**REPORT OF COMMITTEE**

**The Committee on Health, Human Services and Elderly  
Affairs to which was referred HB 425-FN,**

**AN ACT repealing the statute relative to medical  
freedom in immunizations. Having considered the  
same, report the same with the following resolution:**

**RESOLVED, that it is INEXPEDIENT TO LEGISLATE.**

**Rep. Leah Cushman**

**FOR THE COMMITTEE**

## **COMMITTEE REPORT**

Committee:	<b>Health, Human Services and Elderly Affairs</b>
Bill Number:	<b>HB 425-FN</b>
Title:	<b>repealing the statute relative to medical freedom in immunizations.</b>
Date:	<b>March 8, 2023</b>
Consent Calendar:	<b>CONSENT</b>
Recommendation:	<b>INEXPEDIENT TO LEGISLATE</b>

### **STATEMENT OF INTENT**

This bill would repeal RSA 141-c:1-a, which provides that “Every person has the natural, essential, and inherent right to bodily integrity, free from any threat or compulsion by government to accept an immunization. Accordingly, no person may be compelled to receive an immunization for COVID-19 in order to secure, receive, or access any public facility, any public benefit, or any public service from the state of New Hampshire, or any political subdivision thereof.” The law currently provides protection from over-reaching mandates by government on its people and the majority of the committee believes this law has served the state well with no negative consequences and should remain in effect.

Vote 18-2.

**TESTIMONY**

\* Use asterisk if written testimony and/or amendments are submitted.

**\*Rep. Timothy Horrigan – Strafford #10 – Supports**

Q: Rep. Layon – Only COVID 19 – Does COVID 19 vaccine effective?

A: Not 100%, it helped

Q: Rep. Schapiro – Illness and treatments evolved – if we repeal what will happen

A: Still peeking

Q: Rep. Cannon – Were there any prosecutions?

A: Unknown, I don't know of any

**Hon. Melissa Blasek – Rebuild NH – Opposed**

- I cannot think of reason to repeal

Q: Rep. Polozov – Did we push treatments aside in favor of pushing the vaccine?

A: No known treatment

**William Rogers – Opposed**

- We have more questions, but repealing isn't going to help

Respectfully submitted,

Rep. Bill King, Clerk

The medical =freedom act must stay in full force and effect.

Susan Goodhue

I am opposed to repealing the medical freedom in immunization statutes

karen keane

a perfectly good bill is already in place. The Medical Freedom in Immunizations Act that prohibits Covid vaccine status being a basis to receive public benefit. State universities were one way this law was applied and no student attending a NH state school was required to receive the Covid vaccine. This bill seeks to repeal this law. Please oppose.

thank you!

Representative John M Potucek

I DO NOT support this Bill because I believe it is a VERY BAD Bill for the residents/citizens of New Hampshire who DO NOT need it.

Robert Early

Please consider my strong opposition to HB425.

No going back to the days of tyranny. Medical freedoms for all!

Roy Sims

Please oppose this bill.

Julie Sims

Please oppose this bill.

Richard Brooks

As a citizen of this great country we are guaranteed freedom. This includes the freedom to make our own medical decisions which must be done as we are the only one that knows our own medical needs to best protect ourselves. Removing that freedom by mandating certain medical procedures could jeopardize the health and safety of anyone of us. All medical decisions must be solely decided by the individual.

Anne Paine

I very strongly oppose bill HB 425. A. Paine

Louise Harrigan

PLEASE OPPOSE Bill HB 425

Gail Laker-Phelps

I firmly believe that each person should make their own health and reproductive decisions! For some reason our current and recent governing bodies feel that this is their business, but only with regard to female citizens! Why no regulation on male citizens? Let's treat ALL of our New Hampshire citizens / residents equally and PASS CACR2.

