Senator Fuller Clark Disappointed by Governor's Veto of SB 72

CONCORD—Today, **Senator Martha Fuller Clark (D-Portsmouth)** issued the following statement in response to Governor Sununu's veto of SB 72, relative to issuance of renewable energy certificates. The bill would have repealed the requirement that the public utilities commission estimate and give credit for the total yearly production for customer-sited sources that are net metered and for which class I or II renewable energy certificates are not issued.

"Governor Sununu's veto of SB 72 holds New Hampshire back from making progress on clean energy. SB 72 would have resolved a barrier to the growth of the solar energy market that big utilities use to their benefit. I am very disappointed that Governor Sununu is, once again, siding with big utilities at the expense of ratepayers and clean energy," said **Senator Fuller Clark**.
