$\$ 2,000$ A Week For Life, a scratch game that sold for $\$ 20$ per ticket and was the $2^{\text {nd }}$ highest seller for the 2016 fiscal year, bringing in sales of approximately $\$ 8.9$ million.

December 30, 2016
To the Citizens of the State of New Hampshire, The Governor and Executive Council of the State of New Hampshire, and The New Hampshire Lottery Commission:

We are pleased to submit the Comprehensive Annual Financial Report of the New Hampshire Lottery Commission (Lottery) for the fiscal year ended June 30, 2016. The finance department of the Lottery has prepared this comprehensive report. Effective July 1, 2015, Chapter 276, Section 121 of the Laws of 2015, transferred authority for the regulation of racing and charitable gaming in the State from the former Racing and Charitable Gaming Commission (RCGC) to the Lottery. Hence the Lottery assumed all the powers, rights, duties and responsibilities granted to the RCGC. The Lottery is now comprised of the Lottery Division and the Racing and Charitable Gaming Division (RCGD). Accordingly, the financial statements include the consolidated operations of the two divisions. Management assumes full responsibility for the completeness and reliability of all information presented in this report. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position, results of operations, and cash flows of the Lottery. All disclosures necessary to enable the reader to gain an understanding of the Lottery's financial activities have been included.

## Internal Control

Management of the Lottery is responsible for establishing and maintaining internal controls designed to ensure that assets are protected from loss, theft, or abuse and to ensure that the accounting systems allow compilation of accurate and timely financial information. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that the valuation of cost and benefits requires estimates and judgments by management.

Access to the Lottery's office and Instant ticket warehouse is limited through high-level security. The Lottery has segregated responsibilities to enhance controls over accounting procedures relative to personnel and payroll; purchasing and accounts payable; sales and accounts receivable; and general ledger. Management personnel maintain oversight and approval authority over all areas of operation. The Lottery's independent auditors review significant and relevant areas annually and issue a report to the Legislative Fiscal Committee on internal control and compliance in conjunction with their financial audit.

The Lottery manages a ticket inventory and controls the payment of prizes. As such, various precautions (internal controls) are taken to ensure the integrity and security of lottery operations.

They are as follows:

- High-level security at the Lottery's headquarters restricts access to office and warehouse areas to authorized Lottery personnel.
- Security cameras are located in key locations throughout the inside and outside of the Lottery headquarters building, recording activity at all times and monitored by security personnel.
- Criminal record checks are performed on all new lottery employees and other employees performing services at Lottery headquarters.
- All scratch tickets are printed utilizing special inks, dyes, and security codes, among other security measures.
- Prize checks are printed with special non-erasable ink.
- Drawings held at Lottery headquarters have a designated secure drawing room, which is monitored 24 hours a day. The actual drawings are executed according to detailed procedures, witnessed by certified public accounting firm personnel, and videotaped by primary and backup security cameras.
- Credit checks are performed on all Lottery retailers and contractors.
- Various levels of access and other controls are provided within the computer system.

The Lottery's financial statements have been audited by the State of New Hampshire Office of Legislative Budget Assistant, Audit Division (LBA). The LBA has issued an unmodified ("clean") opinion on the Lottery's financial statements for the year ended June 30, 2016. The independent auditor's report is presented as the first component in the financial section of this report.

Management's discussion and analysis (MD\&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD\&A complements the financial statements and should be read in conjunction with this transmittal letter.

The Lottery, as a department of the State of New Hampshire, is included within the State's Comprehensive Annual Financial Report. This report presents all activities of the Lottery in a single enterprise fund and does not include data or information related to any other state agency or fund.

## Profile of the Lottery

## Lottery Division:

The lottery industry in the United States is comprised of 44 state lotteries, the District of Columbia, the U.S. Virgin Islands and Puerto Rico. The New Hampshire Lottery Commission (Lottery) was created in 1963 through the enactment of New Hampshire Revised Statutes Annotated (RSA) 284:21-a, for the sole purpose of raising revenues to help fund education in New Hampshire. The first tickets went on sale in March of 1964, making New Hampshire the
first modern state-run lottery. A three-member Commission is appointed for a staggered term of three years by the Governor and Executive Council to oversee the Lottery.

The Lottery headquarters is located in the capitol city of Concord, which is in the central part of the state. The Lottery operates enterprise activities as a department of the State of New Hampshire. These activities include the sale of lottery tickets to the public and all necessary support functions. All profits are used exclusively for state aid to education in New Hampshire.

The Lottery is required to submit a biennial operating budget to the Governor for approval. The budget is further submitted to the Legislature for its approval and is ultimately included in the State of New Hampshire's operating budget. Due to the nature of the Lottery's activities, the majority of its cost of sales expenses, such as prizes, vendor fees and retailer commissions, are not included in the budget. The Lottery budgets for approximately $4 \%$ of its total expenses that consist primarily of salaries and benefits, rental expenses, advertising and Instant ticket printing costs. Financial management staff consistently monitors adherence to budgeted appropriations.

The New Hampshire Lottery Commission provides customers the opportunity to participate in a variety of Instant and on-line lottery games. The Lottery is a member of three lottery joint ventures: the Tri-State Lotto Commission, comprised of New Hampshire, Maine, and Vermont Lotteries; the Multi-State Lottery Association, which is comprised of many state lotteries, and as such, operates a number of on-line games under those jurisdictions; and Lucky for Life, which, as of December 30, 2016, is comprised of twenty-two states' lotteries and the District of Columbia. The following paragraphs describe the products offered by the Lottery.

## INSTANT GAMES:

Instant Games were introduced in New Hampshire in 1975 with a ticket called 'Lucky X'. Instant games are played by scratching the latex covering off the play area on the ticket. There are several ways to win on an Instant or "scratch" ticket, including matching three like dollar amounts, symbols or letters, or adding up numbers to a specified total. If the correct combination appears, the player becomes an "instant winner" without having to wait for the results of a drawing (although some tickets have a component that allows entry into a drawing). The Instant games offer a wide variety of game themes and ticket prices. Players can win anywhere from $\$ 1$ to $\$ 2$ million, depending on
the game. The Lottery offered 107 Instant games during fiscal year 2016 with ticket prices ranging from $\$ 1$ to $\$ 25$.

## TRI- STATE GAMES:

Tri-State Pick 3/Pick 4 has been offered by Tri-State since 1996 and prior to that by New Hampshire since 1977 and is one of the Lottery's most consistently played games. Players can win twice a day, once at mid-day and again in the evening. For as little as fifty cents or as much as $\$ 5$ a player can purchase a ticket for a chance to win. This is the only game that offers tickets for less than a dollar. Players select a three or four digit number and select from several different play options. Numbers are drawn twice a day, seven days a week, for fixed prize amounts ranging from $\$ 2.50$ to $\$ 25,000$, depending on the dollar amount bet. Although the Pick 3/Pick 4 game is considered a mature product, it continues to maintain strong sales through its loyal players.

Tri-State Megabucks was the first multi-state product to be offered by any jurisdiction in the United States. It was also the Lottery's first lotto style game and year after year it maintains a faithful player base. Megabucks has undergone some significant enhancements since its introduction in September 1985. The Megabucks game began with a 6 of 30 matrix and a weekly drawing each Saturday. The matrix changed to 6 of 36 in 1986 and to 6 of 40 in 1988. In 1990, the Tri-State Lotto Commission added a second jackpot drawing on Wednesdays. More changes faced the Megabucks game in 1997 with the addition of a bonus number, a new matrix of 6 of 42, and a guaranteed jackpot of $\$ 500,000$. On July $26^{\text {th }}$ of 2009 Megabucks changed to

Megabucks Plus, with guaranteed starting jackpots of $\$ 1$ million and lower tier prizes ranging from $\$ 2$ to $\$ 30,000$. The cost of a ticket went from $\$ 1$ to $\$ 2$. Players now choose five numbers from a matrix of 41 and one Megaball number from 1 to 6 . A jackpot winner may designate how the jackpot will be paid whether in cash or as an annuity in 25 annual installments. Although this game is over 30 years old, it still remains a profitable product for the Lottery, with a committed player base. This game is available as a subscription.

## FAST PLAY

Fast Play is a Tri-State online game that began in June of fiscal year 2006. It is an online game that plays like an Instant game and is generated by the lottery terminal at the time of purchase. There is no waiting for a drawing like the other online games. An individual plays the game and it is determined if they have won instantly. Each Fast Play game has a shelf life of approximately three months and over the course of the year, up to fifteen different Fast Play games are offered which keeps the product fresh and exciting. Examples of the different games offered during the fiscal year are Money Tree, Fabulous 5 and Blackjack Bonanza. Tickets cost $\$ 1, \$ 2$, or $\$ 5$ each depending on the game. Top prizes range from $\$ 500$ to $\$ 5,000$. Additionally, in April of 2015 the Lottery introduced progressive jackpot Fast Play games for sale at \$1, \$2, and $\$ 5$ price points. The Lottery's web site, www.nhlottery.org explains how each game plays.

The Tri-State game called Gimme 5 was launched in May of 2013 in conjunction with the Vermont and Maine State Lotteries. Tickets are sold for $\$ 1$ per play and players choose five numbers from a matrix of $1-39$, or an Easy Pick. Players are permitted to purchase up to 30 draws on one ticket and drawings are held every Monday, Wednesday, and Friday at the New Hampshire Lottery Headquarters. Prizes include $\$ 2$, $\$ 7$, $\$ 250$, and a jackpot of $\$ 100,000$.

## MULTI STATE LOTTERY ASSOCIATION (MUSL) GAMES:

New Hampshire Powerball is an online game jointly operated by the 37 member lotteries of the MUSL. A total of 47 lotteries participate in the sale of Powerball tickets, including the 37 MUSL members (which consist of 34 state lotteries, the U.S. Virgin Islands, Puerto Rico, and the District of Columbia) and the Mega Millions group (which consists of 10 state lotteries). This game was introduced in New Hampshire in November 1995, although it has been operated by the MUSL Association since April 1992. The Powerball game holds the record for the largest national lottery jackpot of $\$ 1,586,000,000$. Players select one set of five numbers and one additional number designated as the "powerball" for each draw. The matrix is " 5 of 69 " for the set and "1 of 26 " for the powerball. The minimum jackpot is $\$ 40$ million, which rolls over in the event that no ticket matches all five numbers and the powerball. Powerball offers eight secondary prizes of fixed amounts ranging from $\$ 4$ to $\$ 1,000,000$ for a $\$ 2$ bet. For an extra $\$ 1$ a player can Power Play their bet for the chance to increase their winnings, except for the jackpot prize, up to $\$ 2,000,000$. A jackpot winner may designate how the jackpot will be paid whether in cash or as an annuity in 30 annual installments. Drawings are held in Tallahassee, Florida at the Florida Lottery's studio on Wednesdays and Saturdays. This game also offers ticket sales through subscriptions.

New Hampshire Hot Lotto is sponsored by the MUSL. Currently 14 state lotteries and the District of Columbia participate in the Hot Lotto game. The cost of a ticket is \$1. Similar to other draw games, each ticket has a two-part play. First, the player selects five numbers from a matrix of 1 to 47 and then one hot ball number from a matrix of 1 to 19 . Players may pay an additional $\$ 1$ per bet to add the "Sizzler" feature, which will increase their winnings, except for the jackpot, by three times. Drawings are held on Wednesday and Saturday evenings. The jackpot starts at $\$ 1$ million and grows until someone wins. The most recent Hot Lotto game offers an all cash, tax
free jackpot. In addition to the jackpot, there are eight other ways to win from $\$ 2$ up to $\$ 30,000$ for a $\$ 1$ bet. This game also offers ticket sales through subscription.

