HOUSE OF REPRESENTATIVES

REPORT OF COMMITTEE

The Majority of the Committee on Health, Human Services and Elderly Affairs to which was referred HB 1077,

AN ACT repealing the prohibition on conversion therapy for minors. Having considered the same, report the same with the following amendment, and the recommendation that the bill OUGHT TO PASS WITH AMENDMENT.

Rep. Mark Pearson

FOR THE MAJORITY OF THE COMMITTEE

**MAJORITY
COMMITTEE REPORT**

| | |
|-------------------|--|
| Committee: | Health, Human Services and Elderly Affairs |
| Bill Number: | HB 1077 |
| Title: | repealing the prohibition on conversion therapy for minors. |
| Date: | March 7, 2022 |
| Consent Calendar: | REGULAR |
| Recommendation: | OUGHT TO PASS WITH AMENDMENT 2022-0921h |

STATEMENT OF INTENT

It has been a source of frustration for the majority that, although the bill was significantly amended, many continue to respond to the amended bill as if it were still the original bill. As amended, the bill agrees that conversion therapy is a coercive treatment with the explicit intention of turning people against their own feelings. That's why the amendment insists that no licensed professional shall work against an individual client's will. To put it bluntly: counseling where someone drops a person off at the office of a professional with the instructions to "fix him/her" against that individual's will or desire remains forbidden. Additionally, the bill addresses the genuine fear that some professionals have, that in helping a client work through his or her unwanted feelings about certain sexual attractions, the professionals would be in danger of professional discipline. This is an attempt to fix a problem that, according to testimony both in and outside of the hearing, truly does exist. Should this bill become law it will send a clear message to each client that the professional is there to work with and not against the wishes of the client regarding sexual attractions. It also sends a clear message that the professional is not working to support the wishes of others, whether they be parents or guardians or members of a movement, if these are in opposition to the client's wishes in counseling.

Vote 13-7.

HOUSE OF REPRESENTATIVES

REPORT OF COMMITTEE

The Minority of the Committee on Health, Human Services and Elderly Affairs to which was referred HB 1077,

AN ACT repealing the prohibition on conversion therapy for minors. Having considered the same, and being unable to agree with the Majority, report with the following resolution: RESOLVED, that it is INEXPEDIENT TO LEGISLATE.

Rep. Joe Schapiro

FOR THE MINORITY OF THE COMMITTEE

**MINORITY
COMMITTEE REPORT**

| | |
|-------------------|--|
| Committee: | Health, Human Services and Elderly Affairs |
| Bill Number: | HB 1077 |
| Title: | repealing the prohibition on conversion therapy for minors. |
| Date: | March 7, 2022 |
| Consent Calendar: | REGULAR |
| Recommendation: | INEXPEDIENT TO LEGISLATE |

STATEMENT OF INTENT

This bill as amended dramatically weakens protections for LGBTQ youth. Conversion therapy is a mean-spirited and coercive treatment with the explicit intention of turning people against their own feelings. Often involving abusive shaming techniques, there is no evidence that it does what it sets out to do: changing one's sexual orientation or gender identity. In fact, there is a correlation with diminished self-esteem, depression and suicidality. While supporters of this bill insist that the statute as is, prevents well-meaning mental health clinicians from assisting adolescents in exploring their sexual feelings and their concerns about gender identity, the minority feels that this is an attempt to fix a problem that does not actually exist. In the process, the supporters of this bill have ignored the power differential that exists between parents or adult therapists and vulnerable adolescents and they have falsely equated "speech-only" therapy with "client directed" therapy. While this bill purports to assist teens who are crying out for help, it does just the opposite. It opens the door for those who would impose their values on youth who are in the process of understanding their feelings and on the way toward forging an adult identity. Should this bill become law it will send a harsh message to our youth that their innate feelings are unworthy of our care and protection.

Amendment to HB 1077

1 Amend the title of the bill by replacing it with the following:

2

3 AN ACT amending the prohibition on conversion therapy.

4

5 Amend the bill by replacing all after the enacting clause with the following:

6

7 1 Conversion Therapy; Chapter Title Amended. Amend the chapter title preceding RSA 332-L to
8 read as follows:

9 ~~[PROHIBITING] CONVERSION THERAPY [ON MINORS]~~

10 2 Prohibiting Conversion Therapy; Definitions and Prohibitions. Amend RSA 332-L:1 and 2 to
11 read as follows:

12 332-L:1 Definition. In this chapter, "conversion therapy" means practices or treatments that
13 seek to change an individual's sexual orientation or gender identity ***against an individual's will***,
14 including efforts to change behaviors or gender expressions or to eliminate or reduce sexual or
15 romantic attractions or feelings toward individuals of the same gender. ~~[Conversion therapy shall
16 not include counseling that provides assistance to a person undergoing gender transition, or
17 counseling that provides acceptance, support, and understanding of a person or facilitates a person's
18 coping, social support, and identity exploration and development, including sexual orientation-
19 neutral interventions to prevent or address unlawful conduct or unsafe sexual practices, as long as
20 such counseling does not seek to change an individual's sexual orientation or gender identity.]~~

21 332-L:2 Prohibition; Violations and Enforcement.

22 I. A person who is licensed to provide professional counseling under RSA 326-B, RSA 328-D,
23 RSA 329, RSA 329-B, RSA 330-A:16, RSA 330-A:18, RSA 330-A:19, RSA 330-A:20, RSA 330-A:21, or
24 RSA 330-C, including, but not limited to, a nurse, physician assistant, physician, psychologist,
25 clinical social worker, clinical mental health counselor, marriage and family therapist, or licensed
26 alcohol and drug counselor, or a person who performs counseling as part of the person's professional
27 training for any of these professions, shall not engage in conversion therapy ~~[with a person under 18
28 years of age]~~ ***as defined in RSA 332-L:1.***

29 II. Any licensed professional, as listed in paragraph I, who proposes to engage or engages in
30 conversion therapy ~~[on a patient under 18 years of age]~~ ***as defined in RSA 332-L:1*** shall be

1 considered to have engaged in unprofessional conduct and shall be subject to such discipline as the
2 relevant licensing authority deems appropriate.

3 *III. In any claim of unprofessional conduct under paragraph II, the licensed*
4 *professional shall not be presumed to have engaged in unprofessional conduct if the*
5 *therapy in question was client-directed or was not against the client's will, regardless of*
6 *whether the client was an adult or minor.*

7 *IV. If the therapy in question is alleged to have consisted of speech only, the*
8 *relevant licensing authority shall presume that the therapy was client-directed unless the*
9 *client shows, by a preponderance of the evidence, that the therapy was conducted against*
10 *the client's will.*

11 3 Effective Date. This act shall take effect 60 days after its passage.

2022-0921h

AMENDED ANALYSIS

This bill:

I. Removes the prohibition on engaging in conversion therapy with a minor less than 18 years of age.

II. Amends the definition of conversion therapy to provide that no licensed professional shall engage in conversion therapy against an individual client's will.

III. Establishes a presumption that a licensed professional's actions shall not constitute unprofessional conduct if the therapy in question was client-directed or was not against the client's will, regardless of whether the client was an adult or minor.

IV. Establishes a presumption that in cases where the therapy was speech only, the therapy shall be presumed to be client-directed, unless the client shows that the therapy was against the client's will.

2022-0921h

AMENDED ANALYSIS

This bill:

I. Removes the prohibition on engaging in conversion therapy with a minor less than 18 years of age.

II. Amends the definition of conversion therapy to provide that no licensed professional shall engage in conversion therapy against an individual client's will.

III. Establishes a presumption that a licensed professional's actions shall not constitute unprofessional conduct if the therapy in question was client-directed or was not against the client's will, regardless of whether the client was an adult or minor.

IV. Establishes a presumption that in cases where the therapy was speech only, the therapy shall be presumed to be client-directed, unless the client shows that the therapy was against the client's will.

HOUSE COMMITTEE ON HEALTH, HUMAN SERVICES AND ELDERLY AFFAIRS

PUBLIC HEARING on Bill # HB 1077

BILL TITLE: An Act repealing the prohibition on conversion therapy for minors

DATE: 2/15/2022

ROOM: LOB 210-11

Time Public Hearing Called to Order: 2:53 pm

Time Adjourned: 4:35 pm

Committee Members: Reps. M. Pearson, Layon, Folsom, Acton, McMahon, Cushman, Kelsey, Gay, B. King, Kofalt, MacKay, DeLemus, Weber, Knirk, Nutter-Upham, Salloway, Snow, Cannon, Schapiro, Woods and Merchant,

TESTIMONY

Representative Dave Testerman introduced the bill

- Stated it is just a bad law.

Holly Stevens, NAMI, opposes

- the lgbt community has a higher incidence of suicide and other mental health issues
- where does counseling end and conversion therapy begin
- can clear boundaries be delineated
- directive & nondirective counseling who is doing the directing
- therapy denotes illness and sexual orientation is not an illness
- there can be problems with self identity in hostile families

W. Glenn Jameson, MD support

- current statute is bad
- on the surface it appears the goal is to be harm reduction when there was no harm identified
- parsing is needed to clear and prevent ambiguity
- client sets the goals of therapy not the therapist
- state should not set therapy goals
- current language allows for an aggrieved client to claim coercion for a restatement clarification on the part of the therapist
- therapists are afraid to take on juvenile clients due to the language of current law
- if a board or commission was formed to craft better language Dr. Jameson would be willing to serve
- coercive therapy is already against the licensing rules and governing bodies

Taylor Largmann - opposed

- conversion therapy is a pseudo scientific process of changing sexual orientation.

Dr. Deborah Warner - support

- outlined the current language of the law explaining where the language causes a problem for therapists. She has not taken on any minor clients since this bill went into effect.
- She provided written testimony

Hon. Ed Butler former NH Representative - oppose

- parent who feels for the sake of young people this law should stand

Dr. Jillian Shillaber - support

- this current law constrains healthy therapy

- she has not taken on minor clients since this law was passed

Emma Sevigny, New Futures - oppose

- damaging to children

Aaron Penkacik - support

- present all options

Frank Knaack, ACLU of NH - oppose

- sexual orientation is not an illness
- conversion therapy - junk science

David Schvaneveldt - oppose

- conversion bans can go against conscience of therapists
- bans discussion of the negative impact of gender dysphoria
- when we take away options parents lose

John De Joie, NASW NHPA

- protection from unscrupulous therapists
- Boards oversee the practice and policies
- trained therapist vs pastoral counseling

Anne Marie Banfield - support

- parents are looking for therapists that speak to more options than what the schools automatically default to.

Stephen & Beth Scaer - support

- therapy needs to be de politicized
- let therapists do their job without tying their hands

Andrew McPherson - oppose

- his therapy experience has been good under the current law and fears conversion therapy as wrong and dangerous

Chris Erchull - personal story - oppose

- a GLBTQ legal advisor
- still necessary
- parents still looking for conversion therapy

Matthew Rice - support

- concerned about his peers and younger sibling questioning their sexuality
- currently they are not allowed to ask why or why not
- student at Nashua High South

Shannon McGinley - Cornerstone

- current law impedes constitutional rights of free speech and religious rights

Respectfully submitted,

Rep. Beth Folsom, Clerk

To the Committee,

As a trans person living in the state of New Hampshire and a lobbyist for the New Hampshire Youth Movement, I am absolutely devastated at the proposition that HB1077 is even being considered. Youth being subjected to conversion therapy is harmful and traumatic, and the LGBTQIA+ community is watching how this bill proceeds, with an eye on voting out those who deny the fundamental humanity of people who are trans.

Sincerely,
Tzippy Horowitz

[Sam Conversion Therapy Testimony.pdf](#) 

Dear Committee Members,

Thank you for your service. Attached please find my son's testimony in support of HB 1077. As a 22-year old when he struggled with gender dysphoria and desired conversion therapy from his counselor, he and I both strongly support lifting the ban on conversion therapy for minors.

Thank you so much,
Lori Safford
Pelham, NH

Good afternoon, my name is David Schvaneveldt. I am a law student here at UNH Franklin Pierce School of Law. I have read H.B. 1077 as well as RSA 332-L, and I hope you will consider my statement in support of H.B. 1077.

In my opinion, House Bill 1077 should pass for 3 primary reasons: 1) New Hampshire's conversion ban prevents willing participants from exercising their constitutionally recognized rights of conscience; 2) New Hampshire's conversion therapy bans, as currently defined, can negatively impact children, particularly children diagnosed with gender dysphoria; and 3) when the state takes away choices from doctors and professionals, parents lose as well.

First, conversion bans restrict willing participants from exercising their unalienable, constitutionally recognized rights of conscience. Advocates describe conversion therapy as a discredited practice linked to physical abuse, drug use, and suicide, and they often point to politicized statements from medical associations and activist groups to support these claims. Although it is possible to find instances of physical abuse and otherwise clearly harmful practices, which can and should be prosecuted under existing law, the conversion therapy ban as it is currently advocated for, is not targeted at particular practices but instead at particular values. Advocates for so called conversion therapy bans impose legal restrictions because they disagree with particular views about human sexuality and biology held by certain professionals.