Judith Wherett

Please protect the Medical Freedom in Immunizations Act. Immunization decisions especially for covid should be made between a person and their doctor. Government should not be involved in wide-scale, absolute medical mandates that are not necessarily in the best interests of the people of this state. In addition, keeping medical freedom alive makes our state and its universities more attractive to those who are against such government medical overreach whether because of their own health conditions (such as vaccine reactions) or for philosophical reasons. Thank you.

Bryan Peter

Personal freedom and bodily autonomy are natural rights that belong to every human being and the government shall have no power to limit those freedoms, track or monitor the personal medical information, or require any medical procedure for any person in NH.

Darlene Cartier

One of RebuildNH's achievements in 2021 was supporting the passage of the Medical Freedom in Immunizations Act that prohibits Covid vaccine status being a basis to receive public benefit. State universities were one way this law was applied and no student attending a NH state school was required to receive the Covid vaccine. This bill seeks to repeal this law. There is NO way this law should be repealed! NO student (or anyone else for that matter) should be forced to receive any vaccine against their will in any situation for any reason. Everyone has the right to body autonomy, and this bill MUST BE OPPOSED. Please OPPOSE this bill!!!

Alec Cedrone

Listen, government coercion is terrorism plain and simple, you can call it what you want but the government is on OUR watch list and ya'll are becoming increasingly extreme. This UN agenda 2030 crap needs to die, now!

Do not repeal this law. Our freedom is too important.

I hope you will oppose this bill and keep our freedom of choice regarding our own medical needs.  
Thank you

I oppose this bill and urge you to vote NO on this bill. Persons, who educate themselves of the risks and benefits of any particular immunization are informed, should be free to make the decision to take the immunization or not. Each person should remain free to make this decision in NH and it is your responsibility as lawmakers to make sure that this freedom is not taken away. Thank you

Greetings from Sullivan County:

One of the better laws from 2021 is the Medical Freedom in Immunizations Act.

This bill would repeal one of the few GOOD things from 2021.

NO. ITL. HECK NO.

I wonder how many healthy kids would have heart problems had the legislature not wisely prevented it by preserving Freedom in Immunizations.

Russ Payne

Last years passage of the Medical Freedom in Immunizations Act passed into law was another constitutional interposition to stop federal government usurpation of power in medical freedom. Do not let this progress protecting liberty be reversed. I urge that you support HB 425. For prohibiting public benefits to students because of vaccine status is the "moral equivalent" of blackmail enforced by law.

This bill is a disgrace. It has no place in our State where freedom reigns and where individual rights come first. The sponsor should be ashamed to introduce such a thing in NH. Best, for this individual, looking to control others, to consider living in CA or NY. Sad day that this person holds and elected office.

April Naftali

vaccine status should never be tied to a school receiving public benefit. Vaccines would then be promoted for financial gain.

Elaine Plante

Support the Medical Freedom in Immunizations Act. Do not let this Act get repealed. Oppose this bill.

James Gardner

Every Granite Stater is entitled to their medical freedom regarding what they put within their own bodies. Why is this bill even being proposed? This bill's sponsors are more than welcome to move to Massachusetts.

Elyse Gallo

As a licensed health services provider, I vehemently OPPOSE – HB 425, repealing the statute relative to medical freedom in immunizations. As we now are seeing the medical side effects and immune system deterioration in many who were pressured into receiving novel COVID 19 vaccines, we obviously need to leave the decision to receive invasive medical procedures to the patient and his or her doctor, without public administrators or legislatures becoming inappropriately involved in forcing these private medical decisions. Medical procedures ALWAYS need to be considered in the context of an individual's personal premorbid and genetic conditions, chemical sensitivities and wellness. It is not an institutional decision.

Thank you.

Laura Condon

Vaccines carry with them known and unknown risks of failure and harm, including disability and death. We live in a 1st world country and it is time for all people to come into a 1st world reality that we have many, modern ways of promoting wellness and preventing illness including secure homes, indoor plumbing, electricity, a fresh food supply, clean drinking water, child labor laws, etc. It is an antiquated and barbaric practice in this country, in this day and age to impose any vaccine mandates on anyone. Where there is risk, there must be choice. The NH Legislature was wise to finally provide choice and medical freedom in immunizations. Let's not go backwards. This bill deserves and ITL.

