

Earl S. Bartlett II

Subject: Letter of support for HB544
Importance: Normal

Dear Committee Members,

I am writing this to express my support for HB544. I know it's detractors often lie and portray this bill as an attempt to erase diversity training but I do hope you all see that arguement for the lie that it is. We have come a long way as a nation and I do not wish to see that progress erroded through ideologies like Critical Race Theory that teach people to become racist (and/or sexist) by promoting the idea that determining how you treat someone should depend on their race (and/or sex). I can understand how self avowed racists use this theory to excuse their behavior and beliefs by painting themselves as champions of those they discriminate against but I think it is safe to say we should not be looking to racist people for guidance on how to behave. Telling people that they are bad or good due to their skin tone is blatantly wrong. Treating people differently based on their skin tone is blatantly wrong. These ideas used to be and still should be obvious to us all and I hope you help combat theories that try to contradict these obvious truths.

Thank you for your time.

Subject: Support for Bill HB544
Importance: Normal

Dear Friends,

I'm writing to you to express my support for the proposed bill HB544 to ban critical race theory. I have spent much of the last year reading about, learning, and researching critical race theory and after much careful deliberation am compelled to write you to express my concerns on how it could affect our society. This is an ideology that promotes the discrimination of specified groups (namely those in the majority) in order to fight the discrimination of marginalized groups. That is a deeply twisted and misguided idea of social justice, and a very dire path to go down. It is not going to lead to positive outcomes for anyone, but rather will lead to severely negative outcomes for everyone. For this reason I cast my support in favor of bill HB544 to ban critical race theory. However I also stress that WHAT THAT IS needs to be clearly and lawfully defined, and that black scholars and intellectuals well versed in the subject be consulted in the defining of the legislation.

Thank you for your time.

Kevin

Subject: Please support HB544 the bill banning Critical Race Theory in public schools

Importance: Normal

Dear NH House Executive Departments and Administration Committee:

I am writing as a concerned American citizen , though not as a New Hampshire resident, in support of HB544, the bill that would ban the teaching of certain divisive ideas as fact in public schools.

I am very concerned that our current educational curricula are being designed to encourage hatred and resentment against what are perceived to be acceptable targets. We are being conditioned to accept that opposing racism does not in fact mean opposing prejudices based on race or differential treatment based on race, but rather requires the denigration of whichever races are seen as socially dominant.

The very existence of Western civilization is being construed as racist, and White people, particularly straight cis males, are being portrayed as the presumptive villains in society.

This sort of indoctrination is often the prelude to persecution and state-sponsored discrimination, and it is wrong.

Please support HB544 to ensure that our public schools are not being used to teach "politically acceptable" hatred.

Sincerely,

Michael J. Jose

Subject: HB544
Importance: Normal

Hello,

I'm writing in support of HB544, which would ban critical race theory training.

I think it is important for this bill to pass because critical race theory makes use of the false Marxist analysis of class struggle, which divides society racially into two categories of oppressors and oppressed and pits them against each other, in constant strife. It creates and encourages the conditions for conflict, unrest and bitterness, and allows for no peaceful racial coexistence.

Critical Race Theory holds that race is the sole prism through which history, economics, sociology, science and all aspects of life must be seen. Its promoters allow for no other explanation on how society works and always frame the debate to favor their class-struggle narrative.

While race may be a prism to see reality, it can never be *the* prism. Other modern theories have tragically made similar erroneous claims. For Marxism, it was an economic prism. For Freud, sexuality was the prism. No single natural discipline can claim a monopolizing perspective.

Critical race theory also proposes revolution, not reform. Like all revolutionary theories, critical race theory does not desire to see the reform or improvement of present society but wants to overthrow it. Its advocates falsely point out that all current governing and cultural structures are tainted with racism. The problems are "systemic," they claim, meaning they are based on the very structure of society's institutions. Because racism is supposedly systemic, the present institutions cannot be redeemed or modified; they can only be destroyed. Therefore, allowing training of this theory is very dangerous and damaging to the state of New Hampshire and to the United States as a whole.

Thank you.

Sincerely,

Laurie Peterson

To Whom It May Concern,

I wanted to express my support for Bill HB544. Placing a ban on publicly funded CRT trainings is not incongruous with non-discrimination protections, it is a continuation of them. Teaching people, including children, of a certain color that they must examine and grapple with the historical wrongdoings or their ancestors or those who shared their skin color is unethical and harmful. Telling people of minority groups that their success depends on white people doing "the work" to dismantle their "privilege" is disempowering and wrongheaded.

There are ways to enhance cultural competency and increase tolerance that are much healthier, for both individuals and society. I am encouraged by the introduction of this bill and would be relieved if New Hampshire were the first state to pass a law of this kind. As an educator in Massachusetts, I think the amalgamation of CRT and the education system in particular must be deterred, and quickly.

Thank you for your consideration,
Gaby Eisenberg

Subject: Support for SB43
Importance: Normal

Dear Election Committee Members:

I write in support of SB43 as amended.

The Town of Windham has requested legislation in order to enable the AG's office to perform a thorough investigation of the voter irregularities in this past election.

Although I live in Nashua, I attended the Windham meeting earlier this week. It was clear to me that the town population along with its leadership and its election moderators, as well as State Representatives and State Senator all are in support of a transparent investigation.

This legislation apparently is required because the AG believes they don't have authority.

Please give the AG the authority they need.

Please give the town all they request.

This issue comes at a time when voter confidence in the electoral process has been subjected to doubt with possible election fraud at the national and now, possibly the local level.

Hearing the statistics cited at the most recent meeting in Windham, I was shocked to learn that Senator Shaheen needed 90% of the votes on a particular machine to win her race.

The statistical anomalies need to be investigated. ALL of them; at the state and federal level!

Personally, I don't understand how republican candidates can win a majority in the House and State Senate, Executive Council and Governor's office, yet somehow lose the presidential slate and lose all federal positions on the ballot.

The entire nation is watching what you will be doing on this legislative matter. If New Hampshire does not demonstrate clear and determined resolve to investigate this matter completely and wherever it goes, I could easily foresee New Hampshire's "first in the nation" primary slipping away as we would have no credibility in the matter.

Thank you for your service. It's time to demonstrate leadership and ensure our electoral system is without reproach.

Most sincerely,

Howard Coffman

Subject: Election Integrity
Importance: Normal

To ALL Concerned or Indifferent,
Election Integrity has become a gigantic issue more now than ever. I suspect the lack of integrity has been happening for quite some time however we now have valid suspicions that something horrible happened. We the People have a right to know why the Nov 2020 GE vote tallies changed so drastically after the count was done over. Windham, NH deserves answers from a thorough forensic audit. NO public servant being paid by the taxes of We the People has any right to hinder the process in any way. Integrity - doing the right thing even when no one is looking. Period. Integrity is essential in all parts of our lives but even more so in our sacred elections. Keeping our "First in the Nation" for Presidential primaries status is an honor we should not take lightly. Stand up for your Constituents not against them!
To remove doubt, not one race should be ignored...count them ALL.
It is known worldwide that these machines have proven to be a problem. Not one more election should they be used in, NOT ONE.
For my reasons above, I support Bill SB43.
The People of NH have every right to ask, know the facts and need trust in the election process as it has been severely damaged.
The truth sets us free,
Sincerely and seriously,
Linda Wentworth
Rochester, NH

Dear Sirs:

Windham is now National news! A disgrace that will remain if you don't fix this voter fraud and the compromised machines. You have a chance to set the example for the rest of the country. Do you want it to be that the biggest cheater wins in all elections in Windham? I have been very suspicious of the last few elections being stolen in NH. Very unlikely candidates have been winning. And how did it happen that Trump "lost" in NH while all state elections went for Republicans. So there IS cheating going on. 300 votes being added to all Democratic candidates is mathematically impossible.

So will you be honest or compromised? There is no middle ground!

Sincerely

Mary Kirk Snell

A concerned New Hampshire voter

Subject: Windham election audit
Importance: Normal

NH State House Election Law Committee:

As a NH voter, I'm very concerned about recently revealed discrepancies between hand counts and corresponding machine counts of ballots in Windham. I believe it is vitally important that we:

- Hold the audit in Windham
- Ensure 100% of the ballots are run through ALL of the voting machines
- Ensure the Windham Selectmen have input into defining the audit process
- Count the votes for all races on the ballot

If we can't trust our elections, we can't trust our government, and our republic is in great peril.

Thank You

It needs to be investigated plain and simple. If you don't investigate it, I will follow the lead of the crooks and I will ballot harvest to get you non supporters out of office. We're all tired of this crap and it's been going on for too long. It's really not that hard to investigate it as I'm sure there's plenty of people out there that know what they're doing and will gladly do it for free to get to the bottom of it.

Dear NH House Election Committee:

After watching the election results in all the battleground states have so many allegations of fraud, I think after hearing about the Windham scandal we need a thorough investigation. It essential that integrity be restored to retain our First in the nation Presidential Primary. This investigation needs to expose the reason why the vote count was off by so much after recount . A complete transparent audit should be demanded by the Committee . Each race on the ballot should be counted. It is imperative that Windham's desire to perform a forensic audit on the voting machines and the ballots be carried out.

Sincerely & Respectfully

Russ Payne

Ladies and Gentlemen,

Please register me as in favor of SB43 as amended. As citizens we need to know that our election process is accurate and those responsible for running them are accountable. The process for making sure the 1 person 1 vote mandate authorized by our Constitution is upheld must be above reproach. To that end please vote to conduct a full forensic audit to be done on machines and ballots involved in the Windham Nov 3rd election. All ballots must be run thru all machines by an uninterested 3rd party of Windhams choosing. Please see that they get this opportunity to see what went wrong in their election. Fix it, then bring any responsible parties to justice. (if found)

Thanx so much,
Ed Miller
NH resident

Importance: Normal

Dear House Committee Members.

I wish to express my sincere appreciation for your hard work, dedication and service to the citizens of NewHampshire by working to reinforce voter confidence.

I did a quick "amateur " look at wards in random cities . I found a vote % difference consistently throughout 15 wards of 4 cities between 2.07% and 3.78 % votes preferred to Biden. Is this not questionable as the statewide average is 1.16% ? Also, the county wide averages of the cities wards I examined was between 1.04% and 1.67%.

Conversely in 8 wards I looked at in 2 other cities the average ratio was between 1.48% and 1.97% . This "appears " more consistent with both the county and again the state average of 1.16%..This appears unusual to me and I believe this should be examined by professionals to determine if this is statistically comparable to the population or an anomaly due to Dominion machines used in N.H.

I would gladly make myself available to answer questions or share my information. I used the spreadsheets available from our State General Elections reports for the general election.

Again,thank you for your hard work and service .

Sincerely,

Lawrence (Larry) Beaudoin

Importance: Normal

I am writing in support of SB43.

It is very disappointing to find out that Assistant AG Edwards and Election Law Chief Chong Yen stated they were not going to investigate the machines or the total ballot count.

It is very clear that there are "irregularities" with the voting in Windham.

Why would you not want to ensure election integrity?

- Hold the audit in Windham
- Ensure 100% of the ballots are run through ALL of the voting machines
- Ensure the Windham Selectmen have input into defining the audit process
- Count the votes for all races on the ballot
- Perform a forensic audit on the voting machines and ballots

These should not be issues that we have to fight for, our officials should automatically be doing this for the residents.

Thank you for your time.

April L Plourde
Nashua NH

TWIMC,

Election integrity is a must if we are all to believe in our political systems. To that end, a thorough, transparent, root cause analysis of the miscount in Windham has to be performed. The fact that our attorney general did not want to do this initially, gives me cars for great worry. I would highly recommend that it be done in Windham under the guidance of the selectmen of the town of Windham. They proved their ability to conduct an oversight audit with the hand recount and it was done in a professional and transparent method that both sides completely believe and stand behind. This root cause audit to confirm exactly how the machines miscounted should be done under their direction. Thanks – Mike

Subject: Audit of the Windham, NH results from the November 2020 election
Importance: Normal

Good afternoon,

It is shameful that some government officials need to be persuaded to protect the integrity of one of America's most sacred institutions - the election process.

We the people deserve and demand that any indication of impropriety be investigated and, if irregularities are discovered, that immediate steps be taken to ensure that it does not happen again.

The Constitution of the United States puts this responsibility squarely on the State Legislatures. Assistant AG Edwards and Election Law Chief Yen do not have the constitutional authority to decide whether an audit will be conducted. Any law that grants them this authority is in direct contradiction to the Constitution and it is incumbent on the State Legislature to change that law. You all have taken oaths to uphold the Constitution. Please fulfill those oaths by compelling the proper people to audit the machines used to count ballots in the Windham, NH election in November 2020. The Windham Town Selectmen should be part of any audit process of their machines.

Take back your authority by supporting Senate Bill SB43.

Respectfully,

Philip R. Spitalere

Subject: SB43 written testimony

Importance: Normal

Good day,

Please consider and confirm receipt of my written testimony below for the SB43 hearing.

It is an embarrassment to our great State of New Hampshire that counting votes could be off by a matter of hundreds of votes, and a greater embarrassment that after months, there has been minimal investigation, many excuses, and the public still does not know how this was able to happen.

Election integrity has obviously become controversial nationwide recently. I have always been proud of New Hampshire's attention to detail on this issue, but this situation raises doubts. This is not a partisan issue, I would hope everyone would want votes to be counted correctly and that this would be a top priority.

The only solution to restore faith in our electoral process is a full, transparent audit and a full investigation to determine what went very wrong. I support this bill as a start towards this goal.

best,

Franz Honer

Subject: Windham Incident
Importance: Normal

Windham should perform a thorough and complete audit on their voting machines. It should be done in Windham under the supervision of the Windham Board of Selectman with transparency for the citizens. We demand the right to see that legal votes and only legal votes count.

Windham wants to perform a forensic audit on the voting machines and the ballots to discover exactly what happened. To accomplish this task all races on the ballot must be audited. In addition all ballots cast must be counted.

We, the citizens, need to know why there was such a large discrepancy between the election day total and the one discovered in the recount. If those races were off, what other races are also compromised? What exactly went wrong with the vote and does it appear in other areas of New Hampshire?

I ask that you demand that there is a thorough and complete forensic audit done by the Windham Board of Selectman in a transparent manner so all citizens of New Hampshire can be assured that our legal votes count as cast.

Respectfully,

Kathy Carter

My name is Elizabeth Bridge and I am a resident of Amherst, NH and I'm asking for your help. I am very concerned about the vote irregularities that are coming to light from the November 2020 General Election in Windham. I want to know for sure that my vote counts.

"But you don't live in Windham" you say. That is correct. But since 85% of the cities and towns in NH use the same type of voting machines as are used in Windham, I want to understand what caused these vote irregularities and whether or not they also could have happened in other NH cities and towns.

On Election Day 2020 the machine counts in Windham reported that a democrat candidate had lost their race for NH State Representative by just 24 votes. This candidate rightfully requested a hand recount which took place in Concord. That hand recount reported a losing margin of 420 votes. This increase, from 24 to 420 votes, is the largest unexplained discrepancy in the history of NH.

This same hand recount also showed that each of the four republican candidates for the NH House were shorted by approximately 300 votes each in the machine count versus the hand recount. What happened to cause this?

I respectfully ask that you:

- Hold the audit in Windham
- Ensure 100% of the ballots are run through ALL of the voting machines
- Ensure the Windham Selectmen have input into defining the audit process
- Count the votes for all races on the ballot

So I ask you to please take action to immediately undertake an open, thorough, and absolutely transparent investigation that will answer the question, "Does my vote count here in NH?"

All of the voters in NH deserve an answer.

Respectfully,

Elizabeth A. Bridge

Thank you for contacting me. The bill is coming before the House Election Law committee on Friday at 10:30. I think that the version that was passed in the Senate needs to be improved to include additional audit requirements. There were no public hearings held on the Senate Bill, and it is important that we have public and legislative input into the language and scope of the bill. You can sign up to testify on the bill or watch the hearing. To sign up to support the bill and to testify, you need to register at this link:

<http://gencourt.state.nh.us/house/committees/remotetestimony/default.aspx>

I can assure you that the members of the Election Law Committee are taking the situation in Windham very seriously. Like you, I want a thorough investigation so that we can restore faith in our election system. None of the other 15 recounts in NH showed any signs of concern, so I am hopeful that the problem is limited to Windham.

