COMMITTEE REPORT

Committee:	Judiciary
Bill Number:	HB 1260
Title:	making immunization status a protected class.
Date:	February 3, 2022
Consent Calendar:	REGULAR
Recommendation:	INEXPEDIENT TO LEGISLATE

STATEMENT OF INTENT

This bill seeks make immunization status a protected class under the state's anti-discrimination law. If passed, this proposed law would apply to all immunizations, even the CDC-recommended disease prevention protocols and laws requiring children to be vaccinated before attending public schools. In the case of the COVID-19 vaccination, immunization is a choice. There are no laws; federal, state, or local, that mandate COVID-19 vaccinations. Because there are no laws that mandate COVID-19 vaccination, it would be an error to add immunization status protection to RSA 354-A, New Hampshire's Human Rights Statute. If passed, this bill would allow citizens to file a civil rights complaint with the New Hampshire Human Rights Commission if they were denied a job, housing, or entrance to public accommodation sectors, based on immunization status. If this bill were to pass, this could place a heavy burden on the staff of the Human Rights Commission and prevent work on serious matters from being adjudicated.

Vote 17-4.

Rep Harvey-Bolia Sponsor Support

The bill adds immunization or vaccine status to the protected classes list in RSA 354. This is an extension of already identified disability status. It would protect those who refuse vaccines/immunization under employment law and public accommodations law, etc. Civil rights are a class of rights protecting people's views/ Msomi physical disabilities can be controlled so immunization falls into that category. When personal health autonomy is a growing concern, we need to choose which side we are on in terms of this civil right. People of color and Hispanics are by far the least vaccinated and allowing discrimination on that basis is tantamount to racism, this type of bill is under consideration and has already passed in Montana. In Colorado, black leaders testified the black community is very hesitant to take the vaccines because of history of other government actions.

Q Notter: Have you consider "conscientious objection" language?

Ans: There are other bills using that language.

Q Sylvia: Would this give those who refuse vaccines immunity from getting/spreading the disease?

Ans: There is evidence the vaccines have no benefit.

Q Horrigan: Does this apply to all vaccines?

Ans: Yes,

Q Do we have a natural/civil right to spread disease?

Ans: Having viral disease is a natural condition.

Q Do we have a right to spread a deadly virus? **Ans:** We have a civil right to bodily integrity and this falls into that category.

Q Smith: Are you saying there is no circumstance under which the government has the right to interfere with the bodily integrity of any individual?

Ans: This bill deals only with employment and other protected categories.

Q Sylvia: At what point should people be considered to be carrying viruses hazardous to other people?

Ans: I am not a medical professional and can't say.

Q Should we presume everyone around us is carrying a disease that will harm us?

Ans: I guess so. We have virologist to help us, but the more widespread a virus is the less lethal it is, it seems. That is the typical development of a virus. Each variant of Covid had been less lethal.

Q DiLorenzo: Please expand on th idea that physical disabilities can be controlled?

Ans: I think I said some disabilities, like overweight, can be controlled.

Q Gordon: Currently schools require immunizations, how would this effect that?

Ans: I believe it is possible this could affect schools just as gender identity applies to them.

Q Immunizations isn't the same as the vaccine for Covid. Would this cover the Covid shots?

Ans: You could have immunity by having had Covid, but that isn't how its working out for people. The question is do you believe it is a civil right that needs protecting.

Q Wouldn't it be better to say vaccination status?

Ans: I'm open to that. I was only thinking about the Covid situation where the Covid shots is not really a vaccine. In the future they may not even call it a vaccine. Another possibility would be to call it medical treatment.

Q Would this apply in the Australian situation with a noted Tennis player?

Ans. All kinds of specific cases could arise as they do with other rights.

Q Sylvia: Do you think school children are discriminated against based on their age?

Ans: Not sure what you are getting at. If you mean sorting them by age isn't discrimination or a civil rights violation.

Q If a child could sue against discrimination for age, would they also be able to sue over this?

Ans: I don't know if they can in either case.

Q Notter: The law exempts religious belief but not conscientious objection?

Ans: Don't know.

Q Are you aware of that CDC has changed the definition of vaccine?

Ans: Yes. It makes it difficult here.

Q Smith: Do you think it would be a legitimate case if one representing a three-year-old could sue the government over the rule that that child could not be vaccinated because of their age? which is discriminatory

Ans: This isn't really about forcing vaccines or taking vaccines and the particulars surrounding that like the age for which vaccination is safe. We could probably do the speculative 'what ifs' all day, but the way I see it, it's not much different than a physical disability or a choice like gender or marital status.

