STATE OF NEW HAMPSHIRE

*In the Year of Our Lord Two Thousand Twenty One*

AN ACT prohibiting the suspension of civil liberties during a state of emergency.

*Be it Enacted by the Senate and House of Representatives in General Court convened:*

1 1 Title. This act may be known and cited as the "Civil Liberties Defense Act."

2 2 Legislative Findings.

3 I. RSA 4:45 and 4:47, together known as the emergency powers statutes, allow the governor  
4 of New Hampshire to declare a state of emergency and thereby activate emergency powers. The  
5 emergency powers statutes were passed by the general court in order to give the governor flexible,  
6 enumerated powers in a time of public disaster.

7 II. On Friday, March 13, 2020, the governor issued Executive Order 2020-04, declaring a  
8 state of emergency due to the novel coronavirus, or Covid-19. This order formed the basis for several  
9 emergency orders.

10 III. On Tuesday, March 17, 2020, Binford, et. al. v. Sununu became the first legal challenge  
11 to these emergency orders. The lawsuit claimed that aspects of the orders violated the plaintiffs'  
12 civil liberties.

13 IV. In response to this lawsuit, the state, rather than arguing simply that the orders in  
14 question were constitutional, disturbingly asked the New Hampshire superior court to hold that civil  
15 liberties are suspended due to the state of emergency. See Binford, et. al. v. Sununu, Merrimack  
16 Cty. Super. Ct., 217-2020-CV-00152 at 10 (March 25, 2020) (Kissinger, J.) ("...the State contends  
17 [that] during a state of emergency, executives are granted broad latitude to suspend civil liberties").

18 V. The superior court agreed with the state and concluded that civil liberties in New  
19 Hampshire are suspended during the Covid-19 emergency. Id. at 11 (affirming that "[i]n an  
20 emergency situation, fundamental rights such as the right of travel and free speech may be...  
21 suspended") (quoting Smith v. Avino, 91 F. 3d 105, 109 (11th Cir. 1996); id. at 16 ("the Court finds  
22 that the Governor may suspend... constitutional rights during a state of emergency..."). Although  
23 the superior court then proceeded to find that the governor's orders were constitutional, it noted that  
24 it was doing so only "for the purpose of establishing a complete record." Id.

25 VI. In subsequent emergency orders, the governor has cited the superior court's opinion  
26 letter in Binford as a legal authority. See e.g. Emergency Order No. 74 at 1 (Nov. 19, 2020) (citing  
27 Binford, et. al. v. Sununu, Merrimack Cty. Super. Ct., 217-2020-CV-00152).

28 VII. In enacting RSA 4:45 and 4:47, the general court intended to give the governor flexible  
29 enumerated powers during a time of disaster. It did not intend to allow the governor to suspend or  
30 otherwise infringe upon the New Hampshire bill of rights or the United States Constitution.

**HB 440 - AS AMENDED BY THE HOUSE**

**- Page 2 -**

1 VIII. The general court makes no comment on the specific outcome of the Binford decision,  
2 recognizing that case-by-case applications of legal rights are within the province of the judicial  
3 branch. Yet the superior court exceeded its authority to the extent that it purported to authorize the  
4 governor to suspend or infringe upon the New Hampshire bill of rights or the United States  
5 Constitution.

6 IX. Civil liberties are a codification of the inherent and binding duties of governments to  
7 their citizens. The rule of law in a free society must therefore be permanent and inviolable. The  
8 New Hampshire bill of rights and the United States Constitution may never be suspended, set aside,  
9 or otherwise nullified by the governor, the judiciary, this general court, or any other official  
10 authority. "Government is not free to disregard the First Amendment in times of crisis." Roman  
11 Catholic Diocese of Brooklyn v. Cuomo, 592 U. S. \_\_\_\_ (2020) (Gorsuch, J., concurring in the  
12 judgment).

13 X. Since the Binford decision was issued, the United States Supreme Court has correctly  
14 reaffirmed that "even in a pandemic, the Constitution cannot be put away and forgotten." Roman  
15 Catholic Diocese of Brooklyn v. Cuomo, 592 U. S. \_\_\_\_ (2020).

16 XI. The United States Supreme Court has never held that constitutional rights may be  
17 suspended due to a pandemic. Roman Catholic Diocese of Brooklyn v. Cuomo, 592 U. S. \_\_\_\_ (2020)  
18 (Gorsuch, J., concurring in the judgment) ("Jacobson didn't seek to depart from normal legal rules  
19 during a pandemic, and it supplies no precedent for doing so... Instead, Jacobson applied what would  
20 become the traditional legal test associated with the right at issue—exactly what the Court does  
21 today.") (citing Jacobson v. Massachusetts, 197 U. S. 11 (1905)); Id. ("Nor does any [dissenting  
22 Justice in the Cuomo decision] seek to explain why anything other than our usual constitutional  
23 standards should apply during the current pandemic.").

24 XII. The general court does not seek to obstruct lawful efforts by the governor or the  
25 governor's officials to manage public disasters. Yet New Hampshire courts may not depart from the  
26 federal or state constitutions during a crisis. Given the alarming nature of the state's argument in  
27 Binford, and the superior court's resulting findings, the general court concludes that it would be  
28 negligent to wait for action by the New Hampshire supreme court before enacting this legislation.

29 3 Purpose. The purposes of this act are:

30 I. To clarify that the general court never intended that emergency powers granted to the  
31 governor would be used to suspend civil liberties, and to amend the emergency powers statutes to  
32 expressly prohibit the suspension of civil liberties.

33 II. To reject as ultra vires and to preclude any judicial decision purporting to suspend civil  
34 liberties in New Hampshire, whether reached under the emergency powers statutes or any other law  
35 or legal principle.

36 III. To ensure that "even in a pandemic, the Constitution cannot be put away and forgotten."  
37 Roman Catholic Diocese of Brooklyn v. Cuomo, 592 U. S. \_\_\_\_ (2020). Legal challenges brought

1 under the state or federal constitution must accordingly be subject to meaningful constitutional  
2 analysis.

3 4 Definitions. In this act:

4 I. "Civil liberties" encompasses any guarantee against, protection against, or remedy for an  
5 imposition, intrusion, fine, punishment, or penalty by a governmental entity or agent enumerated in  
6 the New Hampshire bill of rights, in the United States Constitution, or in any binding legal decision  
7 construing any part of the same.