Again, thank your for your concern and for reaching out to the Committee.

Regards,
Representative Connie Lane
Merrimack District 12

Importance: Normal

Good Morning,

Senate Bill SB43 is beyond important. We must know why the November General Election Day vote totals in Windham were off by so much after a recount. Windham should not be prevented from performing a thorough complete and transparent audit on their voting machines. Election integrity is essential to retain the First in the Nation status for the Presidential Primaries. All races on the ballot must be counted. The town of Windham want to perform a forensic audit on the voting machines and ballots.

I am asking for and support the amendments:

- *Hold the audit in Windham
- *Ensure 100% of the ballots are run through ALL single voting machine used in the November GE
- *Ensure the Windham Selectmen have input into defining the audit process
- *Count the votes for ALL RACES ON THE BALLOT

Thank you for your time.

Sincerely,
Lisa Barr

Committee Members,

Re the Windham audit; the people of NH need that evaluation performed in Windham publicly, by impartial auditors with both D And R observers. A publicly observed chain of custody needs to be part of the process. All ballots need to be put through the 4 machines to see if there are any deviations in the results.

As the body closest to voters, you have the power to clean up elections in this state by ensuring integrity from now forward. Please defend our state and Federal Constitutions by upholding your oaths of office.

Subject: Election Investigation Needed
Importance: Normal

Dear Committee members,

It is very distressing to learn of the huge discrepancy of the votes in this last election in the Windham state representative races. This is incredible that we do a worse job of our elections than a third world country. Our votes are sacred and now none of us in NH can have any confidence that our votes are really being counted in any election here in NH. I became a proud citizen of this country in the late 70's and I haven't missed a single election since then and I always made sure to remind my children over and over on the day of the election to go out to vote. But it seems that at the top level of our government, Governor Sununu, the AG and the Secretary of State couldn't care less about election integrity. Governor Sununu in his quest to be politically correct and to be loved by the media and the swamp couldn't wait to certify the votes here in NH. And now that he is looking the other way when it is obvious that something is very wrong with the Windham elections. If most of NH towns are using the same election machines, there is good chance that Windham is the only place that this happened.

We need the legislature to take charge and insist on a full scale investigation and forensic analysis of last November election in every town in NH. It breaks my heart to think that my votes could get stolen. it is your highest duty to protect our right to vote. Do not let Governor Sununu bully you and sweep this under the rug.

Looking forward to seeing some action in Concord so that we can have confidence moving forward that our votes count.

Regards,
Enid Mackenzie

Subject: NH Bill SB43
Importance: Normal

Dear Sirs,

It is in the best interest of our state to do a forensic audit on the voting machines and ballots in Windham.

My reasons: it is the largest discrepancy seen in NH; there are enough people concerned about it to warrant this audit; it will allay any fears for upcoming elections if the problem is resolved.

If the machines are seen to be faulty (ie: weighting votes, etc.), then we have an issue that concerns 85% of our voting places and would need to be addressed. If it ends up being a procedural problem, then we have an opportunity to fix that. Either way, the people of Windham will have an answer.

Our vote is the most important leverage the people have against corruption in government. It is one of our most important freedoms. It is a high concern this year due to the fraud carried out in some of the swing states in the U.S. New Hampshire State Office holders and Legislature need to show that we are an open and honest state and that we listen to our citizens.

I congratulate you on doing so. It follows with the good work you have been doing so far this year.

I am in support of hb43 and here is why:

Why were the vote totals in Windham off by so much after a hand recount, by hundreds of votes! Windham should be able to perform their own audit with local officials at a local level with public access.

The machines need a forensic, total, audit of accuracy, not just a small sample, a total recount.

How do we know these machines are accurate in other NH towns?

Why were the machines adding to the count of a Democrat and subtracting from the count of Republicans?

Sincerely,
Spiro Davis

Does My Vote Count Here in NH?

March 3, 2021

My name is Andrew Bridge and I am a resident of Amherst, NH and I'm asking for your help. I am very concerned about the vote irregularities that are coming to light from the November 2020 General Election in Windham. I want to know for sure that my vote counts.

"But you don't live in Windham" you say. That is correct. But since 85% of the cities and towns in NH use the same type of voting machines as are used in Windham, I want to understand what caused these vote irregularities and whether or not they also could have happened in other NH cities and towns.

On Election Day 2020 the machine counts in Windham reported that a democrat candidate had lost their race for NH State Representative by just 24 votes. This candidate rightfully requested a hand recount which took place in Concord. That hand recount reported a losing margin of 420 votes. This increase, from 24 to 420 votes, is the largest unexplained discrepancy in the history of NH.

This same hand recount also showed that each of the four republican candidates for the NH House were shorted by approximately 300 votes each in the machine count versus the hand recount. What happened to cause this?

I respectfully ask that you take action to:

- Hold the audit in Windham
- Ensure 100% of the ballots are run through ALL of the voting machines
- Ensure the Windham Selectmen have input into defining the audit process
- Count the votes for all races on the ballot

So I ask you to please take action to immediately undertake an open, thorough, and absolutely transparent investigation that will answer the question, "Does my vote count here in NH?"

All of the voters in NH deserve an answer.

Respectfully,

Andrew G. Bridge

Importance: Normal

Dear NH House Election Law Committee;

For the integrity of our state, we need to understand why vote totals were so skewed in Windham after their recount. An audit on their voting machines just might reveal why these votes were off by so much. Do we want to be able to present ourselves to the rest of our nation that NH has elections that are accurate? Do we want to show that our elections can be trusted? Do we want to retain our First in the Nation Primaries? Do we want to lose the revenue that our First in the Nation Primaries brings to our state?

Please support the performing of a forensic audit on the voting machines and ballots in Windham so NH Residents can know why this discrepancy happened. Please support SB43.

Thank You!

Subject: SB 43 - Suggested Windham Recount Amendment
Importance: Normal

Dear Folks on the Election Law Committee,
After hearing from some local people very supportive of investigating the Windham election disaster, I have my own request for amending SB43. My training as a certified quality engineer and process development engineer says we need to follow the standard practice of getting as much applicable data as possible.

[1] All the paper ballots should be counted. We don't even know the ballot count. That number needs to match the checklist counts of the number of ballots given to voters.

[2] **All** of the races should be recounted by **each** of the machines used in the election and compared. Just looking at the four races in question severely limits the data to be collected for analysis of whatever went wrong.

[3] All of the races should be recounted by hand to compare to the machine counts. If the machine counted 4 races incorrectly, likely it also miscounted other races, so there needs to be a hand count of all races to compare to the machine count.

As stated, this is no longer a recount to determine who won. That is settled. This needs to be a full-fledged analysis of what failed in the voting in Windham. It affects every single town in New Hampshire that uses these ballot-scanning machines, reputed to be 85% of our towns, certainly of my town, Salem.

Personally, I do not think anyone in the Secretary of State's Office or in the Windham Election staff did anything wrong. It is possible that a disgruntled person in the programming contractors did something, but it can simply be a computer failure, which we experience daily.

No matter what the cause, this is a serious issue and doing a complete job of investigation needs to be done. We need to verify the accuracy of the other vote counts. And we need to conduct the machine recounts following the same careful methods that are time honored in hand recounts as supervised by the Secretary of State.

Appreciatively,

Rep. Betty Gay, HHSE&A,
Formerly of the Election Law Committee

Dick Morris makes many good points that I hope you will consider in your deliberations. These should not be taken as partisan suggestions.

The video is well worth watching. 21 minutes. Discusses ensuring accurate and up-to-date voter lists, observer rules that comport with due process, the arequirement of electronic signature verifications for absentee and mail-in voters and requiring all votes to be counted on Election Day. All of these can and should be done by our state.

Thank you.
Terry Cox
Webster

Subject: Fairness and balance is what is needed to heal this state and nation
Importance: Normal

Dear House Committee Members,

The only pathway forward that will restore fairness to the electoral process in the Granite State is the establishment of an independent redistricting commission. The New Hampshire General Court, is obligated to redraw the maps of political districts within the state following the federal census, and ensure fair and effective representation of New Hampshire voters without gerrymandering. We urge house members to carry out the redistricting in a fair and transparent way through public meetings, not to favor a particular political party, to include communities of interest, and to minimize multi-seat districts.

According to The Brennan Center for Justice, a nonpartisan law and policy institute recommends that “A redistricting process that is sufficiently accountable to voters must be open, transparent, allow public engagement and time for the public to provide feedback for the proposed redistricting plan. An open and transparent redistricting process can help ensure that public servants are elected who actually serve citizens. Sunlight will inspire confidence in a redistricting process and outcome recognized as fair.”

Please act for fairness and transparency. The voters of New Hampshire expect no less.

Response requested: Yes
Importance: Normal

Hello,

I writing to you again today in regards to the Hava 2002 Act. It's my understanding that NH doesn't have federal testing or certification requirements. Instead we have state specific process to test and approve equipment. Would you provide this information to me via email. Additionally, I have reached out to the secretary of state and found that one company Clear Ballot did test the equipment but it appears it was done AFTER the election and that report still is not available as of yesterday. I would appreciate a response back from your committee as soon as possible.

Thank you,

Good Afternoon House Election Law Committee Members,

I am writing to you all today in regards to the HAVA Act 2002. This act called for the formation of the Election Assistance Commission (EAC). The EAC was in charge of creating voting system guidelines and operating the federal government's first voting system certification amongst other things. I am wondering who certifies our election hardware systems?

I have reached out to William Gardner, Secretary of State, in regards to a copy of a report required by RSA 656:45 Testing of equipment to conduct post-election audit of electronic ballot counting devices. If any of you have a copy or could lead me in the correct direction of this report I would truly appreciate your assistance. If you have any further questions please feel free to contact me directly.

Thank you,

Sherry Beaudoin

There has been much concern about election integrity with regard to the election equipment used in our federal elections. If your state is willing to audit the equipment and provide a full forensic audit of the election it will help either foster confidence in the election system or highlight areas for improvement.

Failure to address these concerns is creating divide in our country - please help our nation heal by supporting SB43 as amended with the Gardner Amendment.

Thank you very much-

Best,

Mary Georgis

PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Please serve the voters of New Hampshire and at the same time serve the entire United States. Only by doing an honest forensic audit, will questions about election fraud in the November 2020 election be resolved.

If there was no fraud, what is there to hide? If there was election fraud, the fraud needs to be exposed, confirmed, and prosecuted to the full extent of the law. Any election fraud is unacceptable. Free and honest elections with one legal voter who gets one vote is vital to preserving our freedom and liberties. Only the guilty are afraid of the truth.

Importance: Normal

To whom it may concern,

My name is Andrew Gibbs. I`m a Police Officer and Army Reservist. I have been paying close attention to the back and forth battle of a possible forensic audit of the Dominion Voting machines. This audit has got to happen for future faith in our elections! People are done just letting things slide. I have personally seen many people get involved in politics that have never been involved before and they will not just throw their hands up and not pay attention any more. You owe it to your constituents to perform these audit. And if everything is on the "up and up," there is nothing to worry about. This will also give confidence back to the voters who are now very mistrustful of the system the politicians represent. Do the right thing!

Greetings,

I'm not writing to you today asking you to tip the scale to the left or the right. This is America, is it so much to ask for people such as yourself, in positions of leadership, to take a real forensic look at the votes and voting systems? Please perform a real forensic audit and have those performing it be professional and unbiased. It's data, which doesn't know left or right. The honest to God truth is all anyone is asking for. Thank you very much for reading.

Brad

Greetings.

I'm a retired general surgeon from Texas.

The most striking thing about the questions involving the 2020 elections is that no one will willingly submit the ballots, the machines and accompanying software interactions to a forensic examination. Why not?

I implore you to simply allow the forensic evaluation of the election process that occurred.

Have courage and seek the truth whatever that may be.

Hello ,

My name is Alex Dressler and I along with millions of Americans are shocked at the complete smack in the face of election laws and full breakdown of our election systems.

I urge you and fellow members to **IMMEDIATELY** act on- **SB43** passed as amended with the "**Gardner Amendment**".

You must do it RIGHT NOW!!!

We need to get to the bottom of all these fraud ballots and irregularities and need a true forensic audit of all ballots and machine and transparency of the results.

Stand with Americans and demand truth!

Save our republic from those who want to turn our elections into third world "pay for winner" dictatorship style of elections that they are ushering in.

Thank you ,
- Alex Dressler

Our entire system is at stake. No matter your political beliefs, we must all do the right thing when it comes to freedom of speech...our right to vote. It is our voice. So many of us have seen the impossible spikes in Biden votes. We've seen the video evidence of ballots rerun numerous times. We know. You were not involved in the fraud...so, let the cards fall as they may. Please also allow for the Jovan Pulitzer electronic scanning and validation method.

Truly think about our Founding Fathers' sacrifices for freedom and think about the protection of our God given rights by the Constitution.

Bill Graves

It is modest I've that the rule of law be respected, and transparency and integrity be modeled for other morally compromised public officials nationwide. Do the right thing and pass SB43 as amended by the Gardner amendment, i think it is. Do it without hesitation and without delay. Get that full forensic audit underway. It sure looks like something crooked is going on. You're going to want to clear that right up. America watches!

Do the right thing. It means a lot to all of us.

Election Law Committee Members of the Great State of New Hampshire:

The 2020 election was one for the books - but not in a good way. Never in my lifetime have I ever witnessed such a breach of election integrity and laws. The suspicious abnormalities, obvious fraudulent actions, electronic voting machine manipulations and lack of adherence to state election laws that occurred throughout the country has led to a nationwide lack of trust in the 2020 election results and processes. Every fraudulent act in an election is a serious offense against the law abiding citizens of the United States. That said, we all have an interest in the outcome of SB43 as amended with the Gardner Amendment. Please support this legislation for the good of the citizens of New Hampshire as well as for the honor and integrity of the American election system. The American people will stand for nothing less than free and fair elections. We, the people, are awake and we are watching you! Do the right thing.

Sincerely,

Beth A. Leonard

Subject: Election Audit
Importance: Normal

Please support SB43 as amended with the Gardner Amendment. Audits will provide answers to troubling questions surrounding the discrepancy between the November 3, 2020 election day totals and a recount nine days later.

You hold the key to restoring truth and confidence in US elections; ensuring honest results; investigating without fear of where inquiry may lead; and proving to American constituents that the integrity of elected officials overrides their politics.

Thank you and God bless America.

Ret Maj (Army) Rommel and Judy Dacanay, Pittsburgh, PA

"PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT"

We need to ensure that our election process is working correctly and accurately. We cannot overlook errors as seen in NH Wyndham county; we demand a complete forensic evaluation to determine exactly what happened and why with the voting systems in this county.

Thank you

Jonathan Lowry. US citizen

Hello New Hampshire,

Faith in our election systems has crashed nationwide, and much of that decrease in confidence is due to the disclosure that voting machines (particularly Dominion and ES&S and systems using Smartmatic) have been designed to, and have been used to, facilitate fraud (see the Antrim County Forensic Audit Report). Our Country is on life support, literally, as our core institutions crumble.

Please allow real forensic audits of these machines with people the caliber of the folks who did the Antrim Country Audit.

Thanks,

Ken Vande Vrede, MBA, CPA, FSA
Glen Allen, VA

Good evening, I am writing you as a concerned citizen. I am concerned with the way elections where held all over the country. I am concerned that certain people are doing everything they can not to have a legit investigation into the election irregularities. Please support SB43 as amended with the Gardner amendment to give the people a fair look at the election. Thank you for listening.

As a New Hampshire resident, I find it my duty to demand that the New Hampshire election committee do their due diligence in representing myself and every other New Hampshire resident in the fight for Democracy through honest and fair voting practices. We need to protect this great state and country against the apparent threat we are facing. I demand you and plead for the future of all of children and grandchildren to stand in the gap, vehemently refuse anything less than an immediate audit of the Windam voter machine.

Dawn Katsoulis.

To All Members of the House Election Law Committee:

Once again I would like to thank all of you for your consideration of my desire to see SB43 passed with the “Gardner Amendment” included.