***Kathy Bizarro-Thunberg Exec VP NH Hospital Association Opposed**

We don't believe it is appropriate to include this kind of thing in discrimination law. It will only lead to more conflict and confusion between employers and employees. The vast majority of our employees have been vaccinated or gotten exclusions.

Q Sylvia: If 60% of staff would refuse shots, would that be a problem for the health care system?

Ans: We haven't seen that.

Q: Have staffing levels been affected by the vaccine requirement?

Ans: We have had shortages since before the vaccine mandate and we have had very few who have left because of it.

Q DiLorenzo: Would this bil affect [payments from Medicare to hospitals?

Ans: I am not sure. We have a serious concern with adding vaccination status as a protected class because I we have a mandate:

Q Sylvia: So, you are discriminating again those with natural immunity?

Ans: No. We require everyone to be vaccinated regardless of their personal experience.

Gary Yorks Humanity Supports

I see this as medical information which we shouldn't be required to share with other people. There is no difference between asking about vaccination than from asking if you have been treated for STDs or many other questions of similar nature. The vaccination mandates have been implemented out of fear. We have done little to find treatments for Covid and have sold the vaccines as the only hope to allay that fear. Some people feel it is a human right to not have things injected into their body. The CDC VAERS system has reported over 20,000 deaths thought to have come from the vaccine. The vaccinated population should have no need to know the vaccination status of anyone else. We are discriminating against the unvaccinated and this bill is necessary to protect them.

Q Sylvia: Are you familiar with Dr Mark McDonald?

Ans: No.

Ahni Malachi Exec Dir Human Rights Commission Information only

When we looked over his bill, there were questions for us, the definition speaks to employment only while the text talks to other areas. Regarding the question of schools, the law covers education.

Q Sylvia: Can you clarify the difference between civil right and human rights?

Ans: No.

Q Have there been complaints brought against employers discriminating against the unvaccinated?

Ans: I would have to dig through our records. Since immunization status isn't currently covered by the statutes, I would have to see if we have gotten any calls.

Q Could not being vaccinated be considered a mental disability under the statute?

Ans: We would have to consult the appropriate experts on the law.

Q How would you handle these cases?

Ans: The same way we handle all others. This would cover education, schools, access to stores, and many other potential areas. The question would be what the workload would be.

Q Historically there had been a concern about the speed of enforcement. Is there a concern over the potential volume of claims.

Ans: With only five investigators, we would need more hands. We've taken actions to reduce some of the burden on the investigators, additional staff, improving our process, etc. The new work could be a problem, but there is no way of knowing. When education was added, we didn't see any significant increase in cases.

Q DiLorenzo: How can vaccine status become a protected class when it doesn't seem to meet the definition of protected class?

Ans: The original civil rights act dealt only with immutable classes, but if the law changes, we will do what is required.

Wayne Knightly Suports

I work in a local hospital and there are certain exemptions, but from what I have seen, people are being discriminated against based on their vaccination status. Things like where they eat lunch and other things. Vaccination status should be protected information.

Q Chase: Do people know others' vaccination status?

Ans: Not explicitly, but yes, people know who is and is not vaccinated.

Q DiLorenzo: How do people at your work know?

Ans: I can't say exactly. I see this bill as saying you don't have any right to know if I have taken the shots or not.

As HB 1260 would make "immunization status" a protected class in New Hampshire's civil rights law, I support this Bill and respectfully urge the Judiciary Committee to do so as well.

Thank You,

Dear Honorable Representatives,

I urge you to support HB1260 and HB1490. Bodily autonomy, and therefore medical freedom, are essential natural rights that should not be infringed upon by any entity – government or corporate. It is the duty of our elected officials, through the law, to protect the Rights of the People against abuse. Government is not the source of our rights, but it is formed primarily to protect them.

Thank you,

Whatever happened to HiPPA? Our health records should not be public record . To think that our information would be safe in a government data base is naive at best.

Please support bills 1260 and 1490 to protect citizens and their vaccination status and protect people from mask discrimination. Vaccine manufacturers have 0 liability for their products. It cannot be mandatory. Would you give auto manufacturers 100% protection from liability? Then force people to drive their death traps?