8 II. "Suspension" refers to a time period or condition in which courts of law do not or are not  
9 required to subject impositions, intrusions, fines, punishments, or penalties by governmental entities  
10 or agents to constitutional analysis, instead subjecting such challenges to a "good faith" requirement  
11 or other extraordinary standard.

12 III. "New Hampshire bill of rights" means part I of the New Hampshire constitution and any  
13 legal precedent applying any article therein so as to invalidate, prohibit, punish, or remedy an  
14 imposition, intrusion, fine, punishment, or penalty by a governmental entity or agent.

15 5 Civil Liberties Protected. No power delegated or otherwise granted by any statute or act of  
16 this general court to the governor or any of the governor's subordinates, whether before or after the  
17 date of this act, shall be construed to suspend or permit the suspension of civil liberties.

18 6 New Paragraph; State of Emergency; Powers of the Governor. Amend RSA 4:45 by inserting  
19 after paragraph III the following new paragraph:

20 IV. Notwithstanding the foregoing enumerated powers, civil liberties shall on no account be  
21 suspended. Nor shall the United States Constitution or the New Hampshire bill of rights be  
22 suspended, set aside, or otherwise infringed.

23 7 Emergency Management Powers. Amend RSA 4:47, III to read as follows:

24 III. The power to make, amend, suspend and rescind necessary orders, rules and regulations  
25 to carry out the provisions of this subdivision in the event of a disaster beyond local control;  
26 ***provided that civil liberties shall on no account be suspended, nor shall the United States***  
27 ***Constitution or the New Hampshire bill of rights be suspended, set aside, or otherwise***  
28 ***infringed.***

29 8 Rules of Construction.

30 I. This act and the amendments affected thereby shall be construed in favor of substantive  
31 protections for civil liberties.

32 II. The protections afforded by this act are in addition to any further protections provided  
33 under federal law, state law, and the state and federal constitutions.

34 III. This act shall not be construed to impede the application of any duly enacted  
35 amendment to the New Hampshire constitution.

**HB 440 - AS AMENDED BY THE HOUSE**

**- Page 4 -**

1           IV. This act shall not be construed to imply that civil liberties are conferred upon the  
2 citizens of New Hampshire by the general court or that the general court has or claims for itself the  
3 power to suspend civil liberties.

4           V. Nothing in this act shall be construed to preempt or repeal any state or local law that is  
5 equally or more protective of civil liberties. Nothing in this act shall be construed to narrow the  
6 meaning or application of any state or local law protecting civil liberties.

7           VI. This act applies to, and in cases of conflict supersedes, each statute of the state that  
8 impinges upon civil liberties unless a conflicting statute is expressly made exempt from the  
9 application of this act. This act also applies to, and in cases of conflict supersedes, any ordinance,  
10 rule, regulation, order, opinion, decision, practice, or other exercise of the government's authority  
11 that impinges upon civil liberties.

12           VII. If any provision of this act or any application of such provision to any particular person  
13 or circumstance is held to be invalid under law, the remainder of this act and the application of its  
14 provisions to any other person or circumstance shall not be affected.

15           9 Effective Date. This act shall take effect upon its passage.

## Summary of testimony presented in support:

### Representative Kofalt

- This is aimed at clarifying the emergency order statute to ensure civil liberties are not suspended or limited during a state of emergency.
- This is not aimed at fundamentally changing the emergency order statute or at any specific measure taken.
- This is not an anti-mask or anti-vaccine bill.
- It is currently the position of the superior court that the governor may suspend or limit constitutional rights during a state of emergency.
- Does not think any of the measures taken over the past year were overtly or inarguably violating the constitution.
- This bill clarifies that civil liberties on no account will be suspended, nor shall the US constitution or the NH Bill of Rights be suspended, set aside, or infringed.
- This is intentionally crafted very narrowly.

- Under this bill, going forward, the courts shall apply normal constitutional scrutiny to cases that come before it even during a state of emergency.
- This passed on a bipartisan vote in the House.
- This will bring us into good company with other states including Maine.
- The governor has flexible innumerable powers to deal with a state of emergency and this bill would not change that.
- Senator Gannon asked if a variant had a 50% fatality rate and the governor says no church, under this would it then go to the courts to decide under a scrutiny test.
  - The purpose of this bill is to ensure normal constitutional scrutiny applies. The superior court decision last year said that the court did not find any actions taken by the governor were unconstitutional even under normal constitutional scrutiny. The court stated that as long as the governor acts in good faith with the belief that a suspension of certain civil liberties is important, then the governor may limit or suspend constitutional rights under current law. If a governor determines news coverage of an emergency event was causing general panic and wanted to shut down first amendment right, if he/she were acting in good faith the emergency orders statute would extend that power to them. This bill only says that normal constitutional scrutiny would now apply then.
- Senator Kahn asked about Chapter 9, Section 13 giving the legislature this kind of emergency authority.
  - Would have to look at that. General feeling is that neither the legislature nor the governor has the right to override constitutional rights. In determining the constitutionality of a specific act, the courts are required to look at past precedent and existing law. In the case of the governor or the legislature taking actions in fundamental violation of constitutional rights, those constitutional rights should prevail.
- Senator Carson asked for an explanation of the language on page 2, line 3 in regard to the Binford decision that reads “Yet the superior court exceeded its authority to the extent that it purported to authorize the governor to suspend or infringe upon the New Hampshire Bill of Rights or the United States Constitution.”
  - The constitution is the supreme law of the land and the legislature nor the governor alone or in concert can violate the constitution. Does not believe it is a viable position for the superior court to say that constitutional rights may be overridden by an executive order whether that is established in statute or not.
- Senator Carson stated that she believes the governor’s actions were affirmed by the court under the law that was changed in 2002 in response to 9/11. Asked how the language on page 2, line 30 that reads “To clarify that the general court never intended that emergency powers granted to the governor would be used” was determined.