I first contacted all of you asking a simple question, “Does My Vote Count Here in NH?”

Without a full and complete audit, including the forensic analysis as provided for by the “Gardner Amendment”, I fear that my question will not be able to be answered in the affirmative.

Please vote to Pass SB43 with the “Gardner Amendment”.

Thank you.

Respectfully Yours,

Andrew Bridge

Please, we are begging you to pass this amendment and perform a forensic audit on your voting machines. What you do in New Hampshire reflects on this entire nation.

If there is nothing hide, this shouldn't be a concern to some that are fighting against it.

If I ran a company and several people contacted me and said there was an issue with my product I would immediately undergo an investigation and figure out if what they are saying is correct or not. There is no difference here.

If local and state officials are not being transparent and heeding the will of the people, then they are not doing their jobs. We, the people, elect individuals that we believe in our hearts have our best interest in mind when making decisions. Please prove us right.

I'm praying for you all,
A concerned citizen

Hello-

PLEASE GET OFF OF THIS COMMITTEE IF YOU DO NOT SUPPORT MAKING SURE THE ELECTION RESULTS OF ANY NH ELECTION ARE FAIR AND ACCURATE. You have ONE job on this committee, and if you refuse or are unable to do it, QUIT.

These past election results have raised serious questions, and you should be actively trying to find out what happened and preventing it from happening again.

DO YOUR JOBS.

Pam Guischard

Dear Good and Righteous Members of the NH House Election Law Committee,

For the future of our country, I request that you pass SB43 as amended with the Gardner Amendment. The American people want to see and know the truth of the 2020 election. We deserve to know the truth. We need to put the 2020 election to rest and the only way this is going to happen is if we know the truth. Please be on the side of openness, transparency and righteousness. Please allow the forensic audit to be conducted so both the winners and losers of the election can trust and accept the results of the election. We need to move on and the only way this will happen is if all Americans feel they can trust the outcomes of our elections.

Sincerely,
Ken Michael

Good morning,

Let me begin by thanking each of you for your service to our Republic, especially during these trying times. That being said, the 2020 election is in fact contested and the behaviors/events/actions that were witnessed in numerous states is highly suspect and the lack of investigation has all but destroyed the integrity in our elections. Now is New Hampshire's chance to pull back the curtain and reveal what happened with the ballots and voting machines, if there is fraud, the American people deserve to know. You all represent the Live Free or Die state and American patriots are counting on you to do what's right. Please move forward and complete a forensic audit of the 2020 elections.

Respectfully,
Gary A. Fuller

Hello,

The only way to restore faith in United States elections is by allowing an ACTUAL full scale election audit using the Jovan Pulitzer method. If there is nothing wrong with the election as it was conducted there shouldn't be any issue with an audit. I am using straight forward simple logic. I know you will do the right thing here. Thank you for that.

Hi:

I am not a New Hampshire resident but I feel I must weigh in. Ronald Reagan said "trust but verify". I feel it is essential that these election controversies be put to bed, I don't know a single person who trusts the election results. If it turns out that the election was honest, great. If not, it's best to identify the problems so that they can be remedied before the next election. The audit must be done.

PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT.

It is imperative to do this audit so that voters will have the confidence needed in our elections. I believe with the close elections we now are having that small differences win elections and machines are not perfect, human error happens. If the machines are good then lets find out. Why is this so difficult for those against audits? Do the audit so we can stop arguing about this and move on.

Please support this amendment. It is critical to our republic that we run elections with full integrity & accuracy - and if something appears to have gone wrong - we must understand what happened so It an be fixed for future elections.

Without confidence in our elections, our society will devolve quickly into a 3rd world country with political power being controlled by the most corrupt or violent people.

Thank you for your work to this point and I again urge you to vote for this full forensic audit.

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT!

Importance: Normal

Please support the ever important Gardner amendment and protect the integrity of our election system. Without it, we will dissolve into one party rule, one step closer to socialism/communism.

Dianne

House Election Law Committee: "PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT"

It is very important to get to the bottom of the past election discrepancies. Many Election Committee's have simply ignored all the evidence of counting errors and potential fraud. Where it has been looked into it has been found.

Help restore the faith of the voting public in our election process.

Thank You,

David Pflumm

Subject: SB43 A time for a great American State to stand for voting integrity

Importance: Normal

Dear House Election Committee,

I am writing to request your support for SB43. Our country is divide and can not be united without honest open transparency of our election. This bill would afford the state and indeed the entire country an opportunity to settle the on going controversy that has engulfed our nation, we can not have another election without making sure the last one was conducted appropriately.

So, I humble request that you set aside politics and fear and stand for election transparency by fully auditing the state election machine. We are not a perfect country, but we have always had people who strived for a more perfect union and now history and the fate of our future union rests in your hands. Be BRAVE, stand up and live what your motto has proclaimed for 75 years, "Live Free or Die".

Thank you,

Mark Brown

Hello my name is Steven Hartman. I am from Virginia and have kept up with efforts on election integrity. To me it seems as though our judicial system has failed the American people from the bottom to the top with refusing to look into fraud.

I plead with you as an American to please PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT! If there is no foul play then we can move on with confidence, if there is foul play found it can be addressed and again we can move on. Ignoring a problem has never solved a problem!

Again please stand for integrity and truth for America and the rest of the world.

Thank you
Steven Hartman

Please do a forensic audit on machines and ballots for the sake of the country. 70% of the country does not feel the 2020 election was fair. Plus there is mountains of evidence it was not. Only .03% of ballots were spoiled or tossed out, and over a 60% adjudication process. That's unbelievable!

Thank you

Scott

Good morning,

My name is Dave Thorson, and I'm a Florida resident. I am writing you today, with much respect, to please support SB43. The United States election system must remain free of fraud and abuse. This is not a left or right issue, it is an issue for ALL voters to be assured that when they walk into a voting precinct, their vote will be counted fairly and accurately.

Thank you so much for your time.

Dave Thorson
Florida Resident.

Sir/Ma'am

Just a quick note to let the committee know that I am in full support of SB43. Please consider what is at stake here and join the American people in supporting SB43 as well! Thank you for your dedication!

Sincerely,
Rich Bailey

Good Morning!

I wanted to write to encourage you to support SB43 with the Gardener Amendment. I realize that there probably is a considerable amount of pressure on you to let this issue go, to bend to the will of your party. A lot of pressure to just turn a blind eye. But....think of what taking a different tack could mean. If the population of your community, your state and, frankly, the entire country sees you take a stand, sees you fight for integrity, and honesty, and adherence to the law in your elections you would be awed by an overwhelming amount of support and love.

I implore you to approve **SB43** as amended with the Gardener Amendment.

Thank you for your time and for tolerating my run on sentences 🙏♀️!

All the very best,
Lisa Brown

Dear Representatives,

I ask you to support SB43 as amended with the Gardner amendment. As a NH resident for 40+ years, I have always felt proud of our state. But this past election has shaken my confidence both in the NH and federal governments. Getting to the bottom of what happened here last November will do much to restore my faith.

Thank you for listening,
Michael Fallet

Hello,

As a concerned US citizen, I am asking you to have the courage that very few in government seem to have. If this audit is performed and finds the results were as shown originally to the public, it would help to rebuilt faith in the voting process. However, voting against this audit seemingly builds on the current distrust in our voting system. If everything is correct and honest, there should be no issue in double checking. Your children's future, as well as America's future could depend solely on your shoulders. Please do what is right.

Thank You

To whomever it may concern,

Election integrity starts with the 2020 election, not some election farther down the road. Everyone knows tactics were employed in numerous segments of our country to alter the outcome of the 2020 election because voting President Trump out of office could not be done fairly. There are witnesses with sworn affidavits, video tapes, statistical impossibilities, the list goes on demonstrating beyond doubt the fraud that was perpetrated, that the loser of the election is currently installed in the White House.. But, there are those in high enough and powerful enough places who will do whatever they can, like they did whatever they could to throw the election, to block attempts to investigate and make public the truth that the election was hijacked.

This cannot stand! If you have at your disposal the ability to investigate election fraud in your district(s), I beg you to do so. It isn't a matter of what happened in your district and that it stays in your district. Your district's election outcome impacts everyone if what was done there was not on the level. If there's nothing done wrong, let that be found out. If it was done wrong, you have an obligation to right that or no where down the road can an election be trusted.

Thank you,

Mike Perry

Hello,

I am from Ohio but the results of the 2020 presidential election (and othets) directly effect me and my family!

If you proceed with the proper audits then I believe you may find that there was fraud in the election process.

This determination would bring to light ALL of the other issues across the country related to this election and past elections. It could be a major breaking point that at least a majority of the country would praise you for as it would stop this tyranny and future as well!

Please do this for ALL OF US!!

Sincerely,

Patrick Laffey

Please support this. All the American people want is a full honest and transparent audit. An audit will provide answers to whether the election was legitimate or not. It would appear the latter since no state government or federal agency has actually audited the questionable election. No legitimate election should have so many questionable unchecked anomalies. Please have the courage to stand up and speak for the American people, this is larger than just NH.

Dear House committee,

I encourage you to have a full forensic audit of the 2020 election. Election integrity cannot but brushed aside because of political ideology. That's tyranny.

I STRONGLY encourage you to vote for a full forensic audit!

Thank you.

Paul

It is absolutely imperative that this bill pass today without hesitation. The residents of New Hampshire deserve to know that our elections are free and fair and quite honestly, nobody right now believes that. No One. Please uphold your oath to our State and Federal Constitution. It is your duty to do so. Anything else will be viewed as treason and all involved will be considered complicit in the largest voter fraud scandal ever perpetrated on the American public in history. Doubt that's the legacy anyone wants to leave behind for decades to come.

Please do the right thing,
Nicole McCarter

Dear Sir/Madam,

I have just learned that a vote is scheduled (SB43) that will apparently give authorization for a full audit of the ballot counting machines used in the 2020 Election. If this is the case then transparency is far better than translucency to ensure we keep our Republic and I urge that you vote for this bill.

Thank you

Colin Jenkins.

Our federal government has taken the liberty of ignoring a large majority voters who believe there are major irregularities in the 2020 election. Our supreme court won't hear it, politicians stand on TV and say "there is no election fraud", and we are sick of it. Please, I implore you to do the right thing for America, for election confidence, and for you own conscience (if there are any left in politicians).

Dear Committee Members,

As a concerned New Hampshire citizen, I ask you to please address the voting integrity of this state. Thousands of NH citizens are suspicious of our election process. The honorable response is to prove through auditing that the 2020 election was fully evaluated. This is being watched nationally and we should show the country that NH does things correctly.

Sincerely,

James McMahon
New Hampton

I'm sure it is not easy. But there is a reason movies don't get made and books don't get written about people who did things that were easy.

Please do what is just and what is necessary in supporting SB43 as amended with the Gardner Amendment. The good people of the nation are counting on you.

Thank you,
Micah

Dear honorable members of the NH legislature,

Please pass SB43 regarding the auditing of our election process, as our great statesman Danielle Webster once said, " There is nothing so powerful as the truth". Without perfect and complete integrity in our voting process there can be no democracy. Let's have NH stand at the forefront of the nation in defending the one true power we all possess to peacefully participate in our government, and that is our vote.

Thank you,
April Carter

I do not live in your state. However, I respectfully ask that you support SB43 as amended with the Gardner amendment. This is a big deal. We the people deserve answers to our questions in regards to the 2020 election. We deserve transparency. We deserve free and fair elections. We deserve the truth so that the country as well as all Americans can move forward with trust and faith into the integrity of future elections. This is an opportunity to get real answers and set a precedent for other cities, counties, and states to follow. There are not many things I can think of that are more important to we the people and to the future of our nation then having 100% trust in our election system. To have elected officials truly represent the voice of the people by listening to what they want and be brave enough to stand up against the grain to do what everyone knows is right. Proudly serving the people and our great nation, digging deep, producing real facts, providing real answers based on those facts, and most importantly upholding the law and defending the constitution. If a true audit uncovers no fraud, so be it. However, if it uncovers any fraud what so ever, those involved need to be held accountable by the full extent of the law. Fraud must never be allowed! Let the facts and truth be known.

Be remembered for doing what is right. History and maybe even more importantly, the lord will be kind to you for doing so.

Kind regards,

Proud American from the State of Illinois

Dear Law Committee members,

With all levels of U.S. Judiciary dismissing the suits filled seeking an order for forensic audits of several states that altered election procedures that violated state law, as well as made a mockery of the doctrine of three separate and equal pillars of government, without even considering the evidence gathered by the plaintiffs, the confidence of the American people regarding the integrity of federal and local elections an example must of a proper and thorough investigation into said elections must be made.

As a United States citizen I respectfully ask that you approve the proposed bill as presented by the Secretary of State for advancement to the House floor for consideration and an up or down vote on said bill.

I understand that not being a resident of your great state my request may be extraordinary but these are extraordinary times and I believe the future of our country may well hang in the balance. This is reason I am making this request.

I thank you for your time and thoughtful consideration of my request.

Sincerely,

Robert Stutes

Please forensically audit the ballots.

We are at a crossroads.

If you forensically audit the ballots, you are likely going to uncover a growing cancer that can only be removed in it's early stage.

If you do not, others will follow suit, the cancer will fester and the fate of our nation will likely end up terminal.

It's a massive burden to bear, but it must be carried through at some point if America is to survive.

Please don't let your citizens down.

Thank you,
Austin Deptula

Nothing matters until elections matter.

Not rocket science:

Whoever ordered 6 states to stop counting, initiating the Fraud Election Coup, knew with absolute certainty that their Team Coup accomplices: SCOTUS, MSM, FOX, DOJ, FBI would reject every attempt to expose/reverse the vote fraud.

There is zero chance anyone ordered 6 states to stop counting without knowing the entire Coup was in place and ready to roll over the 100M vote America First landslide or whatever number was necessary to remove Trump.

Largest, most orchestrated, most successful fraud in history.

It is imperative to a majority of American citizens and the world's oppressed that we know what happened this election. If we don't then America is truly gone as we know it. This right now is not freedom, your own citizens are silenced, confused, scared, and we deserve the truth. Nothing makes sense and it will destroy this country if allowed to stand. We may not be as loud as others, but the nation depends on us, and society will be devastatingly affected for generations. We can handle the truth way better than what we are seeing them get away with in this country of ours. I pray you do the moral and right thing for truth and justice.

To whom it may concern,

New Hampshire has a long standing trust between its elected officials and citizens. It is one of the reasons myself, as well as thousands of others have moved to this great state. I wholeheartedly believe that it is your duty to pass SB43. Failing to do so will result in a deep and irreparable fracture in that trust. Regardless of the outcome, WE, the People of New Hampshire, demand and deserve the truth! Furthermore, the entire nations eyes are on us in this moment. Failure to seek the truth will be a great embarrassment to yourselves as well as your constituents.

Thank you for your time. God Bless you, God Bless New Hampshire and God Bless America!

Best Regards,
M. Kent

To the esteemed state legislators of New Hampshire,
Your constituents, as well as all of the people who truly love our democracy, and want to make sure it continues as a true democracy, and therefore by extension want to make sure that our elections are kept sacred and clean from all outside influence, which is the cornerstone of any true democracy, are begging of you to support the SB43 as amended with the Gardner Amendment today. No one should be scared of what a forensic audit will uncover. No one should want our elections to be hidden from the public as it is in corrupt governments and many third world countries.

We beg of you, it may not be popular but the children and grandchildren of the American people will ultimately thank you for making sure they too have a 100% pure democracy to live and thrive freely in.

Thank You

Respectfull,

An American Citizen Who Loves and Cherishes Our Democracy and Freedoms

The 2020 Election "results" were shoved down the throat of the American people, in spite of more evidence of fraud than any in history.

Discrepancies have already been found in NH ballots, and as REPRESENTATIVES of the people of New Hampshire... you OWE it to them, and the rest of the country, to ensure that the legitimate vote of the people is what is carried out.

Our Republic is at stake. Please show the nation that there IS still some integrity and honor in politics. Please publicly support, and vote for, SB 43 WITH the Gardner Amendment intact.

Thank you for your time and consideration.