Subject: Don't Let More NH People Experience Medical Tyranny, Please Support HB1260!
Importance: Normal

Dear Committee Members and Fellow Citizens,

Allowing conditional rights to be established based on immunization status should never be considered. In fact, it has **not** been considered in any meaningful way, but instead just rolled out across this country as if it were nothing significant. Pay to play, or lose. And lose more than a lot.

We are writing to urge you to support HB1260 which will provide a rational, reasonable, and easily enforceable counter to the ludicrous discrimination and access class bucketing already underway.

No U.S. Citizen, N.H. Citizen or Resident, nor Human Being on this planet should ever be subjected to fear of, or actual loss of, freedoms, privacy, income, access to venues, markets, etc., and the very ability to engage in society due to their medical choices or medical conditions.

Our family moved to NH last summer as a direct result of this type of tyranny. We can tell you from personal experience how absolutely terrifying and stunning it was to suddenly lose everything we had worked for because the state decided they could make a blanket medical decision on behalf of the entire populace. In addition to the many other disastrous consequences of the state's decisions, we were forced to explain to our children why they were suddenly outcasted members of society. I believe many NH families have faced the same this year as COVID vaccines mandates have spread.

As these conversations have unfortunately continued this year throughout the COVID pandemic; our son says often he'd like to travel to another country, or see a big concert but knows he won't be able to because he's not vaccinated for COVID. Our high-school-aged daughter wonders which colleges she will be eligible to apply to? Even if she can choose freely, are they in towns that will welcome her and allow her to enjoy social activities with her friends?

Professionally, as adults, we have been forced to consider that, in addition to educational rights, we may lose the right to earn an income, take a trip to see family, enter the nursing home where our mother resides, or any other myriad of freedoms.

Our family is currently essentially banned from enjoying much of anything to enjoy in the United States cities of: New York City, Boston, Minneapolis/St. Paul, Los Angeles, Salem, MA, Washington DC, San Francisco, and Los Angeles. We are likely missing some additional locations—as the list grows longer, our sense of doom, exclusion, and fear for our children's future increases and we begin to lose track of some of the details—but the message of where we now stand could not be any clearer.

Do you have any idea how it feels to know your children will potentially never see the historical collections in Boston or experience the museums of New York City? Never eat real NY Pizza in a restaurant, or see a rock concert in San Francisco? Despite the fact that a mere six months ago they could have? It feels like a G-damn nightmare that will never end. It feels like our entire connection to story and collective artifacts and generational experiences, and identities as Americans--born here because our grandparents and great-grandparents came here for more freedom--has been severed. But not by choice. Without an ounce of ceremony or even public debate, this was taken from us. So fast, most days we aren't even fully able to process it.

We are among a group of “refugees” who have fled to NH in the last two years for something very simple and which many of us perhaps took for granted—freedom.

Anyone who cannot see that as a nation have sped toward creating an entirely second-class of citizens based on one criteria; with many of our fellow citizens gleefully willing to circumvent their own rights along with others for an easy solution to a complex problem—is just plain blind.

In so many ways, and for so many people, the protected class status tied to immunization status is now absolutely required.

We know we can do better than this as Americans, and we believe NH has the right leaders to make sure we do. Being proactive about this matter couldn't be anymore essential than it is at this moment. Clearly we are in the process of losing this battle in multiple states across the US right now. Do not let NH fall! Please miss this opportunity to protection under the law for our family and so many others in NH.

Thank you to the authors and sponsors of this bill and to all who vote to support it. To those who do not, I hope you consider what you would say to our family in person and how ethically and morally you could justify looking us in the eye and uttering any such explanation.

Sincerely, as fellow citizens of a once free country,
John A. Gieschen, Jr. and Christine Macpherson

This testimony is to show support for HB 1260.

When it comes to Covid there are over one hundred studies that say natural immunity is superior in protecting you and those around you when compared to those who are vaccinated. There are many doctors, nurses and frontline workers who got covid in the beginning of the pandemic and have worked closely with covid patients on a daily basis, remained unvaccinated due to their research concerning natural immunity and have yet to get covid a second time. The CDC is unable to provide proof on one case of someone who has natural immunity and hasn't been vaccinated who has contracted covid a second time. Below you will find a study about how those who had SARS 17 years ago are immune to Covid-19. You will also find a link which provides 81 links to studies about how natural immunity provides equal to or better protection than the vaccine. If that is the case, why in the world would a person with natural immunity want to take the risk of getting this vaccine? Those who have natural immunity and are being fired for refusing this vaccine are absolutely being discriminated against. Those businesses who are not allowing the unvaccinated into their establishments or events are discriminating against the naturally immune (since the majority of the unvaccinated are most likely naturally immune at this point), discriminating against those who can't take the vaccine (for medical or religious reasons), and discriminating against those who are hesitant of the vaccine (many Blacks and Hispanics are hesitant because of past atrocities - additionally there have been many deaths and even more permanent disabilities caused by the vaccine).

