CONSENT CALENDAR REPORTS

COMMERCE

SB 58-FN, relative to reimbursement rates for low-dose mammography coverage.

Ought to Pass, Vote 5-0.

Senator Soucy for the committee.

This bill clarifies the reimbursement rates for low-dose mammography screenings. This bill ensures that providers of low-dose mammography screenings shall be reimbursed at rates accurately reflecting the resource costs specific to each modality, including any increased cost of a 3-D breast tomosynthesis. The legislation will ensure that all carriers consistently follow the intent of the law passed last year.

SB 252-FN, relative to the detection and prevention of financial exploitation of vulnerable adults.

Ought to Pass with Amendment, Vote 5-0.

Senator Cavanaugh for the committee.

This bill permits broker-dealers and investment advisors to delay disbursements from accounts of eligible individuals when such broker-dealers and investment advisors, or other qualified individuals, reasonably believe that the requested disbursement may result in financial exploitation. This bill's purpose is to allow a qualified individual acting in good faith to delay or prevent a transaction they deem is the result of financial exploitation against a vulnerable adult under their supervision. This bill, as amended, will not affect the reporting requirements of RSA 161-F.

EDUCATION AND WORKFORCE DEVELOPMENT

SB 65, relative to the start of the school year.

Inexpedient to Legislate, Vote 5-0.

Senator Ward for the committee.

This bill would have prohibited public schools from beginning the school year before Labor Day. There were a number of concerns raised from the tourism industry regarding not having the work force they need when students go back to school before Labor Day. The committee felt that those concerns would best be addressed at the local level between the communities, school boards, and businesses.

SB 107-FN, relative to extended foster care under the child protection act.

Ought to Pass, Vote 5-0.

Senator Morgan for the committee.

This bill provides for the extension of foster care services for young adults between the ages of eighteen and twenty-one, as long as they are students or working. Studies have shown that for each year of extended foster care, there is an increased probability of the young adult graduating high school, going to college, getting a job, and saving money. The committee determined from testimony given, that these young adults, some from abusive backgrounds, are more successful when they have a home to go to until twenty-one.

SB 136, relative to classification of students for tuition purposes in the university system.

Ought to Pass, Vote 5-0.

Senator Kahn for the committee.

This bill removes the rulemaking requirement for the adoption of criteria by the university system Board of Trustees when determining if a student is classified as in-state or out-of-state for tuition purposes. The Joint Legislative Committee on Administrative Rules suggested the USNH board seek legislation clarifying their authority under the USNH Charter, RSA 187-A:16 and SB 136 will give that clarification. This authority parallels the statutory authority granted to the NH Community College System.

SB 139, establishing a committee to study options for lowering student debt.
Ought to Pass with Amendment, Vote 5-0.
Senator Dietsch for the committee.

This bill establishes a committee to study options for lowering student loan debt in New Hampshire. Due to the high debt New Hampshire students face after college, they struggle with loan payments as high as \$1,000 a month. This delays young, educated citizens' starter home and car purchases. The amendment adds the New Hampshire Higher Education Assistance Foundation to the list of Organizations the committee will receive testimony and potential solutions from.

SB 142-L, requiring feminine hygiene products in school restrooms.
Ought to Pass with Amendment, Vote 5-0.
Senator Morgan for the committee.

This bill requires school boards to make feminine hygiene products available, free of charge, in girls restrooms located in public schools. There is a growing number of female students that are unable to afford feminine hygiene products. These students are often too embarrassed to ask the nurse for products and as a result some stay home from school. This affects their emotional well being as well as their educational career.

SB 144, requiring the lottery commission to notify the department of education about revenue.
Ought to Pass, Vote 5-0.
Senator Dietsch for the committee.

This bill provides the Department of Education notice of Keno games revenue by September 1 of each year and defines the basis for keno games revenue distribution as the amount collected in the previous fiscal year. This will allow Department of Education to adequately distribute funds to participating school districts with full day kindergarten.

SB 268-FN, providing in-state tuition rates at any university system of New Hampshire institution for any person registered to vote in this state.
Inexpedient to Legislate, Vote 5-0.
Senator Ward for the committee.

This bill would provide in-state tuition to any student who is registered to vote in this state, at any University System of New Hampshire Institution. The fiscal impact to the University System would be a loss of \$140 million dollars. The committee found that this impact could not be absorbed by the University System without a negative impact on the current residents of New Hampshire.

