STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty One

AN ACT

relative to the declaration of a state of emergency.

Be it Enacted by the Senate and House of Representatives in General Court convened:

- 1 Emergency Powers; Notice; Declaration and Termination of State of Emergency. Amend RSA 4:45, I and II to read as follows:
- I. The governor shall have the power to declare a state of emergency, as defined in RSA 21-P:35, VIII, by executive order if the governor finds that a natural, technological, or man-made disaster of major proportions is imminent or has occurred within this state, and that the safety and welfare of the inhabitants of this state require an invocation of the provisions of this section. As soon as practicable, the governor shall notify the speaker of the house of representatives and the senate president of the impending issuance of emergency orders under this section and provide a description of such orders. The general court shall have the same power to declare a state of emergency by concurrent resolution of the house and senate. An executive order or concurrent resolution declaring a state of emergency shall specify the:
 - (a) Nature of the emergency;
 - (b) Political subdivisions or geographic areas subject to the declaration;
 - (c) Conditions that have brought about the emergency; and
- (d) Duration of the state of emergency, if declared by the governor and less than 21 days, or if declared by the general court and less than 90 days.
- II.(a) A state of emergency shall terminate automatically 21 days after its declaration if declared by the governor, or 90 days after its declaration if declared by the general court, unless it is renewed under the same procedures set forth in paragraph I of this section. The governor may, by executive order, renew a declaration of a state of emergency [as many times as] no more than 3 times if the governor finds it is necessary to protect the safety and welfare of the inhabitants of this state. The general court may, by concurrent resolution, renew a declaration of a state of emergency as many times as it finds is necessary to protect the safety and welfare of the inhabitants of this state.
- (b) If the governor finds that maintaining the state of emergency is no longer justified, the governor shall issue an executive order terminating the state of emergency.
- (c) The legislature may terminate a state of emergency or any emergency order issued thereunder by a [majority vote of both the senate and the house of representatives] concurrent resolution adopted by a majority vote of each chamber. A majority for this vote shall consist of a majority of members present and voting in each chamber acting separately. A state of emergency shall terminate upon a [majority vote of both chambers] concurrent resolution adopted by a

majority vote of each chamber, under this subparagraph; provided, however, that such vote shall not preclude the governor from declaring a new emergency for different circumstances under paragraph I of this section.

[(d) Ninety days from the date of declaration of a state of emergency, and every 90 days thereafter, the governor shall call, pursuant to Part II, Article 50 of the New Hampshire constitution, and address a joint session of the general court, and shall provide a written copy of the address to all members of both chambers within 5 business days. At such joint session, the legislature shall vote on whether to terminate the state of emergency by concurrent resolution adopted by a simple majority of both chambers acting separately on the following question: "Shall the current state of emergency be terminated?" For purposes of this section, "simple majority" means a majority of members present and voting "yea" in both chambers.

2 Effective Date. This act shall take effect upon its passage.

Who is neutral on the bill: None

Summary of testimony presented in support: Rep. Lekas introduced the bill and submitted written testimony.

- This bill cleans up House Bill 2. The most important change is giving the governor the authority to declare a state of emergency for up to 21 days with the option to renew up to 3 times. After this initial 84 days, the emergency is either over or will transition into a management phase. At this point the legislature should get involved.
- Legislation should look to the future. After 84 days the legislature would need to meet to extend the emergency declaration for up to 90 days at a time, with the ability to renew without limits.

• It is hard to imagine a disaster that would prevent the legislature from meeting (barring an invasion and/or occupation).

Summary of testimony presented in opposition: None

HB 275

Dear Senators:

Please advance HB 275 as OTP to the Senate floor for a vote this week. I'm dismayed that this bill, which should have been fast-tracked for passage based on the budget deal, has been sitting idle in a Senate committee. The Senate and Governor agreed to this language in order to garner support from House Freedom Caucus members. It's time for the Senate to honor its side of the deal.

Subject: Support for HB 275

We understand that the Senate agreed to pass HB 275 in this session in order to get the budget passed last session. We support that in a State of Emergency that the House and Senate must vote to continue it and if they do not vote, then it ends automatically on the originally specified date that it would end. This returns the control of State of Emergencies to the people of NH via the Legislature.

We are asking you to vote yes for this bill.