New Hampshire's Constitution recognizes a person's inalienable rights to one's conscience. RSA 332-L prohibits those who wish to seek treatment aligning with their beliefs and desires concerning sexuality. No one is in favor of allowing any kind of abuse to masquerade as "therapy," but counseling bans are the wrong tool for addressing actual cases of abuse. Silencing speech only limits the options of people who wish to live consistent with what they believe about sexuality. Depending on the extent to which New Hampshire's current conversion therapy ban is enforced, a paid counselor would be banned from helping a young woman experiencing unwanted attraction to a close female friend, or from helping a youth experiencing gender confusion, but who has expressed a desire to eventually marry and have a traditional family; and a bookstore may not advertise or sell certain books helping people who wish to live consistently with their biological sex. We should take into account the legitimate needs of those who wish to pursue therapy that supports their lifestyle choices, even if they don't conform to the latest cultural

trends. Only then will our public policy simultaneously protect and respect the freedom of everyone.

Second, Conversion Therapy Bans have a negative impact on children, particularly children experiencing ‘gender dysphoria.’ Exploring the underlying causes of a child’s discomfort with his or her biological sex or providing body-affirming counseling is not a “discredited” or “abusive” practice. When treating minors, many medical professionals and parents prefer to try to help them accept their bodies rather than medically alter them. This stands in contrast to the approach recommended by many LGBT activists, which mandates immediate and unquestioning affirmation of a child’s stated gender identity. This affirmation of a child’s stated gender identity can include a social transition, consisting of a new wardrobe, name, and pronouns, and eventually a medical transition via puberty blockers at age 9; cross-sex hormones at 14; and sex-reassignment surgery at 18.

There is strong evidence for the effectiveness of a “watchful waiting” approach to treating gender dysphoria in minors, allowing children time and space to come to terms with their biological sex rather than pursuing aggressive, permanent interventions. Research shows that 80%-95% of children who experience gender dysphoria but do not transition socially will see their distress resolve on its own over time. This finding is alarming when we contrast it with a finding that those placed on the path of social transition proceed to undergo medical transition in almost all cases. These medical transitions can permanently sterilize children well before they are old enough to understand the lifelong implications, and they lack solid medical or scientific support. Opponents of H.B. 1077 would, to great effect, prevent the watchful waiting approach and classify anything other than unreserved affirmation as an unlawful attempt to “change gender identity.”

Lastly, when the State takes away choices from doctors, parents lose as well. In some states, for example, parents have lost custody of a child in part because they wanted to pursue counseling rather than immediate hormone treatments for their child’s sudden gender dysphoria. Such examples send a powerful message to parents concerned for their children. Loving parents should not fear similar trends by the New Hampshire government, which would prevent them from receiving a full range of competent and appropriate care for their children. When children are harmed due to an ideologically driven conversion therapy ban, which often results in irreversible surgeries and hormone treatments, the side-effects of which are by

no means ‘settled science,’ parents are harmed as well. By allowing RSA 332-L to remain, many parents will rightly feel uneasy about bringing a child who has expressed gender confusion to a professional practice—where their child will, because of the current law, most certainly be carried down a path where the potential underlying causes of the child's discomfort cannot be questioned or investigated, which often involves irreversible, life-altering gender affirmation treatments, and where only a partial picture of sexuality can be lawfully considered and discussed. When the State takes away choices from doctors, parents lose as well, including a loss of confidence in NH's system that their child can be treated accurately, with his best interests in mind.

Again, please pass H.B. 1077. I thank you for your time.

Subject: HB 1077
Importance: Normal

Dear Committee Members:

I am a professor of counselor education at Plymouth State University. My job is to teach people how to be counselors. One of the important parts of being a counselor is accepting people for who they are and helping them to learn how to accept themselves. Further, counselors are ethically bound to not provide treatment for which there is no scientific basis. Conversion Therapy has no basis in science. In fact it is the antithesis of science and has no legitimate place as a theory of choice for an ethical counselor. I strongly recommend that you vote against this reprehensible bill.

Sincerely,
Dr. Gary Goodnough
Board Certified Counselor
Licensed Clinical Mental Health Counselor

As a queer resident of New Hampshire, to hear that a Bill was being introduced that would allow the abuse of LGBT+ minors was an utter shock. Conversion therapy is not only an extremely outdated practice, but one that has been proven to not work. LGBT+ youth are already at a higher risk of homelessness, self harm, and suicide than the average teen, passing this Bill will only contribute further to that problem. If we can't allow children to be themselves, how could we possibly be the 'Live Free or Die' state? As a member of the LGBT+ community, I strongly oppose this Bill and the great harm it will impose on not only the community as a whole but children especially.

Importance: Normal

Dear Committee Members

Please vote unanimously against HB 1077 (repealing the prohibition on conversion therapy for minors).

It is shocking to me that the question of conversion therapy is again under consideration, after being prohibited in 2018 following careful legislative and gubernatorial processes.

As you know, conversion therapy has been denounced as harmful and abusive to those on whom it is practised by those professional groups with the most experience with the therapy, including the American Medical Association, the American Psychological Association and the American Counseling Association.

Sincerely,

Wiltrud R. Mott-Smith

Dear Representatives serving on the HHSEA committee:

This letter is to urge you to oppose HB1077 - a bill to repeal the ban on conversion therapy. I am a resident of the town of Exeter, and have been a NH resident for 47 years.

Please consider the following:

- * There is no credible evidence that conversion therapy has any positive outcomes for the patient.
- * People who are subjected to this intervention (I use this term loosely) are several times more likely to attempt to commit suicide.

Our health care dollars should not be going to support a proclaimed therapy that does significantly more harm than good. It is not a health measure and should remain banned.

I would be grateful if you would please let me know where you stand on this bill.

Thank you for your service,
Martha Byam

Good Evening,

I am writing in regards to HB1077 which is on the docket, regarding repealing the ban on conversion therapy for minors. I want to express my concern over this dangerous type of therapy and ask you to vote against repealing the ban.

As a member of the LGBT community who suffered through attempts by my parents to change who I am at my core, I want to state that nothing was more detrimental in my upbringing than those attempts. Conversion therapy and other similar practices are dangerous for children's mental well-being, and I ask again that you please vote against this repeal.

Thank you very much for your time.

Dear Committee,

Although the hearing is closed, I need to let you know that as an Aunt of an LGBTQ nephew, and being a lesbian, myself, I urge you not to pass this horrible bill.

Why in the world did someone present this bill in the first place? Who we are is a private matter!

Furthermore, it's hard enough being a member of this community without having uninformed people try to change us. I am 72 years old and was sent to a psychiatrist at an early age by my parents whose purpose was that I change who I loved. It hurt me considerably. There's also the matter of teen suicide. Kids have it hard enough already without the pall of conversion therapy looming over them.

Do the right thing by these vulnerable kids.

Respectfully submitted,

Louise Taylor

Subject: HB1077 Repealing the Prohibition on Conversion Therapy for Minors

Importance: Normal

Dear Committee Members,

Conversion therapy is and should be an appalling affront to all NH citizens. It is abusive, unnecessary, and considered torture in most developed countries. There is absolutely no reason to consider a repeal of this ban.

It is not a crime to be gay. Being gay is not a disease to be cured, and if a parent finds their child so disgusting that they would resort to torture to "fix" them, the parent is the one that needs therapy, not the child.

Do the right thing and dismiss this bill.

Your queer constituent,
Zac Smith

Subject: HB 1077 - horror of horror and shame on NH
Importance: Normal

Hello,

I am writing as a professional and as a mother of a gay man, in absolute horror that this bill has been introduced in the NH statehouse. This is an atrocious affront on humanity, on legality and on civil rights- let alone a clear threat to our citizens in that conversion therapy directly aids to death, mortality. This bill must not only be killed in committee but the representatives who introduced it must be called out – identified to the voters of this state so we may make our voices heard that healthcare shall not be turned into political torture for the citizens of NH.

I am deeply outraged.

That my legislatures spend time creating death when there is so much health care need is abhorrent.

With Urgency and Hope,
Heather Toulmin

PS---Below is data for your committee to receive and enter into the record, again and again until every member of the house is educated:

Conversion therapy is an unethical and potentially harmful practice. In line with the AMHCA, ACA, APA, NASW, and AAMFT among others, we do not support the repeal of the ban on conversion therapy.

This type of therapy has been empirically studied and shown to be detrimental to clients who are LGBTQT. The increased rate in depression and suicide is documented, as in the following:

*A new report by the Williams Institute at UCLA School of Law finds that non-transgender **LGB people who experienced conversion therapy were almost twice as likely to think about suicide and to attempt suicide** compared to their peers who hadn't experienced conversion therapy." "LGB people who experienced conversion therapy showed greater odds of having suicidal thoughts and attempts compared to LGB people who had not experienced conversion therapy which includes:*

- **92% greater odds of lifetime suicidal ideation**
- **75% greater odds of planning to attempt suicide**
- **88% greater odds of attempting suicide resulting in no or minor injury**

Position statements on conversion therapy from ACA, APA, NASW, AAMFT and others:

<https://www.hrc.org/resources/policy-and-position-statements-on-conversion-therapy>

(2020, June 15). *LGB People Who Have Undergone Conversion Therapy Almost Twice as Likely to Attempt Suicide* - Williams Institute. LGB people who have undergone conversion therapy almost twice as likely to attempt suicide - Williams Institute. <https://williamsinstitute.law.ucla.edu/press/lgb-suicide-ct-press-release/>.

Subject: HB 1077
Importance: Normal

Good Afternoon, Committee,

I'm James Marston, and I'm a licensed mental health counselor. I'm writing to urge you to not overturn the ban on conversion therapy. There is no medical benefit to the practice, a fact supported by research. The positions of the American Academy of Pediatrics, the American Medical Association, the American Psychiatric Association, and a host of others supports this.

In fact, research has shown that conversion therapy is harmful to those who undergo it. The Williams Institute at UCLA found that people who undergo conversion therapy are more likely to report suicidal thoughts, plans, and attempts.

Overturning the ban amounts to condoning those who would harm others with pseudoscience and unethical practices. It would be seen as a de facto statement that conversion therapy practices have a place in therapeutic care, when in fact they do not.

I urge you to uphold the ban as a clear statement that conversion therapy is harmful and should not be tolerated.

Thank you,

James C. Marston, LCMHC

Regarding the Proposal to repeal the ban on Conversion Therapy, I wish to express my concern and opposition to this bill. I am a retired Clinical Mental Health Counselor with 38 years experience treating NH clients.

This type of "treatment" is ineffective to changing someone's sexual orientation and, indeed poses a very real risk of causing harm. The message is "You're not normal". "You have something very wrong with you!"

Obviously there are some people who do believe this is the truth. But what if they are wrong!

No body can be in someone else mind. We cannot know how they feel. But I can tell you that I have met many people in my work from all walks of life. I have never met someone who has mental health problems **solely** because of their sexual orientation.

As the Physicians follow their mandate, "Above all, do no harm." I ask you to consider the real risks of confusion, insecurity and isolation this repeal will cause, and the very real likelihood that Conversion Therapy will not produce any benefits.

Honorable members of the House Health, Human Services and Elderly Affairs committee

I am writing to ask that you vote this bill ITL. Conversion therapy is a highly damaging practice based on beliefs about sexuality and gender identity that have been shown repeatedly to have no basis in fact. There are no major medical or psychological associations that endorse conversion therapy and many that have come out strongly against it because of the harm it causes to LGBTQIA individuals. I would also direct your attention to the large number of individuals who formerly led organizations that supported conversion therapy but have found that they themselves could not remain "ex-gay". They have denounced this practice and the harm that it does, including increased risk of depression and suicide. There are a number of websites about this and even a documentary film. I would recommend you look at bornperfect.org/former-ex-gay-leaders/

I was relieved that this harmful practice was outlawed in our state a couple years ago. Please do not make the mistake of allowing licensed counselors to participate in conversion therapy without consequence based on their personal beliefs that are misguided at best.

Thank you for your service,

Jennifer Smith, MD
Pembroke, NH

Re: HB 1077- repealing the prohibition on conversion therapy for minors

Dear Chair Pearson and Members of the Health, Human Services and Elderly Affairs Committee,
On behalf of the National Association of Social Workers New Hampshire Chapter, I am writing to express our strong opposition to HB 1077.

Conversion therapy has been discredited and highly criticized by all major medical, psychiatric, psychological and professional mental health organizations, including the National Association of Social Workers. Data demonstrates that conversion therapy negatively impacts the mental health and self-esteem of the individual.

NASW NH strongly asserts its stance against therapies and treatments designed to change sexual orientation or gender identity and against referring clients to practitioners or programs that claim to do so. The practice is unsubstantiated, harmful, and unethical.

