6. (a) Summary of what the rule says and of any proposed amendments including whether the rule implements a state statute for the first time:

**The Department of Environmental Services is proposing to readopt the existing rules, Env-Or 300, implementing portions of RSA 146-A, *Oil Discharge or Spillage in Surface Water or Groundwater*. The rules specify requirements for the registration, design, installation, operation, maintenance, and monitoring of aboveground petroleum storage facilities. The existing rules are scheduled to expire on February 7, 2024, and are proposed to be readopted without amendment to continue the requirements in place. Pursuant to RSA 541-A:14-a, I, the existing rules will continue in effect for the duration of the readoption proceeding.**

6. (b) Brief description of the groups affected:

**The rules directly affect owners and operators of aboveground storage tank facilities regulated under RSA 146-A, and indirectly affect anyone who relies on groundwater for drinking water.**
