MAJORITY COMMITTEE REPORT

Committee:	Judiciary
Bill Number:	CACR 18
Title:	relating to reproductive medical decisions. Providing that the state shall not infringe or unduly inconvenience the right of reproductive medical decisions.
Date:	February 22, 2022
Consent Calendar:	REGULAR
Recommendation:	INEXPEDIENT TO LEGISLATE

STATEMENT OF INTENT

This CACR seeks to codify in our NH Constitution a right to abortion. This appears to be one of many bills this session introduced as a result of the Fetal Life Protection Act. New Hampshire's 24-week abortion ban became effective January 1, 2022. At the public hearing, an abortionist was asked how many late term abortions were performed in NH before the ban took place. We were assured that they were very rare. There is no data to support or disprove this because NH does not require statistics. In fact, we are one of only three states (CA and MD are the other two) that does not report data to the Centers for Disease Control and Prevention (CDC). Looking at another state with similar legislation, New York had a 24-week ban in place from 1970 to 2019. Did it impact abortion access? The numbers don't bear that assumption out. In fact, in New York City in 2015, about one in three pregnancies ended in elective abortion. And in some demographics, for example, non-Hispanic Black children, more babies were aborted that year than born alive (25,698 aborted to 22,838 live births). And if we were to argue that access is particularly an issue for the poor and low income, fully 75% of elective abortions historically have been performed on either poor or low income women. We don't need to place some vaguely-worded guarantee to the "right to make personal medical reproductive decisions" provision in our constitution. Women have unimpeded access to abortion in the state up until the sixth month, a far more liberal standard even than most European countries, where 47 of the 50 countries in 2021 allow abortion under limited circumstances or at or before 14 weeks' gestation. Only one country of the 50 has a 24-week standard – the Netherlands. Contrast this with our state's previous climate of abortion on demand up to birth. Another line we heard at the hearing was, "It's 2022. We know more." The majority agrees. We know so much more about the life in the womb than we did in 1973. We know that at four weeks, a baby's pain receptors begin to develop, followed by nerve fibers that carry messages to the brain. At six weeks, the baby will respond to touch. At eight weeks, the cerebral cortex starts to develop and will eventually grow to have the same number of nerves as an adult. At ten weeks, if the baby is touched at ten weeks, his/her hands and eyes will open and close. At 12 weeks, not only can the baby smile, he/she now swallows and responds to simple stimulation of the skin. At 20 weeks, all physiological connections are in place to feel pain. At the executive session, it was said that in 1973, they thought the unborn was a "thing." That may be so, but going further back, in the early 2nd century, AD, Didache (The Teaching of the 12) states in Chapter 2, "...you shall not murder a child by abortion nor kill that which is born...". Clearly, the life of the unborn was viewed as something to protect and defend. For those of us who believe that life begins at conception, and that the unborn life is truly a human, a ban on late-term abortion is a huge compromise on our part. To enshrine abortion violence in the

Date:	February 22, 2022
Consent Calendar:	REGULAR
Recommendation:	OUGHT TO PASS

STATEMENT OF INTENT

The minority believes that this proposed amendment to New Hampshire Constitution augments the recently approved Right to Privacy Amendment added by the voters in 2018. The 2018 Amendment provides, "An individual's right to live free from governmental intrusion in private or personal information is natural, essential, and inherent." This CACR would refine citizens' privacy rights and prohibit the State from infringing upon or inconveniencing a citizen's right to make reproductive medical decisions.

TESTIMONY

***Rep. Toll Sponsor** This will add protection for reproductive rights to our constitution. We believe all people have a right to reproductive justice. When I was a teenager, I had to access abortion care, I had to comply with the parental notification law. Reproductive rights include abortion. Reproductive rights is a racial justice issue. Some people have to fight for their right to have children. State interference with regard to the right to have or not have children is state sanctioned violence. By making this a Constitutional amendment, it would prevent all localities and the state from interfering with these rights. I ask you to do justice by supporting this amendment. **Q McLean:** Would this bill trump Roe v Wade and how would it affect our right to regulate abortion? **Ans:** I defer to other speakers. **Q Sylvia:** Would this allow the state to prohibit doctors from performing abortions? **Ans:** I think the State shouldn't regulate abortion. I believe this legislation empowers doctors to do what is best for their patients. **Q Notter:** Are you aware that abortionists in NH do not have to be licensed? **Ans:** I think that is irrelevant to the bill. **Q Isn't it important for us to know who is performing abortions?** **Ans:** The State shouldn't be involved. **Q Horrigan:** This is similar to the Federal 2nd amendment. Would we still be able to have reasonable regulations? **Ans:** Absolutely. **Q McLean:** Do other states have similar law? **Ans:** Vermont is moving in that direction. **Q Wuelper:** The Bill includes "inconvenience". What does that mean? **Ans:** Mandatory ultrasounds, parental notification, and other laws chip away at reproductive rights. **Q Gordon:** Who will ultimately decide what the language in this amendment means? **Ans:** This opens the door to reproductive rights in NH. If the State chips away, it will be challenged, my hope is the state really listens. **Q So that means the courts will decide?** **Ans:** Yes.

Rep Altschiller sponsor support in 2018 we added Part I Article 2b establishing the right to control over personal information. This amendment builds on that. Chapter 137J says the purpose statement says the person has the right to control their own health care decisions. Pregnancy seems to be the line where Constitutional rights are stripped away. Article I says all people are born free and independent. Article II says all people have natural and inherent right to seek happiness and this right shall not be abridged, except when one is pregnant. Restrictions on abortion violate both these provisions and strip people of their natural right of control over their own reproduction. it is time to enshrine reproductive rights into the Constitution. **Q McLean:** Are you aware of any other Constitutional place where the phrase "unduly inconvenience" is used? **Ans:** It is a Nh original and necessary to adequately protect the reproductive right. **Q Gordon:** We are struggling with what the newly enacted privacy right means. Will we have the same problem with this amendment? **Ans:** The purpose of the Constitution is to establish the things we value. The interpretation is part of our job.

Rep McWilliams sponsor Supports I am here to represent the women of Concord and am proud to sponsor this amendment. I had a problem pregnancy and the decision to surgically remove that ectopic pregnancy saved my life. In a later pregnancy we had to closely monitor the fetus, every month. The ability to make the appropriate decisions were critical. **Q Sylvia:** The doctor is 'licensed by the state and this is a personal decision. Are you proposing we should not license them? **Ans:** I trust my medical professionals, but it was not my doctor's decision. It was mine.