New Hampshire Mega Millions sales began on January 31, 2010. Like Powerball, Mega Millions is a MUSL game although prior to January 31, 2010 any state that sold Powerball could not sell Mega Millions and vice versa. The game began in August 1996 as "The Big Game". There are a total of 45 jurisdictions where you can play Mega Millions: 43 states, the U.S. Virgin Islands, and the District of Columbia. Players purchase a ticket for \$1. Players select one set of five numbers and one additional number designated as the "mega ball" for each draw. The matrix is " 5 of 75 " for the set and " 1 of 15 " for the mega ball. The minimum jackpot is $\$ 15$ million, which rolls over in the event that no ticket matches all five numbers and the mega ball. Mega Millions offers secondary prizes of fixed amounts ranging from $\$ 1$ to $\$ 1,000,000$ for a $\$ 1$ bet. Mega-Plier is a feature added to the game giving players the chance to increase their winnings, except for the jackpot prize, by up to five times. In order to upgrade to a Mega-Plier, a player needs only to pay an extra dollar. A jackpot winner may designate how the jackpot will be paid whether in cash or as a graduated annuity in 30 annual installments. Drawings are held in Atlanta, Georgia on Tuesdays and Fridays. This game also offers ticket sales through subscriptions.

## LUCKY FOR LIFE GAME:

Lucky for Life sales began on March 11, 2012. It is a multi-jurisdictional game originally operated by the six New England state lotteries but expanded in January, 2015 and now includes 22 states and the District of Columbia. Players choose five numbers from a matrix of 1 to 48, and one Lucky Ball from a matrix of 1 to 18, Easy Pick remains a choice as well. For \$2
per chance players have the opportunity to win from 10 different prize levels from $\$ 3$ up to $\$ 25,000$ a year for life, or the top prize of $\$ 1,000$ a day for life. Drawings are held every Monday and Thursday evening at the Connecticut Lottery headquarters.

## Racing and Charitable Gaming Division (RCGD):

The RCGD of the Lottery is charged with the regulation, enforcement, and compliance of parimutuel wagering, charitable bingo and lucky-7 ticket sales and games of chance under three different and distinct statutes.

In 1933 RSA-284 was enacted that allowed for public wagering on live horse racing. Subsequently in 1971 and 1980, RSA 284 was amended to include greyhound racing and simulcast wagering respectively. In 2009 live greyhound racing in New Hampshire was banned by the legislature. Live horse racing was discontinued in New Hampshire by the track due to unfavorable economic conditions and has not been re-instated to date.

In 1949 RSA-287 was enacted to allow bingo games and sale of lucky-7 tickets for charitable purposes only. In 1977 RSA 287-D was enacted to allow for Games of Chance for charitable purposes. RSA 287 was repealed and re-enacted in 1983 with various amendments as RSA 287-E.

RCGD licenses and regulates two race tracks and an off-track simulcast facility. All three facilities conduct simulcast wagering only. Additionally over 300 organizations and related entities are licensed to conduct Bingo games, sell Lucky 7 tickets and host games of chance including cash poker and table games such as black jack, roulette, craps, money wheel etc.

All revenues received by the RCGD net of administrative costs are required by statute to be transferred to the Education Trust Fund.

## Local economy

New Hampshire is a small state with a population of approximately 1.3 million. According to the United States Census Bureau, in 2013 New Hampshire had the highest standard of living in the U.S. and between the years 2009-2013 New Hampshire ranked as the fourth highest state for having adults aged 25 and above with high school degrees or better. The U.S. Census Bureau also ranked New Hampshire as the $8^{\text {th }}$ highest state for adults having college degrees or better (as of the writing of this report, 2013 data is the most recent). In 2014, several national news agencies, such as USA Today and The Washington Post have utilized data collected through research conducted by the Organization for Economic Co-operation and Development (OECD) to rank states by quality of life and found that New Hampshire ranked as the top state in the U.S.

There is no sales tax, use tax, broad-base income tax, or capital gains tax in New Hampshire and the Fiscal Times ranked New Hampshire $7^{\text {th }}$ best in America for overall tax in 2015. The Tax Foundation, a nonprofit fiscal policy research group, ranked New Hampshire's 2011 local and state tax burden as $44^{\text {th }}$ in the United States ( 1 being the highest tax burden), at $8.0 \%$ of income; the U.S. average of state and local tax burden for 2011 is $9.8 \%$ of income (2011 was the latest data reported for local and state tax burden). New Hampshire also offers a favorable overall tax environment for businesses, ranking $7^{\text {th }}$ best out of 50 for overall tax climate in fiscal year 2015 and $8^{\text {th }}$ best in fiscal year 2014 according to the Tax Foundation. A state's business tax climate measures how each state's tax laws affect economic performance.

For July 2015, according to the Economic and Labor Market Information Bureau, the seasonally adjusted unemployment rate for New Hampshire was $3.7 \%$, compared with the national average of $5.3 \%$. This rate for New Hampshire was a decrease from 4.4\% in July, 2014.

The most recent data from The Bureau of Economic Analysis (BEA) states New Hampshire's per capita personal income ranks 9th highest in the nation for calendar year 2014, at \$52,773, which is higher than the United States average of \$46,049. New Hampshire's 2014 current dollar Gross Domestic Product (GDP ${ }^{1}$ ), reported by BEA, ranked $40^{\text {th }}$ in the United States ( 1 being the highest GDP) at $\$ 71.6$ billion. In 2014, real GDP ${ }^{1}$ for New Hampshire grew $2.3 \%$ compared to $2.2 \%$ growth for the nation and the compound annual growth rate was $1.0 \%$ for New Hampshire, compared to the compound annual growth rate for the nation of $1.4 \%$. BEA reported that in 2014 the largest industry in New Hampshire was finance, insurance, real estate, rental, and leasing accounting for $23.1 \%$ of New Hampshire GDP. The second largest industry in New Hampshire was professional and business services at $11.8 \%$ of New Hampshire GDP. According to BEA the largest contributor to real GDP growth in New Hampshire for 2014 was professional and business services; the second largest contributor to real GDP in 2014 was the information sector.

According to the New Hampshire Business Resource Center, New Hampshire offers exceptional quality of life because of its overall low taxes, low crime, high quality health care, good schools, affordable housing, cultural opportunities, location, and environment. In New Hampshire, within reasonable driving distance, one can visit beautiful mountains, the ocean, or the city, attracting a wide range of active, talented, and creative people, who in turn attract diverse industries. All of these favorable qualities suggest continued growth for New Hampshire.

[^0]The following graphs were taken directly from the BEA website for Bearfacts-2014-New Hampshire

Top Five State Industries as a percent of Total GDP, 2014

The New Hampshire Lottery does well in per capita sales. When compared with the other lotteries in the United States, New Hampshire ranks $16^{\text {th }}$ highest in per capita sales for fiscal year 2016. Unaudited fiscal year 2016 traditional game sales for all U.S. lotteries' increased $9 \%$. According to LaFleur's Magazine, a research company that reports facts and statistics on lotteries, all of the 44 lotteries saw increases in fiscal year 2016 sales, as compared with fiscal year 2015. LaFleur's also estimates U.S. lotteries paid approximately $\$ 35.6$ billion to prize winners and $\$ 19.8$ billion to the government in fiscal year 2016. According to LaFleur's, instant ticket sales for U.S. lotteries were up $\$ 3$ billion or $7 \%$ to $\$ 43.8$ billion. Draw game sales, like Mega Millions and Powerball, were also up $12 \%$ to $\$ 27.7$ billion for fiscal year 2016 from fiscal year 2015. Instant ticket sales represent $61 \%$ of the U.S. Iotteries total traditional sales. Powerball increased $66 \%$ while Mega Millions decreased 9\% during fiscal year 2016.

## Long-term financial planning

The Lottery as a department of the State of New Hampshire follows a two year budget process and is limited by State regulations in long term financial planning. The Lottery transfers all estimated net income, on a monthly basis, to the State Education Trust Fund.

New Hampshire does not have a sales tax or income tax and sources of State revenues are limited. The Lottery plays a significant part in the State revenue process by producing revenue to fund education in the State. As such, the Lottery always explores additional gaming options for ways of producing higher revenues. The traditional lottery games, such as online lotto-style games are greatly affected by the amount of the jackpot.

## Relevant financial policies

All investments of the Lottery's excess cash are made by the New Hampshire State Treasury Department, which is responsible for the investment of all State funds. RSA 6:8 sets forth the policies the State Treasurer must adhere to when investing State funds. The types of investments authorized, with the approval of the Governor and Council, include obligations of the United States Government, legal investments for savings banks and trust companies, savings accounts, participation units in the public deposit investment pool, and various certificates of deposit.

All profits from Lottery operations are designated for education by the State Constitution. Once a month, Lottery net income is transferred to the Education Trust Fund from investments made from Lottery cash flows by the State Treasurer.

Prize payments due winners for jackpot prizes awarded under Megabucks are fully funded by investments in U.S. Treasury STRIPS held by the Tri-State Lotto Commission (Tri-State). Treasury STRIPS are fixed-income securities sold at a significant discount to face value and offer no interest payments because they mature at par. STRIPS are backed by the U.S. government and offer minimal risk. The payments due winners for jackpot prizes awarded under Powerball and Mega Millions are satisfied through securities purchased by the Multi-State Lottery Association (MUSL). MUSL purchases U.S. government obligations to fund jackpot prizes, which are held in irrevocable trust or securities clearing accounts. The Lottery does not record a liability for jackpot awards which are payable in installments from funds provided by Tri-State or MUSL. Jackpot/grand prizes for Lucky for Life winners are payable in installments and are satisfied through insurance annuities purchased by MUSL. MUSL purchases insurance annuities, on behalf of the member states, based on either $\$ 365,000$ or $\$ 25,000$ per year (depending on first or second prize level won) deferred annuity paid annually on the anniversary of the claim date, for the lifetime of the jackpot/grand prize winner. Accordingly, the Lottery does not record a liability for jackpot awards which are payable in installments from funds provided by MUSL or the other party lotteries. The Lottery does accrue a current amount due for its proportionate share of prizes and expenses.

## Upcoming initiatives

The Lottery is prohibited by statute from offering new forms of gambling. The Lottery continues to work on new advertising initiatives, sales promotions, and changes to current game styles in order to increase sales revenues.

## Awards and acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the New Hampshire Lottery Commission for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2015. This was the sixteenth consecutive year that the Lottery has received this prestigious award. In order to be awarded a Certificate of Achievement, a
government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current CAFR continues to meet the Certificate of Achievement Program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

This CAFR reflects our commitment to improve and maintain the Lottery's financial statements and record keeping systems in conformity with the highest standards of accountability. This report also reflects the Lottery's commitment to maintaining the public's trust through high ethics and uncompromising integrity. The dedicated efforts of the entire Lottery team, especially those in the finance department are greatly appreciated. We would also like to recognize Commission Chair Debra Douglas, Commissioner Paul Holloway, Commissioner David Gelinas, and the Governor and Executive Council of the State of New Hampshire, for their support, guidance, and dedication in operating the New Hampshire Lottery Commission.

Respectfully submitted,

Charles R. McIntyre

## Independent Auditor's Report

## To The Fiscal Committee Of The General Court:

## Report On The Financial Statements

We have audited the accompanying financial statements of the New Hampshire Lottery Commission which comprise the Statement of Net Position as of June 30, 2016, and the related Statements of Revenues, Expenses, and Changes in Net Position and Cash Flows for the fiscal year then ended, and the related notes to the financial statements, which collectively comprise the New Hampshire Lottery Commission's basic financial statements.

## Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness
of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of the New Hampshire Lottery Commission as of June 30, 2016, and the changes in its net position, and its cash flows for the fiscal year then ended, in accordance with accounting principles generally accepted in the United States of America.