Repealing this ban would needlessly put our youth at risk of psychological chicanery, discrimination, and prejudice.

Thank you for the opportunity to voice our opposition.

Respectfully submitted,

Importance: Normal

NH HB 1077

Dear Members of the Health, Human Services, and Elderly Affairs Committee.

I'm Stephen Scaer, 111 East Hobart Street, Nashua, NH, and I'm here to ask you to help repeal the therapy ban by voting OTP on HB1077.

I read [the following post](#) on the Detransitioners Subreddit page, which has almost 26,000 members:

"Why have trans activists pushed so hard for immediate medicalisation of anyone who is experiencing even minor forms of gender discomfort /dysphoria, encouraging a lifetime of doctors, blood tests, scans, injections, surgery, even more surgery, instead of just trying talk therapy first? Would it be ethical to staple the stomach of a 14-year-old anorexic shut so they can't gain any more weight even though there's nothing wrong physically, the problem is all psychological?"

"Seems insane, yet that's exactly what we're doing to trans kids, permanent changes made from a problem that isn't even real a lot of the time. Sex can never be changed, and no matter what surgeries and unhealthy medical procedures you do to people it will never even come close to the bodies given to us at birth, yet we throw that all away because of a thought we were "born in the wrong body"??? How can it be wrong if it's perfectly healthy and functions by itself without need for medical intervention ? Doesn't make sense.

"Transition should 100% be the last resort, not the first. ESPECIALLY in the case of minors."

Several detransitioners responded that their therapists hadn't helped them explore the mental health issues underlying the gender dysphoria before medicalization, others noted that in some it's illegal to offer help other than affirmative care:

One detransitioner suggested: "If you go to a therapist who has experience with LGBTQ people, but is not gender affirming, they can help! Also, if you're in the US, some states require all therapists to obey the affirmative care model. So, hop on Psychology Today, find a therapist who's not from those states, and go on online sessions!"

Unfortunately, NH is one of those states that bans therapists from providing children with the help they need.

It's also important to note that often cited [Report of the American Psychological Association Task](#)

[Force on Appropriate Therapeutic Responses to Sexual Orientation 2007](#) didn't demonstrate that Sexual Orientation Change Efforts were ineffective or harmful:

"We thus concluded that there is little in the way of credible evidence that could clarify whether SOCE does or does not work in changing same-sex sexual attractions."

And that "other individuals reported that SOCE was helpful—for example, it helped them live in a manner consistent with their faith. Some individuals described finding a sense of community through religious SOCE and valued having others with whom they could identify."

As to harm, including suicidality caused by this therapy, the report concluded:

"Early and recent research studies provide no clear indication of the prevalence of harmful outcomes among people who have undergone efforts to change their sexual orientation or the frequency of occurrence of harm . . . Thus, we cannot conclude how likely it is that harm will occur from SOCE."

I ask you to please get the state and popular ideologies out of individual therapy so that young people, especially those with gender dysphoria, can get the help they need. Please vote OTP on HB1077.

So why did the American Psychological Association recommendations stray so much from the findings?

Well, the report indicates animosity toward traditional religion, which they presume to be based in guilt;

"Many religious individuals desired to live their lives in a manner consistent with their values (telic congruence); however, telic congruence based on stigma and shame is unlikely to result in psychological well-being."

And the report indicates the APA's dedication to the critical theory principal of intersectionality, which views people as members of oppressed groups, rather than individuals, resulting in one-size-fits-all approaches:

The report calls for education regarding the importance of: "• The intersections of age, gender, gender identity, race, ethnicity, culture, national origin, religion, sexual orientation, disability, language, and socioeconomic status."

Subject: VOTE AGAINST HB 1077...Conversion therapy is UNETHICAL, CRUEL, and DEFIES THE SCIENCE OF CLINICAL PSYCHOLOGY

Importance: Normal

Dear Legislator,

As a clinical psychologist practicing for 30 years, and the proud mother of a gay son, I can tell you that conversion therapy is unethical, cruel, and defies all the data on sexual orientation and psychological health. Asking a person to conceal or repress their sexual identity causes depression and suicide. If you vote to allow conversion therapy, you will cause the deaths of gay and lesbian youth. This bill is an outrage, and anyone considering voting for it should be ashamed. Gay and lesbian youth thrive when they are encouraged to be themselves, and I will do everything in my power to expose the shameful of legislation that causes LGBTQ youth like my son, his boyfriend, and my patients to suffer. Vote against HB 1077 -- this bill is an abomination.

Sincerely,

Miriam R. Osofsky, Ph.D.

To: ~[House Health Human Services and Elderly Affairs](#)
Subject: Vote OTP on HB1077
Importance: Normal

Dear Committee Members,

In 2018, Governor Sununu signed an unconstitutional “conversion therapy” ban bill into [a law that bans therapists](#) from helping confused kids and teens to explore whether their same-sex attraction or opposite sex gender identity is something they want to keep or change.

[According to Cornerstone](#), the therapy ban has these devastating consequences.

- **Muzzles therapists and restricts their speech** in a clinical setting.
- **Ignores a patient’s right** to set their own therapeutic goals. A client dealing with *unwanted* same-sex attraction or gender dysphoria would not be able to get the help they need and want.
- **Infringes on the religious liberty** of therapists.

This law puts kids and teens on a one-way street with no turning back.

My niece, who grew up in a dysfunctional family situation, went on testosterone as a 17-year-old. She thought it would solve her problems, but it only made them worse. She died at 21 from a drug overdose.

Cari Stella, a young woman who [posted a video](#) on YouTube about her experiences both transitioning as a minor, and detransitioning as an adult, reports that no one told her she had any other options.

“They don’t tell you that it’s OK to be butch, to be gender non-conforming, to not like men, to not like the way men treat you . . . They tell you about testosterone.”

Stella asks how many other medical conditions are there where “you can walk into the doctor’s office, tell them you have a certain condition, which has no objective test, which can be caused by trauma or mental issues or societal factors, and receive life-altering medications on your say-so?”

The therapy ban denies children like Stella even the chance to explore how they can live as their biological sex before making choices they’ll regret. This isn’t therapy, its ideology, and our children deserve better.

Please vote OTP on HB1077 to repeal the therapy ban.

NH House of Representatives
Standing Committee for Health, Human Services & Elderly Affairs

February 3, 2022

Dear Chairman Pearson and Committee Members,

I am writing to express my strong opposition to HB1077. Conversion therapy assumes that homosexuality is a mental disorder or in the very least is a part of someone that can or needs to be changed. This assumption has been rejected by the American Psychiatric Association (*Position Statement on Issues Related to Homosexuality*, 2013), the American Psychological Association (2009), the American Counseling Association, and more.

Simply put, sexual orientation change efforts are based around the conflict of values. Some espouse the notion that homosexuality is a developmental defect or a moral failing. Others endorse that homosexuality is naturally occurring and not indicative of psychopathology or morality. Regardless of one's personal values surrounding homosexuality, it is quite evident that conversion therapy is a harmful practice. While there may be some evidence that conversion therapy results in *some* behavioral change, there is no evidence that this technique results in altered sexuality. The resulting internal conflict between a person's self and their actions leads to a great deal of psychological distress and a host of negative sequelae. In short, conversion therapy is a disproven, unscientific, and harmful practice of attempting to solve a problem that does not exist. I strongly urge the Committee to vote down this legislation.

Sent: Tuesday, February 22, 2022 3:51:29 PM
To: ~House Health Human Services and Elderly Affairs
Subject: HB1077
Importance: Normal

Dear honorable Health, Human Services, and Elderly Affairs committee members,

My name is Lyra Saults, I am 16 years old, and I live in Bristol, NH. Last week, I watched the hearing for HB1077: Repealing the prohibition on conversion therapy for minors. I am firmly opposed to this Bill.

I am concerned about this Bill because many of my dearest friends and family members are part of the LGBTQ+ community. The passing of HB1077 would allow my friends, family, and others in my community to potentially face extreme abuse. These people are already at greater risk of developing mental health problems. This is commonly due to the nonacceptance of their identity. They should never have to suffer through therapy focused on enduring and encouraging this lack of acceptance.

HB1077 legalizes the practice of conversion therapy for minors in New Hampshire. Rather than assisting a person positively in their self-discovery, conversion therapy's goal is to completely change someone's sexuality and/or gender identity— a result that has never even been proven to be possible. Conversion therapy includes many types of mental abuse, such as defying the patients' feelings and trying to force them to think and act differently. Historically, it has also included physical abuse, such as beating. Some may say that conversion therapy can be done in a gentle and ethical way, but this is false. The objective is still to change someone's identity and the therapy is often requested by someone besides the individual receiving the treatment. This type of nonacceptance directed at youth often leads them to develop depression and suicidal thoughts. Forced change is not therapy.

Some, though firmly opposed to conversion therapy, interpret the language of that law as limiting to therapists who want to be able to have relaxed, open discussions with their patients. They also claim that current rules and regulations for medical professionals already prevent them from using coercive/forceful/conversion-therapy-like methods of any sort with their clients.

I suggest the Committee looks into that to see whether or not those claims are valid, but this does not affect the essential choice of maintaining our current law. LGBTQ+ youth have the right to have access to therapy and to have comfortable discussions with their therapists without fear of being forced to be someone they are not. I propose not repealing the law at all, but looking into how it affects LGBTQ+ youth and their search to find genuine and damage-free mental health care in New Hampshire.

Thank you for your time and consideration.

Sincerely,
Lyra Saults

To all members of the House committee considering the bill to allow 'conversion therapy' ---please, please, do NOT approve this bill. Do NOT allow this dangerous practice (not therapy at all) to be mandated in NH. The young people dealing with issues of their gender identity need support NOT 'conversion". Statistics of people who have undergone such treatment are much more likely to harm themselves--don't do that to them or their families.

Do NOT pass HB 1077

Hi Committee Members,

My name is Jayson Cassetta and I live in Keene NH, and you're my State Rep. I'm emailing today to urge you to oppose Bill 1077. As a student, this bill is important to me because I am apart of the LGBTQ+ community and to see this bill even be considered hurts me, my friends, colleagues, teachers, and my community. This bill will traumatize and scar many children and individuals. I am not a broken toy you need to fix, I am a respected and kind human who cares for my community. I urge you to reconsider this bill and think of all the lives you could save if you reject it.

Thank you for your consideration

Subject: Regarding Bill HB 1077
Importance: Normal

Hello,

My name is Dustin and I'm a resident of New Hampshire currently living in Plymouth, New Hampshire. It came to my attention that Bill HB 1077 is looking to repeal the prohibition of conversion therapy on minors, and that's why I'm writing to you all today. I am currently in a master's program to obtain my master's in clinical mental health counseling, and with all my knowledge of both mental health from school, scientific papers, and personal experiences, I can assure you conversion therapy doesn't work and is instead incredibly inhumane to any LGBTQ+ Youth. It's very disheartening to hear my home state would look to unban such a barbaric and frankly inhumane practice that has been proven to have no merit. New Hampshire should be somewhere where all youth feel safe to be and express who they are, and that's why I'm hoping you will vote against this bill and keep our LGBTQ+ youth in NH safe.

Thank you for your time,
Dustin Bousquin

Testimony in Support of HB 1077
Samuel Safford
Pelham, NH
February 15, 2022

Dear Committee Members,

I am asking you to support HB 1077 to repeal the prohibition on conversion therapy for minors.

I, myself, several years ago struggled with my sexuality and gender. I have Duchenne Muscular Dystrophy and use a power wheelchair. My disability made it difficult for me to fit in during High School.

I began having same sex attraction and browsing gay dating apps. Men, old enough to be my father, were texting me nude photos of their genitalia. I started going down a dangerous path. I was confused about my gender and believed I was non-binary, neither man nor woman. This confusion caused me to abuse alcohol and marijuana and I had to be hospitalized.

I was seeing a Christian counselor during this time and rather than helping me align my sexuality with my sincerely held faith perspective, which was my own therapeutic goal, he continued to lead me down a path that left me in further confusion about my gender and sexuality.

After this, I was diagnosed with and treated for Bartonella, a bacterial brain infection caused by a tick-bite, and as the treatment started to clear my brain inflammation, I realized that I was neither gay, transgender nor non-binary.

I believe that a ripple effect has occurred because of this law – impacting not only minors, but even young adults like me seeking help. I believe my counselor has been conditioned to deny clients like me from seeking my therapeutic goals of aligning my sexuality with my sincerely held religious beliefs. If he had not denied me this right, my family and I would have been spared months of confusion and despair. It pains me to think the same could happen to a minor – not much younger than me.

For these reasons, I ask you to support HB 1077 and lift RSA 332-L's unconstitutional intrusion into the privileged speech of counselor and the therapeutic goals of a client.

RE: HB1077

Dear Chair Pearson and Members of the Committee,

My name is Loreley Godfrey, and I'm 17 years old from Portsmouth. I stand in strong opposition to HB1077, repealing the prohibition on conversion therapy for minors.