Respectfully,

Chris Stiegman

To whom it may concern,

I'm writing to you for both myself and millions of other Americans to request that the New Hampshire House Election Committee vote to pass SB43 as well as the Gardner Amendment. There have been far too many irregularities in the election this past November and am confident that you will find far more than just a clerical error when a full audit is done. I know this because on election day, i turned in my completed California vote-by-mail ballot in person, and to this day the secretary of state's website has no record of my vote. This wasn't unique to me either. I know multiple people who had the same thing happen. Interestingly, we all voted for the same person.

Thank you for your time,
-Andrew Kalionzes

PS: Without confidence in our election system this nation will be lost.

Hello, my name is Joshua Appleby, I'm a resident of NH, and I just wanted to email my support for SB43 with the Gardner Amendment. I also wanted to give a big thank you to the members who fought to make this possible.

There is little more important to a functioning republic than election integrity, and with all the questions and concerns that surrounded our last elections, it's a breath of fresh air to see NH standing up and ensuring that our votes matter. Thank you all so much, and take care. :)

It is not my job to prove there was fraud in the 2020 General Election, it is the government's job to provide evidence that there wasn't egregious fraud. The only way to do that is to show experts the original ballots and let them test the machines. Any auditors need to convince skeptics, like me, that I should believe the results of their review, one way or the other. I am willing to go with their conclusion if they do a competent job. I am an old crusty CPA, so, this review better be beyond reproach.

To: ~House Election Law Committee

Subject: [CAUTION: SUSPECT SENDER] Please pass SB43 with the Gardner Amendment

Importance: Normal

To whom it may concern:

Please pass SB43 with the "Gardner Amendment".

There are just way too many strange things that happened this past election to continue to ignore and suppress a real investigation.

Someone needs courage to step up and do the right thing. Will it be you?

What is the harm of doing a genuine audit? If there is nothing there, the results can be confirmed. If there is something there, the results can be corrected. The worst course of action is to do nothing. It arouses suspicion and makes it seem like there is something to hide.

Thanks for hearing me out.

Sincerely,

CJ Asmus

America needs answers to the voluminous voting “irregularities,” all benefitting Democrats, that occurred in the 2020 election. The “Live Free or Die” state is a perfect venue to begin a serious inquiry.

Sincerely,

James Downey III, JD

Please vote in favor of this bill, the Gardner Amendment, that would require an audit of the Wiebold voting machines used in the election of 11/3/20. There are too many concerns about the integrity of the past election!

Unless New Hampshire residents believe that elections in this state are fair and accurate, they will consider voting a waste of time.

Please uphold our precious right to an election free of mistakes and/or outright fraud!

Many thanks,
Deborah Hendrix

Dear Sir/Mam

As you know the only thing that makes Americans equal is the vote.
One person One Vote

Any Fraud or the likelihood of Fraud destroys our constitutional Equality.

Therefore, I urge you to pass SB43 as amended With the Gardner Amendment.

There is no need to worry about overturning results as it is too late for that If fraud found...
But for the next Election we can make sure the Fraud is not repeated.

It will also let the Citizen and possibly politicians in last election that the mistakes will NEVER
happen again

Thank you
Mike

Concerned citizen

Please pass SB43 with the Gardner Amendment included.

It's so important to have transparency and real forensic audits to answer the many questions from the 2020 election.

Folks are frustrated because they see a lack of transparency. The "audits" and recounts for the most part have seemed to almost purposefully avoid finding what people are asking about, or even looking for it altogether.

If the election was practically free of fraud, then great, but it sure doesn't seem that way. People have doubts and there's enough folks with doubt about the election to warrant concrete answers.

Please help answer these questions and provide a key element of election integrity by passing SB43, including the Gardner Amendment, and doing a thorough forensic audit.

Thank you,

Please vote in favor of this bill to conduct a forensic audit of the 2020 vote.

Let's put the rumors to rest and conduct an audit that will bring confidence back to the electorate.

Respectfully,

Stewart D Hayes

Hi,

I'm an American living overseas, all the way over in Asia. Even the people here think what's been going on in New Hampshire with the election is crazy. We deserve a forensic audit to find out what happened. Please support SB43 and do a forensic audit using auditors we the people can trust!

Thank you,
triple

House Election Law Committee:

I highly encourage you to please support SB43 with the Gardner Amendment. It is absolutely essential that states like New Hampshire evaluate voter fraud and fraudulent voting systems. Our Constitutional Republic is broken and will not survive if we continue to allow Democrats to cheat.

Thank you,

Julia Blair

To whom it my concern,

I do not trust the election .. I don't trust our government .. and America has become a total joke .. a clown show .. the whole entire world, is laughing at us!

I'm not laughing .. you better do the full and complete forensic audit on the election.

I want to know what happened and I want to hold those responsible for the crazy election results. Lock them up and throw away the key!

Please send/email a copy of the audit report to me.

Sincerely,

Jason Van Valin

Members of the committee,

I do not live in New Hampshire, I live in Mobile, AL. But I am sending this email to please, pass SB43.

THE DEEP STATE is real and so many in Washington have proven how disingenuous and corrupt they are... In both parties. The fraud in this election is on both sides and now we know who the twisted ones are. Every single court, including the SUPREME COURT! I am 57 years old and I never EVER thought, in my lifetime, actually in anytime that WE, The once greatest country EVER CREATED would become the country with fraudulent and very illegal elections. I was STUNNED to learn that in the first "Corona stimulus" I don't know why they call it that because it had very very little to do with helping hard working Americans who have suffered so greatly, they the Congress have BILLIONS of dollars away to Zimbabwe to make sure THEY HAD FREE AND FAIR ELECTIONS while these corrupt people just STOLE THIS ELECTION FROM WE, THE PEOPLE!! We came out in the largest numbers ever, waited in very long lines, voted for our country, voted to protect us from the violent left trying to destroy our country, trying to keep themselves uber wealthy and to keep us poor and slaves to them. We voted for PRESIDENT TRUMP in numbers never before seen in any presidential election this country has EVER KNOWN!!

WASHINGTON thinks we are so stupid that we would believe DEMENTIA JOE, who never came out of his basement, couldn't get 12 people at his rallies, even when their KING, Obama was there! Won this election in a landslide!?!? Right, cause this senile, fragile old man, who should be in a nursing home, beat Clinton, Obama, and the GREATEST PRESIDENT THIS UNITED STATES OF AMERICA had ever had.

The fate of our country lies in your hands. PLEASE don't deny this horrible THEFT OF OUR NATION. WE ARE COUNTING ON YOU TO FINALLY HAVE SOMEONE ON POWER TO DO THE RIGHT THING.

AN AMERICAN CITIZEN,
Cheryle Tebor

Thank you Committee members for standing up for voter integrity with our Republic! Think of those young men who stormed the beaches at Normandy and turned the beach and water red with their blood fighting to defend our liberty and others. Remember the men on Hamburger Hill in Korea who fought valiantly and most didn't live to see another day! The red in flag for all the blood shed through the years keeping us free!

Being brave means you are scared but you do it anyway! I know!! Do the right thing and when you stand at a baseball game and sing our national anthem and hear the words "home of the brave" we will be singing about you! Thank you from the bottom of my heart! May God bless you bountifully!

Your American Sister!

Dear New Hampshire House Election Law Committee,

Thank you for taking the time to read this message. As you all may know, the 2020 presidential election was an incredibly divisive moment in American history. Roughly half of the U.S population has lost trust in our electoral process.

I am emailing y'all from Dallas, Texas, because for the good of the American people, the Gardner Amendment should be passed. Whether President Biden was elected fraudulently or not, all Americans deserve more transparency in our electoral process.

Thanks again for taking the time to read this message, God bless y'all.

Sincerely,
Aaron Dean

Dear House Election Law Committee Members,

I firmly support the SB43 amendment being added "as is" in tomorrow's vote. Be strong and make the right decision to truly get to the bottom of this huge problem.

An inaccurate vote tally means voters were disenfranchised. It's that simple. For all the talk about "count every vote" people seem to miss this basic truth. If you're for free and fair elections, you need to vote for this amendment, so that we can actually make changes to prevent this from happening again, and have confidence that our votes are being counted, not thrown out.

Yours truly,
Elbereth

Dear Sir or Madam:

Recent mainstream media polls have demonstrated that the vast majority of Americans believe that either one of the last two elections were largely fraudulent, and that at least one of the last two Presidents of this country was illegitimate. This is an absolutely unacceptable situation in the nation which should be leading the free world.

The price of liberty is constant vigilance. America will not be a free nation unless her People and their Representatives demonstrate integrity and pursue truth no matter where that pursuit may take them. As a voting American citizen, I demand that you do your duty and ensure that the electoral process in your state was conducted in an ethical manner.

The eyes of the entire nation are on you.

Sincerely,

Jonathan States,
American Patriot

I am not a New Hampshire resident, but I do respectfully implore you to support SB43 as amended. I really appreciate your stand for honest and transparent elections. I did not vote for Mr. Trump, but I think the concerns about the election are and should be bipartisan as far as the most precious right we have as American citizens; the right to have a say in our representation. I truly hope any audit comes back great, but with all of the nationwide obfuscation I have my concerns, and I just want what is right and fair, whichever way that falls. Thanks again for your work in making these hard decisions. Never lose sight of the fact that history looks kindly on the upright and courageous. Thanks again! Good luck tomorrow!

Good evening,

I am currently writing you from Laramie, Wyoming, and though I am a citizen of Wyoming, I, like you, am also a citizen of these United States. My message is quite simple: in order for the country to regain its former glory and heal the divide that is currently crippling us, we must investigate the mechanism behind the results of the 2020 election. I am not a fan of the outcome, but if the citizens of this country elected truly elected Joseph Biden as President, then I can live with that and be satisfied; however, if there was election fraud to the scale that altered the outcome of the Presidential race—and there currently is ample evidence of this as fact—then we as American citizens deserve to know what happened. Truth is all we ask.

I solemnly request that you, in the name of all that is Holy, please conduct a proper and thorough investigation into the voting systems in your district. Our citizens deserve to know who truly is running our country right now, and if it is who many of us fear it is, we need to take corrective actions so that this can never happen again. If further insight into your voting machines can provide the people with evidence of malfeasance, or lack thereof, then so be it. Either way, truth is the ultimate goal.

I thank you for your time, and I pray to Almighty God to give you the blessing of guidance.

Thank you,
Richard and Kari Hopkins
Laramie WY

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Adam Sugerman

Dear Sirs,

For the sake of the nation please, please vote in favor of conducting an independent and detailed audit of the election results. If the Democrats won the election fair and square this should prove it. If you block a fair assessment the only conclusion must be the election was stolen and you are guilty of covering it up. The country is watching. Follow your oath of office to protect the Constitution and our most cherished right to free, fair, and legal elections.

Sincerely,

Stephen F. Urschel

Unfortunately, the contemptible actions of a few hundred people on January 6th usurped the right of approximately 50,000,000 voters to have their concerns addressed in a public forum. To this day, every poll released confirms that the overwhelming majority of Republican voters feel that the election was stolen. There are countless documented frauds that were perpetrated, sworn affidavits from witnesses who allege significant violations of fair voting practice, and even more nefarious activities that have been unearthed - DNI Ratcliffe's report that details Chinese malfeasance in the election. In point of fact, with every passing day, additional worrisome stories are developed: delivery of ballots in the middle of the night in Georgia and Michigan, shredded ballots in Pennsylvania and now Arizona, documented cases of counted votes from nonexistent addresses, dead people and illegal voters. I would commend to you the following links for just a very small sample of the evidence I discuss: <https://navarreport.com/>, <https://www.thegatewaypundit.com/2021/02/flashback-november-8-complete-list-suspected-fraud-issues-2020-election-sorted-state-recommended-actions-address/>, <https://hereistheevidence.com/>. There is much, much more.

Thank you so much for your time, consideration and patriotism.

Sincerely,

Jason Skolnick

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully, Justin Laperle

Forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020 general election ballots are an inevitable and necessary step to confirm a correct and reliable result of the recent election. It will also contribute to a better national understanding of the issues in the recent elections and hopefully lead the way to steps that will assure trustworthy elections in the future throughout the United States.

The forensic audits in Windham are not only important for New Hampshire citizens, but also for the entire nation.

Thank you for your consideration.

Richard Stahler

Subject: VOTE FOR THE AUDIT
Importance: Normal

To Whom It May Concern,

This email is a direct request to be strong and vote IN FAVOR OF THE AUDIT. There are too many people claiming that there's nothing to see and stating that the elections have been free and fair. If that's the case, why the resistance to audit the machines and ballots? A vote against the audit will provide more division.

New Hampshire has the opportunity to be the shining light in the country and to do the right thing. "Live Free or Die" is your tagline. Now is the time to step up and protect freedom.

Election integrity is a key part of our democracy. Assess Americans cannot be in a situation where we cannot look into the box and see what happened. Those votes are the property of New Hampshire citizens. They should be able to look into the box and see what happened to their vote. This must be a transparent process. This cannot be a situation where we hold the rights of a companies proprietary software over the ordinary citizens right to see what happened to their vote.

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Michael Nolin

Hello

There is no doubt that election confidence is at an all time low. There is no doubt that multiple ways of cheating and rigging have been exposed. Only a complete audit of all of these ways can possibly begin to restore integrity to the elections.

Without free and fair elections there IS NO REPUBLIC! So please do it all-get the ball rolling.

Your patriotism will shine for all to see!

Thank you!

Rick

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

THERESA CHABOT

Importance: Normal

Dear Representatives,

I am writing to you today as a citizen of Georgia with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee. As you know, Georgia experienced some very troubling election anomalies, and thus far our state has chosen to not address those anomalies.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state, and perhaps open the door for election anomalies to be investigated in other states.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it. I pray that you will be the heroes that step forward to insure our elections are never again tainted in the way they were in 2020, both in the Federal and State elections.

Respectfully,

Barbara Powell
Cleveland, Georgia

Forensic audits on Windham's Diebold AccuVote voting machines and the November 3, 2020 general election ballots are needed to determine the legitimacy of the election results. There is an enormous discrepancy between the [November 3, 2020 election day totals](#) and a [recount 9 days later](#). This must be addressed. It is the only way to resolve lingering doubts that the majority of Americans have about election integrity. Thank you for your attention and courage in this matter.

Respectfully,
Patrick Meadows

Bring back the American trust in the election process. If nothing was done wrong in 2020, then there should be no problem with auditing the vote. Most of the public know there was corruption in the last presidential election. Prove us wrong, if you believe otherwise, do a forensic audit of the votes.

I served this country on active duty for nearly 24 years of my life.
I made many sacrifices during that time because I believed in freedom and our constitution and that both are worth fighting for.
It's time folks in power vote for freedom and to give Americans the confidence that their vote matters.
If a large percentage of Americans no longer believe their vote counts, we are on our way as a country to darker times and moving in a rapid direction away from our guaranteed freedoms.
Please take action and demand a forensic audit be completed immediately to restore some faith to citizens that their voices and votes matter as they should in any truly free nation.
Thank you.
Rober Bishop.

Good Day,

I would kindly like to encourage you to support the “Gardner Amendment “. I’m from Michigan and we had an audit in Antrim County that is still in litigation. So many folks in our government trying to block the results.

We the people would like to know the truth whatever that truth turns out to be. I personally am worried about the direction of our country.

Please support this amendment then maybe other municipalities will follow suit.

Kind Regards,

Nancy Jay

It's imperative that the citizens trust the validity of the outcome of elections to derive legitimate representatives. Without a recognized legitimate government the populous will resort to all manners of crime and deceit. People won't submit to authority which has not been granted legally. Counting of votes in a verifiable manner is at the essence of our government because law is derived from the elected officials based off the will of the people through the vote.

As a resident of New Hampshire, I believe that an audit would help dispel any notion of criminal actions and lead to a healthier society.

Vote to audit.

Sincerely,

Dan

I am originally from NH having grown up in Marlborough and educated at the University of NH (Dec 1978). Growing up there back in the days when for the most part NH was a solid red state before all the Massachusetts folks moved into the southern portion it was ingrained in us kids to be honest and truthful. I ask that you perform the audit on the voting machines to begin the process of showing how they can easily be manipulated.

