

I oppose SB240 and SB241.

At a time when our politics are polarizing, allowing politicians to gerrymander to create even more polarized districts harms all of us. And prevents the competitive debate of ideas and compromise that we need.

I urge you to reconsider these manipulated NH Senate and Council maps and to draw fair maps based on independent, non-partisan input and factors that bind our communities across partisan divides like our school districts, hospital catchments, and public health networks.