ENERGY AND NATURAL RESOURCES

SB 121-FN, relative to acquisition rights and easements at Weeks Crossing Dam in the town of Warren by the department of environmental services.
Ought to Pass, Vote 5-0.
Senator Giuda for the committee.

This bill gives the Department of Environmental Services acquisition rights and easements at Weeks Crossing Dam in the town of Warren. The Weeks Crossing Dam was critical to Warren as a recharge resource for fire suppression for both the woodlands and numerous houses nearby. The pond created by the dam was also a major tourist attraction for the town, bringing much needed reserves to local small businesses. Reconstruction of the dam will help the town and the state. Warren has committed to operating, maintaining, and taking ownership of the dam after it is rebuilt, relieving the state of any future fiscal obligations for the dam.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

SB 25, relative to exemptions from real estate practice license requirements.
Inexpedient to Legislate, Vote 5-0.
Senator Reagan for the committee.

This bill would have exempted persons engaged in rental, leasing, and management of residential housing units for an owner, business, or other entity under a formal management agreement from licensure under the Real Estate Practice Act. The Committee recommends Inexpedient to Legislate on the bill at the request of the prime sponsor.

SB 26, relative to the New Hampshire health care quality assurance commission.
Ought to Pass with Amendment, Vote 5-0.
Senator Rosenwald for the committee.

This bill changes the name of the New Hampshire Health Care Quality Assurance Commission to the New Hampshire Health Care Quality and Safety Commission to highlight the focus of safety in the Commission's work. Furthermore, the bill makes the Commission permanent in recognition of the importance and success of the work the Commission has done since its enactment in 2005. The Committee amended the bill to clarify the membership and to add the CEO of the New Hampshire Hospital in order to further enrich the work of the Commission.

SB 28, relative to an active employee member of the retirement system independent investment committee. Ought to Pass with Amendment, Vote 5-0.

Senator Carson for the committee.

This bill would have required that one of the members on the Independent Investment Committee of the Retirement System be an active member employee appointed by the Governor and Council from a list of nominations. The bill is amended to add an additional member to the Independent Investment Committee who will be a nonvoting member, which will add valuable insight to discussions and provide information to members on a regular basis.

SB 31, relative to membership of the New Hampshire community development advisory committee. Ought to Pass, Vote 5-0.

Senator Cavanaugh for the committee.

This bill adds an executive director of a regional development organization to the Community Development Advisory Committee. The regional development organizations play a vital role in the community and they utilize a significant portion of CDAC's products, making them an important voice to add to the Committee.

SB 114, establishing a committee to study state oversight and regulation of life coaches.

Ought to Pass, Vote 5-0.

Senator Rosenwald for the committee.

This bill establishes a committee to study state oversight and regulation of life coaches. This committee shall investigate, evaluate, and provide recommendations regarding whether a need to form a regulatory or oversight structure of life coaches is necessary, as no oversight currently exists.

SB 115, establishing a commission to study the business environment for mental health providers in New Hampshire.

Ought to Pass with Amendment, Vote 5-0.

Senator Carson for the committee.

This bill establishes a commission to study the business environment for mental health providers. The enactment of this commission will allow for the opportunity to fully examine the work that has already been done on barriers in the state and consider what more needs to be done. The Committee amended the bill reducing the number of senators and adjusting the reporting deadlines in order to give the commission a more appropriate timeframe to complete their work.

SB 208, renaming the adjutant general's department to the department of military affairs and veterans services.

Ought to Pass, Vote 5-0.

Senator Chandley for the committee.

This bill changes the name of the Adjutant General's Department to the Department of Military Affairs and Veterans and establishes divisions within that Department, including the Office of Veterans and Veterans Council Services. The language of this bill will simply codify the Executive Order passed last year by Governor Sununu that has proven to be an effective and beneficial adjustment to support New Hampshire's veterans.

SB 233, relative to the classification of certain state employee positions.

Ought to Pass, Vote 5-0.

Senator Reagan for the committee.

This bill is a request of the Joint Committee on Employee Classification that deletes and inserts positions and salary grades for certain unclassified state officers. Enacting this change will simply align position titles in multiple state departments with their pay grades.

JUDICIARY

SB 183-FN, relative to salaries of certain circuit court judges.