- With the passage of this bill that would be determined. Does not believe that was the intention of the legislature. The Binford decision did not rule that anything that would normally be unconstitutional was now allowed under the emergency powers. It established that the actions taken by the governor under any circumstances would need to pass constitutional scrutiny, but that the governor may limit or suspend constitutional rights during a state of emergency where a normal constitutional test would not apply.
- Senator Carson asked for further explanation of the language on page 3, line 20 that states, “Notwithstanding the foregoing enumerated powers, civil liberties shall on no account be suspended. Nor shall the United States Constitution or the New Hampshire Bill of Rights be suspended, set aside, or otherwise infringed.”
  - This comes down to the question of the supremacy of the constitution, and this is a clarification of the existing statute. The emergency order statute is intended to grant the governor powers to take action without the acquiescence of the legislature. Believes that is important and was valid for the current situation. After Hurricane Katrina there was a widely publicized set of incidents where law enforcement was seizing people’s firearms and that was ruled as an unconstitutional seizure. In current NH law, that type of seizure is explicitly prohibited. The question comes down to whether or not emergency orders provide a level of law making by executive order that supersedes existing law or the constitution. This legislation takes the position that it does not, and that the governor must still act within the confines of constitutional constraints.
- Senator Carson asked why this was not filed as a CACR.
  - The bill started as a somewhat different bill. It was amended to its current form due to a series of court decisions, including Binford and Mack. It could well be introduced as a CACR. Since this specifically pertains to the emergency order statute though, it probably fundamentally belongs here. It seems clear that the constitutional intent is already there and this just clarifies the statute.

**Representative Silber**

- Disappointed that the Binford decision was not appealed to the supreme court.
- There was a similar situation to this that occurred in NY in late November where the Roman Catholic Diocese of Brooklyn sued the governor for his actions in limiting people’s ability to exercise their first amendment rights. In a 5-4 decision the US Supreme Court said that was not permissible.
- That ruling stated that even in a pandemic the constitution cannot be put away and forgotten.
- Justice Gorsuch gave an opinion stating that government is not free to disregard the first amendment in times of crisis.

- There are three levels of scrutiny the courts apply when constitutional violations are suspected.
- The strictest level is strict scrutiny which is applied when dealing with fundamental rights.
- Senator Gannon asked if on page 3 where it says, “provided that civil liberties shall on no account be suspended,” eliminates even strict scrutiny.
  - The bill says what an appellant court determines it says. In a situation where some action is challenged, it is going to be an argument of both sides and the court is going to have to decide.

**Ian Huyett (Cornerstone) (provided written testimony)**

- For different kinds of constitutional challenges under ordinary legal analysis there are different levels scrutiny.
- Strict scrutiny looks at whether the action is narrowly tailored for a compelling government interest for rights like religious liberties.
- Intermediate scrutiny can apply to other rights.
- The government can do an action if it passes the required level of scrutiny.
- The constitution does not categorically prohibit the government from doing things it needs to do in an emergency.
- Under the suspension theory, during a state of emergency, the courts do not apply any of the tiers of scrutiny, instead they only ask if the action was taken in good faith and was there some factual basis for it.
- Suspension should never be applied.
- The government can act during an emergency while acting under normal scrutiny.
- This bill will not throw out things like mask orders and capacity limits, as they are upheld by most courts under the constitutional analysis.
- For the past 12 months, courts in Maine have been upholding these types of orders under ordinary constitutional analysis.
- The reason this bill is necessary is that the standard under suspension is so broad it will authorize almost any future abuse by the government that could be conceived of.
- *Smith v. Avino* talked about suspending constitutional rights and was the case applied in *Binford*.
- *Smith v. Avino* was based on *Korematsu v. US*, which was the US Supreme Court’s decision upholding Japanese internment.
- The government’s actions in *Korematsu* would easily pass the suspension standard.
- Under a suspension standard any constitutional right can be treated like it does not exist.

**Victoria Gulla (provided written testimony)**

- The founders of the country had concerns that if rights were enumerated then the inalienable rights would possibly be thought to not be considered.

- Shared what President James Madison said about the Bill of Rights which was used for the basis of the ninth amendment.
- The ninth amendment reads. "The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people."
- It was so important to the founders that these rights can not be stopped by the courts or a single judge.
- An emergency should not make the governor able to be a potentate.
- The court is wrong, and this bill will correct the decision.

**Summary of testimony presented in opposition:**

To the Members of the Senate Judiciary Committee,

We ask you to vote in favor of

HB 625 The Late Term Abortion Ban  
HB 542 The Religious Liberty Act  
HB 440 The Civil Liberties Defense Act

All of which protect the fundamental and cherished rights of New Hampshire citizens and are in alignment with our constitution.

The alarming reality of executive tyranny and government encroachment upon the freedoms of our citizens here in New Hampshire, as well as the shocking lack of protection for children with in only days of birth, must be addressed with legislation that ensures all of off our basic rights such as the right life, liberty, and free exercise of religion.

**Subject:** Vote Yes for HB440-A The Civil Liberties Defense Act

Dear Senate Judiciary Committee,

I urge you to vote in favor of HB 440–A. The legislative findings in this proposed amendment explain, in a simple step-by-step manner, the need for the amendment and its modest scope. I hope that, if Committee members look at this proposed amendment, they will see that it's not about any partisan issue. It's simply about the place of civil liberties protections *in general* in our courts during states of emergency.

At the Committee hearing, there was much discussion of specific scenarios in which a Governor might need to take swift action. Strong executive action, however, simply does not require that constitutional rights be suspended or set aside. A Governor who evacuates people to contain a radioactive leak, or even limits certain gatherings, can do so under standard constitutional analysis. In fact, executive actions around the country are routinely upheld by courts under ordinary constitutional scrutiny. New Hampshire does not need to adopt the radical theory that civil liberties are subject to suspension in an emergency and that *no constitutional scrutiny* applies to emergency actions.

It's my hope that it's possible for this bill—as amended—to have some bipartisan support.

It wasn't that long ago that, on the national level, you would see civil liberties advocates on the right and left cooperating to protect some liberties. If a coalition like this is still possible on *any one* civil liberties issue, then it must be possible on the question of whether civil liberties in their entirety are subject to suspension.

I acknowledge that our Governor is not doing the kinds of things Americans might think of when we hear the words "suspend civil liberties." But a future Governor could do precisely those things under our Superior Court cases. The time to fix that problem is now, when what I am saying sounds like a legal abstraction, and not five or ten years from now, when we learn the hard way that it is never a good idea—even temporarily—to codify unlimited power.

I know there are some Republicans who are insistent that the governor should have this power. But, unfortunately, I think their position is dependent upon who the Governor happens to be at this moment. I don't think they would take that view if a Democrat were the sitting governor—and I think everyone has some incentive to place certain basic limits on the state's power in the event that the other side one day wields that power.

