Sen. Bragdon statement on NH Primary

(Concord) Senate President Peter Bragdon issued the following statement today regarding Nevada's encroachment on the New Hampshire Primary:

"If Nevada does not move its caucus date back, I am calling on the presidential candidates to boycott the Nevada caucuses. The New Hampshire Primary has played a highly unique role in the presidential nominating process for decades. Nevada's encroachment does not serve the candidates or, even more importantly, the voters in a productive way."