This bill wrongfully makes the assumption that conversion therapy is a necessary medical treatment.

The [American Psychological Association](#) supports that same-gender sexual orientation and varying gender identity or expression are a normal part of humanity. They do *not* constitute a mental disorder. It is extremely harmful, homophobic, and unethical to propose a bill based on the assumption that one's sexuality needs to be changed.

If this bill operated under leading medical or scientific research, it would be recognized that there is no need for the inclusion of such therapy when the disorder it is meant to treat simply does not exist.

Upon direct communication with the sponsor of this bill, Rep. Wuelper made a couple erroneous claims.

Firstly, he argued that conversion therapy hasn't yet been proven to be effective or harmful, so subsequently there shouldn't be any negative impact if this bill passes. This is incorrect. There is no evidence in any capacity proving that it is effective, and any treatment or practices that purport to change an individual's sexual orientation or gender identity lack any foundation in science and medicine. [International Foreign Expert Group 2020](#) The American Psychiatric Association confirms that conversion therapy is often coercive, harmful, and should not constitute *any* behavioral health treatment. [SAMHSA](#)

Secondly, Rep. Wuelper further argued that it is important to give healthcare providers maximum freedom in determining treatment. However, healthcare providers themselves don't want this therapy. The American Academy of Nurses, the American Medical Association, National

Association for Children's Behavioral Health, and more organizations do not believe that an empirically-proven harmful therapy should be apart of their treatment toolkit. [Ashley 18](#)

If this bill was actually backed by facts with the intention of helping youth, it would understand that conversion therapy is a) incredibly harmful, b) ineffective, and c) should not be legalized.

Passing this bill would be unimaginably harmful to New Hampshire Youth. Minors would be at risk of undergoing traumatic therapy that decimates their mental health and isolates them from their peers. The [International Foreign Expert Group 2020](#) confirms that PTSD, chronic stress, and negative health consequences are common symptoms of undergoing such treatment. Those who have experienced conversion therapy have a sharp increase in suicidal and depressive tendencies.

As a member of the queer community myself, I am appalled that such a notion is even being entertained. I should not have to worry that my doctors, medical professionals who I should be able trust, could put myself or other queer youth through electroconvulsive shock therapy, corrective violence, invalid medication, or psychotherapy. According to a [recent report](#) by the Williams Institute at UCLA School of Law, an estimated 20,000 LGBTQ minors in states without bans will be subjected to conversion therapy by a licensed healthcare professional if state officials fail to act. Do not let New Hampshire join those ranks. [Human Rights Campaign](#)

Conversion therapy does not align with the fundamental ethical principles and duties of health professionals. It would prove devastating to our State. It is a pseudoscience that promotes a system of repression against patients on the basis of their sexuality or gender identity.

For the sake of protecting New Hampshire youth and upholding scientific research, you have to vote HB1077 Inexpedient To Legislative.

Sincerely,

Loreley Godfrey

RE: HB1077

Dear Chairperson and other members of the committee,

My name is Corina Ryan, I am currently a graduate student at New England College. I am writing to proclaim my opposition of HB1077. This bill seeks to repeal the ban on conversion therapy in New Hampshire. Current research shows that conversion therapy is a dangerous practice that is potentially harmful for clients. Furthermore, this form of therapy has a low success rate at changing anyone's sexuality and instead does harm to clients.

In 2007 the American Psychological Association (APA), created a task force to explore the effects of conversion therapy. The APA found that conversion therapy was unlikely to be successful in changing the client's sexual orientation and furthermore was likely to cause harm to the client (American Psychological Association , 2009). Instead, the APA reports that the best response is one of acceptance, support, and understanding by therapists and the community (American Psychological Association , 2009).

While the APA and other research entities have shown the poor success rate with conversion therapy, it has also proclaimed the harm that can occur. A report from Williams Institute School of Law at UCLA showed that those who experienced conversion therapy were twice as likely to kill themselves (Williams Institute at UCLA School of Law , 2020). In fact, those who received conversion therapy were 92% more likely to commit suicide in their lifetime as well as being 75% more likely of planning to attempt suicide (Williams Institute at UCLA School of Law , 2020). This shows that this therapy does harm as a result is not one that is supported by the AMHCA or the NHMHCA.

I hope that you consider that repealing this bill will have great ramifications for many of your constituents as well as citizens across the state.

Respectfully submitted,

Corina Ryan
Graduate Student

Importance: Normal

Chairman Pearons and Members of the Health, Human Services and Elderly Affairs Committee,

It has come to my attention that some have given testimony that the conversion therapy ban is confusing and preventing clinicians from taking on adolescent clients. While it is difficult to disprove a negative, I have never heard this from our social workers.

I hear from social workers every day. I hear about insurance companies not paying them fair rates, that they have more people asking for services that they can provide, that child care issues have seriously curtailed their ability to see clients, interstate telehealth woes, ethical dilemmas and a host of other issues. ***I have never heard from a social worker confused about the conversion therapy ban.***

I would contend that **any** clinician doing their due diligence would research a practice they were concerned about. There is a litany of research decrying the perverse, harmful, unethical, and brain-washing practice of conversion therapy.

I would be very happy to speak to the Committee or answer any questions you may have.

Respectfully submitted,
Lynn Stanley

Subject: HB 1077
Importance: Normal

To the NH Committee of Health, Human Services, and Elderly Affairs:

My name is Sydney Bellimer, I am a resident of Plymouth, NH and I am currently a graduate student at Plymouth State University studying School Counseling. I am writing to you today regarding HB 1077. If passed, this bill would repeal New Hampshire's prohibition of conversion therapy for minors.

For decades there has been an overwhelming amount of research that not only demonstrates conversion therapy's ineffectiveness but also confirming the significant harm that it has on individuals, particularly minors. Every major medical and mental health organization in the United States has issued a statement condemning the practice of conversion therapy for a reason. **Minors are especially vulnerable to negative effects of conversion therapy, including depression, anxiety, substance abuse, homelessness, and suicidal behaviors.**

You cannot change a person's sexual orientation or gender identity/expression, they are not things you get to choose. Forcing youth to reject themselves to fit into someone else's standards only puts them at a higher risk of mental health disorders and risky behaviors. It also will continue to push youth out of New Hampshire as our youth population continues to dwindle. The LGBTQ+ youth of New Hampshire have the right to be accepted as they are and protected against practices that have been proven time and again to be ineffective and harmful to their wellbeing.

As an LGBTQ+ person, a mental health advocate, a counseling graduate student, and a lifelong resident of New Hampshire, I urge you to **vote NO on HB 1077.**

Thank you for your time. Sincerely,

Sydney

Re: HB 1077- repealing the prohibition on conversion therapy for minors

Dear Chair Pearson and Members of the Health, Human Services and Elderly Affairs Committee,

On behalf of the National Association of Social Workers New Hampshire Chapter, I am writing to express our strong opposition to HB 1077.

Conversion therapy has been discredited and highly criticized by all major medical, psychiatric, psychological and professional mental health organizations, including the National Association of Social Workers. Data demonstrates that conversion therapy negatively impacts the mental health and self-esteem of the individual.

NASW NH strongly asserts its stance against therapies and treatments designed to change sexual orientation or gender identity and against referring clients to practitioners or programs that claim to do so. The practice is unsubstantiated, harmful, and unethical.

Repealing this ban would needlessly put our youth at risk of psychological chicanery, discrimination, and prejudice.

Thank you for the opportunity to voice our opposition.

Respectfully submitted,

Lynn Stanley, LICSW

Dear Representative's in the Health, Human Services and Elderly Affairs,

My name is Connor Mack, a lobbyist with the New Hampshire Youth Movement. As a resident of Dover, New Hampshire, I am writing to you to convey my approval of House Bill 1077 regarding the act relative repealing the prohibition on conversion therapy for minors.

As a young member of the queer community, seeing that there is any discourse around repealing the prohibition on conversion therapy for minors disheartens me. This bill has protected the rights of many children within New Hampshire, and it must stay in place in order to continue to do so. Conversion therapy is an extremely harmful, inhumane practice. According to the UCLA school of Law, LGBTQIA+ people who are forced to undergo conversion therapy are twice as likely to think about committing suicide compared to their peers who have not had to go through conversion therapy. Nothing about this practice is in the best interest of children, it's in the best interest of those who think they know what is best for a body and mind that is not their own.

Thank you again for considering this letter, and please consider voting against **HB 1077** when you have the opportunity to vote on the bill.

Sincerely,

Connor Mack

Rep. Mark Pearson
House Committee on Health, Human Services, and Elderly Affairs
LOB Room 205
33 North State St.
Concord, NH 03301

Dear Chairman Peterson and Members of the Committee,

My name is JB Brackett. I am a 26-year-old who grew up in the state of New Hampshire. I am also a part of the LGBTQ+ community. I am writing to request that you oppose HB 1077, the bill that would end the prohibition on conversion therapy for minors.

Conversion therapy is a dated and discredited practice. It has been for a long time. You cannot change a person's sexuality. You cannot stop a person from being transgender. Those of us in the LGBTQ+ community have been and will be a part of it for our entire lives.

Conversion therapy harms LGBTQ+ people, specifically minors, who are still growing and learning about themselves. There is significant evidence of this fact. As such, every major medical and mental health organization in the United States have condemned the use of conversion therapy. Even Dr. L. Spitzer, a psychiatrist who released a [flawed] study on conversion therapy, has denounced the study and apologized for endorsing the practice.

A report by the Williams Institute at UCLA School of Law found that people who have undergone conversion therapy are almost twice as likely to think about and attempt suicide. Data from the organization The Trevor Project, a crisis support organization dedicated to supporting transgender and LGBTQ+ youth, found that almost 50% of youth exposed to conversion therapy attempted suicide. This same study found that 57% of transgender and nonbinary youth who have undergone conversion therapy attempted suicide in the last year.

The facts prove it. Conversion therapy is a dangerous practice. It only harms those exposed to it, significantly, at that. Please oppose this bill, and save New Hampshire's youth.

Sincerely,
JB Brackett

Importance: Normal

Dear Chairman and Members of the Committee,

My name is Dow Drukker and I live in Nottingham, and as a member of the public and lifelong resident of New Hampshire, I urge this committee to oppose HB 1077. The proposed bill is an example of the priority political performativity has in government over the well-being of constituents. Not only is the bill a clear and abhorrent violation of human rights, but it clearly indicates the partisan theatrics that takes precedence over the safety of New Hampshire residents. Dissecting the merits of this legislation is irrelevant, as this is not a question of efficacy, but morality. This is a question of whether or not New Hampshire wants to be a state that endorses physical, emotional, and psychological torture for the purposes of advancing extremist religious and political goals. This bill represents an obvious infringement on the civil liberties bestowed upon each resident in this state. It is not the role of the government to impose value judgment on an individual's personal autonomy. It is essential that this committee oppose this legislation and preserve the human and civil rights of Granite Staters.

Thank you,
Dow

Sent: Tuesday, February 15, 2022 9:20:47 PM

To: ~House Health Human Services and Elderly Affairs

Subject: Follow Testimony on HB1077 (including testimony from mother who wants to remain anonymous)

Importance: Normal

My name is Ann Marie Banfield and I am a parental rights advocate in New Hampshire with a focus on academic excellence in education. Today I come here in support of HB1077. HB1077 would repeal the conversion therapy ban in New Hampshire.

Let me first start out by saying, what we've all seen portrayed on TV by some religious sects aimed at children, is shocking and abusive treatment. In no way do I want there to be any confusion that this kind of behavior is acceptable. However, as a parental rights advocate, I want to be very careful that we never limit good therapy options for their children who need it.

I hear from parents who have come in conflict with their school counselors on how best to help their children. These are loving and caring parents who have seen deep rooted issues that they want to address through therapy. These are not parents who would agree to what has been reported in the news. I will only support parents who are loving and supportive of their children no matter where that leads them.

I'm going to start by reading a 1-page testimony from a parent who came to me because of what was happening to her daughter in their school district. Because this is current and because the mother is a teacher in another school district, we agreed that her testimony should be read by me so that she can remain anonymous. (***PLEASE SEE BELOW***)

I also had another parent reach out to me a few years ago based on what was happening with her daughter and how school counselors were handling the situation.

In this case, the parents had adopted a brother and sister at a young age. The NH mother knew that her adopted children were traumatized by sexual abuse at a very young age.

When her daughter began puberty, she also began dressing as a boy. There was speculation that the girl believed that by dressing as a boy, she would appear less attractive to males. It was the males in her life, who sexually abused and traumatized her. It wasn't surprising that she was acting out this way.

School counselors wanted to label her, and treat this girl according to their will, but the mother wanted intensive therapy that would address her sexual abuse and trauma.

I tell you these two stories for a reason. In both cases, there were underlying issues causing their daughters to act out in a certain way. They had underlying issues that only a good therapist could uncover. With help from the therapists, they had hope that they would be able to help their daughters.