## Emphasis Of Matter

## Reporting Entity

As discussed in Note 1, the financial statements present only the New Hampshire Lottery Commission and do not purport to, and do not, present fairly the financial position of the State of New Hampshire, as of June 30, 2016, the changes in its financial position, or its cash flows for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 18 through 32 and the Schedules of Lottery's Proportionate Share of the Net Pension Liability and Lottery Contributions on page 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary And Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the New Hampshire Lottery Commission's basic financial statements. The

Introductory Section, Supplemental Schedule of Revenues, Expenses, and Distributions, and Statistical Section of this report are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplemental Schedule of Revenues, Expenses, and Distributions on page 54 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplemental Schedule of Revenues, Expenses, and Distributions is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

## Other Reporting Required By Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 30, 2016 on our consideration of the New Hampshire Lottery Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the New Hampshire Lottery Commission's internal control over financial reporting and compliance.

Office Of Legislative Budget Assistant

## Management's Discussion and Analysis

As management of the New Hampshire Lottery Commission (Lottery), we offer readers of the Lottery's financial statements this narrative overview and analysis of the financial activities of the New Hampshire Lottery Commission for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with the financial statements contained in this comprehensive annual financial report and our letter of transmittal, which begins on page 1.

## Financial Highlights

- Operating revenues for the Lottery program increased by $\$ 20.6$ million, or $7.3 \%$ for the current fiscal year. MUSL games revenue increased $\$ 11.6$ million or $25.9 \%$, while revenue from Instant scratch games increased $\$ 9.1$ million or $4.4 \%$, exceeding $\$ 200$ million in sales for the second year in a row. MUSL games contributed $18.3 \%$ to total revenue and Instant scratch games contributed $70.7 \%$. Tri-State games, which contributed $7.6 \%$ to total revenue, netted to an increase in sales of approximately $\$ 1.48$ million or $6.7 \%$. Lucky for Life sales increased $\$ .02$ million or $.4 \%$ during fiscal year 2016.
- Effective July 1, 2015, the Legislature transferred all responsibilities for the oversight of racing and charitable gaming in the State from the former Racing and Charitable Gaming Commission to the Lottery. Operating revenues for the Racing \& Charitable Gaming Division (RCGD) exceeded $\$ 5.0$ million. Primary sources of revenue for this division include simulcast racing tax, games of chance and Bingo/Lucky 7 tax, and license fees from race tracks, charitable organizations, game operators, facilities, manufacturers and distributors. RCGD revenues contributed $1.6 \%$ to total Lottery revenues.
- The Lottery's operating expenses for the current fiscal year increased approximately $\$ 20.8$ million, or $9.9 \%$. This increase is primarily due to higher ticket sales and an increase in the corresponding cost of sales, along with the inclusion of RCGD operating expenses.
- Lottery's assets increased $\$ 3.4$ million, or $44.5 \%$ from the previous fiscal year. Liabilities increased $\$ 4.9$ million or $83.5 \%$, from the end of the previous fiscal year. There was a decrease to the Lottery's net position of $\$ 1,192,915$ which equaled the changes in net investment in capital assets and restricted prize funds for the Powerball, Hot Lotto, Mega Millions, and Megabucks programs and the transfer of operations from Racing and Charitable Gaming. For fiscal year 2016 the Lottery's total net position was \$ 369,459.
- Distributions to the Education Trust Fund increased $\$ 4.9$ million or $6.5 \%$, due to the increase in Lottery operating revenues and the transfer of RCGD operations.

## Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the New Hampshire Lottery's (the Lottery) basic financial statements. The Lottery is accounted for as an enterprise fund, using the accrual basis of accounting. The Lottery's basic financial statements are comprised of four components: 1) the statement of net position, 2) the statement of revenues,
expenses and changes in net position, 3) the statement of cash flows, and 4) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

The statement of net position presents information on all of the Lottery's assets, liabilities, deferred inflows and outflows of resources. The total assets and deferred outflows of resources of the Lottery exceeded total liabilities and deferred inflows of resources at fiscal year ending June 30, 2016 by $\$ 369,459$.

The statement of revenues, expenses and changes in net position reports the Lottery's revenues and expenses and measures the success of the Lottery's operations over the past year. The Lottery is required by law to transfer all revenues, in excess of its operating costs, to the Education Trust Fund; therefore the change in net position reflects those transfers.

The statement of cash flows provides information about the Lottery's cash receipts, cash payments, and net changes in cash resulting from operating, investing, and financing activities. Notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the financial statements. The supplementary schedule of revenues, expenses, and distributions provides detailed information on the Lottery's operating revenues and expenses.

The Lottery is a self-supporting department of the State of New Hampshire. The financial statements of the Lottery represent all its functions, which are supported from the sale of Lottery tickets and the regulation of the State's Racing and Charitable Gaming activities. The Lottery's financial statements are also included in the State of New Hampshire's Comprehensive Annual Financial Report as an enterprise fund of the State however with less detail in the notes to the financial statements than found in this report.

For fiscal year 2016, the Lottery produced $\$ 308.5$ million in total operating revenues, a $9.0 \%$ increase from fiscal year 2015's $\$ 282.9$ million, partially due to the merger with RCGD. Instant scratch games sales were up from the previous fiscal year by approximately $\$ 9.1$ million or $4.4 \%$. Multi-State (MUSL) games revenues increased $\$ 11.6$ million or $25.9 \%$ during fiscal year 2016 as compared to fiscal year 2015. Tri-State games revenues increased by $\$ 1.5$ million or $6.7 \%$ for fiscal year 2016 as compared to fiscal year 2015. Lucky for Life game revenue increased $\$ .02$ million in fiscal year 2016 as compared to fiscal year 2015. The Lottery distributed $\$ 79.2$ million of operating income to the Education Trust Fund in fiscal year 2016, a $\$ 4.9$ million increase from fiscal year 2015. Total revenues since the inception of the Lottery in 1963 are more than $\$ 6.0$ billion and the Lottery has distributed over $\$ 1.7$ billion to help fund education in New Hampshire.

## Net Position and Changes in Net Position

Article 6-b of the Constitution of the State of New Hampshire declares "All moneys received from a state-run lottery and all the interest received on such moneys shall, after deducting the necessary costs of administration, be appropriated and used exclusively for the school districts of the state. Such moneys shall be used exclusively for the purpose of state aid to education and shall not be transferred or diverted to any other purpose." As a result, the net position of the Lottery consists
only of prize funds held on deposit with the Multi-State Lottery Association (MUSL) and the TriState Lotto Commission (Tri-State), as well as the Lottery's unrestricted net deficit for pension liability.

The total assets and deferred outflows of resources of the Lottery exceeded total liabilities and deferred inflows of resources at fiscal year ending June 30, 2016 by $\$ 369,459$. This amount is presented as "Total Net Position" on the Statement of Net Position and is a decrease of $\$ 1.2$ million compared to fiscal year 2015. The decrease is due to the change in restricted deposits of \$103,915 held with the MUSL and Tri-State Commissions for prize reserve funds and the transfer in of Racing and Charitable Gaming operations.

Comparable figures for total assets at June 30, 2016 and 2015 were $\$ 10.9$ million and $\$ 7.6$ million, respectively. This represents an increase of $\$ 3.3$ million from fiscal year 2015 to 2016. Cash and cash equivalents were \$2,650,977 at June 30, 2016 and \$919,287 at June 30, 2015. The increase in cash and cash equivalents was primarily attributable to an increase in prize accruals.

Accounts receivable at June 30, 2016 and 2015 were $\$ 2,353,250$ and $\$ 1,323,815$, respectively. This difference is mostly attributed to the result of year end timing of collection of weekly receipts from retailers. Due from other funds for fiscal year 2016 consisted solely of the amount due from the state Liquor Commission for tickets sold. Instant scratch games ticket inventories were $\$ 1,093,155$ at June 30, 2016 and $\$ 534,178$ at June 30, 2015. The increase in inventory reflects higher inventories on hand at June 30, 2016 due to timing of instant ticket purchases. Noncurrent, restricted deposits, which represent New Hampshire's share of prize reserve funds held by MUSL and Tri-State, decreased $\$ 103,915$ during fiscal year 2016. Capital assets, net of depreciation, increased during fiscal year 2016 from $\$ 187,449$ at June 30, 2015 to $\$ 210,692$ at June 30, 2016. Deferred outflows of resources, which represent a consumption of net assets that are applicable to a future period, are specifically related to pension expense for the Lottery.

The Lottery is required by law to transfer all revenues, in excess of its operating costs, to the Education Trust Fund, therefore the change in net position reflects the actual results of the Lottery's operations after distributions to the Education Trust Fund.

## The following table shows condensed net position as of June 30, 2016 and 2015

|  | 2016 |  | 2015 |  |
| :---: | :---: | :---: | :---: | :---: |
| Current and other assets | \$ | 10,705,679 | \$ | 7,366,314 |
| Capital assets (net of accumulated depreciation) |  | 210,692 |  | 187,449 |
| Total assets |  | 10,916,371 |  | 7,553,763 |
| Deferred outflows of resources |  | 404,000 |  | 200,000 |
| Current liabilities |  | 6,551,806 |  | 3,173,597 |
| Noncurrent liabilities |  | 4,171,106 |  | 2,668,792 |
| Total liabilities |  | 10,722,912 |  | 5,842,389 |
| Deferred inflows of resources |  | 228,000 |  | 349,000 |
| Net position: |  |  |  |  |
| Net investments in capital assets |  | 210,692 |  | 187,449 |
| Restricted assets |  | 4,048,459 |  | 4,152,374 |
| Unrestricted (deficit) |  | $(3,889,692)$ |  | $(2,777,449)$ |
| Total net position | \$ | 369,459 | \$ | 1,562,374 |

## Liabilities

The Lottery's current liabilities consist primarily of accounts payables, unclaimed prizes, accrued payroll and benefits, and ticket sales for future draws (draws occurring after June 30). Noncurrent liabilities consist of compensated absences and net pension liability (Note 6). Total liabilities during the current fiscal year increased $\$ 4.9$ million or $83.5 \%$. The year end balances for total liabilities for fiscal years 2016 and 2015 were $\$ 10.7$ million and $\$ 5.8$ million, respectively. Of the increase, accounts payable increased $\$ 1.1$ million, and unclaimed prizes increased $\$ 1.8$ million, and net pension liability increased by $\$ 1.3$ million. The increase in unclaimed prizes for fiscal year 2016 is due mostly to an increase in the amount of instant ticket prizes remaining unclaimed compared to fiscal year 2015. Lottery winners have one year to claim their prizes. Accounts Payable increased in fiscal year 2016 by $\$ 1,084,944$, primarily due to the timing of expense accruals. As of June 30, 2016 monies are due to the Education Trust Fund from the Lottery for the under-transfer of 2016 profits to the fund in the amount of $\$ 221,977$. Deferred inflows of resources, which represent an acquisition of net assets that are applicable to a future period, are specifically related to pension expense for the Lottery.

## Operating Revenues - Games Sales

The New Hampshire Lottery's game revenues result from the sales of a variety of instant and online lottery products. The Lottery is an active member of three separate joint venture arrangements; the Tri-State Lotto Commission (Tri-State), the Multi-State Lottery Association (MUSL), and Lucky for Life, operating several online games under those jurisdictions. MUSL online games consist of Powerball, Mega Millions, and Hot Lotto. Tri-State games consist of Megabucks, Pick 3, Pick 4, Fast Play, and Gimme 5. Lucky for Life is the name of the game and also the joint venture, of which the Lottery became a member in March 2012.