Rep Folsom Graf 11 Opposed I won't address the morality of the law. The language is incredibly broad and will lead to a large number of unintended consequences. We had this debate in the Colorado legislature and found so many the bill never came to the floor. **Age:** there has to be someone involved in the child's life. A 12-year-old needs parental involvement. **Gender:** Yesterday you heard about the father's reproductive rights. This amendment opens the door for fathers to sue for their reproductive rights. **Q Horrigan:** Would this amendment go further than the 2nd amendment? **Ans:** We have regulations on guns but this does go further. **Q Chase:** Do you think women's rights are equally protected now? **Ans:** Even with the Fetal Life Protection Act, the mother has wide freedom during pregnancy. Women still have the right to get an abortion for any reason up to week 25. We also have to look at protecting that other life involved in abortion. **Q Sylvia:** Focusing on the word "unduly", would it be and unduly inconvenience to require that doctors perform abortions? **Ans:** We license all those who perform invasive medical procedures. **Q Simpson:** Age is not in this proposal. Can you tell me anywhere else in our Constitution it is? **Ans:** I don't think so. By not mentioning age in this context, it would open the door for anyone of any age to get any kind of reproductive procedure.

Rep Tony LaBranch Hills 22 Support Polls show large majorities of NH people support Reproductive rights. Let the people decide.

Patricia Myers Self Opposed When the Constitution was written "man" meant all of mankind. No amendment can be made that conflicts with others. This one does. It flies in the face of Life, Liberty, and the pursuit of Happiness. We don't talk about what is in the mother. We talk about the children as if they are property. When a human egg is fertilized it starts to develop into the human being it is. To snuff out that life that had no say in how it got there is murder. I speak for the voiceless.

Liz Canada Planned Parenthood Action fund Support Supreme Court is considering a 6-week abortion ban from Texas and has been asked to overturn Roe v. Wade. If Roe is overturned, it will be up to each state to figure out what to do. I urge you to adopt CACR18.

Renee Monteil Self Support I am a 'Full spectrum' doula. Which means I support women in pregnancy. The women I support are in distress, abused, etc. Any abortion ban confronting one of them just adds to the stress they already face. The more obstacles they face the more violence happens. This bill will ensure these women have no more barriers.

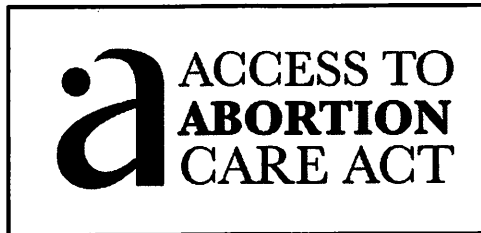

1:04:2

Jodi Newell Self Support I'm from Keene and the mother of two in favor of CACR18. After my boys' father passed, I have had to have an abortion. While the decision was very difficult, it was the best for my family and I want to impress upon you the circumstances, but, at the end of the day, it was my decision to make. Abortion is a fundamental human right and should be codified in our constitution.

[Email] Josie Pinto Self Support It is time to protect abortion. Roe is the floor, not the ceiling. I beg you to support the NH values of bodily autonomy and medical freedom by enacting CACR 18. I won't stand by and watch a 24-week ban turn into a 15-week into a 6-week ban. Vermont and Massachusetts are working to build up their systems to accommodate the expected influx of people from NH. Please don't make that a reality.

Rep Kurt Wuelper

March 2022

In the coming months, two pending US Supreme Court cases could overturn *Roe v Wade*, jeopardizing abortion access in our country. By next year, **26 states** - that's 36 million, or nearly half of U.S. women of reproductive age (18-49) and more people who can become pregnant - could lose abortion access. **This is a crisis moment: the threat to the constitutional right to an abortion has never been greater in our country.**

It is critical New Hampshire takes action now to safeguard abortion access. Until recently, the New Hampshire legislature has enjoyed a long bipartisan tradition of upholding privacy when it comes to personal medical decisions. New Hampshire is one of the most supportive states in the country when it comes to reproductive freedom, and polling shows that New Hampshire's recently-signed abortion ban is deeply unpopular with Granite Staters.

An individual's ability to access abortion care is a matter of equality and liberty for all Granite Staters, which is why we must pass the Access to Abortion-care Act. **If passed into law, then regardless of what happens in the US Supreme Court, abortion will remain safe, legal, and accessible in the Granite State.**

The Access to Abortion-care Act (AAA), House Bill 1674 and Senate Bill 436, upholds long-held New Hampshire values by putting into law that the state cannot further interfere in the right to accessing abortion. This bill does not change any current New Hampshire abortion laws; it does, however, provide critical protections to ensure that Granite State women and families can work with their doctors to get the health care they need in the majority of situations.

The time to preserve reproductive rights has never been more prescient. The current care landscape is the culmination of a decades-long effort to outlaw abortion in the United States. Reproductive rights have been steadily chipped away, from harsher abortion restrictions, the defunding of essential community health centers, and the stacking of federal courts to ensure those policies - which are unpopular with the electorate - stay in place. In 2021 alone, nearly 600 abortion restrictions have been introduced nationwide, with 90 enacted into law — more than in any year since *Roe v. Wade* was decided - including New Hampshire's first abortion ban in modern history.

A broad coalition of health care advocates and organizations have signed on in support of the Access to Abortion-care Act, because we know its passage will protect access to a constitutional right. The undersigned urge the passage of the Access to Abortion-care Act in order to protect access to safe, legal abortion in New Hampshire.

February 10, 2022

My name is Dr. Ilana Cass, I am the Chair of Ob Gyn at Dartmouth Hitchcock Medical Center, the only Obstetrics and Gynecology training program in the Granite State. I am here today as the voice for the women of New Hampshire and their obstetrics care providers. I know you are here today motivated by the desire to better serve your constituency. The Fetal Health Protection Act passed last year does not achieve that noble goal, rather, it imperils the lives, and equal access to excellent healthcare, that the women and families of New Hampshire deserve.

A woman and her partner seek a termination late in pregnancy under great duress and for truly dire circumstances. When a pregnancy threatens the mental or physical health of the woman, or the fetus has significant congenital anomalies, a woman and her partner turn to the expertise of highly trained Obstetrics and Neonatal doctors. These women's stories are truly heart-wrenching as they face this agonizing decision about how to proceed. As of January 1, 2022 many of these women will be turned away from care that we are fully capable of providing here in New Hampshire. They will be forced to travel great distances away from the support of their communities and families, incur additional expense thereby compounding the inequity of care for our most marginalized women.

