

After speaking with Rep. Bergeron, I understand that you would like the detail with respect to our population densities across each ward. I have attached the report detailing our analysis of each ward and the effect of the proposed redistricting adjustments that was submitted along with the actual boundary adjustments which ultimately went to our public hearing.

These population numbers remain accurate with the exception of wards 2 and 6. After the comment period during the public hearing, the board made a slight adjustment to ward 6 by moving 20 residents back to ward 2 by readjusting the Wellington Road boundary line between the two wards back (see East side of map on page 9 of 10 within the report) to the pre-redistricting boundary line.

In effect, this changes the ward population table below (Excerpted from page 4 of the attached report) for a total population in ward 2 of 9,677 and ward 6 of 9,583. All other totals remain accurate.

**Subject:** Manchester Ward Lines - Redistricting

Good afternoon, Senator Gray and Representative Bergeron,

Please be advised that the City of Manchester has concluded our required redistricting process and ordained all pertinent ward line descriptions as amended by a unanimous vote of the Manchester Board of Mayor & Aldermen, effective December 21, 2021. I have attached both a copy of the official ward map including census block data as well a copy of the codified language describing each ward boundary.

If you need additional information or need me to formally provide this information to anyone else, feel free to contact me directly.

Sincerely,

Matthew Normand