Furthermore, covid has never been a terrible virus. First the numbers of deaths were bloated in the beginning for a plethora of reasons. The vast majority of those who died had multiple comorbidities, the PCR tests were not being used correctly and therefore producing far too many false positives, the more covid patients that a hospital had, the more financial aid they would receive and had doctors been encouraged to treat their patients with antiviral medications there would have been many lives saved. Now that covid has been with us for awhile the virus has changed and is similar to that of the flu. Why in the world should people be fired or refused admission for not being vaccinating against a virus that is no more harmful than the flu, especially considering they have natural immunity, and or its against their religion, or because there is still no long term data available about how the mRNA technology could affect humans (conscientious objection)?

I will not get vaccinated for all of those reasons; I have natural immunity, it's against my religion to vaccinate, Covid is not dangerous, the vaccine has risks involved, and potentially has additional risks that we have yet to discover. So I definitely feel like I'm being discriminated against when I hear that I wouldn't be able to work here or there or get into that venue or that restaurant because I'm unvaccinated.

HB 1260 –Making Immunization Status a Protected Class

Testimony

Good morning, Mr. Chairman and members of the committee. My name is Kathy Bizarro-Thunberg, Executive Vice President with the New Hampshire Hospital Association (NHHA), representing all 26 of the state’s community hospitals as well as all specialty hospitals.

The NHHA is opposed to HB 1260. The bill before you would make immunization status a protected class.

We do not believe it is appropriate to include “immunization status” as a protected class under the State Commission for Human Rights. This committee heard a similar bill last week, HB 1519, which we also testified in opposition. This bill as well as other bills before this committee, attempts to insert additional “classes” into the statute that protects individuals from discrimination is not appropriate. We believe all these bills are focused on, without explicitly stating such, an attempt to insert vague language into the statute against the COVID-19 vaccine. The result of all these bills will just lead to lawsuits and further confusion among employers and employees.

It is NHHA’s position that employers have the right to determine what is best for their employees and their clients, patients, and/or patrons. Requiring vaccinations of healthcare workers from communicable diseases is not new for hospitals in New Hampshire. Hospitals have required vaccination against several communicable and deadly diseases such as mumps, measles, rubella, chicken pox, diphtheria, tetanus, pertussis, and influenza as a condition of employment, with the same type of medical and religious exemptions allowed for the COVID-19 vaccine. We believe requiring vaccinations is absolutely the right thing to do for the health and safety of our patients, our staff, and the citizens of New Hampshire. The vast majority of hospital staff have been vaccinated against COVID-19 or have received exemptions, and we’ve heard from many healthcare workers who support the vaccine requirement to protect their health and that of their patients.

We are opposed to HB 1260, and we urge the committee to find this bill Inexpedient to Legislate. Thank you for the opportunity to provide our comments on HB 1260.

Dear Honorable Representatives:

We are respectfully requesting support of the above-referenced bill, which we understand is scheduled to be heard Wednesday, January 26, 2022.

It is our understanding that the bill would prohibit discrimination based on vaccination status in employment, public accommodations and housing, and we heartily support this action.

We strongly believe in citizens being entitled to the privacy of their medical information, and the freedom to make such choice under the umbrella of the Constitution.

Thank you in advance for your consideration of supporting this very important bill, and thank you as well for your service to the citizens of this great state!

Most sincerely,

Jim & Nina Kelly

Dear Members of the Judiciary Committee,

I am writing to oppose HB 1260. To equate someone's vaccination status as a feature of identity, such as race, age, gender, and other characteristics is just plain silly. Vaccination status reveals nothing about a person's identity. It may, however, reveal a great deal about their intelligence.

Sincerely,

Chuck Rhoades

Dover, NN

The CDC and the State have never fully recognized people who had the disease as being vaccinated. With all the studies out now demonstrating natural immunity is better than the vaccine, the CDC finally admitting this and fully vaccinated people are spreading the disease and being hospitalized in large numbers. Moderna and Pfizer indicating the vaccines are not effective against the Omicron variant and Robert Malone, developer of the mRNA technology, indicating the vaccines are not working, the only logical decision is to prohibit vaccine mandates. No one should be forced to take a medicine that is ineffective for political or feel-good purposes, much less lose their job over a personal medical decision.