I have been in IT for 32+ years and as a software developer can emphatically tell you that I could have written the algorithms to skewer the vote totals. Anyone thinking that if these machines have the capacity for wireless or any other connection to an outside device, that they were not hacked in some manner is simply delusional. There are simply way too many ways in which these machines could have been illegally accessed and the only way for you to know is to do a full and complete forensic audit of them. Do note that all election materials are supposed to be available for 22 months after an election for the possibility of an audit. If these machines have been tampered with in any way after Nov 3, 2020, someone needs to go to jail.

Hi,

Please support SB43 as amended with the Gardner amendment. We MUST have faith in our elected officials restored and voting fraud most certainly is at the top of the list. Voter fraud is real and is a nonpartisan abuse. There have been at least two cases in the United States of America where fraud has resulted in arrests and this is limited only by government stonewalling. This is the "Live Free or Die" state. Do this state and country proud by showing you are with the people and respect what a constitutional republic stands for!

Respectfully,

Kevin

Maricopa County Audit - NIST - CISA.pdf ;Maricopa County Audit observations.pdf ;

Greetings,

I am writing to you out of my concern for election integrity across the country not just Arizona, Georgia, and New Hampshire. I am sure you are well aware of what is going on in Arizona, the biggest audit in US history. Maricopa County conducted their own PR stunt audit. Last Tuesday Matt and I had a conversation with a legislator from PA. It was a productive meeting. What I am discussing is not about changing outcomes, remote access, or millions of ballots. I am talking about the vehicle that can drive massive fraud. I believe across this country states and counties need to re-examine how they secure election equipment. I do have the tools at my disposal to provide better security, but the principles are used across the country in the private sector. Taking a closer look at what goes on in Maricopa County made me realize that major deficiencies exist, major conflicts of interests exist. I guess I should have expected that from government, ha ha. I would love to talk with someone in New Hampshire about our findings.

Thank you for your time,

Aaron Wagner, CISSP

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Carol Marsh

[Dear Representatives.docx](#) 

Dear Representatives,

I am writing to you today as an NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide critical answers to all of the questions and concerns Windham Town Election Integrity Committee has raised.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state. I believe that my VOTE does not matter or counted in the election of 2020. It's hugely saded me! My vote has not mattered!

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Joanne Carrier

To whom it may concern, our nation has turned its back on election integrity and transparency and all I've been waiting for is for ONE state to come forth and show the people an open and honest audit of the voting. Everything could be squashed with such an audit and peace of mind restored to the people. Now my home state of New Hampshire has such an opportunity. Please show the nation how we are different, how Live Free or Die actually means something to us here. I ask that you support this bill with the amendment.

Thank You,

Kevin Trask

Dear Sirs:

“PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT”

New Hampshire was the ninth state to join the union in June of 1788 and shows us a great example of how our country became America. Since I am from the State of Idaho, I don't have much power to implore you to vote for what is right for America but would be remiss not to try. LIVE FREE OR DIE as your motto I think we are all hoping the free part will be forever. You must be proud of being on the front lines of the forming of the Constitution that was fought for by your brave citizens. Thank you for your consideration.

The statue above the Capital Building says:
Out of many, One....

Subject: SUPPORT SB43 and all Bills Upholding Our Constitution
Response requested: No
Importance: Normal

To Whom it may Concern:

3/24/2021.

I am writing in concern for my country. I am asking all my elected officials to defend our constitution. As a citizen of New Hampshire (Live Free or Die Stater) and this amazing country, The United States of America, I am asking you folks to stand up for our constitution.

Over this Covid 19 debacle and even prior, I feel our Bill of Rights is being destroyed. It guarantees civil rights and liberties to the individual—like freedom of speech, press, and religion.

For our first amendment, Our Freedom of Speech is being destroyed by big tech and big businesses. This cancelled culture and censorship must stop. It divides this country, and it does not unite. We used to be a large melting pot. Nowadays if we do not agree with these large companies, we should no longer be considered a great prideful American.

I educate myself as well as media allows me to now adays. I absolutely love that Governor DeSantis is standing up and fighting for We the Peoples First Amendment and taking big tech to court. We need both parties to join in on this fight.

We fight for all other countries religious freedoms with our own being shut down. This Country's slogan is In God We Trust. We need to allow Churches to be open and God back into our schools.

Our Second Amendment is also being attacked. I work for a Gun Manufacturer. We have two large companies, Sig Sauer (1600) and Strum Ruger (700) in New Hampshire who employ combined over 2300 employees. Without our second amendment we will face a huge financial downfall.

Along with New Hampshire being of large farms, many people hunt to survive, many own guns responsibly to protect their families. This can not be denied. My hope is that we as a state can unite around some of the other states that are protecting our civil liberties, such as Missouri, Georgia, North Carolina, Kentucky, Arizona, Pennsylvania, and Texas in the Second Amendment Preservation Act (SAPA).

As for our youth. We need to open our schools and teach a curriculum that includes American History and the Founding Fathers, not this Hate the United States Hypocrisy.

As an adult I returned to school after decades, it was truly appalling that I was on better grounds to understand Math, and English than many of our youths just getting out of high school had a difficult time understanding. I feel for the money spent we could be doing better to up our level of education. Shop is a valid form of education. There is absolutely nothing wrong with young adults not going to college. Trades are a great way and admirable way to have a career creating responsible adults.

While on the topic of schools, Out of state students should not have the opportunity to vote in New Hampshire unless they claim New Hampshire as their residency, hence they should be paying residency tuition fees

Also, Amendment ten states, we should be ruled by our state, not under federal laws.

My major concern for this Country is our "New" form of Voting. I believe in Voter Identification. I need ID for a driving license, hospitals intake, mailing address or post box, travel, gun ownership and more. Voting should also require such ID. Voter registrars should also be updated yearly so we do not have dead people or people out of state voting in our elections. We should also go back to paper voting with receipt.

And my final point is Illegal Immigration. My grandparents came from Poland, as well as many other family and friends. I am proud that they came in the legitimate way and not illegally. All my Polish citizen folks are Proud to be a Citizen of the United States of America and they know how this country is growing closer to be controlled as where they have left. They know the truth about where our government is heading unless we stand for our constitution.

Thank you.

A proud but scared American Citizen

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Kim Thompson

Senators;

I'm a resident of Milford, NH speaking on my own behalf.

Asking that you act decisively to restore voters' confidence in the value of their vote.

Further requesting that a full public accounting be published to the widest possible audience.

If folks continue to lose confidence in the value and honesty of our elections; I fear anarchy looms nearer. Windham is just a single example of the loss of confidence seen across our State of New Hampshire and our country.

We might have disagreed as individuals in the past but knew our votes were counted honestly. We were all Americans, citizens proved their identity, were allowed to vote, and all ballots were counted honestly.

Now, there is significant doubt before local, state, and national voting bodies. How can there be such large differences between the total number of ballots cast and the final tally?

Please act to help restore the confidence of voters in the election process.

Respectfully,

Michael E. Thornton

Good Morning Sir/Madam:

I was so relieved to learn that New Hampshire Secretary of State Bill Gardner agreed "The Gardner Amendment." We absolutely need a forensic audit on Windham's Diebold AccuVote voting machines and the November 3, 2020 general election ballots.

Your constituents need answers to the questions surrounding the enormous discrepancy between the November 3, 2020 election day totals and the recount totals 9 days later.

Please be a hero and vote to pass SB43 with the "Gardner Amendment". PLEASE....Election integrity should never be a partisan issue. All parties need to have faith and confidence in their voting systems.

PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT.

Respectfully,
Doria Nappi

Sent: Wednesday, March 10, 2021 7:05:02 AM
Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Dear Representatives,

We are writing to you today as concerned American citizens with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

The importance of this matter goes well beyond the state of New Hampshire. The November 2020 election had so many irregularities that need to be investigated. Instead, Americans saw no interest by election and government officials to investigate. Instead we are being told this was the "safest" election in history and we have no right to question the results. Our voices are even being silenced in the media. We can't

imagine anything that could be more un-American. You in New Hampshire have the opportunity to do the right thing and do a proper investigation so we can be trust our elections. Please do the right thing. God Bless You and God Bless America.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

John Miller

Please support SB43 as amended with the Gardner Amendment. Free, open and honest elections are the cornerstone of our Constitutional Republic. I believe forensic audits on Windham's Diebold AccuVote voting machine are critical for election integrity in NH and our great nation.

Respectfully,

David Strong
Durham, NH

I'm a Vermonter, Please pass SB43 as amended with the Gardner Amendment. I'm hoping if you brave NH folks stand up to the corruption and get to the bottom of what happened in the NH election, that other states will follow your lead. It appears that there was lots of election fraud around the country and it is unacceptable that this is a forbidden subject to challenge, or even talk about. Stand up to the Deep State corruption! Do the right thing.

Thank-you!

Dear fellow Americans who can make a difference:

Now, more than ever, we need guaranteed free and fair future elections to maintain our Republic.

We are currently experiencing a lack of trust in the government coupled with the growing conviction that Americans have lost their voice.

Please stand behind what is fair and lawful and what is right. That is all we ask.

PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT.

Sincerely,
F. Esguerra

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Laura Benge

Dear Representatives,

You can lead the way to help the American People reclaim the integrity of our elections. Without assurance that voting is protected from tampering, American citizens will not be able to trust their government to uphold The Constitution and chaos will continue to break down our precious Land of the Free, Home of the Brave.

Thank you for your service to the Great State of New Hampshire,

Please support SB43 as amended with the Gardner Amendment. So many people are suspicious of election results; please do an audit to investigate. If there is fraud, it must be found. If there is not, we can be reassured about election integrity.

Good Evening,

I'm writing to respectfully ask that you pass SB43 as amended with the Gardner Amendment so that a forensic audit of Windham's Diebold AccuVote voting machines and the November 3rd, 2020 general election ballots can be performed. I am deeply concerned about the integrity of our elections here in New Hampshire and this forensic audit is the only way to clear up the uncertainty surrounding the discrepancies found in Windham.

Sincerely,
Kara Seifert

Dear Representatives,

I am writing today to urge you to vote SB43 with the Gardner amendment Ought to Pass. This bill will give us answers to the vital questions and concerns raised by the Windham Town Election Integrity Committee.

Just as important, it will address concerns and questions raised by many concerned NH citizens all over the state.

As you consider this bill, please recognize that Secretary of State Gardner's plan reflects his extensive knowledge and experience. The Legislature should trust the Secretary to define the best process to uncover the answers we seek and to address our concerns.

That process was presented to the public last Friday, and I support it fully.

Thank you,
Eric Tanafon

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Not being from Windham but from Harrisville, I would hope that that upon completion of a process in Windham, the viability of extending the method across the state be reviewed and, hopefully, executed. All of the citizens of NH, the real ones, deserve to know that our elections are actually valid. Additionally, the First in the Nation Primary would seem to depend on a statewide validation.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address all of our concerns, as well as those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Other must do items in my mind include:

- Verify the accuracy of voter registration lists
- Verify the citizenship of all voters
- Require voter ID
- Limit the use of absentee ballots
- Prevent ballot harvesting
- Provide all election observers unfettered access to the election process
- Prohibit early vote counting

As a state, we should reject these three policies

- Same day registration
- Automatic voter registration
- Private funding of election officials and government agencies

Respectfully,

Peter Crowell

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Robin Anderson

Dear Representatives,

I am writing to you today as an American citizen with an urgent request to PASS and SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee and millions of others around the country and world.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across your state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by your legislature in order to define the best process to uncover the answers the world seeks.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Marc Taylor

To Members of the New Hampshire House Election Law Committee,

I am a resident of New Jersey but more importantly a citizen of the USA. I have serious concerns about all of the election irregularities in the election last November in many states, especially because none of the evidence election irregularities has been examined in all the many lawsuits or in state legislatures. I applaud the New Hampshire House Election Committee for looking into the irregularities that were discovered in Windham NH. I strongly believe that the results of a forensic audit would help bring out the truth not only for New Hampshire, but would also have a significant impact on investigations into election irregularities in other states across the US. Please support passage of SB43 as amended with the "Gartner Amendment".

Your sincerely
Tom Duffy

Good Afternoon,

I strongly support SB43 as Amended with the Gardener amendment. It is crucial for the citizens of NH and We The People of the United States of America to have faith and confidence in our elections. I am a proud NH native and want to continue our strong history of allowing people's voices to be heard. The past 2020 National election and what is now perceived to be local elections was anything but something to be proud about.

The voting results in Windham raises many questions. It also opens questions if other voting machines and their software were compromised and protocols not followed?

Again, I urge you to support SB43 as amended with the Gardener amendment. We need to ensure that our elections are secure and people have confidence that their vote actually counts. Without that you no longer have a Democratic Republic.

Kind Regards,

Mark Perron

Dear Sirs and Madams,

I and my friends are watching anxiously that **NH House Election Law Committee** upgrades the trust of its constituents at the voting booth. We are all watching that government officials everywhere put their hats on, uphold the Constitution and defend each valid vote.

We want to be proud of your honest and brave representation. I and all my friends are behind you in this goal.

Thank you,

--

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Mark Morgan

To whom it may concern,

Please do the right thing and fight for the truth. We need a real forensic audit and want to know what is happening with our votes. Americans deserve this. We do not live in a banana republic yet although it is fast approaching.

Sincerely,

Matt Trickett

Members of the NH Election Law Commity,

Election integrity is felt to be missing these days. Digging into what happened in the last election needs to start somewhere, now is a great time. Please do the right thing! This is a chance for a forensic audit of the machines and an examination of the ballots so the American people, thats me, can have any faith in the voting system! PLEASE support SB43 as amended with the Gardner Amendment.

Respectfully, Kim Kehoe.

Please support the SB43 Gardner Amendment. It is important for our entire country. We cannot have a Constitutional Republic of, by, and for the people if we do not have one-person-one-vote accuracy. I believe that there was terrible voter and election fraud perpetrated in the November 3rd elections. A forensic audit of the voting machines will go a long way to righting this wrong. Please support election integrity and the will of the people.

Sincerely yours,

Jane F Boren

Our faith in the entire process has been shaken. We know that the election outcome does not reflect the will of the people.

If the audit shows what we believe you must be prepared to do the right thing.

Dear. House Election Law Committee,

Please support SB43 as amended. I am truly surprised that it takes a bill to have a forensic audit done in Wyndham. Wouldn't every official in our state want to know why there were large unexplained discrepancies during the 2020 election?

Whatever the reason for the delay in looking into this, please show your voters that you care about honest and accurate elections in our state and country. Please do not have faith that machines and software/firmware that manipulate data are always accurate or programmed correctly.

Thank you for all you do for our state,

Laura Parrish

Our country is at crossroads of doing right or doing the wrong thing. We need men and women to stand up and be strong. This is one of the most important things our country will ever face. If decided wrongly our nation will never be the same again and will crumble and fall like any other socialist nation. Please support SB43 as amended with the Gardner Amendment.

Thank You

Good Afternoon,

Please support bill, HB372 which would allow municipal prosecutors to go after people who steal campaign signs, vote twice, or break other election laws.

This is a bi-partisan issue and one that needs to be addressed.

Thank you,

Stefanie and Kevin Dube
Danville, NH

PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

I am writing as a concerned citizen. I urge you to support Secretary of State Bill Gardner and SB43. This would allow for forensic audits on voting machines and allow for review of the general election ballots.

Those audits would provide answers to questions surrounding the vote count and recount. A fair audit would shore up faith in the integrity of the election system.

Thank you for your support.

Best regards,

Scott Schweizer

Dear Representatives,

I am writing to you today as a U.S. citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many citizens across our country.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Tabitha Prado

Please consider how important you have become to millions of us Americans that know fully that Joe Biden did not receive 80 million votes . Proof of voter fraud within Dominion machines will stop the people claiming that courts have already shown there was no voter fraud and people that believe it are fighting against our country.

We all saw what happened in Maricopa, AZ they too were about to audit voting but instead were forced to allow the same company that has claimed to find no fraud to audit there ballots. Now they had a fire where something major was destroyed.

Here in Tennessee we had an explosion for the first time in downtown Nashville that destroyed a building containing records of voter ballots.

You will also be stopped in one way or another so at least try to get it done. I firmly believe that this is an organized agenda by outside sources and people within our country to make the a socialist country.