The following table shows operating revenues by Lottery game for the years ended June 30, 2016 and 2015. Tri-State Other represents Fast Play and Gimme 5.

| Game | $\mathbf{2 0 1 6}$ | $\mathbf{2 0 1 5}$ | Change | \% Change |
| :--- | ---: | ---: | ---: | ---: |
|  |  |  |  |  |
| Instant tickets | $\$ 218,037,410$ | $\$ 208,938,625$ | $\$ 9,098,785$ | $4.4 \%$ |
| MUSL Powerball | $42,545,804$ | $28,669,316$ | $13,876,488$ | $48.4 \%$ |
| MUSL Mega Millions | $11,265,100$ | $12,532,507$ | $(1,267,407)$ | $-10.1 \%$ |
| MUSL Hot Lotto | $2,699,183$ | $3,434,368$ | $(735,185)$ | $-21.4 \%$ |
| MUSL Monopoly | - | 262,990 | $(262,990)$ | $-100.0 \%$ |
| Tri-State Megabucks | $7,837,746$ | $7,431,726$ | 406,020 | $5.5 \%$ |
| Tri-State Pick 3 | $5,470,291$ | $5,247,679$ | 222,612 | $4.2 \%$ |
| Tri-State Pick 4 | $4,862,941$ | $4,720,112$ | 142,829 | $3.0 \%$ |
| Lucky for Life | $5,294,823$ | $5,272,097$ | 22,726 | $0.4 \%$ |
| Tri-State Other | $5,328,649$ | $4,622,574$ | 706,075 | $15.3 \%$ |
| Racing \& Charitable Gaming | $5,038,351$ | - | $5,038,351$ | $\mathrm{~N} / \mathrm{A}$ |
| Other income | 147,305 | $1,795,518$ | $(1,648,213)$ | $-91.8 \%$ |
| Total operating revenues | $\$ 308,527,603$ | $\$ 282,927,512$ | $\$ 25,600,091$ | $9.0 \%$ |

The Lottery saw a 9.0\% increase in total operating revenues for fiscal year 2016. Instant scratch games sales continue to be the Lottery's most popular product contributing approximately $70.7 \%$ and $73.8 \%$, respectively, to total revenue for fiscal years 2016 and 2015. Instant scratch games sales increased $\$ 9.1$ million or $4.4 \%$ in fiscal year 2016 over fiscal year 2015. The increase in instant scratch games sales can be attributed to continuous effort towards creative and innovative design of new games, an increase in prizes awarded to players, and low jackpot amounts in draw games as compared to other years.

The following graph shows percentages of Instant scratch games sales for fiscal year 2016 and 2015 by selling price of ticket.

The sales in big jackpot games are directly related to the size of the jackpot, which causes a high level of uncertainty for revenues. The more frequently jackpots are won, the smaller the jackpot amount, which consequently lowers demand for tickets. When jackpots are won less frequently, they have more time to accrue. As jackpots rise in amount, so does the demand for tickets. This trend has shown that the public demands higher jackpot amounts every year before there is a noticeable increase in sales.

Powerball, a game in the MUSL jurisdiction, is the Lottery's second most popular product contributing $13.8 \%$ and $10.1 \%$ to total fiscal year 2016 and 2015 sales, respectively. Powerball revenues for fiscal year 2016 increased $48.4 \%$, from $\$ 28.7$ million to $\$ 42.5$ million. The reason for the increase in Powerball sales was the record jackpot in January of 2016 of $\$ 1.6$ billion.

## See the following graphs showing the relationship between jackpot amount and sales for

 fiscal years 2016 and 2015.

Mega Millions is another high jackpot game that MUSL member states have the option of selling. Mega Millions sales for fiscal year 2016 were $\$ 11.3$ million compared to fiscal year 2015 of $\$ 12.5$ million, a drop of $10.1 \%$, reflecting the lack of smaller jackpots in 2016 compared to 2015. During fiscal year 2016 there were two jackpots exceeding $\$ 200$ million, one of which reached $\$ 390$ million, compared to three jackpots in excess of $\$ 200$ million in fiscal year 2015. Mega Millions does not generate the sales that Powerball does in New Hampshire where Powerball accumulated $\$ 42.5$ million in fiscal year 2016 compared to Mega Millions sales of $\$ 11.3$ million noted above.

Hot Lotto is another game that is offered through MUSL, sales of which decreased $21.4 \%$ from $\$ 3.4$ million to $\$ 2.7$ million in fiscal years 2015 and 2016, respectively. The jackpots for Hot Lotto during fiscal year 2016 were less than during fiscal year 2015 resulting in the decreased sales. In fiscal year 2015, there were 20 draws for a Hot Lotto jackpot in excess of $\$ 7$ million, while in fiscal year 2016 there was only one. MUSL games sales increased $25.9 \%$ overall and contributed $18.3 \%$ and $15.9 \%$ to total Lottery revenues for fiscal years 2016 and 2015 , respectively

Megabucks, a draw game offered by the Tri-State Lottery, had an increase in revenues of $\$ 406,020$ to $\$ 7.8$ million for fiscal year 2016, equating to an $5.5 \%$ increase from the previous fiscal year. The last time that Megabucks experienced an increase in sales was fiscal year 2010 when the game was restructured, increasing the ticket price from $\$ 1$ to $\$ 2$, and since then seems to be losing ground to the higher jackpot games and instant tickets. However, the Megabucks game is the oldest jackpot style game the Lottery sells; at 30 years old and still running, it seems to carry a committed player base and accounts for $2.5 \%$ of revenues.

Pick 3 and Pick 4 remained consistent from fiscal year 2015 to fiscal year 2016 with an increase in Pick 3 sales of $\$ 222,612$, or $4.2 \%$ and an increase of $\$ 142,829$, or $3.0 \%$ in Pick 4 sales. Other TriState sales revenues increased $\$ 706,075$ or $15.3 \%$ overall; including an increase in Gimme 5 sales of $1.5 \%$ and a substantial increase in Fast Play games sales of $33.9 \%$ as a result of new progressive jackpot games introduced in April of 2016. Tri-State games combined sales increased overall 2015 to 2016, gaining only $6.7 \%$ between the two fiscal years. Tri-State games in total amounted to $7.6 \%$ and $7.8 \%$ of total Lottery sales for fiscal years 2016 and 2015 , respectively.

Lucky for Life sales revenues were relatively flat in fiscal year 2016 at $\$ 5.3$ million, still down from its first full year sales in 2013 of $\$ 7.8$ million. When a game goes on the market, sales typically begin at a higher rate due to it being a new product and driving consumer interest, then decline to a point where they level off.

The following graph displays Lottery revenues by product/game for the fiscal year ended June 30, 2016. Tri-State Other Games include GIMME 5 and Fast Play.

## Operating Expenses - Cost of Sales Prizes

Prizes are the largest operating expense of the Lottery. Prize expense in general, will increase or decrease from year to year in proportion to the increase or decrease in sales for that particular game. Fiscal year 2016 total prize expense of $\$ 193$ million reflects a $9.4 \%$ increase from fiscal year 2015 total prize expense of $\$ 176.4$ million. This increase in prizes reflects a corresponding increase in total operating revenues. Games in which the player wins instantly pay out at a higher percentage than draw games. Therefore, net profit will grow more quickly with an increase in the sales of draw games as compared to instant win type games. Instant win games on average have a $61 \%$ to $75 \%$ (of possible sales) prize pay-out built into each game, whereas draw games typically have a $50 \%$ to $60 \%$ (of sales) prize pay-out built into the design of the game. More specifically, for Instant scratch games, the higher the price point of the ticket, the higher the prize percentage built into the game. For example, a ticket with a sales price of $\$ 1$ will have a $61 \%$ prizes to sales ratio while a $\$ 20$ ticket will have a $75 \%$ prizes to sales ratio.

The following tables show prizes to sales (operating revenues) profit margin for Lottery games by venture for the years ended June 30, 2016 and 2015.

| 2016 | Gross Games Revenues | Prize Expense | Gross Profit After Prizes |  | Profit Margin After Prizes |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Instant Scratch Games | \$ 218,037,410 | \$ 149,752,984 | \$ | 68,284,426 | 31.3\% |
| Tri-State Games | 23,499,627 | 12,763,363 |  | 10,736,264 | 45.7\% |
| MUSL Games | 56,510,087 | 27,426,015 |  | 29,084,072 | 51.5\% |
| Lucky for Life Game | 5,294,823 | 2,913,422 |  | 2,381,401 | 45.0\% |

| 2015 | Gross Games Revenues | Prize Expense | Gross Profit <br> After Prizes | Profit Margin After Prizes |
| :---: | :---: | :---: | :---: | :---: |
| Instant Scratch Games | \$ 208,938,625 | \$ 141,186,490 | \$ 67,752,135 | 32.4\% |
| Tri-State Games | 22,022,091 | 11,479,138 | 10,542,953 | 47.9\% |
| MUSL Games | 44,899,181 | 21,902,935 | 22,996,246 | 51.2\% |
| Lucky for Life Game | 5,272,097 | 1,735,469 | 3,536,628 | 67.1\% |

As the tables above show, the profit margin after prizes paid is less for instant scratch games versus online games. High jackpots drive sales for online games, whereas the different types of games on the market and the number of winning tickets (prizes) in a game drives Instant scratch games sales.

The actual prizes paid percentage can be slightly less than the designed prize percentage built into the game due to unclaimed prizes (prizes that winners never claim). Lottery prize winners have one year ( 365 days) to claim their prizes. Expired unclaimed prize money for Instant scratch games, MUSL games, and Lucky for Life goes to the Education Trust Fund. Unclaimed prize money for Tri-State games goes back to the players through promotions or increases to jackpots.

## The following table shows prize expense by game for the years ended June 30, 2016 and 2015. Tri-State Other represents Gimme 5 and Fast Play.

| Game | 2016 | 2015 | Change |  | Percent Change |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Instant Scratch Games | \$ 149,752,984 | \$ 141,186,490 | \$ | 8,566,494 | 6.1\% |
| MUSL Powerball | 20,582,304 | 13,974,195 |  | 6,608,109 | 47.3\% |
| MUSL Mega Millions | 5,493,101 | 6,044,468 |  | $(551,367)$ | -9.1\% |
| MUSL Hot Lotto | 1,353,482 | 1,675,142 |  | $(321,660)$ | -19.2\% |
| MUSL Monopoly | $(2,872)$ | 209,130 |  | $(212,002)$ | -101.4\% |
| Tri-State Megabucks | 4,197,978 | 3,800,663 |  | 397,315 | 10.5\% |
| Tri-State Pick 3 | 2,735,400 | 2,599,244 |  | 136,156 | 5.2\% |
| Tri-State Pick 4 | 2,431,595 | 2,371,430 |  | 60,165 | 2.5\% |
| Tri-State Other | 3,398,390 | 2,707,801 |  | 690,589 | 25.5\% |
| Lucky for Life | 2,913,422 | 1,735,469 |  | 1,177,953 | 67.9\% |
| Other - contributed prizes | 107,604 | 111,321 |  | $(3,717)$ | -3.3\% |
| Total prize expense | \$ 192,963,388 | \$ 176,415,353 | \$ | 16,548,035 | 9.4\% |

## Other Cost of Sales

In addition to prizes, there are other costs of sales that include retailer commissions, vendor fees, cost of printing Instant scratch games, costs for delivering Instant scratch games to retailers, and expense pool costs (administrative costs) for joint ventures. These other costs of sales totaled $\$ 26.3$ million for fiscal year 2016 and $\$ 24.1$ million for fiscal year 2015. The increase was primarily due to the increase in ticket sales. Retailer commissions were up $\$ 1,801,179$ or $11.1 \%$ for fiscal year 2016 over fiscal year 2015. Retailer commissions are based on $5 \%$ of sales plus additional commissions for retailers who meet certain incentive criteria for increasing sales. Vendor fees for fiscal year 2016 were up $\$ 341,297$ over fiscal year 2015. Vendor fees are based on $1.435 \%$ of sales plus additional charges for equipment, such as vending machines, that sell tickets and digital signs that advertise the amount of the jackpot.

