Daniels critical of bill veto for reasonable building inspector requests

Senator Gary Daniels (R-Milford) issued the following statement on the Governor's veto message for SB 446.

"As prime sponsor of SB 446, I am disappointed with Governor Hassan's veto of this legislation making a simple change to protect contractors from potential building inspector overreach and unreasonable requests for information, which can cause significant project delays."

"This change would have maintained building inspector's ability to review the integrity and safety of a project while establishing basic parameters that would allow builders to finish their work in a timely manner."

"This bill received no testimony in opposition while in committee and passed both the House and the Senate on voice votes."