In New Hampshire, a future Governor who uses current emergency powers law abusively could be either a Democrat or a Republican. I hope there will be at least some agreement among Democrats and Republicans that the House should act to stop that from happening.

Thank you,

Anthony Duris  
Londonderry, NH

Prior to the Judiciary Committee meeting on Tuesday, 5/11/2021, we want you to know that we support this bill. It reaffirms the legislative role in the NH Constitution...that as the representatives of the people of NH, only the legislature, not the Governor, can suspend our civil rights. The Governor's executive orders under this state of emergency need to come to an end. Let the people of NH determine what are the correct actions to take for their lives and their families' lives.

To whom it may concern,

I am writing to urge the Senate Judiciary Committee to support HB440. Now more than ever we need to affirm that our civil liberties cannot be suspended during a State of Emergency. Giving the governor unchecked power does not make us safer but rather introduces us to a host of new dangers in addition to any threat that could necessitate a State of Emergency. The Constitution is there to protect us from any number of horrors that could be brought upon us by a corrupt governor. We cannot throw the Constitution away.

Sincerely,  
Elizabeth Sylvia

Dear Chair Sharon Carson & Members of Senate Judiciary Committee:

Suspension of civil liberties over the past year during a state of emergency has proved that our founders were right in blessing us with "separation of powers. The legislature must no longer allow their power to be usurped for " checks and balances" are an essential ingredients for liberty that must be enforced. The danger that results when we forget or ignore this wisdom was so eloquently spoken by James Madison:

"The accumulation of all powers, legislative, executive, and judiciary, in the same hands, whether of one, a few, or many, and whether hereditary self-appointed, or elective, may justly be pronounced the very definition of tyranny."

I urge you consider this prophetic insightful warning by the "Father of the Constitution" when Your Committee Hearing on The Civil Liberties Defense Act takes place on Tuesday. It is my belief that a vote for SB-440-A is a vote to uphold both the U.S. Constitution and the NH Constitution. Both documents are Laws that you are sworn to uphold.

Sincerely & Respectfully

HB440-A The Civil Liberties Defense Act CONTACT SENATE : HEARING MAY 11

HB440 as amended This bill will protect civil liberties from being “suspended” during a state of emergency

It’s simply about the place of civil liberties protections in general in our courts during states of emergency. Strong executive action, however, simply does not require that constitutional rights be suspended or set aside.

New Hampshire does not need to adopt the radical theory that civil liberties are subject to suspension in an emergency and that no constitutional scrutiny applies to emergency actions.

I believe, It is never a good idea—even temporarily—to codify unlimited power.

I believe, no matter your political party, it is best for us all, to place certain basic limits on the state’s power.

A future Governor who uses current emergency powers law abusively could be either a Democrat or a Republican.

It is for these reasons, I ask that you vote in favor of HB440-A The Civil Liberties Defense Act.

Dear Ms. Horgan,

Thank you so much for all the work that you and your colleagues do for our state.

I am writing about HB440-A, The Civil Liberties Defense Act. This bill will protect civil liberties from being “suspended” during a state of emergency.

It is about the place of civil liberties protections in general in our courts during states of emergency. Strong executive action does not require that constitutional rights be suspended or set aside.

New Hampshire does not need to adopt the radical theory that civil liberties are subject to suspension in an emergency and that no constitutional scrutiny applies to emergency actions.

I believe that it is never a good idea—even temporarily—to codify unlimited power.

I believe that, no matter what your political party is, it is best for us all to place certain basic limits on the state’s power. Our current governor has shown admirable restraint. However, a future governor could use current emergency powers law abusively.

It is for these reasons that I ask that you to vote in favor of HB440-A.

Thank you for your time.

Sincerely,

Dear esteemed members of the senate judiciary committee,

It's shocking that there even needs to be a "Civil Liberties Defense Act." I had assumed that the Constitutions of the United States and the state of New Hampshire already fit that bill (so to speak). But here we are. The governor, who happens to be a Republican, has suspended our civil liberties. He has argued (successfully, amazingly) in Superior Court that his authority supersedes that of the Constitution.

Now the Republican majority in the House of Representatives, because they care more about liberty than party loyalty, have passed HB 440 as a direct rebuke of Governor Sununu's obvious and clear abuse of power.

I too am a Republican. I voted for Chris Sununu in 2016 and 2018. No more. It is said he will run for U.S. Senate next year. He won't get my vote. I will never vote for him for any office ever again.

This issue is far greater than party. The New Hampshire senate should, in a sane world, vote unanimously for HB 440. Please do.

Hello,

Please support HB 440 and HB 542.

There is no emergency severe enough to warrant giving up our civil liberties or our religious freedoms. People have died to give us those liberties, so even a pandemic which causes death shouldn't allow us to relinquish what was purchased for us by that sacrifice.

It may be reasonable to forego certain liberties during a public health crisis, but the choice to do so must remain at the individual level. No government, business, nor even a religious institution should ever force or coerce individuals to behave a certain way. People should always have the right to choose their own actions, and they should also have uncensored access to all information so they can make fully informed decisions - especially in an emergency.

There has been a totalitarian coup, and American liberty is falling... maybe has fallen. But NH liberty doesn't have to go the same route. The subsidiarity of states may be our last best hope to turn the tide and restore what's lost. NH needs to be part of the solution, not part of the problem. Protect the liberty of individual citizens of NH, and in doing so, you will contribute to the restoration of America as a whole.

Please support HB 440 and HB 542. Your children and grandchildren will thank you.

Dear Jennifer,

I want to emphasize how important NH440 is in maintaining our constitutional rights involving our civil liberties. I have heard the governor mention the need to maintain the state of emergency in order to receive federal money. That is dishonest to lie in order to profit from the federal government. There are other states who received the federal money while not in a SoE. Statistically, there has not been an "emergency" for over 8 months.

Dr Mullis, nobel prize winner for PCR process, clearly communicated with Dr Fauxci, in 1982, about misusing the PCR to identify a virus. Dr Mullis clearly communicated that the CT(cycle thresholds) would only be useful under 30 CT. Yet the state of NH health director admitted that our state was using cycles of 37, 40 and 40. Which according to Dr Mullis and others who use PCR for it's intended purpose, those high CT numbers produce 92% false positives. Even at 70% all the accumulative numbers would be significantly reduced to not qualify for a state of emergency. And now that the experimental biological genetic agent is being injected into people, the CDC now confirms that the CT needs to be adjusted to 28.