These are parents that would love, accept and value their daughters if they were part of the LGBT community. But they were also parents who knew that if they ignored the underlying conditions, things can get worse for them. They knew that in order to get help for their daughters, they had to seek out the best available help from a therapist.

That brings me to the Conversion Therapy Ban. My concern has always been, are we going to handcuff good therapists with this law? Are we going to limit the choices for these parents? These are parents who want no part of the abusive approach used by religious sects, they wanted to make sure that whoever they used, had the ability to practice in a way that could best help their children.

It's clear that prior to this law the licensing board could address abusive or coercive therapists. Maybe that's why we know of no cases like this in New Hampshire. We also know that this law is denying good quality care to children. For these reasons, I urge you to vote OTP on HB1077.

Ann Marie Banfield
North Hampton, NH

ADDITIONAL TESTIMONY by a NH Mother who wants to remain anonymous. Her story:

I am writing today in regards to banning the conversion therapy law. I would like to remain anonymous as I have a preteen child going through some concerning issues. I would like to share my story so others may understand that I do not condone conversion therapy as seen on television but to allow therapist to broaden their approach when treating patients. I will use the pronoun they/them to protect my child and not because they go by this pronoun.

*I have a child that is going through a pivotal time in their life. I recently learned that my child was in a very dark space and needed help. I knew I needed to get **** some type of therapy that would help **** navigate their anxiety, stress, coping skills and just life in general. I also realized that my child was trying to figure out if they belonged to the LGBTQ community. As parents, we have always tried to make sure that our children knew that we will support and love them no matter who they are. We want to raise good kids that are happy and healthy in whatever lifestyle they choose. My child began therapy with*

someone who primarily focused on sexuality instead of the other areas. Within just a few sessions, my child went from confused to convinced that they were transgender. Since my child has never given the impression that they would want to be a different gender, this left me more confused. After speaking more to my child about this, we discovered together that they really wasn't transgender. I asked my child's therapist to work on my child's anxiety, stress, and coping skills rather than focus on sexuality. I was told that wouldn't work and that their sexuality was all part of this. I began researching other therapists and basically heard the same thing. I feel as though there are other reasons behind my child's anxiety and self-harming and it wasn't about their sexuality. Thankfully I did find one therapist that would focus on the issues that I am concerned about however, it wasn't easy to find this person. Apparently, the way I see it, it is common practice to convince children that since a child is confused and questioning their sexuality then they must be LGBTQ. This is what I learned through my research. If my child works through the issues I see are important and then uncovers that they are part of the LGBTQ community, they know they are supported 100%. I feel that it should be figured out naturally rather than being told they must be if they are confused.

Parents need options. Mental health practitioners are limited on what they can practice. This should NOT be the case. Therapy should be individualized and treated accordingly. When a child is confused about who they are as a person and throwing labels on themselves is detrimental to their well-being. They are now being convinced that they are what they think they are because therapists are limited on their approach. This can create more harm than good. Please consider removing this law so children in particular can receive a more comprehensive and individualized approach in therapy. Just because a child is saying they are gay, isn't necessarily true if there are underlying things going on with the child. I just want my child to be happy and healthy both physically and mentally. I want them to learn their own truth about who they are by exploring other avenues and not being committed to the LGBTQ community if she truly isn't. We love our child very much and would like the opportunity to explore all therapies that are available. Parents need choices because therapy is not one size fits all.

Good morning,

I am sending this email at the request of Beth Folsom in order to provide you with a written copy of my testimony from yesterday's hearing. Unfortunately, I did not have enough time to elaborate on all of my points. Attached is a pdf version of my statement. I have made minor revisions and clarifications to the statement since yesterday, but I have not altered anything substantial, nor anything that I had already stated during my testimony at yesterday's hearing. I sincerely appreciate your time and consideration in this matter.

Best regards,

David Schvaneveldt

Subject: HB 1077 regarding conversion therapy
Importance: Normal

Dear Representatives,

I'm writing to you regarding a bill you will be voting on soon. This bill is known as HB 1077. This bill would repeal a law prohibiting conversion therapy on minors. As the law currently states, a minor would be able to legally access conversion therapy if they consent to conversion therapy.

I am very concerned that if this bill is to pass LBGT+ youth may be forced to attend conversion therapy by their parents. Many LBGT+ children face rejection from peers, authority (such as teachers), and often even family. I fear that if this law passes many unaccepting parents will send their children to conversion therapy which is detrimental to a child's mental health.

In 2021, an estimated 19% of LBGT+ children ages 13-18 in the U.S. attempted suicide, according to thetrevorproject.org. Most LBGT+ children who commit suicide do so due to the previously stated rejection. If these children are forced to face further abuse and rejection of who they are then, even with counseling, the percentage will rise. This would lead to the untimely death of more children.

I believe that therapy should be a place in which people can openly talk about their feelings, and get the help they need; not fear rejection. Therapy should exist to improve mental health, not the opposite. Beyond this, conversion therapy has been shown to be ineffective. Rather than "turn straight", or "become cis" it encourages LBGT+ individuals to reject themselves and become closeted at best, and lead to suicide at worst.

-Thank you very much for your time reading this,
Mr. August O'Brien

Dear Members of Health & Human Service Committee:

This Tuesday HB 1077 that simply reverses the current law which prevents minors experiencing unwanted same sex attraction and / or gender dysphoria from getting help with the Freedom of Choice . This law infringes on religious liberty and the judgment of therapist. Government that has the power to make such a decision is a dangerous course of action that reflects the wisdom of the enemies of liberty that China, Russia , North Vietnam and all totalitarian nation around the world represent. The “nanny state” must be prevented from destroying the future of our children . Vote OTP on HB 1077.

Sincerely & Respectfully

Russ Payne

How to Talk About Sexual Orientation Change Efforts in Social Work Education

Prepared by the following subcommittee members of the Council on Sexual Orientation and Gender Identity and Expression (CSOGIE): Peggy Pittman-Munke (Murray State University), Jayleen Galarza (Shippensburg University), George Jacinto (University of Central Florida), Edward J. Alessi (Rutgers University), and Shelley L. Craig (University of Toronto).

This document was designed to help social work educators talk about issues related to sexual orientation change efforts (SOCE), commonly referred to as conversion/reparative therapy. For in-depth discussion of these topics, please refer to the accompanying document, [Bibliography on Issues Related to Sexual Orientation Change Efforts](#).

What are sexual orientation change efforts?

According to the National Association of Social Workers (2015): “the term *sexual orientation change efforts (or SOCE)* include any practice seeking to change a person’s sexual orientation, including, but not limited to, efforts to change behaviors, gender identity, or gender expressions, or to reduce or eliminate sexual or romantic attractions or feelings toward a person of the same gender.”

For more information: National Association of Social Workers. (2015). *Sexual orientation change efforts (SOCE) and conversion therapy with lesbians, gay men, bisexuals, and transgender persons*. Retrieved from http://www.socialworkers.org/diversity/new/documents/hria_pro_18315_soce_june_2015.pdf

What terms do I need to understand when talking about sexual orientation change efforts?

Definitions are available at: National Association of Social Workers (2015). *Sexual orientation change efforts (SOCE) and conversion therapy with lesbians, gay men, bisexuals, and transgender persons*. Retrieved from http://www.socialworkers.org/diversity/new/documents/hria_pro_18315_soce_june_2015.pdf

What are some of the modalities that are sometimes used to “change” a person’s sexual orientation or gender identity?

Historically, SOCE encompassed a range of approaches, all based on a pathologizing view of lesbian, gay, bisexual, transgender, or questioning (LGBTQ) identities. Therapies to change sexual orientation or gender identity have included pharmacological methods (medication), surgical interventions, and

behavioral (cognitive) and psychoanalytic therapies intended to change sexual orientation (APA, 2009). Aversive therapeutic techniques such as delivering electric shocks during arousal to same-sex scenarios (electroshock therapy), requiring clients to perform acts that cause shame in front of groups (shame aversion), and applying covert sensitization (using imagery to imagine negative consequences associated with LGBTQ feelings or behavior) were also used (APA, 2009). In recent years, educational techniques such as teaching heterosexual dating skills have also been more frequently utilized in SOCE efforts (APA, 2009).

Why should social work students be educated about conversion therapy?

1. Conversion therapy is harmful:
 - These therapies have been shown to contribute to psychological harm to LGBTQ people and their families (APA, 2009).
2. Conversion therapy is opposed by national organizations:
 - Conversion therapy is opposed by a number of professional and educational organizations, including the Council on Social Work Education, National Association of Social Workers, American Psychological Association, American Counseling Association, and the Association for Marriage and Family Therapy (AAMFT, 2009; ACA, 2013; APA, 2009; CSWE, 2016; NASW, 2000, 2015).
 - The American Association of Christian Counselors (2014) eliminated the promotion of conversion therapy in its revised 2014 Code of Ethics.
3. Conversion therapies are incompatible with the Educational Policy of the Council on Social Work Education (CSWE) on which its Accreditation Standards are based:
 - These therapies violate the Educational Policy on which the Accreditation Standards are based, since they do not promote social justice or respect for diversity and difference (CSWE, 2015, 2016).
4. Conversion therapy is based on the results of misleading studies:
 - For example, in 2012 Robert Spitzer formally retracted his 2001 study that claimed gay men and women could switch their sexual orientation (Anastas, 2013).
5. Conversion therapy is against the law in several states:
 - In April 2015, President Obama denounced the use of conversion therapies and strongly encouraged the enactment of state laws that ban the use of conversion therapies for minors (Jarrett, 2015).
 - Practicing conversion therapy with minors is banned in a number of states, including California; New Jersey; New York; and Washington,

DC. Such legislation states that claims of changing sexual orientation or gender identity via reparative therapy are fraudulent.

6. Conversion therapy is a violation of best practice:
 - Teaching and practice of conversion therapy is considered a violation of best practice in social work (NASW, 2015).
7. A key organization that promoted conversion therapy recently closed:
 - Exodus International, the “oldest and largest Christian ministry dealing with faith and homosexuality,” announced in 2013 that the organization would close its doors after 37 years. In an open letter to the LGBT community, the president of Exodus International apologized for “the pain and hurt” experienced by many individuals and also for the promotion of “sexual orientation change efforts and reparative theories about sexual orientation that stigmatized parents” (Payne, 2013).
8. Government agencies have taken a stand against conversion therapy:
 - The Substance Abuse and Mental Health Services Administration (SAMHSA) published its report, *Ending conversion therapy: Supporting and affirming LGBTQ youth* (2015). The report was designed to provide mental health professionals as well as children and families with accurate information about effective and ineffective therapeutic practices related to sexual orientation and gender identity.

What should I do if one of my clients wants to change his/her sexual orientation or gender identity?

- Clients may exhibit distress about their gender or sexual identity and state a desire to change these identities. Social workers recognize that LGBTQ individuals continue to experience stigma, discrimination, and violence in contemporary society, which may contribute to client fears about identifying as LGBTQ. To minimize such distress, practitioners should use affirmative approaches and seek to gently explore those fears while providing education about LGBTQ experiences (Anastas, 2013).
- Affirmative care asserts that LGBTQ identities are a normal variant of development, and validates those identities, while recognizing the impact of discrimination such as homophobia and transphobia on the lives of LGBTQ individuals (Craig, Austin, & Alessi, 2013).
- An American Psychological Association (2009) task force found that “client-centered, multicultural, evidence-based approaches that provide (a) acceptance and support (b) assessment, (c) active coping to manage “discrimination and stress, (d) developing social support, and (e) identity exploration and development” are the most effective approaches to working with clients desiring such changes (p. 4). Such strategies may include a referral to affirmative clergy, particularly when the desire to change is based on religious beliefs.

How should I prepare myself to teach affirmatively about sexual orientation and gender identity?

- Remember that social work education should be guided by scientific research and social work ethics, not personal beliefs (Reamer, 2014).
- Read research on affirmative practice.
- Attend workshops on LGBTQ populations at professional meetings.
- Develop an understanding of personal attitudes toward LGBTQ individuals.
- Acquire broad-based knowledge about sexual and gender identity development across the life cycle.
- Obtain a high degree of comfort and skill in responding to student questions about sexual orientation and gender identity.
- Learn about affirmative community services and programs.
- Ally with organizations and campus groups that support LGBTQ individuals and communities.

How do I teach students to practice with the LGBTQ population?

- Discuss how the NASW Code of Ethics applies specifically to LGBTQ populations.
- Help students to understand the importance of separating personal beliefs from professional responsibilities as a social worker (Reamer, 2014).
- Remind students to use approaches that affirm and celebrate LGBT identities.
- Encourage students to explore client discomfort with their sexual orientation or gender identity using affirmative approaches.
- Remind students that since SOCE have been found to be harmful and unethical, it is clinically risky to provide such treatment.
- Instruct students to seek supervision for improving their affirmative practice skills.
- Ensure that social service agencies, community mental health centers, and health-care facilities provide affirmative environments for LGBTQ persons.