Please oppose HB 425. As a registered nurse and one who has closely followed the CDC/DHHS's mandates and COVID-19 M-RNA injection recommendations for such, it is blatantly evident that, in 2023, NH legislators should not be voting in favor of repealing RSA 141-C:1-a. It is widely known that adverse side effects and deaths have been documented in CDC's VAERS reporting system after receiving the M-RNA injections. States are slowly but surely coming to the realization that such mandates are not advisable and have removed the mandates. NH led the way.

Please ITL HB 425.

Thank you for your service.

We need to have health decisions be based on science and the advice of medical experts rather than politics. No-one is forced to have vaccinations but they also don't have the right to expose others in public spaces to deadly diseases which are preventable.

Shall not be infringed !

We must have free will with regard to immunizations. There's been a staggering amount of adverse effects that have occurred during the last two years - that the CDC and others in government/medical field are unwilling to acknowledge. We must have informed consent.

I could not more strongly oppose this bill which has provided some protection against the most dangerous biological product of our lifetimes. That anyone would want to repeal this protection demonstrates the evil in the world is right here under this dome. This bill violates the Nuremberg Code of 1947. **Testimony In Favor Of HB 425-FN****“AN ACT repealing the statute relative to medical freedom in immunizations.”**

NH House Health & Human Services Committee

Rep. Timothy Horrigan (Strafford 6); February 16, 2023

There is no natural, legal or constitutional right to spread any communicable disease, especially not a respiratory virus like COVID-19 which has killed over 1.14 million Americans. The pandemic has slowed down a little since I introduced an identical bill almost exactly a year ago, when the death toll stood around 900,000. “Only” a quarter of a million Americans have died from COVID in the last 52 weeks. But even a quarter of a million is a horrific loss of life. The pandemic is the worst catastrophe in US history in terms of loss of life, even worse than the Civil War.

The worldwide death toll is 6.78 million and counting.

The COVID vaccines may not be 100% effective or 100% safe, but they are very good. There is a lot we still don't know about the virus, but we do know for sure that it is extraordinarily contagious and dangerous. There are now some treatments for it, but there is no cure.

I represent Durham, which is the home of UNH. Like other colleges and universities, UNH took a very aggressive approach to fighting the pandemic, beginning with masking up and social distancing, and continuing with testing for the virus. When the COVID vaccines became available almost exactly two years ago, UNH did everything in its power to make sure that everyone in its close-knit student body, as well as the faculty and staff, gets immunized. If UNH was a private school, it could have simply enacted a rule requiring everyone on campus who can be vaccinated to actually get vaccinated. However since UNH is a public institution, it was and still is forbidden by RSA 141-C:1-a from taking that step. This makes no sense.

Our public colleges and universities have the same responsibilities as any other institution when it comes to protecting their students and their employees from COVID-19. They should have the right to require vaccinations, if that is what is needed. The same goes for non-educational government institutions, as well.

Please repeal RSA 141-C:1-a by passing HB 425.

Testimony for HB 575  
Relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions  
House Health, Human Services and Elderly Affairs Committee  
February 16<sup>th</sup>, 2023

The NH Department of Health & Human Services (DHHS) opposes HB 575.