This bill will prohibit the suspension of civil liberties, no matter how dishonest the reason for declaring a State of Emergency. This bill clarifies that a State of Emergency does not give the governor or state bureaucrats the authority to suspend law or the Constitution due to a State of Emergency.

I have personally witnessed the emotional damage that has been inflicted on people from NH. Please stop the pain and suffering, of people who have lost their jobs, friends and family. Please pass HB 440 so this will not happen again. I pray God will give you the strength and guidance to help us all.

Dear Jennifer,

While praying to God to give you guidance and strength to Pass HB440, this bill falls right into the same agenda in protecting our rights to practice our religious beliefs. During these very stressful and depressing past 13 months, just when people needed to engage their religion the most, the SoE denied them.

This religious freedom bill will prevent many of the abuses of power during the State of Emergency that affected churches, synagogues, mosques and other religious assemblies.

Please help the people of NH by passing HB 542.

Dear New Hampshire Senators of the Judiciary Committee,

I am writing you tonight to express my full support of HB 440 as a citizen of New Hampshire (Nashua).

It was not until recently that I read the details about the Binford case. My reaction was nothing less than shock. The arguments made by the state attorneys and the conclusion of the court strike fear into the heart of anyone that believes in freedom, our bill of rights, and our constitutions. Restrictions of rights should be taken very seriously and involve more than a single branch of the government. Our elected House Representatives along with you and your fellow Senators should be front and center to any situation that requires restriction of freedoms even in a state of emergency.

We do not live in a dictatorship, but how executive orders have been used makes one feel as if we are. Twenty-five years ago, most people had no idea what an executive order was now, it is a household name. Executive orders are a problem that started to gain steam in the 1990s at the federal level, and it continued at an alarming rate at the turn of the millennium; now, it seems to be unhinged. HB 440 and other bills like it are what we need to start restoring balance to the three branches of our government - restore checks and balances!

Thank you for taking the time to read my testimony.

Kind Regards,  
Brady Owens

Dear Ms Horgan,

I am not sure that our Senators will get this in time. I will email them, but can you also please read this at the hearing tomorrow? Thank you!

I am copying all Senators for when the bill comes to the floor.

Dear Senators in the Judiciary Committee,

Please vote "Yes" on HB 440 as amended by the House which prohibits the suspension of civil liberties during a State of Emergency.

During a State of Emergency, the governor or state bureaucrats do NOT have the authority to suspend civil liberties nor the Constitution. Please pass this bill as amended to make sure that in the future our civil liberties are upheld. Passing this "Civil Liberties Defense Act" will make sure that in the future, no leader in NH will infringe upon the NH bill of rights nor the US Constitution. Protecting civil rights is the NH Government's duty. The 1st Amendment to the US Constitution is never put on hold- not even in an emergency.

By passing HB 440 as amended by the House, you are keeping the judicial branch of government in their box of authority, preventing future infringements. You, as the Legislative body, have the duty and authority to utilize checks and balances, such as this bill. If you do not exercise this ability, you fail NH citizens.

I thank you for passing this HB 440 as amended and protecting my and all NH citizens, so that we can continue to "live free."

Thank you, Representatives Sylvia and Kofalt, for this beautifully and clearly written piece of legislation!

Thank you.

Dear Jennifer Horgan,

I fully support HB 440 and HB 542. Our civil liberties as well as our constitution rights should not of been stripped from us during the state of emergency. Businesses have now been forced to close and there have been many lost already and im sure through covid-19 as well. We should have had the freedom to travel as it brings joy to people to get out of the house. For most im sure it was quite depressing to stay home and not be able to see parents or grandparents. We thr people have the freedom to prosper and that was stripped from those who had businesses. Our religious freedoms shouldnt of been stripped from us either,as going to church helps the soul and asking God for guidance. For some its there family and possibly the only family they have. No church, synagogue, and so on should of been closed. I ask that you support both bills as amended.

I'm disappointed that a great state like New Hampshire is forced to even create a bill such as this in order to respond to the events of the last year plus. However, many people were hurt: economically and with impaired physical and mental health.

To whom it may concern,

I am in support of HB 440. As a business owner and a member of the public, I have seen and experienced first hand the devastation of 2020 and do not wish for there to be a repeat. Statistics over the world have clearly shown that despite the response to the pandemic, the outcomes are very eerily similar, meaning we did not have to destroy lives and businesses to survive COVID 19. I am very concerned that these powers of the Executive order of the State of Emergency, now that they have been unleashed, will be repeatedly used by whomever is in power to the detriment of the public. The legislature is supposed to protect us from the tyranny of the powerful, not expose us to it. Please pass this bill and protect your citizens from further abuses of power.

Regardless of your opinion of this pandemic, the truth is that the powers our governor has are terrifying. You may believe that they were used correctly this time around, but there will come a time when you won't like what the government does in our "best interest". Power in government can always be misused, which is why we should have a legislature that counterbalances that power, rather than relegating it to the chief executive without limits.

Please support this bill, do the right thing, regardless of how you feel about the past year.

Sincerely,

Jennifer Reed

I am in support of this bill. The covid19 "plandemic" was exactly that. It is a genetically modified covid virus. There is an HIV component to this virus, created in a lab for gain of function purpose which was outlawed by congress in 2014, as consensus states chimera research as this was too dangerous to humanity. Dr. fauci, then funneled public resources into the Whuhan china lab to continue this research. Global media was used to invite fear and panic in the general public. This disease has a 99.5% survival rate for people under 70 years without a co morbidity as obesity or diabetes. Forcing people to wear masks is a sign of submission, just as islam requires face covering for women. Ok? Face masks have been found by many studies to be useless in protection from this virus as it is less than one micron in size and there for able to penetrate the masks like a black fly going through a chain link fence. This corporate state madness has to end. I met a 50 year old woman at the laundromat yesterday who told me her friend died after her second "innoculation". This is an experimental viral gene therapy and the patent is owned by Mr. Population Reduction, Bill Gates. This virus getting injected into people can cross the brain/ blood barrier and has caused heart attacks in healthy young males, miscarriage in young women and can cause nerve cell dysfunction and organ dysfunction. I have an associate degree in medical science. I like to think. I like to read. This makes me the enemy of those who lust for control and power. I would go to war against any government that mandated I had to take this phony "vaccine" for this phony plandemic.