Testimony in Support of HB 1077
Samuel Safford
Pelham, NH
February 15, 2022

Dear Committee Members,

I am asking you to support HB 1077 to repeal the prohibition on conversion therapy for minors.

I, myself, several years ago struggled with my sexuality and gender. I have Duchenne Muscular Dystrophy and use a power wheelchair. My disability made it difficult for me to fit in during High School.

I began having same sex attraction and browsing gay dating apps. Men, old enough to be my father, were texting me nude photos of their genitalia. I started going down a dangerous path. I was confused about my gender and believed I was non-binary, neither man nor woman. This confusion caused me to abuse alcohol and marijuana and I had to be hospitalized.

I was seeing a Christian counselor during this time and rather than helping me align my sexuality with my sincerely held faith perspective, which was my own therapeutic goal, he continued to lead me down a path that left me in further confusion about my gender and sexuality.

After this, I was diagnosed with and treated for Bartonella, a bacterial brain infection caused by a tick-bite, and as the treatment started to clear my brain inflammation, I realized that I was neither gay, transgender nor non-binary.

I believe that a ripple effect has occurred because of this law – impacting not only minors, but even young adults like me seeking help. I believe my counselor has been conditioned to deny clients like me from seeking my therapeutic goals of aligning my sexuality with my sincerely held religious beliefs. If he had not denied me this right, my family and I would have been spared months of confusion and despair. It pains me to think the same could happen to a minor – not much younger than me.

For these reasons, I ask you to support HB 1077 and lift RSA 332-L's unconstitutional intrusion into the privileged speech of counselor and the therapeutic goals of a client.

Sam Safford, age 24
Pelham, NH

Feb 10, 2022

To the Health, Human Services and Elderly Affairs Committee,

My name is Emily Whalen and I am a resident of Madbury, NH, and I am one of your constituents. I am vehemently opposed to HB 1077 and any bill that would overturn New Hampshire's current ban on conversion therapy. Conversion therapy is an incredibly oppressive and discriminatory practice rooted in anti-queer and anti-trans sentiment, and heterosexism and cissexism. Conversion therapy is opposed by various U.S. institutional authorities, including the World Health Organization, the American Academy of Pediatrics, the American Academy of Child and Adolescent Psychiatry, the American Psychological Association, the American Psychiatric Association, the American Association for Marriage and Family Therapists, and the National Association of Social Workers, among others. Beyond arguments around its oppressive nature, there is no evidence that conversion therapy is even effective. Instead, conversion therapy functions to increase depression and suicidal ideation in already vulnerable LGBTQ+ populations. These mental health challenges experienced by the LGBTQ+ community are a direct result of social factors of discrimination and oppression that the LGBTQ+ community experiences in the U.S., including practices such as conversion therapy. I urge you to oppose HB 1077 and protect New Hampshire's LGBTQ+ community.

Thank you for your consideration,

Emily Whalen
Ph.D. Student, Environmental Science
University of New Hampshire

Testimony Opposing HB1077

“Reparative” therapy, also known as conversion therapy, does NOT work. There is quite literally no sound research to support the use of conversion therapy (Human Rights Campaign [HRC], n.d.). Studies have demonstrated that this “practice” is not only ineffective, but harmful. The medical and mental health communities have denounced conversion therapy, with the American Academy of Child Adolescent Psychiatry, American Academy of Pediatrics, American Association for Marriage and Family Therapy, American College of Physicians, American Counseling Association, American Medical Association, American Mental Health Counselors Association, American Psychiatric Association, American Psychoanalytic Association, American Psychological Association, American School Counselor Association, American School Health Association, National Association of Social Workers, Pan American Health Organization, World Psychiatric Association, Substance Abuse and Mental Health Services Administration all noting the harm that results from its practice (AMHCA, 2014; HRC, n.d.). Ethical codes prohibit conversion therapy because of its dangers. Young LGBTQ adults who had faced high levels of rejection by their family were 8.4 times more likely to have attempted suicide, 5.9 times more likely to experience depression, 3.4 times more likely to use illegal substances, and were at a higher risk of contracting HIV or an STD when compared to young LGBTQ adults who experienced less rejection (Ryan et al., 2010). Aside from the fact that one’s sexual orientation or gender identity is not a “problem” needing repair, conversion therapy harms those it claims to “help.” Reversing the ban on conversion therapy for minors hurts our children, the ones who need our support the most. A reversal on this ban is downright dangerous and holds life-threatening risks. Such an act would do nothing but add to the discrimination, stigma, systemic oppression faced by the LGBTQ community. I urge you to consider the many young lives that will be put at risk should HB1077 pass.

Feb 10, 2022

To the Health, Human Services, and Elderly Affairs Committee,

My name is Brandon Chiapuzio. I am a resident of Madbury, New Hampshire and one of your constituents. I wanted to offer my strong opposition to the HB 1077, and any associated bills that would overturn the current ban on conversion therapy. I am a therapist by profession (NPI #: 1073274015) and I work with the adolescent population, or the people that might be targeted by this bill. Many of the youth I work with identify as LGBTQ+, and they are wonderful human beings. Oftentimes, the reason my LGBTQ+ clients struggle is because of lack of support for their identity, people not recognizing their identity, or people disparaging them because of their identity. Conversion therapy does exactly those things and could only lead to more harm. As a practicing clinician in this great state, I would flat out refuse to be trained in or practice conversion therapy myself and would distance myself from any other professionals in the state that attempted to practice conversion therapy. In my work with LGBTQ+ clients, the most significant predictor of positive self worth, and improved mental health has been supportive parents, teachers, friends and the likes, that embrace LGBTQ+ youth for their identity and appreciate all they have to offer. Similarly, LGBTQ+ youth that don't have a supportive network of people, and in fact, have parents or other people undermining their identity experience more significant challenges. Conversion therapy stands in opposition to everything I've learned in my graduate education and professional practice regarding supporting clients through the change process. This is an archaic and out of date practice that needs to be stopped. Conversion therapy is opposed by various U.S. institutional authorities, including the World Health Organization, the American Academy of Pediatrics, the American Academy of Child and Adolescent Psychiatry, the American Psychological Association, the American Psychiatric Association, the American Association for Marriage and Family Therapists, and the National Association of Social Workers, among others. Please do not allow this ban to be overturned.

I urge you to oppose HB 1077 and protect LGBTQ+ youth in our local communities and within our state.

Thank you for your consideration.

Brandon Chiapuzio, MSW, MS
Shortridge Academy

My name is Julien Davis. I am a college senior at Plymouth State University majoring in political science and criminology. I'm a straight A student, a lead organizer for a multi-organizational action campaign, and after this I will be attending Northeastern University School of Law on a near-full tuition scholarship. That means I will be leaving this state come August, and I'm not sure if I'll come back.

Some of you might remember me, but for those who don't, I testified against a bill sponsored by Dave Testermen about one year ago as of this month. That bill sought to classify the act of acquiring life-saving healthcare services for trans youth as "child abuse". I was disappointed in this body then, and I am no less now seeing that the same bill has reappeared. In fact, not only has Mr. Testermen once again brought forth a bill containing the exact same language, but he now has presented a request to decriminalize conversion therapy.

Conversion therapy is a means of attempting to change a person's sexuality or gender by way classical conditioning. This often means that a person undergoing conversion therapy is subject to various physical and mental interventions to encourage an association between negative stimuli and gender nonconformity or non-heterosexual behavior. In other words, kids undergoing this form of treatment can be shocked, hit, iced, or made to vomit at imagery featuring the "undesirable lifestyles". Conversion therapy has been referred to as "torture" by the United Nations Human Rights Counsel, and there is a growing body of data to suggest that its not only ineffective, but it also produces horrific results for the patients involved-- and you don't have to do too much digging to see why that would be the case. The very label "conversion therapy" suggests that there is an underlying condition or mental illness to treat. This is despite the fact that neither homosexuality nor being trans constitute illness.

Now, I don't have personal experience with explicit conversion torture-treatment, but living as a trans person without acknowledging or expressing that identity for two decades gave me a taste of what it's like to feel forced into conformity. Until the spring of 2020, I lived each and every day of my life as a passenger. The man you see here on this floor always existed within me, but he was trapped, starving and slowly withering away as the world outside shut him down over and over again. In truth, I was in the sunken place, and I'm still astonished that I'm here to talk about it. And thank God I can, because now I have before me a motion by the G.O.P. to allow parents to volunteer their children for a life in the sunken place.

Beyond the trauma that this bill would allow for, there's another important consideration to factor in. My generation is... different. We've all had access to the internet from a young age, and thanks to that we've been exposed to nonconformity to a degree far beyond what preceding generations had witnessed. As such, an important determining factor in selecting a place to live for many people my age is the state's relationship with the LGBTQ+ community. Now when a young person, especially one from the queer community, is looking for somewhere to live, do you think they'll feel secure in making a commitment to our state knowing that the state government regularly releases bills which are openly hostile to queer and trans people? I know I don't. That's why I'm leaving for a state where I know I'll be supported. So, I urge you to think about not just the impact opening this door will have on the people already here, but also how it'll affect those who want to come here. If we want New Hampshire to be a thriving hub of growth and prosperity, an impression of tolerance and support must be reflected in the legislation we pass. This cannot be the case if virulent opposition to trans rights still remains in the request docket, and it most certainly cannot be true if such legislation is passed. Thank you.

Call Off Your Old
Tired Ethics

SUBMITTED ON BEHALF OF COYOTE RI

February 13th, 2020

To the Members of the Health, Human Services, and Elderly Affairs Committee,

I am writing to oppose HB 1077, a bill which would allow conversion therapy to be performed on minors. Representative Testerman's frequent attempts to deny the truths of the LGBTQ+ children of New Hampshire are as concerning as they are dangerous. The idea that LGBTQ+ people can or should be converted is disturbingly homophobic.

Further, conversion therapy is a practice discredited by every mainstream medical and mental health organization including the American Medical Association, and keeping it away from New Hampshire's minors is both justified and necessary. . In fact, conversion therapy is a form of abuse. ([The Lies and Dangers of Efforts to Change Sexual Orientation or Gender Identity](#))

Proponents of conversion therapy falsely assert that it can change someone's sexual orientation or gender identity, but in reality it often leads to anxiety, drug use, and suicide. The current ban on conversion therapy for minors protects those whose parents would misguidedly force this harmful practice upon them.

I urge you to look out for these minors and vote against HB 1077. Homophobia has no place in New Hampshire

Sincerely,

Bella Robinson
COYOTE RI (401-525-8757)
bella@coyoteri.org

Opposition:

Conversion therapy is mentally distressing and DOES NOT WORK. There are no scientific studies supporting conversion therapy having any positive effects on children. Being gay is not a bad thing, and is found in nature in many species. Of all the states, I would think the one proclaiming “Live Free or Die” would be horrified at the idea of trying to force children not to be who they are. It’s disturbing to me the level of consideration religious fundamentalists are getting in this “Free” state. Don’t worry about your child’s eternal soul so much you stop worrying about their current safety. Conversion therapy indirectly kills, suicide rates in the queer community are already far too high. **DO NOT PASS THIS BILL**, for the lives of New Hampshire’s children, please.

I would like to make it known that I strongly oppose the passage of this bill. Doing so would not only endanger the lives and mental health of a vulnerable group of young people, but it would drag us back decades in terms of the progress towards equality for all people. This bill is asinine, unnecessary, and dangerous. All one needs to do is look online to see dozens of scholarly articles studying the impact of conversion therapy. Teens who have been subjected to conversion therapy are 8 times more likely to attempt suicide. They are 6 times more likely to report high levels of depression. Instead of allowing parents to inflict this barbaric practice on their children, they should be encouraged understand and accept their children, rather than attempt to force them to conform to their outdated ideas of who they should be.

I wonder what the actual motivation behind this bill is, and why Rep. Testerman and Rep. Wuelper have taken it upon themselves to repeal a bill that has been an overwhelming net benefit to the mental health and wellbeing of vulnerable minors. Similar bans have been enacted with bipartisan support in 20 states, 8 of which have been signed into law by Republican governors- clearly the repeal of this bill is not something that the people support, and I would caution any legislator against supporting such a pathetic attempt to go against the will of the people. If you are attempting to repeal the ban on conversion therapy, you are not only unfit to hold public office, but you should not be allowed anywhere near a child, as you obviously have no idea how they function or what is best for them. Any support for this bill will be seen as a black stain on their record; a public display of their horribly outdated ideals and behaviors, and would signal that they are practically begging to be removed from office in the next election. The people of New Hampshire do not support you and do not stand behind you in supporting this bill.

Best,

Zach Blanc

Derry, NH

Conversion therapy is child abuse. NH outlawed conversion therapy because it is recognized as child abuse. Representative Wuelper and Representative Testerman should be ashamed of themselves and it should be made very public that they are for the abuse of children.