Thank you, Gregory and Janis Anthes 103 Meaderboro Road New Durham, NH 03855 603-859-1118

SUPPORT - HB275

As a NH voter from Hampton Beach, I Encourage the Senate to SUPPORT HB 275 this week.

The language of this bill is important, it theorizes that a Constitutional Republic is the natural condition of government and that both the House and Senate ought to have to vote to continue a State of Emergency, and otherwise it should automatically end. NO EXTENSIONS, END!!!!!

An agreement was made among House leaders, the Senate and the governor to accept our language in exchange for a positive vote for the budget.

I ask then to honor their agreement.

Sincerely,

Andrew J. Friedrich

Good morning,

I SUPPORT HB275, and I ask you to do so as well. The COVID era demonstrated the need to reform our state of emergency statute to clarify that a Constitutional Republic is the natural state of affairs in New Hampshire. The language of the current statute upholds a paradigm that State of Emergency is the natural condition of government and requires both the House and Senate to vote to end it. Instead, the legislature should be required to vote to retain an expiring State of Emergency if a true emergency exists, the representatives of the People should be the ones to make that determination.

Thank you for your time,

Instead, the legislature should be required to vote to retain an expiring State of Emergency – if a true emergency exists, the representatives of the People should be the ones to make that determination.

Representative Tony Lekas Hillsborough 37 April 6th, 2022 Comments on HB 275 relative to the declaration of a state of emergency.

When an emergency strikes, the Governor needs the power to deal with the situation promptly. This bill permits the Governor to declare a state of emergency for up to 21 days. He can then renew that state of emergency up to three times for up to 21 days each. This permits the Governor to maintain his emergency powers for up to 84 days without requiring the legislature to meet.

Emergencies have more than one phase. There is the initial phase which requires quick and decisive action which the Governor is better suited to than the legislature. However, after the immediate problems have been dealt with the emergency transitions to a management phase where there are still serious problems that may last for a long time but the situation does not require the same level of urgent response as the initial phase.

After the initial phase the people of New Hampshire need to be involved in the process through their legislators.

If the legislature believes that the state of emergency should last beyond 84 days it may vote to renew it for up to 90 days at a time and can renew it as often as needed.

Concern has been raised that there may be a need to extend the state of emergency but that it might be impossible for the legislature to meet.

Even during the recent emergency the legislature was able to meet in less than that amount of time. We have shown that we have the creativity and flexibility to meet and do our duty even under difficult circumstances.

While current statute permits the legislature to meet and vote to end a state of emergency there is a significant difference between the legislature having the power to meet to end a state of emergency and it being required to meet to extend one. Meeting and voting to extend the state of emergency makes it clear to our constituents that we are doing our job representing them rather than sitting on our hands and leaving the responsibility to the Governor.

Part I Article 37 our constitution states in part "In the government of this state, the three essential powers thereof, to wit, the legislative, executive,

and judicial, ought to be kept as separate from, and independent of, each other, as the nature of a free government will admit...".

A state of emergency is a truly extraordinary thing. It is the suspension of this constitutionally mandated separation of powers. While that may be necessary to respond quickly to an emergency, after some point in time it is no longer justified and the legislature must resume it's constitutionally mandated task of guiding the way any remaining problems created by the emergency are managed. That must be an active role, not just standing aside and acquiescing to whatever the Governor chooses to do.

Also, if the state of emergency does need to extend beyond 84 days the legislature should have the Governor's back and actively declare it's support of how the emergency is being handled. If there is opposition to the state of emergency we should share in the blame or credit of extending it. That is our responsibility as representatives of our constituents

Legislation affects the future. This bill is not a referendum on how the recent state of emergency was handled. Even if we believe that the current Governor handled the recent emergency perfectly, we need to consider the possibility that a future Governor may respond in a less appropriate manner.

Honorable Members of N.H. Senate Committee on Executive Departments and Administration.

Today I present testimony in favor of HB 275, "an act relative to the governor's power to initiate a state of emergency and various emergency powers," a bill I believe would change state law to clarify executive power during a State of Emergency to preclude the overreach we witnessed in 2020 and the first part of 2021.