Reasons why I support HB 1260

I believe that the immunization status should be a protected class. I have seen the way society treats those who are different and no matter what a person's personal choice is, it should not be recorded for anyone other person or entity to know.

It is nobody's business whether or not I've taken any injection designed to prevent disease. I would like to see "immunization status" as a protected class in New Hampshire's civil rights law. Please support HB 1260.

All people should have equal access to places of public accommodation regardless of "vaccination status" or masking choice simply because NEITHER have any effect on spread of the COVID-19. In fact, recent research indicates that the vaccine alters the immune system and doesn't allow the vaccinated persons' respiratory membranes to destroy the virus, as happens in the unvaccinated. Those "vaccinated" for COVID-19 actually carry higher viral loads out to the public, but they also should not be discriminated against. Please support HB 1490

Please get informed on the status of the real science, not the government funded/coerced "science" and get the politics out of our healthcare.

Dear Judiciary Committee Members:

I urge you to reconsider your vote in committee on **HB1260** that would make immunization status a protected class. Please vote against the ITL motion and then vote OTP on this important and needed bill.

There have been many bills this session relative to vaccination and immunity and I regret that as a volunteer advocate (with a separate full time job) that I have not had the opportunity to express my support for this bill at the public hearing.

This is an important and needed bill. It would be good if "immunization status" were recognized for all diseases for which there is a vaccine and even those without vaccines. It's science. In fact science, the CDC, and NH DHHS all recognize "immunization" as the result of viral exposure as documented by lab testing. **Please note in the attached, current NH school vaccine requirements, that DHHS recognizes immunization as documented by lab testing for such illnesses as measles, mumps, rubella, varicella, and Hepatitis B that then exempts children from unnecessary vaccination. This is long-standing, recognized medical science.** Those who have immunization from viral exposure should not be discriminated against for not getting vaccines they don't need. We must continue to recognize science and protect science. No one should be discriminated against in schools or the workplace because of their immunization status. Discrimination often occurs due to lack of information. I hope this additional information helps to clarify this issue and that you may give your support to this important bill.

I recommend voting against the ITL motion. **This is a good bill. It deserves to be voted OTP.**

Sincerely,
Laura Condon

2 follows:

3 354-A:1 Title and Purposes of Chapter. This chapter shall be known as the "Law Against
4 Discrimination." It shall be deemed an exercise of the police power of the state for the protection of
5 the public welfare, health and peace of the people of this state, and in fulfillment of the provisions of
6 the constitution of this state concerning civil rights. The general court hereby finds and declares
7 that practices of discrimination against any of its inhabitants because of age, sex, gender identity,
8 race, creed, color, marital status, familial status, physical or mental disability, **immunization**
9 **status**, or national origin are a matter of state concern, that such discrimination not only threatens
10 the rights and proper privileges of its inhabitants but menaces the institutions and foundation of a
11 free democratic state and threatens the peace, order, health, safety and general welfare of the state
12 and its inhabitants. A state agency is hereby created with power to eliminate and prevent
13 discrimination in employment, in places of public accommodation and in housing accommodations
14 because of age, sex, gender identity, race, creed, color, marital status, familial status, physical or
15 mental disability, **immunization status**, or national origin as herein provided; and the commission
16 established hereunder is hereby given general jurisdiction and power for such purposes. In addition,
17 the agencies and councils so created shall exercise their authority to assure that no person be
18 discriminated against on account of sexual orientation.

19 2 New Paragraph; Religious Belief. Amend RSA 354-A:2 by inserting after paragraph IX the
20 following new paragraph:

21 IX-a. "Immunization status" means immunization history as it relates to employment
22 immunization requirements. In this paragraph, "immunization" means the process whereby a
23 person is made resistant to an infectious disease, typically by the administration of a vaccine.

24 3 Opportunity for Employment Without Discrimination; Immunization Status. Amend RSA
25 354-A:6 to read as follows:

26 354-A:6 Opportunity for Employment Without Discrimination a Civil Right. The opportunity to
27 obtain employment without discrimination because of age, sex, gender identity, race, creed, color,
28 marital status, physical or mental disability, **immunization status**, or national origin is hereby
29 recognized and declared to be a civil right. In addition, no person shall be denied the benefits of the
30 rights afforded by this section on account of that person's sexual orientation.