Sincerely,
Jennifer Belmont-Earl
Barrington

In reference to HB 1077 regarding the legalization of conversion therapy for minors:

As a young man (18) from New Hampshire going to school in Georgia (at the Georgia Institute of Technology), a place traditionally less accepting of the LGBTQ+ community, I like to think that I come from a state that allows people to live as who they are. I have always admired New Hampshire's motto "Live Free or Die" but this bill would absolutely go against that. How can we as a state have this motto if we choose to prevent LGBTQ+ individuals from living as they choose. Conversion therapy is a disgusting form of child abuse and the fact that this bill even exist in the year 2022 is an absolute disgrace. I hope you will consider the freedom of LGBTQ+ individuals when you make your decision.

-Brian Gelinas

February 14, 2022

Dear Health, Human Services and Elderly Affairs Committee:

The reason why I oppose this bill is simple. I oppose child abuse and this bill would enshrine it. Shame on Reps. Testerman and Rep. Wuelper, the bill sponsors, for trying to resurrect a shameful part of our history. I hope this committee votes this down and the bill sponsors self-reflect on their shameful actions.

Regards,

A handwritten signature in black ink, appearing to read 'Justin Kelly', with a long horizontal line extending to the right.

Justin Kelly
Sanbornville, NH

February 14, 2022

To the Committee Members and Representatives,

I am writing to you today to express my dissatisfaction and frustration in the possible repeal of this important legislation, HB1077. The terminology in the title alone, "Conversion Therapy", implies that there is a medical condition that requires treatment. That is absurd. In fact numerous Medical and Psychiatry Professionals have deemed this "therapy" as harmful and detrimental. The approval of banning this practice in 2018 was a positive step in protecting a segment of our most vulnerable population. New Hampshire is a state that prides itself on *living freely* and for this legislation to pass or even be considered is a step backwards.

Thank you for your time and service to New Hampshire,

Jill Weed

Testimony to the Health, Human Services & Elderly Affairs Committee

HB 1077

My name is Brittany St. Jean, and I am a licensed psychologist and certified school psychologist in my home state of New Hampshire. Please accept this letter as written testimony in ***opposition to HB1077, repealing the prohibition on conversion therapy for minors.***

As a psychologist, I was trained as a practitioner-scholar. I focus on using evidence-based practices to inform the work I do with clients. There is no credible scientific study that has ever supported the claims of conversion therapy to change a person's sexual orientation. The inaccurately and non-scientifically based method of converting an individual's sexual orientation, which has been discredited, can cause lasting physical and mental harm. Additionally, the American Psychiatric Association has not treated homosexuality as a mental illness since 1973. Being transgender is no longer treated as a mental illness since "gender identity disorder" was removed from psychological diagnostic manuals in 2013.

Conversion therapy is considered unethical and harmful mental health practice. Major health organizations with policy statements against the use of conversion therapy include, but are not limited to, the American Psychological Association, the American Medical Association, the American Academy of Pediatrics, the American Academy of Child and Adolescent Psychiatry, the American Psychiatric Association, the American Psychoanalytic Association, the American Counseling Association, and the National Association of Social Workers. The Substance Abuse and Mental Health Services Administration (SAMHSA) has further condemned conversion therapy for minors.

The risk of conversion therapy extends beyond its ineffectiveness. It is also strongly associated with adverse mental health outcomes. For example, The Trevor Project in the American Journal of Public Health found that LGBTQ+ youth who underwent conversion therapy were more than twice as likely to report having attempted suicide and more than 2.5 times as likely to report multiple suicide attempts in the past year.

By opposing HB1077, you will be supporting the mental health and wellness of children and adolescents across the state. ***Please vote in opposition to HB1077.***

Respectfully,

Brittany St. Jean, PsyD
Licensed Psychologist &
Certified School Psychologist

NH Psychological Association, Member At Large
Behavioral Healthcare Advocacy Committee
Board of Psychologists Liaison

James Marshall, Derry NH
HB1077
Oppose

House Health, Human Services and Elderly Affairs Committee
Testimony Feb. 15, 2022

Hello,

My name is James Marshall and I live in Derry, NH. As a parent of a trans child I would like to add my voice as being **AGAINST** HB1077.

First I want to thank the members for reading this.

“Conversion Therapy” is at best a pseudoscience and has been rejected by both medical and mental health experts¹. This type of “therapy” is dangerous as it not only increases Depression, Anxiety, Drug use and **SUICIDE** it forces the child to believe that God doesn’t love them or that they are undeserving of love, as most of these “therapies” are run via religious organizations. As a Christian I do not believe God makes mistakes and science has shown evidence that it is not a choice as such people are born into the LGBTQ+ community, they do not choose it²³. Additionally, the Government allowing this type of treatment of people is the Government saying it is OK to bully and discriminate against LGBTQ+ people!

If you support children being depressed or committing suicide⁴ than you should support this bill. I believe that all people should be treated equally and, as Jesus said, (paraphrasing) treated the way you would want them to treat you!

Please oppose this bill.

James Marshall

AMERICAN ATHEISTS

February 15, 2022

The Honorable Rep. Mark Pearson
Chair, Health, Human Services and Elderly Affairs Committee
New Hampshire House of Representatives
107 North Main Street
Concord, New Hampshire 03301

Re: OPPOSE HB 1077, Testimony from American Atheists in opposition to legislation that repeals the ban on the harmful practice of conversion therapy

Dear Chairperson Pearson and Members of the House Health, Human Services and Elderly Affairs Committee:

American Atheists, on behalf of its constituents in New Hampshire, writes in opposition to HB 1077, which repeals the New Hampshire ban on harmful conversion therapy. Conversion therapy consists of dangerous and discredited practices, often religiously based, that falsely claim to change one's sexual orientation or gender identity or expression. We urge you to reject this dangerous bill.

American Atheists is a national civil rights organization that works to achieve religious equality for all Americans by protecting what Thomas Jefferson called the "wall of separation" between government and religion created by the First Amendment. We strive to create an environment where atheism and atheists are accepted as members of our nation's communities and where casual bigotry against our community is seen as abhorrent and unacceptable. We promote understanding of atheists through education, outreach, and community-building and work to end the stigma associated with being an atheist in America. As advocates for the health, safety, and well-being of all Americans, American Atheists objects to bigoted and unfounded pseudo-medical practices designed to promote the religious beliefs of providers and institutions.

This bill repeals the New Hampshire ban, signed by Governor Sununu in 2018, on state-licensed professionals harming patients by providing conversion therapy. Conversion therapy practices are based on religious beliefs rather than medical facts, such as the false idea that being LGBTQ is a mental illness that needs to be cured. This idea has been rejected by every major mental health association group for decades. Conversion therapy does not include therapies that provide acceptance, support, or understanding of LGBTQ identities; that facilitate coping, social support, or identity exploration; that address unlawful conduct or unsafe sexual practices; or that provide assistance to a person going through gender transition.

The American Psychological Association (APA) has concluded that conversion therapy success claims are not substantiated by any scientific data. Conversely, they found that: "The results of scientifically valid

research indicate that it is unlikely that individuals will be able to reduce same-sex sexual attractions or increase other-sex attractions through SOCE.”¹ The APA also determined that conversion therapy may result in a multitude of negative side effects including: depression, suicidality, anxiety, and loss of sexual feeling. Researchers estimate that 20,000 LGBTQ youth ages 13-17 will receive conversion therapy from a licensed mental health professional before the age of 18.² Researchers also estimate that 57,000 such LGBTQ youth will receive conversion therapy from a religious or spiritual advisor before age 18.

We strongly oppose HB 1077, as it would remove the 2018 protections against dangerous practices that harm patients. The state licenses mental health practitioners, and it has a duty to ensure that they are providing services in accordance with medical best practices and not causing additional harm to already vulnerable people. If you should have any questions regarding American Atheists’ opposition to HB 1077, please contact me at bparker@atheists.org.

Sincerely,

Brett Parker
State Policy Manager
American Atheists

Dear Health, Human Affairs, and Elderly Affairs Committee,

Hello, my name is Daniel Medeiros, I am an employee at a New Hampshire public school, and am writing to express my opposition to HB-1077, a bill designed to legalize child abuse by lifting the ban on the atrocious practice of conversion therapy for minors.

As every decent person is aware conversion therapy—particularly in the case of minors—is a disgusting practice based in bigotry and discrimination. This bill is an attack on the wise and compassionate decision of the New Hampshire State Legislature in the past to ban this form of abuse.

This bill continues a succession of recently proposed bills that seem designed to harm the citizens of this state and to drag us backwards, erasing hard-earned progress. As with all of those others, I hope that this bill will fail in the legislature and that the voting citizens of this state will see to it that the representatives who proposed it never hold elected office again.

Thank you for hearing my testimony.

Sincerely,

Daniel Medeiros.

LICENSED PSYCHOLOGIST & CERTIFIED SEX THERAPIST

February 14, 2022

House Health, Human Services and Elderly Affairs

RE: Opposing HB1077

All the major medical associations in the US hold position statements that oppose conversion therapy, as same-sex attraction is not considered a mental disorder, and conversion therapy is considered both ineffective and can be harmful.

These associations include the American Psychological Association, American Medical Association, American Psychiatric Association, American Academy of Pediatrics, American Academy of Child and Adolescent Psychiatry, American Counseling Association, American Psychoanalytic Association, American School Counselor Association, American School Health Association, and the American Association of Social Workers.

You can read their position statements here:

<https://www.hrc.org/resources/policy-and-position-statements-on-conversion-therapy>

You can also review numerous research articles on this topic, many of which are referenced by Cornell University on this webpage:

<https://whatweknow.inequality.cornell.edu/topics/lgbt-equality/what-does-the-scholarly-research-say-about-whether-conversion-therapy-can-alter-sexual-orientation-without-causing-harm/>

Please continue to protect the well-being of people in NH by opposing conversion therapy.

Sincerely,

Teresa Johnson, PhD
Licensed Psychologist

AASECT Certified Sex Therapist
PSYPACT credentialed

Dear Legislator,

As a clinical psychologist practicing for 30 years, and the proud mother of a gay son, I can tell you that conversion therapy is unethical, cruel, and defies all the data on sexual orientation and psychological health. Asking a person to conceal or repress their sexual identity causes depression and suicide. If you vote to allow conversion therapy, you will cause the deaths of gay and lesbian youth. This bill is an outrage, and anyone considering voting for it should be ashamed. Gay and lesbian youth thrive when they are encouraged to be themselves, and I will do everything in my power to expose the shamefulness of legislation that causes LGBTQ youth like my son, his boyfriend, and my patients to suffer. Vote against HB 1077 -- this bill is an abomination.

Sincerely,

Miriam R. Osofsky, Ph.D.

Licensed Psychologist

2 Woodmore Drive

Hanover, NH 03755

603 443 0500

“Conversion therapy” is a very misleading term. When a therapist seeks to help a young person be reconciled to the reality of their biological sex, they are not seeking to convert that youth to anything; rather they are seeking to preserve that young person’s healthy physical body, their fertility, and their sexual functioning. They are seeking to help that young person accept his or her own body, rather than trying to change it with amputations of healthy breasts and/or genitals and through puberty blockers cross-sex hormones, both of which have very negative long-term health impacts.

A better term would be “Preservation therapy,” and it is absolutely the right and moral kind of therapy for any young person contemplating irreversible medical treatments for gender dysphoria, a phenomenon that in the past tended to resolve over time. Now, however, therapists are being forced by law to affirm dysphoria, declaring that any feeling of discomfort with their biological sex must mean that the child is “trapped in the wrong body.” This is a ludicrous notion, presupposing that every person has an ethereal “gendered soul” that may or may not correspond to their bodies. In reality, there are many reasons why children may not be comfortable with the stereotypical idea of what a boy or girl “should” be, but this simply makes them gender non-conforming. There is no need to change their healthy, normal bodies, and if left alone, these feelings of discomfort pass away in the vast majority of children and adolescents.

Therapists, like doctors, must first “do no harm.” That means they must listen to their patients and help them locate the root causes of their distress. The majority of gender dysphoric children and adolescents suffer from significant co-morbidities, including autism spectrum disorders, ADHD, anxiety, OCD, and depression. Many have suffered severe traumas. Therapists must be free to deal with the root causes of their distress, rather than affirm an identity that, in many cases, the children are clinging to as a magic solution to their very real psychological problems.

Sadly, the underlying psychological issues which contribute to gender dysphoria do not disappear when people “change sex.” Instead, new problems arise, often leading to a state that is at least as bad, if not worse, than before. In fact, the 2015 U.S. Transgender Survey found that “transgender adults have a prevalence of past-year suicide ideation that is nearly twelve times higher, and a prevalence of past-year suicide attempts that is about eighteen times higher, than the U.S. general population.”

(<https://williamsinstitute.law.ucla.edu/wp-content/uploads/Suicidality-Transgender-Sep-2019.pdf>, page 1).

