I should also have mentioned, that these change requests also satisfy #6, as there are a couple of change request for changes in fund mix in OCOM.

Thanks!

Kerrin

Subject: #7

Hi Kevin/Jonah,

Here is the first batch of change request. I've also included a summary document. I've numbered all the documents to match the summary doc. You'll note that without the NHH adjustment it is a net reduction in GF. I will likely have another handful by midweek after PH has finished. As always, my goal will be to net zero (or net reduction) GF excluding the NHH request.

I would also note to the Committee that none of these represent any prioritized needs. We try to submit change requests only for financial changes (mostly mistakes or movement of items), any only submit otherwise when requested.

Kerrin