**Subject:** Testimony for HB 440 and HB 542

Good morning Jennifer Horgan,

My name is Nicholas Davis, Lead Pastor of At the Cross Church here in Antrim New Hampshire. Unfortunately because of my work schedule, I am uncertain I will be able to attend the testimony for HB 440 and HB 542. I would like to share our churches situation if someone would be willing to submit my testimony for me.

In March of 2020 our Church leadership was visited by our towns Fire Chief who informed us we would no longer be able to gather for Worship due to the threat of contracting or spreading the Corona virus. If I remember correctly, at that time there were under 10 confirmed cases in New Hampshire. Our initial response was disbelief—"what authority could tell us we could not gather and worship our God..... are we not protected by the First Amendment to the Constitution?" We were told if we were to continue gathering after that Sunday's service the department would be forced to pursue a "cease and desist" order!

Turning to the Amendment to HB 440 the general court was never intended that "Emergency Powers" grant to the Governor would be used to suspend civil liberties, and to amend the emergency powers statutes to expressly prohibit the suspension of civil liberties. In fact to ensure that "even in a pandemic, the Constitution cannot be put away and forgotten." Roman Catholic Diocese of Brooklyn v. Cuomo, 592 U. S. \_\_\_\_ (2020) (Gorsuch, J., concurring in the judgment).

I would also point to, "Civil Liberties Protected. No power delegated or otherwise granted by any statute or act of this general court to the governor or any of the governor's subordinates, whether before or after the date of this act, shall be construed to suspend or permit the suspension of civil liberties.

State of Emergency; Powers of the Governor. Amend RSA 4:45 by inserting after paragraph III the following new paragraph: IV. Notwithstanding the foregoing enumerated powers, civil liberties shall on no account be suspended. Nor shall the United States Constitution or the New Hampshire bill of rights be suspended, set aside, or otherwise infringe

From Bill 542: "This bill provides that any prohibition on in-person gatherings during a declared "State of Emergency" shall not apply to houses of worship and provides that the state shall not substantially burden a persons right to the free exercise of religion unless doing so is essential to further compelling governmental interest and is the least restrictive means of furthering that compelling governmental interest."

The Frist Amendment is supposed to guarantee our freedoms concerning religion, expression, and the right to assemble peacefully. Churches have been forced to close their houses of worship---those who have continued to peacefully assemble have been arrested and fined all over our country. This blatant abuse of power has gone on for too long and has been carried out in the name of protecting its people. We the people demand that our freedoms and liberties be restored and further protected going forward.

Lastly, for those of you in elected office who are fighting to truly protect the people we honor and thank you for your hard work and service.

May God Bless America and this great State of New Hampshire!

Nicolas Davis

Dear Ms. Horgan, please disseminate to the committee members.

To the Committee,

I write in support of the eloquent House Bill 440 as Amended, the Civil Liberties Defense Act, which corrects an egregiously wrong NH Superior Court decision in *Binford et al vs Sununu* which allows a Governor to become King and Potentate for a week or for the entirety of his term of office - or perhaps longer should he decide elections are too dangerous. Who knows where it ends, according to *Binford*, there is no end!

In 1891, the US Supreme Court held in *Union Pacific Railway Co. v. Botsford* that "No right is held more sacred, or is more carefully guarded by the common law, than the right of every individual to the possession and control of his own person, free from all restraint or interference of others, unless by clear and unquestionable authority of law." Let's remember that Emergency Authorizations are not law. So where does the Governor get the right to deprive rights as sacred as these?

And what does the common law say about liberty vis-à-vis the individual? As defined by Blackstone, individual liberty is "the power of loco-motion, of changing situation, or removing one's person to whatsoever place one's own inclination may direct; without imprisonment or restraint, unless by due course of law." William Blackstone wrote that the right to "personal security" includes "a person's legal and uninterrupted enjoyment of his life, his limbs, his body, [and] his health," as well as "the preservation of a man's health from such practices as may prejudice or annoy it." [ 1 Commentaries \*125, \*130 ]

These rights were considered given by God, not by government. The US Constitution and the NH Constitutions are designed to create governments to *protect* our inalienable rights. So sacred are these rights, that James Madison was afraid that a Bill of Rights would lead the government to believe that these were the only rights. Indeed, upon introducing the Bill of Rights on the House floor on June 8, 1789, James Madison spoke of the opposition to the idea of a Bill of Rights as "by enumerating particular exceptions to the grant of power, it would disparage those rights which were not placed in that enumeration, and it might follow by implication, that those rights which were not singled out, were intended to be assigned into the hands of the general government, and were consequently insecure." Because he saw that the Bill of Rights would be forthcoming, Madison proposed Amendments in his own words to protect as strongly as possible our inalienable rights. Let's look at the very simple Ninth Amendment which states

"The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people."

Madison wrote and spoke, "First,

That there be prefixed to the constitution a declaration--That all power is originally vested in, and consequently derived from the people.

That government is instituted, and ought to be exercised for the benefit of the people; which consists in the enjoyment of life and liberty, with the right of acquiring and using property, and generally of pursuing and obtaining happiness and safety.

Further, he spoke and wrote,

" The exceptions here or elsewhere in the constitution, made in favor of particular rights, shall not be so construed as to diminish the just importance of other rights retained by the people; or as to enlarge the powers delegated by the constitution; but either as actual limitations of such powers, or as inserted merely for greater caution.

When one recalls the imposition of draconian business closures, some businesses and way of living being told they are non-essential, the imposition of dangerous face masks that deprive clean air, oxygen, that strain hearts and lungs, deprive children of essential development and learning, we can sincerely say that:

James Madison's fears have become a 14-month nightmare that must be corrected immediately with vote in favor of House Bill 440 as amended.

Respectfully,

Victoria Gulla  
Spofford, NH

To All Honorable Members of Senate Judiciary Committee:

The most important lesson we have learned as citizens over the past year, is the age old truism, governments always utilize "crisis" to increase their power. Government must be prevented from suspending liberty during emergency. I urge you to support HB 440.

