Who is neutral on the bill: None

Summary of testimony presented:

Lisa Scott

- Ms. Scott testified that she came to discuss the changes thought through to SB 147 and the reasons behind those changes.
- Requested that a first change would be that one of the six members on the board of dental examiners have a permit for deep sedation and general anesthesia, that way the board will always have a member that has the expertise, regarding sedation, to advise the board on those matters. Also, to provide oversight on the

Anesthesia and Sedation Committee, which is being requested through legislative changes.

- Requested an Anesthesia and Sedation Committee, as there formerly was such a committee until it was disbanded.
- Provided responsibilities, this committee would advise the board of dental examiners on sedation issues and would recommend rules and legislative changes regarding sedation. Ms. Scott continued saying this committee would also be suggesting the requirements that a licensee would need to satisfy to get a facility and individual permit for sedation. This committee would also create the simulated exams that would be used to examine the licensees by the inspectors to perform site inspections and comprehensive evaluations for sedation permits.
- Ms. Scott provided the committee with two permits. The first being the facility permit which would be appropriate for practices of multiple practitioners. Ms. Scott testified that this permit would prevent redundant inspections for a site that has already had a site inspection due to bringing on another provider. The second form was the facility hosting permit, which is relative to a dental office contracting with a sedation provider, such as an MD, anesthesiologist, a CRNA, or a dental anesthesiologist, the non-dental provider would not come under the board's jurisdiction. Ms. Scott continued that this permit would be able to track where providers are being used and to set requirements for the facility to make sure that sedation is being delivered in safety.
- Ms. Scott acknowledged that the board has already established the requirements to attain these permits and that these processes are being maintained.

Linda Tatarcik,

- Ms. Tatarcik testified that her role as the public member on the board of dental examiners is to represent the public as an informed consumer and an advocate for well thought out rules in regard to keeping the public safe.
- Ms. Tatarcik stated that the intention of this bill is to make anesthesia safer and more available.
- Ms. Tatarcik urged the committee to pass SB 147.