Moreover, we have incontrovertible data that shows women who sought a late termination of pregnancy and were turned away, were at significantly higher risk for economic hardship and poorer health for themselves, and their existing children. These women who were turned away were more likely to remain in relationships with abusive partners, had higher drop-out rates from high school and college, and had higher risks of serious complications, including death, as a result of that pregnancy.

Today the law of the land in New Hampshire does not recognize that congenital anomalies, incest or rape are indications for a woman to seek termination late in pregnancy. Additionally, the law demands unnecessary and costly testing, and sends a doctor to jail for providing this procedure. The law of the land substitutes the medical judgement and authority of legislators for that of highly trained Obstetricians and Neonatologists. Left unchanged, I believe the Fetal Health Protection Act will steadily erode access to high quality health care for the women and families of New Hampshire by deterring the brightest Obstetrician and Neonatal providers from practicing in our great state. As the person with responsibility for most of the pregnancies and Obstetrical providers in our state, I implore you to correct course.

Sincerely,

Ilana Cass, MD, Chair, Department of Obstetrics and Gynecology, Dartmouth-Hitchcock

Testimony for CACR 18 relating to reproductive medical decisions. Providing that the state shall not infringe or unduly inconvenience the right of reproductive medical decisions.

Debra Altschiller, Stratham Rockingham 19

In November of 2018, 81% of New Hampshire voters approved adding 22 more words to our state's constitution "Right to Privacy: An individual's right to live free from governmental intrusion in private or personal information is natural, essential, and inherent." These words, added as Article 2-b

This amendment was about control and who has it. New Hampshire citizens want control over their private and personal information.

Our proposal of CACR 18 would be added as Article 2-c with 31 words which complement Article 2-b, our language: "The right to make personal reproductive medical decisions is inviolate and fundamental to the human condition. Neither the State nor any political subdivision shall infringe upon or unduly inconvenience this right."

This amendment, like 2-b, is also about control, and claiming it unequivocally.

This amendment didn't come out of thin air, it has inspiration from current statutes and legislative intent. Let me elaborate.

In doing legislative research, there is another place in NH law I would like to share with you, the first part of Chapter 137-J titled, "Written Directives for Adults Without Capacity to Make Medical Decisions.

137-J:1 Purpose and Policy. –

"1. The state of New Hampshire recognizes that individual persons have the right, founded in the autonomy and sanctity of a person, to control the decisions relating to the rendering of their own medical care."

The New Hampshire legislature has amended this chapter three times and consistently reiterated the purpose and policy statement. The state of New Hampshire recognizes that its citizens have the right, founded in the autonomy and sanctity of a person, to control the decisions relating to the rendering of their own medical care.

And yet, when that New Hampshire citizen is pregnant, their rights to control decisions related to their medical care and the privacy of that personal information is thrown away.

Pregnancy seems to be the line where constitutional rights are stripped away.

Article 1. [Equality of Men; Origin and Object of Government.] All men are born equally free and independent; Therefore, all government of right originates from the people, is founded in consent, and instituted for the general good.

There is no caveat in Article 1 that says "all men are born equally free and independent" except when pregnant. And yet, the loss of freedom and independence is exactly what happens

[Art.] 2. [Natural Rights.] All men have certain natural, essential, and inherent rights among which are, the enjoying and defending life and liberty; acquiring, possessing, and protecting, property; and, in a word, of seeking and obtaining happiness. Equality of rights under the law shall not be denied or abridged by this state on account of race, creed, color, sex or national origin.

Except when pregnant. A New Hampshire citizen who is pregnant loses the benefit of their life and liberty, particularly if their pregnancy is life threatening or their pregnancy loses viability. Their rights to seek happiness by making reproductive medical decisions independently, as is their natural right, are stripped away. They no longer have control over their own body, they are enslaved to a law.

Marginalizing pregnant women by stripping them of their natural, essential and inherent rights is not the New Hampshire way.

When a person does not have freedom over their reproductive decisions because of state interference, they are chattel. This is not the New Hampshire way.

New Hampshire citizens value our natural rights, and it is an unjust and undue burden to restrict the reproductive medical decisions made by citizens. It is time to enshrine our values of freedom of reproductive decisions into our state constitution because constitutional protections for reproductive rights are the gold standard.

I respectfully ask you to vote Ought To Pass on CACR 18.

Thank you

Testimony CACR 18, Emmett Soldati 2/10/22

If you are pregnant in my hometown of Somersworth NH, you are physically closer to three crisis pregnancy centers than you are to the nearest provider of reproductive healthcare. That's three places closer that will intentionally misinform and withhold information about your constitutionally protected right to an abortion. That dramatically increases the chances of a pregnant person ending up with less access to reproductive care. We cannot begin to address the inequality in our state's healthcare system until we make a commitment, a constitutional commitment, that all residents are endowed with the right to make their own reproductive healthcare decisions.

Even for those few communities that do have more direct and local access to abortion and reproductive care, the picture is bleak. Our state should ensure that all Granite Staters - no matter their race, gender identity, or income, or zipcode - have access to these rights.

This constitutional amendment is the best step forward to ensure we move in a direction that is both best for NH families and is the most in line with our belief that the government should take no role in dictating healthcare decisions.

I believe these constitutional protections for reproductive rights are the gold standard.

And yet, when that New Hampshire citizen is pregnant, their rights to control decisions related to their medical care and the privacy of that personal information is thrown away.

Hi Karen,

I called the House Clerk and they gave me your information. Earlier today I submitted testimony (just support for bill CACR18). I noticed after it had submitted that my computer had auto filled in my employer for who I was representing. I had originally – and meant to just represent myself as a member of the public. I tried to edit it and could not. Could you please advise me on how to fix this?

Thanks,

Please support these bills. Women are entitled to equal bodily autonomy as men are. To fail to allow this could easily be considered as treating women as second class citizens and not worthy of that autonomy. A woman knows her own situation and what's best for her and her family and the potential impacts on them as a whole. We deserve the right to make those decisions for us. Strangers, who know nothing about those matters regarding reproduction for that woman, should not be the arbiter of what can be done to/for her own body. Barbara D. Reed, North Swanzey NH.

Dear House Judiciary Committee,

I am writing to you today about CACR18. Please say NO and oppose abortions as a legal right under the NH state constitution.