RE: HB 440 — Civil Liberties Defense Act

---

The legislative findings in this bill explain, in a simple step-by-step manner, the need for the amendment and its modest scope. I hope that, if Committee members carefully consider the text of this bill, they will see that it's not about masks or any other partisan issue. It's simply about the place of civil liberties protections in general in our courts during states of emergency.

No one denies that there are many scenarios in which a Governor might need to take swift action. Strong executive action, however, simply does not require that constitutional rights be suspended or set aside. A Governor who evacuates people to contain a radioactive leak, or even limits certain gatherings, can do so under standard constitutional analysis. In fact, executive actions around the country are routinely upheld by courts under ordinary constitutional scrutiny. New Hampshire does not need to adopt the radical theory that civil liberties are subject to suspension in an emergency and that *no constitutional scrutiny* applies to emergency actions.

This bill should have bipartisan support. It wasn't that long ago that, on the national level, you would see civil liberties advocates on the right and left cooperating to protect some liberties. If a coalition like this is still possible on any one civil liberties issue, then it must be possible on the question of whether civil liberties in their entirety are subject to suspension.

I acknowledge that our Governor is not doing the kinds of things Americans might think of when we hear the words "suspend civil liberties." But a future Governor could do precisely those things under our current emergency powers statutes as they have been interpreted. The time to fix that problem is now, when what I am saying sounds like a legal abstraction, and not five or ten years from now, when we learn the hard way that it is never a good idea—even temporarily—to codify unlimited power.

Dear Senators,

Under our current state laws, an unscrupulous governor would have the right, under the guise of a state of emergency, to strip us of our constitutional rights like freedom of speech, freedom of the press, freedom to a fair trial, and the right to fair elections. We need HB440 to take away the ability of a future governor to suspend our constitutional rights.

State Rep. Matthew Simon speaking in support of HB440 on the House floor said:

We don't know what the future holds, or what kind of person will wield emergency powers. I ask that you shore up our constitutional defenses during a state of emergency so that the responsibility for any potential future abuses will not rest upon our shoulders.

Please vote OTP on HB440 and protect our constitutional rights.

Dear Senate Judiciary Committee,

I am emailing you today asking you to vote OTP in support of HB 440.

The dangers with suspending our constitutional rights in any way invites tyranny. We have seen this time and time again in history. Everyone no matter what the situation has a right to make their own choices and how they feel what best suits them.

In emergency situations instead of suspending constitutional rights offer places of help for people. That way there's a balance between rights and responsibilities.

Never mind the fact that Congress defined a firearm when they passed the unconstitutional 1968 Gun Control Act: 18 U.S.C. § 921 (a) "(3) The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon:.."

Maybe it's just me, but I would find it hard to use a 80% lower with a single slot machined into the fire control cavity as an item that "may readily be converted to expel a projectile by the action of an explosive;", and I personally own the Bridgeport necessary to make the changes. There is nothing that is "readily" convertible about a partially machined AR lower.

Now, Biden is pushing to have the former lobbyist for the Giffords group as the new head of the ATF, someone former Congresswoman Gabrielle Giffords labeled as the "perfect choice".

Strangely, there are some in New Hampshire that want to give the Federal Government FBI and ATF greater responsibility for who can and who cannot purchase firearms in NH. Later this week we will be sharing the dangers of one of the Senate bills going through the State House that proposes to give the Federal Government FBI exclusive control over NH gun owners access to firearms from firearms stores.

We need to build a wall at the state level to stop the federal government from continuing to take away our rights.... And this is where we need your help! The New Hampshire Senate needs to hear from you!

**The Senate Judiciary committee will be voting on 6 critical pro-2a bills on Tuesday (5/25) and they need to hear from you tomorrow! We need the Senators to vote OTP (Ought To Pass) on each of these pieces of legislation. CLICK HERE TO COMPOSE A EMAIL TO THE SENATE**

The following bills are in the Senate Judiciary Committee and need to come out with an Ought To Pass (OTP) recommendation and be passed on the Senate floor.

HB307 "The 2021 2nd Amendment Sanctuary State Act" [relative to the state preemption of the regulation of firearms and ammunition.]

This bill prohibits local officials from creating local gun free zones without General Court Approval. This bill expands what was started years ago. Current law prohibits the creation of local gun free zones, but the statute does not assign a penalty for breaking the law. Local officials seem to have no regard for willfully violating this statute. This bill will correct those willful violations by adding a penalty. This is the most important bill that we need your help to pass.

HB195 "Ending prosecution for display of a firearm under reckless conduct" [adding display of a firearm as an exception to reckless conduct.]

Simply displaying a firearm is not a crime. Threatening someone is an action and that is completely different from being charged for your shirt shifting while getting out of a car or reaching for a box of cereal on the top shelf at the grocery store. No one should be forced to spend their life savings to defend themselves in a court fighting a class B felony for a firearm showing under your shirt while you stoop or bend over to pick up something.

HB196 "Property protection is not a crime" [adding trespass as an exception to the charge of criminal conduct.]

This is a bill to prevent prosecution for what *Mark and Patricia McCloskey did to protect their property*. *No one was hurt when a mob broke through the gates and trespassed on their property, yet the McCloskey's were charged with a crime and the mob damaging their property was not charged for their criminal acts.*

HB197 "Expanded Stand your Ground for vehicles" [relative to the use of deadly force in defense of another.]

Current law prohibits you from defending your loved ones sitting in your car. Under certain conditions when someone is about to commit a felony against you and you are inside your vehicle, you do not have the right to protect yourself or those with you. This bill would restore that chance to defend yourself and your loved ones without fear of criminal prosecution.

HB334 "Constitutional Carry for ATV and Snowmobiles" [relative to prohibitions on carrying a loaded firearm on an OHRV or snowmobile.]

This bill simply solves a small oversight from when Constitutional carry was passed in 2017. Currently you are prohibited from riding a ATV or snowmobile on your own property while carrying a loaded handgun.

HB440 "The 2021 Protect Our Constitutional Rights Act" [prohibiting the suspension of civil liberties during a state of emergency.]

Currently the courts have ruled that the executive branch can strip us of our constitutional protections during a declared "state of emergency". Remember hurricane

Katrina? This bill would correct that.

Dear Judicial Com.

Thank you for your service., especially during these difficult time.

I ask you to vote "no" on HB 440 on the basis that civil rights do not need to be suspended to invoke emergency measures. It is not worth the risk for future generations that might have fight to regain what was so diligently fought for with our lives.

