

October 5, 2021

According to the 2020 US Census, Auburn, NH has a population of 5,694. We are currently part of Senate District 14 which includes Londonderry and Hudson. The population of Londonderry is 26,932 while the population of Hudson is 25,394. We feel that our needs would be better met if we were paired with other towns around us who have similar populations and issues.

Campaigning and canvassing in towns with similar issues makes more sense for us as we don't have the same problems and situations that larger towns do. More time, money, and energy could be spent on finding a candidate that would assure that the town's issues are at the forefront. Candidate recognition is another factor in hopefully getting our candidate elected. Familiarity is key to more voter involvement and is more likely to be less partisan.