It is not a mother's right to kill her baby under the name of abortion. Just because a pregnancy is unplanned, does not give a person the right to murder (AKA abortion) an innocent baby in the womb.

We, as human beings, need to protect life at all stages, including the innocent babies still in the mother's womb.

Those of you who have children, please think of them and what it was like when your baby was still growing in the womb. When I was pregnant with my son, as soon as I knew I was pregnant, I said, "I'm going to have a baby"! From the moment of conception, that baby is a different person from his or her mother and just needs a place to grow until he or she is ready to be born. That baby needs protection.

Were any of you, who are living today, unplanned by your mother? Think of how blessed you are to be alive today.

In regards to CACR18, please say NO and oppose abortions as a legal right under the state constitution. Killing (aborting) an innocent baby in the womb is never acceptable.

You can either choose to say yes and do the Devil's work or you can choose to say NO and do God's work. The choice is yours.

I pray that you will know in your heart that the right and moral thing to do is to protect babies in the womb and say NO to CACR18.

This issue is not a Democrat, Republican, or an Independent issue. This is a human right's issue for that innocent baby.

Thank you.

Sincerely,

To the House Judiciary Committee,

My name is Emilia Toth and I'm a resident of Keene, NH, as well as a lobbyist for the New Hampshire Youth Movement. I'm emailing in support of CACR18, which would ensure that the state cannot infringe or unduly inconvenience the right of reproductive medical decisions.

As a woman, I am highly aware and protective of the rights I have over my body. I believe that I, as well as everybody, should be able to make their own choices about what to do with their bodies, despite anyone else's opinion. If the state were allowed to interfere with our medical decisions or make them inaccessible, this would take away any choice we have, which would be a health and privacy issue.

The passing of CACR18 would allow for folks to receive safe and confidential reproductive health care concerning difficult decisions that they have had to make, without judgment or fear of harm. This would also make this type of medical care accessible to low-income folks and families, as well as minority groups and anyone else with any conditions that limit their accessibility to healthcare. I urge you to consider voting on this bill and making reproductive health care safe and available to all.

Thank you so much for the opportunity to email you in support of CACR18,
Emilia Toth

OPPOSE HB1181, HB1477-FN & HB1625.

SUPPORT CACR18, HB1674 & HB1673-FN.

NH is already trying to 'be more like Texas' in its approach to making it harder for a woman to control her own body. Just because we happen to be overrun w/'Free Staters' and radical right anti-abortionists in our legislature doesn't mean we have to further become the laughingstock of the northeast with our Texas-like stupid laws that excessively prohibit a women's right to freedom. Don't have NH's legislature become known as the 'Taliban of the NE!' Apply some common sense to these bills and support/oppose as listed above.

In Support of CACR 18

Hello, my name is Josie Pinto, Executive Director of the Reproductive Freedom fund of New Hampshire and a Dover constituent. I come before you to express my support for CACR 18.

The time is now to protect the essential right to abortion that has been provided by Roe v Wade for the last 49 years. To be honest, it's the bare minimum. Roe is the floor, not the ceiling. All the time I hear Granite Staters claim to have values of bodily autonomy, medical privacy, and lack of government infringement on healthcare.. Except when it comes to abortion. I am BEGGING you all to extend those values to abortion as well, recognizing what a deeply personal decision it is for each individual that makes that decision for themselves, for their families, for their health, and for their wellbeing.

On December 1st, I was in DC for the Dobbs vs. Jackson hearing, standing in solidarity with my fellow abortion fund leaders in the South who will be the most impacted by the increased abortion restrictions sweeping the country. The fact is, many states in the South are already living in a post-Roe reality that's only going to get worse. I won't stand by as I watch New Hampshire go down that same path. I won't stand by and watch a 24-week ban turn into a 15-week ban, as our rights get chipped away at over time. This needs to end here and now - and this bill is the strongest way we can solidify that right. Since this issue is so deeply personal, we should let the voters show us where they stand. I'm asking you all to give them the opportunity to do that.

As we prepare for the reality of a post-Roe America, the Reproductive Freedom Fund of New Hampshire is preparing for increased barriers that will likely cause many people to have to seek care out of state, and will likely increase the amount of people traveling to New Hampshire for abortion care. Our surrounding states - Vermont and Massachusetts, are working hard to enshrine these rights into law and scale up their services in ways that can accommodate this expected new influx. I'm heartbroken watching New Hampshire do the opposite - strip funding from our health centers, pass increased restrictions, and eliminate entire methods of abortion access through enacting an ultrasound mandate. This is simply not in line with our state values.

For this and so many other reasons, I urge you to vote Ought to Pass on CACR 18.
Thank you.

Good evening House Judiciary,

My name is Lisa Nash and I live in Bedford, NH.

I'm writing today to **STRONGLY OPPOSE HB1477-FN and HB1625** and **STRONGLY SUPPORT CACR-18 and HB1674**. I'm not sure I could possibly introduce any new thoughts or evidence that you haven't already heard regarding these issues but I would like to add my name so that you know just how many constituents are against these measures, and just how many support healthy reproductive care for women.

As you consider these bills, please keep in mind that being pro-choice **does not** equal being pro-abortion, and that similar to gun legislation, restricting abortion will not eliminate them from happening, it will just move them from being safe and legal to being unsafe and illegal.

Lastly, I would like to speak directly to HB1625 which will repeal buffer zones around reproductive health care facilities. Contrary to the argument of the prime sponsors of this bill, this is NOT a free speech issue. Speech is not being prohibited, protestors and pro-life advocates may still line the streets, hand out flyers, and talk to passersby, just not within the current buffer zone. All humans should be treated with dignity and respect and should have safe places to seek help and care without being harassed or intimidated... the buffer zone laws currently protect the safety of both parties without inhibiting either free speech/freedom of movement.

Thank you for your time, attention, and commitment,

Lisa Nash

This debate has been going on for too long over something that every woman is entitled to - her own decision either way over her own body and own future. Please do not vote to take away my rights. Long live Roe vs Wade! NH does not have to go backward. I am very concerned as a 77 year old woman that your committee will be promoting conditions in NH that are similar to when I was in high school and college where the only alternative for women to get an abortion was illegal and therefore dangerous. I knew a number of women who were placed in this difficult place.

Testimony in Support of CACR18

Relating to reproductive medical decisions. Providing that the state shall not infringe or unduly inconvenience the right of reproductive medical decisions.

