AN ACT relative to Medicaid to schools.

Be it Enacted by the Senate and House of Representatives in General Court convened:

6:1 Statement of Purpose and Intent. The general court acknowledges the critical importance of ensuring the quality, accessibility, and sustainability of Medicaid services provided in the school setting, as well as ensuring that billing under the program meets all state and federal requirements. The purpose of this act is to strengthen the state's Medicaid to schools and Medicaid to schools for Medical services programs consistent with the Social Security Act. Accordingly, this act shall provide the department of health and human services with the additional authority to adopt administrative rules that maximize the availability of federal financial aid to schools under New Hampshire's Medicaid program. This act also provides a more efficient pathway to allow qualified professionals certified and credentialed by the department of education who are currently providing medical services in public schools to be licensed by medical and health care boards. Finally, this act further facilitates the provision of medical services in the school setting to students who are enrolled in participating public schools and Medicaid, thereby furthering the education and health of New Hampshire's students.

6:2 Medicaid to Schools Program. RSA 186-C:25, I-III are repealed and reenacted to read as follows:

The program shall be voluntary and is designed to assist children with disabilities by maintaining them in their own homes and communities. The program shall be administered in the same, or similar, manner as the Medicaid to schools for medical services program established in RSA 167:3-k. This subdivision is intended to provide Medicaid funding for services which, in the absence of such funding, nevertheless qualify as special education or related services under this chapter. It is not the intention of this subdivision to increase school district responsibility or liability beyond what is required by other sections of this chapter.
II. A reimbursable service under this section shall be:

(a) A covered New Hampshire Medicaid state plan service determined by a Medicaid qualified provider to meet accepted standards of medical practice for the service, or such other necessary health care, diagnostic services, treatment, and other measures described in section 1905(a) of the Social Security Act through the Early and Periodic Screening Diagnosis and Treatment (EPSDT) benefit if medically necessary, meaning that the item or service is reasonably calculated to prevent, diagnose, correct, cure, alleviate, or prevent the worsening of conditions that endanger life, cause pain, result in illness or infirmity, threaten to cause or aggravate a handicap, or cause physical deformity or malfunction, and no other equally effective course of treatment is available or suitable for the student or individual requesting the medically necessary service;

(b) Provided to a Medicaid enrolled child after obtaining parental consent;

(c) Provided by a Medicaid qualified provider; and

(d) Provided in compliance with applicable state and federal law and rules.

III. Services provided under this subdivision shall:

(a) Offer the least restrictive setting for children receiving the services.