Ought to Pass, Vote 5-0.

Senator Carson for the committee.

This bill repeals the salary differential for the associate justices of the Concord, Nashua, and Manchester district courts. The salaries for these positions are currently established in the budgetary process, making the language of RSA 502-A:6, I-a irrelevant as the Judicial Branch adheres to the salaries established in the budget process.

TRANSPORTATION

SB 39, relative to the repair of roads not maintained by a municipality.

Ought to Pass with Amendment, Vote 5-0.

Senator Birdsell for the committee.

This bill provides that, in the absence of an express agreement or requirement governing the maintenance of a private road, each residential owner who enjoys a common benefit from the road shall contribute to the cost of its maintenance. Some residents who live on private roads are not able to access home financing if there is no maintenance agreement for that road. With this language in state statute, the VA and Fannie Mae would be more willing to back home financing.

SB 53-L, relative to maintenance of roads and highways to summer cottages.

Ought to Pass, Vote 5-0.

Senator Ward for the committee.

This bill will allow a town, by majority vote of the legislative body, to extend the exemption period for maintenance of highways to summer cottages. The committee heard testimony that due to snowpack, certain towns have difficulty meeting the current requirements for clearing and opening these roads by April 10. This bill will allow them to vote to extend the period of time during which they are not required to maintain the roads from November 15th through April 30th.

SB 54-FN, relative to the road toll bond requirements for licensed fuel distributors.

Ought to Pass with Amendment, Vote 5-0.

Senator Watters for the committee.

This bill originally allowed for an exemption for certain licensed fuel distributors from obtaining a surety bond for road toll liability. The expense of a surety bond for fuel distributors can be an excessive burden that prevents a business from expanding and investing in its employees. An amendment was offered by the New Hampshire Department of Safety to allow for the release and reduction of the surety bond for road toll liability on certain licensed fuel distributors and provides for the revocation or suspension of such fuel distributors' license in certain instances. This amendment was supported by representatives from the fuel distribution industry.

SB 55, authorizing the Harris Center for Conservation Education to issue decals for multi-use decal plates.

Ought to Pass, Vote 5-0.

Senator Ward for the committee.

This bill would allow the Harris Center for Conservation Education to issue decals for multi-use plates. The Harris Center, located in Hancock, will be celebrating its 50th anniversary in the fall of 2019. It serves as an educational and research facility that conducts important outreach to local schools on scientific and environmental initiatives. Last year, the Harris Center reached 3,000 students in 28 schools. Additionally, the Harris Center serves as a land trust that protects or conserves nearly 25,000 acres in New Hampshire. Giving this non-profit the ability to enter New Hampshire's decal program will allow them to promote their activities and illustrate all the good work they do for our local communities.

SB 132, naming a lake in Meredith as Lake Wicwas.

Ought to Pass, Vote 5-0.

Senator Hennessey for the committee.

This bill would name a lake in Meredith as Lake Wicwas. Locally, the lake has historically been spelt as Lake Wicwas. The most common misspelling is Lake Wickwas with the inclusion of a "k." This has not only created local frustration, but confusion for tourists and travelers. With the increasing use of GPS-enabled navigation systems, phones, and cameras, the proliferation of non-preferred spelling is expanding exponentially. Senate Bill 132 would restore the lake to its original naming, prevent further misspelling, and correct an annoyance to local residents and groups like the Lake Wicwas Association and the Wicwas Lake Grange 292.

SB 238-FN, relative to the registration of motor vehicles owned by veterans.

Ought to Pass, Vote 5-0.

Senator Birdsell for the committee.

This bill will exempt certain veterans from the municipal portion of vehicle registration fees in addition to the state portion, which they are already exempt from paying. The exemption can be applied toward the registration of only one vehicle. The bill also adds new classifications of Pearl Harbor survivors, Purple Heart recipients, and POWs to be eligible for this exemption.

SB 264-FN, relative to motorcycle registration for a period of less than one year.

Inexpedient to Legislate, Vote 5-0.

Senator Ward for the committee.

This bill sought to allow individuals to register a motorcycle for a 6 month period of their choosing. The committee heard testimony that this would result in a significant loss of revenue for municipalities. It could also create a slippery slope toward additional revenue loss if other types of seasonal vehicles were to be given the same option.
