SUBJECT: Final Proposal 2021-115

To: File

Attached are Christina Muniz's comments on Final Proposal 2021-115 from the Department of Health and Human Services relative to the readoption with amendment of various provisions of He-P 805.

Most of the substantive comments relate to the public interest due to lack of clarity as noted, and therefore to legislative intent due to the potential for oral rulemaking in violation of RSA 541-A:22, I.