This language would make a simple change to the law as amended last year. Call it a "housekeeping measure," but a critically important one. To give you a quick overview of the difference between what passed last year and HB 275, contrast this language in HB 275 with section 91:459 of HB 2. The language that became law in HB 2 theorizes that a State of Emergency is the natural condition of government and requires both the House and Senate to vote to end it. This language represents a fundamental misunderstanding of the foundations of our Constitutional Republic. The language in HB 275 corrects this and theorizes that a Constitutional Republic is the natural condition of government and that both the House and Senate ought to have to vote to continue a State of Emergency, and otherwise it should automatically end.

Part 1, Article 29 of the state Constitution makes it clear that only the Legislature may suspend or enact laws in New Hampshire, and Part 2, Article 5 makes it clear that these same laws may not be "repugnant to the Constitution." Arguably, RSA 4:45 should align with these principles, and I believe with this bill and HB 440, which is on the governor's desk, our law will be brought back into alignment with the Constitution.

To be clear, the governor ought to have the right to declare a State of Emergency; after all, he or she is managing the day-to-day operations of the state and will have access to the most up-to-date information. However, the governor ought to be checked before extending a State of Emergency to prevent abuse of power, and the automatic end of the State of Emergency after 90 days without a positive vote of the Legislature adds an additional check against political forces having an impact on the situation.

We elect a Legislature of 424 men and women precisely because we disagree on how best to manage the state, and it is in that disagreement and compromise that we come up with sound policy that is suitable for the most people. Ideally, that policy creates a "rule of law" that governs everyone equally, so that even the minority is protected by it. We saw this process thwarted in 2020 and 2021, as the executive branch crafted policy that did not take everything into consideration. Whether the policy was sound or not, it was not properly vetted under the Constitutional system that we set up to make sure that it is. This bill, with HB 440, will decrease the chances of this ever happening again. We have to consider the potential of a less reasonable governor in the corner office in the future and put these protections in place to prevent potential abuses of power.

The idea behind the changes proposed by HB 275 is that the people should always be in charge of their government, through their Legislature, and they also ought to keep autonomy over their own lives, property and businesses. I urge you to pass it.

Thank you, Hon. Andrew J. Manuse 3 Lee Circle, Derry, NH 03038 603-703-8857

The language of the current statute upholds State of Emergency as "the natural condition of government" and requires both the House and Senate to vote to end it - THAT IS ALARMING AT BEST. During COVID even though many aspects were handled well; one major aspect needs to be corrected. As a New Hampshire citizen, I am a part of a Constitutional Republic. During COVID, my liberty under this constitutional republic was undermined by the current language of the statutes. This correction would clarify that a state of emergency is not the natural condition of NH and that our representatives should vote to continue a state of emergency if needed. They should not have to vote to end a state of emergency.

As you know, our system of government relies on checks and balances, so that no one branch becomes dominant. Allowing one person, the governor, to declare and extend a state of emergency ad-nauseum, does not fit that model.

Please support HB 275 and restore the checks and balances needed to keep our freedoms and preserve the type gov't that has been working well for us for these past 235+ years.

We are at a pivotal time in history, and the actions we take today will directly impact the children of tomorrow. For this reason, I am in support of HB275 and respectfully request that you support this bill, as well.

Regrettably, due to a pandemic, the past two years have weakened the people's position. Whether you believe the sole COVID narrative that was ubiquitously broadcast or something different is really not the point. The point is that during a State of Emergency, the Representatives of the People should be the ones to make the determination as to whether retaining the aforesaid condition makes sound sense.

Thank you, I earnestly pray that the freedom our Founding Fathers fought so fastidiously to attain will be upheld by federal and state legislators alike, but may these laudable individuals be particularly mindful in protecting such rights when confronted with undemocratic agendas that can only serve to destabilize the people.

Dear Senators,

I am writing to express my support for HB275 (relative to the state of emergency statute) and to encourage you to support it as well.

The language of the current statute operates on the assumption that a "state of emergency" is the natural condition of government, which of course it is not, and it requires both the House and Senate to vote to end a State of Emergency. What we need to do instead is reverse that assumption and make it clear that a constitutional republic is the natural state of government in New Hampshire, thus requiring the legislature to vote to retain any expiring State of Emergency.

True emergencies in the future will no doubt inspire the representatives of the People to issue new States of Emergency. If they're not allowed to expire, then they never will, and lockdowns and mandates will become the rule rather than the exception and our freedoms will be lost. I see what's happening in Shanghai right now and recognize that this same nightmare scenario could happen in America if we don't remain vigilant.

Please support HB275.

