HB1168

Bill as Introduced

HB 1168 - AS INTRODUCED

2022 SESSION

22-2152
08/05

HOUSE BILL **1168**

AN ACT establishes a committee to study the New Hampshire law relative to soil conditioners.

SPONSORS: Rep. Bixby, Straf. 17; Rep. Homola, Hills. 27

COMMITTEE: Environment and Agriculture

ANALYSIS

This bill establishes a committee to study the New Hampshire law relative to soil conditioners.

Explanation: Matter added to current law appears in ***bold italics***.
Matter removed from current law appears [~~in brackets and struck through~~].
Matter which is either (a) all new or (b) repealed and reenacted appears in regular type.

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Two

AN ACT establishes a committee to study the New Hampshire law relative to soil conditioners.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 1 Committee Established. There is established a committee to study the New Hampshire law
2 relative to soil conditioners.

3 2 Membership and Compensation.

4 I. The members of the committee shall be as follows:

5 (a) Three members of the house of representatives, appointed by the speaker of the
6 house of representatives.

7 (b) One member of the senate, appointed by the president of the senate.

8 II. Members of the committee shall receive mileage at the legislative rate when attending to
9 the duties of the committee.

10 3 Duties. The committee shall review RSA 431 and assess the following:

11 I. Are statutes consistent with current agricultural practices?

12 II. Are all terms appropriately defined, including the term "soil conditioner"?

13 III. Are all fees directed to appropriate, specific purposes supporting agriculture?

14 4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from
15 among the members. The first meeting of the committee shall be called by the first-named house
16 member. The first meeting of the committee shall be held within 90 days of the effective date of this
17 section. Three members of the committee shall constitute a quorum.

18 5 Report. The committee shall report its findings and any recommendations for proposed
19 legislation to the speaker of the house of representatives, the president of the senate, the house
20 clerk, the senate clerk, the governor, and the state library on or before November 1, 2022.

21 6 Effective Date. This act shall take effect upon its passage.

Rep. Bixby

Rep. Homola

Who supports the bill: Representative Smith, Grafton-District 8, Anthony Drovin, NHDES, Representative Bixby, Strafford-District 17.

Who opposes the bill: Walter Kirsch.

Who is neutral on the bill: Robert Bishop, NHDES

Summary of testimony presented:

Representative Peter Bixby

Strafford County District 17

- Representative Bixby said that last year's amendment on the soil health statute was appropriately put into chapter 4:31. He said that one of the first things in that chapter is that even though it is called "soil conditioners", there is no definition of a soil conditioner.
- Rep. Bixby said that there were issues that needed to be addressed, such as the lack of a definition for "soil conditioner" and the disregard for items labeled as organic. He described that as a clash of statutes and said that there may be other deviations from federal statute.
- Rep. Bixby said that fertilizers and soil conditioners would also be impacted since there is no indication of how HB 1168 would be paid for. He said that fines could be a disproportionate tax and must conform to SB 368.

- Rep. Bixby said that he asked for a study committee on the issue of soil conditioners and Senator Watters brought up the possibility of a non-germane amendment which he was fine with.

Amendment #1373s, establishes a committee to study the New Hampshire law relative to soil conditioners and relative to costs eligible for reimbursement from the oil discharge and disposal cleanup fund, to **HB 1168**, establishes a committee to study the New Hampshire law relative to soil conditioners.

Hearing Date: April 19, 2022

Members of the Committee Present: Senators Avard, Gray and Watters

Members of the Committee Absent : Senators Giuda and Perkins Kwoka

Bill Analysis: This bill establishes a committee to study the New Hampshire law relative to soil conditioners.

Sponsors:

Rep. Bixby

Rep. Homola

Who supports the bill: Representative Read, Rockingham-District 17, Representative Pearl, Merrimack-District 26, Jennifer Marts, NHDES, Andros Pena.

Who opposes the bill: None.

Who is neutral on the bill: None.

Summary of testimony presented:

Senator Watters

- Senator Watters introduced amendment 1373s for HB 1168, establishing a committee to study the New Hampshire law relative to soil conditioners.
- The need for this came from the Oil Fund Disbursement Board which Senator Watters serves on. The fund goes towards cleaning up oil and gas leaks. There is a cap on the amount that can be used towards this. Construction of these tanks is expensive because steel prices have gone up 95 percent. The raise in the cap to 3,300 dollars is needed for the fund to continue to serve people. This is an existing fund so there is no appropriation.

Jennifer Marts, NHDES

- The amendment increases the reimbursement limit from 2,250 dollars to 3,300 dollars for low-income homeowners to replace their home heating oil tank. The reimbursement known as the Safe Tank Program is established in RSA 146:D which is the Oil Discharge and Cleanup Fund. The purpose of the program is to provide financial assistance to eligible low-income homeowners to replace their substandard home heating oil tanks which pose a significant risk of leaking into the environment. The current reimbursement limit of 2,250 dollars no longer covers the typical cost of replacing a home heating oil tank which has increased to an average cost of 3,300 dollars. the cost is often more than a homeowner can afford which prevents many homeowners from replacing their high-risk tanks before a leak occurs. This amendment will ensure that the program remains viable.
- NHDES supports the amendment because it makes a needed cost adjustment to the reimbursement limit to the program which is a critical spill prevention program. It will help the program to continue to protect New Hampshire's ground and drinking water.

Representative Pearl, Merrimack-District 26

- Representative Pearl spoke in support of the bill. He does not believe the House will have an issue with the amendment.

RE: HB 1168 Amendment to increase Safetank reimbursement from \$2,250 to \$3,300.

Dear Chairman Avard and Members of the Committee:

Thank you for the opportunity to provide testimony on the subject proposed amendment to HB 1168. This amendment would increase the reimbursement limit for the upgrade of home heating oil tanks for low-income homeowners from \$2,250 to \$3,300. RSA 146-D establishes the Oil Discharge and Disposal Cleanup Fund to provide financial resources for the prevention and cleanup of oil discharges.

RSA 146-D:6, III establishes the "Safetank" program to provide financial assistance to eligible low-income homeowners for the replacement of substandard heating oil tanks that pose a risk of release. The current \$2,250 ceiling was established in 2017, and no longer covers the typical cost for the replacement of a home heating oil tank. The average project cost is now approximately \$3,300, and recent time and materials invoices submitted by contractors have ranged as high as \$4,000. The resulting balance owed by the homeowner is often more than they can afford and may preclude them from upgrading a high-risk tank. Further, in some regions of the state it is becoming difficult for low-income homeowners to find contractors who are willing to do tank upgrades under the program. By adjusting the reimbursable limit to more closely reflect current market rates, HB 1168 will ensure that the Safetank program remains viable and continues preventing heating oil releases.

In summary, NHDES supports this amendment to HB 1168 because it makes a needed adjustment to the reimbursement rate for a critical spill prevention program. Passage of the bill will help to ensure that the Oil Discharge and Disposal Cleanup Fund continues to provide vital support for the protection of New Hampshire's groundwater and drinking water.

Thank you again for the opportunity to comment on the proposed amendment to HB 1168. Should you have questions or need additional information, please feel free to contact either Jennifer Marts, Supervisor Fund Management Section (Jennifer.A.Marts@des.nh.gov, 271-2570) or Michael Wimsatt, Director of the Waste Management Division (Michael.Wimsatt@des.nh.gov, 271-2905).

Sincerely,

Robert R. Scott, Commissioner