Chairman MacDonald and Members of the Committee,

My name is Dr. Ryan Tannian, and I am a registered pharmacist and Chief of the Bureau of Infectious Disease Control with the NH DHHS' Division of Public Health Services (DPHS). I am also joined by Dr. Benjamin Chan who is an infectious diseases physician and the NH State Epidemiologist. We are here to speak in opposition to HB 575 relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions. **If enacted, HB 575 will have potentially wide-ranging negative and unintended consequences for NH DHHS, other state agencies, counties, cities, towns, schools, and many other partners, as discussed below.**

First, the proposed legislation is unclear and lacks sufficient detail to know what is intended by requiring "human clinical trials." There are different types of studies and different outcomes that can be measured. Some studies are conducted to evaluate safety of a pharmaceutical product, while others might focus on measuring the effectiveness; some studies evaluate both. There are also different ways to measure the effectiveness of a product. **The wording in the proposed legislation is vague with unclear intent.**

The most significant consequence of this proposed legislation is that NH DHHS and various other governmental and quasi-public partners would not be able to purchase, promote, or distribute potentially many different routinely recommended and life-saving vaccines or other medical therapies. The Department believes this legislation was proposed because of concerns about the COVID-19 bivalent vaccine formulations. The updated COVID-19 bivalent vaccines followed a process similar to the approval of annual influenza vaccines. A comprehensive collection of trials studying COVID-19 vaccine safety and effectiveness were reviewed by the FDA and CDC before the COVID-19 bivalent vaccines became available in September 2022. These included human clinical trials of previous monovalent vaccine formulations, and human clinical trials of different bivalent vaccine formulations, including beta-variant bivalent vaccines and BA.1 bivalent vaccines. The significant amount of data that had accumulated on COVID-19 vaccine safety and effectiveness is summarized in a [NH Science Brief](#) that was published by NH DHHS in September 2022 shortly after COVID-19 bivalent vaccines became available. Subsequent real-world vaccine effectiveness studies have since confirmed the superior immune response and protection of bivalent vaccines (compared to the original monovalent formulation) against COVID-19 and severe disease.

Because the COVID-19 bivalent vaccine authorization followed similar processes and criteria for how the updated influenza vaccine is approved each year, if HB 575 is enacted, it is likely that NH DHHS and our

Chairman MacDonald

February 16, 2023

Page 2 of 2

partners would be unable to purchase, promote, or distribute the annual influenza vaccine for patients and staff, including at county nursing homes or correctional facilities, New Hampshire Hospital, Gelndiff Home, the New Hampshire State Veteran's Home, and the Manchester or Nashua Public Health Departments. This is contrary to the mission of these individual organizations and DHHS.

Also, depending on how this proposed legislation is interpreted, there are other routine childhood and adult vaccines that periodically get updated for which there isn't always new "clinical trial" data that reports vaccine efficacy. Rather, some vaccines are approved and recommended by inferring vaccine effectiveness through comparison of immune system responses to show that a new vaccine produces an antibody response that is similar, or "non-inferior," to an older version of the vaccine. This is very similar to what was done during the initial bivalent vaccine roll-out. Updated Pneumococcal vaccines in children (e.g., Prevnar 13, Vaxneuvance) is one example. If this proposed legislation passes availability of these types of routine vaccines, that prevent invasive life-threatening bacterial infections, could be adversely impacted.

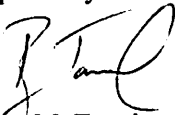

HB 575 will also likely lead to higher patient costs for some childhood vaccinations. NH DHHS is able to purchase childhood vaccines at a reduced cost through our Vaccines for Children (VFC) program, and then distribute them to healthcare providers so that the cost of childhood vaccines can be minimized for families. If NH DHHS and other partners are unable to purchase, promote, or distribute certain vaccines (like the COVID-19 or influenza vaccines), then cost to individuals, communities, and the overall healthcare system will increase. **Although COVID-19 is the leading cause of death by infectious or respiratory diseases in children, the Department does not intend to make COVID-19 or influenza vaccinations a requirement for school attendance.**

An additional unintended consequence of HB 575 is the effect on an FDA provision known as expanded access, also referred to as compassionate use. Compassionate use is a mechanism in which patients with serious or immediately life threatening diseases or conditions gain access to medical products, to include drugs, biologics, or medical devices, which are outside the scope of the clinical trial after meeting certain criteria. These are products undergoing clinical trials, but in specific desperate situations they can be used under "compassionate use" when no alternative therapy options are available. Situations involving compassionate use include when patients suffer from conditions such as muscular dystrophy, ALS, and certain types of cancer.

