Summary of testimony presented in support:

Senator Harold French

- This bill was introduced on behalf of the Insurance Department.
- It would repeal the requirement that applicants for coverage under New Hampshire policies of automobile insurance sign statements of residency.
- **Senator Gannon** worried that people from Massachusetts would insure their cars in New Hampshire, which would create a riskier pool here. He believed people are more apt to cheat if they don't have to sign a form. Senator Gannon wondered if his worries were founded.

- **Senator French** said he didn't believe so because if a situation like that were to happen, then a person would be taking a great risk since they wouldn't be covered by their insurance.
- **Senator Gannon** stated that he thinks people are more honest when they are required to provide a signature.
 - **Senator French** told Senator Gannon to ask the Insurance Department because they might be able to give statistical data on these situations.

James Fox, Director of the Property & Casualty Division, NH Insurance Department

- As Senator French stated, this bill would simply remove the residency form requirement. Currently, New Hampshire is the only state to have such a form.
- In New Hampshire, there are two standards for obtaining a personal line auto policy. A person would have to be a resident of the state as established in Rule 1400, or a person's vehicle would have to be exclusively garaged within the state. Under this bill, these standards would remain unchanged.
- The exclusively garaged eligibility standard, according to Mr. Fox, exists in all 50 states.
- To address Senator Gannon's concern, Mr. Fox said that the department hasn't found any type of evidence that out-of-state people are obtaining New Hampshire auto insurance policies. In fact, policies might not be cheaper in New Hampshire because prices are dependent upon location.
- In the digital age, Mr. Fox stated that insurance companies and agents have a greater ability to determine where people live.
- The goal of both insurers and the state is to ensure that people have the correct policies in the correct states.
- Another reason for modernizing the existing statute, according to Mr. Fox, is due to the anti-consumer nature of these forms. Since New Hampshire is the only state to require these forms, it can be difficult for insurance companies to recognize them. There are cases where insurers may misplace a form, which could result in a cancellation of coverage for a consumer. Also, some companies, such as State Farm, require each car to be insured separately, which increases the number of forms that need to be filed.
- Mr. Fox reiterated that the Insurance Department would like to remove this form, which doesn't exist in any other area of insurance.

James Hatem, on behalf of State Farm Insurance

- Mr. Hatem said this law has been in place for about 20 years, and it has been the biggest issue for local State Farm agents.
- Due to the system used by State Farm, this form must be signed any time a person buys a new car, sells a car, or adds a trailer to an existing vehicle.
- In response to Senator Gannon's concerns, Mr. Hatem said that there has only been one claim affected by a misstated or fraudulent residency form in 20 years.
- While this form may have served a purpose previously, Mr. Hatem concluded that it's no longer necessary anymore.

Lindsay Nadeau, on behalf of the NH Association of Domestic Insurance Companies

- Ms. Nadeau said the New Hampshire Association of Domestic Insurance Companies supports this proposal from the Insurance Department.

Summary of testimony presented in opposition:

Michael McLaughlin, on behalf of Allstate Insurance

- Mr. McLaughlin said Allstate Insurance had a concern over the language of the bill, which they felt would make it difficult to take any action against a non-resident with New Hampshire insurance.
- Specifically, Mr. McLaughlin stated the concern was over the term “exclusively garaged” on line 6 and the phrase “intentionally misrepresented” on lines 8 and 9.
- Mr. McLaughlin said that the term “exclusively garaged” is not defined in law; therefore, what would constitute an exclusive garaging situation, including the length of time a car must be garaged, would need to be addressed. Additionally, the phrase “intentionally misrepresented” would constitute a higher burden of proof than a simple misrepresentation.
- Overall, Mr. McLaughlin reiterated that the concern is that these phrases aren’t defined in statute and they raise the standard of proof for someone who has taken advantage of the system.
- According to Mr. McLaughlin, the form requirement was originally adopted because there were people registering or garaging their vehicles in New Hampshire, but they were living in the Boston area.
- **Senator Bradley** asked if the Insurance Department could address the concerns raised by Mr. McLaughlin. Senator Bradley requested this exchange be highlighted to ensure the legislative intent of the bill was shown.
 - Mr. Fox replied that the “exclusively garaged” rule has already been the standard under existing law. Additionally, he said that the Insurance Department would rely on the New Hampshire Supreme Court’s interpretation of the plain language if necessary. Mr. Fox said the goal of the phrase “intentionally misrepresented” is to block bad actors from gaining coverage. This phrase isn’t intended to apply to an individual who may have unintentionally or negligently obtained insurance due to a misunderstanding.
- **Senator Bradley** wanted to clarify that Mr. Fox thought the term “exclusively garaged” didn’t need to be interpreted since it had been in law for over 20 years.
 - Mr. Fox responded that he would agree with that statement.

THE COMMITTEE ON Commerce

to which was referred **SB 36**

AN ACT relative to residency under auto insurance policies.

Having considered the same, the committee recommends that the Bill

OUGHT TO PASS

BY A VOTE OF: 5-0

Senator Harold French
For the Committee

This bill was filed at the request of the Insurance Department, and it would repeal the signed statement of residency form requirement for automobile insurance applicants. An applicant would still have to be a resident of New Hampshire or their vehicle would have to be exclusively garaged in the state. Fundamentally, this bill would modernize the existing process, align New Hampshire with the national standard, and protect consumers. Currently, for example, consumers may have their insurance inadvertently canceled by an insurer if their signed form gets lost in transit.