The table below shows comparative costs of sales expenses for Lottery games for the years ended June 30, 2016 and 2015 (excluding RCGD).

|  | 2016 | Percent of Sales | 2015 | Percent of Sales |
| :---: | :---: | :---: | :---: | :---: |
| Retailer commissions | \$ 18,057,048 | 5.9\% | \$ 16,255,869 | 5.7\% |
| Vendor fees | 5,576,320 | 1.8\% | 5,235,023 | 1.9\% |
| Cost of instant tickets | 2,517,242 | 0.8\% * | 2,324,374 | 0.8\% * |
| Expense pools | 168,683 | 0.1\% | 240,950 | 0.1\% |
| Other cost of sales | 26,319,293 | 8.7\% | 24,056,216 | 8.5\% |
| Prize expense | 192,963,388 | 63.6\% | 176,415,353 | 62.4\% |
| Total cost of sales | \$ 219,282,681 | 72.3\% | \$ 200,471,569 | 70.9\% |
| *Cost of instant tickets as a percent of instant scratch ticket sales only, averages approximately $1 \%$. |  |  |  |  |

The table below shows cost of sales to gross revenues for Lottery games for the years ended June 30, 2016 and 2015 (excluding RCGD).

| Total Lottery Games | 2016 | 2015 | Change | Percent Change |
| :---: | :---: | :---: | :---: | :---: |
| Gross Revenues | \$ 303,489, 252 | \$ 282,927,512 | \$ 20,561,740 | 7.3\% |
| Cost of Sales | 219,282,681 | 200,471,569 | 18,811,112 | 9.4\% |
| Gross profit | \$ 84,206,571 | \$ 82,455,943 | \$ 1,750,628 | 2.1\% |
| Gross profit margin | 27.7\% | 29.1\% |  |  |

## Other Operating Expenses

Administrative costs increased $\$ 1.9$ million in fiscal year 2016 from fiscal year 2015. The supplemental schedule of revenues, expenses, and distributions located after the notes to the financial statements, itemizes the components of other operating expenses.

## Non-operating Revenues (Expenses)

Non-operating revenues totaling $\$ 41,164$ consist of income earned on deposits held with the TriState Lotto joint venture and proceeds from sales of capital assets.

Non-operating expenses are distributions to the Education Trust Fund. The Lottery is required by law to transfer all revenues in excess of its operating costs to the Education Trust Fund. Fiscal year 2016 distributions were $\$ 79,184,886$ and fiscal year 2015 distributions were $\$ 74,324,817$. The fiscal year $2016 \$ 4.9$ million increase over fiscal year 2015 was mostly due to increased ticket sales and the inclusion of revenues from Racing and Charitable Gaming.

The following table shows total revenues, expenses, and change in net position for the Lottery for the years ended June 30, 2016 and 2015.

|  |  | 2016 |  | 2015 | Change | \% change |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Operating revenues: |  |  |  |  |  |  |
| Revenues from ticket sales only | \$ | 303,341,947 | \$ | 281,131,994 | \$ 22,209,953 | 7.9\% |
| Revenues from RCGD |  | 5,038,351 |  | - | 5,038,351 | 0.0\% |
| Other income |  | 147,305 |  | 1,795,518 | $(1,648,213)$ | -91.8\% |
| Total operating revenues |  | 308,527,603 |  | 282,927,512 | 25,600,091 | 9.0\% |
| Operating expenses: |  |  |  |  |  |  |
| Cost of sales |  | 219,282,681 |  | 200,471,569 | 18,811,112 | 9.4\% |
| Administration |  | 10,133,173 |  | 8,205,447 | 1,927,726 | 23.5\% |
| Depreciation |  | 71,942 |  | 58,222 | 13,720 | 23.6\% |
| Total operating expenses |  | 229,487,796 |  | 208,735,238 | 20,752,558 | 9.9\% |
| Operating Income |  | 79,039,807 |  | 74,192,274 | 4,847,533 |  |
| Non-operating revenues |  |  |  |  |  |  |
| Interest |  | 41,164 |  | 54,659 | $(13,495)$ | -24.7\% |
| Transfer in RCGD operations |  | $(1,089,000)$ |  | - | $(1,089,000)$ | 0.0\% |
| Net profit before transfers |  | 77,991,971 |  | 74,246,933 | 3,745,038 | 5.0\% |
| Distributions to Education Trust Fund |  | $(79,184,886)$ |  | $(74,324,817)$ | $(4,860,069)$ | 6.5\% |
| Change in net position |  | $(1,192,915)$ |  | $(77,884)$ | $(1,115,031)$ | -1431.7\% |
| Net position - July 1 |  | 1,562,374 |  | 1,640,258 | $(77,884)$ | -4.7\% |
| Net position - June 30 | \$ | 369,459 | \$ | 1,562,374 | \$ (1,192,915) | -76.4\% |

The following graph displays expenses and distributions to the Education Trust Fund as a percentage of operating revenues for the Lottery for the year ended June 30, 2016.

## Other Potentially Significant Matters

The State's economy is a factor that affects the Lottery. The Lottery is dependent on customers' discretionary income, so when there is less available, customers spend less on lottery tickets.

The Lottery relies on high jackpots to increase sales of online games. The two highest jackpot selling games in the United States are Powerball and Mega Millions. High jackpot amounts trigger higher sales of tickets. The sales in these games are directly related to the size of the jackpot, which causes a high level of uncertainty for revenues. The more frequently jackpots are won, the smaller the jackpot amount, which consequently sells less tickets. The less frequently jackpots are won, the more time they have to build/roll in amount. The trend has shown that the public demands higher jackpot amounts every year before there is a noticeable increase in sales.

There is, as always, ongoing research and development to enhance current games or replace them with new games in order to increase sales. Consumers want and demand newer, technologically advanced forms of gambling. The Lottery is limited by statute in what it can offer.

## Contacting the Lottery's Financial Management

This financial report is designed to provide New Hampshire citizens, the New Hampshire state legislature and the executive branch of government, and other interested parties, a general overview of the Lottery's financial activity for fiscal year 2016 and to demonstrate the Lottery's accountability for the money it received from the sale of lottery products. If you have any questions about this report or need additional information, contact the New Hampshire Lottery Commission, Finance Department, Chief Financial Officer, 14 Integra Drive, Concord, New Hampshire.

# New Hampshire Lottery Commission <br> Notes to the Financial Statements <br> Fiscal Year ended June 30, 2016 

## Note 1 - Summary of Significant Accounting Policies

## A. Reporting Entity

The New Hampshire Lottery Commission, also known as the New Hampshire Lottery (Lottery), was established in 1964 in accordance with the provisions of Chapter 284:21-a of the New Hampshire Revised Statutes Annotated (RSA). Effective July 1 of 2015, Chapter 276, Section 121 of the Laws of 2015, transferred authority for the regulation of racing and charitable gaming in the State from the former Racing and Charitable Gaming Commission (RCGC) to the New Hampshire Lottery Commission. Hence the Lottery assumed all the powers, rights, duties and responsibilities granted to the RCGC. The Lottery is now comprised of the Lottery division and the Racing and Charitable Gaming Division. Accordingly, the financial statements include the consolidated operations of the two divisions. The Lottery has three commissioners appointed by the Governor and Council for a staggered term of three years. The administration of the Lottery is overseen by an executive director, appointed by the Commissioners for a term of four years. The Lottery is authorized to operate both instant and online games for the sole purpose of funding state aid to education pursuant to RSA 198:38-49 and RSA 284:21-j. In 1990, the New Hampshire Constitution was amended by Part 2, Article 6-b, which restricted all lottery revenue and interest, after the deduction of the necessary costs of administration, exclusively for state aid to education.

For financial reporting purposes, the New Hampshire Lottery Commission is considered a department of the State of New Hampshire. The Lottery's financial statements include all Lottery activity in a separate enterprise fund and do not include any activity related to any other state agency. The Lottery's financial activities are reported in the Lottery Commission enterprise fund in the State's comprehensive annual financial report (CAFR).

The State of New Hampshire issues a publicly available comprehensive annual financial report, which may be obtained by writing to the State of New Hampshire, Department of Administrative Services, 25 Capitol Street, Room 310, Concord, New Hampshire, 03301-6312 or accessed online at www.admin.state.nh.us/accounting.

## B. Measurement Focus, Basis of Accounting and Basis of Presentation

The accompanying financial statements of the Lottery have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and as prescribed by the Governmental Accounting Standards Board (GASB), which is the primary standard-setting body for establishing governmental accounting and financial reporting principles. The Lottery accounts for its operations as a single enterprise fund and accordingly uses the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recognized when the related liability is incurred. The Lottery's financial statements are reported using the economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of the Lottery are included on the Statement of Net Position. All revenues and expenses of the Lottery are reported on the Statement of Revenues, Expenses, and Changes in Net Position.

Cash equivalents are investments with a maturity date of three months or less from the date of purchase. The majority of the Lottery's cash is held by the State Treasurer for pooled investment
purposes in short-term, highly liquid investments, which are considered to be cash equivalents. Cash equivalents are recorded at cost.

Cash and Cash Equivalents-Restricted represent all simulcast racing revenues received from Hinsdale Harness LLC. RSA 284:23(I)(c) restricts the use of these revenues by stipulating that all amounts collected from an entity licensed to simulcast a running horse race or running horse meet in Cheshire county shall be held in escrow for a period of not more than 36 months by the state treasurer. If the licensee has commenced to hold a live race meet within the 36 -month period the escrowed amounts shall be paid to the Lottery to offset any expenses incurred for the services required to hold such meet. If there is no live race meet within the 36-month period all sums so escrowed shall be for the use of the state. As of June 30, 2016, the Lottery has received $\$ 48,034$ from simulcast racing at Hinsdale Harness LLC. Accordingly, all such amounts are reported as restricted deposits.

Accounts receivable consists of amounts due from retailers for lottery ticket sales.
Due from other funds consists of amounts due from the State Liquor Commission for lottery tickets sold at state liquor stores, which have not been transferred to Lottery as of June 30.

Inventory represents ticket inventories for Instant scratch games, which are valued at the lower of cost or market using the specific identification method. The cost of consumable supplies is expensed when the supplies are received.

Prepaid expenses and other consist of payments to vendors that reflect costs applicable to future accounting periods and the value of contributed merchandise (prizes) inventory to be awarded to players. These contributed prizes are donated to the Lottery by local area vendors in exchange for promotional consideration as part of the Replay program (see note 9).

Capital assets and depreciation, capital assets consist of equipment and vehicles, recorded at cost. The Lottery's threshold for capitalization is $\$ 10,000$. Depreciation on capital assets is computed using the straight-line method over an estimated useful life of five years. Salvage values are not recognized, as asset disposals are officially transferred to the New Hampshire Surplus Property program. Any income derived from surplus property sales is recorded as miscellaneous income when received. Losses on the disposal of surplus equipment are recorded at the time of disposal.

Restricted deposits represents noncurrent, restricted assets, deposited with the Multi-State Lottery Association (MUSL) and the Tri-State Lotto Commission (Tri-State), that are held as prize reserves to protect the Lottery against unforeseen prize liabilities. These prize reserves are a condition of participation in the joint ventures and are refundable after a one year waiting period if a member state leaves. The Tri-State portion of the reserves is committed to be returned to the players; however the MUSL reserves would be returned to the New Hampshire Education Trust Fund. At June 30, 2016 MUSL reserves were \$2,300,408 and Tri-State reserves were $\$ 1,748,051$.

Compensated absences represent accrued leave for the Lottery's 66 full-time, classified employees at June 30, 2016. Full-time classified employees of the Lottery accrue annual, bonus, compensatory, and vested sick leave at various rates within the limits prescribed by a collective bargaining agreement. In conformity with GASB Statement No. 16, the Lottery accrues all types of leave benefits as earned by its classified employees. The compensated absences liability represents the total liability for the cumulative balance of employees' annual, bonus, compensatory, and sick leave based on years of service rendered along with the state's share of social security
and retirement contributions. The current portion of the leave liability is calculated based on the characteristics of the type of leave and on a LIFO (last in first out) basis, which assumes employees use their most recent earned leave first. The accrued liability for annual leave does not exceed the maximum cumulative balance allowed which ranges from 32 to 50 days based on years of service. The accrual for sick leave is made to the extent it's probable that the benefits will result in termination payments rather than be taken as absences due to illness.

Net Pension Liability; for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expenses, information about the fiduciary net position of the New Hampshire State Retirement System (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms, and investments are reported at fair value.