PLEASE SUPPORT HB 275

I am a supporter of HB275 and I am asking that you support this crucial bill as well. The last 2 years have demonstrated why it is imperative to clarify that a Constitutional Republic is the natural condition of government that ought to be protected no matter what emergency faces the state.

Please vote in favor of this bill.

Respectfully,

I support <u>HB 275</u>, and I ask you to do so as well. The COVID era demonstrated the need to reform our state of emergency statute to clarify that a Constitutional Republic is the natural state of affairs in New Hampshire. The language of the current statute upholds a paradigm that State of Emergency is the natural condition of government and requires both the House and Senate to vote to end it. Instead, the legislature should be required to vote to retain an expiring State of Emergenc—if a true emergency exists, the representatives of the People should be the ones to make that determination.

Dear Senators,

I respectfully request that you support HB 275. The events during, and after, the rise of the Covid virus have shown that it is necessary to make certain that the natural state of affairs in New Hampshire is that of a Constitutional Republic.

If there is to be any extension of a State of Emergency, both the Senate and House should be required to vote to extend such a status, as representatives of the People.

Thank you for supporting freedom and upholding the Constitution in this matter.

In consideration of Senate hearing 4/6/22

Dear Senator Carson,

My family and I support HB 275 and strongly urge you to consider your support. As NH law is today, we've witnessed that it's far too easy for a state of emergency to continue on without a timely check from the general court. While we can compare and say certainly some other states have done worse, this is New Hampshire; the Live Free or Die state, the beacon of freedom in the Northeast, a state full of diverse thought and independent voters. We can all acknowledge that being able to declare a state of emergency is necessary. However to leave things as they are now, where a state of emergency can continue on until a vote is held and passed to end it is absurd and leaves the door open to abuse. Our elected representatives who are held accountable by we the people should be required to vote regularly to keep a state of emergency going, not the other way around. This acts as a check against an overreach of government power and gives the people multiple opportunities to make their voices heard to their representatives on whether we need to extend future state of emergencies. This will strengthen our beautiful republic. My family asks that you please support HB 275 in this critical vote.

I am writing in support of HB 275, and would like to encourage you to support the bill as well. We the people of New Hampshire are the representatives of ourselves and our freedoms, our elected officials represent us and our desires. The past two years of COVID over reach and loss of our civil liberties have made it obvious that we need to put the power back to the desire of the people.

If a true state of emergency were to happen again, the people need to be protected from further government overreach no matter what.

Our civil liberties must be protected.

Please support HB275. New Hampshire needs emergency powers reforms. The NH legislature should be required to vote to retain an expiring State of Emergency.

The governor should not be acting independently without checks and balances on his power. The representatives of the people should be the ones to make that determination.

Senate Committee members,

Since we have been living in "times of emergency," it is critical that our statutes are clearly defined so that they are not abused.

Only the Legislative Branch, the most powerful branch, should be allowed to decide if we need to continue a state of emergency. They can always call one as well, sharing that duty with the Executive branch.

Checks and balances against over reach only work when we use them. This statute is a way to help remind both branches and the citizens of NH of the correct jurisdictional lines.

Thank you for supporting HB 275.

Thank you.

Sincerely,

Carol Petrusewicz

BY A VOTE OF: 5-0

Senator Sharon Carson For the Committee

This bill modifies the powers the legislature grants to the Governor related to a state of emergency. This bill permits the Governor to declare a state of emergency for up to 21 days, that can be renewed up to three times for up to 21 days each, without involving the legislature. This permits the Governor to maintain emergency powers for up to 84 days. This bill also grants the legislature the power to meet and terminate individual emergency orders.

Governor's Veto Message Regarding House Bill 275

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on May 27, 2022, I have vetoed House Bill 275, relative to the declaration of a state of emergency.

Last session, I signed into law numerous reforms to the Governor's Emergency Powers codifying the transparency that was practiced in the current pandemic and giving the legislature a greater role in future States of Emergency.

If signed into law, this legislation would allow inaction by the State Legislature (such as the inability or unwillingness to meet) to end critical services necessary to serve the people of our state.

It is irresponsible to further bind a future Governor's ability to address and respond in a crisis, especially when the Legislature already has the power to suspend a State of Emergency at anytime.

For the reasons stated above, I have vetoed House Bill 275.

Respectfully submitted,

Christopher T. Sununu