In addition, there is a growing number of young detransitioners who realize that they are not and never were “true trans,” but not until after having gone through surgeries and hormone treatments that failed to bring them relief from their psychological distress. These young people are left with irreversible bodily harm, as well as loss of fertility and sexual function. Many feel that the medical and psychological professionals who should have helped them instead pushed them into procedures which leave them with deep and lasting regret.

Please allow therapists to help their young patients deal with their psychological problems, working through them until they can accept themselves, including their healthy bodies, without becoming lifelong medical patients.

To Whom It May Concern:

As a Licensed Clinical Mental Health Counselor in the State of NH, I am writing to OPPOSE HB1077. Conversion therapy is an unethical and potentially harmful practice that should never be imposed on anyone, particularly young people who are vulnerable to abuse. There is no place for it in a society that respects human rights and human dignity.

Sincerely,

A handwritten signature in black ink, appearing to read 'Julie Püttgen', with a long horizontal flourish extending to the right.

House Health and Human Services and Elderly Affairs Committee
February 15, 2022
HB1077, repealing the prohibition on conversion therapy for minors

Dear Committee Members,

In 2018, Governor Sununu signed an unconstitutional “conversion therapy” ban bill into [a law that bans therapists](#) from helping confused kids and teens to explore whether their same-sex attraction or opposite sex gender identity is something they want to keep or change.

[According to Cornerstone](#), the therapy ban has these devastating consequences.

- **Muzzles therapists and restricts their speech** in a clinical setting.
- **Ignores a patient’s right** to set their own therapeutic goals. A client dealing with *unwanted* same-sex attraction or gender dysphoria would not be able to get the help they need and want.
- **Infringes on the religious liberty** of therapists.

This law puts kids and teens on a one-way street with no turning back.

My niece, who grew up in a dysfunctional family situation, went on testosterone as a 17-year-old. She thought it would solve her problems, but it only made them worse. She died at 21 from a drug overdose.

Cari Stella, a young woman who [posted a video](#) on YouTube about her experiences both transitioning as a minor, and detransitioning as an adult, reports that no one told her she had any other options.

“They don’t tell you that it’s OK to be butch, to be gender non-conforming, to not like men, to not like the way men treat you . . . They tell you about testosterone.”

Stella asks how many other medical conditions are there where “you can walk into the doctor’s office, tell them you have a certain condition, which has no objective test, which can be caused by trauma or mental issues or societal factors, and receive life-altering medications on your say-so?”

The therapy ban denies children like Stella even the chance to explore how they can live as their biological sex before making choices they’ll regret. This isn’t therapy, its ideology, and our children deserve better.

Please vote OTP on HB1077 to repeal the therapy ban.

Beth Scaer
Nashua NH

Good afternoon committee members,

My name is Jim Bomersbach. I am a licensed psychologist. I chose to move to New Hampshire six years ago and to start a life here. Please accept this letter as my testimony in opposition to a repeal of the ban on conversion therapy, HB 1077.

As a psychologist, I am bound by the ethical principles and guidelines of my profession. This code of conduct prevents me from offering services that could harm my client. It prevents me from lying about what effects my services can have. To practice conversion therapy would be to directly violate the ethical standards of my profession. Surveys of those who have endured through these illegitimate programs highlight increase rates of anxiety, depression, and suicidal behavior. This effect is well documented (see Higbee, Wright, and Roemerman, 2020). The ban on this practice affirmed that New Hampshire was listening to the expertise of its scientific community about the toxic effects of conversion therapy.

Conversion therapy is also not evenly directed to all New Hampshire citizens. The practice is largely imposed upon children by their parents. No member of this committee is likely to experience it. Instead, this committee must consider and act on behalf of the young children and adolescents who can be compelled into these programs. A parent's right to choose care for their child should not extend to a practice that has no scientific basis and that actively harms the child.

As of today, 20 states have passed bans on the practice of conversion therapy. This includes the entirety of New England. Repealing this ban sends the wrong message to those who would consider staying in or moving to New Hampshire. Rejecting HB1077 affirms that homophobia and transphobia are not welcome in New Hampshire.

James Bomersbach, Ph.D.

HB1077
2/15/22

It is unfathomable to think the House would even be considering an official return of dangerous and damaging Conversion Therapy to New Hampshire. As a Republican, conservative and an openly gay man, I can think of no worse disconnect from LIVE FREE OR DIE than to re-establish this draconian and long-proven ineffective method to 'cure' homosexuality. What in God's name are you thinking? This destructive 'therapy' is known to lead people of all ages to mental health issues and even suicide, as they are forced to try to cure something that is innately born within them. Stop this madness, and uphold the freedom of ALL citizens of this great State.

Respectfully submitted,
Joseph R. Olefirowicz
Nashua, New Hampshire

I am a transgender citizen of New Hampshire, and this bill presents deep concerns about my wellbeing and safety. Conversion therapy is traumatizing for members of my community and represents an attack on our fundamental rights to exist peacefully in society. Reinstating this practice tells trans people that their identities are not valid and need to be fixed. Pursuing medical interventions for my transition has been lifesaving and does not need to be "rectified" through conversion therapy. Conversion therapy does not do anything to alter our inherent identities (and that should not even be the objective). It simply inflicts harm. The inner peace that I have achieved by affirming my identity is unable to be expressed in words. This bill would take away the comfort and euphoria that I have experienced from socially and medically transitioning, replacing it with severe anxiety at the prospect of having to undergo an unethical and coerced treatment. My identity is sacred and should be respected. I am a human being who is trying to do what is best for my contentment and success. I ask that members of the legislature please respect this and consider the pain that this bill's passage would create for so many trans individuals in New Hampshire.

15 February 2022

Dear Committee of Health, Human Services, and Elderly Affairs,

I am writing in opposition to HB 1077, “AN ACT repealing the prohibition on conversion therapy for minors.” This bill would be a huge step backwards for human rights and public health in our state.

There is ample research to demonstrate the negative effects of conversion “therapy” on mental and emotional health, to the point of driving some patients to suicide. People who have undergone this type of treatment present with symptoms of depression, anxiety, and PTSD. Conversely, the few studies reporting “successful” conversion are typically plagued by methodological and ethical issues, including involvement of participants who stand to directly benefit financially from positive results. Positive studies also typically define success in terms of the ideals of specific religious ideologies and completely disregard the potential for (and actuated) harm caused by these practices. The Constitution of the United States of America is very clear on the importance of separation of church and state, rendering the ideals of any specific religion irrelevant. The latter may be acceptable to some, but in my experience New Hampshireites take care of our own, and would not disregard the potential for so much harm so easily. Due to the overwhelming evidence that conversion “therapy” has only detrimental effects, the practice as applied to minors is banned in 20 states (including all of New England) and the District of Columbia. Rather than repeat the words of many medical, ethical, and legal experts, I have included a few review articles below which summarize the issue from all of these angles.

To reiterate, repealing this prohibition would do nothing but harm and we should all be ashamed that even two elected officials were willing to support this to get it this far. Please do not allow this to go any further.

Sincerely,

Rebecca Rubinstein

I'm so mad after watching the committee hearing on the bill that would repeal the ban on conversion therapy.

Conversion therapy is not "providing guidance to young people who are confused or struggling." The language of the bill that banned conversion therapy is clear and simple. There is no need for any amendments. People that wish to harm LGBTQ+ people want conversion therapy repealed so they can continue to assert power and control over people who are doing nothing more than seeking to live free.

Conversion therapy is bad, it's that simple. I encourage you to [seek out the voices of survivors of conversion therapy, like Sam Brinton](#) - and consider the many barriers that prevent people from publicly sharing their stories. Please believe us when we say we know conversion therapy is harmful and must remain banned. There is no such thing as consensual conversion therapy.

When I was 17, just after the second time I "got caught" being queer, there was a day when I was 99% certain my father was going to send me to conversion therapy. I cannot describe the physical terror that overcame me as I considered an even more emotionally abusive place than my father's home (and a place that could be potentially physically dangerous as well.) Fortunately, my home state of Arizona is [finally considering repealing conversion therapy](#).

I was the campaign manager of the effort that passed transgender nondiscrimination protections in 2018 in New Hampshire. We knew in that campaign that many elected officials of both parties needed to meet transgender people to understand the importance of nondiscrimination protections. I know it's harder to meet and build understanding with people since COVID has hit. I would be happy to meet with any of you, by zoom or in person.

Dear Chair Pearson and Members of the Health, Human Services and Elderly Affairs Committee,

I am writing to you as a member of NASW New Hampshire Chapter and a Licensed Independent Clinical Social Worker with a small private practice in NH. I recently had a client who sought treatment as a result of trauma experienced as a child when forced to attend a “Conversion Therapy” treatment program by parents. The experience was described as demeaning and frightening, causing issues lasting into adulthood. The client commented upon being glad to live in a state with decision makers who recognized the harm that can be caused by this and passed legislation to stop the practice. The notion of conversion therapy is not recognized in mental health literature as a legitimate treatment and is not taught in any of the accredited schools of social work. For your information, I have attached a paper that speaks to Sexual Orientation Change Efforts which includes a segment on the broad range of methods employed as “treatments”. I urge you to oppose this bill.

I was unable to attach this testimony to the House of Representatives Online Testimony Submission Website so have emailed directly in hopes that each committee member will receive this.

Respectfully submitted,

Re: New Futures' opposition to HB 1077, repealing the prohibition on conversion therapy for minors

Dear Chairman Pearson, and Honorable Members of the Committee:

New Futures appreciates the opportunity to provide testimony in opposition of HB 1077, repealing the prohibition on conversion therapy for minors.

New Futures is a nonpartisan, nonprofit organization that advocates, educates and collaborates to improve the health and wellness of all Granite Staters. New Futures is dedicated to supporting and strengthening a comprehensive and integrated System of Care for children and youth who experience behavioral health challenges in New Hampshire.

New Futures strongly opposes HB 1077 because it would remove a key protection for youth identifying as LGBT+ from a harmful “treatment” that has been shown to negatively impact participants.

Conversion therapy a widely discredited, often cruel “treatment” that is banned internationally¹. Identifying as being lesbian, gay, or bisexual has not been considered a mental illness by mental health practitioners in over 45 years. According to the American Psychiatric Association, there is no data that supports conversion therapists' claims to “cure” an unwanted sexual orientation through any method. However, even the least invasive forms of conversion therapy pose significant risk to LGBT+ individuals. The American Psychological Association, American Psychiatric Association, and Academy of Child and Adolescent Psychiatry all support the ban on the use of conversion therapy.²

For youth, conversion therapy poses a risk of significant harm through family rejection. Teens who reported higher levels of family rejection, including admission to conversion therapy, were 8.4 times more likely to report having attempted suicide, 5.9 times more likely to report high

¹ United Nations Report on ConversionTherapy

,<https://www.ohchr.org/Documents/Issues/SexualOrientation/ConversionTherapyReport.pdf>

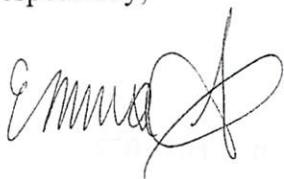

² American Bar Association, Banning Conversion Therapy on Minors: A Guide for Creating Tribal and State Legislation, January, 2019.

levels of depression, 3.4 times more likely to use illegal drugs, and 3.4 times more likely to report having engaged in unprotected sex when compared to LGBT+ peers who reported no or low levels of family rejection.³

Removing the ban on conversion therapy not only goes against sound scientific evidence but will greatly increase the chances that LGBT+ youth in New Hampshire will experience negative health outcomes in their lifetimes. Banning conversion therapy is a necessary step to ensure that LGBT+ youth are not traumatized by unsafe medical treatments that have been shown to result in negative outcomes.

For the reasons presented above, the New Futures strongly urges the committee to vote HB 1077 inexpedient to legislate.

Respectfully,

Emma Sevigny, Esq.
Children's Behavioral Health Policy Coordinator
New Futures, Inc.

Re: HB 1077- repealing the prohibition on conversion therapy for minors

Dear Chair Pearson and Members of the Health, Human Services and Elderly Affairs Committee,

On behalf of the National Association of Social Workers New Hampshire Chapter, I am writing to express our strong opposition to HB 1077.

Conversion therapy has been discredited and highly criticized by all major medical, psychiatric, psychological and professional mental health organizations, including the National Association of Social Workers. Data demonstrates that conversion therapy negatively impacts the mental health and self-esteem of the individual.

NASW NH strongly asserts its stance against therapies and treatments designed to change sexual orientation or gender identity and against referring clients to practitioners or programs that claim to do so. The practice is unsubstantiated, harmful, and unethical.

Repealing this ban would needlessly put our youth at risk of psychological chicanery, discrimination, and prejudice.

Thank you for the opportunity to voice our opposition.

Respectfully submitted,

Lynn Stanley, LICSW
Executive Director