Ticket sales for future draws consists of subscriptions for Megabucks, Powerball, Hot Lotto, Mega Millions, and Lucky For Life and online ticket sales prior to fiscal year end for game draws subsequent to June 30, 2016. Subscriptions are ticket purchases for periods of 26, 52, or 104 draws.

Unclaimed prizes represent prizes won, but not paid. The Lottery is required to hold unclaimed prize money for one year ( 365 days) after the prize is won for online prizes or one year after the official game end for instant scratch games prizes. Due to the nature of Instant scratch games not being "online" or computerized the Lottery records a liability for unclaimed and unpaid prizes on an estimated basis for instant scratch game prizes. For online games, the Lottery knows what its unclaimed and unpaid prize liability is at fiscal year-end. The one year prize liability is adjusted based on past history of expired prizes (prizes that are not claimed within the one year). The unclaimed prize liability for fiscal year 2016 of $\$ 2,559,459$ is the net amount after being reduced by an estimate for Powerball, Hot Lotto, and Mega Millions prizes to expire as unclaimed of $\$ 905,415$. The Lottery also receives unclaimed prize money from the racetracks for simulcast racing. However, the liability for unclaimed tickets cannot be determined. Based on past history, any amount claimed is immaterial. Accordingly, unclaimed racing ticket liability is not recorded in the financial statement of net position.

Operating revenues represents gross lottery game sales less any sales adjustments and promotional tickets, revenue from racing and charitable gaming, and other income. Other income includes contributed merchandise prizes, and other miscellaneous operating income.

Cost of sales represents expenses directly related to lottery operating revenue, including paid and accrued prizes, retailers' sales commissions and incentives, the Lottery's pro-rata share of joint venture expenses, vendor fees, the printing cost of Instant scratch games, and the cost for shipping Instant scratch games tickets to retailers.

Administration expense represents those expenses indirectly related to the operation of the Lottery programs. These expenses consist mainly of advertising costs and promotional materials, employee salaries and benefits, and other Lottery operating expenses including, but not limited to, lease expenses.

Non-operating revenue represents revenues such as investment income received from the State Treasury Department, Tri-State Lotto, and Multi-State Lottery (MUSL).

Non-operating expense represents distributions to the Education Trust Fund, which are Lottery revenues to help fund education in New Hampshire. The Lottery, as a department of the State of New Hampshire, in accordance with RSA 284:21-j, transfers all Lottery revenue and interest, after the deduction of necessary administrative costs to the State's Education Trust Fund for distribution to local school districts.

Restricted for prize funds represents restricted deposits held in prize reserves with MUSL and Tri-State. These deposits are a condition of participation in the joint ventures. At June 30, 2016 MUSL reserves were $\$ 2,300,408$ and Tri-State reserves were $\$ 1,748,051$. The Tri-State reserves are committed to be returned to the players upon dissolution or termination of participation in the joint venture.

Use of estimates; the preparation of these financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Adoption of new accounting pronouncements; during the fiscal year ended June 30, 2016, the Lottery Commission adopted the following new accounting standards issued by the Government Accounting Standards Board (GASB):

GASB Statement No. 72, Fair Value Measurement and Application, effective for June 30, 2016 year-ends, defines the term investment and fair value and generally requires investments to be measured at fair value. This standard also changes the measurement guidance for donated capital assets and works of art, historical treasures, and capital assets received in a service concession agreement. Additionally, it requires disclosures be made regarding fair value measurement, the level of fair value hierarchy and valuation techniques. Adoption of GASB Statement No. 72 did not require modification of the financial statements.

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB 67 and 68, effective for June 30, 2015 year ends, establishes accounting and financial reporting standards for defined benefit pensions and defined contribution pensions that are provided to employees of state and local government employers and are not within the scope of GASB Statement No. 68; and establishes requirements for governments that hold assets accumulated foe purposes of providing pensions through defined benefit pension plans that are not administered as trusts. Adoption of GASB Statement No. 73 did not require modification of the financial statements.

GASB Statement No. 76, The Hierarchy of Generally Accepted Principles for State and Local Governments, effective for June 30, 2016 year-ends, sets forth what constitutes GAAP for all state and local governmental entities and establishes the order of priority of pronouncements and other sources of accounting and financial reporting guidance that a governmental entity should apply. Adoption of GASB Statement No. 76 did not require modification of the financial statements.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants, effective for June 30, 2016 year ends, establishes accounting and financial reporting standards for qualifying external investment pools who elect to measure all of their investments at amortized cost and state and local governments that participate in such qualifying external investment pools. Adoption of GASB Statement No. 79 did not require modification of the financial statements.

Deferred outflows of resources and deferred inflows of resources; deferred outflows of resources are defined as a consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources are defined as an acquisition of net assets by the government that is applicable to a future reporting period. Deferred outflows of resources increase net position, similar to assets, and deferred inflows of resources decrease net position, similar to liabilities.

## Note 2 - Cash and Cash Equivalents

The Lottery's cash and cash equivalents and restricted cash as reported on the Statement of Net Position as of June 30, 2016 consists of the following:
Cash in banks (carrying amount)
Cash and cash equivalents in State Treasury
Petty cash
$\quad$ Total cash and cash equivalents

| $\$$ | 785,470 |
| ---: | ---: |
| $1,860,507$ |  |
|  | 5,000 |
| $\$ 2,650,977$ |  |

The Lottery maintains two non-interest bearing commercial bank accounts, one being a revolving account, used to pay prizes and the other being a zero-balance account. The revolving account is replenished by the State Treasurer's office from Lottery income. The bank sweeps the net balance of the zero-balance account at the end of each business day into the New Hampshire State Treasury Department's bank account, in order to aggregate the State's assets and maximize the investment of available balances.

Statutory requirements and Treasury Department policies have been adopted to minimize risk associated with deposits. RSA 6:7 establishes the policy the State Treasurer must adhere to when depositing public monies. All depositories used by the state must be approved at least annually by the Governor and Executive Council. All banks, where the State has deposits and/or active accounts, are monitored as to their financial health through the services of Veribanc, Inc., a bank rating firm. In addition, ongoing reviews with officials of depository institutions are used to allow for frequent monitoring of custodial credit risk. All payments to the State are to be in U.S. dollars, therefore there is no foreign currency risk.

Custodial credit risk: In the case of deposits held with financial institutions, this is the risk that in the event of a bank failure, the government's deposits may not be returned. At June 30, 2016 the Lottery's total deposits held with financial institutions were $\$ 858,856$ (bank balance), all of which were insured and collateralized.

## Note 3 - Compensated Absences

A summary of compensated absences activity for year ended June 30, 2016 is presented below.

| Beginning <br> Balance | Ending <br> Balance | Amounts <br> Due Within |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | $\underline{6 / 30 / 2015}$ | $\underline{\text { Increases }}$ | $\underline{\text { Decreases }}$ | $\underline{6 / 30 / 2016}$ |
| One Year |  |  |  |  |

## Note 4 - Capital Assets

Capital asset activity for the year ended June 30, 2016 was as follows:

| Capital assets | Beginning Balance 6/30/2015 | Increases* | Decreases | Ending Balance 6/30/2016 |
| :---: | :---: | :---: | :---: | :---: |
| Equipment | \$ 222,043 | \$ 72,441 | \$ 50,723 | \$ 243,761 |
| Vehicles | 324,246 | 83,577 | - | 407,823 |
| Total capital assets | 546,289 | 156,018 | 50,723 | 651,584 |
| Accumulated depreciation |  |  |  |  |
| Equipment | 221,495 | 7,792 | 50,723 | 178,564 |
| Vehicles | 137,345 | 124,983 | - | 262,328 |
| Total accumulated depreciation | 358,840 | 132,775 | 50,723 | 440,892 |
| Total capital assets, net | \$ 187,449 | \$ 23,243 | \$ | \$ 210,692 |

* Increases include additions from the transfer in of Racing and Charitable Gaming operations

## Note 5 - General Budgetary Policies and Procedures

As a department of the State of New Hampshire, the Lottery is required to submit a biennial budget to the Governor of the State of New Hampshire where it is approved and further submitted to the Legislature for its approval. Approved biennial appropriations are provided in annual amounts. The Lottery's official budget, as adopted by the Legislature, is prepared principally on a modified cash basis.

Due to the nature of the Lottery's activities, the majority of its expenses, such as prizes, retailer commissions, and vendor fees are not included in the State's biennial budget. The Lottery budgets for approximately $4 \%$ of its expenses, primarily salaries and benefits, advertising, and rental expense.

## Note 6 - Employee Benefit Plans

## A. Retirement Plan

All permanent, full-time employees of the Lottery participate in the New Hampshire Retirement System Plan (the Plan) as a condition of employment in accordance with New Hampshire Revised Statutes Annotated (RSA) 100-A:3. The Plan is qualified as a tax exempt organization under Sections 401 (a) and 501 (a) of the Internal Revenue Code. The Plan is a contributory definedbenefit, cost sharing, multiple-employer Public Employee Retirement System, which provides service, disability, death and vested retirement benefits to members and beneficiaries. The Plan covers substantially all full-time state employees, public school teachers and administrators, permanent firefighters and police officers, within the state of New Hampshire. The Plan is divided into two membership groups. Group I consists of state and local employees and teachers. Group II consists of firefighters and police officers. All assets are in a single trust and are available to pay retirement benefits to its members and beneficiaries. The Plan is financed by contributions from the members, the State and local employers and investment earnings. Employees of the Lottery, which
are Group I employees of the State, are required, by statute, to contribute $7 \%$ of their gross earnings to the Plan. The Lottery contributes an amount required to cover Plan costs not met by the members' contributions, determined by the biennial actuarial valuation by the New Hampshire Retirement System actuary using the entry age normal funding method and are expressed as a percentage of gross payroll. The State contributed $12.5 \%$ of gross payroll for Group I members which included $1.64 \%$ for other post-employment benefits. The Lottery Commission's required and actual contributions for the year ended June 30, 2016 were \$330,000, which included an amount for other post-employment benefits of $\$ 43,296$.

## Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2016, the Lottery Commission reported a liability of $\$ 3,675,000$ for its proportionate share of the net pension liability of the Plan. This net pension liability is measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014, with update procedures used to roll the total pension liability forward to June 30, 2015. The State's proportion of the net pension liability was based on the State's share of contributions to the Plan relative to the contributions of all participating employers, actuarially determined. The Lottery Commission's net pension liability and pension expense, along with related deferred outflows of resources and deferred inflows of resources was calculated using an allocated proportion among the State's governmental and business-type activities ( $0.46 \%$ ), based on percentage of pension plan contributions. For the year ended June 30, 2016, the Lottery Commission recognized pension expense of $\$ 246,000$.

As of June 30, 2016, the Lottery Commission reported deferred outflows and inflows of resources relating to pensions from the following sources:

| (in thousands) | Deferred Outflows of Resources |  | Deferred Inflows of Resources |  |
| :---: | :---: | :---: | :---: | :---: |
| Net difference between projected and actual earnings on pension plan investments | \$ | - | \$ | 99 |
| Difference between expected and actual experience |  | - |  | 81 |
| Changes in employer proportion |  | 74 |  | 48 |
| Contributions subsequest to the measurement date |  | 330 |  | - |
| Total | \$ | 404 | \$ | 228 |

Amounts reported as deferred inflows and outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a
reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred (inflows) and outflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended June 30, | Amount (in thousands) |  |
| :---: | :---: | :---: |
| 2017 | \$ | 67 |
| 2018 |  | 67 |
| 2019 |  | 67 |
| 2020 |  | (48) |
| 2021 |  | 1 |
| Total | \$ | 154 |

Actuarial Assumptions. The Plan total pension liability, measured as of June 30, 2015, was determined by a roll forward of the actuarial valuation as of June 30, 2014, using the following actuarial assumptions:

Inflation
Salary increases
Investment rate of return
3.0\%
3.75-5.8\% average, including inflation
$7.75 \%$, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 mortality table, projected to 2020 with Scale AA. The table includes a margin of $15 \%$ for men and $17 \%$ for women for mortality improvements.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2005 - June 30, 2010.

