

October 22, 2019

Hi Madam Chair –

As a follow up to the presentations on Thursday before the HB 617 committee on Recycling and Solid Waste Management in New Hampshire, Adam Peer from the American Chemistry Council asked that we pass along the following written material (see attached) that he discussed during his presentation. At the end of the letter there are various source materials and web addresses from programs and examples that he cited. For example, the link to the video presentation is noted in the last page of the letter: <https://www.materialsrecoveryforthefuture.com/>

Christine Cassidy of Dart Container asked me to pass along the following information regarding the Demand Champions and APR's guide to recyclability.

- Here is a great summary of the impact the Demand Champions had on increasing PCR's use. [https://www.plasticsrecycling.org/images/Recycling\\_Demand\\_Champions/demand\\_champions\\_graphic\\_horizontal\\_2019.pdf](https://www.plasticsrecycling.org/images/Recycling_Demand_Champions/demand_champions_graphic_horizontal_2019.pdf)
- Information on APR's Design Guide for Plastics Recyclability ; <https://www.plasticsrecycling.org/apr-design-guide/apr-design-guide-home>
- Lastly, more information on Dart's sustainability goals and our recent investment in The Vertical center in Mason, can be found here. <https://www.dartcontainer.com/sustainability/sustainability-commitments/>

Please let us know if you have any questions or need additional information. We look forward to continuing to work with the Committee on these issues.

Jodi
