Summary of testimony presented in support:

Representative Suzanne Smith
Grafton – District 8

- HB 193 is a reintroduction of HB 1414 (2020) as amended by the House. HB 1414 died on the Senate table due to the disruption of legislative activity because of the COVID-19 pandemic.
- NH is one of the most forested states in the country. NH takes timber trespass very seriously by penalizing those who cut trees on a landowner's property without that landowner's permission.
- Under current statute, when a logger is hired by a landowner and that landowner provides incorrect information on where their property boundary is, the logger can be prosecuted for timber trespass. HB 193 expands the timber trespass statute in RSA 227-J:8, I and RSA 227-J:8-a, I to include a landowner who may purposefully misstate where his or her property boundaries are located.
- HB 193 clarifies the responsibilities of all parties involved in timber harvesting relative to timber trespassing. While HB 193's proposed language will not change how the current law is enforced, the bill extends culpability to the landowner who may have provided erroneous information about property boundaries that enabled the timber trespass to occur.

- HB 193 neither lessens the shared responsibility of the timber harvester to conduct thorough due diligence to ensure the correct location of a landowner's boundary lines nor increases or decreases timber trespass penalties.
- HB 193 was recommended "ought to pass with amendment" by the House Resources, Recreation, and Development Committee by a vote of 20-0 and was placed on the House consent calendar. The full House adopted the committee's recommendation by a voice vote.
- Senator Watters clarified that HB 193 ensures that a landowner will do his or her due diligence in properly identifying their property lines. A logger may welcome HB 193's language to ensure the logger is not the only party that is punished for any timber trespass.
 - Representative Smith agreed with Senator Watters.

Jasen Stock

Executive Director, NH Timberland Owners Association (NHTOA)

- HB 193 expands the culpability to not only the individual who cuts a tree in a timber trespass case, but the landowner who caused the tree to be cut in a timber trespass case.
- HB 193 aligns with the basal area and slash portions of state statute and brings some consistency.

The Honorable Kevin Avar, Chairman
Committee on Energy and Natural Resources
New Hampshire State Senate
Concord, New Hampshire 03301

Dear Mr. Chairman and Members of the Committee:

Thank you for you for this opportunity to express the Forest Society's support for House Bill 193, a bill to clarify the state law regarding timber harvesting.

As you know, the Forest Society is a state-wide non-profit land trust founded in 1901 whose mission is to "perpetuate the forests of New Hampshire through their wise use and their complete reservation in places of special scenic beauty". As part of our efforts to carry out this mission, we own over 57,000 acres of land on 190 different properties around the state.

Unfortunately, we have experienced situations in which adjacent landowners to our properties, or parties hired by those landowners, have inappropriately harvested timber from our lands. In some of these cases, we were able to receive restitution. However, we believe the changes to RSA 227-J:8 proposed in this bill will increase the level of due care taken by anyone involved in a timber harvest by clarifying the line of responsibility. The result we hope will be lessen the likelihood of future violations of the timber harvesting laws.

The Forest Society supports sustainable forest management, including sustainable timber harvesting. This goal depends in part on ensuring everyone understands the goals of their fellow forestland owners. This recognition starts with knowing where the property line is.

We would encourage the Committee to pass House Bill 193. Thank you for your consideration.

Sincerely,

Matt Leahy, Public Policy Manager
Society for the Protection of New Hampshire Forests

Re: HB 193-relative to penalties for improper timber harvesting

Dear Chairman Avar and Members of the Committee:

Thank you for the opportunity to testify regarding HB 193, relative to penalties for improper timber harvesting. The Department of Natural and Cultural Resources, Division of Forests and Lands *supports* this bill as passed by the New Hampshire House of Representatives.

The Division of Forests and Lands is the state agency charged with the execution of "all matters pertaining to forestry, forest management, and forestlands within the jurisdiction of the state". We are also the primary agency responsible for the enforcement of timber harvesting laws.

We support this bill as it helps clarify the responsibilities of *all* parties involved in the harvesting of timber relative to timber trespassing. While the added language will not change how the current law is enforced, it more explicitly extends culpability to the landowner who may have provided erroneous information about property boundaries and thereby enabled the timber trespass to occur.

That said, the refined language does not lessen the shared responsibility of the timber harvester to conduct his/her own thorough due diligence to ensure the correct location of all boundary lines before commencing operations.

Thank you for the opportunity to testify. If I can provide any additional information, please let me know.

Respectfully,

Patrick D. Hackley
Director, NH Division of Forests & Lands