Thanks you,

Dear Senate Judiciary Committee Members,

Please support HB 440 which, if passed, will protect civil liberties from being “suspended” during a state of emergency. I don’t believe the Governor’s attorney’s should have the power to suspend any of our religious or civil liberties.

Dear Senate Judiciary Members,

There are 6 critical second amendment bills that are scheduled to be discussed by your committee tomorrow, May 25, 2021, and I am asking that you vote for/ support each one of them.

Please vote to pass the following 2A bills:

HB307 "The 2021 2nd Amendment Sanctuary State Act" [relative to the state preemption of the regulation of firearms and ammunition.]

HB195 "Ending prosecution for display of a firearm under reckless conduct" [adding display of a firearm as an exception to reckless conduct.]

HB196 "Property protection is not a crime" [adding trespass as an exception to the charge of criminal conduct.]

HB197 "Expanded Stand your Ground for vehicles" [relative to the use of deadly force in defense of another.]

HB334 "Constitutional Carry for ATV and Snowmobiles" [relative to prohibitions on carrying a loaded firearm on an OHRV or snowmobile.]

HB440 "The 2021 Protect Our Constitutional Rights Act" [prohibiting the suspension of civil liberties during a state of emergency.]

These 2nd Amendment bills are critical for our "Live Free or Die" state to give citizens the right to protect ourselves. We would very much appreciate your support in helping to make this happen. It is so important to give law abiding citizens the comfort of safety and security of being able to protect ourselves.

Thank You!

**Subject:** Please suport and pass these six bills in front of your commitee

Dear Senate Judiciary Members,

I am contacting you to voice my support and to urge you to pass six critical bills that are in your committed now. These bills need to progress prior to the Senate Calendar Deadline.

For all of the following bills, I urge you please vote OTP:

HB307

Title: Relative to the state preemption of the regulation of firearms and ammunition.

This helps to guarantee uniformity across the entire state.

HB195

Title: Adding display of a firearm as an exception to reckless conduct.

This is vital for our constitutional carry state.

HB196

Title: Adding trespass as an exception to the charge of criminal threatening.

This bill is one you hope you never have to use, but you want it in place - an insurance policy.

NH has been very safe over the last year while we have watched chaos engulf other areas of the country. Lets keep it that way. This bill protects the people of New Hampshire if that could be forced to protect their property and their family if such emergency would arise.

HB197

Title: Relative to the use of deadly force in defense of another.

This is a common sense law. A person should be able to protect themselves, their family, and friends from the vehicle they occupy as if it was there home. Even though this is rare it has happened in Nashua where attempted car-jackings have taken place in the downtown area.

HB334

Title: Relative to prohibitions on carrying a loaded firearm on an OHRV or snowmobile.

An oversight and should be passed so that it reads like other legislature from the passing of 2017 Constitutional Carry.

HB440

Title: Prohibiting the suspension of civil liberties during a state of emergency.

Last but certainly not least is this bill. I personally feel this one of the most vital pieces of legislature under consideration by the Senate. The contents of this bill should apply to every American, but today we have to focus on the citizens of our state. State of emergency can not be used to set aside our rights. This seems like common sense, but here in NH we had a court rule that the governor had the right to do so - shocking to think this happened in the state with the moto of "Live Free or Die".

I urge you please vote OTP on HB440!

Kind Regards,

Brady Owens  
Nashua, NH

**Subject:** You shouldn't have killed HB440.

Hello,

You shouldn't have killed HB440. Why don't you respect the civil liberties of NH citizens? Are you not yourselves citizens of this state? Do you not wish for your children, grandchildren, loved ones and colleagues to continue living in a free state (and country)?

"Freedom is never more than one generation away from extinction. We didn't pass it to our children in the bloodstream. It must be fought for, protected, and handed on for them to do the same, or one day we will spend our sunset years telling our children and our children's children what it was once like in the United States where men were free." ~Ronald Reagan

Do you want to spend your sunset years telling young people that YOU were the reason they're not free anymore? What an absolute disgrace that would be to your American heritage. What a slap in the face to all the men and women who have died to give us this beautiful home.

Don't continue down this path. Stand for something beyond yourself. Stand for freedom and truth. No matter how hard it gets, no matter what you may need to sacrifice, you will not regret it. You will be able to stand before God and say that you did everything within your power to protect and further the dignity and liberty of those made in His image. You will be able to stand among the saints of heaven, among the heroes of old.

You may think this is a dramatic way to look at things, but this is LIFE. This is what REAL LIFE is about. Everything you do MATTERS. You need to make darn sure you are fighting for the correct side in the bigger scheme of things, because the fate of your eternal soul hinges on the choices you make today.

I don't know if HB440 can be brought back, or if it has to be restarted in a new form. In any case, the principle behind it is subsidiarity & individual liberty, so get with the program and make sure you're upholding those principles in everything you do going forward.

I realize the fun house mirror effect has caused political folks to circle their wagons, but this issue is bigger than them vs us.

Sununu may be my current favorite dog, but that does not mean I am going to let him run off leash.

Take a breath and look around, relax the herd mentality and see the overwhelming truth... R and D citizens expect their civil liberties to be upheld.

I am writing today to express my great disappointment to learn that you as a committee killed Bill HB440.

It is clear that you, as a committee, do not *respect the civil liberties of the citizens of New Hampshire*. This was a very simple step to protect my Constitutional Rights in New Hampshire.

**Shame on you all for not approving this simple and necessary bill! Kindly remember who you work for, WE THE PEOPLE, and start doing your job to protect us as citizens of NH!**

Dear Members of the Senate Judiciary Committee:

Once again I bring to your attention HB 440. I am sad that your committee has killed it. We fortunately have a governor better than Gavin Newsom or Andrew Cuomo. Do you think you are protecting us by voting against our civil liberties? These governors examples should be a "neon sign" to your committee that you are strangling an effort by the House, HB 440 to defend our citizens from future governors such as New York and California have. As the old cliché goes: an ounce of prevention is worth a pound of cure.

Hello,

I've heard the committee decided to retain HB 440, effectively killing it.

This is disappointing. The bill is necessary to rein in the governor as he has trampled on liberties with his emergency orders. Imagine what some governor could do with the powers the courts in the Binford decision says he has?
