10/07

Amendment to HB 251

1 Amend the bill by replacing section 1 with the following:

2

3 1 Public Utilities Commission; Disclosure of Cost of Compliance. Amend RSA 378:49, II(c) to
4 read as follows:

5 (c) Provide such information to electric customers at least annually in conjunction with
6 billing, whether distributed through the mail or online, or other mailed or online communication to
7 customers, as approved by the commission, including the commission's estimated cost on a per
8 kilowatt-hour basis *and estimated annual cost for the average residential ratepayer* for
9 compliance with the electric renewable portfolio standard under RSA 362-F for the prior compliance
10 year. The estimated cost for the compliance year shall be calculated once per year and provided in
11 the customer's December bill, whether distributed through the mail or online. Each customer's bill
12 shall identify the cost as an estimate and provide a link to information about the electric renewable
13 portfolio standard, including its benefits, at the public utilities commission's website. *Utilities*
14 *shall also be required to include an annual estimated cost to be calculated by multiplying*
15 *the average per kilowatt hour cost of the electric renewable portfolio standard under RSA*
16 *362-F for the prior compliance year by the average residential monthly consumption of 625*
17 *kilowatt hours.* The costs for a utility to provide this information shall be recovered from electric
18 customers through the distribution rates of the respective electric distribution utility.

Amendment to HB 251
- Page 2 -

2023-0548h

AMENDED ANALYSIS

This bill requires the public utilities commission to provide an estimated annual cost of compliance with electric renewable portfolio standards in customer's electric bills.

HB 251 - AS INTRODUCED

2023 SESSION

23-0317

10/08

HOUSE BILL **251**

AN ACT relative to the cost of compliance with disclosure of electric renewable portfolio standards.

SPONSORS: Rep. D. Thomas, Rock. 16; Rep. Vose, Rock. 5; Rep. Notter, Hills. 12; Rep. Dunn, Rock. 16; Rep. Lewicke, Hills. 36; Rep. Harley, Rock. 30; Sen. Carson, Dist 14

COMMITTEE: Science, Technology and Energy

ANALYSIS

This bill provides for the public utilities commission to identify its estimated total cost of compliance with electric renewable portfolio standards in customer's electric bills.

Explanation: Matter added to current law appears in ***bold italics***.
Matter removed from current law appears ~~[in brackets and struckthrough.]~~
Matter which is either (a) all new or (b) repealed and reenacted appears in regular type.

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Three

AN ACT relative to the cost of compliance with disclosure of electric renewable portfolio standards.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 1 Public Utilities Commission; Disclosure of Cost of Compliance. Amend RSA 378:49, II(c) to
2 read as follows:

3 (c) Provide such information to electric customers at least annually in conjunction with
4 billing, whether distributed through the mail or online, or other mailed or online communication to
5 customers, as approved by the commission, including the commission's estimated [~~cost on a per~~
6 ~~kilowatt-hour basis~~] **total cost in dollars** for compliance with the electric renewable portfolio
7 standard under RSA 362-F for the prior compliance year. The estimated **total** cost for the
8 compliance year shall be calculated once per year and provided in the customer's December bill,
9 whether distributed through the mail or online. Each customer's bill shall identify the **estimated**
10 **total** cost [~~as an estimate~~] and provide a link to information about the electric renewable portfolio
11 standard, including its benefits, at the public utilities commission's website. The costs for a utility to
12 provide this information shall be recovered from electric customers through the distribution rates of
13 the respective electric distribution utility.

14 2 Effective Date. This act shall take effect 60 days after its passage.

February 16, 2023

HOUSE OF REPRESENTATIVES

REPORT OF COMMITTEE

The Majority of the Committee on Science, Technology and Energy to which was referred HB 251,

AN ACT relative to the cost of compliance with disclosure of electric renewable portfolio standards.

Having considered the same, report the same with the following amendment, and the recommendation that the bill OUGHT TO PASS WITH AMENDMENT.