Thanks Mike,
OnwardRV

To Whom It May Concern,

When I first heard of the "AccuVote" systems not counting the votes properly, I was upset. When I found out it subtracted votes from one particular party, I became even more upset. When I found out that it subtracted almost exactly 300 votes (6%) from each of the republican candidates, I knew something was seriously wrong. This particular election was contentious and there many reports of fraud across the board (i.e. Navarro Report). But these were the "usual" types of fraud: dead voters, double-votes, illegal voters, underage voters, etc. That was bad enough. But I never thought that our counting machines would also be making such suspicious miscalculations as well. I am hoping this is just an anomaly, but we need to investigate to find out. Otherwise, this will be a scar that will never heal, and we will add our elections to the long list of crumbling institutions in this country.

I'm praying you make the right decision and investigate these machines. And if you find that rigging has occurred; I hope you investigate the machines in the other 87% of precincts of NH. And if we find corruption in those machines, I hope we will find out how long it has been going on. And if we find out it has been going on a long time, I hope we revisit every policy made by every false administration and correct it. Then we can figure out how to compensate the citizens, and then hold those accountable to the full extent of the law.

Kind Regards,
Tom B.

Dear Representatives,

I am a citizen of Delaware who has an strong interest in the Windham, NH election fraud situation. Though not a citizen of your State, I feel that election integrity is so important, that ALL citizens everywhere should be concerned. I urgently request you to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many New Hampshire and United States citizens.

As you consider input from other sources, including other proposed amendments, please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by your legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham, NH.

The citizens of the United States are looking forward with hope for your help to preserve the integrity of our nations elections! This is your time to stand for New Hampshire and the United States.

Respectfully,

James B Holladay
Resident of Delaware

Hi,

Please f review the ballots and all related equipment so I can have faith in our election process. I am shocked at the NON TRANSPARENCEY and how we all should want to make sure our system works and my vote counts .

Thank you

Jeff

You folks can be Patriots or Cowards regarding setting things straight by supporting this amendment and refusing to foolishly traitorously cooperate in this clear election fraud of an election! If you don't, the US will never have a true election again and the country is over as a free country because you refused to honor the constitution.

Think of your children's future!

Thnx

JERRY Eastridge

All,

You must allow the light of day to shine upon the election irregularities and outright rigging in the Nov 3rd, 2020 election, so as to protect this from happening in the future, as it surely will, or we are all doomed for it to occur forever more.

We All from the Great State of Tennessee compel you to do All True American's and Patriots will!

Thank You and Godspeed,

Mark Moore

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Janet Johnston

Franklin, NH citizen, taxpayer, and voter.

Dear Lawmakers,

I am a surgeon in Dallas, Texas. I appreciate all of your work regarding election integrity. These issues have been a cloud over our country. My colleagues and I have been following the different efforts in various states towards shedding light on significant election irregularities. These efforts are very important in understanding the underlying issues and rectifying them and will ultimately bring back voter confidence in elections.

Please support SB43 with the Gardner amendment. Good luck with your efforts!

Thank you again.

As a concerned registered American voter I believe election integrity must be a part of every election. With the 2020 election's questionable results in many swing states it is imperative that we get to the bottom of what happened by performing a full forensic audit of the voting machines and all mail in ballots. Any legislative changes leading up to the election should also be examined for legitimacy and constitutionality. Please ensure that non-partisan investigators provide an extensive, thorough review and provide the public with a full accounting of the findings.

Thank you!

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Kim

To who it may concern

We are a nation of laws and without our constitution we would be no different than Venezuela or Cuba. I respectfully demand that you do your job pertaining to election in 2020. We the ppl demand a forensic audit

Thank you
Lilly Zherka

Dear House Election Law Committee:

When unexplained irregularities arise, the only way to insure integrity in our elections, as well as the perception of integrity in our elections, is a full forensic audit. We have already seen in other counties across the country, that there have been discrepancies -- serious, outcome determinative discrepancies -- between the physical ballots, the ballot images, and the ballots counts. The poll books in various counties have similarly demonstrated discrepancies between the number of votes and the number of voters.

For the sake not only of Windham County but of the state of New Hampshire and even of the country, please support SB43 with the Gardener Amendment.

Thank you.

Yours sincerely,

John Pilsner

To whom it concerns,

Please consider supporting SB43. I understand there's a tremendous amount of pressure to ignore the irregularities that occurred in the 2020 election, but I pray that each of you looks deep inside yourself to find the necessary courage & conviction to do what's right (for our country) here. This needs to be dealt with NOW. We cannot kick the can down the road with this. Next time, it could be one of you who's cheated out of office. So, please, do the right thing and allow a full forensic audit of the 2020 election. We have to ensure fair & honest elections in the future. I fear this can & will spiral (further) out of control much faster than most of us even realize. I'll be praying for God protection over all of you. Please, do the right thing for ALL of us. Thank you for your time.

God Bless. ;

A concerned citizen.

To whom it may concern,

My name is Jon Morgan from Cincinnati, Ohio. Please support SB43 and the Gardner amendment. Election integrity is the cornerstone of our democracy. We must have free, fair, and transparent elections in order to govern the entire population. Due to irregularities that occurred in the 2020 general election, it is imperative that a full forensic audit be conducted to satisfy the entire electorate. Please have the courage to do what is right. If the comprehensive audit shows no issues, then all Americans can be confident that electronic voting machines pose no threat. If they DO show irregularities, then we have critical information that will guide us in making the changes to ensure free, fair and transparent elections. Either way, you win.

If you chose not to support SB43 and the Gardner amendment, then 1/2 of America will feel that you are hiding something and will distrust the electoral system. This makes us all unsafe, and it's a direct reason why January 6th occurred.

So I implore you to support SB43 and the Gardner amendment.

Best regards,

Jon Morgan

Dear Sirs,

Thank you so much for considering this vital audit.
I lived near the NH border for years and admired you
and my relatives lived there too.

Please do the right thing for our entire country and vote
to fully forensically audit, Jovan Pulitzer style , all the paper
ballots. I'm so glad your small town was caught in the act.

To have rule of law, a Republic, rather than mob rule Democracy,
it is vital to keep our elections pristine.

Anne Moroney

Dear Sirs and Madam,

Please vote to support SB43 as amended with the Gardner Amendment. Without election integrity, our votes become meaningless. Without a vote reflecting the will of the voters, we have become a dictatorship. There are terrible flaws in the November 2020 election that must be corrected. Please vote for FAIR AND HONEST ELECTIONS! This is a historic time. Your names and actions on this will go down in history. Please help preserve our representational democracy.

Thank you,

Sincerely,

Carolyn Walker

Hi,

As a taxpayer citizen of New Hampshire, I feel very strongly about passing the SB43 bill. There should be a complete forensic audit of both the machines, procedures and the adherence to election laws by officials with regards to the election on Nov 3, 2020 in Windham. What occurred in Windham makes me think that it could have occurred in other towns so without a complete and thorough investigation as a taxpayer I won't ever feel comfortable that my vote counts.

As a New Hampshire resident who is extremely alarmed at the recent undermining of the public's faith in the integrity of our election system, I urge you to approve SB 43 and the related Gardner amendment. It is crucial that we bring full transparency and accountability to our elections. The public deserves a full explanation of the irregularities in the Windham vote tallies.

Thank you.

Dear Representatives,

I am writing to you today as a citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Lisa Collins

Please follow through on this. As someone who works in the election industry, I can tell you definitively that these machines - regardless of the company are NOT secure. Many of the machine options leased to states include modems - a clear violation of Federal election laws.

Please...do it for our country or we will not have one.

Brian

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Frank A Thornton

Members,

I am an American citizen and I implore you to take the many irregularities in the 2020 election seriously.

No matter the party, it is vital that as American citizens we can have faith in our elections.

Please be fair, honest and open minded regarding this travesty that is in your hands. Stand up for Americans, be honest and adhere to the constitution, it's all we have between corruption and a free America.

Your burden is great but your children and grand children will reap the rewards of your bold steps and you will go down in history as the ones who helped to save America  us

Hello,

Per the Article [in www.thegatewaypundit.com](http://www.thegatewaypundit.com)

This is very important to many Americans. We are PRAYING that there are still people in the US in positions of authority that will allow the PEOPLE of this COUNTRY to exercise their rights to confirm a free and fair election.

When we are denied our rights to confirm if an election was free and fair, we have no other option than to believe that someone is hiding something from us that they don't want us to see.

Please, do the right thing: This country wants to know the truth: WE want **SB43** passed as amended with the “ **Gardner Amendment** “.

The NH House Election Law Committee will **VOTE TOMORROW** on **SB43** and Amendment(s). Let the Committee Members know **IMMEDIATELY** that you want **SB43** passed as amended with the “ **Gardner Amendment** “.

Thank you

Importance: Normal

To Whom It May Concern:

Please pass the Gardener Amendment. We appreciate the fact that you are willing to audit the process for this past presidential election. It was very disconcerting to discover that the judicial branch of our government refused to hear the pleas of 78 million voters as we begged them to look into voting irregularities and potential fraud. We wanted OUR votes to be counted and not be disenfranchised due to the fraudulent votes that were counted.

Thank you for voting to ensure voter integrity for future generations.

Susan Kerr

My name is Richard Comtois and I am a long time resident of Windham, NH and I am asking that you please support SB 43 as ammended by SOS Gardner. This bill as amended has overwhelming support of the towns people and we all are very thankful to Ken Eyring for his work and passion.

We have a crisis on our hands with very low voter confidence. Please support this bill and the other 3 bills to help address this crisis in our democracy. HB 480, HB 491 and especially HB524.

Sincerely,
Richard M. Comtois
48 Londonderry Rd
Windham, NH. 03087

God bless America and the great state of New Hampshire.

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

P. Barton

Please vote in support SB 43 with the Gardner Amendment included.
In Exeter we have had investigation into illegal practices in three recent elections. The results of one of those investigations resulted in our Town Moderator and Town Clerk being censured for failing to comply with State Law.
Our AG and SOS need the proper tools to ensure voter integrity and elections.
Thank you.

Dear House Election Law Committee,

I want my vote to count
I want my grown children's vote to count
I want my future grandchildren's vote to count
I want all Americans votes to count!

I want to know that those votes are legitimate and not a programmed or controlled outcome.

We are not a Communist Country
We are not a Socialist Country
We are not a Dictatorship or Monarchy
We are the Greatest Nation on Earth
We are the United States of America!

Our votes have no color
Our votes have no race
Our votes have no gender

But our votes must have power to protect us from tyranny and uphold the one thing that sets us apart from all other nations " the Constitution ".
That one document is hanging in the balance of your Vote!

Imagine when your vote is counted today and the clerk reads back that count and your vote was changed before your eyes. Would you not demand to see an individual count and test the counter. We will never have another honest election in the future if you do not demand the same for my vote!

Be Bold
Be Strong
Be Honest
Be Truthful
Be American

Sincerely
A Constitution Patriot

Dear Sirs/Mesdames,

Please vote in favor of SB43 as amended with the Gardner Amendment.

Sufficient evidence calls for you to vote in favor of this. Let New Hampshire again be a leader in democracy and help ensure the integrity of our and your voting process. There should be no deviation from the maxim: "One person, one vote." Indeed this maxim should be amended to: "One person, one vote, properly counted."

Thank you for your service to New Hampshire and to our country.

Respectfully yours,
Robert W. DuPriest, Jr., M.D., F.A.C.S.

As a citizen who spent a career in implementing systems and ensuring system integrity, it has been very disappointing to learn some of the ins and outs of our voting systems. I am very dismayed to learn of many of the 'weaknesses' in what purports to be a secure voting system.

I'm strongly encourage you to support the "Gardner Amendment" to SB43, and complete a forensic audit of Windham's voting machines and the November 3, 2020 general election ballots.

At a minimum, voting systems should be as secure as financial systems. That means auditable, at random, from any point in the process and should include fully recording all activities on the system, including who, what, when, how and why.

Further, as a retired computer professional, I will volunteer to assist with such an audit and the committee in its endeavor to ensure voting system integrity.

Thanks,

Michael

Dear Committee members,

Please support SB43 with the Garner Amendment included. This is important for not only your constituents in Windham but those across the entire state. Thank you.

SB43 With Gardner Amendment

Dear Representatives:

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it should address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover all of the answers we seek and to address all of our concerns, including those of the Windham town officials.

That process was presented to the public this past Friday March 5th and I fully support it.

Sincerely,
Lara S Scammon

I just wrote to ask you to pass SB43; however I didn't add the gardner amendment is necessary to get to the bottom of this atrocity and get to the truth. The people deserve to have free and fair elections.

Be courageous we need hero's and warriors for the truth!

Thanks,
Karyn Gilmore

To Whom It May Concern:

As a concerned citizen of these great United States I am happy to hear that your committee is looking into a forensic audit of your 2020 election results as it pertains to the machines used for tabulation. While I am a citizen of the great Commonwealth of Virginia I am pleased to support electoral integrity in every state of our Union. It is my hope that you continue to pursue a forensic analysis in the most open, transparent, and bipartisan way possible to bring clarity to the discrepancies you have encountered since November 3, 2020.

I would like to recommend Jovan Hutton Pulitzer services based on his credentials and his most recent 2020 testimony in Georgia. Not only did Mr. Pulitzer verbally educate the committee in Georgia, but he also demonstrated that he was not a man of mere words, but a guide that can take us on a path to vindication. If the results remain the same then so be it. If the results are tainted then he can employ methods to find the truth.

I commend you for your courage to discuss an audit. I encourage you to push for a full forensic audit for the future of free and fair elections for the entire Nation. New Hampshire holds a unique place in history and stands at such a precipice today even as I write this email. Your great state can show the United States, and the rest of the world, that we do stand on the constitution and the rule of law. New Hampshire is demonstrating that we are not becoming a banana republic by ignoring the facts of vote manipulation (whether purposeful or accidental) and our voting systems are supposed to be open to speculation and audit when questions arise in the process of tabulation.

Godspeed New Hampshire! Your state Motto of "Live Free or Die" is not understated in this moment of time as you seek to find the truth behind the statistical anomalies that became all too prevalent during this previous election cycle.

Sincerely,

Rev. Bradley Phil Hawks, COTA/L
Woodlawn, VA

Members of the House Committee on Election Law;

I am writing you as a former member of the House of Representatives, and Chairman of Constitutional Review and Statutory Recodification. Voting, Franchise, is the most valuable of our positive rights (rights created by government). It is so important that it is reserved only to inhabitants of the State (those who have their permanent dwelling here), and to be exercised only in that town in which they have that dwelling, The Constitution of the State of New Hampshire, Part 1, Article 11. It is vitally that every qualified voter have the opportunity to vote, and that only qualified voters vote. An error to either side is a severe blow to the fabric of our society. It is to that end that proudly co-sponsored our current voter ID law.

Now we face a new threat, systemic corruption of the vote counting process. It is clear that there was a systematic error in the vote counting process in Windham on November 3. The four republicans were undercounted by nearly the same amount, three democrats were over counted by nearly the same amount, and one was over counted by an amount nearly 10 times greater. We are fortunate that this error did not change the outcome, and yet even that is a bit peculiar. It is vital to determine if this was a hardware fault, a software fault, whether this error is limited to one machine, or a characteristic of one machine, or whether that machine will even repeat the error. We need to know if this miscount was accidental or intentional. We are truly blessed to have a Secretary of State who has fought so hard to maintain the existence of paper ballots manually filled out.

Confidence in our elections is critical the people's confidence in their government. If they cannot know that the people they voted for are the people making and enforcing our laws, then the next election will be meaningless.

Please support SB43, and a full forensic analysis the miscounts on Windham on November 3, 2021.

Dan

As a citizen that wants America to be a free nation please vote to pass senate bill 43.

"AN ACT authorizing an audit of the Rockingham County district 7 state representative race"

"BIG NEWS! The “Windham Incident” AGREEMENT! – Thank You NH SOS Bill Gardner!"

A forensic audit, professionally done by Jovan Pulitzer and people of the highest integrity in case someone involved isn't so inclined. You could actually save America. Some one needs to do this or we are going to live in one giant miserable world. You very well could be our last chance! You could turn this massive nation wide fraud on its ear!