Long-Term Rates of Return. The long-term expected rate of return on pension plan investments was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation.

Following is a table presenting target allocations and long-term rates of return for 2015:

| Asset Class | Target Allocation | Weighted Average Long-Term Expected Real Rate of Return |
| :---: | :---: | :---: |
| Large Cap Equities | 22.50\% | 3.00\% |
| Small/Mid Cap Equities | 7.50\% | 3.00\% |
| Total domestic equity | 30.00\% |  |
| International Equities (unhedged) | 13.00\% | 4.00\% |
| Emerging International Equities | 7.00\% | 6.00\% |
| Total international equity | 20.00\% |  |
| Core Bonds | 4.50\% | -0.70\% |
| Short Duration | 2.50\% | -1.00\% |
| Global Multi-Sector Fixed Income | 11.00\% | 0.28\% |
| Unconstrained Fixed Income | 7.00\% | 0.16\% |
| Total fixed income | 25.00\% |  |
| Private equity | 5.00\% | 5.50\% |
| Private debt | 5.00\% | 4.50\% |
| Real estate | 10.00\% | 3.50\% |
| Opportunistic | 5.00\% | 2.75\% |
| Total alternative investments | 25.00\% |  |
| Total | 100.00\% |  |

Discount Rate. The discount rate used to measure the collective total pension liability was $7.75 \%$. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are determined based on the expected payroll of current members only. Employer contributions are determined based on the Plan's actuarial funding policy and as required by RSA 100-A:16. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine total pension liability.

The following table illustrates the sensitivity of the Lottery Commission's proportionate share of the Plan's net pension liability to changes in the discount rate. In particular, the table presents the Lottery Commission's proportionate share of the Plan's net pension liability measured at June 30, 2015 assuming it was calculated using a single discount rate that is one-percentagepoint lower or one-percentage-point higher than the single discount rate (in thousands):

| Fiscal year ended | $\begin{gathered} \text { 1\% Decrease } \\ \text { to 6.75\% } \end{gathered}$ | Current single rate assumption 7.75\% | $\begin{gathered} 1 \% \text { Increase to } \\ 8.75 \% \end{gathered}$ |
| :---: | :---: | :---: | :---: |
| June 30, 2015 | \$4,814 | \$3,675 | \$2,670 |

## B. Other Postemployment Benefits

In addition to the benefits described above, the State provides postemployment health care benefits in accordance with RSA 21-l:30 to eligible retired employees, their spouses and certain dependents. These benefits are provided through the Employee and Retiree Benefit Risk Management Fund, a single-employer defined benefit plan, which is the State's self-insurance fund implemented in October 2003 for active state employees and retirees. The State recognizes the cost of providing benefits by paying actuarially determined insurance contributions into the fund. An additional major source of funding for retiree benefits is from the New Hampshire Retirement System's medical premium subsidy program for Group I and Group II employees. Contribution rates for the Fund are adjusted periodically to recover any deficits and to maintain a statutorily required Fund Reserve. The Lottery makes payments to the State for its share of required contributions based on a set percentage taken from payroll.

The State's CAFR discloses the required contributions for the State as a whole. The Lottery's total payments to the State for its share of normal contribution costs for the medical subsidy and retiree health benefits paid for fiscal years 2014 through 2016 are as follows:

| Fiscal Year Ended June 30 | Number of Retirees and Spouses | Total Annual OPEB Cost |  | Normal and Required |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | ContributionCosts forMedical Subsidy |  | Medical Subsidy Percentage of Covered Payroll |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
| 2016 | 105 | \$ | 547,599 | \$ | 50,258 | 1.64\% |
| 2015 | 65 |  | 373,195 |  | 33,394 | 1.62\% |
| 2014 | 66 |  | 320,596 |  | 31,873 | 1.62\% |

Each of the three years costs was equal to the Lottery's required contributions for those years.
The Governmental Accounting Standards Board (GASB) No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits other than pensions requires governments to account for other postemployment benefits (OPEB), primarily healthcare, on an accrual basis rather than on a pay as you go basis. The effect is the recognition of an actuarially required contribution as an expense when a future retiree earns their postemployment benefit rather than when they use their postemployment benefit. To the extent that the entity does not fund their actuarially required contribution, a postemployment benefit liability is recognized on the balance sheet over time. The State appropriately implemented GASB 45 during fiscal year 2008 and recognizes the actuarial accrued liability and costs for all State employees, including Lottery employees, on the government wide financial statements. The State Legislature
currently plans to only partially fund (on a pay-as-you-go-basis) the annual required contribution (ARC), an actuarially determined rate in accordance with the parameters of GASB Statement 45. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

## Note 7 - Operating Lease

## Building Lease

The Lottery, as lessee, leases an office and warehouse facility located on Integra Drive in Concord, New Hampshire. The agreement is a long-term operating lease, which commenced on May 1, 2013 and expires on April 30, 2018. The total building lease cost for fiscal years 2016 and 2015 amounted to $\$ 406,825$ and $\$ 405,810$ per year respectively. The Lottery's commitment for future lease payments required under the operating lease is $\$ 755,145$. See table below showing future obligations by fiscal year.

| Fiscal Year |  | Amount |
| :---: | :---: | :---: |
| 2017 |  | $\$ 411,897$ |
| 2018 |  | 343,248 |
| Total |  | $\$ 755,145$ |
|  |  |  |

## Note 8 - Joint Ventures

GASB Statement No.14, The Financial Reporting Entity, defines a joint venture as a legal entity which results from a contractual arrangement and that is owned, operated or governed by two or more participants as a separate and specific activity subject to joint control in which the participants retain (a) an ongoing financial interest or (b) an ongoing financial responsibility. The New Hampshire Lottery Commission is an active participant in three separate joint venture arrangements: the Tri-State Lotto Commission (Tri-State), the Multi-State Lottery Association (MUSL), and Lucky for Life. Tri-State and MUSL joint ventures are audited by separate audit firms hired by the particular joint venture. For fiscal year 2016 Macpage, LLC, of South Portland, Maine audited Tri-State and LWBJ Financial of West Des Moines, lowa audited MUSL. The Lucky for Life joint venture holds each member lottery responsible for providing all other member lotteries with an annual report outlining that certain "Agreed Upon Procedures" have been completed by an independent firm hired by the perspective member lottery.

## A. Tri-State Lotto Commission

In September 1985, RSA 287-F established the Tri-State Lotto Commission (Tri-State) whereby the New Hampshire Lottery Commission entered into a joint venture with the Maine and Vermont lotteries. Tri-State is composed of one commissioner from each of the three state lotteries and is authorized to promulgate rules and regulations regarding the conduct of lottery games and the licensing of retailers. In addition, each of the member states contributes services towards the management and advisory functions.

The payments due winners for prizes awarded under Megabucks are fully funded by deposit fund contracts and investments in U.S. Treasury strips, held by Tri-State. Accordingly, the New

Hampshire Lottery Commission does not record a liability for jackpot awards which are payable in installments from funds provided by Tri-State. At June 30, 2016 Tri-State reported total installment prize obligations owed to jackpot winners of $\$ 30.56$ million, payable through the year 2045.

Each member state including the Lottery shares in all joint venture sales and expenses, including prize expenses, based on its pro-rata share of sales. Direct charges, such as advertising, vendor fees and the Lottery's per-diem payments are charged to participating states based on services received.

Tri-State has established a Designated Prize Reserve, which acts as a contingency to protect TriState against unforeseen liabilities. The balance in the Tri-State reserve at June 30, 2016 was $\$ 4,345,585$. The allocation for this reserve is based on each state's pro-rata share of sales; it is estimated that New Hampshire's portion of the reserve amounts to $\$ 1,748,051$ Lottery prize reserves held by the Tri-State are invested in U.S. Treasury notes. Tri-State policy dictates that if Tri-State dissolves or a state leaves the compact these reserve amounts will be used as future prizes to the state's lottery players.

## The New Hampshire Lottery Commission's portion of the Tri-State Lotto Commission games for fiscal year 2016 is summarized below:

| Operating revenues | \$ | 23,499,627 |
| :---: | :---: | :---: |
| Operating expenses |  |  |
| Prizes |  | 12,763,363 |
| Retailer commissions |  | 1,308,644 |
| Advertising and promotional |  | 1,307,167 |
| Vendor fees |  | 368,700 |
| Other operating expenses |  | 118,812 |
| Total operating expenses |  | 15,866,686 |
| Net operating income |  | 7,632,941 |
| Interest income |  | 40,187 |
| Net income from Tri-State | \$ | 7,673,128 |

The Tri-State Lotto Commission maintains its own financial statements, which have been audited by an independent CPA firm. The report dated October 1, 2016 issued an unqualified opinion on the Tri-State Lotto financial statements for the fiscal year ended June 30, 2016. The Tri-State Lotto Commission issues a publicly available annual financial report, which may be obtained by writing to the Tri-State Lotto Commission, 1311 US Route 302 Suite 100, Barre, Vermont 05671.

## B. Multi-State Lottery Association

The New Hampshire Lottery Commission became a member of the Multi-State Lottery Association (MUSL) in November 1995. MUSL is currently comprised of 37 member state lotteries, including the District of Columbia and the United States Virgin Islands. MUSL is managed by a Board of Directors, which is comprised of the lottery directors or their designee from each of the party states. The Board of Directors' responsibilities to administer the Multi-State Lottery Powerball, Hot Lotto, and Mega Millions games are performed by advisory committees or panels staffed by officers and independent contractors appointed by the board. These officers and consultants serve at the pleasure of the board and the board prescribes their powers, duties and qualifications. The

Executive Committee carries out the budgeting and financing of MUSL, while the board contracts the annual independent audit.

The Lottery sells Powerball tickets, collects all revenues, and remits prize funds to MUSL net of lower tier prize awards. Jackpot prizes that are payable in installments, are satisfied through investments purchased by MUSL. MUSL purchases U.S. government obligations, which are held in irrevocable trusts established by MUSL for the benefit of participating state lotteries. Accordingly, the Lottery does not record an obligation for jackpot awards which are payable in installments from funds provided by MUSL.

Each member state participates in the sale of Powerball tickets. Each member state including the Lottery shares in all joint venture sales and expenses, including prize expenses, based on its pro-rata share of sales. Each week MUSL allocates 50 percent of sales to the prize pool. Two percent of that prize pool is placed into two Powerball prize reserve funds. One of these funds, the Powerball prize reserve fund acts as a contingency reserve to protect MUSL members against unforeseen liabilities and is to be used at the discretion of the MUSL Board of Directors. The prize reserve fund monies, which are maintained on MUSL's balance sheet, are refundable after a one-year waiting period if a member leaves the Association or if the Association disbands. New Hampshire's total share of prize reserves held by MUSL amounted to \$2,300,408 at June 30, 2016.

At June 30, 2016 the total MUSL Powerball prize reserve fund had a balance of $\$ 72,114,390$. New Hampshire's portion of the prize reserve fund balance amounted to $\$ 1,035,435$. The second Powerball prize reserve fund, Powerball set prize reserve, is used when low tier prizes won exceed statistically calculated low tier prize monies. At June 30, 2016 the total MUSL - Powerball set prize reserve fund had a balance of $\$ 39,307,288$. New Hampshire's portion of the prize reserve fund balance amounted to $\$ 450,189$. The interest earned on prize reserve fund monies is used to pay MUSL operating expenses and any amounts over and above that are credited to an unreserved fund. The Lottery records this as interest when earned. This fund had a balance of \$16,259,687 at June 30, 2016. New Hampshire's portion of this unreserved fund amounted to $\$ 120,967$. MUSL's Powerball operating expenses are paid from interest earned on the prize reserves. The remaining interest is returned to the member states based upon the member's proportionate share of total Powerball game sales.