Rep. Douglas Thomas

FOR THE MAJORITY OF THE COMMITTEE

**MAJORITY
COMMITTEE REPORT**

Committee:	Science, Technology and Energy
Bill Number:	HB 251
Title:	relative to the cost of compliance with disclosure of electric renewable portfolio standards.
Date:	February 16, 2023
Consent Calendar:	REGULAR
Recommendation:	OUGHT TO PASS WITH AMENDMENT 2023-0548h

STATEMENT OF INTENT

This bill, as amended, adds more transparency to the electric bill on the yearly cost of the Renewable Portfolio Standard at no additional cost to the ratepayer. Currently, the estimated cost is displayed on the December bill based on just kilowatt hours (e.g., \$0.000624). This bill would require the estimated cost in dollars based on an average of 625 kilowatts per month be shown on the December electric bill. For example, if this was in effect this year, the 2022 December electric bill would show the average residential ratepayer paying about \$39 using an average of 625 kilowatts per month. In other words, this gives the ratepayer another, but easier, way to visually see the charge. If that ratepayer used an average of 1250 kilowatts that year, it's easier to see the charge would be around \$78. All four electric utilities and the Department of Energy supported this addition in the interest of transparency.

Vote 11-9.

REPORT OF COMMITTEE

The Minority of the Committee on Science, Technology and Energy to which was referred HB 251,

AN ACT relative to the cost of compliance with disclosure of electric renewable portfolio standards.

Having considered the same, and being unable to agree with the Majority, report with the following resolution:

RESOLVED, that it is INEXPEDIENT TO LEGISLATE.

Rep. Ned Raynolds

FOR THE MINORITY OF THE COMMITTEE

MINORITY COMMITTEE REPORT

Committee:	Science, Technology and Energy
Bill Number:	HB 251
Title:	relative to the cost of compliance with disclosure of electric renewable portfolio standards.
Date:	February 16, 2023
Consent Calendar:	REGULAR
Recommendation:	INEXPEDIENT TO LEGISLATE

STATEMENT OF INTENT

This bill would require electric service providers to notify their customers once per year, on their December bill, of their direct annual “cost of compliance” with the electric Renewable Portfolio Standard (RPS). Half of the committee believes that this is incomplete information and would be unfair to distribute, without providing comparable information about the resulting savings in electricity costs that renewable generation, supported by the RPSs of New Hampshire and the other five New England States, delivers to all ratepayers by reducing electricity demand across the region, especially during daytime demand peaks. The RPS is a policy that requires each electric service provider to include, in the total amount of electricity they procure on customers’ behalf each year, a certain percentage from renewable sources, including solar, wind, hydro, and biomass. Because the RPS’ implementation mechanism is a requirement that electric service providers purchase Renewable Energy Certificates (RECs), which represent electricity generated from renewable sources, it is easily possible to calculate this cost. RECs represent an important source of revenue for private investors, businesses, and public entities who build or own renewable generation sources, and so the REC market sustains and increases the availability of renewable generation sources. The contribution of renewable generation to meeting total regional demand, especially at peak times, is significant, and calculable, but requires the expertise of utility system/energy economists analyzing a year’s worth of real-time data correlating hourly renewable generation with demand and wholesale market-clearing prices. Because the electricity utility system and its operation, allocation of costs and distribution of benefits is such a complicated subject, not easily or well understood among the public, this bill would exploit and even deepen that lack of understanding by providing a one-sided, short-sighted perspective on the RPS. Rather than presenting a one-sided perspective, the minority committee believes that policy makers should provide both sides to the story if there will be RPS information provided to ratepayers.

Sen. Carson

TESTIMONY

* Use asterisk if written testimony and/or amendments are submitted.

- Rep. Thomas - change RPS to not per kilowatt basis on the bill. Career not seeing either - annualized cost examples showed lack of transparency.
- Griffin Roberge - DOE - Neutral. DOE has RPS on it's website - \$39/year. Law eventually would indicate utilities. Would post annual rate: \$53m per year. Benefits of RPS on website.

Respectfully Submitted,

Representative Bernardy, Clerk

Nick Krakoff

There is no justification for this bill. There is no requirement under NH law for utilities to display the total cost of capital expenditure projects, like transmission or distribution upgrades, on a utility bill. Consequently, there is no justification for treating the renewable portfolio standard differently and requiring the utilities to display the total cost of compliance with the renewable portfolio standard on a utility bill.

Susan Taylor

I oppose this bill because it would provide less transparency for reporting the cost of compliance with the RPS..

Sara Smith

Donna Reardon

This bill provides for a less informative format for reporting the cost of compliance with the RPS.