February 10, 2022

Good morning, Chairman Gordon, Vice Chairman McLean, and Members of the Judiciary Committee. Thank you for the opportunity to submit testimony in support of CACR 18.

Women have struggled for many years for the right to make decisions about their reproductive health. In 1973 the United States Supreme Court determined women have a right ‘to choose’ to have a reproductive medical intervention, specifically, in the case of Roe vs Wade, the right to terminate a pregnancy.

Women in the past prior to Roe vs Wade had to take women’s rights related to bodily integrity into their own hands and obtain abortions by such means as self-induced abortion or illegal abortion either by a physician or a ‘back alley’ untrained person. Women died from these abortion. They died from a punctured uterus, hemorrhage, infection. As a student nurse I saw and cared for women who went to such ends and secured ‘back-alley abortions. Some recovered, many died or suffered permanent injury. Many were young women, many with children, and many were left permanent injuries.

The New Hampshire State Constitution states: “An individual's right to live free from governmental intrusion in private or personal information is natural, essential, and inherent.” ([Art.] 2-b: [Right of Privacy]). Conversations between health care providers and patients and patient decisions related to medical care constitute private and personal information.

CACR 18 is grounded in the decision of the United States Supreme Court, Roe vs Wade, and Part 1 of the New Hampshire Constitution by proposing an amendment to the New Hampshire Constitution Bill of Rights: “a woman’s right to make personal reproductive medical decisions is inviolate and fundamental to the human condition.” The amendment further states: “Neither the State nor any political subdivision shall infringe upon or unduly inconvenience this right.”

New Hampshire has long been proud of its attention and assertion to uphold ‘individual rights’. In fact, this was a major theme in recent testimony related to New Hampshire mandatory mask wearing and mandatory Covid-19 vaccination requirements. A common argument at this hearing centered on the theme, “individual rights”. The people of New Hampshire are proud of their commitment to the right of the individual as stated in the New Hampshire Constitution Bill of Rights:

[Art.] 2-b. [Right of Privacy.] An individual's right to live free from governmental intrusion in private or personal information is natural, essential, and inherent.
December 5, 2018

People who violate women's right to bodily integrity by physically touching without consent can be legally prosecuted. Women have legal and ethical rights to bodily integrity. House bill, CACR 18, will ensure New Hampshire women retain these rights.

I urge members of the Judiciary Committee to support CACR 18.

Thank you for the opportunity for me to provide testimony in support of CACR 18.

RE: CACR 18, HB 1673, HB 1674

Dear Chair Gordon and Members of the Committee,

The New Hampshire High School Democrats affirm our support for CACR 18, providing that the state shall not infringe or unduly inconvenience the right of medical reproductive decisions, HB 1673, relative to women’s health privacy and repealing the fetal health protection act, and HB 1674, relative to reproductive rights, and ask that you recommend them “Ought to Pass.” Further, we ask that you find any bills restricting or limiting the right to an abortion “Inexpedient to Legislate.”

First, restricting abortion violates the right to self-determination. A pregnant person has the right to terminate a pregnancy for any reason, as an unwanted pregnancy can cause drastic lifestyle alterations. A study published by the University of California San Francisco found that pregnant people who were denied an abortion and went on to give birth experienced “an increase in household poverty lasting at least four years relative to those who received an abortion.”

Being denied abortion access contributes to higher rates of domestic violence, evictions, bankruptcy cases, and is associated with more health issues. Forcing a pregnant person to carry a pregnancy to term, or creating unreasonable barriers in obtaining an abortion, is a clear infringement of the individual’s right to influence decisions regarding their own destiny.

Unwanted pregnancies have historically been linked to deficits in the child’s “cognitive, emotional, and social processes.” In addition, stressors during unwanted pregnancy contribute to abnormalities after birth including “lower birth weight infants with consequences for infant development” and “adverse implications for fetal neurodevelopment and child outcomes.” Criminalizing abortion only contributes to the problems already present in pregnancy and does not lead to better outcomes for parents or their children.

In conclusion, the New Hampshire High School Democrats support CACR 18, HB 1673, and HB 1674, and ask that you recommend them “Ought to Pass.” In continuance of our support of the right to access an abortion, we ask that you find any legislation restricting this right “Inexpedient to Legislate.”

House Judiciary Committee -

I write in opposition to CACR18. This bill would pose a Constitutional question seeking to enshrine in NH Constitution prohibition on the State or any political subdivision from infringing upon or unduly inconveniencing "right to make personal reproductive medical decisions".

This Constitutional question would invoke an explicit assertion of a "right" to abortion on demand without any limit or pre-condition.

This past legislative session, statutory provisions were emplaced to protect the life of UNBORN INFANTS from those ghouls who practice the religion of human sacrifice. CACR 18 assertion of such "right" would pose an immediate conflict with existing state statute recently by the will of the legislature expressing the exact opposite.

Moreover, CACR 18 assertion of such "right" would be in immediate conflict with NH Constitution Article 2. [Natural Rights.] "All men have certain natural, essential, and inherent rights among which are, the enjoying and defending life and liberty"

CACR 18 does not address its direct conflict with existing statutory prohibitions to "personal reproductive medical decisions", such as reproductive decision to have sex with a close relative - RSA 639:2 Incest. This statute was solely enacted to prevent moronism, mental retardation and birth defects.

Until such time as there is a state-wide consensus on the overriding question on unconstrained "right" to abortion, no such Constitutional question should be used to foment civic strife.

Please find CACR 18 as Inexpedient-to-Legislate.

Daniel Richardson, Nashua

Reproductive health care is essential for public health and should be evidence-based, supported by valid medical or scientific justification, and designed to improve health outcomes. Patients have a right to privacy in their health decisions, and the right to make personal medical decisions without interference from the government. Legislation that dictates individualized medical care and attempts to restrict options within complex situations threatens the patient-provider relationship and undermines principles of medical ethics. One of the principles of medical ethics is patient autonomy – that is, the right to make decisions about their own health based on comprehensive and evidence-based information. Medical providers receive years of training some with subspecialty focus in order to provide the most up-to-date information to patients and allow shared decision making for complex medical issues. This resolution proposes that the voters of New Hampshire have a say in the protection of their right to private reproductive medical decisions. Please pass this resolution (CACR18) and allow your own constituents the opportunity to vote for what they believe is right.

Maris Toland, MD

Folks.