Lastly, HB 575 specifies "voluntary" human clinical trials, and DHHS is unable to identify the intent or reason for such a provision. As specified in Federal Law, 21 CFR § 50.20, the use of involuntary human subjects in clinical trials is prohibited and is considered unethical. Also, HB 575 would "recognize the public health aspects to drugs and food under RSA 125:10 and RSA 125:10-a" and the intent of this statement and consequences are unclear.

In summary, we are opposed to HB 575 because the wording is vague and intent is unclear. This will likely lead to many unintended consequences, decrease access to vaccines and other therapeutics, and increase healthcare costs. There is already a robust federal regulatory and approval process to assess both the safety and effectiveness of vaccines and other therapeutics.

Respectfully Submitted,

Ryan M. Tannian, PharmD, RPh, MBA  
Chief, Bureau of Infectious Disease Control

Benjamin Chan, MD, MPH

<b>Expenditures</b>	\$0	Indeterminable Decrease	Indeterminable Decrease	Indeterminable Decrease

**METHODOLOGY:**

This bill repeals RSA 141-C:1-a, which states that no person shall be compelled to receive an immunization for COVID-19 in order to receive public benefits from the State of NH or any of its political subdivisions. The Department of Health and Human services anticipates no fiscal impact to that Department as a result of the bill.

Currently, RSA 141-C:21 makes it a misdemeanor for anyone to violate any provision of RSA 141-C. Accordingly, to the extent that an individual would otherwise be charged with violating RSA 141-C:1-a, this bill may result in a reduced number of charges being brought. There is no method to determine the fiscal impact on expenditures. However, the entities impacted have provided the potential costs associated with misdemeanor penalties below.

Judicial Branch	FY 2023	FY 2024 through 12/31/23	FY 2024 (Starting 1/1/24 with repeal of Felonies First)
Violation and Misdemeanor Level Offense	\$119	\$122	\$122
Appeals	Varies	Varies	Varies
Judicial Council	FY 2023		FY 2024

Public Defender Program	Has contract with State to provide services.	Has contract with State to provide services.
Contract Attorney – Misdemeanor	\$300/Case \$70 administrative fee \$100 incarceration fee (If applicable)	\$300/Case \$70 administrative fee \$100 incarceration fee (If applicable)
Assigned Counsel- Misdemeanor. Travel time to court does not count toward the cap.	\$90/Hour up to \$2,000	\$90/Hour up to \$2,000
Assigned Counsel - Supreme Court Appeal	\$125/Hour up to \$10,000	\$125/Hour up to \$10,000
It should be noted that a person needs to be found indigent and have the potential of being incarcerated to be eligible for indigent defense services. Historically, approximately 85% of the indigent defense caseload has been handled by the public defender program, with the remaining cases going to contract attorneys (14%) or assigned counsel (1%). Beginning in March of 2021, the public defender program has had to close intake of new cases due to excessive caseloads. Due to these closures, the contract and assigned counsel program have had to absorb significantly more cases. The system is experiencing significant delays in appointing counsel and the costs of representation have increased due to travel time and multiple appointments.		
NH Association of Counties	FY 2023	FY 2024
County Prosecution Costs	Indeterminable	Indeterminable
Estimated Average Daily Cost of Incarcerating an Individual	\$105 to \$125	\$105 to \$125

Many offenses are prosecuted by local and county prosecutors. When the Department of Justice has investigative and prosecutorial responsibility or is involved in an appeal, the Department may be able to absorb the cost within its existing budget. However, if the Department needs to prosecute significantly more cases or handle more appeals, then costs will increase by an indeterminable amount.