Fifteen member states have elected to participate in the sale of Hot Lotto tickets. Hot Lotto has been offered since April 2002. MUSL allocates 50 percent of the weekly sales to the prize pool. At June 30, 2016 the MUSL Hot Lotto prize reserve fund was $\$ 7,170,477$ with New Hampshire's share being $\$ 308,282$. Each participating member pays for a share of Hot Lotto operating expenses based upon the member's proportionate share of total Hot Lotto game sales.

Thirty six member states have elected to participate in the sale of Mega Millions tickets. Mega Millions has been offered to MUSL members since January 2010. MUSL allocates 50 percent of the weekly sales to the prize pool and an extra $1 \%$ to a prize reserve fund. At June 30, 2016 the MUSL Mega Millions prize reserve fund was $\$ 38,541,036$ with New Hampshire's share being $\$ 506,502$. Each participating member pays for a share of Mega millions operating expenses based upon the member's proportionate share of total Mega Millions game sales.

Lottery prize reserves held by the MUSL are invested according to a Trust agreement the Lottery has with MUSL outlining investment policies. The policies restrict investments to direct obligations of the United States Government, perfected repurchase agreements, obligations issued or guaranteed as to payment of principal and interest by agencies or instrumentalities of
the United States Government, and mutual funds of approved investments. The average portfolio maturity is never more than one year, except that up to one third of the portfolio may have an average maturity of up to two years. The maximum maturity for any one security does not exceed five years.

## The New Hampshire Lottery Commission's portion of the Multi-State Lottery's games for fiscal year 2016 is summarized below.

| Operating revenues | \$ | 56,510,087 |
| :---: | :---: | :---: |
| Operating expenses |  |  |
| Prizes |  | 27,426,015 |
| Retailer commissions |  | 3,162,792 |
| Advertising and promotional |  | 913,115 |
| Vendor fees |  | 976,620 |
| Other operating expenses |  | 36,601 |
| Total operating expenses |  | 32,515,143 |
| Net operating income |  | 23,994,944 |
| Interest income |  | 656 |
| Net income from MUSL | \$ | 23,995,600 |

MUSL maintains its own financial statements, which have been audited by an independent CPA firm. The report dated October 24, 2016 issued an unqualified opinion on the MUSL financial statements for the fiscal year ended June 30, 2016. MUSL issues a publicly available annual financial report, which may be obtained by writing to the Multi-State Lottery Association, 4400 NW Urbandale Drive, Urbandale, lowa 50322.

## C. Lucky for Life

The New Hampshire Lottery Commission became a member of the game known as Lucky for Life beginning sales on March 11, 2012, with the first drawing held on March 15, 2012. Lucky for Life is currently comprised of lotteries in 22 states and the District of Columbia. The member lotteries, each represented by a director or designee, jointly operate the Lucky for Life game.

The Lottery sells Lucky for Life tickets, collects all revenues, and remits prize funds and operating funds to MUSL. While Lucky for Life is not a MUSL game, the party lotteries pay a fee to MUSL to act as the game administrator (clearinghouse agent) for the Lucky for Life game. MUSL collects and re-distributes funds to the party lotteries when funds are due and purchases insurance annuities for the top two highest prize tiers when a winner does not choose a cash pay-out. The top two prize tiers are payable in installments and are satisfied through insurance annuities purchased by MUSL when a winner chooses the annuity option. MUSL purchases insurance annuities, on behalf of the member states, based on $\$ 365,000$ (top prize tier) or $\$ 25,000$ (second highest prize tier) per year deferred annuity paid annually on the anniversary of the claim date for the lifetime of the top prize winner. Accordingly, the Lottery does not record an obligation for jackpot awards which are payable in installments from funds provided by MUSL or the other party lotteries.

Each member state including the Lottery shares in all joint venture sales and expenses, including prize expenses, based on its pro-rata share of sales. The top two prize tiers' liability for each Lucky
for Life drawing is shared by each member Lottery based on an amount equal to a percentage of that member Lottery's Lucky for Life sales, said percentage being the proportion of the total jackpot/grand prize liability to total Lucky for Life sales. The member Lotteries are responsible for the prize liability for low-tier/set prizes (prize levels two through ten) as follows: each member Lottery is responsible for an amount equal to a percentage of that member Lottery's Lucky for Life sales, said percentage being the proportion of total Lucky for Life prize liability to total Lucky for Life sales.

The Lucky for Life game was designed to have a total prize percentage payout of 60 percent of sales, providing approximately one jackpot/grand prize winner annually and 17 second prize tier winners annually. The prize percentage of 60 percent is broken down to include a jackpot/grand prize amount equal to $10 \%$ of total sales, second highest prize tier equal to $12 \%$ of sales, and low-tier prizes of $38 \%$ of sales. Online lottery games are designed to provide an average payout over an extended period of time.

## The New Hampshire Lottery Commission's portion of the Lucky for Life game for fiscal year 2016 is summarized below.

| Operating revenues | $\$$ | $5,294,823$ |
| :--- | ---: | ---: |
| Operating expenses |  | $2,913,422$ |
| Prizes | 325,172 |  |
| Retailer commissions | 29,634 |  |
| Advertising and promotional | 82,796 |  |
| Vendor Fees | 13,270 |  |
| Other operating expenses | $3,364,294$ |  |
| $\quad$ Total operating expenses |  |  |
| $\quad$ Net income from Lucky For Life | $\$ \quad 1,930,529$ |  |

Each member lottery is responsible for providing all other member lotteries an annual report outlining that certain "minimum agreed upon procedures" have been completed by an independent audit firm hired by the respective lottery. The 'minimum agreed upon procedures" were established and approved by all twenty-one jurisdiction's s directors and finance members prior to the startup of Lucky for Life.

## Note 9 - Replay Program

In June 2006 the Commission implemented a program called "Replay" in which players become eligible for merchandise drawings by submitting non-winning lottery ticket codes to an online Replay website operated by the Lottery's advertising vendor. Merchandise prizes are contributed by area businesses in exchange for promotional consideration. The Commission accounts for contributed prizes by recording offsetting assets, liabilities, revenues, and expenses in Prepaid and Other, Accounts Payable, Other Operating Revenue, and Prize Expense, respectively.

## Note 10 - Risk Management

The Lottery is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The State generally retains the risk of loss except where the provisions of law allow for the purchase of commercial insurance or where commercial insurance has been proven beneficial for the general public. There are approximately 30 commercial insurance programs in effect including fleet automobile liability and faithful performance position schedule bond.

The State employs a blanket commercial policy that covers fleet automobile liability. The Lottery pays an annual premium for its vehicles to be covered under this policy. The Lottery also purchases indemnification bonds through the State for its commissioners to be bonded in accordance with New Hampshire RSA 284:21-c. Settled claims under these insurance programs have not exceeded commercial insurance coverage in any of the last three fiscal years.

Claim liabilities not covered by commercial insurance are recorded by the State when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. For the State of New Hampshire the liability not covered by commercial insurance relates primarily to worker's compensation claims and health benefit claims.

## Note 11 - Prize Annuity Due Winner

On November 29, 2006, the Lottery purchased from American National Insurance Company a 19 year annuity, on behalf of a prize winner. The American National Insurance Company has a rating of $A$ (strong capacity to meet financial commitments, but somewhat susceptible to adverse economic conditions and changes in circumstances) from Standard \& Poor's. The annuity is in the name of the prize winner and the Lottery does not recognize a liability for this annuity. The annual payment paid to the winner by the insurance company is $\$ 50,000$. The likelihood of this becoming a liability to the Lottery is low.

## Note 12 - Transfer of Operations

Effective July 1, 2015, Laws of 2015, Chapter 276, section 121 transferred all of the Racing and Charitable Gaming Commission's (RCGC) regulatory responsibilities, including the licensing of race tracks and charitable gaming entities, and the collection of taxes and fees associated with charitable gaming and Pari-Mutuel wagering to the Lottery Commission (Lottery). On July 1, 2015 the RCGC transferred the assets and liabilities comprising its regulatory operations to the Lottery Commission. Upon the transfer, the Lottery recognized the following assets, liabilities and net position.

| Transferred Assets |  |
| :---: | :---: |
| Cash and cash equivalents | \$ 91,225 |
| Due from other funds | 142,248 |
| Total current assets | 233,473 |
| Noncurrent assets: |  |
| Capital assets net of accumulated depreciation | 22,745 |
| Total noncurrent assets | 22,745 |
| Total assets | 256,218 |
| Deferred Out Flows of Resources | 100,000 |
| Transferred Liabilities |  |
| Current Liabilities |  |
| Accounts Payable | 900 |
| Accrued Payroll | 54,756 |
| Compensated Absences Payable | 56,775 |
| Total Current Liabilities | 112,431 |
| Noncurrent Liabilities: |  |
| Compensated Absences Payable | 179,787 |
| Net Pension Liability | 1,006,000 |
| Total Noncurrent Liabilities | 1,185,787 |
| Total Liabilities | 1,298,218 |
| Deferred Inflow of Resources | 147,000 |
| Net Position of Transferred Racing and |  |
| Charitable Gaming Operations |  |
| Unrestricted (Deficit) | $(1,089,000)$ |

## Statistical Section

This part of the New Hampshire Lottery Commission's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and supplementary information says about the Lottery's overall financial health.

## Contents

Pages

Financial Trends
55-59
These schedules and graphs contain information to help the reader understand how the Lottery's financial performance has changed over time. Please keep in mind the increase or decrease in net position does not reflect the condition of the Lottery's financial position because, by law, the Lottery is required to distribute all net profits to the Education Trust Fund on a monthly basis.

Demographic and Economic Information
These schedules and graphs offer demographic and economic indicators to help the reader understand the environment within which the Lottery's operations take place and where its revenues come from.

Operating Information
These schedules offer miscellaneous statistics showing the reader yearly comparisons of certain information contained in the Lottery's financial report as it relates to the programs it offers and the activities it performs.

Industry Comparisons

${ }^{1}$ The change in net position does not reflect the condition of the Lottery's financial position, because by law the Lottery is required to transfer all net profits to the Education Trust Fund on a monthly basis.
${ }^{2}$ State law restricts the maximum sales amount of a ticket to $\$ 30$.
${ }^{3}$ The increase in Unrestricted Deficit was due to an accounting change for fiscal year 2015 in accordance with GASB Statement No. 68
${ }^{4}$ The increase in Unrestricted Deficit in 2016 was due to the merger with Racing and Charitable Gaming (RCGC). See Note 12

## Sales By Game Last 10 Fiscal Years

Over the last ten years Instant Scratch Games sales were the strongest of all lottery products. Instant Games are, for the most part, an impulse purchase depending on discretionary spending. Consumers demand for more technologically advanced types of gambling also has effected sales. Powerball sales fluctuated widely over the last ten years due to the number and size of jackpots. A $\$ 300$ million jackpot can sell three times as many tickets as a $\$ 40$ million jackpot, however, large jackpots cannot be predicted and are subject to the "luck of the draw". In 2016 , Powerball had a record breaking jackpot of $\$ 1.6$ billion as well as 63 draws with jackpots of $\$ 100$ million or more.

${ }^{1}$ Monopoly offered from 10/24/14-12/26/14. ${ }^{2}$ The higher the jackpot amount, the more ticket sales increase. ${ }^{3}$ Expired unclaimed Powerball prize money goes to the Education Trust Fund.
${ }^{4}$ Pick 3 \& Pick 4 counted as two games. ${ }^{5}$ This is an estimate. ${ }^{6}$ The Lottery lost subscription purchases due to Master Card and Visa changing the Lottery coding to a gambling establishment rather than a government agency; thereby charging customers higher fees. Another factor that played into the number of subscriptions purchased was that the cost to customers for Megabucks doubled.
${ }^{7}$ The Lottery lost subscription purchases due to the cost of Powerball doubling from $\$ 1$ to $\$ 2$ per bet