Let's step back and look at what NH needs to do to provide safe access to what is a personal, civil right which is to control their right to have a child.

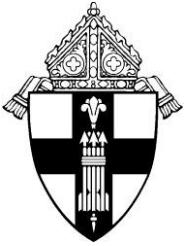

This sudden desire of certain members of the NH legislature to restrict what is a women's personal and may I repeat: civil right – is deeply suspect and I believe due to outside interests and outside funding. I believe this because the majority of NH supports a women's right to choose.

Let's turn this misplaced desire to control a women's body into provisions for safe and healthy choices, safe birth control, honest sex education, and other programs that eliminate or reduce abortions.

This is why I support this bill and I will repeat this message for bills: 1673 and 1674.

Re: CACR 18 (“Relating to Reproductive Medical Decisions”)

Dear Mr. Chair and Members of the Committee:

As Director of the Office of Public Policy for the Roman Catholic Diocese of Manchester, and on behalf of Bishop Peter Libasci, I write to respectfully urge that you vote **ITL on CACR 18**.

I know I do not need to restate the views of the Catholic Church on abortion. The Catholic Church and legions of others who approach this issue from religious and secular perspectives alike believe in the inherent dignity of every human being, at every stage of life. This is why we supported for instance the abolition of the death penalty in New Hampshire, and it is why we oppose measures like this CACR that would deny the smallest of our sisters and brothers, who have not yet been born, their right to life.

It should be recognized just how far this amendment would go. The CACR would prevent the state from passing or enforcing laws that would restrict (or even “inconvenience”) abortion at any point during a pregnancy. In giving state sanction to abortions of unborn children who have reached the stage of viability, the CACR would venture even further than the Supreme Court did in *Roe v. Wade* (a decision which, it should be remembered, affirmed the right of the state to regulate or ban third-trimester abortions.) Indeed, as a measure of just how extreme the position that is staked out here, this CACR would even be contrary to the position held by those New Hampshire citizens who *support* the availability of abortion in the earlier stages of a pregnancy but who do not want abortion to be lawful when a child has reached the stage of viability.

The CACR as proposed would also give the State’s blessing, for instance, to abortions done for purposes of sex-selection or because the unborn child is presumed to have a disability. Given that there are those who oppose legal protections for born-alive survivors of abortion, it would require no stretch of the imagination to see an attempt to deploy this amendment even in a case where a child actually has been born.

The Hon. Ned Gordon, Chair
And Members of the House Judiciary Committee
February 10, 2022
Page 2

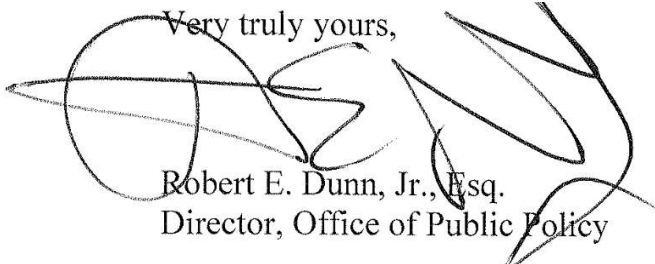

What the legislature decides to do on an amendment like this logically will have a resonance in other areas. Pope Francis, in his 2015 encyclical letter on the environment, wrote this: “Since everything is interrelated, concern for the protection of nature is also incompatible with the justification of abortion...If personal and social sensitivity towards the acceptance of the new life is lost, then other forms of acceptance that are valuable for society also wither away.” Encyclical Letter *Laudato Si*, 120.

This only stands to reason. If we want our society to respect and value the child who is a refugee, the child who is homeless, or the child who does not have access to health care, then we need to respect and value the child in the womb as well.

Accordingly, I ask the Committee to recommend that the House vote down this proposed amendment.

Thank you for your consideration of our views.

Very truly yours,

Robert E. Dunn, Jr., Esq.
Director, Office of Public Policy

Testimony in Support of CACR18

If you are pregnant in my hometown of Somersworth NH, you are physically closer to three crisis pregnancy centers than you are to the nearest provider of reproductive healthcare. That's three places closer that will intentionally misinform and withhold information about your constitutionally protected right to an abortion. That dramatically increases the chances of a pregnant person ending up with less access to reproductive care. We cannot begin to address the inequality in our state's healthcare system until we make a commitment, a constitutional commitment, that all residents are endowed with the right to make their own reproductive healthcare decisions.

Even for those few communities that do have more direct and local access to abortion and reproductive care, the picture is bleak. Our state should ensure that all Granite Staters - no matter their race, gender identity, or income, or zipcode - have access to these rights.

This constitutional amendment is the best step forward to ensure we move in a direction that is both best for NH families and is the most in line with our belief that the government should take no role in dictating healthcare decisions.

I believe these constitutional protections for reproductive rights are the gold standard.

CACR 18: relating to reproductive medical decisions. Providing that the state shall not infringe or unduly inconvenience the right of reproductive medical decisions.

Committee: House Judiciary

Date: February 10, 2022

Position: SUPPORT

Nearly half of women of reproductive age in the U.S. are at risk of losing access to abortion this year. The U.S. Supreme Court has heard oral arguments for two cases that could overturn *Roe v Wade* by June of 2022, jeopardizing abortion access in our country. This means that within 6 months, 26 states may ban abortion and eliminate access to abortion for more than 36 million people. As the U.S. Supreme Court considers these cases, **CACR 18 would enshrine the right to reproductive medical decisions into the state Constitution.**

If and when the federal protection for the right to an abortion established in *Roe* is stripped away or limited, abortion would still be legal in New Hampshire; however, there are no affirmative protections in place for the right to have an abortion. **We know that New Hampshire has a long, bipartisan history of supporting privacy, particularly when it comes to personal medical decisions including abortion.** For decades, abortion bans and restrictions have been defeated in the New Hampshire State House with the support of both political parties.

Now, the New Hampshire Legislature has the opportunity to take a proactive step to protect abortion rights by passing CACR 18. Considering the reality that *Roe v. Wade* may not be the law of the land much longer – and states could be allowed to ban abortion altogether – this constitutional amendment would guarantee the right to reproductive medical decisions for Granite Staters in the New Hampshire Constitution and protect access to health care for our citizens for future generations to come.

WE URGE A VOTE OF “OUGHT TO PASS” ON CACR 18.