Our lives depend on you!

Help us!

God bless and thank you,

Bill Gray

Legislators,
Please SUPPORT SB43 as amended with the Gardner Amendment.
Our country is under grave danger if we do not conduct a transparent, full forensic audit of the 2020 elections.
Fulfill your duty as representatives of your constituency to address election integrity.
Anything short of a full forensic audit as outlined in the Gardner Amendment will not do.
Thank you

Hello!

Please vote to get the ballots and machines audited. We need this done so we can all move on. If you don't get it done, then this festers and creates more problems, why not just take care of it and get it done so we can move on?

Thank you!

John Hutchins

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

-Nancy Terwilliger

Someone needs to stand up for election integrity, the Constitution and for Truth Honesty and The American Way!

Right now I only see a nation of cowards turning their backs as not to see what is right in front of them or worse those who are intentionally hiding or destroying evidence and records that are, by their very existence, for the purpose of review.

To the Honorable Representatives of NH:

As a citizen of New Hampshire and a resident of Windham, I write to urgently request that you PASS-SUPPORT SB43 with the Gardner Amendment. There are several questions that need to be answered regarding election integrity in our town and your body is our final resource for settling this once and for all.

Of course, you can imagine, that the Windham situation must also raises questions throughout the state. The possibility that a voting machine/software/hardware could malfunction needs to be considered, addressed and resolved. I humbly ask your assistance in resolving this concern.

Secretary of State Gardner will need the support of the NH legislature to determine the best process to uncover the answers we all must seek. I have great confidence in your Legislative body to assist in this process to help maintain voting integrity for Windham and our great Granite State.

I am in full support of the Gardner Amendment to SB43.

Thanking you in advance for the time and effort you all contribute to our Live Free or Die state.

With much Respect,

Mimi Kolodziej

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Best Regards,

Chris Driscoll

TIME FOR ACTION! New Hampshire House Election Law Committee to VOTE WEDNESDAY on SB43 and Forensic Audits of Windham's Voting Machines — EMAIL LINK BELOW!

By Jim Hoft

Published March 9, 2021 at 9:38pm

Guest post by Ken Eyring in New Hampshire—

If you want election integrity in Windham, NH... then TAKE ACTION! NOW!!! It's not tough to get out of that comfort zone... just do it! The past several months have been filled with others doing the heavy lifting seeking answers to the "Windham Incident."

Last week ended with the excellent news that NH Secretary of State Bill Gardner had agreed to a plan that he wants amended "as is" to Senate Bill SB43. It's being called "The Gardner Amendment." If passed, it would trigger forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020 general election ballots.

Those audits would provide answers to troubling questions surrounding the enormous discrepancy between the November 3, 2020 election day totals and a recount 9 days later.

But there are a few people in influential positions who are against the forensic audits. Who will get their way? You, or them? YOU DECIDE! Email TODAY!!

As a New Hampshire citizen and taxpayer I urge you all to support this amendment. One of the most important things to our democracy is a FREE and FAIR election. New Hampshire again has the opportunity to lead our great Nation and settle this election fraud issue that has causes so much unrest across our Country. Support of this amendment will show the world that New Hampshire truly believes it when we say "Live free or die". Please support this amendment as the majority of your constituents do.

Respectfully, Ian Berkeley Chichester, New Hampshire

This should be a non partisan issue to get to the bottom of what happened in Windham. Our citizens have a right to feel confident when an incident like this happens, that the integrity of our voting is trustworthy. As the First in the Nation Primary state, it is common sense to do this. Please support Senator Giuda's bill with the Gardner amendment.

Thank you.

Hello,

I would like to strongly ask for your support for Senate Bill 43 - The Gardner Amendment. The ongoing suspicions in this last federal election as well as the documented incidents of fraud and shady dealings have created a huge rift in the confidence of American voters. You now have the opportunity to rebuild that confidence by demonstrating that you have the backbone to investigate allegations and take corrective actions.

Please do the right thing and support this amendment!!

Thank you for your time and service.

Respectfully,
Karl W. Spahr III

Dear Representatives. I am emailing to ask you as a concerned citizen to Pass/Support SB43 with the Gardner Amendment. I am asking because I feel it will provide vital answers to all of the questions and concerns raised by the Windham Town Election Integrity Committee. I know many of my neighbors and fellow New Hampshire citizens across the state are deeply concerned with what happened in Windham. Moreover, unless we get real answers to what happened I know many people who will have no more faith in the integrity of our elections. The only process I see fit to get answers is plan put forward by our Secretary of State . Secretary Gardner has used his extensive knowledge and experience to formulate this plan. The plan was presented last Friday by Secretary Gardner and it is my hope the legislature must stand behind him as I and many others do. The future integrity of our elections going forward depend on supporting SB43 amended with the Gardner Amendment. Respectfully. Anthony Wood Seabrook NH

Good morning. As an alumni of Phillips Exeter Academy, it is easy to say that I love New Hampshire and its citizens. It's also easy to ask that you support a complete forensic audit of the machines to preserve the integrity of this recent and future elections for all the students in New Hampshire that will eventually be voting. They must know that, in America, our elections are honest and open, that one vote counts as one vote, not a partial vote, whether its cast for a republican, democrat or independent.

I know I am only one voice, but I hope it can be heard as a contributing voice of millions who want to see the truth.

Many thanks,

pg

It interesting to me that trying to audit the 2020 election results, and particularly trying to audit the various voting machines involved in the election has become almost impossible. If there was no fraud, and the election was fair why not take a look at the voting machines? Close to half the country doesn't believe all is on up and up with this past election.

There has now been only one place where a fair and independent audit of the voting machines was conducted. 68 percent of the ballots were found to be adjudicated manually, election results deleted from the machines, and over 6,000 votes went to the wrong candidate.

Windham, New Hampshire now has experienced a problem with the 2020 vote at the state level. And just like Arizona, Georgia and Wisconsin the voting machines are probably the tightest guarded asset in all these states. Why?

I'm for auditing the voting machines, and I'm hoping that this will happen.

Thanks for your help
Gary Edlund

Hello, I am urgently requesting that you support SB43 with the Gardner amendment, this is a very important issue for the people of New Hampshire and the whole country. The discrepancy in the Nov 3, 2020 votes in Windham, NH indicate that there is a great potential for election fraud which must be addressed by a forensic audit of the ballots and voting machines from the Nov 3 election. PLEASE help us find out the truth

Thank you.

Sincerely,

Carol Olson

Importance: Normal

To Whom It May Concern,

I do not live in your state. However I am asking you as a concerned US citizen to go forward with the proposed forensic audit in your state. In my opinion your are the last opportunity to determine exactly what transpired in the election of 11/3/2020.

It is disgraceful that the SCOTUS turned their collective backs on taking up the cases brought before them. There is great concern on the part of US citizens that our election system/processes were tampered with on 11/3/202 and the days and months that followed and they did not do their job to review these cases. Do they believe the people who signed affidavits were lying? If so, why is no one pursuing them legally?

Please stand up for all American citizens!

G. Nelson

To whom it my concern,

I do not trust the election .. I don't trust our government .. and America has become a total joke .. a clown show .. the whole entire world, is laughing at us!

I'm not laughing .. you better do the full and complete forensic audit on the election.

I want to know what happened and I want to hold those responsible for the crazy election results. Lock them up and throw away the key!

Please send/email a copy of the audit report to me.

Sincerely,

Jason Van Valin

You must go forward to create election integrity. If the rights of the American people at large are compromised your rights are next. Why would a State legislator imagine himself to be member rather than a tool of the political elite once perpetual power is in their grasp.

Dear New Hampshire Senators:

I am writing to you as a concerned US citizen in support of SB43 as amended with the Gardner Amendment.

In order to bring back the people's trust in the American election process, it is important for each state to do forensic audits of the voting equipment used as proposed by this amendment by auditors not affiliated with Diebold or other voting machine manufacturers. This is why I am writing to you from Minnesota.

Thank you for your assistance in improving election integrity and bringing clarity to what happened this past election by voting for SB43 with the Gardner Amendment.

Sincerely,
Cheryl Johnson
Rosemount, MN

Correction, not a citizen of NH,

Dear Representatives,

I am writing to you today as a concerned American with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Thanks for your integrity and courage.

Mark

Committee Members,

Thank you for your service. I'm reaching out to you today to ask you to please support SB43 with the Gardner Amendment. Americans have lost faith in the election process and we need REAL audits, forensic audits to help restore faith in our US Elections. These audits would provide answers to troubling questions surrounding the enormous discrepancy between the November 3rd election day totals and the recount which was done 9 days later.

Very Respectfully,

Kristin Sterling

There is still much controversy surrounding the 2020 election regarding the use of Dominion voting machines. We need a forensic audit of Dominion voting machines to either substantiate the fraud or exonerate it.

In Arizona the board of election commissioners fought the Arizona Senate to prevent a forensic audit. Despite winning a court battle ballots were found shredded and no audit has yet been performed.

PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

We do NOT want another incident as has occurred in Arizona.

Allen Williams. P.E.

Subject: PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT

Importance: Normal

Good morning,

We the people believe that our 2020 election was stolen and we demand that transparency occurs and that a full unbiased audit is conducted or we will never have confidence in another election. It is the right of people and we fully stand behind this right!

Sincerely,

Patricia Hixson

SUBJECT:
SB43 With Gardner Amendment

MESSAGE:
Dear Representatives:
-or-
House Election Law Committee:

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it should address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover all of the answers we seek and to address all of our concerns, including those of the Windham town officials.

That process was presented to the public this past Friday March 5th and I fully support it.

Thank you,
Pamela Fariole
NH citizen

Importance: Normal

Dear Representatives,

I am writing to you today as a United States citizen who has been monitoring events associated with the November, 2020 election in Windham, New Hampshire closely and with no little concern.

I would therefore request you to please consider passing / supporting SB43 with the GARDNER AMENDMENT because it will provide important answers to questions that have been raised by the Windham Town Election Integrity Committee, and which are naturally shared by **all** citizens who are concerned with preserving free and fair elections for our Republic.

Historic, never-before-seen events surrounding the 2020 election have left many of us with the impression that such idea of free, fair, and above all **transparent** elections reflecting the will of the American people are on the verge of being lost in our country.

At a minimum, these events have shaken faith in our civic institutions and formulated a great deal of doubt and mistrust among the American people as a whole; and confidence in this most sacred building block upon which our country rests has subsequently been reduced across the country.

You therefore have an historic opportunity to do something at this time for the sake of **both** New Hampshire-- the state who's very motto boldly proclaims its intention to "live free" in perpetuity--- as much as you have an even larger opportunity to provide a great service to our country.

If there is no fraud--- simply show us that, and you will provide this service to the residents of your state and fulfill the duty of your office.

If there **is** fraud, however--- and on the widespread electronic scale that circumstantial evidence would have many of your fellow countrymen believe-- your service to your state, and your country, and even perhaps to history, will become so much the greater.

Respectfully, and with Grave Concern,

MA Thue
Grand Rapids, Michigan

Dear House Members,

I don't live in New Hampshire; however, we are the United States, and as such, each state influences the continued unity of all--America.

I ask that you support SB43 as amended with the Gardner Amendment. I am sure that the results of the action items put forth in the amendment will have a major influence on other states. In their confidence to push forward with similar measures to ensure their election processes in 2020 were—and all future elections continue to be—safe and secure.

I look forward to the reviewing the results of the analysis.

Thank you for your courage in taking the necessary steps to ensure American citizens can have faith in its free and fair election processes.

Sincerely,
Shannon Taylor

Hi,

We are constituents from Litchfield NH and very glad to hear that our state is taking action to shed light upon and investigate election fraud.

What happened in Windham feels like a despicable instance of what was allowed to happen across the US in November 2020.

Please give Secretary of State Gardner the tools he needs to expose and combat this threat to our free society.

Thank you,

Hello,

The people of New Hampshire and the people of the US need to know what is going on in these precincts and counties with voting irregularities. These issues breed no confidence in our election system and thus the problems need to be investigated and addressed before any further harm is done.

Thanks,

Josh

Please pass SB43. We all know the machines had a Weighted Ratio in it. New Hampshire numbers are wrong. Whoever doesn't want a Forensic Audit knows something is wrong and doesn't want us to find out. New Hampshire is a tight family and we can't trust future elections without a real Audit. Not no fake one. We will know if it's a legit one or not. We are no longer stupid!! 2020 Election doesn't make any sense anywhere around about 35 states.

Thank you for reading my email - I'm sure you've received many on this matter.

Please amend SB43 with the Gardner Amendment the discrepancy between the 11/3 election day totals and the recount totals just 9 days later must be resolved. Please do this for the sake of our country - please follow the constitution so every vote in our great country counts via forensic audits on Windham's Diebold AccuVote voting machines. Thank you.

Sent from my iPadDear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Timothy Henrick

Nothing is more important than election integrity. Please pass SB43 with the "Gardner Amendment."

This is of national importance. As you realize, there is a lot of controversy around the 2020 election. Let's put it to rest by doing the right thing—looking into it, fixing it (if need be), getting the facts. Let's not be afraid to take a hard look at the elections.

Nothing is more important to this nation than election integrity. Thank you!

Dear respected Members of the NH Election Law Committee,

I have been following the Windham incident for a few weeks.

I am pleased to be informed that:

NH Secretary of State Bill Gardner had agreed to a plan that he wants amended "as is" to Senate Bill SB43!

Please support SB43 passed as amended with the "Gardner Amendment.

Respectfully,

Kathy Manson

Dear House Election Law Members,

I am a Judge and Chief Judge for the Board of Elections in a city in North Carolina, and deeply concerned with the ways that the 2020 election appear to have been manipulated and falsified. Because of the failure of so many of our own institutions to conduct a clean and transparent election, and the failure of so many of our law enforcement and judicial bodies to investigate and hear the concerns of citizens, there is now a DEEP suspicion of the legitimacy of the announced outcomes. That suspicion pertains to all aspects of the 2020 election, from the most minor local campaign to the top of the national campaign.

Because of the events in Windham, you in New Hampshire now have the singular honor and opportunity fully to reveal the reality of the election in your state. So far, no other state has had the courage to address this issue. This suspicion and uncertainty is a toxic poison to our nation, and causes hostility between neighbors and families. I URGE you and PRAY that you will take this opportunity to resolve the uncertainty of the election results in New Hampshire.

With deeply sincere thanks, Laura Gutman, M.D. (Durham, NC)

I live in Arizona and it is important that people in NH fix the election issues caused by a rigged system and those who put it in place...I believe in 1 person, 1 vote, voter ID, same day voting, no mail in ballots, absentee with few exceptions, paper ballots, receipt of how you voted..

We live in a free country and we have to have election integrity..Please show us the way...Arizona is struggling to get a forensic audit done because there are powerful people who don't want the light to shine in the darkness..

NH can be that light...

Hello. Please do the right thing for the American people. Will just ONE person or ONE group of people take a SOLID STAND and do the right thing??? And STAND UP TO THIS FRAUD THAT HAS BEEN ALLOWED TO CONSUME HALF THE COUNTRY. It's MORE THAN enough already!!! Our country is suffering soooooo bad now at the hands of the Biden administration. They are Absolutely destroying America!!!! And QUICKLY TOO. In the matter of just a little over 7 weeks, starting with his FIRST HOUR in the WH KILLING thousands of UNION JOBS!! If the correct (elected) person was in office, if it weren't for ALL THE FRAUD, the true president would be residing in the WH. And the American people are NOT BLIND OR DUMB, and we ALL KNOW WHAT HAPPENED!!! The MSM, and ALL the crooked actors can try to FAKE, MANIPULATE and HIDE THE FACTS ALL THEY WANT TO, but ALL that does is Totally INSULT the American people because WE KNOW THE TRUTH!!! And it makes THOSE PUSHING THE DECEPTION Look like the incredible LIARS they all are. Manipulating the public and LYING to the American people DAILY. IT'S DISGUSTING!!!! Literally TOO MUCH TO WATCH. Its awful what they are doing, have already DONE, to our beautiful country. YOUR ACTIONS CAN HELP STOP THAT. THE TRUTH NEEDS TO COME OUT to ALL AMERICANS!!! THE AMERICAN PEOPLE WILL NEVER FORGET NOR WILL THIS WOUND INFLICTED ON THE AMERICAN PEOPLE EVER HEAL. It's horrible what this MASSIVE FRAUD has allowed a PHONY administration to get away with. They are doing WHAYEVER, EVERYTHING they want whether there is agreement or not. That's NOT what our founding fathers would want!!! Yet that IS what this FRAUDULENT ELECTION HAS ALLOWED. And not ONE JUDGE (ALL CROOKED) OR ONE SINGLE COURT looked at the MOUNTAINS OF EVIDENCE. SHAME ON EVERYONE INVOLVED!!! If you have grandchildren you are leaving behind on this earth then you should want to FIX THE FRAUD EVEN MORESO. And lets NEVER FORGET, God is ALWAYS watching.

