

Dear Senators,

As an independent voter, I can't help but be appalled at both the Senate and House Republican redistricting maps. Maximum effort has been made to create non-competitive voting districts that seek to render the votes of too many citizens useless. Democracy is being subverted.

But that seems to be the new normal for the Trump's Republican Party: gerrymandering and passing laws to suppress the vote of Democrats and manipulate the apparatus which counts and certifies the votes. This is a significant step toward autocracy, which suits Trump and his loyalists just fine.

All this is based on lies about voter fraud. Lies! The Republican party has no integrity, just an extraordinary need for power.