Honorable Chairman and Members of this Committee,

My name is Sebastian Fuentes, a North Country of New Hampshire resident for 21 years. I am not addressing you as a member of any political, educational or religious organization. I am addressing you as a son of a brave courageous mother, a husband of woman dedicated to her family and community and the father of two girls that make my world shine. As a man I will fight day and night until my last day for their right to choose what to do with their own bodies. It is what we all need to do.

To the male members of this committee, this is not our business to decide. Shame on us if we do.

21 years ago, I came from a third world country where Indigenous women were forced to have their uterus removed for money to prevent the spread of poverty. Many died in the process. Many are forgotten.

I came from a country where women died in clandestine abortion centers because abortion was banned. It was a daily occurrence. I refused to live the same experiences in this country that I adopted as my forever home. New Hampshire must move forward when discussing Reproductive rights not backwards.

Restricting access to reproductive care, abortion included, is a threat to our communities especially BIPOC communities, our homes and our local economies. It will make New Hampshire unattractive for people to live in. We have a hard time as it is keeping workforce and younger Granite Staters to stay and contribute to our economy. What do you think passing restrictive legislation will do?

Our state legislators, regardless of party affiliation must support affordable access to abortion care and their bodily autonomy should be left to their discretion. Women from Coos to Cheshire, from the Seacoast to the Upper Valley and the whole country deserve nothing less.

We should let the residents of New Hampshire make their voices heard about this issue. My mother, my wife, my two daughters and thousands of amazing women of New Hampshire are awaiting for action. Let's be on the right side, we owe that to them.

I support CACR 18 and I hope you do too.

Best regards,

Sebastian Fuentes

VOTE NO on CACR 18

This is not about “personal reproductive medical decisions.” This amendment would enshrine abortion-on-demand and up to birth into our state constitution, forcing taxpayers conscientiously opposed to pay for it, and violating conscience protections for Granite State medical professionals who refuse to be complicit in the direct and intentional taking of human life. Women deserve better than abortion – they deserve protection and support rather than a death sentence for their babies delivered on the state's altar of convenience. Please VOTE NO on CACR 18.

Judiciary Committee

Testimony for CACR 18 relating to reproductive medical decisions. Providing that the state shall not infringe or unduly inconvenience the right of reproductive medical decisions.

Debra Altschiller, Stratham Rockingham 19

In November of 2018, 81% of New Hampshire voters approved adding 22 more words to our state's constitution "Right to Privacy: An individual's right to live free from governmental intrusion in private or personal information is natural, essential, and inherent." These words, added as Article 2-b

This amendment was about control and who has it. New Hampshire citizens want control over their private and personal information.

Our proposal of CACR 18 would be added as Article 2-c with 31 words which complement Article 2-b, our language: "The right to make personal reproductive medical decisions is inviolate and fundamental to the human condition. Neither the State nor any political subdivision shall infringe upon or unduly inconvenience this right."

This amendment, like 2-b, is also about control, and claiming it unequivocally.

This amendment didn't come out of thin air, it has inspiration from current statutes and legislative intent. Let me elaborate.

In doing legislative research, there is another place in NH law I would like to share with you, the first part of Chapter 137-J titled, "Written Directives for Adults Without Capacity to Make Medical Decisions.

137-J:1 Purpose and Policy. –

"I. The state of New Hampshire recognizes that individual persons have the right, founded in the autonomy and sanctity of a person, to control the decisions relating to the rendering of their own medical care."

The New Hampshire legislature has amended this chapter three times and consistently reiterated the purpose and policy statement. The state of New Hampshire recognizes that its citizens have the right, founded in the autonomy and sanctity of a person, to control the decisions relating to the rendering of their own medical care.

And yet, when that New Hampshire citizen is pregnant, their rights to control decisions related to their medical care and the privacy of that personal information is thrown away.

Pregnancy seems to be the line where constitutional rights are stripped away.

Article 1. [Equality of Men; Origin and Object of Government.] All men are born equally free and independent; Therefore, all government of right originates from the people, is founded in consent, and instituted for the general good.

There is no caveat in Article 1 that says "all men are born equally free and independent" except when pregnant. And yet, the loss of freedom and independence is exactly what happens

[Art.] 2. [Natural Rights.] All men have certain natural, essential, and inherent rights among which are, the enjoying and defending life and liberty; acquiring, possessing, and protecting, property; and, in a word, of seeking and obtaining happiness. Equality of rights under the law shall not be denied or abridged by this state on account of race, creed, color, sex or national origin.

Except when pregnant. A New Hampshire citizen who is pregnant loses the benefit of their life and liberty, particularly if their pregnancy is life threatening or their pregnancy loses viability. Their rights to seek happiness by making reproductive medical decisions independently, as is their natural right, are stripped away. They no longer have control over their own body, they are enslaved to a law.

Marginalizing pregnant women by stripping them of their natural, essential and inherent rights is not the New Hampshire way.

When a person does not have freedom over their reproductive decisions because of state interference, they are chattel. This is not the New Hampshire way.

New Hampshire citizens value our natural rights, and it is an unjust and undue burden to restrict the reproductive medical decisions made by citizens. It is time to enshrine our values of freedom of reproductive decisions into our state constitution because constitutional protections for reproductive rights are the gold standard.

I respectfully ask you to vote Ought To Pass on CACR 18.

Thank you

Testimony CACR 18, Emmett Soldati 2/10/22

If you are pregnant in my hometown of Somersworth NH, you are physically closer to three crisis pregnancy centers than you are to the nearest provider of reproductive healthcare. That's three places closer that will intentionally misinform and withhold information about your constitutionally protected right to an abortion. That dramatically increases the chances of a pregnant person ending up with less access to reproductive care. We cannot begin to address the inequality in our state's healthcare system until we make a commitment, a constitutional commitment, that all residents are endowed with the right to make their own reproductive healthcare decisions.

Even for those few communities that do have more direct and local access to abortion and reproductive care, the picture is bleak. Our state should ensure that all Granite Staters - no matter their race, gender identity, or income, or zipcode - have access to these rights.

This constitutional amendment is the best step forward to ensure we move in a direction that is both best for NH families and is the most in line with our belief that the government should take no role in dictating healthcare decisions.

I believe these constitutional protections for reproductive rights are the gold standard.

And yet, when that New Hampshire citizen is pregnant, their rights to control decisions related to their medical care and the privacy of that personal information is thrown away.

Pregnancy seems to be the line where constitutional rights are stripped away.