Importance: Normal

Dear Representatives,

I am writing to you today as a US citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across the state and across the country.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Louise Barrera

The People's vote is sacred.

The People want free, fair, honest, and legal elections.

Elections must have full transparency.

Any election fraud or problem needs to be fully investigated, that should include a full forensic audit of any and all voting machines and the actual ballots.

Please protect the American People's vote.

Thank You,
Sincerely
Dan Halloran

Good morning,

I believe you are voting on this today. I am asking that you support SB43 as amended with the Gardner Amendment. Both our constitutional and God given rights are being trampled on. We witness it every day throughout the country. We need election integrity and for lawmakers to uphold our constitution by safeguarding against corruption. As US citizens, it is our job to make sure the lawmakers we put in office will do the jobs they are sworn to do.

Jessica H.

Dear NH State representative,

This country needs its people to stand up for election integrity. Please have the state of New Hampshire be the first to support election integrity with a forensics c audit. I am a very concerned resident of CO, but feel strongly that all states must follow consistent election laws and audit ballots and the vote counting and tabulation machines to verify election integrity. The fate of our country depends on it.

Thank you,
Bill Schreiner

I sincerely request you investigate the possible voter fraud identified in the Windham recounts. Forensic audits of tabulating machines are not enough, as the electronic program can, and probably has been deleted after the fact. The voters of New Hampshire need to have their confidence in the voting system restored by hand recounts in several if not all Wards and Precincts. The damage done is on par with MtBE, Opioids, Tobacco, and PFAS. A multi-billion dollar lawsuit against those found responsible would more than pay for the costs of recounts and restore our First in the Nation Primary State status as having fair and honest elections.

Machines can be programmed to operate normally until a time and date, or more likely after the initial paper tape receipt is printed at the opening of the polls. Please consider that the technology exists to perform as follows:

- Candidate R votes are then counted as 0.75 for Candidate R, and 0.25 for Candidate D, while Candidate D votes are counted as 1.0 for Candidate D. Anyone that has worked with Excel formulas is familiar with this.
- So, 100 votes for each would tally as 75 for R, and 125 for D, total equals 200 which matches the number of ballots cast, but not the vote.
- The check and balance at the end of the voting is counting the number of ballots issued, minus voided ballots, and accounting for the non-issued ballots. Whereas the 0.75 and 0.25 votes equal 1.0 the total tally is within the margin of error of the total votes cast.
- The printing of the tally at the close of voting could then initiate a deletion of the fraudulent program and be lost forever.

A hand recount to confirm the tabulated count is the only way to return voter confidence. The vote, illegal or not has been ratified. Nothing will change, only we will have confidence in future elections. The ballots are in sealed boxes and wait for your action.

Full disclosure, I received 5% less votes than my competitors in Cheshire District 12, or did I?

Sirs,

Please support SB43 with the Gardner Amendment. This will provide much needed forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020 general election ballots.

Thank you,

Daniel Leonik

Senators,

You are making headlines all the way down in Atlanta, Georgia! We are rooting for you, and ask that you support and pass SB43 as amended with the Gardner Amendment. Our country is at stake!

We need a complete, transparent forensic audit of Windham's voting machines and the November 3, 2020 general election ballots. Audited by a 3rd party that in no way is affiliated with Diebold/AccuVote and has no history with them or Dominion.

God speed and protection!

Thank you so much,

Richard Besselink

Dear New Hampshire House Election Law Committee,

New Hampshire should amend the Gardner Amendment as is to Senate Bill SB43. Forensic audits are needed on Windham's Diebold Acuvote voting machines and the Nov 3, 2020 general election ballots. This audit is necessary in order to get to the bottom of the giant discrepancy found between election day numbers and those found in the recount 9 days later. We must do the right thing and keep New Hampshire a shining beacon for the rest of the country, and the world, to look to for guidance. Be a leader, not a follower. Do the right thing. Thank you

Sincerely,

Reed Fulton

Good Morning,

This Craig Taylor from district 1 North Conway, NH.

Do we really need a new law to audit the obvious irregularity? It appears the answer is yes. I support the passage of SB43 as amended with the Gardner Amendment.

Thank you for hearing my voice.

Best Regards,
Craig Taylor

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I strongly support it.

Respectfully,

Dr. John Hey

Hudson, NH

Dear Members of the House Election Law Committee,

By now it is apparent to everyone that the November 3, 2020 elections were 'rigged' by foreign players who successfully stole the 2020 elections all over the country.

THEY would not have been able to do this if we had not agreed to let our votes be counted by private proprietary software companies like Accu-Vote and Dominion and ES&S. We need to change that going forward. The people of the state should own the software and machines to prevent this from happening in the future.

Please support SB43 as amended with the Gardner Amendment.

I look forward to reading the results of your your deliberations.

Remember, it was Stalin who said it's not who votes, but who counts the votes that matters. We're counting on you to do what's right to restore vote integrity to New Hampshire.

Sincerely,
Joan Donahue

New Hampshire House Election Law Committee,

Good morning. I have been following the news on the integrity of the elections throughout our nation over the past multiple months. As is every American, the actions or inactions of every state affect us all. I am very thankful for what looks to be genuine concern and integrity in NH over the inconsistencies that have been found in Windham, NH. This is a critical time in our nation. The federal government and courts have failed all of us. The responsibility and accountability has fallen to the just authority of each and every sovereign state to stand for the rule of law, justice, its own state constitution, and the constitution of the United States. I respectfully ask that you vote in support of the forensic audits on Windham's Diebold AccuVote voting machines AND the November 3, 2020, general election ballots in SB43 and Amendment(s). Please take action in passing SB43 as amended with the "Gardner Amendment" immediately.

Thank you,
Mike Bigg

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Walter Adkins

Pass this please so our future elections aren't for nothing. We need free & fair elections in our country. If we don't stop the rampant voter fraud & judges who judge on the side of "politics", the Marxists in our country & in OUR White House WIN! And The idea of America is over ..FOREVER! PASS THIS BILL & tell our founding fathers their work , & blood shed to achieve it, was not for nothing!

Dear Representatives,

I am writing to you today with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across the state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Regards,
Harriette Glover

Good morning all,

The subject bill, as amended, and the audit it proposes appears to be a rational approach to an extraordinary matter. Too many questions regarding our elections remain unanswered. This bill proposes a tool to help provide answers which should aid in restoring credibility and, more importantly, trust in the election process. Regardless of your political affiliation, trust in the process surely should be a common concern for all Granite Staters. There is no downside to ensuring our election process is above reproach.

Thank you for your work and consideration of my message.

Respectfully,

Christopher Guerin

Hello. My name is Doug Schmal. I want a audit done for sure. Why wouldn't you? Is the bigger question. With all the cancel culture, executive orders, non bipartisan votes, radicalism, hypocrisy and double standards, audits and law suits should be heard in every state. If there's nothing to hide, then be transparent and let everyone see each argument. It's called democracy. It's called the Constitution, and it's every "legal" citizens right to know what happened and who is involved.

I live in NH and I honestly believe that there was election fraud in every aspect of the last election. It's disgusting where we as a country are headed. We are the laughing stock of the world. We lock down our citizens and hold them to unconstitutional mandates on COVID-19 but let hundreds of thousands of illegals come in carrying what we've been fighting for a year with no tests, no jobs, no screening. We are told by Democrats walls don't work and the border protection is unnecessary. They are unjust, inhumane, xenophobic, unAmerican. Yet look at what they did to the capital. The hypocrisy and double standards are insane.

Please, do the audit!!

Thank you,

Doug Schmal

Dear NH House Election Law Committee members,

Please PASS-SUPPORT SB43 with the GARDNER AMENDMENT.

There are many important questions and concerns that have been raised by the Windham Town Election Integrity Committee, and these need to be addressed and answered for those in Windham, as well as those of us in other NH towns.

As you consider input from other sources, including other proposed amendments, please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan.

Please support Secretary of State Bill Gardner and his plan to get to the root of our concerns about the vote count discrepancies in Windham.

Respectfully,

Donna Price

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

As someone who voted in town I feel that one of the votes stolen could have been my voice silenced.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

John Bettencourt
WINDHAM NH Resident

Dear Legislatures,

Please consider what is on the line in this great nation and the state of New Hampshire, and support passing SB43 as amended. While other states sit back and play silly games avoiding serious audits of their ballots and machines, I would like to think the Granite State is better than that. A recent poll conducted by The Hill suggests 65 percent of all Republicans think the election was stolen. People believe it because their legislatures don't have the courage to conduct a serious investigation – they fight like hell to not conduct a forensics on either the paper ballots or voting machines.

The state of New Hampshire has an opportunity to put these election anomalies to rest once and for all. The more states refuse to do their jobs and investigate, the more the people lose faith in the way we vote.

Thank you for your time!

Aloha,

Mike Ryan

Dear Representatives,

I'm not a citizen of New Hampshire, but I live in GA. I have seen the damage election fraud can do. Please DO NOT BE live GA in this regard !!

I urgently request you to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee. Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state. As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

Ralph Hayes Gunn

As a retired law enforcement officer I realize a hugh part of the American people feel the election was stolen from President Trump. Every effort should be made to show the election was legal. Why would you resist proving it was a legal election and the results were truthful. Not to do so will just inflame half of the country.

This past election witnessed the most massive voter fraud effort ever conducted in the United States. Biden himself publicly stated that he had built the most extensive and inclusive voter fraud organization in the history of American politics. The only way to insure the legitimacy of the election process, and the confidence of the American people is to forensically audit election results. Electronic voting should be prohibited, with paper ballots being the standard procedure, ballot harvesting should be prosecuted, mail in ballots should be prohibited, voter ID should be required, chain of custody requirements strictly adhered to, bi-partisan election monitoring mandated with poll watchers allowed within arms reach of vote counters, and all vote counters should be required to be recorded on video.

It is critical to the continued viability of our state and nation that any allegation of election irregularities be fully investigated and, if warranted, corrective action taken. This should not be a partisan issue. It is vitally important to all that our elections be fair, fully transparent, and able to survive the most exacting scrutiny.

Hello for the sake of transparency and ethical elections **PLEASE SUPPORT SB43 AS AMENDED WITH THE GARDNER AMENDMENT.** If we do not have valid and honest elections then our republic is lost. I pray for our country and you to do what is righteous. I wish the burden was not on you but this is the time to choose if you have preferences or principals. We truly need to know for the health of your state and our country what really transpired in this election. The winner is the winner no matter who it is but let's make sure there is no doubt who that is.

Thank you for reading this
May god bless and keep all of you!

You have found yourselves in the unenviable position of deciding the fate of election integrity in this Republic.

Why? Others before you have failed this nation. Was the election stolen? Have State or Federal laws been broken?

Only a full forensic audit of all machines and physical ballots will answer this question. Truth is everything.

The one man to do this with the skill and integrity needed is Jovan Pullitzer.

Our Republic can only be preserved if truth is revealed.

God has placed you in this position for such a time as this.

Isaiah 41:10

Godspeed in your work today.

I am writing to urge you to please pass SB43 with the Gardner Amendment. I have been following all of the election fraud cases closely and am convinced there was massive fraud. This is New Hampshire' chance to take a strong stand for election integrity and uncover fraud. Hopefully this will then trigger similar audits in other states.

Free, honest elections are absolutely necessary if our Republic is to function. Fraudulent elections lead to destruction, and even death as has happened in other countries.

Live Free or Die. If fraudulent elections are not fixed, that is the death of our Republic.

Lets go people. Do your job. you work for us not the other way around. We pay your salary. Do what you are paid to do. Look after we the peoples best interests. A full forensic audit of the machines and the physical ballots, not the images is warranted and you know it. Time to be transparent. Quit letting the corrupt officials stall on this and get this done. If no cheating was involved then we all walk away and deal with the results. If however you do find manipulation, fraud and machines and ballots being altered and attached to the internet then the election needs to be thrown out immediately and the whole state wide election needs to be audited with the evidence. The state legislature is in control here, not the AG, mayors, secretary of state or the Governor. 23-0 in the senate you all voted for this to be done. NOW DO IT!!!!!! I may not be from NH but half the country are all tired of seeing the evidence and nobody does a damn thing about it.

Settling the concerns of this festering issue needs to be topbpriority. i echo the gentleman that stated this should have been in Nov. Look at the pain the is facing since all the overt efforts to deny and refuse simple audits... This may simply be a simple mistake, but we will not know without this being passed as is. not watered down. if there is any change it should to add more 3rd party not involved forensics experts, but not changing or reducing what is in place. It is impossible to move on when all appearances, not just here but across our incredibal country, suggest a cover up. These concerns completely undermine the simple and basic trust and belief that our government is for the people. I thank this group for the open and candid work with the community to get us to this point. We are so close to resolution in this county.

Importance: Normal

Please vote for SB43 as amended with the Gardner Amendment. New Hampshire has an opportunity to conduct itself better than other States did in the last election.

Thank you,

Theron G. Burrough,
Michigan

Dear Representatives,

I am writing to you today as a NH citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee.

Equally important, it will address all of the remaining concerns and questions raised by many NH citizens across our state.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

That process was presented to the public this past Friday, and I fully support it.

Respectfully,

June M. Fahey

Dear Members,

Please vote Yes in support of SB43 as Amended With The Gardner Amendment. Your Courage and Perseverance is pivotal to changing the direction of this country. Our election process has been compromised and You have the chance to change it's direction. As a 'New Englander' from birth, I know you have the Moral and Personal Fortitude to see this through. Our Nation needs you to support this bill. Please, please, please support this bill.

GOD Bless you all,

Sincerely,

Madeleine Ecker

Dear Representatives,

I am writing to you today as a MA citizen with an urgent request to PASS-SUPPORT SB43 with the GARDNER AMENDMENT because it will provide important answers to all of the questions and concerns that have been raised by the Windham Town Election Integrity Committee, which ultimately impacts the rest of the country. It could uncover a key piece of the election integrity puzzle as many states and counties use the same voting systems and software.

As you consider input from other sources, including other proposed amendments... please put special emphasis on the fact that Secretary of State Gardner used his extensive experience and knowledge to formulate his plan. The Secretary must be supported by our legislature in order to define the best process to uncover the answers we seek and to address our concerns, including those of Windham.

This great country is counting on Windham, NH to forensically audit the machines and software to give our citizens the answers we deserve and restore confidence in our elections. Furthermore, I recommend Jovan Hutton Pulitzer for the job!

Respectfully,

Tanya Loughlin

Importance: Normal

All,

Please stand up for election integrity! Wyndham's conflicting results on 11/3 and the recount makes me and most all NH voters that fraud occurred statewide. A full forensic audit of ALL election artifacts, machines, and software should be performed statewide. The audits must be performed by independent experts with both parties present. Jovan Pulitzer might analyze the physical ballots for free.

Attention should be made to adjudication rates statewide.

Thank you and soon the country will thank you if you do the right thing

Please support SB43 as amended with the Gardner amendment and ensure that we have fair, transparent, and free elections. It would be unconscionable to not thoroughly investigate the 6% change in votes negatively affecting every Republican. A complete forensic audit of all the ballots and the voting machines is key. Please do the right thing.

Sincerely,

Nina Morrissette

I do not live in NH but any kind of election fraud or discrepancy like the one you had does effect me as a voter. After this election I do not have any trust in a fair and honest election in the future. These problems that occurred in the 2020 election must be investigated before we can believe again. It is not enough to make laws going forth, we must see what happened this time.