Article 1. [Equality of Men; Origin and Object of Government.] All men are born equally free and independent; Therefore, all government of right originates from the people, is founded in consent, and instituted for the general good.

There is no caveat in Article 1 that says "all men are born equally free and independent" except when pregnant. And yet, the loss of freedom and independence is exactly what happens

[Art.] 2. [Natural Rights.] All men have certain natural, essential, and inherent rights among which are, the enjoying and defending life and liberty; acquiring, possessing, and protecting, property; and, in a word, of seeking and obtaining happiness. Equality of rights under the law shall not be denied or abridged by this state on account of race, creed, color, sex or national origin.

Except when pregnant. A New Hampshire citizen who is pregnant loses the benefit of their life and liberty, particularly if their pregnancy is life threatening or their pregnancy loses viability. Their rights to seek happiness by making reproductive medical decisions independently, as is their natural right, are stripped away. They no longer have control over their own body, they are enslaved to a law.

Marginalizing pregnant women by stripping them of their natural, essential and inherent rights is not the New Hampshire way.

When a person does not have freedom over their reproductive decisions because of state interference, they are chattel. This is not the New Hampshire way.

New Hampshire citizens value our natural rights, and it is an unjust and undue burden to restrict the reproductive medical decisions made by citizens. It is time to enshrine our values of freedom of reproductive decisions into our state constitution because constitutional protections for reproductive rights are the gold standard.

I respectfully ask you to vote Ought To Pass on CACR 18.

Thank you

Testimony for CACR 18 relating to reproductive medical decisions. Providing that the state shall not infringe or unduly inconvenience the right of reproductive medical decisions.

Debra Altschiller, Stratham Rockingham 19

In November of 2018, 81% of New Hampshire voters approved adding 22 more words to our state's constitution "Right to Privacy: An individual's right to live free from governmental intrusion in private or personal information is natural, essential, and inherent." These words, added as Article 2-b

This amendment was about control and who has it. New Hampshire citizens want control over their private and personal information.

Our proposal of CACR 18 would be added as Article 2-c with 31 words which complement Article 2-b, our language: "The right to make personal reproductive medical decisions is inviolate and fundamental to the human condition. Neither the State nor any political subdivision shall infringe upon or unduly inconvenience this right."

This amendment, like 2-b, is also about control, and claiming it unequivocally.

This amendment didn't come out of thin air, it has inspiration from current statutes and legislative intent. Let me elaborate.

In doing legislative research, there is another place in NH law I would like to share with you, the first part of Chapter 137-J titled, "Written Directives for Adults Without Capacity to Make Medical Decisions.

137-J:1 Purpose and Policy. –

"I. The state of New Hampshire recognizes that individual persons have the right, founded in the autonomy and sanctity of a person, to control the decisions relating to the rendering of their own medical care."

The New Hampshire legislature has amended this chapter three times and consistently reiterated the purpose and policy statement. The state of New Hampshire recognizes that its citizens have the right, founded in the autonomy and sanctity of a person, to control the decisions relating to the rendering of their own medical care.

I write concerning CACR18, which proposes the following new “[Art.] 2-c. [Right of Reproductive Health.] The right to make personal reproductive medical decisions is inviolate and fundamental to the human condition. Neither the State nor any political subdivision shall infringe upon or unduly inconvenience this right.”

The comments that follow will be familiar to some of you, since they are similar to those I made concerning CACR 14 in 2020.

First, I’m certain all can agree without argument that CACR18 is not about the right to make decisions regarding the treatment of endometriosis, or gestational diabetes, or preterm labor. The purpose of this new article is to place, in the NH state constitution, a guarantee of a right to abortion, in the event that the Supreme Court of the U.S. should overturn Roe v. Wade, thereby returning to the States the opportunity to make their own law in this regard.

Supporters of the measure should consider that its euphemistic and vague wording creates a risk that a “strict constructionist” NH Supreme Court could render the work in vain. On examining the precise wording, the court could rule that abortion does not fall within the scope of new Article 2-c, since pregnancy is a normal and healthy condition, and therefore the decision to abort is almost never a medical decision.

I suggest it is in everyone’s interest that this article say exactly what it means. If one believes that this right is good, and “fundamental to the human condition”, and is proud to support it, then one should have no objection to stating it unambiguously. I propose the following wording:

[Art.] 2-c. [Right of Human Fetal Abortion] The right of a woman to bring about the killing, and removal from her body, of her unborn child at any gestational age for any reason is inviolate and fundamental to the human condition. Neither the State nor any political subdivision shall infringe upon or unduly inconvenience this right.

This wording has the specificity to provide the exact protection that is sought, and will also be perfectly clear to all those who vote on it.

Finally, the article should be assigned a new number, Article 40, since it clearly is out of place under the scope of Article 2, which is about Natural Rights and defending life.

Subject: Testimony opposed to CACR-18 "reproductive medical decisions"; Vote ITL

Importance: High

Hon. Chairman and Judiciary Committee Members,

As I was unable to attend Thursday's (02/10/22) hearing on this bill, please accept this as my testimony in opposition.

Our State Constitution is a venerable and important document created by our State's founders "rightly grounded On high principles"

So modification of that revered foundation should only be done with much care and aforethought. Trifling with it to appease tangent cultural morays astray from original values and intent, should be anathema. This bill falls into that category!

Two points:

1.) Just what is "the right of reproductive medical decisions"? It's not defined. Would the Founders, or for that matter those following us, know what we're talking about? We know that terminology is a euphemism for "abortion". The bill authors could have at least been honest and simply added, "including abortions" or a more technical, "induced pregnancy termination"!

2.) And who are the persons to make such "personal reproductive medical decisions"? Pregnant women, only them? There are other interested parties involved or should be involved with such a drastic and final decision to terminate life in the womb: Not only the woman who carries, but the father who sired, and the grandparents who brought forth the lineage, God as the creator and designer of pro-creation, and the State. Yes, the State. In both Roe and Casey SCOTUS decisions on abortion, it was stated that women do not have an exclusive and autonomous right to privacy relative to the destruction of life in the womb, and, the State has a valid and reasonable interest in the preborn as the future human stock of citizenry that will grow and flourish the nation.

Hence, this bill is incomplete, flawed, and outside the scope of original intent and inconsistent with the good values espoused in NH Constitution Article 6: "as morality and piety, rightly grounded on high principles..".

Please do it no dishonor, our revered Constitution, and vote this bill inexpedient to legislate.

Respectfully Yours,

Walter A. Stapleton,
